ADMINISTRATION

UNIVERSITY GOVERNANCE AND ADMINISTRATION

The University is governed by a board of 13 members, six selected by the state Legislature and seven self-perpetuating life members, in accord with the will of Thomas Green Clemson. The Board of Trustees is primarily responsible for adopting the long-range objectives of the University and the basic policies for achieving them; providing policy instruction for long-range planning; adopting the statutes of the University; electing the president of the University; employing the secretary of the board; maintaining ownership of University assets; and overseeing the evaluation of the University.

The president is the chief executive officer of the University, providing leadership to all phases of University planning, coordinating the operations of all units of the University, carrying out major University public relations functions, evaluating the results of University plans, and appointing personnel who report to the president. The day-to-day operations of the University are administered by the president and executive officers for advancement, public service and agriculture, and student affairs.

The Provost and Vice President for Academic Affairs is the chief academic officer of the University. The Provost is responsible directly to the president for all academic matters and has administrative jurisdiction over teaching and computing services. Vice provosts assist in administering and performing duties in coordinating graduate and undergraduate curricula; supervising computer information services, the libraries, scholarship and award programs; and other duties assigned by the Provost.

Academic deans are the chief administrative officers of their individual colleges and report directly to the Provost. They provide leadership in formulating and carrying out educational policy, review and make recommendations on personnel matters, and carry out and administer the academic and financial affairs of their colleges.

BOARD OF TRUSTEES

Leon J. Hendrix, Jr., Kiawah Island, Chair
John J. Britton, Sumter, Vice Chair
Bill L. Amick, Batesburg-Leesville

Daniel E. Youngblood, Easley
the sciences, and yet there is not one single institution on this continent where a proper scientific education can be obtained." When he was president of the Pendleton Farmers Society in 1866, Mr. Clemson served on a committee whose purpose was to promote the idea of founding an institution for "educating the people in the sciences" and which "will in time secure permanent prosperity."

When he died on April 6, 1888, a series of events began that marked the start of a new era in higher education in the state of South Carolina, especially in the study of science, agriculture, and engineering. Mr. Clemson's passing set the stage for the founding of the university that bears his name—the beginning of a true "people's university," which opened the doors of higher education to all South Carolinians, rich and poor alike. In his will, which was signed November 6, 1886, Mr. Clemson bequeathed the Fort Hill plantation and a considerable sum from his personal assets for the establishment of an educational institution of the kind he envisioned. He left a cash endowment of approximately $80,000 as well as the 814-acre Fort Hill estate to South Carolina for such a college. The biggest obstacle in the creation of an agricultural college—the initial expense—was removed by Mr. Clemson's bequest.

On November 27, 1889, Governor Richardson signed the bill accepting Thomas Clemson's gift. Soon after, a measure was introduced to establish the Clemson Agricultural College, with its trustees becoming custodians of Morris Act and Hatch Act funds made available for agricultural education and research by federal legislative acts. The founding of Clemson Agricultural College supplanted the South Carolina College of Agriculture and Mechanics, which had been designated in Columbia in 1880.

Thomas Green Clemson came to the foothills of South Carolina when he married Anna Maria Calhoun, daughter of South Carolina's famous statesman John C. Calhoun. Born in Philadelphia, Mr. Clemson was educated at schools both in the United States and France, where he attended lectures at the Royal School of Mines, studied with prominent scientists in the private laboratories of the Sorbonne Royal College of France, and received his diploma as an assayer from the Royal Mint in Paris. Mr. Clemson, then in his mid-20s, returned to America greatly influenced by his European studies. He became a great advocate of the natural sciences, achieving a considerable reputation as a mining engineer and a theorist in agricultural chemistry. He also was a gifted writer whose articles were published in the leading scientific journals of his day, an artist and a diplomat who represented the U.S. government as chargé d'affaires to Belgium for almost seven years.

Mr. Clemson had a lifelong interest in farming and agricultural affairs. He served as the nation's first superintendent of agricultural affairs (predecessor to the present secretary of agriculture position) and actively promoted the establishment and endowment of the Maryland Agricultural College in the 1850s. Though remembered today for these accomplishments, Thomas Clemson made his greatest historical contribution when, as a champion of formal scientific education, his life became intertwined with the destiny of educational and economic development in South Carolina. Although he never lived to see it, his dedicated efforts culminated in the founding of Clemson Agricultural College.

At the time of his death, Mr. Clemson was living at the Fort Hill homeplace, which today is a national historic landmark and provides a historic centerpiece for the Clemson University campus. He had inherited the house and plantation lands of his famous father-in-law, Senator Calhoun, upon the death of Mrs. Clemson in 1875.

Clemson College formally opened in July 1893, with an enrollment of 446. From the beginning, the college was an all-male military school. It remained this way until 1955, when the change was made to "civilian" status for students and Clemson became a coeducational institution. In 1964, the college was renamed Clemson University as the state legislature formally recognized the school's expanded academic offerings and research pursuits.

On November 27, 1989, the University observed the 120th anniversary of the State's acceptance of the terms and conditions of Mr. Clemson's bequest.

The enrollment of Clemson has grown from 446 students at the opening of the University to 17,309 for the first semester 2006-2007. Since the opening of the University, 99,531 students have been awarded Bachelor's degrees. During this same period, 426 Associate degrees, 27,425 Master's, 347 Education Specialist, and 2,875 Doctor's degrees have been awarded, a total of 130,604 degrees.

Today, more than a century later, the University is much more than its founder ever could have imagined. With its diverse learning and research facilities, the University provides an educational opportunity not only for the people of the State, as Mr. Clemson dreamed, but for thousands of young men and women throughout the country and the world.

THE CAMPUS

The 1,400-acre University campus is sited on the former homestead of statesman John C. Calhoun. Nestled in the foothills of the Blue Ridge Mountains and adjacent to Lake Hartwell, the campus commands an excellent view of the mountains to the north and west, some of which attain an altitude of over 5,000 feet above mean sea level.

The Norfolk and Southern Railway and U.S. Highways 76 and 123 provide easy access to the City of Clemson and to the University. Oconee County Airport is four miles from the library. Both Atlanta and Charlotte are two hours driving time away.

Campus architecture is a pleasing blend of traditional and modern facilities enhanced by a beautiful landscape of towering trees, grassy expanses, and flowering plants. Academic, administrative, and student service buildings on campus represent an insured value of $627 million. Clemson University's real estate holdings include over 32,000 acres of forestry and agricultural lands throughout the state, the majority of which are dedicated to Clemson's research and public-service missions.
VISION STATEMENT
Clemson University will be one of the nation’s top-20 public universities.

MISSION STATEMENT
The mission of Clemson University is to fulfill the covenant between its founder and the people of South Carolina to establish a “high seminary of learning” through its historical land-grant responsibilities of teaching, research, and extended public service.

Clemson University is a selective, public, land-grant university in a college-town setting along a dynamic southeastern corridor. The University is committed to world-class teaching, research, and public service in the context of general education, student development, and continuing education. Clemson’s desire is to attract a capable, dedicated, and diverse student body of approximately 12,000 to 14,000 undergraduate and 4,000 to 5,000 graduate students, with priority to students from South Carolina.

Just as Clemson values its students, the University also values its faculty and staff who have committed their talents and careers to advance its mission. Clemson pledges to support their work, to encourage their professional development, to evaluate their professional performance, and to compensate them at nationally competitive levels.

ACCREDITATION
Clemson University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the Bachelor’s, Master’s, Education Specialist, and Doctor’s degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097 or call 404-679-4500 for questions about the accreditation of Clemson University.

Curricula are accredited by AACSB International (Association to Advance Collegiate Schools of Business), Accreditation Board for Engineering and Technology, American Council for Construction Education, American Dietetic Association, American Society of Landscape Architects, Commission on Collegiate Nursing Education (CCNE), Council for Accreditation of Counseling and Related Education Programs (CACREP), National Architectural Accrediting Board, National Association of Schools of Art and Design, National Council for Accreditation of Teacher Education, NRPA/AALR Council on Accreditation, Planning Accreditation Board, and Society of American Foresters. Documentation of accreditation is available in the college deans’ offices.

ADVISING POLICY
To ensure that students receive both personal and professional assistance in navigating through curricula and University requirements toward degree completion and graduation, the Academic Council adopted the following policy. Each student is assigned to an academic advisor (either professional advisor or faculty advisor) upon admission to the University. Responsibilities of the student and the advisor are clearly delineated in the advising process. The University maintains continual and systematic assessment of the process. The University Academic Advising Committee is responsible for implementing specific guidelines and evaluating effectiveness.

Goal I—The following University mission statement on academic advising shall be widely disseminated and implemented:

“Academic advising is an ongoing educational process that connects the student to the University. Academic advising supports the University’s mission of preparing the student for learning beyond the confines of the academy. Academic advisors represent and interpret University policies and procedures to the student and help the student navigate the academic and organizational paths of the institution.”

Goal II—The University shall demonstrate a continuing commitment to effective academic undergraduate and graduate advising through appropriate recognition, communication, policies, and funding.

Goal III—Each college and department shall develop a plan of action for continued commitment to effective academic advising consistent with the University’s philosophy.

Goal IV—Academic advisors (faculty and professional staff) shall demonstrate effective academic advising consistent with the University, college, and departmental philosophies.

Goal V—Students shall be informed of their personal responsibilities in the advising process.

LIBRARIES
The Libraries’ Web site at www.lib.clemson.edu provides access to a multitude of information resources, including the library catalog, hundreds of databases, over 25,000 electronic journals, and information regarding library services.

The Libraries’ services include circulation, reference, interlibrary loan, class instruction, and tours. Cooper Library houses a computer lab (maintained by DCIT), Java City Cyber Café, Snax & Stax convenience store, and a Popular Reading and AudioBooks Collection. Equipment available includes photocopiers, scanners, fax machines, and wireless laptops in Cooper Library and a color laser printer, engineering plotter, and large-formatphotocopier in the Gunnin Architecture Library.

The Clemson University Libraries consist of a main library and three branches. R. M. Cooper Library, Clemson’s main library, is located at the center of campus. Most of the books and journals are located there, as well as government publications, microforms, and electronic materials. The Gunnin Architecture Library in Lee Hall contains collections that focus on architecture, city and regional planning, construction science, landscape architecture, and visual arts. Special Collections, on the lower level of the Strom Thurmond Institute, houses the rare book collection, University Archives, and many manuscript collections, including the papers of John C. Calhoun and Thomas Green Clemson. The Chemistry Reading Room in Hunter Chemistry Building contains periodical literature related to chemistry.

Total holdings for the library system include more than 1.6 million items in the form of books, periodicals, electronic resources, government publications and patents, musical recordings, DVDs and videos, audiobooks, maps, and microforms.

COMPUTING FACILITIES
Clemson Computing and Information Technology (CCIT) supports the computing needs of students and employees with comprehensive services including laptop support, training, printing, computer repair, software licenses, wireless access points, network and information security, course management system, and more.

CCIT also maintains numerous computer labs throughout the campus, five of which are public access. The labs contain high-end PCs running Windows XP and laser printing equipment. Students have access to the Internet, e-mail, and Microsoft Office Suite, which includes Word, Excel, and PowerPoint applications.

CCIT provides computer training and support to faculty, staff, and students in the use of the MyCLE portal and Web-based course management systems (Blackboard), the Clemson computer network, e-portfolios, and many desktop applications. This training is offered as part of regular University courses and through short courses, special training programs, and e-learning courses. Distance-learning processes and technologies are also supported with the goal of enhancing the design, production, and delivery of an increasing selection of University distance-education courses. On-line registration and a complete list of courses are available at www.clemson.edu/CCIT.

CCIT Support Center
CCIT provides support and consulting in a comprehensive Support Center located in the University Union. The Support Center serves as a central point of contact for those who need general computing, laptop support, and consulting services. Other CCIT Help Desks are located in M section of Martin Hall and on Level 5 of the Cooper Library. These Help Desks assist students in the use of hardware, software, and services. Information and hours of operation are available at helpdesk.clemson.edu, by calling 656-3494, or by e-mail (consult@clemson.edu).
Wireless Access
The campus computer network can be accessed through wired network connections found in all on-campus residences or through the University’s extensive wireless network. This wireless access network provides coverage to most areas of the campus. Students wishing to connect to the wireless network are encouraged to buy a wireless card with Cisco certified extensions. More information and complete coverage details, including a list of compatible wireless cards, can be found at wireless.clemson.edu.

Security
Clemson University requires all users to run virus protection and install the latest OS patches on their computers. Clemson has a site license for the McAfee products, VirusScan (Windows), and Virex (MacOS). These are located on the Software Archive at download.clemson.edu.

Laptop Program
All Clemson University undergraduate students are required to have laptops. While students may bring any laptop that meets the minimum specifications, recommended laptops are posted at laptop.clemson.edu. Clemson University has worked with vendors to offer recommended laptops at special discounted prices. Students using the recommended laptops will receive both software and hardware support. Limited support is also offered to students who have non-recommended laptops.

As part of the CCIT Support Center services, student employees are available to perform diagnostics and software assistance on laptops. Repair technicians are on hand to do warranty repairs on the recommended Clemson laptops, and many spare parts for these laptops are kept in stock. Students whose laptops must be in PC Repair for an extended period of time may check out a loaner laptop, subject on availability. Only students who have a recommended laptop model in for repair may take advantage of the loaner service.

More information is available at laptop.clemson.edu or by e-mail (LAPTOP-L@clemson.edu).

CALHOUN HONORS COLLEGE
Established in 1962, Calhoun Honors College strives to enrich the educational experience of highly motivated, academically talented students by providing opportunities for scholarship and research not always available to undergraduates.

Entering freshmen are invited to join Calhoun Honors College based on information on the Application for Admission to Clemson University, including high school rank and grade-point average, SAT and/or ACT scores, and other indicators of scholastic potential. No one factor alone is sufficient to warrant an invitation. The Honors Office extends invitations to those students who show promise of meeting the high academic standards of the Honors College. Admission is highly selective and is based, in part, on the quality of the applicant pool and the availability of space for freshmen in the Honors College.

Currently-enrolled Clemson students may apply for membership if they are full-time, degree-seeking undergraduates and have earned a cumulative grade-point ratio of 3.50 or higher as full-time students at Clemson. Students must have at least four semesters remaining to complete their degree requirements.

Special opportunities include summer study programs in Brussels, Belgium, and India and EU-REKA!, a summer research program for entering freshmen. Each of these programs requires a separate application.

The Calhoun Honors College is institutionally responsible for nationally competitive fellowships and awards including Rhodes, Marshall, Truman, Goldwater, and Fulbright.

In addition to the intellectual challenge of Honors, advantages of membership include priority course scheduling, honors housing (on a space-available basis), extended library loan privileges, and special lectures and cultural events.

Additional information is available at www.clemson.edu/cuhonors.

COOPERATIVE EDUCATION
The Cooperative Education Program is a planned program in which students combine alternate periods of academic study and periods of related work with a participating business, industry, agency, or organization. Work periods normally take place during the spring and fall semesters (including summers), while the freshman and senior years are spent in full-time study.

Students must qualify for the Cooperative Education Program by satisfactorily completing 30 credit hours of academic work. Transfer students must qualify in one semester. Three, four, or five co-op work periods are projected and included in each student's academic program. Usually two students from the same academic area are paired to fulfill full-time position or semester program.

Students enrolled in the Cooperative Education Program pay a nominal registration fee each semester or summer session which coincides with their work period. That fee enables students to maintain student status and participate in student activities and services that are normally associated with enrollment at the University; however, the fee does not cover the cost of tuition for academic courses, health service, or any of the other benefits normally associated with the standard University fee.

In responding to insurance, tax, loans, and other questionnaire about status, the University classifies a student on work assignment as a full-time continuing student. The work assignment is considered an integral part of the student's education, but no academic credit is awarded for this experience.

STUDY AND WORK ABROAD PROGRAMS
Through International Affairs, students may choose from a variety of programs offered overseas for a semester, academic year, or summer. Programs are varied to fulfill the needs of most students, such as the exchange programs at ICHC School in Brussels, Belgium, the University of Aberdeen in Scotland, University of Newcastle in Australia, University of Stellenbosch in South Africa, and Universidad de Alicante in Spain. There are programs for every academic major at Clemson. Programs are offered in Chile, China, Czech Republic, Ecuador, England, France, Germany, Japan, Mexico, Portugal, Russia, Scotland, and more. Both Clemson Programs Abroad and the International Student Exchange Program (ISEP) allow students to enroll and pay directly to Clemson while they study abroad. With the ISEP and GE3 consortia programs, students study for a semester or an academic year at one of more than 80 institutions worldwide. Transfer credit usually applies within the major with prior academic department approval. Financial aid and scholarships may also apply for many of the programs abroad.

Internships and work abroad programs are also available. Applications are usually due in October for spring programs, in March for fall and academic year programs, and not later than April for summer programs. Interested students are encouraged to contact International Affairs, E-309 Martin Hall, at the beginning of each semester and throughout the academic year to explore opportunities abroad.

RESERVE OFFICERS TRAINING CORPS
Air Force and Army
The Departments of the Air Force and the Army maintain ROTC units at Clemson University. Their mission is to produce officers of high quality for technical and nontechnical careers in the U.S. Air Force and Army. Two-, three-, and four-year programs are available. The four-year program consists of the basic course for freshmen and sophomores and the advanced course for juniors and seniors.

Scholarships, available to selected ROTC students, pay for tuition, books, and laboratory expenses, in addition to a variable stipend ranging from $250–$400 per month during the school year. Non-scholarship advanced cadets also receive a stipend. Basic course credit may be awarded to students having prior military service.

Selected advanced Air Force cadets receive flight training at government expense. Reserve or National Guard duty can be guaranteed by the U.S. Army.

Cadets who complete the Advanced or Professional Course and satisfy commissioning requirements are appointed Second Lieutenants. Ample opportunity exists for graduate study in both services, with temporary defferments possible.
HONOR ORGANIZATIONS
Clemson University has a number of academic honorary societies which recognize outstanding scholarship by students, faculty, and staff:

- Alpha Epsilon Delta (Premedical)
- Alpha Epsilon Lambda (Graduate Students)
- Alpha Lambda Delta (Freshman)
- Alpha Pi Mu (Industrial Engineering)
- Alpha Zeta (Agriculture)
- Beta Alpha Psi (Accounting)
- Blue Key (Juniors and Seniors)
- Calhoun Honors Society (Honors College)
- Chi Epsilon (Civil Engineering)
- Eta Kappa Nu (Electrical and Computer Engineering)
- Eta Sigma Gamma (Health Education)
- Golden Key National Honor Society (Juniors and Seniors)
- Kappa Delta Pi (Education)
- Keramos (Ceramic and Materials Engineering)
- Mortar Board (Seniors)
- Mu Beta Psi (Music)
- Omicron Delta Kappa (Leadership)
- Order of Omega (Seniors)
- Phi Kappa Phi
- Phi Psi (Textiles)
- Phi Sigma Pi (Honorary)
- Pi Delta Phi (French)
- Pi Tau Sigma (Mechanical Engineering)
- Psi Chi (Psychology)
- Sigma Tau Delta (English)
- Tau Beta Pi (Engineering)
- Tau Sigma Delta
- Upsilon Pi Epsilon (Computer Science)
- Xi Sigma Pi (Forestry)

Clemson University Experiment Station
The Clemson University Experiment Station is part of a nationwide system of scientists working to improve the quality of life for people in their home state, the nation, and the world.

Both undergraduate and graduate students work with researchers to develop science-based information needed to address issues such as agricultural productivity and profitability, economic and community development, environmental conservation, food safety and nutrition, and youth development. Clemson scientists have been involved in agricultural and forestry research since the University was founded in 1889. Today research is conducted in state-of-the-art laboratories, as well as on farms and forests on the Clemson campus and at five research and education centers strategically located in the state's distinct soil and climate regions.

Clemson researchers collaborate with colleagues on studies that span the globe. These include the genetic structure and functions for plants and animals, the impact of urban sprawl on the environment, techniques to reduce bullying in schools, the active ingredients in medicinal plants, and the use of nanotechnology in food packaging to detect contamination. Their work has produced more than 100 new varieties of food and fiber crops and more than 40 patents. Each year work is conducted on more than 100 projects funded through federal, state, and private sources, including the U.S. Department of Agriculture, the U.S. Forest Service, the National Science Foundation, the South Carolina General Assembly, and corporate partners.

Clemson University Foundation
The Clemson University Foundation is a nonprofit organization that solicits, manages, and administers gifts from private sources for academic programs at Clemson University. Chartered in 1933, the Foundation is a primary component of the Advancement Program at the University. There are 36 elected members of the Board of Directors. Currently, 34 of the 36 are Clemson alumni. The Board also includes seven automatic directors, including an undergraduate student representative; 14 ex officio directors, including a graduate student representative; and 14 honorary directors.

The Foundation operates through committees that report via an Executive Committee to the full Board. These include the Budget Review, Development, Investment, Nomination, and Policy and Bylaws Committees. The Audit Committee is responsible directly to the Board. Fund raising is managed by the Development Committee and, if applicable, a Campaign Executive Committee. This includes solicitation of annual, major, planned, corporate, and foundation gifts in support of University priorities and coordination of college-based fund-raising initiatives. Organizations affiliated with the Clemson University Foundation include the Clemson University Continuing Education/Conference Complex Corporation, the Clemson University Real Estate Foundation, and the Wallace Foundation for Environmental Research and Education. As of June 30, 2005, the Clemson University Foundation managed more than 1,000 endowments. The combined CUF-CU managed investment portfolio totaled $258 million.

Clemson Alumni Association
The Clemson Alumni Association's action phrase is "Your Lifelong Connection to Clemson." Their mission is to serve, to inform, to involve. The Alumni Association works for the more than 105,000 alumni located around the world, sponsoring programs to provide a link between students of yesterday, today, and tomorrow.

In conjunction with volunteers and traveling University staff, Clemson Clubs and Clemson activities are conducted around the world. Alumni are kept informed through the award-winning Clemson World magazine and at alumni.clemson.edu. Students, alumni, and constituency programs, as well as publications and electronic resources, form the basis for an array of services offered to alumni, students, parents, and friends of the University.

CAMPUS VISITS AND TOURS
One of the best ways to discover all Clemson has to offer is through a visit to the campus. The Class of 1944 Visitors Center helps host prospective students' Clemson experience. Information, audio-visuals, parking passes, and tours are all easily accessible. The Visitors Center is located just off Highway 93 adjacent to the Alumni Center. Normal hours of operation are Monday–Friday, 8:00 A.M.–4:30 P.M.; Saturday, 9:00 A.M.–4:30 P.M.; and Sunday, 1:00–4:30 P.M. Hours vary according to the academic calendar, University holidays, and the home football schedule.

Walking tours, guided by volunteer student members of the University Guide Association, are available at 9:45 A.M. and 1:45 P.M. Monday–Saturday and 1:45 P.M. on Sundays. Tour schedules also vary based on the academic calendar, University holidays, and the home football schedule. Tours are conducted rain or shine, last about two hours, and include an information segment at the beginning.

Reservations are highly recommended and can be arranged on-line at www.clemson.edu/welcome/center/index.htm or by calling 864-656-4789.
ADMISSION

Admission information can be found at www.clemson.edu/admission/.

APPLICATION FORMS AND DATES

Applicants are encouraged to apply on-line. Copies of both the preliminary application and the application for admission are available at www.clemson.edu/admission/undergrad/index.htm. Paper applications can be obtained by writing the Office of Admissions, Clemson University, 105 Sikes Hall, Box 345124, Clemson, SC 29634-5124. Freshman candidates are especially encouraged to submit preliminary applications and sit for the SAT or ACT during the spring semester of their junior year. Copies of both the preliminary application and the application for admission are available at www.clemson.edu/admission/undergrad/index.htm.

Candidates should understand that admission is closed when all classroom space has been committed. The majority of freshman admission decisions are communicated during the middle of February. Transfer students seeking entrance in August are usually notified between February and July. Candidates must submit a nonrefundable fee of $50 (subject to change) with the application. This fee is not applicable toward tuition and/or other University fees.

FRESHMEN

Admission to the University is competitive and is based primarily upon high school curriculum, grades, class standing, and SAT or ACT scores. An applicant's intended major and state residency also receive consideration. To apply for admission, a candidate must submit a high school transcript through his/her counselor and have results of the SAT or ACT sent directly from the testing agency. In addition, all applicants for freshman admission should complete the following courses in high school:

**English**—4 credits

All four courses must have strong grammar and composition components, with at least one in English literature and at least one in American literature. College preparatory English I, II, III, and IV will meet these requirements.

**Mathematics**—3 credits

These include algebra I (for which applied mathematics I and II may count together as a substitute if a student successfully completes algebra II), algebra II, and geometry.

**Laboratory Science**—3 credits

Two must be selected from biology I, chemistry I, or physics I.

**Foreign Language**—3 credits

All three must be earned in the same language.

**Social Sciences**—3 credits

American history is required. One-half credit of government and one-half credit of economics are also recommended.

**Physical Education/ROTC**—1 credit

**Other**—2 credits

One of these must be a fourth year of mathematics, laboratory science, or foreign language. Students interested in engineering are strongly encouraged to take a fourth year of mathematics. This course should be selected from precalculus, calculus, statistics, or discrete mathematics. The second credit must be in advanced mathematics, computer science, or a combination of these; or one unit of world history, world geography, or western civilization.

The SAT or ACT examination scores, rank in class, academic preparation, and recommendation of the high school counselor will be weighed carefully in the decision-making process. The applicant's acceptance will be confirmed upon presentation of a final high school transcript indicating continued academic progress and graduation.

**Entrance Examinations**

All freshman candidates and some transfer students must submit scores from either the SAT or ACT. For August enrollment, it is recommended that students complete the SAT or ACT no later than the preceding December. Registration materials for these tests are readily available at high schools or can be obtained by contacting the College Board at 609-771-7600 or www.collegeboard.org. The SAT code for Clemson is 5111. The ACT code for Clemson is 3842. Photocopies of student test reports or those submitted by third parties, such as high schools and colleges, are not accepted.

**International Baccalaureate (IB)**

Credit Policy

Clemson University endorses the International Baccalaureate (IB) Program and awards credit for IB Higher Level scores as indicated below.

1For students taking the calculus sequence, MTHSC 106 and 108. Upon completion of MTHSC 108 with a grade of C or better, credit will be given for MTHSC 106.
College Board Advanced Placement Program

The College Board Advanced Placement Program (AP) gives highly motivated high school students an opportunity to begin their college careers during the last year or two of high school. AP participants take college-level courses in high school, sit for nationally administered examinations in the subjects concerned, and submit test grades to Clemson for credit. Credit is awarded to those earning grades of 3, 4, or 5 on AP exams.

Applicants should be sure to include their social security numbers when registering for AP examinations; this will save time and ensure that credit is automatically awarded to their Clemson academic records.

### Placement Tests

#### Mathematics Placement

Freshmen mathematics placement is determined by the applicant’s score on the Clemson Mathematics Placement Test (CMPT). The CMPT is required for all freshmen and transfer students. Failure to complete satisfactorily the CMPT will result in placement in preparatory work that, in most cases, will not apply toward the general education mathematics requirement. Placement will be adjusted as needed after AP and IB scores have been received by Clemson.

#### English Placement

The Department of English offers placement tests that students are required to take during summer orientation. Any student who has had at least one year of a foreign language and who decides to continue with the same language at Clemson, must take one of these tests. Applicants desiring advanced placement in a foreign language may take the College Board’s SAT Subject Test, Advanced Placement (AP) Examinations, or the International Baccalaureate (IB) Higher Level Examination. SAT Subject Test scores of 650 or higher enable students to exempt one or more AP foreign language courses. These students will receive credit following the successful completion (grade of 4 or better) of a qualifying course at Clemson.

#### GED

Candidates submitting General Educational Development (GED) credentials in lieu of a high school diploma must be 19 years of age or older. Official GED score results must be received directly from the General Educational Development Testing Service along with an official copy of the high school transcript and SAT or ACT scores. Applicants presenting the GED will be reviewed by the Undergraduate Admissions Committee.

#### Appeals

Any freshman or transfer candidate who is denied admission may appeal for reconsideration provided the student (1) presents new information, such as improved grades and/or class rank, improved SAT or ACT scores; and (2) submits a letter outlining the rationale for the appeal. All appeals will be reviewed by the Office of Admissions. In some instances, appeals will be referred to the Undergraduate Admissions Committee.

Freshmen students who are accepted to and enrolled in Clemson University in a conditional admissions program through the appeals process must meet the conditions of their admission or be subject to disenrollment.

#### Admissions Exceptions

If it is not possible to make a positive decision on the basis of previous academic performance and SAT or ACT scores, other factors, such as special talents or high school profile, may be considered. Where appropriate, the Office of Admissions will refer such cases to the Undergraduate Admissions Committee. Student athletes who do not meet regular admissions standards may be admitted if they meet Atlantic Coast Conference (ACC) and National Collegiate Athletic Association (NCAA) eligibility requirements.
TRANSFER STUDENTS
All transfer applicants must have original transcripts of their records sent to Clemson directly from each college or university attended. Unless so stated on the transcript, the candidate should present statements of honorable dismissal and of eligibility to return to the institution last attended. Transfer admission is moderately competitive. To increase their chances for admission, potential students should have the following qualifications:

• completion of a year of college study with 30 semester hours (or 45 quarter hours) of transferable credit
• a minimum 25 grade-point ratio (3.0 preferred).  Note: Majors such as Architecture; Communication Studies; Construction Science and Management; Early Childhood Education; Elementary Education; Health Science; Landscape Architecture; Nursing; Parks, Recreation, and Tourism Management (Professional Golf Management); Production Studies in Performing Arts; Secondary Education (Social Studies); and Visual Arts have more selective admission standards. Students interested in these majors are encouraged to apply early and contact the Office of Admissions for current admission requirements.
• freshman level math, science, and English requirements for the intended major at Clemson

Note: Some programs have more selective admission standards.

Application deadlines are December 1 for consideration for the spring semester and July 1 for consideration for the fall semester. In most cases, admission decisions will be made once the year of college study is completed. Summer school applicants should have all credentials sent at least two weeks prior to the beginning of the term. Admission is closed when all classroom space has been committed.

Information regarding transfer from a South Carolina technical college is contained in the brochure S.C. Technical College Transfer Guide, available through the Office of Admissions at the address below. Prospective transfer students are also encouraged to refer to the University’s Web site at www.clemson.edu or the South Carolina Commission on Higher Education’s Web site at www.che400.state.sc.us.

Students who are unsure to which South Carolina college or university they would like to transfer after their initial coursework at a South Carolina technical college may follow the transfer block system. These transfer blocks are posted on the Internet at www.clemson.edu/admission/transfr. Depending on the student’s chosen major, some courses may not be applicable toward graduation requirements. Contact the Office of Admissions for information.

Phone: (864) 656-2287
FAX: (864) 656-2464

Transfer Credit
Coursework completed with a grade of C or better at other regionally accredited institutions, including correspondence courses, telecourses, and exempted courses, will be evaluated for transfer in terms of equivalent courses included in the Clemson curriculum of the student’s choice. This does not guarantee that all courses taken at other institutions will be accepted for transfer. The acceptability of each course or exemption will be based on an evaluation by the faculty concerned. Coursework earned at different institutions will not be joined to equate with one Clemson course. No course taken at a nonbaccalaureate-degree granting institution may be used as an equivalent or substitute for any 300- or 400-level Clemson course.

Learning experiences including, but not limited to, military service schools, non-collegiate sponsored instruction, work related experiences, etc. will not be evaluated for transfer; however, enrolled students may request credit by examination from the appropriate department for any non-transferable learning experience. For additional information, see Advanced Placement and Credit by Examination on page 24.

Students transferring may select the curriculum that was outlined in the Clemson University Undergraduate Catalogue at the time they entered the sending institution, provided they have been in continuous enrollment. Further, transfer students may select any curriculum adopted subsequent to that initial curriculum. After enrolling at Clemson, if transfer students change from one major to another, they will complete all of the requirements included in the new curriculum that are in effect at the time of the change. If all work toward a degree is not completed within six years after the initial enrollment at the sending institution, the student may be required to take additional courses.

College Board College-Level Examination Program (CLEP)
This program has very limited recognition at Clemson. A few departments accept credit for CLEP subject-matter examinations; however, CLEP General Examinations are not recognized. Credit is awarded for introductory-level courses according to criteria established by the following departments: Chemistry, English (composition only), and Mathematical Sciences (algebra and trigonometry only). Numerical scores plus essays, required when offered as part of a CLEP examination, will be evaluated by the appropriate department. CLEP is designed primarily for adults with nontraditional learning experiences.

ADMISSION DEPOSIT
With the exception of certain University scholarship recipients, all accepted freshman and transfer candidates for fall semester are required to submit a nonrefundable $100 admission deposit. This deposit is applicable toward tuition and other University fees.

HOUSING
All 2007-2008 entering freshmen are guaranteed on-campus housing. The University housing policy requires all freshmen to live in University housing, unless they live with a parent or other close adult relative. New transfer students are offered University housing as space permits.

ORIENTATION PROGRAMS
The University offers a series of orientation programs during the summer for freshmen and transfer students and their parents. All accepted students are expected to attend one of the sessions. During orientation, students will have an opportunity to discuss their educational objectives with an advisor, to register for the fall semester, and to learn about student life and other co-curricular activities. Transfer students will have their transcripts evaluated and select appropriate courses for their first semester at Clemson. The freshman student program fee is $100 per student and the transfer student program fee is $85 per student, subject to change.

Although students are strongly encouraged to attend summer orientation, abbreviated make-up sessions are held on August 19 for freshmen and their parents and on August 20 for transfer students and their parents. International students are expected to attend the session held on August 19 after attending the mandatory orientation for all international students on August 17, which is conducted by International Student Programs in the Gantt Intercultural Center.

INTERNATIONAL UNDERGRADUATES
Admissions services for undergraduate international students are provided by the Office of Admissions. International students who come from abroad or transfer from another school must meet academic, language, and financial qualifications as determined by Clemson University. The SAT or ACT is required of all international applicants (freshman or transfer). The Test of English as a Foreign Language (TOEFL) is required of applicants from countries where English is not the native language. Financial qualifications are determined by the submission of a financial certification form and bank statements verifying adequate funding. Student visa services are provided by Campus Immigration Services.
SPECIAL STUDENT STATUS

The special student classification is designed for high school graduates, 19 years of age or older, who wish to take a limited number of courses for personal or professional development. This program is not appropriate for individuals who are interested in earning an undergraduate degree. In addition, it is not a “trial admission” status or one for candidates who apply too late to submit credentials for consideration for regular admission. Applicants denied regular admission to Clemson are not eligible to apply as special students.

None of the usual credentials supporting an application are required of special student applicants. A cumulative maximum of 18 undergraduate credit hours may be taken. Contact the Office of Admissions, 105 Sikes Hall, Clemson, SC 29634-5124.

READMISSION OF FORMER UNDERGRADUATES

Undergraduate students who have previously attended Clemson and wish to return must secure an application for re-entrance from the Registrar’s Office. Students are readmitted into the major they were in when they last attended Clemson. Change-of-major forms are available in the Enrolled Student Services Office. Former students must meet the catalog curriculum requirements for graduation in effect at the time of their return. Students are required to satisfy the University’s general education requirements in addition to curricular requirements. Any variations in curricular requirements will be considered under the substitution procedures. If all work toward a degree is not completed within six years after entrance, the student may be required to take additional courses. Other information can be obtained from the Registrar’s Office.

POSTBACCALAUREATE STUDENTS

Applicants may be accepted by the Graduate School as postbaccalaureate if they apply to a graduate degree program but do not have the appropriate academic background. Applicants must be recommended by the appropriate department or program chair and should meet all other requirements for admission to the degree program with respect to grade-point ratio and standardized test scores. Postbaccalaureate applicants who are denied admission because of failure to meet the minimum requirements have access to the same appeal procedure as other applicants applying for admission.

Applicants will be classified as postbaccalaureate if they are not qualified to take at least one graduate course per semester which can be included in the minimum hours required for the graduate degree. Additionally, students required to complete eighteen or more semester hours of undergraduate credits prior to enrolling in graduate credits will be classified as postbaccalaureate. The postbaccalaureate status will remain in effect until the number of required undergraduate credit hours is less than or equal to eighteen and the student is qualified to take, each semester, a graduate course which can be included in the minimum hours required for the graduate degree. Departments or students may request postbaccalaureate status even though the above criteria are satisfied.

Once postbaccalaureate students become eligible for classification as graduate students, the decision as to eventual admission status (full or provisional) will be made based on criteria utilized by the department and Graduate School for all other applicants to the degree program. Postbaccalaureate students are expected to maintain a B average and receive no grade lower than C to qualify for admission to a graduate program.

Postbaccalaureate students may enroll in the same number of credits per semester as undergraduate students but may not enroll in graduate courses or receive graduate assistantships. No degree or certificate shall be awarded to students in a postbaccalaureate status, and such students who subsequently wish to obtain an additional baccalaureate degree must apply through the Office of Admissions. The applicability of credits earned toward the undergraduate degree will be determined by the policy pertaining to transfer students. Tuition and fees for postbaccalaureate students shall be those applicable to undergraduate students and are subject to out-of-state fees, if applicable.

Students possessing undergraduate degrees or graduate degrees who wish to enroll in undergraduate courses for reasons other than future admission to graduate study shall not be classified as postbaccalaureate and shall be governed by policies established by the Office of Admissions.
Financial Information

The annual State Appropriation Act imposes the general requirement that student fees be fixed by the University Board of Trustees. The Act imposes two specific requirements on the Board: (1) In fixing fees applicable to academic and general maintenance and operation costs, the Board must maintain a minimum student fee not less than the fee charged the previous year. (2) In fixing fees applicable to residence hall rental, dining halls, laundry, infirmary, and all other personal subsistence expenses, the Board must charge students an amount sufficient to cover fully the cost of providing such facilities and services.

The tuition and fees for all students—full or part time and auditing—are available at www.clemson.edu/receivables/fees.htm. Satisfactory settlement of all expenses is a requirement for completing each semester’s class registration, and no student is officially enrolled until all past due accounts have been satisfied. Financial aid cannot be used to satisfy balances forward from a prior academic year.

In special cases the University will accept, at the beginning of a semester, a noninterest-bearing promissory note for a portion of the semester housing and semester meal plan fee. Amounts up to $450 for room rent and $450 for 5- or 7-day meal plans may be included in the note. In such cases, a note for the fall semester charges will be due October 1, and for the spring semester, March 1. Failure to pay the note when due will result in the assessment of late fees, including collection costs, and termination of board plan and/or cancellation of housing contract.

Currently enrolled students who expect to continue enrollment may make housing reservations by pre-registering on-line during the spring semester at a time designated by the Housing Office.

New students who are offered on-campus housing accommodations must pay a nonrefundable $50 housing application fee and a $100 admission deposit. The admissions deposit is deducted from the amount otherwise due for the first semester expenses. (Note: Policies regarding priority to/offering of on-campus housing are subject to change.)

Tuition and Fees

Detailed tuition and fee information is available at www.clemson.edu/receivables/fees.htm.

Late Enrollment Service Charge

Registration for classes is scheduled for specific days, and definite procedures are outlined to avoid the problems incident to late registration. A student has not completed registration until all required steps have been taken. Any student failing to complete registration on the specified class registration days will incur a late enrollment charge.

Full-Time Fees

Students must be enrolled in 12 semester hours to pay full-time fees. Students enrolled in less than 12 hours or who drop below 12 hours may become ineligible for some student services, financial aid, or other programs.

Part-Time Fees

Students taking less than 12 semester credit hours will be charged according to the schedule at www.clemson.edu/receivables/fees.htm. These fees do not provide for admission to athletic events, concert series, and other such activities.

Notice to Customers Making Payment by Check

If a check is mailed for payment, it may be converted into an electronic funds transfer (EFT). This means a copy of the check will be made and the account information will be used to debit the bank account electronically for the amount of the check. The bank account will be debited within 24 hours and will be shown on the drawer’s bank account statement.

The original check will not be returned to the drawer. It will be destroyed, but University Revenue and Receivables will retain a copy of it. If the EFT cannot be processed for technical reasons, the drawer will be notified and the University Revenue and Receivables will process the check by mail in place of the original check. If the EFT cannot be completed due to insufficient funds, the University may try twice more to make the transfer. A returned item fee of $25 will be charged and collected by EFT.

Returned Checks, EFTs, and Credit Card Payments

A check, EFT, or credit card given in payment of a University expense which is returned unpaid by the bank creates an indebtedness to the University. University Revenue and Receivables administers matters relating to the collection of all returned items for students and non-students.

University Revenue and Receivables will represent returned items for payment of academic fees. A $25 fee will be charged for each returned item. If a check is returned or dishonored for any reason, the student’s account may be debited electronically for the amount of the check plus the $25 returned item fee.

In addition, students with returned items for payment of academic fees are also subject to a late payment fee of $5 per calendar day, not to exceed $350, beginning on the last day of late registration. If the item is returned to the University in a timely manner with no response from the student or drawer, a written request to disenroll the student will be made to the Registrar. If the request is approved, the percentage of refund will be applied to the debt. If the item is returned after the midpoint of the semester with no response, a decision will be made by the Director of University Revenue and Receivables and the Registrar as to the effect of disenrollment. The University may request subsequent payment for academic and other fees by accepting only cash, certified checks, or money orders.

Any individual who uses a two-party check for payment of University expenses will be held responsible for that check if it is returned unpaid by the bank. Items used as payment for various University services such as meal plans, housing, etc., that are later returned unpaid by the bank, give the University the right to cancel such services and cause forfeiture of any refund.

Any returned items not collected by the above procedures may be turned over to a collections agency and the indebtedness reported to a credit bureau. All collection costs will be added to the debt. Transcripts and diplomas will be withheld pending payment, and the debt may be deducted from state income tax refunds.

Abuse of check payment privileges may result in the restriction of such privileges for an indefinite period of time based on the frequency and/or dollar amount, as determined by University Revenue and Receivables.

Fast Due Accounts

Any indebtedness to the University which becomes past due immediately jeopardizes the student’s enrollment, and no such student will be permitted to register for an ensuing semester or summer term. Billing fees and/or collection costs may be added to the indebtedness. Further, any student who fails to pay all indebtedness, including collection costs, to the University may not be issued a transcript or diploma. Unresolved debts may be turned over to a collections agency, reported to a credit bureau, and deducted from state income tax refunds. Debts include, but are not limited to, parking violations, library fines, rent, and academic fees.

Refund of Academic Fees

(Tuition, University Fee, and Medical Fee) for Students Withdrawing, Dropping to Part Time, or Part-Time Students Dropping Credit Hours

No refunds will be made on a semester’s tuition and fees after four weeks from the last day to register. In the case of a withdrawal from the University, refunds will be based on the effective date of the withdrawal. In the case of a withdrawal from a course, refunds will be based on the date the student drops the course using the on-line registration system. To be eligible for a refund, the student’s request must be received by University Revenue and Receivables prior to the beginning of the next fall/spring semester or subsequent summer term. Beginning with the day following the last day to register, refunds for periods of four weeks or less during fall/spring semester shall be made on the following basis. Students receiving Title IV Financial Aid follow a different policy. Contact University Revenue and Receivables, G-08 Sikes Hall, for details.
Refunds of Financial Aid for Students Withdrawing from the University

Refunds of academic fees are made in accordance with semester and summer session refund policies. First semester freshmen and first semester transfers receiving Title IV financial aid are under a different policy based on federal guidelines. Details are available in G-08 Sikes Hall. University housing refunds are made according to the policy above. Meal plan refunds are made on a pro rata basis.

Since financial aid is expected to meet or help meet educational costs, any academic fee, housing, or meal plan fee for students withdrawing from the University up to the amount of financial aid received for that semester or summer session, will be refunded to the Financial Aid Program(s) from which the student received assistance.

Students receiving Title IV Funds (Federal Pell Grant, Federal SEOG, Federal Perkins, Federal Stafford Loans—unsub or sub) or Federal Plus Loans who withdraw from the University are subject to the Return of Title IV Funds regulations. Students with funds from any of these programs earn their financial aid dollars while enrolled. If a student withdraws prior to completing 60% of a term, a proportionate portion of the federal financial aid dollars must be considered unearned and returned to the federal programs and could cause students to owe the University a significant amount upon withdrawal.

In addition to the amount of federal aid that Clemson must return, students who received financial aid for other educational costs, including off-campus living expenses, may be required to repay a portion of those funds to the federal programs. Failure to return aid owed to the federal aid programs may result in loss of eligibility for federal aid assistance.

Federal aid funds to be returned are distributed to the programs in the following order:

- Unsubsidized Federal Stafford Loan
- Subsidized Federal Stafford Loan
- Federal Perkins Loan
- Federal Plus Loan
- Federal Pell Grant
- Federal SEOG
- Other Title IV Programs
- Non-Title IV Programs

After the refund has been applied to the Title IV and non-Title IV programs, any refund balance will be refunded to the student.

If debts were incurred before withdrawing, such as bad checks, unpaid traffic or library fines, etc., the refund will cover these obligations first. Academic fees, housing, and meal plan refunds for students withdrawing will be paid to the student.
RESIDENT TUITION AND FEES
Application for Resident Status
Any undergraduate student or prospective student whose status concerning entitlement to payment of in-state tuition and fees is uncertain has the responsibility of securing a ruling from the University by providing all relevant information on special application forms. These forms can be obtained from the Student Financial Aid Office, G-01 Sikes Hall, and are to be completed and returned to that office prior to the first day of class for any semester or summer term for which the student is attempting to qualify for payment of the in-state tuition and fee rate.

Entitlement
Eligibility for payment of in-state tuition and fees shall be determined under the provisions of Sections 59-112-10 through 59-112-100, South Carolina Code of Laws, 1976, as amended. This law is set forth in its entirety as follows (subject to further amendment by the General Assembly).

Statutes
59-112-10—Definitions. As used in this chapter:
A. The words “State Institution” shall mean those post-secondary educational institutions under the jurisdiction of the following: (1) Board of Trustees, Clemson University; (2) Board of Trustees, Medical University of South Carolina; (3) Board of Trustees, South Carolina State College; (4) State College Board of Trustees; (5) Board of Visitors, The Citadel; (6) Board of Trustees, University of South Carolina; (7) Board of Trustees, Winthrop University; and (8) State Board of Technical and Comprehensive Education.
B. The word “student” shall mean any person enrolled for studies in any state institution.
C. The word “residence” or “reside” shall mean continuous and permanent physical presence within this State, provided, that temporary absences for short periods of time shall not affect the establishment of a residence.
D. The word “domicile” shall mean a person’s true, fixed, principal residence and place of habitation; it shall indicate the place where such person intends to remain, and to which such person expects to return upon leaving without establishing a new domicile in another state. For purposes of this section one may have only one legal domicile; one is presumed to abandon automatically an old domicile upon establishing a new one. Housing provided on an academic session basis for students at State institutions shall be presumed not to be a place of principal residence, as residency in such housing is by nature temporary.
E. The words “in-state rates” shall mean charges for tuition and fees established by State Institutions for persons who are domiciled in South Carolina in accordance with this act; the words “out-of-state rates” shall mean charges for tuition and fees established by State Institutions for persons who are not domiciled in South Carolina in accordance with this act.
F. The words “independent person” shall mean a person in his majority, or an emancipated minor, whose predominant source of income is his own earnings or income from employment, investments, or payments from trusts, grants, scholarships, loans, or payments of alimony or separate maintenance made pursuant to court order.
G. The words “dependent” or “dependent person” mean: (1) one whose financial support is provided not through his own earnings or entitlements, but whose predominant source of income or support is payments from a parent, spouse, or guardian, and who qualifies as a dependent or an exemption on the federal tax return of the parent, spouse, or guardian; or (2) one for whom payments are made, under court order, for child support and the cost of his college education by an independent person meeting the provisions of Section 59-112-20 A or B. However, the words “dependent” or “dependent person” do not include a spouse or former spouse who is the recipient of alimony or separate maintenance payments made pursuant to court order.
H. The word “minor” shall mean a person who has not attained the age of eighteen years; and the words “emancipated minor” shall mean a minor whose parents have entirely surrendered their interest in the care, custody and earnings of such minor and are no longer under any legal obligation to support or maintain such minor.
I. The word “parent” shall mean a person’s natural or adoptive father or mother; or if one parent has custody of the child, the parent having custody; or if there is a guardian or other legal custodian of such person then such guardian or legal custodian; provided, however, that where circumstances indicate that such guardianship or custodianship was created primarily for the purpose of conferring South Carolina domicile for tuition and fee purposes on such child or dependent person, the latter shall not be given such effect.
J. The word “spouse” shall mean the husband or wife of a married person.

59-112-20—South Carolina Domicile Defined for Purposes of Rates of Tuition and Fees. South Carolina domicile for tuition and fee purposes shall be established as follows in determinations of rates of tuition and fees to be paid by students entering or attending State Institutions:
A. Independent persons who reside in and have been domiciled in South Carolina for a period of no less than twelve months with an intention of making a permanent home herein, and their dependents, may be considered eligible for in-state rates.
B. Independent persons who reside in and have been domiciled in South Carolina for fewer than twelve months but who have full-time employment in the State, and their dependents, may be considered eligible for in-state rates for as long as such independent person is employed on a full-time basis in the State.
C. Where an independent person meeting the provisions of Section 59-112-20 above, is living apart from his spouse, or where such person and his spouse are separated or divorced, the spouse and dependents of such independent person shall have domiciliary status for tuition and fee purposes only under the following circumstances: (1) if the spouse requesting domiciliary status for tuition and fee purposes remains domiciled in South Carolina although living apart or separated from his or her employed spouse, (2) if the dependent requesting domiciliary status for tuition and fee purposes is under the legal custody of the child, and such dependent is claimed as an income tax exemption by the parent not having legal custody but paying child-support, so long as either parent remains domiciled in South Carolina.
D. The residence and domicile of a dependent minor shall be presumed to be that of the parent of such dependent minor.

59-112-30—Effect of Change of Residency. When the domicile of a student or of the person upon whom a student is financially dependent changes after enrollment at a State Institution, tuition charges shall be adjusted as follows:
A. Except as provided in Section 59-112-20B above, when domicile is lost, eligibility for in-state rates shall end on the last day of the academic session in which the loss occurs; however, application of this subsection shall be at the discretion of the institution involved.
B. When South Carolina domicile is lost, eligibility for in-state rates shall end on the last day of the academic session in which the loss occurs; however, application of this subsection shall be at the discretion of the institution involved.
C. Notwithstanding the other provisions of this section, any dependent person who has been domiciled with his family in South Carolina for a period of not less than three years immediately prior to his enrollment may enroll in a state-supported institution of higher learning at the in-state rate and may continue to be enrolled at such rate even if the parent, spouse, or guardian upon whom he is dependent moves his domicile from this State.

59-112-40—Effect of Marriage. Except as provided in Section 59-112-20 above, marriage shall affect determinations of domicile for tuition and fee purposes only insofar as it operates to evidence an intention by the parties to make a permanent home in South Carolina.

59-112-50—Military Personnel and Their Dependents. Notwithstanding other provisions of this act, during the period of their assignment to duty in South Carolina members of the armed services of the United States stationed in South Carolina and their dependents may be considered eligible for in-state rates. When such armed service personnel are ordered away from the State, their dependents may continue for an additional twelve months to have this eligibility at the State Institutions where they are enrolled at the time such assignment ends. Such persons and their dependents may be considered eligible for in-state rates for a period of twelve months after their discharge from the armed services even though they were not enrolled at a State Institution at the time of their discharge, if they have evinced an intent to establish domicile in South Carolina after they have resided in South Carolina for a period of at least twelve months immediately preceding their discharge.

59-112-60—Faculty, Administrative Employees and Dependents Thereof. Full-time faculty and administrative employees of State Institutions, and the spouses and children of such persons, shall be excluded from the provision of this act.
59-112-70—Abatement of Rates for Nonresidents on Scholarship. Notwithstanding other provisions of this act, the governing boards listed in Section 59-112-10A above, are authorized to adopt policies for the abatement of any part or all of the out-of-state rates for students who are recipients of scholarship aid.

59-112-80—Administration of Chapter; Burden of Proving Eligibility of Students. Each State Institution shall designate an official to administer the provisions of this act. Students making application to pay tuition and fees at in-state rates shall have the burden of proving to the satisfaction of the aforesaid officials of State Institutions that they have fulfilled the requirements of this act before they shall be permitted to pay tuition and fees at such rate.

59-112-90—Penalties for Willful Misrepresentation. Where it appears to the satisfaction of officials charged with administration of these provisions that a person has gained domiciliary status improperly by making or presenting willful misrepresentations of fact, such persons should be charged tuition and fees past due and unpaid at the out-of-state rate, plus a penalty amounting to twenty-five percent of the out-of-state rate for one semester; and until such charges have been paid no such student shall be allowed to receive transcripts or graduate from any State Institution.

59-112-100—Regulations. The Commission on Higher Education may prescribe uniform regulations for application of the provisions of this act and may provide for annual review of such regulations.

ARTICLE V

Determination of Rates of Tuition and Fees

(Statutory Authority: 1976 Code Sections 59-112-10 to 59-112-120)

62-600—Rates of Tuition and Fees.

A. Resident classification is an essential part of the fee determination, admission, and scholarship eligibility, and other relevant policies of the state. It is important that such institutions have fair and equitable regulations which can be administered consistently and be sensitive to the interests of both students and the State. The Commission on Higher Education hereby establishes regulations for the Statute Governing Residency and Tuition for Fee Purposes to be applied consistently by all South Carolina institutions of higher education. These regulations do not address residency matters relating to in-county categories used within the State's technical colleges.

B. Institutions of higher education are required by the Statute to determine the residence classification of applicants. The initial determination of one's resident status is made at the time of admission. The determination made at that time, and any determination made thereafter prevails for each subsequent semester until information becomes available that would impact the existing residency status and the determination is successfully challenged. The burden of proof rests with the student to show evidence as deemed necessary to establish and maintain their residency status.

Rules regarding the establishment of legal residence for tuition and fee purposes for institutions of higher education are governed by Title 59, Chapter 112 of the 1976 South Carolina Code of Laws, as amended.

62-602—Definitions. [SC ADC 62-602]

A. "Academic Session" is defined as a term or semester of enrollment. (62-607.B)

B. "Continue to be Enrolled" is defined as continuous enrollment without an interruption that would require the student to pursue a formal process of readmission to that institution. Formal petitions or applications for change of degree level shall be considered readmissions. (62-607.A)

C. "Dependent Person" is defined as one whose predominant source of income or support is from payments from a parent, spouse, or guardian and who qualifies as a dependent or exemption on the federal income tax return of the parent, spouse, or guardian. A dependent person is also one for whom payments are made, under court order, for child support and the cost of the dependent person's college education. A dependent person's residency is based upon the residency of the person upon whom they are dependent. (62-602.C) (62-603.B) (62-605.C) (62-607.A)

D. "Domicile" is defined as the true, fixed, principal residence and place of habitation. It shall indicate the place where a person intends to remain, or to where one expects to return upon leaving without establishing a new domicile in another state. For purposes of this section, one may have only one legal domicile. A person is presumed to abandon a domicile automatically upon establishing a new one. Housing provided on an academic session basis for resident institutions shall be presumed not to be a place of principal residence, as residency in such housing is by its nature temporary. (62-602.B) (62-603.B) (62-607.A) (62-608.B) (62-608.D) (62-609.A) (62-609.A.4)

E. "Family Domicile in this State is Terminated" is defined as an employer-directed transfer of a dependent person upon whom the student is dependent and is not constructed to mean a voluntary change in domicile. Also included is a relocation of the person upon whom the student is dependent who is laid off through no fault of his own (e.g., plant closure, downsizing, etc.) who accepts employment in another state prior to relocating. (62-607.A)

F. "Full-time employment" is defined as employment that consists of at least 37½ hours a week on a single job in a full-time status. However, a person who works less than 37½ hours a week but receives or is entitled to receive full-time employee benefits shall be considered to be employed full-time if such status is verified by the employer. A person who meets the eligibility requirements of the Americans with Disabilities Act must satisfy their prescribed employment specifications in order to qualify as having full-time employment. (62-605.C.1) (62-609.A.2) (62-609.A.3)

G. "Guardian" is defined as one legally responsible for the care and maintenance of the person or property of a minor child or one qualified to claim a dependent person based upon the five tests for dependency prescribed by the Internal Revenue Service; provided, however, that where circumstances indicate that such guardianship or custodianship was created primarily for the purpose of conferring South Carolina domicile for tuition and fee purposes on such child or dependent person, it shall not be given such effect. (62-602.C) (62-602.E) (62-602.I) (62-602.M) (62-603.B) (62-605.C)

H. "Immediately Prior" is defined as the period of time between the offer of admission and the first day of class of the term for which the offer was made, not to exceed one calendar year. (62-607.A)

I. "Independent Person" is defined as one in his/her majority (eighteen years of age or older) or an emancipated minor, whose predominant source of income is his/her own earnings or income from employment, investments, or payments from trusts, grants, scholarships, commercial loans, or payments made in accordance with court order. An independent person must provide more than half of his or her support during the twelve months immediately prior to the date that classes begin for the semester for which resident status is requested. An independent person cannot be claimed as a dependent or exemption on the federal tax return of his/her other parent, spouse, or guardian for the year in which resident status is requested. (62-602.N) (62-603.A) (62-605.C) (62-608.B) (62-608.B)

J. "Minor" is defined as a person who has not attained the age of eighteen years. An "emancipated minor" shall mean a minor whose parents have entirely surrendered the right to the care, custody, and earnings of such minor and are no longer under any legal obligation to support or maintain such minor. (62-602.G)

K. "Nonresident Alien" is defined as a person who is not a citizen or permanent resident of the United States. By virtue of their nonresident status "nonresident aliens" generally do not have the capacity to establish domicile in South Carolina. (62-602.M) (62-604.A)

P. “Temporary Absence” is defined as a break in enrollment during a fall or spring semester (or its equivalent) during which a student is not registered for class. (62-606.A)

Q. “Terminal Leave” is defined as a transition period following active employment and immediately preceding retirement (with a pension or annuity), during which the individual may use accumulated leave. (62-609.A.4)

R. “United States Armed Forces” is defined as the United States Air Force, Army, Marine Corps, Navy, and Coast Guard. (62-606.B) (62-609.A(1))

62-603—Citizens and Permanent Residents. [SC ADC 62-603]

A. Independent persons who have physically resided and been domiciled in South Carolina for twelve continuous months immediately preceding the date the classes begin for the semester for which resident status is claimed may qualify to pay in-state tuition and fees. The twelve-month residency period starts when the independent person establishes the intent to become a South Carolina resident per section 62-605 entitled “Establishing the Requisite Intent to Become a South Carolina Domiciliary.” Abences from the State during the twelve-month period may affect the establishment of permanent residence for tuition and fee purposes.

B. The resident status of a dependent person is based on the resident status of the person who provides more than half of the dependent person’s support and claims or qualifies to claim the dependent person as a dependent for federal income tax purposes. Thus, the residence and domicile of a dependent person shall be presumed to be that of his/her parents, spouse, or guardian.

C. In the case of divorced or separated parents, the resident status of the dependent person may be based on the resident status of the parent who claims the dependent person as a dependent for tax purposes; or based on the resident status of the parent who has legal custody or legal joint custody of the dependent person; or based on the resident status of the person who makes payments under a court order for child support and at least the cost of his/her college tuition and fees.

62-604—Non-Resident Aliens, Non-Citizens, and Non-Permanent Residents. [SC ADC 62-604]

A. Except as otherwise specified in this section or as provided in section 62-609 (1) and (2), independent non-citizens and non-permanent residents of the United States will be assessed tuition and fees at the non-resident, out-of-state rate. Independent non-resident aliens, including refugees, asylees, and parolees may be entitled to resident, in-state status once they have been awarded permanent resident status by the U.S. Department of Justice and meet all the statutory residency requirements provided that all other domiciliary requirements are met. Time spent living in South Carolina immediately prior to the awarding of permanent resident status does not count toward the twelve month residency period. Certain non-resident aliens present in the United States in specified visa clasification are eligible to receive in-state residency status for tuition and fee purposes as prescribed by the Commission on Higher Education. They are not, however, eligible to receive state sponsored tuition assistance/scholarships.

B. Title 8 of the Code of Federal Regulations (CFR) serves as the primary resource for defining visa categories.

62-605—Establishing the Requisite Intent to Become a South Carolina Domiciliary. [SC ADC 62-605]

A. Resident status may not be acquired by an applicant or student while residing in South Carolina for the sole purpose of enrollment in an institution or for access to state-supported programs designed to serve South Carolina residents.

B. If a person asserts that his/her domicile has been established in this State, the individual has the burden of proof. Such persons should provide to the designated residency official of the institution to which they are applying any and all evidence the person believes satisfies the burden of proof. The residency official will consider any and all evidence provided concerning such claim of domicile, but will not necessarily regard any single item of evidence as conclusive evidence that domicile has been established.

C. For independent persons or the parent, spouse, or guardian of dependent persons, examples of intent to become a South Carolina resident may include, although not all, the following indicators:

1) Statement of full-time employment;
2) Possession of a valid South Carolina voter registration card;
3) Designating South Carolina as state of legal residence while in the military;
4) Possession of a valid South Carolina driver’s license or, if a non-driver, a South Carolina identification card;
5) Satisfying South Carolina resident income tax obligations;
6) Maintenance of domicile in South Carolina;
7) Paying South Carolina income taxes as a resident while in South Carolina;
8) Ownership of principal residence in South Carolina;
9) Licensing for professional practice (if applicable) in South Carolina.

D. The absence of indicia in other states or situations may be considered in determining whether the person believes satisfies the burden of proof. South Carolina residents who change their state of legal residence while in the military lose their South Carolina resident status for tuition and fee purposes.

62-607—Effect of Change of Residence. [SC ADC 62-607]

A. Notwithstanding other provisions of this section, any dependent person of a legal resident of this state who has been domiciled with his/her family in South Carolina for a period of not less than three years and whose family’s domicile in this state is terminated immediately prior to his/her enrollment may enroll at the in-state rate. A student must continue to be enrolled and registered for classes (excluding summers) in order to maintain eligibility to pay in-state rates in subsequent semesters. Transfers within or between South Carolina colleges and universities of a student seeking a certificate, diploma, associate, baccalaureate, or graduate level degree does not constitute a break in enrollment.

B. If a dependent or independent person has been domiciled in South Carolina for less than three years, eligibility for in-state rates shall end on the last day of the academic session during which domicile is lost. Application of this provision shall be at the discretion of the institution involved. However, a student must continue to be enrolled and registered for classes (excluding summers) in order to maintain eligibility to pay in-state rates in subsequent semesters.

62-608—Effect of Marriage. [SC ADC 62-608]

A. In ascertaining domicile of a married person, irrespective of gender, such a review shall be determined just as for an unmarried person by reference to all relevant evidence of domiciliary intent.

B. If a non-resident marries a South Carolina resident, the non-resident does not automatically acquire South Carolina resident status. The non-resident may acquire South Carolina resident status if the South Carolina resident is an independent person and the non-resident is a dependent of the South Carolina resident.

C. Marriage to a person domiciled outside South Carolina shall not be solely the reason for precluding a person from establishing or maintaining domicile in South Carolina and subsequently becoming eligible or continuing to be eligible for residency.
D. No person shall be deemed solely by reason of marriage to a person domiciled in South Carolina to have established or maintained domicile in South Carolina and consequently to be eligible for or to retain eligibility for South Carolina residency.

62-609—Exceptions. [SC ADC 62-609]
A. Persons in the following categories qualify to pay in-state tuition and fees without having to establish a permanent home in the state for twelve months. Persons who qualify under any of these categories must meet the conditions of the specific category on or before the first day of class of the term for which payment of in-state tuition and fees is requested.

1) “Military Personnel and their Dependents”: Members of the United States Armed Forces who are permanently assigned in South Carolina on active duty and their dependents are eligible to pay in-state tuition and fees. When such personnel are transferred from the State, their dependents may continue to pay in-state tuition and fees for an additional twelve months. Such persons (and their dependents) may also be eligible to pay in-state tuition and fees for a period of twelve months after their discharge from the military, provided they have demonstrated an intent to establish a permanent home in South Carolina and they have resided in South Carolina for a period of at least twelve months immediately preceding their discharge. Military personnel who are not stationed in South Carolina and/or former military personnel who intend to establish South Carolina residency must fulfill the twelve month “physical presence” requirement for them or their dependents to qualify to pay in-state tuition and fees.

2) “Faculty and Administrative Employees with Full-Time Employment and their Dependents”: Full-time faculty and administrative employees of South Carolina state-supported colleges and universities and their dependents are eligible to pay in-state tuition and fees.

3) “Residents with Full-Time Employment and their Dependents”: Persons who reside, are domiciled, and are full-time employed in the State and who continue to work full-time until they meet the twelve-month requirement and their dependents are eligible to pay in-state tuition and fees, provided that they have taken steps to establish a permanent home in the State. Steps an independent person must take to establish residency in South Carolina are listed in section 62-605 entitled (“Establishing the Requisite Intent to Become a South Carolina Domiciliary”).

4) “Retired Persons and their Dependents”: Retired persons who are receiving a pension or annuity who reside in South Carolina and have been domiciled in South Carolina as prescribed in the Statute for less than a year may be eligible for in-state rates if they maintain residence and domicile in this State. Persons on terminal leave who have established residency in South Carolina may be eligible for in-state rates even if domiciled in the State for less than one year if they present documentary evidence from their employer showing they are on terminal leave. The evidence should show beginning and ending dates for the terminal leave period and that the person will receive a pension or annuity when he/she retires.

B. South Carolina residents who wish to participate in the Contract for Services Program sponsored by the Southern Regional Education Board must have continuously resided in the State for at least two years immediately preceding application for consideration and must meet all residency requirements during this two-year period.

62-610—Application for Change of Resident Status. [SC ADC 62-610]
A. Persons applying for a change of resident classification must complete a residency application/petition and provide supporting documentation prior to a reclassification deadline as established by the institution.
B. The burden of proof rests with those persons applying for a change of resident classification who must show required evidence to document the change in resident status.

62-611—Incorrect Classification. [SC ADC 62-611]
A. Persons incorrectly classified as residents are subject to reclassification and to payment of all non-resident tuition and fees not paid. If incorrect classification results from false or misleading facts, such persons may be charged tuition and fees, plus due and unpaid at the out-of-state rate. The violation may also be subject to administrative, civil, and financial penalties. Until these charges are paid, such persons will not be allowed to receive transcripts or graduate from a South Carolina institution.
B. Residents whose resident status changes are responsible for notifying the Residency Official of the institution attended of such changes.

62-612—Inquiries and Appeals. [SC ADC 62-612]
A. Inquiries regarding residency requirements and determinations should be directed to the institutional residency official.
B. Each institution will develop an appeals process to accommodate persons wishing to appeal residency determinations made by the institution’s residency official. Neither the primary residency official nor appellate official(s) may waive the provisions of the Statute or regulation governing residency for tuition and fee purposes. Appeals should be sent to the Student Financial Aid Office, G-01 Sikes Hall.

DINING SERVICES
The University provides a variety of meal plans to meet student needs. The meal plan dining halls, Harcombe, Schiller, and Clemson House are on opposite sides of the campus and feature an unlimited seconds policy. Meals may also be purchased on a cash basis or by using a credit card, Tiger Stripe, or Paw Point account. Meal plans become effective when University housing is opened for occupancy at the beginning of each semester and expire after the evening meal on the day of graduation at the end of each semester. Meal plans are not effective during official University breaks.

The Eastside Food Court, Einstein Brothers Bagels, the Canteen, Java City Cyber Café, and Fernow Street Café provide a wide assortment of dining selections on an a la carte basis. Nationally branded food concepts are available in cash dining facilities on campus: Burger King and Li’l Dino Subs in the Eastside Food Court, Chick-fil-A and Starbucks at the Union Canteen, and Pizza Hut Express in the Fernow Street Café. All retail dining facilities and dining halls accept cash, credit/debit cards, and Tiger 1 and Paw Point cards.

All first-year freshmen who live in University housing, excluding apartments with kitchens, are required to subscribe to one of the following meal plans for their first two semesters: Any Ten, Plus Any Ten, Any 15, Plus Any 15, Seven Day (Unlimited Access), or Plus Unlimited Access. All other students may choose a meal plan on a semester basis or pay for individual meals. First-year freshmen living in University housing (excluding the aforementioned housing) may terminate their meal plan for one of the following reasons:
• withdrawal from the University
• change in housing assignment to an apartment with kitchen facilities
• medical condition with dietary requirements that cannot be met by Dining Services

Documentation from a medical doctor must be provided along with specific dietary requirements. This documentation will be reviewed by the Dining Services Food Service Administrator
• other circumstances determined by the University to be beyond the student’s control

Freshmen students must provide the necessary documentation for any of the above reasons before cancellation of their meal plan will be considered. Upperclassmen may terminate their meal plans for any reason. Failure to participate in a meal plan does not automatically release a student from the freshman requirement to subscribe to a meal plan.

Students may change meal plans at the Tiger 1 Card Office, in 304 Fike Recreation Center, on Mondays only. Students may change meal plans at the billing of spring and fall semester fees with no service charge or after the first two weeks and prior to the last six weeks of the semester by paying a $35 service charge. All adjustments will be prorated, except for students withdrawing from the University. Students may upgrade meal plans during the registration period.

Meal plans cancelled for any reason after service of the first meal will result in a refund of advance payment, minus a $35 termination charge, and a weekly charge for meals available. The meals available charge applies to the meals that have been served, not those that have been eaten by the individual student. The Paw Points which are associated with the Plus plans are not refundable; however, they do carry forward to the next semester. No changes, meal plan cancellations, or refunds will be made during the last six weeks of a semester. Requests for refunds may be made at the Tiger 1 Card Office. Students will be responsible for all service charges related to changes or termination of a meal plan.

Note: Meal plans may not be shared with other students. Only the meal plan purchaser may utilize his/her meal plan.
TIGER STRIPE ACCOUNT
The Tiger Stripe account is equivalent to a prepaid debit card. Under the Tiger Stripe account program, funds are deposited into the account along with payment of fees. As items are purchased from over 200 locations that accept Tiger Stripe, the amount spent is deducted from the Tiger Stripe account balance. All students are eligible. Additional funds may be added to the account via the Tiger 1 Card Office at www.tiger1.clemson.edu. Students may also pay in person at the Tiger 1 Card Office with cash, check, or credit card; or they may call 864-656-0763 to pay with Visa, MasterCard, or Discover. Office hours are Monday–Friday, 8:00 A.M.–4:30 P.M.

Tiger Stripe accounts are non-refundable except for students withdrawing, graduating, or not returning to the University. Tiger Stripe cannot be used for the payment of tuition. Transactions are limited to $250 per day in the University Revenue and Receivables Office for the payment of incidental fees. Credit balances at the end of each semester will carry forward to the next term. (Students withdrawing must go to E-103 Martin Hall. Balances greater than $5 will be refunded.) Any indebtedness to the University will be deducted from refunds. All graduating students will be required to request a refund at the Tiger 1 Card Office two weeks prior to graduation. Any account that remains dormant for 18 months or longer will have the balance transferred to a University scholarship account.

More information is available at www.tiger1.clemson.edu, by calling 864-656-0763, or e-mailing tiger1-10@clemson.edu.

FINANCIAL AID
The Office of Student Financial Aid administers and coordinates various types of undergraduate financial aid administered by Clemson University: scholarships, loans, grants, and work-study employment. The office works jointly with the University Scholarships and Awards Committee.

Students may apply after January 1 for financial assistance for the next academic year. Financial aid requests, based on financial need, must be supported by a processed Free Application for Federal Student Aid (FAFSA) and renewed annually. No application is required for the LIFE Scholarship.

The FAFSA must be submitted by February 15 for need-based scholarship consideration and by April 1 for the Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study, Federal Perkins Loan, South Carolina State Need-Based Grant, and Clemson Community Service Grant. April 1 is the suggested deadline for application for the Federal Pell Grant, Federal Stafford Loan, and Federal PLUS Loan. June 1 is the suggested deadline for application for private/alternative loans. PLUS and private loans require a separate application.

Transfer students applying for student loans will be considered as entering freshmen in determining maximum loan limits. Following enrollment, after the credit evaluation process has been completed, students may submit a request for additional funds due to changes in class standing.

Information regarding financial aid programs at Clemson University is available at www.clemson.edu/finaid or from the Student Financial Aid Office, G-01 Sikes Hall, Box 345123, Clemson, SC 29634-5123.

Satisfactory Academic Progress for Financial Aid Eligibility
Students must maintain satisfactory academic progress to be eligible for financial aid. This policy contains both qualitative (grade-point ratio) and quantitative (credit hours completed) requirements. Students must meet the grade-point ratio requirement as stated under the Continuing Enrollment Policy. Students must also complete 12, 9, or 6 hours per semester according to their enrollment (full time, ¼ time, or ½ time) as of the last day to add a class. Students have a maximum of 12 full-time semesters in which to finish their degrees, or the equivalent in part-time enrollment. Duplicate credits, including courses repeated for Academic Redemption, do not count as credits completed for satisfactory academic progress. Details are available in the publication Financing Your Clemson University Education. Students wishing to appeal their academic progress status may submit a letter to the Student Financial Aid Office. This appeals process is separate from the Appeals Committee on Continuing Enrollment. Students returning under the academic renewal policy who apply for financial aid should also submit a letter to the Student Financial Aid Office to update their academic progress record. Prior terms will be counted in the 12 semesters allowed for satisfactory academic progress.

Educational Benefits for Veterans, War Orphans, and Children of Deceased or Disabled Law Enforcement Officers or Fire Fighters
The Veterans Administration provides educational assistance for veterans and children of deceased or totally disabled veterans who meet requirements of applicable laws and regulations. Any veteran or child of a deceased or totally disabled veteran should communicate with the nearest Veterans Administration Office to determine whether he/she is entitled to any educational benefits. Free tuition is available to children of South Carolina law enforcement officers or fire fighters who were totally disabled or killed in the line of duty. Certification is required by the agency of the parent’s employment. Upon presentation of proof of eligibility, a student shall not become eligible for educational assistance until the beginning of the academic term.
ACADEMIC REGULATIONS

Proper discharge of all duties is required at Clemson University, and a student’s first duty is his/her scholastic work. All students should be thoroughly acquainted with these basic requirements.

CREDIT SYSTEM

The semester hour is the basis of all credits. Generally, one recitation hour or two–three laboratory hours a week for a semester constitute a semester hour. Thus, in HIST 172 Western Civilization 3(3,0), as this subject is listed in the Courses of Instruction section of this catalog, the student takes three semester hours. When the course is completed satisfactorily, three credit hours are entered on the student’s record. The notation “3(3,0)” means that the course carries three credits, has three clock hours of theory or recitation per week, and no laboratory hours. CH 101 General Chemistry 4(3,3) carries four semester hours, has three hours of theory and a three-hour laboratory period.

Credit Load

Except for an entering freshman who is restricted to the curriculum requirements of his/her major, the credit load for an undergraduate must be approved by the class advisor. The class advisor will approve a credit load deemed in the best interest of the student based on such factors as course requirements, grade-point ratio, participation in other activities, and expected date of graduation.

For fall and spring semesters, the maximum number of hours in which a student may enroll is 21, and 16 hours is the maximum credit load for those on probation. Permission of the student’s academic advisor is required for all registration in more than 21 hours, or 16 hours for those on probation. Enrollment in summer is limited to three credit hours in Maymester, seven credit hours in first summer session, and seven credit hours in second summer session. Enrollment in additional credit hours must be approved by the student’s academic advisor.

Students are not permitted to enroll in courses with overlapping class times.

Full-Time Enrollment

In fall and spring semesters, enrollment in 12 or more credit hours is considered full time. Combined enrollment in 12 or more hours in Maymester and first and second summer terms is considered full time for the summer. Enrollment in fewer than 12 credit hours is part time.

Advanced Placement and Credit by Examination

In addition to earning credit by the usual method involving classroom attendance, a student may receive credit toward his/her degree by completing a course successfully by examination only. Freshmen interested in exempting some elementary courses in this manner should participate in the College Board Advanced Placement Examination program and have the results of these tests sent to Clemson.

Certain departments will also grant credit for successful completion of College-Level Examination Program (CLEP) subject examinations which are administered by the College Board.

Enrolled students may earn credit by means of a special examination without the necessity of class attendance subject to the following requirements:

1. The applicant must present evidence that he/she has received training or taken work which is approximately equivalent to that given in the course at Clemson for which an examination is requested.
2. The applicant must not have previously failed or audited the course at Clemson.
3. The applicant must apply in writing for the examination; the request must be approved by the instructor, chair of the department in which the course is taught, and the Enrolled Student Services Office. Application forms are available in the Enrolled Student Services Office, 104 Sikes Hall.

Credit (CR) will be awarded for acceptable work in lieu of letter grades in recognition of college-level achievement as determined by College Board Advanced Placement Examination, International Baccalaureate Program, College-Level Examination Program subject examination, institutional special examinations, and similar instruments.

Transfer Credit

For Clemson students coursework completed with a grade of C or better at other regionally accredited institutions, including Internet courses and appropriate examination credits, will be evaluated for transfer in terms of equivalent courses included in the Clemson curriculum of the student’s choice. This does not guarantee that all courses taken at other institutions will be accepted for transfer. The acceptability of each course or exemption will be based on an evaluation by the faculty concerned.

For Clemson students coursework completed with a grade of C or better at other regionally accredited institutions, including Internet courses and appropriate examination credits, will be evaluated for transfer in terms of equivalent courses included in the Clemson curriculum of the student’s choice. This does not guarantee that all courses taken at other institutions will be accepted for transfer. The acceptability of each course or exemption will be based on an evaluation by the faculty concerned.

Transfer coursework earned at different institutions will not substitute for any 300- or 400-level Clemson course.

Courses of Credit

Transfer credit can be received.

Learning Experiences

All “for credit” learning experiences conducted with organizations other than accredited higher education institutions must be regularly supervised by appropriate members of the Clemson University faculty or staff. The student must be enrolled at the time the credit is generated, and the level of credit (grade) is the responsibility of the faculty member(s) in the discipline from which the credit originates.

External Education Experiences

In all “for credit” external educational programs which Clemson University may have with professional, vocational, technical, clinical, and foreign study, the agreements are to be agreed to through signature of the Provost and the President. In such cases, learning experiences for which credit is awarded must be under the ultimate control and supervision of Clemson University.

GRADING SYSTEM

The grading system is as follows:

A—Excellent indicates work of a very high character, the highest grade given.
B—Good indicates work that is definitely above average, though not of the highest quality.
C—Fair indicates work of average or medium character.
D—Pass indicates work below average and unsatisfactory.
F—Failed indicates that the student knows so little of the subject that it must be repeated in order that credit can be received.
I—Incomplete indicates that a relatively small part of the semester’s work remains undone. Grade I is not given a student who made a grade F on his/her daily work. The incomplete grade is calculated as an F in the student’s grade-point ratio until the work is made up and a final grade is assigned. Students are allowed thirty days after the beginning of the next scheduled session, excluding summers and regardless of the student’s enrollment status, to remove the incomplete grade. Normally, only one extension for each I may be granted, and this under unusual circumstances. The extension must be approved in writing by the instructor of the course and the chair of the department in which the course was taken. The extension will indicate the nature and amount of work to be completed and the time limit. (Students under this policy are prohibited from removing the I by repeating the course.) A letter grade of I converts to F unless the incomplete is removed within the time specified.
W—Withdraw indicates that the student withdrew from the course or was withdrawn by the instructor after the first two weeks of classwork and prior to the last seven weeks of classes, not including the examination period. Proportionate time periods apply during summer and other shortened sessions. Each undergraduate student is allowed to withdraw or be withdrawn with a grade of W from no more than 17 hours of coursework during the entire academic career at Clemson University. Transfer students may withdraw from no more than 12 percent of the total work remaining to be done in the chosen undergraduate curriculum at the time of transfer.
to Clemson University up to a total of 17 hours of coursework, whichever is fewer. Partial credit for courses cannot be dropped. A student who exceeds these limits of hours or who is enrolled during any part of the last seven weeks of classes shall have final grades recorded. A student may withdraw from the University subject to the restrictions above. Additionally, pending approval from the provost or the provost’s designee, students may withdraw from Clemson University one time only during their academic careers prior to the final seven weeks of classes (proportionate time periods apply during summer and other shortened sessions), without reduction from their allotted W hours. Any variance from these restrictions must be approved by the provost or the provost’s designee and must be requested within 90 calendar days (exclusive of summer vacation) of the date of the last exam for the term. The student must document the circumstances supporting the request. For financial aid purposes, enrollment is defined and satisfactory academic progress levels are established as of the last day to register or add classes. Withdrawals satisfactory academic progress levels are established as of the last day to register or add classes.

Mid-Term Evaluation
Once, near mid-term, but no later than five days before the last day students can drop courses without receiving final grades, instructors of every undergraduate course shall make available for each student (a) that student’s numerical course grade or (b) that student’s letter ranking to date in that course (A–F or P/F). More frequent feedback is strongly encouraged.

Both student and instructor are to recognize that this feedback reflects the student’s performance up to that point in time, and as such, that student’s final course grade may change based upon subsequent coursework performance(s).

The policy includes all undergraduate courses and applies to all terms, including Maymester and summer sessions.

Final Examinations
The standing of a student in his/her work at the end of a semester is based upon daily classwork, tests on other work, and final examinations. Faculty members may excuse from final examinations all students having the grade of A or the coursework prior to the final examination. For all other students, examinations are required in all subjects at the end of each semester, except in courses in which final examinations are not deemed necessary as approved by the department faculty.

Final examinations must be given or due on the dates and at the times designated in the final examination schedule, except in laboratory and one-credit-hour courses where the final exam will be given at the last class meeting.

Students may use the Internet to access their end-of-term grades. Final grade reports are mailed to undergraduate students on academic probation and to other students upon request. Request forms are available in the Enrolled Student Services and Registration Services Offices.

Continuing Enrollment Policy
At the end of any enrollment period, a notice of academic probation shall be placed on the grade report of an undergraduate student if his/her cumulative grade-point ratio is below 2.0, which is the minimum necessary for graduation.

In the event that a student is placed on academic probation, notification to that effect will be placed on the grade report for that session in which the student's academic deficiency occurred and for each session the student remains on probation. No notation concerning probation is placed on the student's permanent record.

A student on academic probation will be subject to suspension or dismissal at the end of the spring semester if his/her cumulative grade-point ratio is below the minimum cumulative grade-point ratio (MCGPR). Students entering Clemson University for the first time will not be subject to suspension or dismissal until they have attempted coursework at Clemson for two semesters, fall or spring, (not necessarily consecutive enrollment). The MCGPR is 2.0 for students with credit levels (CL) greater than or equal to 95 hours. For students with credit levels less than 95 hours, the MCGPR is given in the table below. CL in the table is the student's credit level, based on all credits taken at Clemson, plus any advanced standing received from transfer credits and credits based on approved examination programs.

Students have several options to avoid suspension or dismissal after the spring semester. One option is to pass at least 12 credit hours and earn a 2.2 or higher semester grade-point ratio in the spring semester. Duplicate credits do not count as credits

### Grade-Point Ratio

In calculating a student’s grade-point ratio, the total number of grade points accumulated by the student is divided by the total number of credit hours attempted at Clemson during the semester, session, or other period for which the grade-point ratio is calculated. For each credit hour, the student receives grade points as follows: A–4, B–3, C–2, D–1. No grade points are assigned for grades F, I, P, or W.

### Pass/Fail Option

Juniors or Seniors enrolled in four-year curricula may take four courses (maximum of 15 credit hours), without more than two courses in a given semester, on a Pass/Fail basis. Transfer and five-year program students may take Pass/Fail courses on a pro rata basis. Only courses to be used as electives may be taken optionally as Pass/Fail.

Letter-graded courses which have been failed may not be repeated Pass/Fail.

Registration in Pass/Fail courses will be handled in the same manner as letter-graded courses. Departmental approval must be obtained via approval form and returned to the Registrar's Office by the last day to register or add a class, as stipulated in the Academic Calendar. Instructors will submit letter grades to the Registration Services Office. These grades will be converted as follows: A, B, C to P (pass); D, F to F (fail). Only P (minimum letter grade of C) or F will be shown on a student’s permanent record and will not affect the grade-point ratio.

If a student changes to a major which requires a previously passed course and this course has been taken Pass/Fail, he/she may request either to take the course on a letter-graded basis, that the P be changed to C, or that another course be substituted.

In the event limited enrollment in a class is necessary, priority will be given as follows: majors, letter-graded students, Pass/Fail students, auditors.

</tbody>
</table>

The values in this table are based on the following formula: MCGPR = 2.25 \times (CL/(CL + 12))
passed. Another option is to enroll in summer session(s) and have regular enrollment reinstated immediately if the summer school work brings the cumulative grade-point ratio above the MCGPR or if the student passes a minimum of 12 credit hours and earns a 2.2 or higher grade-point ratio during Maymester, first, and/or second summer sessions. The final option to avoid suspension or dismissal is to appeal to the Appeals Committee on Continuing Enrollment at the end of the spring term or second summer session. This committee meets approximately one week after final examinations in the fall, spring, and second summer session. Students should contact the Office of Undergraduate Studies for a schedule of meeting dates. Appeals must be in the Office of Undergraduate Studies no later than three days prior to the Appeals Committee meeting. An appeal must include a letter from the student giving a complete explanation of his/her poor academic performance. To the extent possible, verifiable documentation should also be included. Students are strongly encouraged to submit a letter of recommendation directly to the chair of the Appeals Committee on Continuing Enrollment from the appropriate department chair (or designee) or academic advisor stating support of the student for continued enrollment in that department. Appeals will be granted only in the most exceptional cases, and a student will be allowed to continue on an appeal only once prior to dismissal. Students who return on a successful appeal must meet the conditions specified by the Appeals Committee on Continuing Enrollment.

When a student is suspended or dismissed for academic reasons, ineligibility to continue officially commences on the first day of classes of the very next semester (fall or spring, as appropriate) immediately following the decision of ineligibility. Suspension is for one semester only and the student is guaranteed readmission the following term.

A student who has been dismissed may file a petition for readmission with the Appeals Committee on Continuing Enrollment after one calendar year. If this petition is denied, the student may file subsequent petitions for readmission after any intervening term of enrollment. Dismissed students who are readmitted and again fail to meet the requirements for continuing enrollment will be permanently dismissed and may not appeal to continue.

This continuing enrollment appeals process is separate from the unsatisfactory academic progress appeal with Student Financial Aid. Students subject to suspension or dismissal must be allowed to continue enrollment before submitting a satisfactory academic progress appeal for financial aid eligibility. Further information on satisfactory academic progress is available in the Financial Information section of this catalog and in the publication Financing Your Clemson University Education.

**Grade Protests**

A student wishing to protest a final course grade must first try to resolve any disagreement with the instructor. If unable to reach a resolution, the student may follow the procedures listed under Academic Grievance Committee. Grievances must be filed within 90 calendar days (exclusive of summer vacation) of the date of the last exam for the term.

**Repeating Courses Passed**

A student may repeat a course passed with a grade lower than B. If the grade is a D and the student has sufficient W hours and sufficient Academic Redemption hours, the Academic Redemption Policy below will apply. Otherwise, both grades will be calculated in the grade-point ratio. In either case, credit for the course will be counted only once toward the number of hours required for graduation. For continuing enrollment purposes, duplicate credits do not count as credits passed. For financial aid purposes, duplicate credits do not count as credits completed for satisfactory academic progress. If a student repeats a course passed with a grade of B or better, the credits attempted as well as credits and grade points earned will be removed from the cumulative summary.

**Repeating Courses Failed**

A student who has failed a course cannot receive credit for that course until it has been satisfactorily repeated hour for hour in a class; except that in the case of correlated laboratory work, the number of hours to be taken shall be determined by the instructor. Where separate grades for class and laboratory work are given, that part of the subject shall be repeated in which the failure occurred. Satisfactorily repeating a course previously graded F does not erase the original F grade from the student’s record. The student repeats a course in which the previous grade was F and the student has not exhausted higher allotment of W hours or Academic Redemption hours, the Academic Redemption Policy below will apply. Otherwise, both grades appear on the record and are computed in the cumulative grade-point ratio.

**Academic Redemption Policy**

The Academic Redemption Policy (ARP) allows a student enrolled before August 2007 to repeat up to nine hours of coursework in which a D or F was earned within the last 20 regular credit hours, the Academic Redemption Policy below will apply. In all cases, the grade earned in the course used to redeem the earlier course will be used in computing the grade-point ratio and satisfying degree requirements. When the earlier grade is D and the second grade is F, the student cannot use the D grade to satisfy any degree requirement.

The following conditions apply:

Courses taken prior to fall semester 2003 may not be considered for academic redemption.

For students with sufficient W hours, the first nine hours of repeated coursework will automatically be computed for academic redemption, and these hours will be deducted from the student’s allotted W hours. If sufficient W hours are not available, the ARP will not apply.

Both grades will remain on the transcript, degree progress report, and other official documents. For financial aid purposes, courses repeated under this policy resulting in duplicate credit do not count for satisfactory academic progress.

If a student drops a repeated course during the period in which the Academic Calendar indicates a W grade is assigned, then both the ARP hours and W hours will be subtracted from the student’s remaining ARP and W hours.

The ARP shall apply only to courses taken at Clemson University. The earlier course graded D or F can only be redeemed by repeating the same course. Course substitutions are not permitted.

Students may not invoke the ARP after they have graduated. After graduation, students may repeat coursework, but both grades will be calculated in the grade-point ratio.

The ARP may not be applied to a course taken on a Pass/Fail basis or to any course in which the student was previously found guilty of academic dishonesty.

**CLASSWORK**

**Academic Advising**

Each student is assigned an academic advisor in his/her major area. It is the responsibility of the student to consult with the advisor during registration. The advisor will assist the student in scheduling courses so as to fulfill the requirements of the degree program; nevertheless, it is the responsibility of the student to fulfill the relevant requirements of the degree. Advisors also maintain files on individual advisors to assist in academic planning.

**Course Prerequisites**

Prerequisites for each course are enumerated in the Courses of Instruction section of this catalog. In addition to these requirements, colleges and departments may also establish other standards as conditions for enrollment. It is the student’s responsibility to refer to individual college and curriculum information for specific standards.

**Class Attendance**

College work proceeds at such a pace that regular attendance is necessary for each student to obtain maximum benefits from instruction. Regular and punctual attendance at all class and laboratory sessions is a student obligation, and each student is responsible for all the work, including tests and written work, in all class and laboratory sessions. No right or privilege exists that permits a student to be absent from any given number of class or laboratory sessions except as stated in the syllabus for each course. At the same time, it is obvious that students have valid reasons for missing classes; the instructors are expected to be reasonable in the demands they place on students. In this regard, instructors must inform the students in the syllabus required in every class what constitutes excessive absences and the penalty, if any, for such absences. Faculty who impose penalties for excessive absences must keep accurate attendance records.

Some students are on scholarships and/or grants-in-aid overseen by the University Scholarships and Awards Committee. The acceptance of such scholarships and/or grants-in-aid may require participation in events both on and off campus. Additionally, students occasionally are required to miss class because of participation in co-curricular activities, such as class trips, that the faculty members note on their syllabi. The student must discuss these activities with the faculty members whose classes will be missed well in advance of their occurrences. The documentable absences are necessary, and the instructor will make arrangements for those students...
to make up graded work that takes place during those necessary absences. The time, location, and nature of the make-up work will be at the discretion of the instructor. If required, documentation will be provided to instructors by students.

Instructors are expected to set reasonable policies in working with those student personal documentable absences that are truly beyond the student’s control. After reviewing the reason for the absence, the instructor at his/her discretion may allow the student to make up the graded work missed.

All other aspects of class attendance are within the discretion of the instructor, department, or college responsible for the course. If a student feels unfairly treated in any attendance-related situation, the student has the right of appeal to the Academic Grievance Committee.

**First Day Class Attendance**

All students are required to attend the first scheduled day of classes and labs. Students who cannot attend the first class are responsible for contacting the instructor to indicate their intent to remain in that class. If a student does not attend the first class meeting or contact the instructor by the second meeting or the last day to add, whichever comes first, the instructor has the option of dropping that student from the roll.

**Dead Days**

During the last two class days of the fall and spring semesters, commonly referred to as Dead Days, all regularly scheduled classes are conducted; however, course testing on these days is limited to scheduled laboratory and one-semester-hour course final exams and make-up tests. Dead Days are observed during fall and spring semesters only. Dead Days do not apply to courses numbered 600 or above.

**Auditing Policies**

Qualified students may audit courses upon written approval of the auditor. Auditors are under no obligation of regular attendance, preparation, recitation, or examination and receive no credit. Participation in classroom discussion and laboratory exercises by auditors is at the discretion of the instructor. A student who has previously audited a course is ineligible for credit by examination.

Undergraduate and graduate students enrolled in 12 or more hours may audit courses at no additional charge. Others interested in auditing should verify their eligibility through the Registrar’s Office.

**Combined Bachelor’s/Master’s Plan**

Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements.

To be eligible for this plan, students must have completed their bachelor’s curriculum through the junior year (minimum 89 credits) and have a minimum overall grade-point ratio of 3.40. Information and application forms are available from the Graduate School Office. Endorsements by the program coordinator or department chair of both programs are required. If accepted, students will be given conditional admission to the master’s program pending completion of their bachelor’s degrees and submission of satisfactory GRE or GMAT scores, if required. Combined Plan students are not eligible for graduate appointments for financial aid until their bachelor’s degrees have been awarded.

A maximum of 12 credits of graduate courses in the master’s program may be applied to the bachelor’s program. As determined by the participating bachelor’s program, graduate courses may be applied to the bachelor’s degree as free or technical electives, or by substitution of 800-level courses for required undergraduate courses. Under no circumstances can 600-level counterparts of courses required in the bachelor’s program be counted toward master’s requirements.

Not all programs may choose to participate in the Combined Bachelor’s/Master’s Plan. Those bachelor’s programs whose participation is required may permit fewer than 12 graduate credits to count toward the bachelor’s degree. Furthermore, the bachelor’s programs determines the acceptability of specific graduate courses to meet their curriculum requirements, and the participating master’s programs control admission of students into their programs and their courses. Students should consult individual academic units for specific requirements.

**Enrollment in Graduate Courses**

Enrollment of Clemson University seniors in any graduate course is subject to approval by the department offering the course and the Graduate School. This approval is required prior to registration. Approval forms are available from the Graduate School Office in E-106 Martin Hall or at www.grad.clemson.edu/grad_general.html. The total course workload for the semester must not exceed 18 hours, and the cumulative graduate credits earned by seniors shall not exceed 12 semester hours.

Seniors with a cumulative grade point ratio of 3.0 or higher may enroll in 700- or 800-level courses and may use these courses to meet requirements for the bachelor’s degree; however, courses used for this purpose cannot be counted later toward an advanced degree. Alternatively, such students may take 600-, 700-, or 800-level courses in excess of the requirements for their undergraduate degrees and may request that these courses be included as a part of their graduate program if they are subsequently admitted to the Graduate School. Courses cannot be taken at the 600 level if their 400-level counterparts are required for the undergraduate degree in the same academic major as the proposed graduate degree.

A Clemson senior with a cumulative grade-point ratio less than 3.0 may apply to the Graduate School for conditional acceptance. If accepted, the student may enroll in graduate courses for inclusion in a future graduate program, subject to approval of Form GS6. The form must be turned in and accepted by the Graduate School before a student can register for graduate courses.

In all cases, the credits and quality points associated with senior enrollment in graduate courses will be part of the undergraduate record.

**GRADUATION REQUIREMENTS**

A candidate for an undergraduate degree is a student who has submitted a completed diploma application by the deadline prescribed in the University calendar for a particular graduation date.

Candidates for degrees are required to apply for their diplomas within three weeks following the opening of the final semester or the opening of the first summer session prior to the date the degrees are to be awarded. Applications must be submitted through SISWeb at tigerweb.clemson.edu.

Only candidates who have completed all graduation requirements are permitted to participate in the graduation ceremony.

**Residence Requirement**

To qualify for an undergraduate degree, a student must complete through instruction from Clemson a minimum of 37 of the last 43 credits presented for the degree. A waiver may be obtained for approved study abroad experiences through the Undergraduate Academic Services Office, E-103 Martin Hall. To qualify for the five-year professional undergraduate degree in Landscape Architecture, a student must complete through instruction from Clemson, a minimum of 42 of the last 48 credits presented for the degree.

**Make-up of Incompletes Received in Last Semester**

A candidate for a degree who receives one or more grades of I in the semester immediately prior to graduation shall have an opportunity to remove the unsatisfactory grades provided the final grades are received in the Registration Services Office, E-206 Martin Hall, by the time grades for candidates for graduation are due. A student who qualifies for graduation under this regulation will be awarded his/her degree on the regular date for the award of degrees.

**Special Requirements**

A cumulative grade-point ratio of 2.0 is required for graduation, and candidates for degrees must be officially accepted in the major in which they are applying for a degree in the term prior to application for the degree.

**Awarding of Degrees Posthumously**

An undergraduate student may be awarded a degree posthumously on the recommendation of the faculty of the college concerned, subject to the following conditions:

- the student had at least a 2.0 grade-point ratio at time of death
- including credits scheduled in the term in which death occurred, the student a) had satisfied 75% of the degree requirements and b) met the residence requirement for a degree which requires that 37 of the last 43 credits presented for a degree be earned at Clemson.

**Credit Limitation**

If all work toward a degree is not completed within six years after entrance, the student may be required to take additional courses.
A. Academic Honors
Honors Graduates
To be graduated with honors, a student must have a minimum cumulative grade-point ratio as follows: summa cum laude—3.4, magna cum laude—3.7, and summa cum laude—3.9.

Honor Lists
At the end of the fall and spring semesters, the following lists shall be compiled of undergraduate students who have achieved grade-point ratios of 3.5–4.0 on a minimum of 12 semester hours, exclusive of Pass/Fail coursework.

Dean’s List—3.5 to 3.99 grade-point ratio
President’s List—4.0 grade-point ratio

Honors and Awards
The University offers a number of awards for outstanding achievement in specific fields and endeavors. Recipients are chosen by selection committees and are announced at the annual Honors and Awards Day program or other appropriate ceremonies. Detailed information relating to such awards is available in the offices of the academic deans and department chairs.

ACADEMIC RECORDS
The student's permanent academic record is maintained in the Registrar's Office and contains personal identifying information, grades, and credits. Where appropriate, statements of a corrective nature, withdrawals, suspension for failure to meet academic standards, suspension for disciplinary reasons, and graduation data are added. The academic record is a historical record of the student's academic progress.

Classification
All new students are classified as freshmen unless they have attended another college prior to entrance. Students who have completed college work elsewhere will be classified on the basis of semester hours accepted at Clemson rather than the amount of work presented. To be classified as a member of any class other than freshman, students must meet the credit-hour requirements below:

Sophomore—minimum 30 credit hours
Junior—minimum 60 credit hours
Senior—minimum 90 credit hours

Change of Major
Any undergraduate student who meets the Continuing Enrollment Policy after attempting 12 credit hours at Clemson University (or who is allowed to continue by virtue of a semester 2.2 grade-point ratio on 12 earned credits or who is allowed to continue through appeal to the Continuing Enrollment Appeals Committee or by other authorization of this committee) may transfer from one major to another. Any college or department which seeks an exception to this policy must have the approval of the collegiate dean and the provost.

Withdrawal from the University
A student may withdraw from the University subject to the restrictions in the section on W—Withdraw. Students who exceed these restrictions shall have final grades recorded. Any variance from the restrictions must be approved by the provost or the provost’s designee and must be requested within 90 calendar days (exclusive of summer vacation) of the date of the last exam for the term. The student must document the circumstances supporting the request. All University withdrawals (including withdrawing from the only course in which a student is enrolled) must be processed by the Associate Dean of Undergraduate Studies. Students should report to E-103 Martin Hall. Students receiving financial aid who withdraw from the University may have to repay significant portions of their financial aid. Students should report to G-08 Sikes Hall to determine the amount. For financial aid purposes, enrollment is defined and satisfactory academic progress levels are established as of the last day to register or add classes. Withdrawal from the University can negatively impact financial aid eligibility if a student has not completed a sufficient number of hours. Details are available in the publication Financing Your Clemson University Education.

Academic Renewal
The student who has not enrolled at Clemson for a period of two or more academic years may apply to the Appeals Committee on Continuing Enrollment for readmission under special conditions, known as academic renewal. Under these conditions, the previous credits attempted and grade-point deficit will not constitute a liability in a new grade-point computation; however, no credits passed or attended grade points will be available to the student for a degree at Clemson and grades previously passed may not be validated by special examination. The previous record will appear on the permanent record as well as the notation of readmission under the policy of academic renewal. Students returning under the academic renewal policy who apply for financial aid should submit written notification of their status to the Office of Student Financial Aid in order to update their academic progress record. For financial aid purposes, terms enrolled in prior to academic renewal are counted in the 12 semesters allowed for satisfactory academic progress.

Transcripts
Official transcripts are issued only at the authorized, written request of the student. Requests should be directed to Transcripts, 104 Sikes Hall, Box 345125, Clemson, SC 29634-5125. Payment in advance is required and may be made by Discover, Visa, MasterCard, Tiger Stripe, check (payable to Clemson University), or cash. The following must be included with the transcript request: full name (including any names used while at Clemson), social security number, current address, date of birth, the student’s address at Clemson, where the transcript is to be sent, and payment of $10 per transcript. Telephone requests will not be honored. Transcript requests are normally processed within 48 hours, but additional processing time may be required at the end of a semester. Information is available from the Enrolled Student Services Office at the address above or by telephone at 864-656-2173. Official transcripts are not issued for those who are indebted to the University.

ACADEMIC INTEGRITY
As members of the Clemson University community, we have inherited Thomas Green Clemson’s vision of this institution as a “high seminary of learning.” Fundamental to this vision is a mutual commitment to truthfulness, honor, and responsibility, without which we cannot earn the trust and respect of others. Furthermore, we recognize that academic dishonesty detracts from the value of a Clemson degree. Therefore, we shall not tolerate lying, cheating, or stealing in any form.

I. Academic Integrity Policy
A. Any breach of the principles outlined in the Academic Integrity Statement is considered an act of academic dishonesty.

B. Academic dishonesty is further defined as:
1. Giving, receiving, or using unauthorized aid on any academic work;
2. Plagiarism, which includes the intentional or unintentional copying of language, structure, or ideas of another and attributing the work to one's own;
3. Attempts to copy, edit, or delete computer files that belong to another person or use of Computer Center account numbers that belong to another person without the permission of the file owner, account owner, or file number owner;

C. All academic work submitted for grading contains an implicit pledge and may contain, at the request of an instructor, an explicit pledge by the student that no unauthorized aid has been received.

D. It is the responsibility of every member of the Clemson University community to enforce the Academic Integrity Policy.

II. Academic Integrity Committee
The power to hear cases of academic dishonesty is vested in an Academic Integrity Committee.

A. Structure—The Academic Integrity Committee is composed of twenty members as follows:
1. Ten tenure-track members of the faculty; two members from each college elected by their respective collegiate faculties. Faculty members will be elected on a staggered term basis, serving for a period of two years after initiation of staggered terms. Terms commence with fall semester late registration.
2. Ten members of the undergraduate student body; two from each college. Student members are nominated by the Student Body President, through an application and interview process in the spring semester, approved by the Student Senate, and appointed by the provost for terms of two years. Students must have a 3.0 grade-point ratio at the time of appointment and must have completed 30 hours by the end of the spring semester. Nominations will be made in the spring semester with terms of service commencing with fall semester late registration.
3. The committee is divided into four standing boards, hereafter referred to as hearing boards, which will hear the cases of academic dishonesty. Hearing boards convene on a weekly, rotational basis unless there are no cases to be heard. For summer sessions, the Associate Dean of Undergraduate Studies must maintain at least one hearing board to hear cases.

4. Hearing boards are comprised of two faculty members, two students, and one chairperson. Quo-
rum, for a hearing board, is one student, one faculty member, and a chairperson. Decisions by the hearing board will be by majority vote.

5. Chairpersons will be elected from within the Committee’s membership. Two chairpersons are selected from the faculty membership and two from the student membership.

6. Before hearing any cases, a new member of the committee must undergo a training session(s) with the Associate Dean of Undergraduate Studies.

7. The Associate Dean of Undergraduate Studies is the administrative coordinator of the Academic Integrity Committee.

B. Procedures

1. When the opinion of a faculty member, there is evidence that a student has committed an act of academic dishonesty, the faculty shall make a formal written charge of academic dishonesty, including a description of the misconduct, to the Associate Dean of Undergraduate Studies. At the same time, the faculty member may, but is not required to, inform each involved student privately of the nature of the alleged charge.

2. When, in the opinion of the student, there is evidence that another student has committed an act of academic dishonesty, he/she should contact the faculty member for the course to discuss the incident. After being contacted, if, in the opinion of the faculty member, there is evidence that a student has committed an act of academic dishonesty, the faculty member shall make a formal written charge of academic dishonesty, including a description of the misconduct, to the Associate Dean of Undergraduate Studies. At the same time, the faculty member may, but is not required to, inform each student involved privately of the nature of the alleged charge.

3. When the Associate Dean of Undergraduate Studies has received a formal charge of an alleged violation, he/she will contact the student involved privately to notify him/her of the charge and at the same time will provide the student with a copy of the charge and a copy of the procedures that the Academic Integrity Committee has adopted, pursuant to number 6 below. If a student is charged with academic dishonesty, he/she may not withdraw from the course unless he/she is exonerated of the charge. If a student is found guilty of academic dishonesty and receives a D or F grade, he/she will not be allowed to redeem that grade under the Academic Redemption Policy. If the student fails to respond to the Associate Dean’s requests for a meeting, the student is considered to have waived his/her right to a hearing, thus admitting to being in violation of the Academic Integrity Policy.

4. After informing the student involved, the Associate Dean of Undergraduate Studies will convene one of the boards of the Academic Integrity Committee within 14 calendar days (exclusive of University holidays) of his/her being notified of an alleged violation. (Students charged in the spring term, but not enrolled in summer sessions, may be given a continuance to the next fall term.) All students will be presumed innocent of a violation until found guilty by a hearing board. Each party is responsible for having present at the hearing all witnesses that he/she wishes to speak on his/her behalf.

5. A charge of academic dishonesty in a course must be made within thirty days after the beginning of the next term, exclusive of summer vacation. If an I (Incomplete) is given in a course, the grade in the course is considered to be final when the I is made up.

6. The Academic Integrity Committee will adopt its procedures, to be followed by all hearing boards, prior to the first case heard by a hearing board. In addition to providing the student with a copy of the procedures, as stated in number 3 above, the Associate Dean of Undergraduate Studies will provide a copy of the procedures to the involved faculty member and also the hearing board members. The Associate Dean of Undergraduate Studies will also retain copies of these procedures. The procedures must afford both faculty and students the opportunity to present their cases and the opportunity for rebuttal.

7. In cases in which there is a finding of “in violation,” the faculty member may consult with the Associate Dean of Undergraduate Studies to consider any past precedent established regarding academic penalties levied in similar cases. Faculty members must inform the Associate Dean of Undergraduate Studies of the academic penalty for a student found “in violation” by a hearing board.

8. The Associate Dean of Undergraduate Studies is responsible for notifying the registrar and all other appropriate University personnel of the findings of “in violation” and the academic penalty. The Associate Dean of Undergraduate Studies retains all records of academic dishonesty cases and their findings in accordance with the University’s Records and Retention Policy.

C. Penalties

1. Upon a finding of “in violation” by a hearing board, the student’s record will not reflect the incident.

2. Upon a finding of “in violation” by a hearing board, the Associate Dean of Undergraduate Studies will notify the student and faculty member of the decision immediately. If the offense is the first for the student, then the faculty member has the ability to determine the academic penalty, which shall not exceed a grade of F for the course.

3. If the finding of “in violation” is not the student’s first offense, the student will receive a grade of F for the course, will be suspended from the University for one or more semesters, and may be permanently dismissed from the University. The hearing board will determine the period for which the student will be suspended or, if applicable, permanently dismissed. Suspension or dismissal requires the approval of the President of the University.

D. Appeals

1. Students do not have the option to appeal a decision rendered by the hearing board, whether it is the first, second, or any subsequent offense. Students do not have the option to appeal the penalty determined by the faculty member for first offenses or to appeal the grade of F for the course given for second offenses.

2. For offenses resulting in suspension or permanent dismissal, students have the option to present written information to the President of the University to appeal the length of the suspension or to appeal a decision of permanent dismissal. Students must present information in their defense, as allowed in this paragraph, to the President within five working days after receipt of written notification of the suspension or dismissal. However, as stated in number 1 above, students cannot appeal a decision rendered by the hearing board.

II. Rules and Procedures for Academic Grievances

1. Any student filing a grievance must first attempt to resolve it by consulting with the involved faculty or staff member for resolution. In the event no resolution is reached, the student shall consult with the Ombudsman, who shall remain a neutral party. Following the meeting with the Ombudsman, the student may wish to consult with the Associate Dean of Undergraduate Studies to begin the grievance process. As part of the grievance process, the

ACADEMIC GRIEVANCE COMMITTEE

I. General

The Academic Grievance Committee hears all grievances involving the following: (a) grievances of a personal or professional nature involving an individual undergraduate student and a faculty member; (b) claims by an undergraduate student concerning the inequity of final grades. (The only aspects of a final grade case that are grievable are claims by students of final grades being changed because of personal or professional reasons. Students may not grieve issues such as quality of instruction or the difficulty of testing, for example) and (c) claims by an undergraduate student of unfair treatment in an attendance related issue. In all unresolved cases, the committee makes its recommendations to the President through the provost. All proceedings of the committee are confidential. (For possible grievances arising from the inability to understand teachers whose first language is not English, the student must follow the English Fluency Policy referenced in the Student Handbook.)

The Academic Grievance Committee shall not hear any grievances including allegations of discrimination based on age, color, disability, national origin, race, religion, sexual orientation, or veteran's status even if the grievance falls within one of the categories noted above. All such discrimination grievances should be submitted to the Office of Access and Equity located in 110 Holtzendorff, 656-3181. The Academic Grievance Committee shall refer any such discrimination grievances it receives to the Office of Access and Equity.

The Academic Grievance Committee is composed of 28 members as follows:

A. Fifteen members of the faculty; three members from each college. Members are appointed on a staggered basis by the respective college deans and serve for a period of three years. Term commences with fall semester late registration.

B. Twelve undergraduate students, nominated by the student body president, approved by the Student Senate and appointed by the Provost for one-year terms. Nominations should be made in the spring semester. Term of service commences with fall semester late registration. At least one and no more than three students shall be appointed from any one college.

C. Dean of Student Life (or designee);

D. The Dean of Undergraduate Studies shall appoint the chairperson from those faculty members who have previously served.

The Academic Grievance Committee is composed of 28 members as follows:

A. Fifteen members of the faculty; three members from each college. Members are appointed on a staggered basis by the respective college deans and serve for a period of three years. Term commences with fall semester late registration.

B. Twelve undergraduate students, nominated by the student body president, approved by the Student Senate and appointed by the Provost for one-year terms. Nominations should be made in the spring semester. Term of service commences with fall semester late registration. At least one and no more than three students shall be appointed from any one college.

C. Dean of Student Life (or designee);

D. The Dean of Undergraduate Studies shall appoint the chairperson from those faculty members who have previously served.

II. Rules and Procedures for Academic Grievances

1. Any student filing a grievance must first attempt to resolve it by consulting with the involved faculty or staff member for resolution. In the event no resolution is reached, the student shall consult with the Ombudsman, who shall remain a neutral party. Following the meeting with the Ombudsman, the student may wish to consult with the Associate Dean of Undergraduate Studies to begin the grievance process. As part of the grievance process, the
student shall meet serially with the Office of Undergraduate Studies, the department chair, and dean of the faculty member, who shall hear the grievance and act as mediators. Consultation by any party with the Ombudsman shall remain confidential. The Ombudsman, dean, department chair or immediate staff superior, faculty or staff member and student shall make every effort to reach a solution.

2. If the grievance remains unresolved, the student may bring a written statement detailing the grievance before the Academic Grievance Committee. The student must report to the Office of Undergraduate Studies and secure a checklist form which the student will use to document the following: (a) the dates of those consultations described in Procedure 1, above, (b) the names of those persons consulted, and (c) the signature of the collegiate dean attesting that no resolution could be reached. (Note: If all parties agree, the checklist may be signed and dated during the initial consultation.) Both the written statement and the checklist form must be delivered to the Office of Undergraduate Studies within 90 calendar days (exclusive of summer vacations) of the date of the last exam for the term in which the student alleged to have been aggrieved:
or, in a case involving a protest of a final grade, the grievances must be filed within 90 calendar days of the date of the last exam for the term (exclusive of summer vacation) in which the student alleges that an inequitable grade was recorded. The Office of Undergraduate Studies will retain the original documents and forward a copy of the grievance to the chairperson of the Academic Grievance Committee. In a case involving a protest of final grade, the Office of Undergraduate Studies will notify the Office of Records and Registration of the filed grievance. The failure of a student to file a grievance within the 90-day period will cause him/her to forfeit his/her right to file a grievance under this procedure.

(d) If a student files a grievance, the professor has his/her right to file a grievance under this procedure. If any witness is unable to be present at the hearing, the chairperson may, at his/her discretion, accept a written statement from that witness to be presented at the hearing. The parties shall be ac- corded the right to assistance of counsel of their own choice; however, counsel shall not be permitted to participate actively in the proceedings.

5. The subcommittee to investigate the grievance shall then formulate the findings in writing and seek to obtain from the parties involved in the grievance signed acceptance for a recommended solution to the grievance. If all parties to the grievance accept the solution posed by the subcommittee, the matter of the grievance will be considered closed when the solution has been implemented. Copies of the written findings and recommended solution will be forwarded by the subcommittee chairperson to all parties to the grievance for acceptance via return receipted certified mail. Each party will be asked to indicate acceptance of the posed solution by signing and returning the letter within 14 calendar days of its date. Failure to respond within 14 calendar days will constitute acceptance. Proper notification of the solution arrived at by the Academic Grievance Committee will be mailed by the subcommittee chairperson to the involved faculty or staff member, department chair of the faculty member or immediate superior of staff member, the involved collegiate dean, and Associate Dean of Undergraduate Studies.

A. In the event that the act is alleged to have occurred within the context of a course and is consistent with the general definition of academic dishonesty presented in Sections I of the Academic Integrity Policy, the same procedures in that policy will apply except for academic misconduct listed in III below.

B. Graduate Students—If the resulting penalty is either the assignment of a grade of D or F in a required graduate course, or the issuance of any grade that causes the student not to possess a cumulative B average in both graduate courses and in all courses, action under the Policy and Procedures on Revocation of Academic Degrees may be initiated.

III. Falsification of Data and Plagiarism in Theses, Dissertations, or Other Final Projects

Data falsification, plagiarism (as defined in the Academic Integrity Policy) and other acts of academic dishonesty in a thesis, dissertation, or other final project are serious acts of misconduct. Allegations of this type of misconduct may result in initiation of action under the Policy and Procedure on Revocation of Academic Degrees.
REVOCATION OF ACADEMIC DEGREES

Preamble
Academic institutions have a critical responsibility to provide an environment that promotes integrity, while at the same time encouraging openness and creativity among scholars. Care must be taken to ensure that honest error and ambiguities of interpretation of scholarly activities are distinguishable from outright misconduct. This policy is applicable to fraudulent or other misconduct in obtaining an academic degree which is so egregious that a mechanism for revoking an academic degree, either graduate or undergraduate, must be undertaken. The Clemson University Board of Trustees has the sole authority to revoke any degree previously awarded.

Definitions
As used herein, the following terms shall apply:
A. When the degree holder was an undergraduate student:
   1. “Dean” shall mean the dean of the academic college where student was enrolled.
   2. “Committee of Investigation and Recommendation” shall be composed of the members of the standing University undergraduate Continuing Enrollment Appeals Committee. An undergraduate student will be appointed to the Committee of Investigation and Recommendation by the President of the Student Body within ten (10) calendar days of notification by the President of the Faculty Senate. Any member of the Continuing Enrollment Appeals Committee who is a faculty member in the department which awarded the degree involved shall not be a member of the Committee of Investigation and Recommendation for that particular investigation. If there are fewer than three (3) non-disqualified faculty members, the President of the Faculty Senate shall appoint additional faculty members to bring the number of faculty committee members up to three (3). If the President of the Faculty Senate is from the same department that awarded the degree involved, the President-Elect of the Faculty Senate shall appoint the additional member.

B. When the degree holder was a graduate student:
   1. “Dean” shall mean the Dean of the Graduate School.
   2. “Committee of Investigation and Recommendation” shall be composed of the members of the standing University Graduate Admissions and Continuing Enrollment Appeals Committee, except for the Associate Dean of the Graduate School who shall not be a member of the Committee of Investigation and Recommendation. A graduate student will be appointed to the Committee of Investigation and Recommendation by the President of Graduate Student Government within ten (10) calendar days of notification by the President of the Faculty Senate. Any member of the Graduate Admissions and Continuing Enrollment Appeals Committee who is a faculty member in the department which awarded the degree involved shall not be a member of the Committee of Investigation and Recommendation for that particular investigation. If there are fewer than three (3) non-disqualified faculty members, the President of the Faculty Senate shall appoint additional faculty members to bring the number of faculty committee members up to three (3). If the President of the Faculty Senate is from the same department that awarded the degree involved, the President-Elect of the Faculty Senate shall appoint the additional member.

Complaint
An allegation or complaint involving the possibility of misconduct can be raised by anyone. The allegation should be made in writing to the dean.

Initial Review
The dean will conduct the initial review to determine whether or not the allegation has merit. The dean may discuss the matter with the former student’s advisory committee (if any) and other faculty as appropriate. The dean may also contact persons outside the University who may be able to provide factual information on the alleged misconduct or who may otherwise have expertise concerning issues involved in the alleged misconduct. If the dean determines that the allegation has no merit, he/she will terminate the investigation. If the dean determines that serious academic misconduct is suspected, the dean will notify the President of the Faculty Senate in writing in a confidential manner. The dean shall also notify the Vice President for Academic Affairs and Provost of the charge but will not discuss any details of the charge.

Committee of Inquiry
The President of the Faculty Senate shall, within (10) calendar days of receipt of the notification from the dean, appoint three (3) faculty members to the Committee of Inquiry and notify the President of Graduate Student Government or the President of the Student Body, a representative who shall appoint a graduate or undergraduate student, as appropriate, to the Committee of Inquiry within ten (10) calendar days of notification. The President of the Faculty Senate shall also notify the degree holder of the formation of a Committee of Inquiry.

If the Faculty Senate President is from the same department that awarded the degree involved, the President-Elect of the Faculty Senate shall appoint the Committee of Inquiry. The faculty members will be appointed from departments which did not award the degree involved. The Committee will elect its chairman from the faculty members on the Committee.

For each allegation, the Committee of Inquiry will review the complaint and any other information provided by the dean and determine whether there is sufficient evidence to warrant a formal charge of academic misconduct and further investigation under this policy. While the Committee of Inquiry shall not make a recommendation as to whether a degree should be revoked, the purpose is to provide a review to separate frivolous, unjustified or mistaken allegations from those requiring a more detailed and formal investigation. The Committee of Inquiry will review the evidence and must determine that the alleged misconduct more probably than not occurred in order for the committee to recommend a formal charge and further investigation.

Within thirty (30) calendar days of the formation of the Committee of Inquiry, the Committee of Inquiry will submit a written report to the President of the Faculty Senate. If the Committee of Inquiry’s report finds that the investigation should not proceed, the President of the Faculty Senate shall terminate the investigation and notify the appropriate persons. If the Committee of Inquiry’s report finds that a formal charge and further investigation are warranted, the President of the Faculty Senate shall, within ten (10) calendar days of receipt of the report of the Committee of Inquiry, send a copy of that report to the dean and to the Committee of Investigation and Recommendation. The President of the Faculty Senate shall also immediately notify the President of Graduate Student Government or President of the Student Body (whichever is appropriate) that a student representative needs to be appointed to the Committee of Investigation and Recommendation. The President of the Faculty Senate shall also notify the Vice President for Academic Affairs and Provost of the Committee of Inquiry’s recommendation. No details of the charge will be discussed. Note: A majority vote of the Committee of Inquiry is necessary to recommend that a formal charge and further investigation are warranted. A tie vote means that the investigation is terminated as stated herein.

Notification to Degree Holder
The dean shall issue in writing, within ten (10) calendar days of receipt of the report of the Committee of Inquiry, a formal charge of academic misconduct to the degree holder. This written notice shall detail the factual allegations for the charge and the evidence supporting the charge. This written notice shall also inform the degree holder that if the charges are substantiated, the degree holder’s degree could be revoked. This written notice shall also inform the degree holder of his/her right to appear at the hearing as stated in this policy. The dean shall also send with this notice a copy of this Policy and Procedure on Revocation of Academic Degrees to the degree holder. This notice shall be delivered to the accused in person or sent by certified mail, return receipt requested.

Committee of Investigation and Recommendation
The Committee of Investigation and Recommendation shall extend to the degree holder the following process:
1. Notice of the nature of the complaint
2. Notice of the evidence supporting the complaint
3. Notice of the hearing
4. The opportunity to present evidence, including testimony
5. The opportunity to hear the testimony against the degree holder
6. The opportunity to ask questions of all witnesses
7. The opportunity to have an attorney or advisor present at the hearing; however, the role of the attorney or advisor shall be solely to assist the party, and the attorney or advisor shall not be permitted to participate actively in the proceedings.

The degree holder shall not be entitled to know the identity of the person(s) who originally made the complaint unless that person agrees that his/her identity can be revealed.
The chair of the Committee of Investigation and Recommendation shall inform the degree holder of the time and date of the hearing.

The dean or his/her designee shall present the accusation against the degree holder at the hearing and may have one additional representative present during the hearing. Under this section the term “dean” is understood to include the dean’s designee, if such a designation is made.

The degree holder and the dean may submit written materials to the Committee of Investigation and Recommendation prior to the hearing. The chair of the Committee of Investigation and Recommendation shall make available the materials received to the other party and to all committee members.

The hearing before the Committee of Investigation and Recommendation shall be held no sooner than thirty (30) calendar days and no later than ninety (90) calendar days after receipt of the report of the Committee of Inquiry unless the degree holder and the dean agree to a different date. All matters pertaining to the hearing shall be kept as confidential as possible and the hearing shall be closed to the public. A verbatim record of the hearing will be made and shall be made a part of the hearing record. The degree holder and the dean shall be responsible for having any witnesses they wish to testify in attendance at the hearing. Witnesses will be present only while testifying.

The chair of the Committee of Investigation and Recommendation shall take whatever action is necessary during the hearing to ensure a fair, orderly, and expeditious hearing. No formal rules of evidence will be followed. If any objection is made to any evidence being offered, the decision of the majority of the committee shall govern. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded.

The degree holder and the dean shall be permitted to offer evidence and witnesses pertinent to the issues.

The dean shall present the case against the accused first. The accused shall then present his/her response.

The chair will allow each party to ask questions of the other party and will allow each party to ask questions of the other party’s witnesses at the appropriate time during the hearing as determined by the chair. Member of the committee may ask questions of any party or any witness at any time during the hearing.

Within fifteen (15) calendar days of the conclusion of the hearing, the Committee of Investigation and Recommendation shall submit a written report to the Vice President for Academic Affairs and Provost. The report shall contain findings and a recommendation as to whether the degree holder’s degree should be revoked. The Committee of Investigation and Recommendation must find clear and convincing evidence that serious academic misconduct has been committed in order to recommend the revocation of the degree holder’s degree. If the Committee of Investigation and Recommendation does not find clear and convincing evidence of serious academic misconduct, the Committee of Investigation and Recommendation cannot recommend revocation of the degree holder’s degree and the matter shall be closed. Note: A majority vote of the Committee of Investigation and Recommendation is necessary to recommend the revocation of a degree holder’s degree. This means that a tie vote will result in the matter being closed.

At the same time that the report is sent to the Vice President for Academic Affairs and Provost, the chair of the Committee of Investigation and Recommendation shall send a copy of the report to the degree holder, the dean, and other appropriate persons involved in the process.

If the Committee of Investigation and Recommendation recommends that the degree holder’s degree be revoked, the chair shall also send a complete copy of the hearing record to the Vice President for Academic Affairs and Provost. The hearing record shall consist of the transcript of the hearing and all documents that were submitted to the committee. The chair of the Committee of Investigation and Recommendation shall label which documents were submitted by each party when forwarding this information to the Vice President for Academic Affairs and Provost.

If the Committee of Investigation and Recommendation recommends that the degree holder’s degree be revoked, the chair shall also send a copy of the transcript of the hearing to the degree holder and the Dean at the same time that it is sent to the Vice President for Academic Affairs and Provost.

If the Committee of Investigation and Recommendation recommends that the degree holder’s degree be revoked, the Vice President for Academic Affairs and Provost shall review the hearing record and the report of the Committee of Investigation and Recommendation. If the Vice President for Academic Affairs and Provost decides that the degree holder’s degree should not be revoked, he/she shall notify the degree holder, the dean, the Committee of Investigation and Recommendation and other appropriate persons involved in the process, in writing, within twenty-one (21) calendar days of receipt of the transcript of the hearing, and the matter shall be closed. If the Vice President for Academic Affairs and Provost decides to recommend that the degree holder’s degree should be revoked, the Vice President for Academic Affairs and Provost shall send that recommendation in writing to the President of the University within twenty-one (21) calendar days of receipt of the transcript of the hearing. The Vice President for Academic Affairs and Provost shall send to the President, along with his/her recommendation, the Committee of Investigation and Recommendation’s report and the hearing record. The Vice President for Academic Affairs and Provost shall send a copy of his/her recommendation to the degree holder, the dean, the Committee of Investigation and Recommendation, and other appropriate persons involved in the process.

If the Vice President for Academic Affairs and Provost recommends to the President that the degree holder’s degree should be revoked, the President shall transmit that recommendation along with the report of the Committee of Investigation and Recommendation and the hearing record to the Executive Secretary of the Board of Trustees within thirty (30) calendar days of receipt. If the President wishes to make a recommendation, he/she shall review the recommendation of the Vice President for Academic Affairs and Provost, the report of the Committee of Investigation and Recommendation, and the hearing record and forward his/her recommendation to the Executive Secretary of the Board of Trustees within thirty (30) calendar days of receiving the recommendation of the Vice President for Academic Affairs and Provost.

The Executive Secretary of the Board of Trustees shall send to all trustees the hearing record, the recommendation of the Vice President for Academic Affairs and Provost, the report of the Committee of Investigation and Recommendation, and the recommendation of the President, if any. A majority vote by the Board of Trustees, at a duly constituted Board meeting, is required to revoke an academic degree.

The decision of the Board of Trustees shall be final.

All actions taken by committees shall be effective by a majority vote.

All investigations, hearings, and actions shall be kept as confidential as possible except for notice of any revocation approved by the Board of Trustees.

A decision not to proceed at any stage of the proceedings set forth in this policy does not necessarily mean that the original complaint was groundless.

For good cause shown, at the request of either party and the approval of the other, the Vice President for Academic Affairs and Provost shall extend any time limit set forth in this policy. Any such time extension shall be communicated in writing to all appropriate parties.

If a degree is revoked by the Board of Trustees, the former student’s transcript will be modified to reflect that the degree was revoked, and the former student will be informed of the revocation and requested to return the diploma. If the former student was enrolled in a program requiring a thesis or dissertation, all bound copies will be removed from the Clemson University Library. In addition, for doctoral students, University Microfilms, Inc. will be notified and requested to take appropriate action.

Students whose degrees have been revoked may be eligible to reapply for admission according to normal University procedures and policies in effect at the time of reapplication.
GENERAL EDUCATION

An undergraduate student whose enrollment in a curriculum occurs after May 15, 2003, must fulfill the general education requirements in effect at that time. If a student withdraws from the University and subsequently returns to classes or does not remain continuously enrolled (summers excluded), the requirements in effect at the time of return will normally prevail. Any variation in curricular or general education requirements shall be considered under the curriculum year change or the substitution procedure.

MISSION STATEMENT

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the intellectual and ethical development of students, and the general well-being of society. Undergraduate students must be broadly educated and technically skilled to be informed and productive citizens. As citizens, they need to be able to think critically about significant issues. Students also need to be prepared to complete undergraduate work and a major course of study. The mission requires a high level of knowledge about and competence in the following areas: communication, computer use, mathematics, problem solving, natural sciences, social sciences, humanities, and arts. Thus the mission of general education is to provide Clemson undergraduate students with a structured base through which these needs can be met.

REQUIREMENTS

General education requirements in some curricula are more restrictive than those shown below.

Science and Technology in Society and Cross-Cultural Awareness Requirements may be satisfied by other General Education courses, as indicated in the footnotes below.

I. Portfolio

All students will place material in an electronic General Education portfolio to document their work on general education competencies. Information and instructions are available at MyCLE.clemson.edu.

II. Communication

English Composition........................................ 3 credits
ENGL 103 (ENGL 102 for transfer students)

Advanced Writing........................................ 3 credits
ENGL 304, 312, 314, 316, 345, 346, 348, M.L. 402, THEA (ENGL) 347, or an approved cluster of courses such as A S 309, 310, 409, and 410

Oral Communication................................... 3 credits
COMM 150, 250, or an approved cluster of courses such as A S 309, 310, 409, or M.L. 101, 102

III. Academic and Professional Development

Participation in the Pilot Digital Portfolio Program or departmental courses approved on an interim basis by the Undergraduate Curriculum Committee addressing the general academic and professional development of the student ................. 2 credits

IV. Mathematical, Scientific, and Technological Literacy

Mathematics .................................................. 3 credits

Mathematics or Natural Science...................... 3 credits
Any general education Mathematics or Natural Science course listed above or AGRIC (EN SP) 201, 203, 210, 220, BIOSC 200, EN SP 200, GEOL 300, PHYS 240, S T S 216

V. Arts and Humanities

Literature...................................................... 3 credits
Any 200-level ENGL literature course; CHIN 401, FR 300, 304, GER 306, ITAB 301, 302, JAPN 401, 406, RUSS 360, 361, SPAN 303, 311

Non-Literature.............................................. 3 credits

VI. Social Sciences

Selected from two different fields ............... 6 credits
ANTH 201, AP EC 202, 257, CH S H 202, ECON 200, 211, 212, GEOG 101, 103, 104, 106, HIST 101, 102, 122, 124, 172, 173, 193, 194, P A S 301, PC SC 101, 102, 104, PSYCH 201, 275, R S 301, SOC 201, 202

VII. Cross-Cultural Awareness

A A H 210, A S L 305, ANTH 201, AP EC 205, C H S H 209, GEOG 103, HIST 193, 199, S T S 210, MUSIC 210, 314, P A S 301, PC SC 102, 104, REL 101, 102, or through a University-approved cross-cultural experience.

VIII. Science and Technology in Society

IX. Distributed Competencies

Each degree program will integrate into the program of study competencies in the following areas and provide an integration plan which addresses competencies and implementation: Ethical Judgment, Information Technology, Reasoning, Critical Thinking, and Problem Solving.

This course also satisfies the Science and Technology in Society Requirement.

This course also satisfies the Cross-Cultural Awareness Requirement.

GENERAL EDUCATION COMPETENCIES

Through the General Education experience at Clemson University, undergraduate students will accomplish the following:

Written and Oral Communication

1. Demonstrate effective communication skills appropriate for topic, audience, and occasion
2. Write coherent, well-supported, and carefully edited essays and reports suitable for a range of different audiences and purposes
3. Employ the full range of the writing process, from rough draft to edited product
4. Incorporate both print and electronic resources into speeches, presentations, and written documents

Mathematical, Scientific, and Technological Literacy

1. Demonstrate mathematical literacy through solving problems, communicating concepts, reasoning mathematically, and applying mathematical or statistical methods using multiple representations
2. Develop an understanding of the principles and theories of a natural science and its applications
3. Explain and apply the methods of a natural science in laboratory or experimental settings
4. Apply information technologies to intellectual and professional development
5. Understand the role of science and technology in society

Arts and Humanities

1. Develop an understanding of the history and cultural contexts of the arts and humanities.
2. Examine the arts and humanities as expressions of the human experience
3. Experience and evaluate productions of the performing and visual arts
Social and Cross-Cultural Awareness
1. Develop an understanding of social science methodologies
2. Explore the causes and consequences of human actions
3. Develop an understanding of world cultures in historical and contemporary perspectives
4. Recognize the importance of language in cultural contexts

Reasoning, Critical Thinking, and Problem Solving
1. Summarize, analyze, and evaluate fictional and non-fictional texts
2. Differentiate deductive and inductive reasoning processes
3. Acquire and analyze information to determine its quality and utility
4. Recognize parallels between and among disciplines and apply knowledge, skills, or abilities learned in one discipline to another

Ethical Judgment
1. Demonstrate knowledge of what ethics is and is not, its relation to academic integrity, and its importance as a field of study
2. Demonstrate understanding of common ethical issues and construct a personal framework in which ethical decisions can be made in a systematic, reflective, and responsible way

The General Education competencies may be met in a variety of ways. In some areas, specific courses will be selected from a list of approved courses. In other areas, more flexibility is afforded to each degree program. In all cases, the Undergraduate Curriculum Committee will be the faculty body to define approval criteria, to approve courses as meeting these criteria, and to approve curricula as meeting these general education requirements.
MINORS, PROGRAMS, AND DEGREES

Clemson University offers 74 baccalaureate degree programs in the Colleges of Agriculture, Forestry, and Life Sciences; Architecture, Arts, and Humanities; Business and Behavioral Science; Engineering and Science; and Health, Education, and Human Development. Bachelor of Arts degree programs require completion of two semesters of a modern foreign language.

MINORS

A minor consists of at least 15 semester hours, with no fewer than nine credits at the 300 level or higher. A student cannot major and minor in the same field or acquire a minor that is not allowed by the degree program. In programs that require a minor, courses may not be used to fulfill both the major and minor requirements. Courses used to fulfill general education requirements, however, may be counted toward the minor. Students are encouraged to contact the department offering the minor for advising. A student may specify one completed minor on the graduation application to be recorded in his/her academic record. Specific requirements are detailed below.

Accounting

A minor in Accounting requires ACCT 201, 204, 311, 312, and nine hours selected from 300- or 400-level accounting courses. Students planning to pursue the Master of Professional Accountancy degree program should select courses in consultation with the school’s graduate coordinator.

Adult/Extension Education

A minor in Adult/Extension Education requires AG ED 403, 440, 445, and six additional credits selected from the following: AG ED 407, 428, ED F (AG ED, CTE) 482, PRTM 308.

Aerospace Studies

A minor in Aerospace Studies requires A S 109, 110, 209, 210, 309, 310, 409, and 410. Completion of a S Leadership Laboratory and participation in cadet activities are mandatory. Students must compete for an allocation and be accepted into the Professional Officer Course before enrolling in A S 309.

Agricultural Business Management

A minor in Agricultural Business Management requires AP EC 302, 309, 319, and at least two courses selected from AP EC 308, 351, 402, 409, 433, 452, 456, 460.

Agricultural Mechanization and Business

A minor in Agricultural Mechanization and Business requires six credit hours selected from AG M 205, 206, 301, 303; and nine credit hours from AG M 402, 405, 406, 452, 460.

American Sign Language Studies

A minor in American Sign Language Studies requires 15 credit hours in a S L above the 200 level.

Animal and Veterinary Sciences

A minor in Animal and Veterinary Sciences requires AVS 150 and 151; one course selected from AVS 200, 201, 203, 204, 206; and nine hours selected from AVS 301, 310, 370, 375, 410, 415, 453.

Anthropology

A minor in Anthropology requires ANTH 201 and 15 hours from the following courses: ANTH 301, 320, 331, 351, 403, 495, 498, CHIN (ANTH) 418, JAPN (ANTH) 417, LANG 371, SOC 433.

Athletic Leadership

A minor in Athletic Leadership requires 17 credit hours arranged as follows: A L 349, 350, 353, 361, 362, 376, and one of the following: A L 371, 372, 373, 374, 375, 377. Students must complete a coaching internship or athletic administration internship under the direction of the Athletic Leadership Minor Coordinator.

Biochemistry

A minor in Biochemistry requires BIOCH 301, 423 or 431, 432, 433, 434 (13 credits), plus at least two credits from any other biochemistry courses at the 300 level or above, GEN (BIOSC) 416, one section of BIOSC (MICRO) 499 designated as oriented towards biochemistry or molecular biology.

Bioengineering

A minor in Bioengineering requires at least 15 credits and must include BIO E 302, 320, 401. The remaining six credits may be chosen from B E 312, BIO E 201, 420, 450, BIOSC 222, 223, 458, 459, C M E 210, E E 301, 302, or 308.

Biological Sciences

A minor in Biological Sciences requires 15 credits and must include both a lecture and corresponding laboratory in animal diversity (B I O S C 302/306 or 303/307) and a lecture and corresponding laboratory in plant diversity (B I O S C 304/308 or 305/309); remaining credits (minimum of seven) must be chosen from FROM, BIOSC, or GEN courses numbered 300 or higher.

Business Administration

A minor in Business Administration requires ACCT 201, ECON 211, 212, FIN 306, LAW 322, MKT 201, MGT 301.

Chemistry

A minor in Chemistry requires CH 101, 102, and 15 additional credits in Chemistry, at least nine of which must be at the 300 level, selected in consultation with the Department of Chemistry.

Cluster

The Cluster minor allows students a somewhat wider choice of course materials than is possible with the conventional subject-matter minor. The general requirement for the Cluster minor is 15 credits in courses numbered higher than 300, except where noted differently, chosen according to one of the plans below. Courses within the student’s major area may not be included in the Cluster minor.

Communication Studies

A minor in Communication Studies requires completion of one of the following options:

General—COMM 201 (with a C or better) and 12 additional credits in communication studies, nine of which must be at the 300–400 level. Three hours at the 400 level must be included.

Sports Communication—COMM 201 (with a C or better) COMM 325, 326, 327, and 425

Community Recreation Management

A minor in Community Recreation Management requires PRTM 301 (preferred) or 101; PRTM 205, 207, and 121, and six additional credits from PRTM 304, 307, 308, 317, 352, 391, 403, 421, 441, 452, 455.

Computer Science

A minor in Computer Science requires CP SC 212 and 12 additional credits in computer science of which at least nine credits must be at the 300 level or higher.

Crop and Soil Environmental Science

A minor in Crop and Soil Environmental Science requires AGRIC 104, CSENV 202, and nine or more credits at the 300 level or higher.

East Asian Studies

A minor in East Asian Studies requires 15 credits, of which at least six credits must be at the 400 level, distributed as follows: three credits from Group I, six additional credits selected from Group I or from Group II, and six credits from Group III:

Group I—CHIN (ANTH) 418, HIST 334, JAPN (ANTH) 417, PO SC 372

Group II—HIST 330, 333, PHIL (CHIN) 312, (CHIN) 313, PO SC 472, 477, REL 314, or any other approved courses selected from department list

Group III—E A S 123, JAPN 401, 499, LANG 401, any Chinese or Japanese language course, or any other approved courses selected from department list

Courses in Groups II and III must represent a combination of Chinese and Japanese courses.

Economics

A minor in Economics requires ECON 314, 315, and nine additional credits from economics courses numbered 300 or higher.

Education

A minor in Education requires ED 405, ED F 301, 302, 334 or 335, ED SP 370. This minor does not meet the requirements for teacher certification and is not intended for persons who plan to teach in grades K–12.
English
A minor in English requires 15 credits in English above the sophomore level, arranged as follows:

Group I—ENGL 411

Group II—Three credits from ENGL 396, 397, 407, 408, 410, 414, 415, 416, 417, 418, 433, 444, 464, 465

Group III—Three credits from ENGL 398, 399, 425, 426, 427, 455, 463

Group IV—Six additional credits above the sophomore level, including at least three credits from the 400 level

Department certification of proficiency in composition is required. (See discussion under English major.)

Entomology
A minor in Entomology requires ENT (BIOSC) 301 and 12 credits in entomology courses at the 300 level or higher.

Entrepreneurship
A minor in Entrepreneurship consists of 15 credits including the following: ACCT 201, ECON (MGT) 306 or 314, and FIN 306. Six credit hours from one of the following tracks are also required:

Planning—MKT (E L E) 314, MGT (E L E) 315

Foundations—ECON (E L E) 321, SOC (E L E, PO SC, PSYCH) 356

Note: Not open to business majors except BA in Economics.

Environmental Engineering
A minor in Environmental Engineering requires at least 15 credits as follows: EE&S 401, at least six credits selected from Group I, and at least three credits from Group II. The remaining three credits may be selected from either group. All courses are to be chosen in consultation with the Department of Environmental Engineering and Science.

Group I—EE&S 402, 410, 411, 430, 484, 485, 486

Group II—BE 322, CE 342, 447, CH 223, 411, 413, CH E 401, 450, EN SP 200, 400, ENTOX 403, (ENT) 410, GEOL 408, MICRO 305, 410

Environmental Science and Policy
A minor in Environmental Science and Policy requires at least 18 credits including EN SP 200, 400, and at least 12 credits from the following:

Group I—Science and Engineering: at least six credits selected from BIOSC 410, 441, 442, 443, 446, CH 413, CSENV 202, (B E) 408, 475, 490, EE&S 401, 402, 430, 485, ENT 300, ENTOX 400, 421, (ENT) 430, FOR 206, W F B 414

Group II—Resource Management: at least two credits selected from AGRIC (EN SP) 315, B E 464, C M E 433, CR D 357, CSENV 404, ECON 319, EE&S (B E, E) 484, FOR 315, 406, GEOL 300, W F B 306, (BIOSC) 313, 350, 412, 462

Group III—Environmental Policy and Social Impacts: at least two credits selected from AP EC 433, EN SP 471, 472, HIST (F&RR) 392, HLTH 431, PHIL 345, PSYCH 355, R S (SOC) 401, W F B 430

Equine Business
A minor in Equine Business requires AVS 150, 151, and 204; three hours selected from AVS 301, 310, 370, 375, 410, 415, 453; and six hours selected from the AVS 309, 385, 386, 412, 416, 417.

Film Studies
A minor in Film Studies requires 15 credits in ENGL above the sophomore level, arranged as follows: ENGL 357, 450, (COMM) 451, 452; and one of the following: ART 313, ENGL 348, (THEA) 430, 453, 459, 483, or other course approved by the departmental director of Undergraduate Studies.

Financial Management
A minor in Financial Management requires FIN 305, 307, 308, 311 and 312.

Food Science
A minor in Food Science requires FD SC 214, 401, and eight additional credits in FD SC or NUTR courses numbered 300 or higher.

Forest Products
A minor in Forest Products requires 15 credits which must include at least four courses selected from FOR 341, 400, 441, 442, 444, 447, PKGSC 471. Other courses at the 300 level or above may be selected with a Forest Products advisor's approval.

Forest Resource Management
A minor in Forest Resource Management requires either of the following:

1. FOR 305, 315, 465, and at least six credits, selected with a forestry faculty advisor's approval, from any forestry course (for a total of 16 credits).

2. A formal program of study developed by the student and forestry advisor, containing a minimum of 15 credits of forestry courses. Nine credits must be at the 300 level or higher

Genetics
A minor in Genetics requires GEN 302, 303, 410, 411, 420, 421; plus BIOSC 335 or any other three-credit GEN course at the 400 level.

Geography
The Geography minor consists of three credits of geography at the 100 level plus 15 credits of geography at the 300 or 400 level. At least one 400-level geography course must be taken. One of the following courses may be taken as part of the 45-credit, upper-level requirements but may not be substituted for the required 400-level geography course: BIOSC 442, SOC (R S) 471.

Geology
A minor in Geology requires GEOL 101, 102, 103, and 12 additional credits drawn from 300- and 400-level geography courses. At least one 400-level geography course must be included.

Great Works
The Great Works minor requires G W (ENGL) 301 plus one course from each of the following groups. A minimum of nine credits must be at the 400 level.

Group I—Classical Civilization: Three credits from ENGL 403, 429, (COMM) 491, HIST 354, 355, 450, PHIL 315

Group II—Post-classical Literature: Three credits from ENGL 408, 411, 414, 416, FR 400, G W 403, SPAN 303, 401

Group III—Philosophy, Religion, and Social Thought: Three credits from ENGL 350, HIST 495, PHIL 316, 317, PO SC 450, REL 301, 302, 401

Group IV—The Arts: Three credits from A A H 423, 424, HUM 301, 302, MUSIC 415, 416, THEA 315, 316

Group V—The Sciences: BIOSC 486, ENGL 427, 434, G W 402, 405

Health Science
A minor in Health Science requires HLTH 298 plus 12 additional credits drawn from health courses or approved health-related courses. Nine of the 12 additional credit hours must be at the 300 level or higher.

History
A minor in History requires 15 credits in history at the 300 and 400 level. Three credits at the 400 level must be included.

Horticulture
A minor in Horticulture requires HORT 101 and 12 additional credits of horticulture courses (excluding HORT 271, 408, 471), nine credits of which must be at the 300 level or higher.

Human Resource Management
A minor in Human Resource Management requires 18 credits as follows: MGT 201, 307, 310, 400; plus two of the following: MGT 416, 425, 431, 435.

International Engineering and Science
The minor in International Engineering and Science, open to students in any major in the College of Engineering and Science, requires

1. Completion of a foreign language through at least 202 and

2. Either (a) nine credits of engineering or science courses at the 300 level or higher transferred from a foreign institution during an approved study-abroad program of at least three months or (b) an approved international internship or research program in engineering or science of at least three months duration, plus nine credits transferred from 300 level or higher foreign language courses; ECON 310, 412, 413; and PO SC 361, 362, 371, 375, 472, 477, 478.

The international study, internship, or research program must be approved in advance by the Associate Dean for Undergraduate Studies of the College of Engineering and Science.
Legal Studies
A minor in Legal Studies requires 15 credits at the 300–400 level, with at least six credits selected from Group I, at least six credits selected from Group II, and the remaining three credits selected from either group at the student’s option:

Group I—HIST 328, 329, 496, PHIL 343, PSOC 342, 433, SOC 390
Group II—ECON 402, LAW 322, 333, 405, 420, 499

1 Additional courses may be approved by a committee of representatives selected by the Dean of the College of Architecture, Arts, and Humanities and by the Dean of the College of Business and Behavioral Science.

Management
A minor in Management requires 18 credits as follows: MGT 201, 307, 310, 318, 390, 422.

Mathematical Sciences
A minor in Mathematical Sciences requires MTHSC 208 and 12 additional credits in mathematical sciences courses numbered 300 or higher.

Microbiology
A minor in Microbiology requires MCO 305 and eleven additional credits drawn from 400-level microbiology courses.

Military Leadership
A minor in Military Leadership requires at least 15 credits including M L 301, 302, 401, 402, and one of the following: HIST 390, NURS 305, or PO SC 428. Completion of Leadership Laboratory and participation in cadet activities are mandatory. (ML 100 and 200 levels may be taken concurrently in the sophomore year.)

Modern Languages
A minor in Modern Languages requires 15 credits from one modern language (French, German, Italian, Japanese, or Spanish) from courses at the 300 and 400 levels, including at least one literature course at the 400 level. In French, one of the 300-level courses must be FR 305. FR H438 and H439 and SPAN H438 and H439 may not be used to satisfy requirements for the French or Spanish minor.

Music
A minor in Music requires MUSIC 151, 152, 205, 206, 207, 208, 251, 252, 415 or 416; four semesters of ensemble, totaling four credits, selected from MUSIC 323, 361, 362, 363, 369, 370, 371, 372; and one three-hour music course at 300–400 level.

Natural Resource Economics
A minor in Natural Resource Economics requires AP EC 457; C R D 357; and three courses selected from AP EC 352, 403, 409, 421, 433, 452, 475, C R D (AP EC) 412, ECON 319.

Nonprofit Leadership
A minor in Nonprofit Leadership requires NPL 300, 390, 490, and one course selected from each of the following areas:

Group I—COMM 348, 480, PRTM 308
Group II—ED F 334, 335, PSYCH 340, SOC 350
Group III—HLTH 401, MKT 428, 429, PRTM 421
Group IV—MGT 307, PO SC 427, PSYCH 368

Operations Management
A minor in Operations Management requires 18 credits as follows: MGT 201, 310, 390, 400, 404; plus either MGT 402 or 408.

Packaging Science
A minor in Packaging Science requires 18 credits and must include PKGSC 102, 202, 204, and 206. The remaining nine credits may be selected from FD SC 401, 402, FOR 441, 442, G C 405, 406; PKGSC 368, 401, 404, 454, 464.

Pan African Studies
A minor in Pan African Studies requires 18 credits as follows: HIST 311 or 312, P A S 301, and 12 credits arranged as follows:

Group I—Three credits from GEOG 330, HIST 337, 338, 339, 438, P A S 101, 498
Group II—Three credits from ENGL 450, 451, PKGSC 368, 400, THTA 371
Group III—Three credits in any 300–400-level course in the social sciences approved by the Director of the Pan African Studies Program

Courses are to be scheduled in consultation with the appropriate advisor. Pan African Studies advisors will provide all affected advisors with a list of approved courses prior to registration.

Park and Protected Area Management
A minor in Park and Protected Area Management requires PR 301, 305, 321 and nine additional credits in courses dealing with specific policy domains and approved by the Department of Political Science.

Philosophy
A minor in Philosophy requires 15 credits in philosophy, nine of which must be at the 300 level or above.

Physics
A minor in Physics requires PHYS 122, 221, 222, and nine additional credits in physics courses at the 300 level or higher.

Plant Pathology
A minor in Plant Pathology requires PL PA 310 and 12 credits from the following: any 300–400-level PL PA courses, BIOSC 425, 426, GEN (BIOSC, MICRO) 418, I P M 401, MICRO 305.

Political Science
A minor in Political Science requires PO SC 101 or 102 or 104 plus 15 additional credits at the 300–400 level, nine of which must be selected from three different fields of political science as follows:

American Government—PO SC 403, 405, 416, 432, 442
Comparative Politics—PO SC 371, 372, 466, 471, 476, 477, 478
International Politics—PO SC 361, 362, 363, 375, 429
Political Theory—PO SC 351, 352, 453
Public Policy and Public Administration—PO SC 302, 421, 423, 424

At least one 400-level course must be included. No more than a total of three credits from PO SC 310, 311, 312, 409, 410 may be applied to the requirements for a Political Science minor.

Psychology
A minor in Psychology requires PSYCH 201 and 15 credits from PSYCH 275 and/or 300–400-level psychology courses. At least one 400-level course must be included.

Public Policy
A minor in Public Policy requires PO SC 321, 421, and 430, plus nine credit hours in courses dealing with specific policy domains and approved by the Department of Political Science.

Religion
A minor in Religion requires 15 credits, nine of which must be at the 300-level or above. PHIL 303 and PO SC 407 may be included.

Russian Area Studies
A minor in Russian Area Studies requires 15 credit hours of which three credits must be in Russian language courses at the 200 level or above. The remaining twelve credits are distributed as follows:

Group I—three credits from RUSS 307, 340, 360, 361, 398, 460
Group II—three credits from HIST 385, 386, 387, 494
Group III—three credits from PO SC 471, 473
Group IV—three additional credits from any of the courses listed above

Science and Technology in Society
A minor in Science and Technology in Society requires 15 credits, at least six of which must be at the 400 level. See History Department advisor for list of approved courses.

Screenwriting
A minor in Screenwriting requires 15 credits in ENGL above the sophomore level as follows: ENGL 384, 357, 448 (six credits); and one of the following: ENGL 450, (COMM) 451, 452, 453, THEA (ENGL) 347, or other course approved by the departmental Director of Undergraduate Studies.

Sociology
A minor in Sociology requires SOC 201 and 15 credits from sociology and rural sociology courses numbered 300 or higher. At least one 400-level course must be included.
Spanish-American Area Studies
A minor in Spanish-American Area Studies requires the equivalent of SPAN 202, ECON 410, plus 12 credits distributed as follows: six credits from GEOG 340, HIST 340, 341, 342, 440; and six credits from SPAN 308, 311, (PO SC) 382, 403, 422, 435.

Sport Management
A minor in Sport Management requires PRMT 254, 453, 454, and nine additional credits in PRMT, six of which must be selected from PRMT 205, 305, 307, 421, 441, 452, 455.

Textiles
A minor in Textiles requires 15 credits from the following: TEXT 201, 202, 460, and any other approved textile course such as TEXT 308, 314, 416, 426, 428, 470, 472, 475.

Theatre
A minor in Theatre requires 20 credits arranged as follows: three credits of dramatic literature and history (ENGL 410, 411, 429, (THEA) 430, THEA (ENGL) 347); three credits of theatre history (THEA 315, 316, 317); six credits in a sequence (THEA 278/479, 315/316, (ENGL) 347/447, 372/472, 376/476, 377/477 or 487 or 497); six credits in THEA at the 300–400 level; and two credits of THEA 279.

Therapeutic Recreation
A minor in Therapeutic Recreation requires PRMT 301 (preferred) or 101; 311; and 12 additional credits in PRMT, nine of which must be selected from PRMT 412, 417, 418, 420.

Travel and Tourism
A minor Travel and Tourism requires PRMT 301 (preferred) or 101; PRMT 342; and 12 additional credits selected from PRMT 343, 344, 349, 441, 443, 444, 445, 446, either (GEOG) 430 or 447.

Turfgrass
A minor in Turfgrass requires CSENV 202, HORT 212, 412, and two of the following: AG M 402, HORT (CSENV) 433, FL PA (ENT) 406.

Urban Forestry
A minor in Urban Forestry requires a minimum of 16 credits, distributed as follows:
Group I—FOR (HORT) 427, 450, 480, HORT 208
Group II—A minimum of three credits selected from C R P 401, HORT 308
Group III—A minimum of three credits selected from ENT 401 or HORT 303

Wildlife and Fisheries Biology
A minor in Wildlife and Fisheries Biology requires W F B 300, 350; six additional hours selected from 300-level or higher W F B courses, except 463 and 490; and three credits from AP EC 475, BIOSC 464, 468, 470, 472, 477, ENTOX 400, FOR 415.

Women’s Studies
A minor in Women’s Studies requires 15 credits at the 300 and 400 level, distributed as follows:
Group I—Six credits: W S 301 and 439 or 498
Group II—Six credits from core courses: ENGL 380, 436, HIST 318, PSYCH 308, SOC 461, and any additional courses approved for Group II
Group III—The final three credits may be earned by taking any approved Women’s Studies minor course.

Courses selected in Groups II and III must represent at least two disciplines. Courses are to be scheduled in consultation with the appropriate advisors. The Women’s Studies advisor will provide all affected advisors with a list of approved courses prior to registration.

Writing
A minor in writing requires 15 credits as follows:
Business and Technical Option—AP EC 351 or G C 104, CP SC 120, ENGL 304 or 314, 490, 495 Journalism Option—ENGL 231, 333, 334, 335; one of the following: AP EC 351, COMM 250, CP SC 120, CTE 468, G C 104, ENGL 217, 303, 312, 314, PHIL 102, and any course approved by the Chair of the English Department
Writing Pedagogy Option—ENGL 412, 400, 401, 485, and any 300- or 400-level writing course offered by the Department of English
Creative Writing Options
Drama—ENGL (THEA) 430, THEA (ENGL) 347, (ENGL) 447 (six credits), and one of the following: ENGL 312, 410, 411
Fiction—ENGL 345, 432, 445 (six credits), and one of the following: ENGL 312, 418, 425, 426, 428
Poetry—ENGL 344, 346 (six credits), and one of the following: ENGL 312, 416, 417, 428, 444

PREPROFESSIONAL STUDIES
Clemson University will award the degree of Bachelor of Arts or Bachelor of Science in Preprofessional Studies to a student who is pursuing a degree in a professional school. The student must have also satisfactorily completed three years of undergraduate work in an appropriate curriculum and the first year of work in an accredited medical, dental, veterinary, or other accredited professional school, provided the student fulfills the requirements for the three-year program as follows and the other specified conditions are met.

1. At least two of the three years of preprofessional work in an appropriate curriculum must be taken in residence at this University.
2. A minimum of three years of undergraduate work (i.e. preprofessional school credit) must be presented.
3. Normal progress must be made toward fulfilling the degree requirement of the curriculum in which the student is enrolled at Clemson.
4. The student applying for the Bachelor of Arts or Bachelor of Science in Preprofessional Studies must be recommended by the college at Clemson in which the curriculum that he/she is majoring as a Clemson student is located or by the college in which three years of normal progress toward a degree can be identified.
5. If the combination of preprofessional work taken and the work in the first year of professional school is equivalent to that which is required in some other bachelor's degree program at Clemson, the college concerned may recommend the other bachelor's degree.

The above requirements and conditions became effective July 1, 1974, and will apply to all students who satisfy these requirements and conditions after that date.

A Clemson student having left the University before receiving the bachelor's degree (prior to July 1, 1974) and having enrolled immediately in an accredited professional postgraduate school may apply for a bachelor's degree from Clemson and have his/her application considered on an individual basis. The college(s) at Clemson considering the application is authorized to examine the student's entire record in both preprofessional and professional studies and exercise its own judgment concerning the three-year requirement for Preprofessional Studies.

SECOND BACCALAUREATE DEGREE
To complete a second baccalaureate degree, a student must complete a minimum of 30 semester hours at Clemson in addition to the greater number of hours required for either degree and satisfy all course and grade requirements for the second degree.

DOUBLE MAJOR
A student in a Bachelor of Arts degree program may be awarded a single baccalaureate degree with a double major. The two majors may be within a single college or may involve two colleges but are limited to Bachelor of Arts degree programs.

GRADUATE DEGREES
Graduate degrees are available from all five colleges in addition to several interdisciplinary programs. Clemson University offers more than 100 graduate degree programs. The degrees of Doctor of Philos-ophy, Education Specialist, Master of Arts, Master of Science, Master of Agricultural Education, Master of Architecture, Master of Arts in Teaching, Master of Business Administration, Master of City and Regional Planning, Master of Construction Science and Management, Master of Education, Master of Engineering, Master of Fine Arts, Master of Forest Resources, Master of Human Resource Development, Master of Landscape Architecture, Master of Parks, Recreation, and Tourism Management, Master of Professional Accountancy, Master of Public Administration, and Master of Real Estate Development are awarded to students who complete prescribed graduate programs.

Additional information is available in the Graduate Announcements.
COLLEGE OF AGRICULTURE, FORESTRY, AND LIFE SCIENCES

The College of Agriculture, Forestry, and Life Sciences (www.clemson.edu/CAFLS) offers a broad range of academic degree programs providing a sound knowledge base and technical expertise in the basic and applied sciences including the life sciences. The Bachelor of Science degree is available in 17 academic programs; the Bachelor of Arts is offered in Biological Sciences.

Preprofessional Health Studies non-degree programs are offered in Premedicine, Prepharmacy, Prerehabilitation Sciences, and Preveterinary Medicine. A bachelor’s degree can be obtained by fulfilling additional requirements specified by the University.

The undergraduate academic programs include Agricultural and Applied Economics with a Community and Economic Development Concentration; Agricultural Education; Agricultural Mechanization and Business; Animal and Veterinary Sciences with concentrations in Animal Agribusiness, Equine Business, and Preveterinary Science; Biochemistry; Biological Sciences; Biosystems Engineering; Environmental and Natural Resources with concentrations in Conservation Biology, Natural Resource and Economic Policy, and Natural Resources Management; Food Science with concentrations in Food Science and Technology and Nutrition and Dietetics; Food Science Management; Genetics; Horticulture; Microbiology with a Biomedicine Concentration; Packaging Science; Soils and Sustainable Crop Systems with concentrations in Agricultural Biotechnology, Soil and Water Environmental Science, and Sustainable Crop Production; Turfgrass; and Wildlife and Fisheries Biology.

Minors are available to students who wish to broaden their educational background and enhance their expertise. (See page 56 for acceptable minors.)

Scholarships
A range of scholarships is available to students who excel in their academic performance. Information on scholarships and financial aid can be obtained from specific departments in the College or from the Student Financial Office in Sikes Hall.

Student Services
The college has a comprehensive Student Service Center offering a career library, company literature, career search technology, and video/audio resources.

AGRICULTURAL AND APPLIED ECONOMICS

Bachelor of Science
The Agricultural and Applied Economics curriculum emphasizes a strong background in economics with applications to production agriculture, agribusiness, natural resources, and the environment. Courses are also included in basic agricultural and biological sciences, liberal arts, and business.

Employment opportunities for graduates in Agricultural and Applied Economics are many and diverse. Private sector opportunities include agricultural production, banking, finance, marketing, and public relations. Public sector opportunities include national/local organizations, government agencies, educational institutions, and cooperative extension services. Graduates have also begun businesses or returned to family-owned businesses. This major also provides an excellent background for professional or graduate study in several disciplines.

Freshman Year
First Semester
3 - AP EC 205 Agriculture and Society
2 - CU 101 University Success Skills
3 - COMM 150 Intro. to Human Communication
3 - MTHSC 102 Intro. to Mathematical Analysis
15
Second Semester
3 - AP EC 206 Agricultural Economics
3 - CP SC 120 Intro. to Information Technology

COMMUNITY AND ECONOMIC DEVELOPMENT CONCENTRATION

The program in Community and Economic Development provides career opportunities for social science administration, management, outreach, and research. A Bachelor of Science degree in Agricultural and Applied Economics with a concentration in Community and Economic Development facilitates employment with local, state, regional, federal, and international agencies; research and consulting firms; financial institutions; foundations and councils; public and private utilities; and organizations requiring entrepreneurial skills. This program provides an excellent background for professional and graduate study in several disciplines.

Associations between natural resources and social, economic, and political institutions are investigated. The Community and Economic Development program provides the conceptual, analytical, and pragmatic qualifications to succeed as economic development specialists. Students receive practical training, and internships are available to complement coursework.

Freshman Year
First Semester
3 - CP SC 120 Intro. to Information Technology
3 - MTHSC 102 Intro. to Mathematical Analysis
3 - Arts and Humanities (Non-Lit.) Requirement1
3 - Science and Tech. in Society Requirement1
3 - Social Science Requirement1

39
AGRICULTURAL EDUCATION

Bachelor of Science

Agricultural Education provides broad preparation in agricultural sciences and professional education, including communications and human relations skills. In addition to required courses, students may select a minor. (See page 56.)

The Bachelor's degree prepares students for professional education positions in the mainstream of agriculture including teaching, cooperative extension service, and government agricultural agencies. The Agricultural Education degree also prepares students for other educational work such as agricultural missionary, public relations, and training officers in agricultural industry.

Freshman Year

First Semester
1 - AG ED 102 Agric. Ed. Freshman Seminar
2 - AG ED 200 Agric. Appl. Educational Tech
3 - BIOL 103 General Biology I
4 - BIOL 104 General Biology I Lab.
5 - CHEM 101 or 105 Chemistry in Context I
6 - Mathematics Requirement
7 - Foreign Language Requirement

Second Semester

2 - Emphasis Area Requirement

124–125 Total Semester Hours

See advisor. Select one of the following emphasis areas by the end of the sophomore year: Teacher Certification, Leadership, Communications, and Agricultural Business.

AGRICULTURAL MECHANIZATION AND BUSINESS

Bachelor of Science

The Agricultural Mechanization and Business major provides a program for students who desire training in areas relevant to dynamic agricultural enterprise. The program is organized with strength in both business management and technical support of agriculture and agribusiness. To produce well rounded individuals with good communication skills, the curriculum includes courses in the humanities, social sciences, English composition, and public speaking.

Grades in Agricultural Mechanization and Business find meaningful and remunerative employment in a variety of situations directly and indirectly related to agricultural production, processing, marketing, and the many services connected therewith. Farming and technical sales in the agricultural, industrial, and heavy equipment industries are frequently chosen careers.

By completing this curriculum, graduates will have fulfilled the requirements for an Agricultural Business Management minor or other selected minor. Contact the Enrolled Student Services Office to have the minor recorded.

Additional information is available from the departmental offices or can be found at www.clemson.edu/agbioeng/agmech/index.htm.

ANIMAL AND VETERINARY SCIENCES

Bachelor of Science
The curriculum in Animal and Veterinary Sciences provides students with a broad base of understanding of scientific principles and the application of these principles to scientific, technical, and business phases of livestock and poultry production, processing, and marketing. Special emphasis is placed on hands-on instruction, and students are given many opportunities to work with animals at the Morgan Poultry Farm, LaMaster Dairy Center, Starkey Swine Center, Equine Center, and Simpson Beef Unit. Students may choose from three concentrations: Animal Agribusiness, Equine Business, or Preveterniary and Science.

Students choosing the Animal Agribusiness Concentration will be prepared for careers in the animal industries including production, sales and marketing, business management, advertising, and extension. Students in the Equine Business Concentration will be prepared for careers as trainers, managers, riding instructors, sales representatives, etc. Students selecting the Preveterniary and Science Concentration will meet the requirements for most veterinary schools, graduate schools, and medical and dental schools. Students with South Carolina residency may compete for slots at the Mississippi State, Tuskegee, and University of Georgia Colleges of Veterinary Medicine.

BIOCHEMISTRY

Bachelor of Science

Biochemistry is the study of the molecular basis of life. To comprehend current biochemical information and make future contributions to our molecular understanding of life processes, students must obtain a broad background in biology and a firm foundation in chemistry, mathematics, and physics. This is the basis of the biochemistry curriculum.

The program provides an excellent educational background for professional school (medicine, dentistry, or veterinary medicine) and graduate school in biochemistry, molecular biology, or another biological science discipline. Graduates will find employment opportunities in the research and service programs of universities, medical schools, hospitals, research institutes, and industrial and government laboratories.

3 - COMM 150 Intro. to Human Communication
3 - COMM 250 Public Speaking
3 - PHYS 221 Physics with Calculus II
1 - PHYS 223 Physics Lab. II
3 - Arts and Humanities (Literature) Requirement
17

Junior Year

First Semester
3 - BIOCH 431 Physical Approach to Biochem.
2 - BIOCH 433 General Biochemistry Lab. I
3 - CH 330 Introduction to Physical Chemistry
3 - ENGL 314 Technical Writing
3 - Science Requirement
2 - Elective
16

Second Semester
3 - BIOCH 432 Biochemistry of Metabolism
2 - BIOCH 434 General Biochemistry Lab. II
3 - BIOCH 436 Nucleic Acid and Protein Biosyn.
3 - PHIL 326 Science and Values
3 - Science Requirement
14

Senior Year

First Semester
3 - BIOCH 491 Special Problems in Biochemistry
1 - BIOSC 461 Cell Biology
3 - GEN 440 Bioinformatics
3 - Social Science Requirement
4 - Elective
16

Second Semester
3 - BIOCH 491 Special Problems in Biochemistry
2 - BIOCH 493 Senior Seminar
3 - Social Science Requirement
6 - Elective
14

122–123 Total Semester Hours

*EX ST 301, MTHSC 206, 301, or 302

See General Education Requirements.

1 - CH 331 may be substituted.

*Select from CH 411, ENT (GEN) 495, GEN (BIOSC) 405, 410, (BIOSC) 416, (BIOSC) MICRO) 418, 426, 432, 455, HIST (BIOSC, GEN) 465, MTHSC 415. Other courses must be approved by advisor.

*To be taken over two semesters with the same faculty member

*A two-semester sequence of a foreign language is strongly recommended.

*See General Education Requirements. This course must also satisfy the Cross-Cultural Awareness Requirement.

1. A student is allowed to enroll in science and mathematics courses only when all prerequisites have been passed with a grade of C or better.

2. A minimum grade of C is required in all science and mathematics courses. No student may exceed a maximum of two attempts (excluding a W) to complete successfully any science or mathematics course.

BIOLOGICAL SCIENCES

Bachelor of Science

Biology encompasses the broad spectrum of the modern life sciences, including the study of all aspects of life from the structure and function of the whole organism down to the subcellular levels and up through the interactions of organisms to the integrated existence of life on the entire planet. Descriptive, structural, functional, and evolutionary questions are explored through the hierarchy of the organization of life. Applications of current advances to the health and well-being of man and society, to nature and the continuation of earth as a balanced ecosystem, and to an appreciation of the place of natural science in our cultural heritage receive emphasis.

Majors in Biological Sciences receive classroom, laboratory, and field training in biology with an emphasis on chemistry, mathematics, and physics as necessary tools. The Bachelor of Science in Biological Sciences curriculum prepares students for graduate study in any of the life science areas (such as agricultural sciences, biochemistry, botany, cell and molecular biology, conservation, ecology and environmental science, entomology, forestry, genetics, industrial and regulatory biology, microbiology, morphology, physiology, wildlife biology, and zoology; for the health professions (medicine, dentistry, etc.), veterinary medicine; and for science teaching.

Combined Bachelor of Science in Biological Sciences/Master of Science in Bioengineering

Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements. See Academic Regulations in this catalog for enrollment guidelines and procedures.

Students are encouraged to obtain the specific requirements for the dual degree from the Department of Biological Sciences or Bioengineering as early as possible in their undergraduate program as a number of required courses have prerequisites not normally taken by Biological Sciences majors.

Freshman Year

First Semester
5 - BIOL 110 Principles of Biology I
1 - BIOSC 101 Frontiers in Biology I
4 - CH 101 General Chemistry
3 - COMM 150 Intro. to Human Communication
4 - MTHSC 106 Calculus of One Variable I
17

Second Semester
5 - BIOL 111 Principles of Biology II
1 - BIOSC 101 Frontiers in Biology II
4 - CH 102 General Chemistry
3 - COMM 150 Intro. to Human Communication
4 - MTHSC 106 Calculus of One Variable II
17

Sophomore Year

First Semester
3 - CH 223 Organic Chemistry
1 - CH 227 Organic Chemistry Lab.
3 - GEN 302 Molecular and General Genetics
1 - GEN 303 Molecular and Gen. Genetics Lab.
3 - PHYS 122 Physics with Calculus I
1 - PHYS 124 Physics Lab. I
3-4 - Advanced Mathematics Requirement
15-16

Second Semester
3 - BIOCH 301 Molecular Biochemistry
3 - CH 224 Organic Chemistry
1 - CH 228 Organic Chemistry Lab.
3 - COMM 150 Intro. to Human Comm. or
3 - COMM 250 Public Speaking
3 - PHYS 221 Physics with Calculus II
1 - PHYS 223 Physics Lab. II
3 - Arts and Humanities (Literature) Requirement
17

Junior Year

First Semester
3 - BIOCH 431 Physical Approach to Biochem.
2 - BIOCH 433 General Biochemistry Lab. I
3 - CH 330 Introduction to Physical Chemistry
3 - ENGL 314 Technical Writing
3 - Science Requirement
2 - Elective
16
Junior Year
First Semester
- BIOSC 335 Evolutionary Biology
- BIOSC 461 Cell Biology
- ENGL 314 Technical Writing
- PHYS 207 General Physics I and
- PHYS 209 General Physics I Lab. or
- PHYS 122 Physics with Calculus I and
- PHYS 124 Physics Lab. I

Second Semester
- PHIL 324 Philosophy of Technology or
- PHIL 326 Science and Values
- PHYS 208 General Physics II and
- PHYS 210 General Physics II Lab. or
- PHYS 221 Physics with Calculus II and
- PHYS 223 Physics Lab. II
- Major Requirement
- Social Science Requirement

Senior Year
First Semester
- BIOSC (MICRO) 493 Senior Seminar
- Major Requirement

Second Semester
- Major Requirement
- Social Science Requirement

ENTOMOLOGY EMPHASIS AREA

See Bachelor of Science curriculum for freshman year requirements.

Sophomore Year
First Semester
- CH 223 Organic Chemistry and
- CH 227 Organic Chemistry Lab. or
- CH 201 Survey of Organic Chemistry
- ENT (BIOSC) 301 Insect Biol. and Diversity
- Arts and Humanities (Literature) Requirement
- Biochemistry or Genetics Requirement

Second Semester
- BIOSC 304 Biology of Plants and
- BIOSC 308 Biology of Plants Practicum or
- BIOSC 305 Biology of Algae and Fungi and
- BIOSC 309 Algae/Fungi Practicum
- CH 224 Organic Chemistry or
- Major Requirement
- Biochemistry or Genetics Requirement
- Major Requirement

Junior Year
First Semester
- BIOSC 335 Evolutionary Biology
- ENGL 314 Technical Writing
- PHYS 207 General Physics I and
- PHYS 209 General Physics I Lab. or
- PHYS 122 Physics with Calculus I and
- PHYS 124 Physics Lab. I

Second Semester
- PHIL 324 Philosophy of Technology or
- PHIL 326 Science and Values
- PHYS 208 General Physics II and
- PHYS 210 General Physics II Lab. or
- PHYS 221 Physics with Calculus II and
- PHYS 223 Physics Lab. II
- Entomology Requirement
- Major Requirement
- Social Science Requirement

TOXICOLOGY EMPHASIS AREA

See Bachelor of Science curriculum for freshman year requirements.

Sophomore Year
First Semester
- BIOSC 210 Introduction to Toxicology
- CH 223 Organic Chemistry and
- CH 227 Organic Chemistry Lab. or
- CH 201 Survey of Organic Chemistry
- Animal or Plant Diversity Requirement
- Biochemistry or Genetics Requirement

Second Semester
- CH 224 Organic Chemistry or
- Major Requirement
- Animal or Plant Diversity Requirement
- Biochemistry or Genetics Requirement
- Major Requirement

Junior Year
First Semester
- BIOSC 335 Evolutionary Biology
- ENGL 314 Technical Writing
- PHYS 207 General Physics I and
- PHYS 209 General Physics I Lab. or
- PHYS 122 Physics with Calculus I and
- PHYS 124 Physics Lab. I

Second Semester
- PHIL 324 Philosophy of Technology or
- PHIL 326 Science and Values
- PHYS 208 General Physics II and
- PHYS 210 General Physics II Lab. or
- PHYS 221 Physics with Calculus II and
- PHYS 223 Physics Lab. II
- Entomology Requirement
- Major Requirement
- Social Science Requirement

Senior Year
First Semester
- BIOSC 461 Cell Biology
- BIOSC 462 Cell Biology Lab.
- BIOSC (MICRO) 493 Senior Seminar
- Entomology Requirement
- Major Requirement
- Social Science Requirement

Second Semester
- Entomology Requirement
- Major Requirement
- Social Science Requirement

Junior Year
First Semester
- BIOSC 335 Evolutionary Biology
- ENGL 314 Technical Writing
- ENTOX (ENT) 430 Toxicology
- PHYS 207 General Physics I and
- PHYS 209 General Physics I Lab. or
- PHYS 122 Physics with Calculus I and
- PHYS 124 Physics Lab. I

Second Semester
- PHYS 208 General Physics II and
- PHYS 210 General Physics II Lab. or
- PHYS 221 Physics with Calculus II and
- PHYS 223 Physics Lab. II
- Arts and Humanities (Literature) Requirement
- Major Requirement
- Social Science Requirement

Senior Year
First Semester
- BIOSC 461 Cell Biology
- BIOSC 462 Cell Biology Lab.
- BIOSC (MICRO) 493 Senior Seminar
- CH 313 Quantitative Analysis
- CH 317 Quantitative Analysis Lab.
- Major Requirement

Second Semester
- Social Science Requirement

Third Semester
- See General Education Requirements. Three of these credits must also satisfy the Cross-Cultural Awareness Requirement.

Fourth Semester
- At least one lecture and associated laboratory must be completed for both Biochemistry (BIOCH 301/302 or 305/306) and for Genetics (GEN 302/303 or 302/303). CH 228 may be substituted for BIOCH 302 or 306.
- See advisor. Select one lecture/lab combination from each of the following fields:
  - Physiology—BIOSC 402/402, 459/460, 475/476
  - The remaining courses may be selected from BIOCH 302, MICRO 353, or any BIOSC or BOT courses at the 300 level or higher.

Junior Year
First Semester
- BIOSC 335 Evolutionary Biology
- ENGL 314 Technical Writing
- PHYS 207 General Physics I and
- PHYS 209 General Physics I Lab. or
- PHYS 122 Physics with Calculus I and
- PHYS 124 Physics Lab. I

Second Semester
- PHIL 324 Philosophy of Technology or
- PHIL 326 Science and Values
- PHYS 208 General Physics II and
- PHYS 210 General Physics II Lab. or
- PHYS 221 Physics with Calculus II and
- PHYS 223 Physics Lab. II
- Entomology Requirement
- Major Requirement
- Social Science Requirement

Senior Year
First Semester
- BIOSC 461 Cell Biology
- BIOSC 462 Cell Biology Lab.
- BIOSC (MICRO) 493 Senior Seminar
- Entomology Requirement
- Major Requirement
- Social Science Requirement

Second Semester
- Entomology Requirement
- Major Requirement
- Social Science Requirement

Third Semester
- See General Education Requirements. Three of these credits must also satisfy the Cross-Cultural Awareness Requirement.
Second Semester
3 - CH 413 Chemistry of Aqueous Systems or ENTOX 421 Chemical Sources and Fate in Environmental Systems
3 - PHIL 324 Philosophy of Technology or PHIL 326 Science and Values
4 - Major Requirement
3 - Social Science Requirement
3 - Toxicology Requirement
16

124 Total Semester Hours

1CH 223/227 and 224 are recommended.
2At least one lecture and associated laboratory must be completed for both Animal Diversity (BIOSC 302/302 or BIOSC 303/307) and for Genetics (GEN 300/301 or 302/303). CH 228 may be substituted for BIOCH 302 or 306.
3See advisor. Select one lecture/lab combination from each of the following fields. BIOSC 454/460 or 475/476 are recommended to satisfy the Physiology Requirement. Ecology—BIOSC 443/441, 444/445, 446/447, 470/471
Physiology—BIOSC 401/402, 459/460, 474/476
The remaining courses may be selected from BIOCH 302, MICRO 305, or any BIOSC or BOT courses at the 300 level or higher. BIOSC 441 and MICRO 305 are recommended.
4See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
5Any 400-level ENTOX course

**BIOLICAL SCIENCES**

**Bachelor of Arts**

The Bachelor of Arts in Biological Sciences provides a strong foundation in biology and is ideal for students desiring a liberal education emphasizing an interdisciplinary approach to a thorough understanding of the life sciences.

**Freshman Year**

**First Semester**
5 - BIOL 110 Principles of Biology I
1 - BIOSC 101 Frontiers in Biology I
4 - CH 101 General Chemistry
3 - COMM 150 Intro. to Human Communication
4 - MTHSC 106 Calculus of One Variable I
17

**Second Semester**
5 - BIOL 111 Principles of Biology II
1 - BIOSC 102 Frontiers in Biology II
4 - CH 102 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MICRO 130 General Microbiology
3 - MTHSC 105 Calculus of One Variable II or MTHSC 301 Statistical Methods I
16-17

**Sophomore Year**

**First Semester**
4 - CH 201 Survey of Organic Chemistry
4 - Animal or Plant Diversity Requirement
4 - Biochemistry or Genetics Requirement
4 - Foreign Language Requirement
16

**Second Semester**
4 - Animal or Plant Diversity Requirement
4 - Biochemistry or Genetics Requirement
4 - Foreign Language Requirement
3 - Minor Requirement
15

**Junior Year**

**First Semester**
3 - BIOSC 335 Evolutionary Biology
3 - BIOSC 461 Cell Biology
3 - ENGL 314 Technical Writing
3 - Foreign Language Requirement
3 - Major Requirement
15

**Second Semester**
3 - PHIL 324 Philosophy of Technology or PHIL 326 Science and Values
5 - BIOL 110 Principles of Biology I
3 - Foreign Language Requirement
3 - Major Requirement
6 - Minor Requirement
15

**Senior Year**

**First Semester**
2 - BIOSC (MICRO) 493 Senior Seminar
1 - PHYS 207 General Physics I
1 - PHYS 209 General Physics I Lab.
3 - Major Requirement
3 - Minor Requirement
3 - Social Science Requirement
15

**Second Semester**
3 - PHYS 208 General Physics II
1 - PHYS 210 General Physics II Lab.
3 - Arts and Humanities (Literature) Requirement
3 - Minor Requirement
2 - Social Science Requirement
10

125–126 Total Semester Hours

1BIOL 110 and 111 are strongly recommended; however, BIOL 103/105 may substitute for BIOL 110, and BIOL 104/106 may substitute for BIOL 111. The remaining 1–2 credits required must be satisfied by completing 1–2 extra credits from departmental course offerings at the 300 level or above. See advisor.
2CH 223, 227, and 224 may be substituted for CH 201. Most professional health sciences schools require two semesters of organic chemistry with laboratory.
3At least one lecture and associated laboratory must be completed for both Animal Diversity (BIOSC 302/302 or BIOSC 303/307) and for Plant Diversity (BIOSC 304/308 or BIOSC 305/309).
4At least one lecture and associated laboratory must be completed for both Biochemistry (BIOCH 301/302 or 305/306) and for Genetics (GEN 300/301 or 302/303). CH 228 may be substituted for BIOCH 302 or 306.
5Four semesters (through 202) in the same modern foreign language are required.
6See page 56 for approved minors.
7See advisor. Select one lecture course from each of the following fields:
Ecology—BIOSC 443, 444, 446, 470
Physiology—BIOSC 401, 459, 475
The remaining courses must be selected from MICRO 305 or other BIOSC or BOT courses at the 300 level or higher.
8See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.

**BIOSYSTEMS ENGINEERING**

**Bachelor of Science**

The Biosystems Engineering program is administered jointly with the College of Engineering and Science. See page 83 for the curriculum.

**ENVIRONMENTAL AND NATURAL RESOURCES**

**Bachelor of Science**

The Environmental and Natural Resources curriculum produces professionals who have a broad-based knowledge in natural resources and an ability to interact with other resource professionals to provide thoughtful solutions to environmental and natural resource problems. The world is blessed with an abundance of natural resources, but the problems associated with their conservation are immense. Protection of rare and endangered species, preventing and controlling invasions of exotics, protecting old growth forests, restoring degraded ecosystems, and balancing the resource demands of industry and the public are some of the environmental issues which are enmeshed in politicized environments.

Three concentrations are offered within the Environmental and Natural Resources major. The Conservation Biology Concentration is oriented toward students who desire a greater exposure to taxa, their habitats and their interrelationships. The Natural Resource and Economic Policy Concentration provides more in-depth study in economics and policy applications. The Natural Resources Management Concentration emphasizes both resource management and negotiation skills.

Graduates in Environmental and Natural Resources are well-prepared for further graduate studies in natural resources and related fields. Potential public sector employers of graduates include federal, state, and municipal resource management agencies, private industries impacting land and water resources, environmental management consulting firms, and various environmental advocacy groups.

**Freshman Year**

**First Semester**
3 - BIOL 103 General Biology I
1 - BIOL 105 General Biology Lab. I
4 - CH 104 General Chemistry
1 - ENR 101 Intro. to Env. and Natural Res. I
3 - MTHSC 102 Intro. to Mathematical Analysis
3 - Elective
15

**Second Semester**
3 - BIOL 104 General Biology II
1 - BIOL 106 General Biology Lab. II
3 - Computer Science Requirement
3 - ENR 102 Intro. to Environmental & Social Science
3 - Elective
15

1Students planning to take Organic Chemistry should substitute CH 101 and 102 and must satisfy the General Education Science and Technology in Society Requirement through another course.
2AG ED 200, CF SC 120, or other course approved by advisor

6AVS 301, BIOSC 401/402, 458, 475, or (AVS) 480
FOOD SCIENCE
Bachelor of Science

Food Science majors apply principles of basic and applied sciences to the design, creation, manufacture, packaging, distribution, and utilization of safe, nutritious, and enjoyable foods and food products. The curriculum allows flexibility for concentrating in one of two areas.

In the Food Science and Technology Concentration, students may emphasize business, culinary science (one of three national programs that have been approved by the Research Chef’s Association as Culinology™), engineering, food packaging, and additional sciences that complement requirements of the Institute of Food Technologists.

The Nutrition and Dietetics Concentration emphasizes nutrition and related areas. It is currently granted approval status by the Commission Accreditation for Dietetics Education of the American Dietetic Association.

Food processing industries, ingredient manufacturers, and packaging suppliers employ graduates in new food product development, quality assurance, production management, and technical sales. State and federal agencies also need graduates for food safety and regulatory positions. With the Nutrition and Dietetics Concentration, employment opportunities include dietitians, nutritionists, consultants, and food specialists. Placement rates are high for these fields, and graduates are also well prepared to pursue graduate study in many areas.

The Department of Food Science and Human Nutrition also offers an accelerated five-year combined bachelor’s/master’s program that allows students to count up to twelve hours of graduate credit toward both the BS degree in Food Science and MS degree in Food, Nutrition, and Culinary Sciences. Details are available from the Department of Food Science and Human Nutrition or at www.clemson.edu/foodscience.

Second Semester
1 - E N R 450 Conservation Issues
3 - ENGL 314 Technical Writing
3 - EX ST 301 Introductory Statistics
2 - FOR 406 Forested Watershed Management
1 - FOR 498 Senior Portfolio
1 - W F B 498 Senior Portfolio
3 - Minor Requirement

121 Total Semester Hours

*See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.

A minor is required and must be selected from the following: Biochemistry, Biological Sciences, Chemistry, Community Recreation Management, Crop and Soil Environmental Science, Environmental Science and Policy, Forestry Resource Management, Geology, Horticulture, Legal Studies, Microbiology, Natural Resource Economics, Nonprofit Leadership, Park and Protected Area Management, Sport Management, Therapeutic Recreation, Travel and Tourism, Urban Forestry, Wildlife and Fisheries Biology.

See advisor.

NUTRITION AND DIETETICS CONCENTRATION

Junior Year
First Semester
1 - FD SC 421 Special Problems in Food Science
4 - MICRO 305 General Microbiology
3 - NUTR 451 Human Nutrition
3 - Departmental Requirement
3 - Elective

Second Semester
1 - FD SC 421 Special Problems in Food Science

FOREST RESOURCE MANAGEMENT

Bachelor of Science
The Forest Resource Management curriculum combines a broad education in the arts and sciences with applied forest sciences. This combination provides the necessary foundation for the scientific management of forest resources, products, and services.

Foresters are qualified for a broad spectrum of employment opportunities in the public and private sectors. They may be engaged as managers, administrators, or owners of forest lands or forest-based businesses; as technical specialists in the production of timber, useable water, wildlife, and aesthetic values, and in the recreational use of the forest; or as professionals in other areas where the conservation of natural resources is a concern.

Foresters earning advanced degrees find employment in the public and private sectors. They may be engaged as managers, administrators, or owners of forest lands or forest-based businesses; as technical specialists in the production of timber, useable water, wildlife, and aesthetic values, and in the recreational use of the forest; or as professionals in other areas where the conservation of natural resources is a concern.

The curriculum, accredited by the Society of American Foresters, provides a strong program in the basic knowledge and skills required of a professional forester. Forest Resource Management majors will select a minor. (See page 56.) The curriculum also provides the necessary prerequisites for graduate study.

Freshman Year
First Semester
3 - BIOL 103 General Biology I
1 - BIOL 105 General Biology Lab. I
4 - CH 105 Chemistry in Context I
1 - EN R 101 Intro. to Environ. and Natural Res. I
3 - MTHSC 102 Intro. to Mathematical Analysis
3 - Elective
15
Second Semester
3 - BIOL 104 General Biology II
1 - BIOL 106 General Biology Lab. II
4 - CH 106 Chemistry in Context II or
4 - PHYS 200 Introductory Physics
3 - CP SC 120 Intro. to Information Technology
3 - ENGL 103 Accelerated Composition
1 - F N R 102 FNR Freshman Portfolio
15

Sophomore Year
First Semester
4 - CSENV 202 Soils
3 - EX ST 301 Introductory Statistics
2 - FOR 205 Dendrology
3 - FOR 221 Forestry Biology
3 - Arts and Humanities (Literature) Requirement1

2 - FOR 251 Forest Communities
4 - FOR 253 Forest Mensuration
1 - FOR 254 Forest Products
7

Junior Year
First Semester
2 - FOR 302 Forest Biometrics
3 - FOR 304 Forest Resource Economics
2 - FOR 308 Remote Sensing and GIS in Forestry
4 - FOR 413 Integrated Forest Pest Management
3 - FOR (E N R) 434 GIS for Landscape Planning
14
Second Semester
3 - ENGL 314 Technical Writing
3 - FOR 415 Forest Wildlife Management
4 - FOR (E N R) 443 GIS for Land Use Planning
16

Senior Year
First Semester
1 - F N R 499 Natural Resources Seminar
4 - FOR 314 Harvesting and Forest Products
2 - FOR (E N R) 416 Forest Policy and Admin.
2 - FOR 417 Forest Resource Mgr. and Regulation
3 - Minor Requirement4
15
Second Semester
2 - FOR 406 Forested Watershed Management
3 - FOR 415 Forest Wildlife Management
2 - FOR 425 Forest Resource Management Plans
1 - FOR 498 Senior Portfolio
6 - Minor Requirement4
14

126 Total Semester Hours

1 - CH 101 and 102 may be substituted; however, students selecting this option may be required to use elective hours to satisfy the General Education Science and Technology in Society Requirement.

3 - See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement. (Note: Social Science Requirement must be in an area other than economics.)

3 - AP EC 257, ECON 200, 211, or 212

To be selected by the middle of the sophomore year

GENETICS

Bachelor of Science
Genetics is the study of heredity. Genetics research takes many forms, from the study of heredity at the level of individual molecules to study at the level of cells and chromosomes, individuals, or populations. To comprehend current genetic information and to make future contributions to our molecular understanding of life processes, students must obtain a broad background in biology and a firm foundation in chemistry and mathematics. This is the basis of the genetics curriculum.

A degree in Genetics is a strong preparation for many careers. The degree provides an excellent foundation for medical, veterinary, or pharmacy school as well as graduate research in any discipline related to biology, including bioinformatics, forensic technology, and genetic counseling. Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, forensic technology, and genetic counseling). Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, forensic technology, and genetic counseling). Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, forensic technology, and genetic counseling). Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, forensic technology, and genetic counseling). Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, forensic technology, and genetic counseling). Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, forensic technology, and genetic counseling).

Freshman Year
First Semester
5 - BIOL 110 Principles of Biology I
4 - CH 101 General Chemistry
1 - GEN 103 Careers in Biochem. and Genetics
3 - MTHSC 106 Calculus of One Variable I
14
Second Semester
5 - BIOL 111 Principles of Biology II
4 - CH 102 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MTHSC 108 Calculus of One Variable II
16

Sophomore Year

6 - Genetics Requirement
4 - Elective1
15
122 Total Semester Hours
1Medical, veterinary, and graduate school requirements often include two semesters of physics with calculus and the physics laboratory. Students are encouraged to check requirements for admission to professional postgraduate programs.
2See General Education Requirements.
3BIOSC 431, 432, BIOSC 433, 431, 432, 440, 451, 470, 477, or MICRO 416. Other courses must be approved by advice.
4AVS 470, BIOCH 436, CSENV 405, ENT (GEN) 405, GEN (BIOSC) 405, BIOSC 416, BIOSC (MICRO) 415, HORT (BIOSC, GEN) 465, or MICRO 415
5Two-semesters of a foreign language are strongly recommended.
6To be taken over two semesters, preferably with the same faculty member
7See General Education Requirements. This course must also satisfy the Cross-Cultural Awareness Requirement.
8Notes:
1. A student is allowed to enroll in science and mathematics courses only when all prerequisites have been passed with a grade of C or better.
2. A minimum grade of C is required in all science and mathematics courses. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any science or mathematics course.

Horticulture
Bachelor of Science
Horticulture is the art, science, and business of food crops, ornamental plants, and turfgrasses and their production, utilization, and maintenance. A strong foundation in the basic sciences and humanities is built on courses in mathematics, chemistry, botany, physics, computer science, communications, economics, and humanities. Horticulture as a science depends on disciplines such as plant pathology, plant physiology, entomology, forestry, agronomy, soils, agricultural engineering, and agricultural economics. Business courses contribute to a well-rounded curriculum. A growing aspect of horticulture involves the management of enterprises, from production to distribution and marketing. Horticulture as an art involves the arrangement of plants in an aesthetically pleasing fashion.

Students begin professional development as undergraduates. An internship in a horticultural enterprise is required. Students considering graduate school are advised to take optional courses in the basic sciences as well as conduct an undergraduate research project. Those with strong interests in specific disciplines may complete special problems under the supervision of a faculty member.

Freshman Year
First Semester
3 - BIOL 103 General Biology I
1 - BIOL 105 General Biology Lab. I
3 - HORT 101 Horticulture
3 - MTHSC 101 Essential Math. for Informed Soc.
3 - MTHSC 102 Intro. to Mathematical Analysis
3 - Arts and Humanities (Non-Lit.) Requirement
3 - Social Science Requirement
16
Second Semester
3 - ENGL 101 Accelerated Composition
1 - HORT 102 Experience Horticulture
3 - AVS 470, 480, or 490
3 - Laboratory Science Requirement
3 - Social Science Requirement
15
Sophomore Year
First Semester
4 - CH 105 Chemistry in Context I
3 - HORT 303 Landscape Plants
3 - Business Requirement
4 - Plant Biology Requirement
14
Second Semester
4 - CH 106 Chemistry in Context II
3 - HORT 304 Annuals and Perennials
3 - HORT 305 Plant Propagation
1 - HORT 306 Plant Propagation Techniques Lab.
3 - Arts and Humanities (Literature) Requirement
14
Summer
3 - HORT 271 Internship or 3 - HORT 471 Advanced Internship

Microbiology
Bachelor of Science
Microbiology deals with the study of bacteria, viruses, yeasts, filamentous fungi, protozoa, and unicellular algae. Microbiologists seek to describe these organisms in terms of their structures, functions, and processes of reproduction, growth, and death at both the cellular and molecular levels. They are also concerned with their ecology, particularly in regard to their pathological effects on man, and with their economic importance.

The Microbiology major provides a thorough training in the basic microbiological skills. Further, students receive instruction in mathematics, physics, chemistry, and biochemistry, all essential to the training of a modern microbiologist. Students can prepare for a variety of careers through a wide choice of electives. The Microbiology curriculum with a Biomedicine Concentration is recommended for students planning postgraduate programs. Microbiology graduates may enter graduate school in microbiology, biochemistry, bioengineering, or related disciplines; they may enter medical or dental schools.
or pursue careers in one of the many industries or public service departments dependent upon microbiology. Some of these are the fermentation and drug industries, medical and public health microbiology, various food industries, and agriculture.

Microbiology majors planning to apply for admission to a medical or dental school should inform their advisors immediately upon entering the program.

### Freshman Year

**First Semester**
1. BIOL 110 Principles of Biology I
2. CH 101 General Chemistry
3. COMM 150 Intro. to Human Communication
4. MTHSC 106 Calculus of One Variable I

**Second Semester**
1. BIOL 111 Principles of Biology II
2. CH 102 General Chemistry
3. ENGL 103 Accelerated Composition
4. MTHSC 106 Calculus of One Variable II

### Sophomore Year

**First Semester**
1. CH 223 Organic Chemistry
2. CH 227 Organic Chemistry Lab.
3. MICRO 305 General Microbiology

PACKAGING SCIENCE

Bachelor of Science
The Bachelor of Science degree in Packaging Science prepares students for careers in industries producing and utilizing packages for all types of products. Packaging is an essential part of industrialized economies, protecting, preserving, and helping to market products. The field of packaging is highly competitive and highly innovative, requiring an ever-increasing number of professional positions.

Opportunities for employment include a wide variety of career paths such as manufacturing, marketing, sales, design, purchasing, quality assurance, and customer services. Most career opportunities are in positions requiring technical knowledge combined with marketing and management skills.

The core curriculum assures graduates of having the skills and knowledge required by most entry-level packaging positions. Emphasis area choices or approved minors allow students to select courses to improve career preparation for specific industry segments, including distribution and transportation, engineering technology, food and health care packaging, graphic communications, materials, business administration, entrepreneurship, environmental engineering, environmental science and policy, and management.

Students changing majors to Packaging Science must have at least a 2.0 cumulative grade-point ratio.

Freshman Year
First Semester
3 - BIOL 103 General Biology I

123 Total Semester Hours
1 A C or better is required in this course for graduation.
2 See General Education Requirements.
3 See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
4 Note: Social Science Requirement must be in an area other than economics. A 200-level or higher foreign language course is recommended to satisfy the Arts and Humanities (Non-Literature) Requirement.
5 Students interested in minors or emphasis areas should take any prerequisites in the sophomore year.
6 See advisor.
7 PKGSC 404 and 454 must be taken concurrently.

Emphasis Areas consist of 15 credit hours selected from one of the following areas:

Distribution and Transportation—C E 255, 311, 410, 411, (C R P 412, MGT 385, 317, 423, 424, 426

Engineering Technology—AG M 205, 406, 460, C E 253, CTE 181, 220, 250, 420, E G 209, ENGR 120, 130

Food and Health Care Packaging—BIO E 302, 320, 401, FD SC 214, 401, 402, 404, MICRO 305, 407

Communication:—C C 207, 215, 245, 310, 405, 406, 407, 440, 446

Materials—BIO E 302, C M E 210, 241, 319, FOR 441, 442, PKGSC 471, TEXT 176

College of Agriculture, Forestry, and Life Sciences

PREPROFESSIONAL HEALTH STUDIES

Non-degree
The health professions need individuals with a diversity of educational backgrounds and a wide variety of talents and interests. The philosophies of education, the specific preprofessional course requirements, the noncognitive qualifications for enrollment, and the systems of training vary among the professional health schools; but all recognize the desirability of a broad education—a good foundation in the natural sciences, highly developed communication skills, and a solid background in the humanities and social sciences. The absolute requirements for admission to professional health schools are limited to allow latitude for developing individualized undergraduate programs of study; however, most schools of medicine and dentistry require 16 semester hours of chemistry, including organic chemistry, eight hours of biological sciences, eight hours of physics, and six hours of mathematics. These requirements should be balanced with courses in vocabulary building, the humanities, and social sciences. The basic requirements in the natural sciences and as many of the requirements in the humanities and social sciences as possible should be completed by the third year so that students will be prepared to take the Dental Admission Test or the Medical College Admission Test prior to applying to a professional school.

Undergraduates may also prepare to study optometry, podiatry, and other health professions. While the basic requirements for these professional schools are essentially the same as those for schools of medicine and dentistry, specific requirements for individual schools in these professions vary somewhat; consequently, interested students are advised to consult with the chief health professionals advisor.

At Clemson, rather than having a separate, organized preprofessional health study program, students are allowed to major in any curriculum, as long as the basic entrance requirements of the professional health school are fulfilled. These schools are not as concerned about a student’s major as they are about academic performance in whichever curriculum the student chooses. Professional health schools have neither preferences nor prejudices concerning any curriculum, which is evidenced by the fact that their entering students represent a broad spectrum of curriculum. The emphasis is placed on the student’s doing well in the curriculum chosen, and this becomes critical as competition increases for the limited number of places available in professional health schools.
PREPHARMACY
The two-year Prepharmacy program requires of 66–
72 credit hours depending on the pharmacy school of
interest. Upon completion of the program, students
will be eligible to apply to a college of pharmacy,
usually the South Carolina College of Pharmacy
(MUSC and USC campuses), and may be eligible to
apply for the Bachelor of Science in Preprofessional
Studies. The degree in Pharmacy is awarded by the
institution attended. It is important for students to
work closely with their advisor as there are variations
in courses required by the pharmacy schools.
For financial aid purposes, students in the Prephar-
macy program are considered to be enrolled in a
degree-seeking program.

Third Year6
72–90 Total Semester Hours

1 A H 210, MUSIC 210, or THEA 317
2 The Medical University of South Carolina requires MICRO
305. The University of South Carolina requires a BIOSC
222 and 223. To be eligible for both professional schools,
the course(s) not taken this semester must be taken during
a summer term or third year of study.
3 Select any ENGL course from General Education Arts and
Humanities (Literature) Requirement.
4 See advisor.
5 See General Education Requirements.
6 Students planning to receive the Bachelor of Science degree
upon completion of the program are required to complete an
additional 18 credit hours. See advisor for requirements.

PREHABILITATION SCIENCES
The Prehabilitation Sciences major includes
concentrations in physical therapy, occupational
therapy, communication sciences and disorders, as
well as in physician assisting and allied health areas.
This curriculum is designed to meet the requirements
of the programs in the College of Health Professions
at the Medical University of South Carolina and
other professional schools. The program requires a
minimum of 90 semester hours of undergraduate
coursework. In addition, students must apply to a pro-
fessional school for acceptance into its program.
Because preparation for some of the concentra-
tions, such as the physical therapy, occupational
therapy, and communication sciences and disorders
programs at MUSC, requires a baccalaureate degree
in any area, students are advised to select a major
with similar requirements after consultation with
the Prehabilitation sciences advisor. The follow-
ing curriculum fulfills the general requirements for
those fields, requiring less than a baccalaureate de-
gree. Electives should be chosen after consultation
with the advisor. Professional schools may change
their requirements at any time, so it is imperative
that students in this major stay in close contact
with their advisor.
For financial aid purposes, students in the Prere-
habilitation Sciences program are considered to be
enrolled in a degree-seeking program.

PREVETERINARY MEDICINE
Under a regional plan, the South Carolina Prevet-
erinary Advisory Committee coordinates a program
for South Carolina residents who are interested
in pursuing careers in veterinary medicine. South
Carolina residents attending any college or uni-
versity may apply through the Veterinary Medical
College Application Service (VMCAS) to the Uni-
versity of Georgia College of Veterinary Medicine.
Currently the University of Georgia admits up to
17 students each year through arrangements with
the Southern Regional Education Board. The State of
South Carolina has a contract with Mississippi
State University to admit up to five South Carolina
residents. The State of South Carolina also has a
contract with Tuskegee University to admit up to
four South Carolina residents. Application must be
made directly to Tuskegee University.
Minimum requirements for admission to a col-
lege of veterinary medicine generally include the
satisfactory completion of prescribed courses in a
well-rounded undergraduate degree program. Spe-
cific requirements for admission to the University
of Georgia College of Veterinary Medicine include
the following undergraduate courses: six credits of
English, 14 credits of humanities and social studies,
eight of physics, eight of general biology, eight cred-
its of advanced biology, three credits of biochemistry,
and 16 credits of organic and inorganic chemistry.
(Chemistry and physics courses must be at the pre-
medical level; they may not be survey courses.)
Students with a concentration in Soil and Water Environmental Science can address compelling problems including land application of agricultural and industrial wastes, reduction of contamination of ground and surface waters, establishment of functional septic drain fields, and production of food and fiber crops. Graduates will be able to establish careers in traditional agrarian fields such as soil scientists and conservationists, extension agents, and farm consultants and in the broader environmental arenas of DHEC, consulting engineering firms, and environmental consulting. Graduates will be well prepared for graduate work in fields ranging from soil science to environmental engineering and law.

Students with a concentration in Sustainable Crop Production will graduate with comprehensive knowledge to increase farm profits by decreasing the costs of crop and production; build soil tilth and fertility through rotations, multiple cropping, and nutrient cycling; protect the environment by minimizing or more efficiently using synthetic agrichemicals; manage crop pests and weeds with integrated, ecologically sound strategies; develop strategies for profitable marketing of agricultural commodities; and create a strong, diversified agriculture that is stable through market and weather fluctuations. Graduates can assume positions as self-employed farmers, farm managers, state and federal natural resource managers, research technicians, agricultural industry employees, greenhouse managers, consultants in pest management and sustainable agriculture, field ecology professionals, agritourism industry specialists, extension personnel, or regulatory officers.

AGRICULTURAL BIOTECHNOLOGY CONCENTRATION

Sophomore Year
First Semester
1 - CH 223 Organic Chemistry
2 - CH 227 Organic Chemistry Lab.
3 - COMM 250 Public Speaking
4 - ECON 200 Economic Concepts I or
3 - ECON 211 Principles of Microeconomics
4 - SSCS 333 Agricultural Genetics
3 - Arts and Humanities (Literature) Requirement
53

Second Semester
1 - AP EC 205 Agriculture and Society
2 - BIOSC 335 Evolutionary Biology
3 - CH 224 Organic Chemistry
4 - CH 228 Organic Chemistry Lab.
5 - GEN 300 Fundamental Genetics
6 - GEN 301 Fundamental Genetics Lab.

Junior Year
First Semester
1 - BIO 305 Essential Elements of Biochem.
2 - BIO 306 Essential Elements of Biochem. Lab.
3 - BIOSC 304 Biology of Plants
4 - CSENV 412 Major World Crops
5 - SSCS 335 Agricultural Biotechnology
6 - Social Science Requirement
5

Second Semester
1 - CSENV 350 Practicum
2 - ENGL 314 Technical Writing
3 - PL PA 310 Plant Diseases and People
4 - PL PH (BIOSC) 340 Plant Med. and Magic
5 - SSCS 401 Academic and Professional Dev. II
6 - Emphasis Area Requirement
53

Senior Year
First Semester
1 - BIOSC 401 Plant Physiology
2 - BIOSC 402 Plant Physiology Lab.
3 - CSENV 350 Practicum
4 - ENT (BIOSC) 301 Insect Biology and Diversity
5 - SSCS 445 Regulatory Issues and Policies
6 - SSCS 450 Agric. Biosystems and Risk Assess.
7 - Emphasis Area Requirement
5

Second Semester
1 - CSENV 350 Practicum
2 - CSENV 417 Weed Ecology and Morphology
3 - SSCS 451 Agric. Biotech. and Global Society
4 - Emphasis Area Requirement
5

124–126 Total Semester Hours
1ECON 200 is recommended for students in the Agricultural Biosystems and Technology Emphasis Area. ECON 211 is recommended for students in the Agricultural Biotechnology and Global Society Emphasis Area.
2See General Education Requirements.
3Select from department-approved list. Emphasis Areas include Agricultural Biosystems and Technology and Agricultural Biotechnology and Global Society.

SOILS AND SUSTAINABLE CROP SYSTEMS

Bachelor of Science

The BS degree program in Soils and Sustainable Crop Systems is a multidisciplinary program that educates students with expertise in soils, crop sciences, and applied agricultural biotechnology. It offers a rigorous, science-based degree with educational opportunities related to management of agricultural commodities and natural resources as well as soil and water resources.

Students can tailor the program to fit their professional and academic goals by selecting one of three concentrations with emphasis areas. The Agricultural Biotechnology concentration integrates conventional disciplines with molecular advances in plants, pathogens, and biosystem interactions and responds to the educational void between the rapid adoption of biotechnology products into agricultural production and the intermediate- and end-users, farmers, and consumers. Graduates in this concentration will be competitive as scientists in emerging agricultural biotechnology industries, as educators, and as policy makers and officers in regulatory agencies.

To be in the best competitive position, applicants should complete courses in animal agriculture, genetics, nutrition, biochemistry, and advanced biology. Considerations for selection are character, scholastic achievement, personality, experience with large and small animals, general knowledge, and motivation. In the past, competition has been keen, and only those applicants who have shown exceptional ability have been admitted. Specific considerations may include a minimal grade-point average and completion of standardized tests such as the Graduate Record Examination and the Veterinary College Admission Test.

Since out-of-state students attending Clemson are ineligible to apply to the University of Georgia or Tuskegee University under the South Carolina quota, they should contact the college(s) of veterinary medicine to which they plan to apply. They may apply at the University of Georgia for at-large admission.

Veterinary schools accept students with a broad range of academic backgrounds; therefore, it is recommended that the beginning university student select any undergraduate major and simultaneously complete the courses required for veterinary school entrance and those required for completion of a BS or BA degree. For students selecting Animal and Veterinary Sciences or Biological Sciences at Clemson University, the basic curricula have been designed to accommodate Georgia’s entrance requirements. Further information is available from the Department of Animal and Veterinary Sciences at 864-656-3427.
SOIL AND WATER ENVIRONMENTAL SCIENCE CONCENTRATION

Sophomore Year

First Semester
3 - CH 223 Organic Chemistry
1 - CH 227 Organic Chemistry Lab.
4 - CH 201 Survey of Organic Chemistry

TURFGRASS

Bachelor of Science

The Turfgrass program is designed for students interested in careers in the rapidly growing turfgrass industry. The curriculum includes courses in turfgrass management, pathology, agricultural mechanization, personnel management, soil fertility, soil microbiology, weed control, and park and recreation management. Graduates pursue careers in professional lawn care; maintenance of parks, athletic fields, and golf courses; production and sale of seed, sod, supplies, and equipment; or as technicians for businesses or government agencies.

Freshman Year

First Semester
3 - BIOL 103 General Biology I
1 - BIOL 105 General Biology Lab. I
3 - HORT 101 Horticulture
3 - MTHSC 102 Intro. to Mathematical Analysis

122 Total Semester Hours

WILDLIFE AND FISHERIES BIOLOGY

Bachelor of Science
Increased interest in conservation of natural resources and the environment and demand for seafood products have resulted in these areas becoming increasingly technical and requiring highly qualified wildlife and fisheries biologists. Greatest demands for graduates are in the areas of management, research, survey, and regulatory positions with state and federal agencies; industrial research and quality control laboratories; conservation, recreational, and other public service agencies; and private enterprises.

The Bachelor of Science degree program in Wildlife and Fisheries Biology provides a solid foundation for many careers in the sciences. The curriculum is strong in basic and applied sciences, communication skills, and the social sciences. In addition, three credit hours are available for field training with appropriate natural resource agencies. Students may satisfy coursework requirements for professional certification by the Wildlife Society and/or the American Fisheries Society.

Combined Bachelor of Science/Master of Science Degree Program
Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements. Students are encouraged to obtain the specific requirements for the dual degree from the Department of Forestry and Natural Resources as early as possible in their undergraduate program as a number of required courses have prerequisites not normally taken by Wildlife and Fisheries Biology majors. More information and procedures can be found under Academic Regulations in this catalog.

Freshman Year
First Semester
3 - BIOL 103 General Biology I
1 - BIOL 105 General Biology Lab. I
4 - CH 105 Chemistry in Context I

122 Total Semester Hours

Students planning to take organic chemistry should substitute CH 101 and 102.
3See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement; and, if CH 105 is not selected, three credits must also satisfy the Science and Technology in Society Requirement. (Note: Social Science Requirement must be in an area other than economics.)
5Select from department-approved list.
6BIOSC 441, 443, 446, or FOR 315
MINORS

Following are minors acceptable for students in the College of Agriculture, Forestry, and Life Sciences. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

Accounting  
Adult/Extension Education  
Aerospace Studies  
Agricultural Business Management  
Agricultural Mechanization and Business  
American Sign Language Studies  
Animal and Veterinary Sciences  
Anthropology  
Athletic Leadership  
Biochemistry  
Bioengineering  
Biological Sciences  
Business Administration  
Chemistry  
Cluster  
Communication Studies  
Community Recreation Management  
Computer Science  
Crop and Soil Environmental Science  
East Asian Studies  
Economics  
Education  
English  
Entomology  
Entrepreneurship  
Environmental Engineering  
Environmental Science and Policy  
Equine Business—*not open to Animal and Veterinary Sciences majors*  
Film Studies  
Financial Management  
Food Science  
Forest Products  
Forest Resource Management  
Genetics  
Geography  
Geology  
Global Politics  
Great Works  
Health Science  
History  
Horticulture—*not open to Turfgrass majors*  
Human Resource Management  
Legal Studies  
Management  
Mathematical Sciences

Women’s Studies  
Writing

See pages 35–38 for details.
College of Architecture, Arts, and Humanities

The collaboration of Architecture (Landscape Architecture, Construction Science and Management, City and Regional Planning, and Architecture) with Arts (Visual Arts and Performing Arts) and the Humanities (Communication Studies, English, History, Languages, Philosophy, and Religion) produces a remarkably rich environment for study. The mixture of core disciplines with applied professions/disciplines in the College provides both depth and breadth in learning. This structure affords students and faculty with skills that address the complex and interconnected challenges of the future, where it is no longer possible for these problems to be solved in a single discipline or profession. It is through the connections and communication between specialized knowledge areas that significant progress will be made. These kinds of thoughts and actions form a fundamental part of the College of Architecture, Arts, and Humanities.

To illustrate these ideas, consider the diversity of communication skills practiced and taught in the College. Students learn graphic and artistic communication, technical communication with computers, spoken communication, and communication through the written word. Each skill is vital to a successful student, and it is the collaboration between these forms of communication that prepares students for the complex challenges of the future.

School of Design and Building and School of the Arts

The Bachelor of Arts in Architecture degree is the preprofessional preparation for graduate study leading to the Master of Architecture degree, which is the fully accredited professional degree in the field. The accredited Bachelor of Science in Construction Science and Management program prepares students for careers as professional managers in the construction industry. A graduate program is also offered leading to the Master of Construction Science and Management. The Visual Arts program offers professional study in the studio visual arts leading to the Bachelor of Fine Arts degree. A graduate program leading to the Master of Fine Arts is also offered. The accredited five-year Bachelor of Landscape Architecture degree program prepares students for careers as professional landscape architects. The Bachelor of Arts in Production Studies in Performing Arts is a distinctive degree program that combines practical hands-on experiences in performing arts production technologies with classes in music and theatre performance, history, and theory. A graduate program in City and Regional Planning is housed within the school and accepts graduates from a variety of baccalaureate programs and prepares them for careers in both public and private sector planning through its Master of City and Regional Planning degree. The Master of Science in Historic Preservation degree is a professional degree program designed for students who will specialize in working with historic buildings, landscapes, and the decorative arts. The Master of Real Estate Development is a full-time, two-year professional degree jointly offered by the Department of Planning and Landscape Architecture and the Department of Finance in the College of Business and Behavioral Science.

In addition to the facilities housed on the Clemson campus, the College offers third- and fourth-year Architecture and fourth-year Landscape Architecture students the opportunity to earn credit toward their degrees at three off-campus sites. Students may spend a semester at the Charleston Architecture Center earning credit from both Clemson University and the College of Charleston. Additionally, the Charles E. Daniel Center for Building Research and Urban Studies in Genoa, Italy, and the Barcelona Program in Barcelona, Spain, provide students with an intensive program of study and travel in Europe.

Architecture Charleston Program

Located in Charleston, South Carolina, this program is available to qualified undergraduates in Architecture, Construction Science and Management, Landscape Architecture, and Visual Arts. Studio work is oriented toward design within the historic seaport setting. Students also enroll in classes at the College of Charleston campus. The program is enriched by visiting scholars and professionals from the area.

Architecture Overseas Program

The Daniel Center for Building Research and Urban Studies in Genoa, Italy, is available to qualified Bachelor and Master of Architecture, Construction Science and Management, Fine Arts, City and Regional Planning, and professional year Landscape Architecture students. Studio and classroom work is enriched by visiting scholars and complemented by scheduled field trips, both in Italy and continental Europe. Undergraduate Architecture students in their third year or first semester of their fourth year may also participate in the Italian program.

Entrance Requirements

Admission to degree programs in the School of Design and Building and the School of the Arts is based on academic performance and is limited based on space availability in the various programs. Students seeking admission are advised to apply to the Admissions Office early in the fall of their senior year in high school. They are also encouraged to visit the school during their senior year. Faculty are available to meet with them and their parents informally and answer questions and discuss individual programs in more detail. Prospective students may schedule appointments by calling the individual department.

Advancement in Architecture

Students enrolled in second-, third-, or fourth-year design studios and theory courses must attain at least a 2.0 grade-point ratio in each year level (by repeating one or both semesters, if necessary) to qualify for advancement to the next year level or, in the case of fourth-year Architecture studios, to qualify for the Architecture degree, or in Landscape Architecture at the fifth year, to qualify for the Bachelor of Landscape Architecture degree.

School of Humanities

The Bachelor of Arts degree is offered in Communication Studies, English, History, Language and International Trade, Modern Languages, and Philosophy. The Bachelor of Science degree is offered in Language and International Health.

To achieve depth as well as breadth in their education experiences, students majoring in Communication Studies, English, History, Modern Languages, or Philosophy complete at least 24 semester hours from courses above the sophomore level. As soon as feasible and not later than the end of the sophomore year, students in these fields also select a minor, consisting of at least 15 additional semester hours. Courses satisfying the major may not also be included in the minor. A second major (a double major) may substitute for the minor, provided all requirements are fulfilled for each major.

The foreign language requirement is a proficiency requirement. Students must complete through 202 in Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, or Spanish.

Students enrolled in degree programs offered in the humanities who expect to teach in the public schools may elect education courses required for teaching certificates by the South Carolina Department of Education. Such courses are to be approved by their own department advisors.

Students may transfer into the Undeclared category in the humanities only if they have completed 45 or fewer credit hours. For more information, contact the College of Architecture, Arts, and Humanities Advisement Center in 101 Strode Tower.

Architecture Bachelor of Arts

The Bachelor of Arts in Architecture prepares students for subsequent professional education by providing a sound general education in the natural sciences, social sciences, humanities, and fine arts, allowing students to pursue higher-level work in the discipline. The curriculum includes seven semesters of studio in addition to complementary courses in architectural history and theory and building technology. Four of the studios are collaborative, taught by faculty in Architecture as well as Communication Studies and English. The Bachelor of Arts also includes requirements for a minor and foreign language.

In the first two years of the program, students learn to apply the thinking and communications skills needed to pursue higher-level work in the discipline. The curriculum in the first two years also allows students to complete most of the University’s general education requirements. In the last two years, students must select at least one of the location-specific studios and corequired coursework and may elect to take these studios for up to three
The Bachelor of Arts in Architecture prepares students to continue on to a professionally-accredited degree program at the graduate level, such as the Master of Architecture offered by Clemson. Most states require that an individual intending to become a licensed architect hold an accredited degree. There are two types of degrees that are accredited by the National Architectural Accrediting Board: the Bachelor of Architecture (not offered at Clemson) which requires a minimum of five years of study, and the Bachelor of Arts in Architecture provides a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment options in related fields.

**Freshman Year**

**First Semester**
- 3 - A A H 101 Survey of Art and Arch. History I

**COMMUNICATION STUDIES**

**Bachelor of Arts**

The Bachelor of Arts in Communication Studies provides a thoroughly integrated yet individual degree program that prepares students for careers in business, government, and public sectors. In addition, the program provides a foundation for graduates who wish to pursue advanced degrees in the humanities, social sciences, business, and law. Through their coursework and extracurricular experiences, Communication Studies majors develop a set of skills in oral, written, and visual communication that enables them to research, design, present, and evaluate messages across diverse contexts and from a variety of platforms, including digital communication technology.

Students may change majors into the Communication Studies program based on approval of a committee of faculty from the Department of Communication Studies. The deadline for applying for a change of major during the fall semester is September 15, with decisions made by October 1. For spring semester changes of major, the deadline is February 15, with decisions made by March 1. The Department of Communication Studies accepts a maximum of 30 changes of major per year. To qualify for acceptance, applicants should have completed 15 credit hours including ENGL 103 and COMM 201 (with a C or better). All students requesting a transfer into the Communication Studies program must have a grade-point ratio of 2.5 or higher. An application form and a 3–5-page writing sample are also required. Detailed information is available from the Communication Studies Department, 408 Strode Tower.

CONSTRUCTION SCIENCE AND MANAGEMENT

Bachelor of Science
As the largest single industry in the United States and one of the most important, construction offers unlimited opportunities to highly motivated and professionally educated men and women. Future professionals must be skilled in managing people, equipment, and capital, coupled with a grasp of the complex technologies of modern construction. The Bachelor of Science in Construction Science and Management curriculum is the basis for a career in construction or as a developer or building management specialist.

Freshman Year
First Semester
- A A H 210 Intro. to Art and Architecture
- C S M 150 Intro. to Research Methodology
- ENGL 130 Accelerated Composition

ENGLISH
Bachelor of Arts

The core courses of the English major help students acquire an understanding of literature as a humanistic study; develop an appreciation and practical knowledge of the modes of literary expression, research, and criticism; and improve the ability to communicate effectively and intelligently.

By the end of the sophomore year, students choose between two emphasis areas: Literature or Writing and Publication Studies. The Literature emphasis area offers an extensive exploration of American and British literature, literary theory, and related disciplines such as creative writing and film. The Writing and Publication Studies emphasis area focuses on digital publishing, professional communication, rhetoric, creative writing, and writing about the arts. By teaching students to read closely, think critically, and communicate effectively, both emphasis areas prepare English majors for work in a variety of professional and academic fields.

The standard program of study consists of courses stipulated in the map below, which includes 24 credit hours of core courses and 15 hours chosen from one of the two emphasis areas.

Core Courses

ENGL 190, 310, and 390 and 18 additional credits selected from the following:

- English Literature Survey Requirement—Six credit hours from ENGL 396, 397, 398, 399
- Shakespeare (Group I)—ENGL 411
- Language, Criticism, and Theory (Group V)—Three credits from ENGL 400, 401, 435, 436, 440, (COMM) 491, (COMM) 492
- Advanced Writing (Group VII)—Three credits from ENGL 304, 312, 314, 346, 348
- Social Science Requirement
- English Literature Survey Requirement
- Shakespeare (Group I)—ENGL 411
- Language, Criticism, and Theory (Group V)—Three credits from ENGL 400, 401, 435, 436, 440, (COMM) 491, (COMM) 492
- Advanced Writing (Group VII)—Three credits from ENGL 304, 312, 314, 346, 348
- Social Science Requirement
- English Literature Survey Requirement
- Shakespeare (Group I)—ENGL 411
- Language, Criticism, and Theory (Group V)—Three credits from ENGL 400, 401, 435, 436, 440, (COMM) 491, (COMM) 492
- Advanced Writing (Group VII)—Three credits from ENGL 304, 312, 314, 346, 348
- Social Science Requirement
### History Major

The History major provides students with flexibility to pursue their particular interests in history. The major includes 34 credit hours in history, in addition to HIST 172 and 173, as outlined below.

Pre-law students majoring in History should consult their advisor for a recommended program.

### Landscape Architecture

**Bachelor of Landscape Architecture**

The profession of landscape architecture is broad and interdisciplinary. Practicing landscape architects work on a wide range of project types including, but not limited to, urban design, community design, historic preservation, ecological restoration, parks and park systems, institutional landscapes, memorials, cemeteries, industrial site reconfigurations, golf courses, wilderness areas and trails, residential landscapes, and gardens.

The profession is both an art and a science. Successful landscape architects are creative professionals who hold an environmental imperative and a social conscience. They are also excellent facilitators able to bring numerous disciplines and professions together to work on complex projects in the landscape. Landscape Architecture students gain an understanding of this diverse range of subjects by participating in Clemson University’s Creative Inquiry Initiative. As a consequence of numerous creative inquiry experiences within the program, students will develop greater skills in teamwork, creative thinking, problem solving, and communication.

Clemson’s Landscape Architecture program is noted for a special emphasis on the art of design. Consequently, the landscape architecture design studio experience is at the center of the student’s education—forty-two hours of studio are required. The five-year program leads to an accredited Bachelor of Landscape Architecture degree. The program is generalist—covering the major areas of practice—and builds from design basics to sophisticated studio experiences such as regional design, urban design, and community design. The studio experience is supported by other courses inside and outside the Landscape Architecture curriculum that provide the necessary grounding in landscape history and social, cultural, environmental, and aesthetic theories. Students may also choose to focus elective credits on one of three areas: cultural issues, environmental issues, or professional development. Outstanding fifth-year students may apply for admission into a shortened Master of City and Regional Planning, Master of Landscape Architecture, or Master of Real Estate Development program.

156 Total Semester Hours

- Other ecology courses from a department-approved list may be substituted.
- Credit may be substituted.
- Two semesters (through 202) in the same foreign language are required.
- Two hours of internship credit are required. A maximum of six hours credit of internship may be scheduled.
- Select from department-approved list.
- Students who plan to enter the MRED, MLA, or MCRP program should substitute a research methods course (e.g., ARCH 821, CR P 803).
- See General Education Requirements.

LANGUAGE AND INTERNATIONAL HEALTH

Bachelor of Science
The Bachelor of Science program in Language and International Health is jointly administered by the Department of Languages and the Department of Public Health Sciences in the College of Health, Education, and Human Development. Students acquire knowledge in public health theory and practice, including the history and philosophy of public health and medicine; the organization, management and financing of health services; the social and behavioral aspects of health, epidemiology, health evaluation methods, and health communications. Students also acquire communicative competence in Spanish and a familiarity with Hispanic cultures, literatures, health environments, and multicultural issues.

The program requires study abroad and the completion of a practicum in a Spanish-speaking country. Graduates will be qualified to assume positions in a variety of settings including integrated hospital systems, consulting firms, managed care organizations, pharmaceutical companies, as well as multicultural community centers. They can also pursue graduate degrees in community health, epidemiology/bio-statistics, health administration, health systems research, and Spanish.

Students who have completed less than 50 credit hours may change majors into Language and International Health with a minimum cumulative grade-point ratio of 2.5. Students with 50 or more credit hours may apply for a change of major into Language and International Health, based on space availability, with a minimum cumulative grade-point ratio of 2.75.

121 Total Semester Hours

Select one of the following emphasis areas:

Health Administration—select one course from four of the following groups:
- Accounting—ACCT 201 Economics—ECON 211, 212 Finance—FIN 306 Health—C R D (AP EC, HLTH) 361, HLTH 475 Law—LAW 322 Management—MGT 201, 218, 390, 411, 416, 422, 423, (E) 444, 452 Marketing—MKT 301

Community Development—select one course from four of the following groups:

1See General Education Requirements.
2See General Education Requirements.

The language component emphasizes speaking and writing skills, culture, civilization, and business/technical languages. The professional component introduces students to the core content of their preferred concentration as well as to the international dimensions of that concentration.

Study abroad of at least one semester in the target language setting is mandatory. In addition, internship experiences with international companies in the United States or summer internships with companies abroad give students the opportunity to apply classroom learning to the business/industrial work environment. Internships are subject to approval by the Language and International Trade Director. Students are strongly encouraged to participate in the Clemson Language Immersion Program (CLIP) prior to enrolling in study abroad programs.

In addition to the curriculum requirements below, students are required, as a condition of graduation, to pass a noncredit examination and submit a noncredit senior dossier to assess their language competence in various areas. Both assessments take place in the student’s last full semester at the University.

#### MODERN LANGUAGES

**Bachelor of Arts**

The Bachelor of Arts degree in Modern Languages provides a broadly humanistic course of study in four areas of concentration: French, German, Japanese, and Spanish. This course of study seeks to provide students with basic competence in both the relevant language and the literary and cultural heritage pertaining to that language. Moreover, students will be required to take at least two courses in cultural inquiry which are designed to sharpen their sense of cultural difference, to enhance their critical thinking skills, and to prepare them for citizenship in a global community of diverse cultural precepts and practices. In this respect, the Bachelor of Arts in Modern Languages is intended to prepare students for a wide range of careers in the international arena as well as for the kinds of graduate programs that are an appropriate starting point for such careers.

All Modern Languages students are required to study abroad with a Clemson-approved program for at least one semester in the case of Japanese and Spanish or for at least two semesters in the case of Chinese, French, and German.

As a condition of graduation, students in the Modern Languages program will be required to pass a noncredit examination and to submit a senior dossier in the relevant language to assess their competence in that language. Both assessments take place in the student’s last full semester of study.

---

### Notes

1. See General Education Requirements. Three of these credit hours must also satisfy the Science and Technology in Society Requirement.
2. Six credit hours selected from two different areas: ANTH 201, GEOG 103, HIST 172, 173, 193, POL SC 102, 104.
3. See advisor.
4. Select from 300–400-level courses in ANTH, AP EC, ECON, GEOG, HIST, POL SC, PSYCH, SOC.
5. A minimum of nine hours of 300–400-level foreign language courses is required. At least one course must be in literature. Advanced grammar is recommended for those exempting PRF 104. French, German, and Spanish for at least two semesters in the case of Chinese, one semester in the case of Japanese.
6. MODERN LANGUAGES students are required to study abroad with a Clemson-approved program for at least one semester in the case of Japanese and Spanish or for at least two semesters in the case of Chinese, French, and German.
7. As a condition of graduation, students in the Modern Languages program will be required to pass a noncredit examination and to submit a senior dossier in the relevant language to assess their competence in that language. Both assessments take place in the student’s last full semester of study.

PHILOSOPHY

Bachelor of Arts

The required course of study in Philosophy consists of the basic curriculum and either the standard Philosophy major, the Philosophy major with a Religious Studies Emphasis Area, or the Philosophy major with a Law, Liberty, and Justice Emphasis Area. Philosophy majors must meet the requirements of the School of Humanities plus HIST 172 and 173 and 12 hours of 300–400-level coursework in one of the following areas: humanities (other than philosophy), math, science, or social science. Some courses may meet more than one requirement. All Philosophy majors must take PHIL 399 in the junior year. Preparation of the portfolio should begin as soon as the major is declared. Specific requirements include the following:

Standard Philosophy Major—PHIL 315, 316, 401 or 402, and 24 additional credits in PHIL selected with the advice and consent of the advisor. Three of these credits may be at the 100 level.

Law, Liberty, and Justice Emphasis Area—PHIL 102, 315, 316, 304 or 320 or 321, 343, 401 or 402, HIST 328, 329, and nine additional credits in philosophy selected with the advice and consent of the pre-law advisor. Students with this emphasis area are strongly advised to include PO SC 432 and/or 433 as an elective, minor, or advanced area requirement.

Religious Studies Emphasis Area—REL 101 or 102, 301, 302, 401 or 402, PHIL 303, 315, 316, 401 or 402, and nine additional credits selected with the advice and consent of the advisor. Of these nine credits, three must be in philosophy and three must be in religion courses at the 300 level or above. (PO SC 407 may count as a religion course). The remaining three credits may be in philosophy or religion but must be at the 300 level or above. Students with this emphasis area must choose a minor other than religion.

Pre-law and Pre-medicine students majoring in Philosophy should consult the departmental advisor for help in tailoring the program to their needs.

Select from 300–400-level courses in the humanities (must be from an area other than philosophy), mathematical sciences, science, or the social sciences.

PRODUCTION STUDIES IN PERFORMING ARTS

Bachelor of Arts

The Production Studies in Performing Arts degree is a nationally distinctive Bachelor of Arts degree that prepares students for career in many aspects of the arts, including but not limited to performance, design, arts administration, and arts technologies. The curriculum offers specialized study in music, theatre, and audio engineering. In addition to discipline-specific concentrations, all performing arts students take classes in performance, production, history, theory, and arts technology. The Brooks Center for the Performing Arts is a living performing arts laboratory where visiting artists and industry professionals provide additional experiential educational opportunities for Clemson students. Students may choose from more than 70 minors and select elective courses to tailor their degrees to their individual interests.

The degree is rooted in the liberal arts tradition with specific training in the performing arts. It provides the background for a number of career options or advanced studies such as graduate school, professional internships, and specialized postgraduate training.

The curriculum features a senior capstone project in which students spend their final year working as a production team, writing, composing, designing, marketing, and performing a final project.

To be considered for admission to this program, students must undergo an interview and/or audition with the Department of Performing Arts. Please note that students will not be eligible for admission to Clemson University in Production Studies
in Performing Arts until this interview/audition is completed. Contact the department for specific requirements.

As a requirement for graduation, all Music Concentration students will be required to demonstrate piano competence equivalent to the 102 level, and all Audio Engineering students will be required to demonstrate piano competence equivalent to the 102 level.

VISUAL ARTS

Bachelor of Fine Arts

The Bachelor of Fine Arts degree is the recognized professional undergraduate degree in the visual arts. The program offers students a balanced curriculum of academic coursework and studio art and art history courses in preparation for careers in studio-related areas of the visual arts. The department offers coursework in six disciplines: drawing, painting, sculpture, printmaking, photography, and ceramics.

The freshman and sophomore years are a balance of general university studies, foundation studios, and art history courses. In the junior year, students begin to concentrate their studio coursework in a specific area of the visual arts in preparation of the Senior studio experience. The senior studio is a time in which concepts and skills are focused and developed to produce a cohesive body of artwork and a portfolio for graduate study and professional application.

College of Business and Behavioral Science

Students in the College of Business and Behavioral Science seek to understand and organize human behavior in a business, economic, and social context. The College promotes scholarship with broad awareness of the individual, cultural, political, and global levels and develops distinctive leaders in industry, higher education, professional and public service. The College includes the School of Accountancy and Legal Studies and the Departments of Aerospace Studies, Economics, Finance, Graphic Communications, Management, Marketing, Military Leadership, Political Science, Psychology, Sociology.

ROTC PROGRAMS

Aerospace Studies (AFROTC)

Air Force Reserve Officer Training Corps provides students the opportunity to earn a commission as second lieutenants while pursuing a bachelor’s degree. The program includes courses in air power history, written and oral communications, leadership and management, and political science. Air Force ROTC is designed to meet the need for dedicated and professional leaders in the active duty Air Force. Additional information is available from the Department of Aerospace Studies.

Military Leadership (Army ROTC)

Army Reserve Officer Training Corps is all about leadership. It allows students the opportunity to become Army officers in the Reserves, National Guard, or active Army. The first two years of the program are open to all students. During the freshman year, the focus is on learning individual leadership skills as time management, leadership character, values, setting goals, and conducting meetings. The sophomore year emphasizes teamwork, team leading, communication/briefings, decision making, and organizational culture, vision, and team values. Juniors primarily learn planning and conducting training for large groups and are evaluated in leadership exercises. Seniors focus on organizational leadership. They plan and run the 170-person organization, conduct individual counseling, and evaluate the juniors’ leadership exercises. A minor in Military Leadership can be earned by completing the program. Enrollment requires no military obligation until the sophomore year for those on an Army scholarship or the junior year for those without a scholarship. Additional information is available from the Military Leadership Department.

SOCIAL AND BEHAVIORAL SCIENCE PROGRAMS

Bachelor of Arts degrees are offered in Economics, Political Science, Psychology, and Sociology; Bachelor of Science degrees are also offered in Political Science, Psychology, and Sociology. These programs are designed to meet the needs of students seeking a broad general education as preparation for intelligent citizenship, commercial and industrial life, government service, research, and teaching. These curricula also provide an excellent background for the study of law, journalism, and medicine.

To achieve depth as well as breadth in the educational experience, students select a major consisting of courses above the sophomore level. Students also choose a minor consisting of additional credit hours. Courses satisfying a student’s major may not also be included in the minor. See page 80 for acceptable minors.

Students in bachelor of arts programs who plan to teach in public schools may elect education courses required for certification by the South Carolina State Department of Education. Such courses may also be approved by their own department advisors.

BUSINESS AND PROFESSIONAL PROGRAMS

Bachelor of science programs are offered in Accounting, Economics, Financial Management, Graphic Communications, Industrial Management, and Marketing. With the exception of Graphic Communications, these programs share a common curriculum the first year, allowing the student maximum flexibility in choosing an appropriate major. Accreditation by AACSB International (Association to Advance Collegiate Schools of Business) has been earned by the business programs which include Accounting, Financial Management, Industrial Management, Management, and Marketing. All business and professional curricula prepare students for a variety of careers and furnish an education that recognizes the need for an understanding of the basic principles of science, appreciation for the nature of human interaction, and the comprehension of the economic, political, and social environment.

Pre-Business Program

The Pre-Business Program provides students planning to earn Bachelor of Science degrees in Accounting, Economics, Financial Management, Industrial Management, Management, and Marketing with a sound academic preparation for a variety of careers in business. All business students must complete a common curriculum for the freshman year and have a cumulative grade-point ratio of 2.0 or higher before being admitted into Accounting, Economics, Financial Management, Industrial Management, or Management; students must have a cumulative grade-point ratio of 3.0 or higher before being admitted into Marketing. All new business students (including transfer students) are admitted into the Pre-Business Program until all classes in the freshman curriculum are satisfactorily completed and the grade-point ratio requirement is met.

Freshman Curriculum

First Semester

1. - ECON 101 Principles of Microeconomics
2. - MTHSC 106 Calculus of One Variable I
3. - PSYCH 201 Introduction to Psychology or
4. - SOC 201 Introduction to Sociology
5. - ENGL 103 Accelerated Composition
6. - MTHSC 107 Multivariable Calculus

Second Semester

1. - MTHSC 108 Calculus of One Variable II
2. - Science and Tech. in Society Requirement
3. - COMM 150 Intro. to Human Comm. or
4. - ECON 212 Principles of Macroeconomics
5. - MTHSC 207 Intro. to Math. Analysis or
6. - ENGL 103 Accelerated Composition

Admission to Business Degree Programs

To be eligible for admission into the business degree program in Accounting, BS in Economics, Financial Management, Industrial Management, or Management, students must have completed the courses outlined in the freshman curriculum with a cumulative grade-point ratio of 2.0 or higher. Students wishing to enter the Marketing Program must have completed the Pre-Business program with a cumulative grade-point ratio of 3.0 or higher and must obtain permission of the department chair. Students should initiate a change-of-major request after completion of the Freshman Curriculum. Students who fail to meet the requirements for admission to a degree-granting business program may remain in Pre-Business until those requirements are met, but only until 64 semester hours of coursework have been completed. Students who exceed 64 credit hours and still do not meet the requirements for admission into a degree program must declare another major. Students petitioning for admission into a business degree program will follow the curriculum in effect at the time of the change.
ACCOUNTING
Bachelor of Science
The program leading to the Bachelor of Science degree in Accounting prepares students for careers as professional accountants. Students completing this program are well prepared to begin professional careers in corporate accounting or internal auditing or to continue study at the graduate level.

Students planning to become Certified Public Accountants should note that the requirements to sit for the CPA examination in South Carolina include 150 hours of collegiate education and completion of a bachelor's degree. Other states have, or will soon have, similar requirements. The faculty of the School of Accountancy and Legal Studies believes these requirements are best met with a bachelor's degree in Accounting and completion of the Master of Professional Accountancy (MPAcc) degree program. The MPAcc program also enhances the preparation of students pursuing accounting careers in areas of specialization such as assurance and management services and taxation.

Admission to the MPAcc program is separate from admission to the undergraduate program. It is based on the student's undergraduate record and score on the Graduate Management Admissions Test (GMAT). For information, contact the School of Accountancy and Legal Studies, 301 Sirrine Hall.

In addition to accounting and business courses, approximately one-half of the Bachelor of Science curriculum is devoted to English, public speaking, mathematics, natural and social sciences, and the humanities. Thus, students in the accounting program obtain a broad-based education that not only gives them accounting expertise but also contributes to their proficiency in analytical, communication, and interpersonal skills. Along with the general business accreditation held by the College, the degree programs offered by the School of Accountancy and Legal Studies are separately accredited by AACSB International, the only accrediting agency for accounting programs.

Sophomore Year
First Semester
3 - ACCT 201 Financial Accounting Concepts
3 - EX ST 301 Introductory Statistics or
3 - MTHSC 309 Intro. Business Statistics

122 Total Semester Hours
1See General Education Requirements.

Students planning to pursue the Master of Professional Accountancy degree program should take ACCT 404 and 415. Students planning to work in industry upon completion of the degree program should take ACCT 340 and 406.

ECON 310, FIN 411, LAW 420, MGT 423, or MKT 427
International may be completed in the summer between junior and senior years with ACCT 410, MGT 415, and six hours of Business Requirement completed in the second semester of the senior year; or internship may be completed in the second semester of the senior year with ACCT 410, MGT 415, and six hours of Business Requirement completed during the summer sessions.

ECON 340, any 400-level ACCT course, ECON 302, (MGT) 306, FIN 304, 305, 308, 402, 404, MGT 390, 411, 452, or 456

Note: At least 50 percent of the total credits taken in ACCT, ECON, FIN, LAW, MGT, and MKT must be taken at Clemson University.

ECONOMICS

A bachelor’s degree in Economics provides a thorough understanding of business, society, and public policy and prepares students for a wide range of careers. By combining general education courses and a strong course of study in economics, students can prepare for graduate studies in business, law, or any of the social sciences as well as for careers in business and government.

The Department of Economics offers two undergraduate degree paths. The Bachelor of Arts degree emphasizes foreign language skills and offers students maximum freedom to tailor their course of study to their specific interests and career goals. A broad choice of minors is available for this program. The Bachelor of Arts program requires 30 credit hours in economics, which should be satisfied by completing ECON 211, 212, and 24 credits of coursework above the sophomore level. Bachelor of Arts majors must complete ECON 314 and 315. ECON 405 is strongly recommended but not required.

The Bachelor of Science degree programs emphasize business applications. It requires 31 credit hours in economics, which should be satisfied by completing ECON 211, 212, and 24 credits of coursework above the sophomore level. Bachelor of Science majors must complete ECON 405 in addition to 314 and 315.

Minors
A minor field is required of students both in the Bachelor of Arts and the Bachelor of Science degree programs. Economics majors may choose, in consultation with their advisors, any University-approved minor. (See page 80.)

Students who wish to combine the curriculum in Economics with secondary-school teaching should take the degree in Education with a teaching area in Economics. The courses taken will be those required for teaching certification as specified by the South Carolina Department of Education as well as those required for an Economics major.

Combined Bachelor’s/Master’s Plan
The Department of Economics allows students to count up to 12 hours of graduate credit (800-level courses) toward both the bachelor’s and master’s degrees. Students participating in this program must have a minimum grade-point ratio of 3.4 and be admitted to the Graduate School prior to registering for graduate courses. Details of the suggested curriculum and program information are available from the Department of Economics.

FINANCIAL MANAGEMENT

Bachelor of Science

The Bachelor of Science in Financial Management program is designed to develop an understanding of financial markets in the contemporary economy, the operation of financial institutions, and the financial management of business operations. The curriculum prepares students for careers in such areas as banking, corporate financial management, financial planning and services, insurance, and real estate. Governments of all levels also employ finance graduates in many of their divisions. The curriculum also provides excellent preparation for students interested in graduate studies or law school.

The core of the curriculum provides a broad range of subjects with an emphasis on technical and communication skills. Students then have the flexibility to tailor courses to their own needs by choosing emphasis areas that will enhance career preparation in specific areas of finance. Students who complete a specific set of courses are eligible to sit for the certified financial planner (CFP®) examination.

\(^3\)See advisor. Three of these credit hours must also satisfy the General Education Cross-Cultural Awareness Requirement.

GRAPHIC COMMUNICATIONS

Bachelor of Science

The Bachelor of Science degree in Graphic Communications prepares students for professional careers in printing, publishing, and related industries. The core curriculum assures graduates of having the skills and knowledge required by most entry-level jobs. The major requirements allow each student to select courses which enhance career preparation in specific segments of graphic communications. Coursework is heavily oriented around individual laboratory performance which stresses the development of problem-solving skills in a broad cross-section of manufacturing areas. Applications include all major processes and a variety of industry segments, including commercial printing, publishing, package production, specialty printing, and industrial applications of printing technology beyond communications. The most common career opportunities are in printing management, production planning and supervision, and commercial and technical sales.

The Graphic Communications program is designed to be completed in four years (eight semesters and one or two summers). While students must take one internship during a fall or spring semester, one or two summers are typically used to make up for that semester. The department schedules courses in summers for that purpose. Taking a reduced load per term or other circumstances could extend the time to meet graduation requirements.

Policy on Advancement in Graphic Communications

Graphic Communications majors must earn a C or better in prerequisite G C courses before enrolling in the next level G C course. Registration priority is given to those students for whom the course is a requirement.

Change of Major into Graphic Communications

Students who change majors into Graphic Communications after one or more semesters at Clemson must have a 2.0 minimum cumulative grade-point ratio in courses taken at Clemson or must first have earned a B or better in G C 104.

\(^5\)See advisor.
INDUSTRIAL MANAGEMENT

Bachelor of Science

The Bachelor of Science degree in Industrial Management prepares students for management challenges in manufacturing, production planning, inventory control, quality assurance, and service operations. Students receive a broad-based education in business, but particular emphasis is placed on systems, theories, and issues dealing with the production of goods and services. The program is particularly relevant in today’s economic environment, where improvements in productivity and quality are essential to meet the growing challenges of foreign producers. In addition to jobs in manufacturing management, graduates in Industrial Management are sometimes sought for positions as project directors by government agencies and research centers. Financial institutions have found the Industrial Management graduate well prepared for internal operations management as well as for liaison positions dealing with manufacturing companies as bank customers. The Industrial Management program is accredited by AACSB International and has received a special commendation for excellence from the South Carolina Commission on Higher Education.

MANAGEMENT

Bachelor of Science

The Bachelor of Science degree in Management prepares students for careers as professional managers in corporations, governmental organizations, and small businesses. In addition, the program provides a foundation for graduates who wish to pursue advanced degrees in business and public administration, law, and the social sciences.

The curriculum gives students a broad exposure to the functional areas of business and allows each to select an emphasis area in a subject that is germane to individual career interests. The Management curriculum provides an examination of the social, legal, political, and economic environments in which organizations must operate; an understanding of the functional areas of business and their interrelationships; and a knowledge of behavioral science, applied statistics, and mathematics as they relate to organizational problem solving. The program is accredited by AACSB International.

MARKETING

Bachelor of Science

The Bachelor of Science degree program in Marketing develops an understanding of various aspects of marketing. The curriculum prepares students for professional marketing careers in industry, government, or the nonprofit sector. Graduates are also well prepared for entrance into the Master of Business Administration, law, or other graduate programs. For students who want a general perspective of marketing, the curriculum provides a broad range of subjects with the flexibility to tailor courses by choosing areas that will enhance career preparation in various areas of marketing. Subjects include promotional strategy, professional selling, sales management, public and nonprofit marketing, entrepreneurship, marketing research, product management, marketing management, and international marketing. Emphasis areas in services marketing, sport marketing, and technical marketing are available to students who seek to specialize. The marketing curriculum, whether approached from a general or specialized perspective, provides the conceptual, quantitative, and analytical skills necessary to function in a dynamic business environment. The Marketing degree is accredited by AACSB International.

Students wishing to change majors into the Marketing program must have a cumulative grade-point ratio of 3.0 or higher or consent of department chair.

POLITICAL SCIENCE

The Department of Political Science offers two degree programs: a Bachelor of Arts and a Bachelor of Science, each requiring a total of 120 credit hours. Both programs are oriented to a wide range of graduate programs and career opportunities. The Bachelor of Arts program provides broad coverage of the political science discipline and emphasizes communications skills and humanities. The Bachelor of Science program is recommended for those with an aptitude for mathematics and/or an interest in political economy, public administration, public policy, or other fields requiring advanced quantitative skills. Both programs are appropriate for pre-law students and for students interested in global politics. Note that the Bachelor of Arts degree requires at least one course from each of the following fields:

American Government—PO SC 403, 405, 416, 436, 442
Comparative Politics—PO SC 371, 372, 466, 471, 476, 477, 478
International Relations—PO SC 361, 362, 363, 375, 429
Political Theory—PO SC 351, 352, 450, 453
Public Policy and Public Administration—PO SC 302, 321, 421, 423, 424

The student's additional coursework in political science is chosen by the student in consultation with the departmental advisor to ensure an appropriate balance of breadth and specialization within the field of political science. In addition to the courses listed above, the department offers a wide range of specialized courses in each of the subfields of the political science discipline.

Note: No more than three hours credit from PO SC 310, 311, 312, 409, and 410 may be applied toward a Political Science major.

POLITICAL SCIENCE

Bachelor of Science
The requirements for a Bachelor of Science degree in Political Science consist of PO SC 101, 102, or 104, and at least 24 additional credit hours in political science at the 300–400 level, including one upper-level American politics course and one upper-level global politics course.

In consultation with the departmental advisor, students choose one of the following concentrations: American Politics, Global Politics, Political Economy, Public Administration, or Public Policy.

Note: No more than three hours credit from PO SC 310, 311, 312, 409, and 410 may be applied toward a Political Science major.

Freshman Year

### PSYCHOLOGY

Psychology is the study of human and animal behavior and the biological, psychological, and social processes related to that behavior. The Bachelor’s degree in Psychology prepares students for a variety of professional careers related to human resources, personnel, counseling, and other people-oriented positions in human services, business, and industry. Additionally, the Bachelor’s degree provides excellent preparation for graduate training in such areas as clinical, counseling, industrial, experimental, cognitive, social, biological, health, developmental, and school psychology. The program also provides excellent preparation for students who intend to pursue professional training in medicine, physical or occupational therapy, dentistry, pharmacy, veterinary science, or law. Further information is available at www.clemson.edu/psych/.

### Bachelor of Arts

The Bachelor of Arts program requires PSYCH 201, 202, 309, 310, 492, and 19 additional credits in psychology arranged as follows:

- Two courses from the Biological and Cognitive menu: PSYCH 324, 333, 422
- One course from each of the following menus:
  - *Applied*—PSYCH 275, 355, 364, 375, 435, 480, 483, 488
  - *Laboratory*—PSYCH 325, 334, 423, 471, 490, 493, 495, 496, 497, 498

At least six credits must be from 400-level psychology courses, with at least three of those credits from psychology courses numbered between 400 and 489. BIOSC 470 may be taken in lieu of one elective psychology course. Students should consult their advisors for other degree requirements and course recommendations.

- 3 - Minor Requirement
- 3 - Science and Tech. in Society Requirement
- 1 - Elective

**Second Semester**
- 3 - Major Requirement
- 6 - Minor Requirement
- 6 - Elective

120 Total Semester Hours

At least 12 of the total credits must be from 400-level sociology, rural sociology, and/or anthropology courses; no more than nine credit hours may be taken in courses at the 100 or 200 level, except with approval of the department chair. Additional electives are added to meet the minimum of 121 hours required for graduation.

**Substance Abuse Certificate Program**

The Substance Abuse Certificate Program is an interdisciplinary program drawn from courses in sociology, education, health, and psychology. Students study the causes, consequences, prevention, and treatment of substance abuse. They also study delivery systems and policy issues associated with legal and illicit substances. Through field placement, students come face to face with the problem and gain practical experience to prepare them to enter the field of practicing specialists. The credential requires knowledge in theory and treatment of substance abuse problems.

Completion of the Substance Abuse Certificate Program requires ED C 234, PSYCH 379, SOC 380, 390, 414, (R S) 495, plus a related course approved by the certificate program director.

**Bachelor of Arts**

**Freshman Year**
- 1 - SOC 201 Introduction to Sociology

See General Education Requirements. (Note: Social Science Requirement must be in an area other than anthropology or sociology.)

See page 80 for approved minors.

See emphasis area requirements in program description above.

PHIL 323, 325, 327, 355, or 360

Humanities courses numbered 300 or higher (A A H 210, MUSIC 210, THEA 210 excepted). The humanities for this purpose include art and architectural history, communication studies (except 364 and 368), English (except 304, 312, 314, 316, 333, 334, 335, 485, 490, 495), languages, music, philosophy, religion, theatre (except 377, 487, 497), and women’s studies, as well as courses entitled Humanities.

May not be used to fill the 34 credits for the major.
MINORS

Following are minors acceptable for students in the College of Business and Behavioral Science. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

Accounting
Adult/Extension Education
Aerospace Studies
Agricultural Business Management
Agricultural Mechanization and Business
American Sign Language Studies
Animal and Veterinary Sciences
Anthropology
Athletic Leadership
Biochemistry
Bioengineering
Biological Sciences
Business Administration—not open to Accounting, BS Economics, Financial Management, Industrial Management, Management, or Marketing majors
Chemistry
Cluster
Communication Studies
Community Recreation Management
Computer Science
Crop and Soil Environmental Science
East Asian Studies
Economics
Education—not open to Graphic Communications majors
English
Entomology
Entrepreneurship—not open to Accounting, BS Economics, Financial Management, Industrial Management, Management, or Marketing majors
Environmental Engineering
Environmental Science and Policy
Equine Business
Film Studies
Financial Management
Food Science
Forest Products
Forest Resource Management
Genetics
Geography
Geology
Global Politics—not open to Political Science majors
Great Works
Health Science
History
Horticulture
Human Resource Management—not open to Industrial Management or Management majors
Legal Studies
Management—not open to Industrial Management majors
Mathematical Sciences
Microbiology
Military Leadership
Modern Languages
Music
Natural Resource Economics
Nonprofit Leadership
Operations Management—not open to Industrial Management or Management majors
Packaging Science
Pan African Studies
Park and Protected Area Management
Philosophy
Physics
Plant Pathology
Political Science
Psychology
Public Policy—not open to Political Science majors
Religion
Russian Area Studies
Science and Technology in Society
Screenwriting
Sociology
Spanish-American Area Studies
Sport Management
Textiles
Theatre
Therapeutic Recreation
Travel and Tourism
Turfgrass
Urban Forestry
Wildlife and Fisheries Biology
Women’s Studies
Writing

See pages 35–38 for details.
COLLEGE OF ENGINEERING AND SCIENCE

The College of Engineering and Science offers a broad range of rigorous and stimulating baccalaureate programs which provide unexcelled educational opportunities. The innovative combination of engineering and science disciplines which comprises the College facilitates study and research in fields transcending the traditional disciplines. Students enjoy close interaction with a distinguished faculty committed to excellence in undergraduate education as well as in research. Additional information on the College and its programs is available at www.ces.clemson.edu.

Minors

Engineering and science students can complement their majors by selecting minor concentrations of study. Available minors include Bioengineering, Environmental Engineering, International Engineering and Science, one in each of the science majors, and in Textiles. (See page 99.)

International Programs

The world economy has become very tightly integrated, making it highly important that engineering and science students prepare themselves for this global environment. The College offers a minor in International Engineering and Science coupled with several programs that provide opportunities for students to gain international experience. These include study abroad at many locations around the world and EPIC (an international co-op program). In addition, engineering and science students are encouraged to pursue study of a foreign language. Information is available in the Undergraduate Studies Office (107 Riggs Hall) and at www.ces.clemson.edu/global.

ENGINEERING PROGRAMS

The professional Bachelor of Science engineering degrees in Biosystems Engineering, Ceramic and Materials Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Industrial Engineering, and Mechanical Engineering are each accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. The Biosystems Engineering program is administered jointly with the College of Agriculture, Forestry, and Life Sciences.

All engineering programs have the common goal of producing engineering graduates who are able to:

• conduct themselves professionally and ethically
• appreciate engineering's global/societal context
• understand contemporary engineering issues
• apply modern engineering methods and tools
• appreciate the need for life-long learning

Each engineering program has additional objectives specific to the discipline. All prepare students for a wide range of career opportunities and provide sound preparation for graduate study. Each curriculum provides opportunities for students to pursue individual areas of interest.

Admission Requirements

The University admission requirements are given under the section entitled Admission. Engineering applicants are strongly advised to include the following in their high school programs:

Mathematics—Four units, including geometry, trigonometry, and introductory calculus
Laboratory Science—At least three units, including both chemistry and physics
Computing—At least one unit, including introduction to a programming language. Applicants should have good keyboarding skills.

General Engineering Program

All new engineering students (including transfer students who have not completed all courses in the freshman engineering curriculum) are admitted into General Engineering. The General Engineering Program provides students an opportunity to explore various engineering fields while getting a sound academic preparation for engineering study. To prepare students for entry into a specific engineering degree program, the second semester of the curriculum includes a Major Requirement of 6-7 credits. Additional information can be found at www.ces.clemson.edu.

Freshman Curriculum

First Semester

2 - CES 102 Engineering Disciplines and Skills
4 - CH 101 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MTHSC 106 Calculus of One Variable I
4 - Physics 122 Physics with Calculus I
3 - Arts and Humanities Requirement1
3 - Social Science Requirement1
— 16

Second Semester

4 - MTHSC 108 Calculus of One Variable II
3 - PHYS 122 Physics with Calculus I
3 - Arts and Humanities Requirement1
3 - Social Science Requirement1
6-7 - Major Requirement1
16-17

See Policy on Humanities and Social Sciences for Engineering Curricula below.

Admission into Engineering Degree Programs

To transfer into an engineering degree program, a student must have completed each course in the freshman engineering curriculum (including the Major Requirement for the desired major) with a grade of C or better with the exception of the Arts and Humanities/Social Science Requirements. The student must also have a minimum overall grade-point ratio of 2.0 or, in the case of enrollment-limited majors, must have the minimum grade-point ratio specified for that major.

Students should initiate a change-of-major request prior to the registration period during the semester when they expect to complete the freshman curriculum. Students who fail to meet the requirements for admission into a degree program may remain in General Engineering until those requirements are met; however, General Engineering majors are not permitted to take 300- or 400-level engineering courses. Engineering departments may allow General Engineering majors to enroll in selected 200-level engineering courses. This is at the discretion of the department. Students transferring into an engineering degree program will follow the curriculum in effect at the time of transfer.

Electives for Engineering Curricula

Advisors must approve any course taken for elective credit in the Engineering curricula. Courses excluded for elective credit include PHYS 200, 207/209, 208/210.

Registration Requirements

A cumulative grade-point ratio of 2.0 or higher is required for registration in engineering courses numbered 300 or higher. Priority for registration in engineering courses is given to those majors for whom the course is a degree requirement. Exceptions to this requirement may be granted by the department offering the course.

Graduation Requirements

In addition to other institutional requirements, candidates for a baccalaureate degree in Engineering are required to have a 2.0 or higher cumulative grade-point ratio in all engineering courses taken at Clemson. All courses with “Engineering” in the course designator (e.g., ENGR 130, M E 453, etc.) are used in this calculation.
The baccalaureate programs in Engineering are designed to be completed in four years (eight regular semesters). Taking a reduced load or participating in cooperative education will extend this time. On average, Clemson engineering students take about four and one-half years to complete the requirements for graduation.

**BIOENGINEERING**

**Bachelor of Science**
The undergraduate program in Bioengineering is built upon a rigorous engineering science foundation that is, in turn, based upon a broad curriculum of applied and life sciences, mathematics, electives in humanities, social science, and design. Students select a formal focus that concentrates in a subfield of interest in bioengineering: Biomaterials Concentration or Bioelectrical Concentration.

The curriculum provides undergraduates with a solid background in engineering and life sciences in preparation for advanced studies. Through the Bioengineering program, graduates acquire an understanding of biology, biochemistry, and physiology and the capability to apply advanced mathematics including differential equations and statistics, science, and engineering to solve the problems at the interface of engineering and biology. Graduates also have an ability to make measurements on and interpret data from living systems, addressing the problems associated with the interaction between living and nonliving materials and systems.

128 Total Semester Hours

3See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.

2Students planning to enter medical school should take CH 223/227 instead of CH 201 and take CH 224/228 as an additional course sequence.

1Select from department-approved list.

Note: To transfer from General Engineering into the Biotechnology degree program, students must have a minimum cumulative grade-point ratio of 3.0 in courses taken at Clemson and must have earned a C or better in each course in the General Engineering freshman curriculum including the Arts and Humanities/Social Science Requirements.

BIOSYSTEMS ENGINEERING

Bachelor of Science

The principal objective of the Biosystems Engineering program is to educate and prepare students for a wide range of engineering endeavors involving biological entities. Two main areas are supported: engineering for management of natural resources and the environment and engineering for production of value-added products from bioprocessing technologies.

Biosystems engineers work at the interface between engineering and life sciences and must be knowledgeable in both disciplines. In addition to the common objectives of all engineering programs listed on page 81, Biosystems Engineering students should achieve familiarity with both biosystems concentrations, experience an interdisciplinary education, and develop a career goal of professional recognition and licensure.

Students develop specialization in one of two concentrations. The Applied Biotechnology Concentration equips students to apply engineering and biological sciences to problem solving for biological systems and production of value-added bioproducts in a wide range of industries. The Natural Resources and Environment Concentration equips students to apply engineering, agricultural, and environmental sciences to assess and control the impact of human activities on the biosphere.

Students are urged to complete a minor and participate in the Cooperative Education, Biosystems Engineering Intern, and/or Study Abroad Programs. Those interested in medical careers should consider graduate study and/or medical school.

Additional information is available from the departmental offices or at www.clemson.edu/agbio/engbio/home.htm.

Combined Bachelor of Science in Biosystems Engineering/Master of Science in Bioengineering

Under this plan, students in Biosystems Engineering may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements. See Academic Regulations in this catalog for enrollment guidelines and procedures.

Students in the Applied Biotechnology Concentration may apply graduate credits toward a Master of Science Degree in Bioengineering while pursuing a Bachelor of Science Degree in Biosystems Engineering. Students are encouraged to obtain the specific requirements for the dual degree from the Department of Biosystems Engineering or Bioengineering as early as possible in their undergraduate program.

APPLIED BIOTECHNOLOGY CONCENTRATION

Freshman Year

First Semester
2 - CES 102 Engineering Disciplines and Skills
4 - CH 101 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MTHSC 106 Calculus of One Variable I
3 - Arts and Humanities Requirement or 3 - Social Science Requirement
16

Second Semester
4 - CH 102 General Chemistry
2 - ENGR 130 Engineering Fundamentals
4 - MTHSC 108 Calculus of One Variable II
3 - PHYS 102 Physics with Calculus I
3 - Arts and Humanities Requirement or 3 - Social Science Requirement
16

Sophomore Year

First Semester
2 - B E 210 Intro. to Biosystems Engineering
4 - MTHSC 206 Calculus of Several Variables
3 - PHYS 221 Physics with Calculus II
4 - Biology Requirement or 3 - Statics Requirement
16

Second Semester
2 - B E 212 Fundamentals of Biosystems Engr.
2 - E G 209 Intro. to Engr./Computer Graphics
3 - M E 310 Thermodynamics and Heat Transfer or 3 - CH E 220 Chem. Engr. Thermodynamics I
4 - MICRO 305 General Microbiology
4 - MTHSC 208 Intro. to Ordinary Diff. Equations 2 - Dynamics Requirement
17

Junior Year

First Semester
3 - B E 312 Biol. Kinetics and Reactor Modeling
4 - C E 341 Introduction to Fluid Mechanics or 4 - CH E 230 Fluids/Heat Transfer
2 - E C E 307 Basic Electrical Engineering
3 - Mechanics of Materials Requirement
4 - Organic Chemistry Requirement
16

Second Semester
3 - B E 314 Biosystems Engr. Mechanical Design or 3 - M E 306 Fundamentals of Machine Design
3 - B E 412 Heat and Mass Transport in B E
4 - B E 415 Instrumentation and Control for Biosystems Engineers
3 - B E (CH E) 428 Biochemical Engineering
4 - Biochemistry Requirement
17

Senior Year

First Semester
3 - B E 414 Biosystems Engr. Unit Operations
3 - B E 438 Bioprocess Engineering Design
2 - B E 474 Biosystems Engr. Design/Project Mgt.
3 - Arts and Humanities Requirement or 3 - Social Science Requirement
16

Second Semester
3 - B E 435 Appl. in Biotechnology Engineering
2 - B E 475 Biosystems Engr. Capstone Design
3 - Arts and Humanities Requirement or 3 - Social Science Requirement
13

128 Total Semester Hours

1See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.

2See advisor. Select from department-approved list.

3CH 223 and 227 (preferred) or CH 201
4BIOCH 301/302 or 305/306
5MICRO 413 or any approved 300–400-level course in BIOCH, BIOSC, GEN, or MICRO

Notes:
1. Biosystems Engineering students are allowed to enroll in upper-level B E courses only when the following prerequisites have been completed with C or better: C E 206, 208, 341, CHE 220, 230, E M 201, 202, M E 201, 302, 310, MTHSC 206, 208, PHYS 221.
2. Students accepted to a combined BS/MS program must take 600-level instead of 400-level courses for Life Science and Engineering Requirements.
3. To complete premedicine requirements, students must take BIOL 104/106 or 111, CH 224, 228, and PHYS 124, 223 as additional courses.
NATURAL RESOURCES AND ENVIRONMENTAL CONCENTRATION

Freshman Year
First Semester
2 - CES 102 Engineering Disciplines and Skills
4 - CH 101 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MTHSC 106 Calculus of One Variable I
3 - Arts and Humanities Requirement1 or
3 - Social Science Requirement1

Second Semester
4 - CH 102 General Chemistry
2 - ENGR 130 Engineering Fundamentals
4 - MTHSC 108 Calculus of One Variable II
3 - PHYS 122 Physics with Calculus I
3 - Arts and Humanities Requirement1 or
3 - Social Science Requirement1

Sophomore Year
First Semester
2 - B E 210 Intro. to Biosystems Engineering
2 - B E 222 Geomeasurements
4 - MTHSC 206 Calculus of Several Variables
3 - PHYS 221 Physics with Calculus II
4 - Biology Requirement2
3 - Statics Requirement2

Second Semester
2 - B E 212 Fundamentals of Biosystems Engr.
2 - E G 209 Intro. to Engr./Comp. Graphics
3 - M E 310 Thermodynamics and Heat Transfer
4 - MICRO 205 General Microbiology
4 - MTHSC 208 Intro. to Ordinary Diff. Equations
2 - Dynamics Requirement2

Junior Year
First Semester
3 - B E 312 Biol. Kinetics and Reactor Modeling
4 - C E 321 Geotechnical Engineering or
4 - CSENV 202 Soils
4 - C E 341 Introduction to Fluid Mechanics
2 - E C E 307 Basic Electrical Engineering
3 - Mechanics of Materials Requirement2

Second Semester
3 - B E 314 Biosystems Engr. Mechanical Design or
3 - M E 306 Fundamentals of Machine Design
3 - B E 322 Small Watershed Hydrology and
3 - B E 412 Heat and Mass Transport in B E
4 - B E 415 Instrumentation and Control for B E
3 - Structural Design Requirement2

Senior Year
First Semester
3 - B E 414 Biosystems Engr. Unit Operations
3 - B E 464 Non-Point Source Mgt. in Eng., Ecosys.
2 - B E 474 Biosystems Engr. Design/Project Mgt.
6 - Arts and Humanities Requirement1 or
6 - Social Science Requirement1 or
3 - Engineering Requirement2

Second Semester
2 - B E 421 Engineering Syst. for Soil Water Mgt.
2 - B E 475 Biosystems Engr. Capstone Design
3 - Arts and Humanities Requirement1 or
3 - Social Science Requirement1
3 - Engineering Requirement2
2 - Elective
12
128 Total Semester Hours

Notes:
1. Biosystems Engineering students are allowed to enroll in upper-level B E courses only when the following prerequisites have been completed with C or better: C E 206, 208, 341, C H 210, 230, 231, M E 201, 202, M C E 202, MTHSC 206, 208, PHYS 221.
2. Students accepted to a combined BS/MS program must take 600-level instead of 400-level courses for Engineering Requirements.

CERAMIC AND MATERIALS ENGINEERING
Bachelor of Science
The School of Materials Science and Engineering offers undergraduate degrees in Ceramic and Materials Engineering, Polymer and Fiber Chemistry, and Textile Management.

Ceramic and materials engineers design, develop, and participate in the manufacture of both standard and new materials intended for use in a wide variety of industries with diverse applications. These range from the semiconductor to the aerospace and finally to the traditional ceramics industry. The broad scope of industrial responsibilities handled by ceramic and materials engineers requires knowledge in mathematics, science, engineering, and the social sciences, skills in problem solving, engineering analysis, design, and written and oral communication.

The baccalaureate program integrates laboratory with classroom experiences to prepare students for life-long learning. Courses covering thermodynamics, kinetics, mechanical behavior, processing, and characterization of materials prepare students for careers in industry and/or for graduate school.

In addition to the common educational objectives of all engineering programs, baccalaureate degree graduates in Ceramic and Materials Engineering will be able to
- demonstrate learning consistent with Accreditation Board for Engineering and Technology Engineering Criteria 2000 for ceramic and materials engineering programs
- function easily and well in the laboratory and plant environments and
- serve the local, national, and international ceramic and materials communities

Specifically, the Accreditation Board for Engineering and Technology Engineering Criteria 2000 requires that baccalaureate degree graduates in Ceramic and Materials Engineering be able to
- apply advanced scientific and engineering principles to ceramic and materials engineering systems
- demonstrate an integrated understanding of the scientific and engineering principles underlying structure, properties, processing, and performance relationships
- apply this understanding to the solution of ceramic and materials engineering selection and design problems and
- apply appropriate experimental, statistical, and computational methods to advantage in the solution of ceramic and materials problems

Freshman Year
First Semester
2 - CES 102 Engineering Disciplines and Skills
4 - CH 101 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MTHSC 106 Calculus of One Variable I
3 - Arts and Humanities Requirement1 or
3 - Social Science Requirement1

3 - C M E 327 Transport Phenomena
3 - COMM 250 Public Speaking
3 - ENGL 314 Technical Writing

84
The Department of Chemical and Biomolecular Engineering offers the Bachelor of Science degree in Chemical Engineering. Chemical Engineering is based on chemistry, biology, physics, and mathematics. The curriculum at Clemson includes classroom and laboratory instruction and emphasizes broadly medical and health-related problems. Remediation and apply engineering science to solve consumer goods, and many other products. They manufacture, sales, and use of commodity and specialty chemicals, fuels, pharmaceuticals, electronic components, synthetic fibers and textiles, food and consumer goods, and many other products. They work on environmental pollution prevention and remediation and apply engineering science to solve medical and health-related problems.

The Department of Chemical and Biomolecular Engineering also offers advanced study leading to the Master of Science and Doctor of Philosophy degrees. Additional information is available at www.ces.clemson.edu/chemeng.

127 Total Semester Hours

### CHEMICAL ENGINEERING

**Bachelor of Science**

The Department of Chemical and Biomolecular Engineering offers the Bachelor of Science degree in Chemical Engineering. Chemical Engineering is based on chemistry, biology, physics, and mathematics. The curriculum at Clemson includes classroom and laboratory instruction and emphasizes broadly medical and health-related problems.

Chemical engineers are involved in the research, manufacture, sales, and use of commodity and specialty chemicals, fuels, pharmaceuticals, electronic components, synthetic fibers and textiles, food and consumer goods, and many other products. They work on environmental pollution prevention and remediation and apply engineering science to solve medical and health-related problems.

CIVIL ENGINEERING

**Bachelor of Science**

Civil Engineering involves the planning, design, construction management, operation, and maintenance of facilities and systems in the built environment including bridges, buildings, airports, water supply systems, ports, dams, and highways.

The Civil Engineering program leads to the Bachelor of Science degree in Civil Engineering and includes the common educational goals listed on page 81 for the College of Engineering and Science. (The complete objectives of the program can be found at www.ces.clemson.edu.) The first two years provide students with building blocks necessary to be successful civil engineers, including proficiency in calculus, engineering mechanics, physics, and chemistry. During the junior year, students receive a broad introduction to the fundamental areas of civil engineering (structures, hydraulics, geotechnical, transportation, environmental, construction materials, and construction engineering and management). Design experiences are integrated throughout the curriculum, culminating in the senior year with a major capstone design project. In addition, during the senior year, students can select from available emphasis areas which serve to strengthen their undergraduate background.

The Civil Engineering program prepares students to work immediately upon graduation in most areas of civil engineering or to pursue graduate degrees. Students are also exposed to issues related to professional practice, including professional registration, life-long learning, and communica-
tion and team skills. Because a concerned society demands a realistic consideration of the impacts of engineering projects, civil engineering students are also educated in the broad areas of the humanities and social sciences.

The Department of Civil Engineering allows eligible students to count up to six hours of graduate credit (600- and 800-level courses) toward both the bachelor’s and master’s degrees. Students participating in this program must have completed the junior year, must have earned a minimum 3.4 grade-point ratio, and must be approved by the department. Details of the suggested curriculum and program information are available from the department.

**Computer Engineering**

**Bachelor of Science**

Computer engineers have excellent career opportunities in the design and application of hardware and software components for a variety of computer applications. These include mainframe, desktop, and embedded microprocessor platforms as well as the networking of various types of computers and peripherals.

Based on a strong foundation in mathematics, computer science, and the physical sciences, the Computer Engineering program includes engineering science and design in circuits, electronics, computer organizations and design, peripheral interfacing, and software engineering. Emphasis is placed on hands-on experience with networked computer systems, micro-, mini-, and mainframe computers, and the solution of a wide range of practical problems, using engineering principles. In addition to these technical skills, students learn to communicate effectively and to develop interpersonal, teamwork, and management skills, all of which contribute to success in a professional engineering career. The program is also an excellent preparation for graduate study.

Information on the program and its objectives is available at [www.ece.clemson.edu/ece/index.shtml](http://www.ece.clemson.edu/ece/index.shtml).

3 - Arts and Humanities Requirement1 or 6 - Social Science Requirement1
9 - Computer Engineering Technical Requirement2
3 - Oral Communication Requirement3
15
Second Semester
3 - ECE 453 Software Practicum
6 - Arts and Humanities Requirement1 or 6 - Social Science Requirement1
6 - Computer Engineering Depth Technical Requirement2
15
127 Total Semester Hours

1See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.
2Select from department-approved list.
3See General Education Requirements.

Notes:
1. A student is allowed to enroll in ECE courses (excluding ECE 307, 308, 309) only when all prerequisites have been passed with a grade of C or better.
2. All Computer Engineering students must have a cumulative engineering grade-point ratio of 2.0 to enroll in any 300- or 400-level ECE course.
3. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any ECE course.

ELECTRICAL ENGINEERING

Bachelor of Science
Electrical engineers are in high demand for a wide range of influential positions. Professional duties range from analytical problem solving to the design of components and systems. The scope of employment requires a unique breadth and depth of knowledge and technical skills, which are reflected in the Electrical Engineering program. This program also offers an excellent preparation for graduate education. Detailed information can be found at www.ece.clemson.edu/ece/index.shtml.

Building on a foundation of mathematical and physical sciences, students progress into the application of these in the engineering science areas of circuits, electronics, communications, controls, power, and electromagnetics. In these subjects, students also begin to apply the concepts and techniques learned to the design of circuits and systems. Senior technical design courses offer the opportunity to further develop expertise in a selected area.

In addition to these technical skills, students learn to communicate effectively, both orally and with the written word. Because engineers work for the benefit of society, the curriculum includes a strong component of humanities and social science courses. Also, many project design assignments enable the development of interpersonal, teamwork, and management skills which are necessary for success in a professional engineering career.

Freshman Year
First Semester
2 - CES 102 Engineering Disciplines and Skills
4 - CH 101 General Chemistry
3 - ENGL 103 Accelerated Composition
4 - MTHSC 106 Calculus of One Variable I
3 - Arts and Humanities Requirement1 or 3 - Social Science Requirement1
3 - Social Science Requirement1
16
Second Semester
4 - CH 102 General Chemistry
3 - CP SC 111 Elementary Computer Programming in C/C++
4 - MTHSC 108 Calculus of One Variable II
3 - PHYS 122 Physics with Calculus I
3 - Arts and Humanities Requirement1 or 3 - Social Science Requirement1
17
Sophomore Year
First Semester
3 - ECE 201 Logic and Computing Devices
3 - ECE 202 Electric Circuits I
1 - ECE 211 Electrical Engineering Lab. I

3 - Arts and Humanities Requirement1 or 3 - Social Science Requirement1 or 3 - Technical Requirement (ECE)2
3 - Technical Requirement Depth (ECE)1
14
126 Total Semester Hours

1See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.
2Select from department-approved list.
3Students may enroll in ECE 222 for a common semester with Computer Engineering. Those not selecting this option should complete the Technical Requirement (ECE) in the senior year.
4See General Education Requirements.

Notes:
1. A student is allowed to enroll in ECE courses (excluding ECE 307, 308, 309) only when all prerequisites have been passed with a grade of C or better.
2. All Electrical Engineering students must have a cumulative engineering grade-point ratio of 2.0 to enroll in any 300- or 400-level ECE courses.
3. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any ECE course.

INDUSTRIAL ENGINEERING

 Bachelor of Science
Industrial engineers design, install, and improve the complex systems that provide goods and services vital to our society and economy. These systems place unique demands for breadth of preparation on industrial engineers. Baccalaureate degree graduates demonstrate the ability to design, develop, implement, and improve integrated systems that include people, materials, information, equipment, and energy. Graduates will demonstrate the ability to apply the principles and techniques of industrial engineering analysis and design supported by a foundation in mathematical, physical and social sciences, and economic, operational, and engineering analyses. Graduates will possess a breadth of knowledge that allows them to practice industrial engineering with an appropriate awareness of information issues in systems improvement. In addition, graduates are able to work and communicate effectively with colleagues at every level in the organization.

The traditional arenas for the practice of industrial engineering are the manufacturing facilities of industry; however, many practicing industrial engineers are employed in non-manufacturing institutions such as hospitals, banks, and government agencies. In addition to numerous employment opportunities in professional practice, industrial engineering graduates may further their formal education. The Department of Industrial Engineering offers programs leading to the Master of Science and Doctor of Philosophy degrees.

The Department of Industrial Engineering allows students to count up to 12 hours of graduate credit (approved 600- and 800-level courses) toward both the bachelor’s and master’s degrees. Students par-
ticipating in this program must have a minimum grade-point ratio of 3.4 and be admitted to the Graduate School prior to registering for graduate courses. Details of the suggested curriculum and program information are available from the Industrial Engineering Department.

Detailed curriculum and department information is available at www.ces.clemson.edu/ie.

Freshman Year
First Semester

3 - Social Science Requirement
3 - Technical Requirement
15
128 Total Semester Hours

1See policy on Humanities and Social Sciences for Engineering curricula.
2Students may take PHYS 223 in the sophomore year in lieu of PHYS 124.
3E G 208 may be substituted.
4Select from department-approved list.

MECHANICAL ENGINEERING

Bachelor of Science

Breadth, individuality, and flexibility are inherent characteristics of the mechanical engineering profession. Mechanical engineers, in a broad sense, make major contributions to the creation of products and systems that benefit mankind. They work in a variety of areas including bioengineering, energy systems, environmental and life-support systems, propulsion and transportation systems, food production, materials processing, automated manufacturing, and construction. A wide spectrum of career opportunities is open to them. The practice of mechanical engineers includes one or more of the following activities: manufacturing, testing, research, development, design, technical management, technical sales and marketing, construction, and teaching.

Preparation for a 40–45-year professional career requires development of the whole person through a balanced program encompassing the humanities, social sciences, communication and computer skills, physical and engineering sciences, design, and laboratory experience. Students start with the physical sciences and communication skills and progress through the engineering sciences, ultimately applying the principles learned in such areas as energy conversion and transfer, mechanical design, and systems analysis. Throughout the curriculum, the fundamental nature of engineering as a problem-solving discipline is emphasized.

Most graduates take positions in industry, government, or business. Many, however, continue their formal education in a graduate program. The Department of Mechanical Engineering offers study leading to the Master of Science and Doctor of Philosophy degrees.

Mechanical Engineering students who have a cumulative grade-point ratio or cumulative engineering grade-point ratio below 2.0 are on probation and will have restricted enrollment in classes. Students whose cumulative grade-point ratio is below 2.0 are subject to the regulations stipulated under Continuing Enrollment Policy. Students on probation for EGPR below 2.0 who fail to recover in the first regular semester (fall or spring) will not be allowed to register for mechanical engineering classes. After one year, such students may petition the Mechanical Engineering Department for continued enrollment. An advising policy for students on probation is available from the Mechanical Engineering Department.

Additional information can be found at www.ces.clemson.edu/me.

124–126 Total Semester Hours

3See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.

3See advisor. Select from department-approved list.

Note: A student is allowed to enroll in any M E course only when all prerequisites, as defined by current official listings for that course, have been passed with a grade of C or higher.

SCIENCE PROGRAMS

The College offers curricula leading to the Bachelor of Science in Chemistry, Computer Information Systems, Computer Science, Geology, Mathematical Sciences, Physics, Polymer and Fiber Chemistry, and Textile Management. The Bachelor of Arts is offered in Chemistry, Computer Science, Geology, Mathematical Sciences, and Physics.

The science departments in the College work closely with the other academic departments in the University, including such disciplines as economics and management as well as engineering. This allows students in the sciences great flexibility and responsibility in designing their own programs.

Bachelor of Science Curricula

The Bachelor of Science degree prepares graduates for professional employment or graduate study in the chosen science discipline. BS curricula are more highly structured than BA curricula but nonetheless offer opportunity for students to pursue a minor or secondary area of interest.

Bachelor of Arts Curricula

The curricula leading to the Bachelor of Arts degree are designed to meet the needs of students who desire a broad general education. They require a minor (or a second major) as well as the major concentration. A major requires a minimum of 24 credits from courses above the sophomore level including or in addition to courses specified by the major department. In some major disciplines, certain prescribed courses at the sophomore level are counted toward the 24-credit requirement.

Students have a large degree of flexibility and responsibility in selecting a minor area from those listed on page 99. Courses for these minors are to be selected in consultation with the appropriate department.

CHEMISTRY

Bachelor of Science

Chemistry, an experimental discipline based on observation guided by molecular theory, is of fundamental importance in much of modern science and technology. Its molecular concepts form the basis for ideas about complex material behavior. Due to the fundamental nature and extensive application of chemistry, an unusually large variety of challenging opportunities to contribute in the science-oriented community are open to students whose education is built around the principles of this discipline.

The Chemistry curriculum, through the career requirement options and the large number of electives, provides students the opportunity to select a coherent program of study beyond the basic courses. Career requirement options are provided for students anticipating graduate study in chemistry or related fields; employment following the BS degree in laboratory, production, technical sales, or management positions; professional studies (e.g., patent law and technical writing). Significant features of the curriculum are the student’s extensive participation in experimental work and the opportunity to take part in a research investigation during the junior and senior years.

COMPUTER INFORMATION SYSTEMS
Bachelor of Science
The Computer Information Systems degree program is oriented toward computer applications in management-related problems. The program emphasizes functional areas of management including accounting, production, marketing, and finance and the applications of computers in these areas. The curriculum is designed to prepare students for careers in areas such as systems design and analysis, applications programming, database administration and information retrieval as well as for continued study toward an advanced degree.

Students who change majors into Computer Information Systems must have a cumulative grade-point ratio of 2.0 or higher.

Additional information can be found at www.cs.clemson.edu.

122 Total Semester Hours

See General Education Requirements.

Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.

Select from courses in A A H, ANTH, ART, CHIN, COMM, DANCE, E A S, ECON, ENGL, FR, GEOG, GER, HIST, HUM, ITAL, JAPN, MUSIC, P A, P A S, PHIL, PO SC, PSYCH, REL, RUSS, SOC, SPAN, THEA, W S.

Select from one of the following sequences: BIOL 103/105, 104/106; 110, 111; CH 101, 102; 105, 106; PHYS 122/124, 221/223; 307/309, 308/310.

CP SC H395 may be substituted.

FIN 306, MGT 390, or 400

Select from 300-400 level CP SC courses.

MGT 452, 454, 455, 456, or 400-level CP SC course

Notes:
1. For graduation, a candidate for the BS degree in Computer Information Systems must have earned a grade of C or better in each CP SC course applied to the degree.
2. A grade of C or better must be earned in all prerequisite courses (including CP SC and MTHSC courses) before enrolling in the next CP SC course.
# COMPUTER SCIENCE

## Bachelor of Science

The Computer Science program is oriented toward design, implementation, and application of software systems to solve information processing problems. Emphasis areas outside computer science allow students to tailor the program to their individual needs and interests. This program is more technically oriented than the Computer Information Systems curriculum. It prepares students for employment in the computer software field or for continued study toward an advanced degree in computer science. This program is accredited by the Computing Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). Additional information can be found at [www.cs.clemson.edu](http://www.cs.clemson.edu).

Students who change majors into Computer Science must have a cumulative grade-point ratio of 2.0 or higher.

## Combined Bachelor's/Master's Plan

The School of Computing allows students to count up to nine hours of graduate credit (600- and 800-level courses) toward both the bachelor's and master's degrees. Students participating in this program must have a minimum grade-point ratio of 3.4 and be admitted to the Graduate School prior to registering for graduate courses. Details of the suggested curriculum and program information are available from the Department.

## Bachelor of Arts

The Bachelor of Arts in Computer Science is ideal for students interested in acquiring a broad-based liberal arts education that includes a strong and solid understanding of computer science. The curriculum is oriented toward design, implementation, and application of computer software systems to solve information processing problems. The program prepares students for employment in the computer software field or for continued study toward an advanced degree in computer science. Additional information can be found at [www.cs.clemson.edu](http://www.cs.clemson.edu).

Students who change majors into Computer Science must have a cumulative grade-point ratio of 2.0 or higher.

## Freshman Year

### First Semester
- CP SC 101 Computer Science I
- ENGL 103 Accelerated Composition
- MTHSC 106 Calculus of One Variable I
- Foreign Language Requirement

15

### Second Semester
- CP SC 102 Computer Science II
- MTHSC 108 Calculus of One Variable II
- MTHSC 119 Introduction to Discrete Methods
- Foreign Language Requirement

15

## Sophomore Year

### First Semester
- CP SC 212 Algorithms and Data Structures
- Arts and Humanities (Literature) Requirement
- Foreign Language Requirement

17

### Second Semester
- CP SC 215 Tools and Tech. for Software Dev.
- CP SC 231 Intro. to Computer Organization
- CP SC 291 Seminar in Professional Issues I
- Foreign Language Requirement

15

### Junior Year

### First Semester
- Computer Science Requirement
- Mathematical Sciences Requirement
- Minor Requirement
- Social Science Requirement

15

### Second Semester
- Advanced Writing Requirement
- Arts and Humanities (Non-Lit.) Requirement
- Computer Science Requirement
- Minor Requirement

15
Senior Year
First Semester
6 - Computer Science Requirement
3 - Departmental Humanities Requirement
3 - Minor Requirement
3 - Social Science Requirement
15
Second Semester
1 - CP SC 491 Seminar in Professional Issues II
3 - Computer Science Requirement
3 - Fine Arts Requirement
3 - Minor Requirement
5 - Elective
15
122 Total Semester Hours

1Four semesters (through 202) in the same modern foreign language are required.
2See General Education Requirements.
3Eight credit hours, including labs, in the same science selected from BIOL 101/103, 104/106, 110, 111; CH 101, 102, 105, 106; GEOL 101, 103; 102 or 112, 114; PHYS 122/124, 221/223; 207/209, 208/210
4Select from CP SC courses numbered 300 or higher.
5Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.
6Select from courses in A A H, ANTH, ART, CHIN, DANCE, ENGL, FR, GER, HUM, ITAL, JAPN, MUSIC, P A, PHIL, REL, RUSS, SPAN, THEA.
7CP SC H195 may be substituted.
8MUSIC 210 or any course in A A H, ART, or THEA

Notes:
1. For graduation, a candidate for the BA degree in Computer Science must have earned a grade of C or better in each CP SC course applied to the degree.
2. A grade of C or better must be earned in all prerequisite courses (including CP SC and MTHSC courses) before enrolling in the next CP SC course.

GEOLOGY
Bachelor of Science

Geology and biogeochemical environmental science involve the physics and chemistry of materials which comprise the earth, as well as the development and influence of life on earth and the environmental systems and processes involved. The chemical, physical, and biological responses to environments on and in the earth must be thoroughly understood, and sustainable approaches to natural resources developed. We depend on many geological resources, for example, water from ground and surface systems, metals from minerals, and power from coal, petroleum, and radioactive minerals. Geology integrates the science and engineering principles used for understanding and managing these geological and environmental systems. The Geology curriculum is built around three themes in geology and environmental science: appreciation for spatial and temporal scales, knowledge of earth materials and compositions of environmental systems, and understanding geological and environmental processes. The Bachelor of Science degree can be earned in traditional geology or with a concentration in Hydrogeology or Environmental Science. All majors participate in an interdisciplinary problem-oriented group research sequence and capstone course.

Employment opportunities for geologists and environmental scientists are numerous and varied. Included are such far-reaching fields as environmental and engineering consulting firms, mineral-producing industries, railroads, municipalities, natural resources conservation organizations, and water authorities. Many students go on to graduate study. It is important, therefore, that a geology or biogeochemical environmental science education develop a broad and rigorous base integrating a variety of descriptive and quantitative material.

The “traditional” curriculum provides the fundamentals of geology and excellent support in basic sciences. Graduates are prepared for employment or for graduate study in any field of geology. The Environmental Science Concentration provides an appropriate quantitative science base for students interested in environmental science and an introduction to environmental systems. It prepares students for careers in natural resources, the environmental consulting industry, government agencies or graduate school in environmental fields. The Hydrogeology Concentration is taken by students interested in surface and groundwater systems and applying engineering principles to geologic problems. Graduates from the Hydrogeology Concentration will enter consulting companies, government agencies, and in the natural resources area or go on to graduate study.

Freshman Year
First Semester
4 - ENGL 103 Accelerated Composition
3 - GEOL 101 Physical Geology
1 - GEOL 103 Physical Geology Lab.
4 - MTHSC 106 Calculus of One Variable I
15

MATHEMATICAL SCIENCES

Bachelor of Science

The Mathematical Sciences curriculum is designed to be versatile. Students gain a broad knowledge of mathematical concepts and methods that are applicable in sciences, engineering, business, industry, and other professions requiring a strong mathematical background. In addition to the basic courses which provide necessary mathematical skills, the curriculum allows students to select an emphasis area or concentration, providing an introduction to a specific area where mathematics is used. These are Abstract Mathematics, Actuarial Science/Financial Mathematics, Applied and Computational Mathematics, Biology, Computer Science, Operations Research/Management Science, and Statistics.

In addition to the overall goal of preparing students to cope with a variety of mathematical problems, the curriculum seeks to provide an adequate background for students who plan to pursue graduate study or positions in business, industry, or government. Students electing the Biology Concentration will have the necessary preparation for entering medical school. More information about the degree program can be found at www.math.clemson.edu.

All mathematical sciences majors are required to complete a capstone experience which provides an opportunity to pursue research, independent study, or an approved internship under the direction of a faculty member or the opportunity to study mathematical models in some area of the mathematical sciences. The capstone experience requires a written report (thesis, computer code, project description, intern experience, etc.) and an oral or poster presentation by each student.

Combined Bachelor's/Master's Plan

Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements. Students are encouraged to obtain the specific requirements for pursuing the dual degree from the Department of Mathematical Sciences (www.math.clemson.edu) as early as possible in their undergraduate program. Enrollment guidelines and procedures can be found under Academic Regulations in this catalog.

Freshman Year
First Semester
3 - ENGL 103 Accelerated Composition
4 - MTHSC 106 Calculus of One Variable I
3 - Arts and Humanities (Non-Lit.) Requirement
3 - Foreign Language Requirement

Second Semester
4 - MTHSC 108 Calculus of One Variable II
PHYS 122 Physics with Calculus I
Computer Science Requirement
Social Science Requirement

Sophomore Year
First Semester
4 - MTHSC 206 Calculus of Several Variables
MTHSC 320 Intro to Mathematical Sciences
MTHSC 311 Linear Algebra
MTHSC 360 Intermediate Math. Computing
Natural Science Requirement

Second Semester
4 - MTHSC 208 Intro. to Ordinary Diff. Equations
MTHSC 302 Statistics for Science and Engr.
Arts and Humanities (Literature) Requirement
Natural Science Requirement
Elective

Junior Year

1See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
2Three credits in any foreign language, including American Sign Language, numbered 102 or above
3Spanish is recommended. Two years (through 202) in the same foreign language are required.
4See advisor.
5Any 100- or 400-level geology course
6Select from department-approved list.

EMPHASIS AREAS

Abstract Mathematics
6 - Abstract Mathematics Requirement
6 - Mathematical Sciences Requirement

Actuarial Science/Financial Mathematics
3 - FIN 312 Financial Management
3 - MTHSC 403 Intro. to Statistical Theory
3 - MTHSC 407 Regression and Time-Series Analysis
3 - MTHSC 431 Theory of Interest

Applied and Computational Mathematics
3 - MTHSC 434 Advanced Engineering Math.
3 - MTHSC 460 Intro. to Numerical Analysis
6 - Applications Area
### Computer Science
- 3 - CP SC 215 Tools and Tech. for Software Dev.
- 9 - Computer Science 300-Level Requirement
  
### Operations Research/Management Science
- 4 - I E 482 Systems Modeling or
  - 3 - I E 384 Engineering Economic Analysis
- 3 - MGT 402 Operations Planning and Control
- 3 - MTHSC 407 Regress. and Time-Ser. Analysis
- 3 - MTHSC 441 Intro. to Stochastic Models

### Statistics
- 3 - MTHSC 403 Intro. to Statistical Theory
- 3 - MTHSC 405 Statistical Theory and Meth. II
- 3 - MTHSC 406 Sampling Theory and Methods
- 3 - MTHSC 407 Regress. and Time-Ser. Analysis

### Biology Concentration

#### Freshman Year

**First Semester**
- 5 - BIOL 110 Principles of Biology I
- 3 - ENGL 103 Accelerated Composition
- 4 - MTHSC 106 Calculus of One Variable I
- 3 - Foreign Language Requirement
  
**Second Semester**
- 5 - BIOL 111 Principles of Biology II
- 4 - MTHSC 108 Calculus of One Variable II
- 3 - MTHSC 129 Prob. Solving in Discrete Math.
- 3 - Computer Science Requirement

#### Sophomore Year

**First Semester**
- 4 - CH 101 General Chemistry
- 3 - ECON 200 Economic Concepts or
  - 3 - ECON 211 Principles of Microeconomics
- 3 - ENGL 314 Technical Writing
- 3 - MTHSC 360 Intermediate Math. Computing
- 3 - MTHSC 440 Linear Programming

THE UNIVERSITY OF SOUTH CAROLINA
College of Engineering and Science

PHYSICS
Bachelor of Science

Physics, the most fundamental of the natural sciences, forms the basis of study upon which the other branches of science are founded. Physics is concerned with the fundamental behavior of matter and energy. Classical physics encompasses the fields of mechanics, heat and thermodynamics, electricity and magnetism, acoustics and optics. Modern physics is concerned with the study of atoms and molecules, atomic nuclei, elementary particles and the properties of liquids, crystalline solids, and other materials, as well as the areas of relativity, cosmology, and the large-scale structure of the universe.

The undergraduate Physics curricula provide students with a strong background in the classical areas of physics as well as an introduction into the more important aspects of modern physics. The BS curriculum is directed toward preparing students for graduate study ultimately leading to the PhD degree or toward research and development work in industrial or governmental laboratories. It also provides a good background for graduate study or industrial work in many areas or engineering physics and applied science.

Freshman Year
First Semester
1. ASTR 105 Physics of the Universe
2. CH 101 General Chemistry
3. ENGL 103 Accelerated Composition
4. MTHSC 106 Calculus of One Variable I

Second Semester
1. PHYS 101 Current Topics in Modern Physics
2. PHYS 102 General Chemistry
3. PHYS 122 Physics with Calculus I
4. PHYS 124 Physics Lab. I

Sophomore Year
First Semester
1. MTHSC 206 Calculus of Several Variables
2. PHYS 221 Physics with Calculus II
3. PHYS 223 Physics Lab. II
4. Foreign Language Requirement2
5. Oral Communication Requirement1

Second Semester
1. MTHSC 208 Intro. to Ordinary Diff. Equations
2. PHYS 222 Physics with Calculus III.
3. PHYS 224 Physics Lab. III
4. Foreign Language Requirement2
5. Social Science Requirement1

Junior Year
First Semester
1. PHYS 311 Intro. to Meth. of Theoretical Phys.
2. PHYS 322 Methods of Theoretical Physics II
3. PHYS 322 Mechanics II

Second Semester
1. HIST 172 or 173 Western Civilization
2. PHYS 456 Quantum Physics II
4. Arts and Humanities (Literature) Requirement1
5. Emphasis Area Requirement4

BIOPHYSICS CONCENTRATION
The Biophysics Concentration offers an excellent preparation for medical school or graduate work in biological sciences. It includes the flexibility of selecting courses in chemistry, biological sciences, physics, and mathematics. This concentration also provides the necessary background for employment in industry, manufacturing, and instrumentation for clinical or molecular biology applications.
Second Semester
- PHYS 300 Introduction to Research
- PHYS 312 Methods of Theoretical Physics II
- PHYS 322 Mechanics II
- PHYS 356 Modern Physics Overview

122 Total Semester Hours

See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and Science and Technology in Society Requirements.

Select from department-approved list of courses in biological sciences, chemistry, mathematical sciences, and physics. At least six credit must be in biological sciences.

Two semesters (through 102) in same modern foreign language are required.

Any 200-400-level science course

An approved physics course may be substituted if CH 331 and 332 have been completed.

Select any ENGL course from General Education Arts and Humanities (Literature) Requirement.

PHYSICS

Bachelor of Arts

The Bachelor of Arts in Physics program is ideal for students interested in acquiring a broad-based liberal education that includes a strong and solid understanding of either science or a broad exposure to engineering with a strong physics foundation.

Freshman Year
First Semester
- ASTR 105 Physics of the Universe
- CH 101 General Chemistry
- ENGL 103 Accelerated Composition
- MTHSC 106 Calculus of One Variable I
- PHYS 101 Current Topics in Modern Physics

- MTHSC 108 Calculus of One Variable II
- PHYS 122 Physics with Calculus I
- Arts and Humanities (Non-Lit.) Requirement
= 14

POLYMER AND FIBER CHEMISTRY AND TEXTILE MANAGEMENT

The School of Materials Science and Engineering offers undergraduate degrees in Ceramic and Materials Engineering, Polymer and Fiber Chemistry, and Textile Management.

The Bachelor of Science degree in Polymer and Fiber Chemistry is based on a foundation in physical and mathematical sciences. From this base, students are taught, using classroom instruction, laboratory courses, and individual research, to apply their scientific knowledge to the solution of problems in polymeric and fiber-based materials for diverse applications ranging from biomedical and sports to construction and communication. The degree in Polymer and Fiber Chemistry also prepares students for graduate studies in a number of science and engineering disciplines.

Students majoring in Textile Management study the production, structure, and properties of natural and man-made fibers; the processes for converting these fibers into textile structures; the science of coloring fibers and finishes to improve the desirability and serviceability of the product; and the methods for evaluating the performance of textile materials.

Graduates in Polymer and Fiber Chemistry and Textile Management hold jobs in corporate and personnel management, manufacturing management, design, research, development, technical service, quality control, and sales. They create new products and processes and solve problems. They create styles, patterns, textures, and colors for apparel, home, industry, and special applications. Their jobs utilize computers, automation, and product quality and are concerned with plant design, environmental control, and consumer safety.

POLYMER AND FIBER CHEMISTRY

Bachelor of Science

Freshman Year
First Semester
- CH 101 General Chemistry
- ENGL 103 Accelerated Composition
- MTHSC 106 Calculus of One Variable I
- TEXT 175 Intro. to Textile Manufacturing

### Sophomore Year

**First Semester**
- 3 - CH 223 Organic Chemistry
- 1 - CH 227 Organic Chemistry Lab.
- 4 - MTHSC 206 Calculus of Several Variables
- 3 - PHYS 221 Physics with Calculus II
- 1 - PHYS 223 Physics Lab. II
- 3 - Arts and Humanities (Literature) Requirement¹

**Second Semester**
- 3 - CH 224 Organic Chemistry
- 1 - CH 228 Organic Chemistry Lab.
- 3 - ECON 200 Economics Concepts
- 3 - EN SP 200 Intro. to Env. Science or
- 3 - HIST 122 History, Tech., and Science or
- 3 - HIST 124 Environmental History Survey
- 1 - MS&E 251 Materials Science Portfolio I
- 4 - MTHSC 207 Multivariable Calculus
- 4 - TEXT 176 Natural and Man-Made Fibers

### Junior Year

**First Semester**
- 3 - CH 331 Physical Chemistry
- 3 - ENGL 314 Technical Writing
- 3 - EN SP 200 Intro. to Env. Science
- 1 - MTHSC 251 Materials Science Portfolio I
- 4 - MTHSC 208 Intro. to Ordinary Diff. Equations

**Second Semester**
- 3 - CH 332 Physical Chemistry
- 3 - COMM 250 Public Speaking
- 3 - PFC 416 Chemical Preparation of Textiles
- 4 - TEXT 202 Fabric Structure, Design, and Analysis
- 3 - TEXT 324 Textile Statistics

### Senior Year

**First Semester**
- 3 - PFC 457 Dyeing and Finishing I
- 1 - PFC 459 Dyeing and Finishing I Lab.
- 3 - TEXT 421 Fiber Science
- 5 - Approved Requirement⁴
- 3 - Departmental Requirement⁴

**Second Semester**
- 1 - MS&E 451 Materials Science and Engineering Portfolio II
- 3 - MS&E 491 Undergraduate Research
- 3 - PFC 458 Dyeing and Finishing II
- 1 - PFC 460 Dyeing and Finishing II Lab.
- 3 - TEXT 422 Properties of Textile Structures
- 3 - Departmental Requirement⁴

### TEXTILE MANAGEMENT

#### Bachelor of Science

**Freshman Year**
- 4 - CH 101 General Chemistry or
- 4 - CH 105 Chemistry in Context I
- 3 - ENGL 103 Accelerated Composition
- 3 - MTHSC 102 Intro. to Mathematical Analysis
- 3 - TEXT 175 Intro. to Textile Manufacturing
- 3 - Arts and Humanities Requirement or
- 3 - Social Science Requirement¹

**Second Semester**
- 4 - CH 102 General Chemistry or
- 4 - CH 106 Chemistry in Context II
- 3 - CP SC 120 Intro. to Information Technology
- 3 - ECON 200 Economic Concepts
- 3 - MTHSC 207 Multivariable Calculus
- 4 - TEXT 176 Natural and Man-Made Fibers

**Sophomore Year**
- 3 - ACCT 201 Financial Accounting Concepts
- 3 - COMM 250 Public Speaking
- 3 - PSYCH 201 Introduction to Psychology
- 4 - TEXT 201 Yarn Structures and Formation
- 3 - Arts and Humanities Requirement or
- 3 - Social Science Requirement¹

**Second Semester**
- 3 - ACCT 202 Managerial Accounting Concepts
- 3 - MGT 201 Principles of Management
- 4 - TEXT 202 Fabric Structure, Design, and Analysis
- 3 - TEXT 324 Textile Statistics
- 3 - Arts and Humanities Requirement or
- 3 - Social Science Requirement¹

**Junior Year**
- 3 - FIN 306 Corporation Finance
- 3 - LAW 322 Legal Environment of Business
- 3 - MKT 301 Principles of Marketing
- 4 - TEXT 202 Fabric Structure, Design, and Analysis
- 3 - TEXT 324 Textile Statistics
- 3 - Arts and Humanities Requirement or
- 3 - Social Science Requirement¹

**Second Semester**
- 3 - ENGL 314 Technical Writing
- 3 - MGT 307 Personnel Management
- 7 - Concentration Requirement²
- 3 - Emphasis Area Requirement³

**Senior Year**
- 3 - MGT 415 Business Strategy
- 2 - MS&E 450 Materials Science and Engineering Portfolio
- 3 - TEXT 429 Textile Research
- 3 - Concentration Requirement²
- 3 - Emphasis Area Requirement³

¹See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement. Students not selecting the CH 105/106 sequence, three of these credits must also satisfy the Science and Technology in Society Requirement. (Note: Three additional credit hours in social sciences or arts and humanities are required beyond the basic General Education Requirements.)

³See advisor.
MINORS

Following are minors acceptable for students in the College of Engineering and Science. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

Accounting
Adult/Extension Education
Aerospace Studies
Agricultural Business Management
Agricultural Mechanization and Business
American Sign Language Studies
Animal and Veterinary Sciences
Anthropology
Athletic Leadership
Biochemistry
Bioengineering
Biological Sciences
Business Administration
Chemistry
Cluster
Communication Studies
Community Recreation Management
Computer Science—*not open to Computer Information Systems majors*
Crop and Soil Environmental Science
East Asian Studies
Economics
Education
English
Entomology
Entrepreneurship
Environmental Engineering
Environmental Science and Policy
Equine Business
Film Studies
Financial Management
Food Science
Forest Products
Forest Resource Management
Genetics
Geography
Geology
Global Politics
Great Works
Health Science
History
Horticulture
Human Resource Management
International Engineering and Science
Legal Studies
Management
Mathematical Sciences
Microbiology
Military Leadership
Modern Languages
Music
Natural Resource Economics
Nonprofit Leadership
Operations Management
Packaging Science
Pan African Studies
Park and Protected Area Management
Philosophy
Physics
Plant Pathology
Political Science
Psychology
Public Policy
Religion
Russian Area Studies
Science and Technology in Society
Screenwriting
Sociology
Spanish-American Area Studies
Sport Management
Textiles—*not open to Polymer and Fiber Chemistry or Textile Management majors*
Theatre
Therapeutic Recreation
Travel and Tourism
Turfgrass
Urban Forestry
Wildlife and Fisheries Biology
Women’s Studies
Writing

See pages 35–38 for details.
COLLEGE OF
HEALTH, EDUCATION, AND HUMAN DEVELOPMENT

The College of Health, Education, and Human Development provides students the means by which to pursue careers in the fields of nursing, education, health, and recreation management. The “Engaged College with a Personal Touch” is home to the academic programs offered by the School of Nursing, the Eugene T. Moore School of Education; the Department of Public Health Sciences; and the Department of Parks, Recreation, and Tourism Management. The College also offers outreach services available through the Joseph F. Sullivan Center, the National Dropout Prevention Center; and the Outdoor Laboratory. Collaboration within the college between academics and community outreach services prepares students to be professional leaders in health, education, and recreation management. As with all programs at the University, students will take course offerings from all colleges on campus to achieve the most complete education possible.

EUGENE T. MOORE SCHOOL OF EDUCATION

The mission of the Eugene T. Moore School of Education is to prepare caring and capable professionals through intellectually engaging experiences in theory, method, and research that connect them to the communities in which they live and serve. The Eugene T. Moore School of Education trains teachers, counselors, university administrators, and leaders for the P–12 schools and training and development specialists for business and industry.

TEACHER EDUCATION PROGRAMS

The Eugene T. Moore School of Education Conceptual Framework guides the School’s work as a unit. It is consensus-based and provides the foundation for all that is done. It addresses the fundamental issues of what students need to know (knowledge), what they need to be able to do (skills), what they value (dispositions), and how they interface with their communities, large and small (connections). The Conceptual Framework, simply stated, is to prepare caring, capable, and connected professionals for the twenty-first century.

The Teacher Education Programs prepare teachers, provide professional services to education in South Carolina, and carry out basic and applied research in education. Curricula provide a broad general education through liberal arts and science courses, develop depth of knowledge in the teaching area, gain an understanding of the historical, philosophical, and psychological backgrounds of American education, and acquire knowledge of and skill and experience in effective teaching techniques.

The Teacher Education Programs are accredited by the National Council for the Accreditation of Teacher Education (NCATE) for the preparation of educational personnel in South Carolina in Early Childhood, Elementary, Special Education, and secondary school programs in Agriculture, Biological Sciences, Economics, English, History, Mathematics, Modern Languages, Physical Sciences, Political Science, Psychology, Sociology, and Industrial Technology Education.

Admission

Professional—Application to the professional level of a program will be processed during the term in which a student is to complete 45 semester hours of work. At that time, the student will be notified of his/her status by the College’s Academic Advising Center. Prior to admission, the student must have passed all areas of the Praxis 1 Pre-Professional Skills Test (PPST) and have a minimum cumulative grade-point ratio of 2.5. A student may exempt the PPST by meeting minimum ACT or SAT requirements as determined each year by the South Carolina Department of Education.

Directed Teaching/Teaching Internship (Secondary)—A student shall apply to the field experience director prior to the semester in which block methods courses are to be scheduled. The following conditions must be met prior to registration for directed teaching: (1) admission to the professional level of a program; (2) completion of at least 95 semester hours; (3) a minimum cumulative grade-point ratio of 2.5. Students with a grade-point ratio of 2.25 to 2.5 may appeal to the Director of the School of Education, but exceptions are not common.

Enrollment in Professional Courses

Enrollment in 400-level professional education courses is contingent upon admission to the professional level as described above. Any student who desires to enroll in education courses must meet the cumulative grade-point requirements established for education majors. Appeals to continue taking classes may be made to the Chair of Teacher Education, but exceptions are not common.

Graduation

To graduate, a student must have scores for all state-mandated certification exams on file with the Academic Advising Center in the College of Health, Education, and Human Development. As of July 2006, students must pass all required Praxis II tests, including PLT (Principles of Learning and Teaching), before becoming program completers and receiving recommendation for certification.

Graduate Study

Clemson University offers programs leading to the Master of Arts in Teaching, Master of Education, Master of Human Resource Development, Specialist in Education, and Doctor of Philosophy degrees.

AGRICULTURAL EDUCATION

Bachelor of Science

The College of Health, Education, and Human Development and the College of Agriculture, Forestry, and Life Sciences conduct a cooperative program to produce agricultural teachers (grades 9–12) for South Carolina. See page 40 for the curriculum.

EARLY CHILDHOOD EDUCATION

Bachelor of Arts

The Early Childhood Education curriculum prepares students for teaching positions on the pre-kindergarten and primary levels (Pre-K–3).

10ANTH 201, ED 405, ED EL 311, PSYCH 201, SOC 201, or 202 is recommended.
SCIENCE TEACHING

Bachelor of Science
The program leading to a Bachelor of Science degree in Science Teaching is designed for students planning to teach biological sciences, chemistry, earth sciences, or physical sciences on the secondary school level (grades 9–12). The required science electives are included to give some degree of competence in a field other than the major area. Students are urged to discuss the PRAXIS with their advisor upon completion of the sophomore year.

First Semester
1. BIOL 110 Principles of Biology I
2. CH 101 General Chemistry
3. COMM 150 Intro. to Human Communication
4. MTHSC 109 Calculus of One Variable I
16
Second Semester
1. BIOL 111 Principles of Biology II
2. CH 102 General Chemistry
3. ED 105 Orientation to Education
4. ENGL 105 Accelerated Composition
5. EDST 301 Introductory Statistics
16
Sophomore Year
First Semester
1. BIOL 222 Human Anatomy and Phys. I
2. CH 201 Survey of Organic Chemistry
3. PHY 207 General Physics I
4. PHY 209 General Physics I Lab.
5. Arts and Humanities (Literature) Requirement
15
Second Semester
1. BIOCH 301 Molecular Biochemistry
2. BIOCH 302 Molecular Biochemistry Lab.
3. BIOSC 223 Human Anatomy and Phys. II
4. ED F 301 Principles of American Education
5. ED F (CTE) 315 Technology Skills for Learning
6. PHYS 208 General Physics II
7. PHYS 210 General Physics II Lab.
16
Junior Year
First Semester
1. ED F 202 Educational Psychology
2. GEN 302 Molecular and General Genetics
3. GEN 303 Molecular and Gen. Genetics Lab.
4. Ecology Requirement
5. Plant Diversity Requirement
14
Second Semester
1. BIOSC 335 Evolutionary Biology
2. ED F 335 Adolescent Growth and Development
3. ENGL 314 Technical Writing
4. HIST 122 History, Technology, and Society
5. Animal Diversity Requirement
16
Senior Year
First Semester
1. ED F 425 Instructional Technology Strategies
2. ED SP 370 Introduction to Special Education
3. EDSEC 427 Teaching Secondary Science
4. PHIL 325 Philosophy of Science
5. READ 498 Secondary Content Area Reading
6. Social Science Requirement
16
Second Semester
1. EDSEC 447 Teaching Internship in Sec. Sc.
2. EDSEC 457 Sec. Science Capstone Seminar
12
Junior Year
First Semester
1. ASTR 102 Stellar Astronomy
2. ASTR 101 Solar System Astronomy
3. ENGL 314 Technical Writing
4. PHIL 325 Philosophy of Science
5. PHYS 222 Physics with Calculus III
6. PHYS 223 Physics Lab. II
15
Second Semester
1. ASTR 103 Solar System Astronomy
2. ASTR 104 Stellar Astronomy Lab.
3. ED F 335 Adolescent Growth and Development
4. ENGL 314 Technical Writing
5. PHIL 325 Philosophy of Science
6. PHYS 222 Physics with Calculus III
7. PHYS 223 Physics Lab. III
17

College of Health, Education, and Human Development
SECONDARY EDUCATION

The Bachelor of Arts degree in Secondary Education is available to students preparing to teach English, mathematics, and modern languages (French and Spanish) on the secondary school level (grades 9–12). The Bachelor of Science degree is offered to students planning to teach economics, history, political science, psychology, and sociology. The teaching field should be selected as early as possible so that appropriate freshman and sophomore courses may be taken.

Each curriculum requires a major concentration in the teaching field. Specific courses and sequences have been designated to meet requirements for those planning to teach. Students who have elective courses in the teaching area should consult their advisors prior to scheduling these courses.

The professional education courses should be completed in sequence. Application to Directed Teaching should be made in writing no later than May 1 preceding the school year in which student teaching is to be scheduled.

TEACHING AREA: ECONOMICS

Bachelor of Science

Freshman Year
First Semester
1 - ED 105 Orientation to Education
3 - ENGL 103 Accelerated Composition
3 - GEOG 101 Introduction to Geography
3 - HIST 122 History, Technology, and Society
3 - MTHSC 101 Essential Math. for Informed Soc.
4 - Natural Science Requirement\(^1\)
17

Second Semester
3 - ANTH 201 Introduction to Anthropology
3 - BIOSC 200 Biology in the News
3 - ENGL 214 American Literature
3 - GEOG 103 World Regional Geography
3 - PSYCH 201 Introduction to Psychology
3 - SOC 201 Introduction to Sociology
18

Sophomore Year
First Semester
3 - ECON 211 Principles of Microeconomics
3 - ED F 302 Educational Psychology
3 - HIST 101 History of the United States
3 - HIST 172 Western Civilization
3 - PO SC 101 American National Government
3 - Non-Western History Requirement\(^2\)
16

Second Semester
3 - ECON 212 Principles of Macroeconomics
1 - ED F (CTE) 315 Technology Skills for Learning
3 - HIST 102 History of the United States
3 - HIST 173 Western Civilization
3 - PO SC 102 Intro. to International Relations
3 - Non-Western History Requirement\(^2\)
16

Junior Year
First Semester
3 - ED F 301 Principles of American Education
3 - ED F 335 Adolescent Growth and Development
3 - ENGL 312 Advanced Composition
3 - Non-Western History Requirement\(^2\)
3 - Teaching Major\(^3\)
15

Second Semester
3 - COMM 150 Intro. to Human Comm. or
3 - COMM 250 Public Speaking
3 - ED SP 370 Introduction to Special Education
3 - Arts and Humanities (Non-Lit.) Requirement\(^1\)
6 - Teaching Major\(^3\)
15

Senior Year
First Semester
3 - ED F 425 Instructional Technology Strategies\(^4\)
3 - ED F 490 Student Management and Discipline
3 - EDSEC 428 Teaching Secondary Social Studies\(^4\)
3 - READ 498 Secondary Content Area Reading\(^3\)
3 - Teaching Major\(^3\)
13

Second Semester
9 - EDSEC 448 Teaching Internship in Secondary Social Studies\(^3\)
9 - EDSEC 458 Secondary Social Studies Capstone Seminar\(^9\)
124 Total Semester Hours
\(^1\)See General Education Requirements.
\(^2\)Select from 100- and 200-level courses in economics.
\(^3\)ED F 490, EDSEC 428, and READ 498 must be taken concurrently. Offered fall semester only.
\(^4\)EDSEC 448 and 458 must be taken concurrently. Offered spring semester only.

TEACHING AREA: ENGLISH

Bachelor of Arts

Freshman Year
First Semester
1 - ED F 425 Instructional Technology Strategies\(^5\)
3 - ENGL 190 Introduction to the English Major
3 - ENGL 212 World Literature
3 - Foreign Language Requirement\(^3\)
4 - Natural Science Requirement\(^2\)
15

Second Semester
2 - ENGL 103 Accelerated Composition
3 - ENGL 103 Accelerated Composition
3 - HIST 172 Western Civilization
3 - Foreign Language Requirement\(^3\)
4 - Natural Science Requirement\(^2\)
15

Sophomore Year
First Semester
3 - ED F 301 Principles of American Education
3 - ENGL 213 British Literature
3 - G W (ENGL) 301 Great Books of West. World
3 - HIST 173 Western Civilization
3 - REL 102 World Religions
15

Second Semester
3 - BIOSC 200 Biology in the News
3 - ED F 302 Educational Psychology
1 - ED F (CTE) 315 Technology Skills for Learning
3 - ENGL 214 American Literature
3 - ENGL 310 Critical Writing About Literature
3 - HIST 361 History of England to 1688 or
3 - HIST 363 Britain Since 1688 or
3 - HIST 365 British Cultural History
16

Junior Year
First Semester
3 - ED F 335 Adolescent Growth and Development
3 - ENGL 386 Adolescent Literature
3 - ENGL 400 The English Language
3 - American Literature Requirement\(^3\)
2 - Literary Criticism Requirement\(^3\)
15

Second Semester
3 - ENGL 304 Business Writing or
3 - ENGL 314 Technical Writing
3 - ENGL 401 Grammar Survey
3 - British Literature Requirement\(^3\)
3 - Diversity Requirement\(^6\)
3 - Film Requirement\(^3\)
15

Senior Year
First Semester
3 - ED F 425 Instructional Technology Strategies\(^5\)
9 - EDSEC 444 Teaching Internship in Secondary English\(^8\)
9 - EDSEC 445 Secondary English Capstone Sem.\(^9\)
120 Total Semester Hours
\(^5\)Two semesters (through 202) in the same modern foreign language are required.
\(^6\)See General Education Requirements.
\(^7\)ENGL 398, 399, 425, 426, 427, 455, or 463
\(^8\)ENGL 435, 436, or 440
\(^9\)ENGL 396, 397, 407, 408, 414, 415, 416, 417, 418, 444, or 464
\(^10\)ENGL 350, 353, (HUM) 456, 482, or 483
\(^11\)ENGL 357, 450, (COM) 451, 452, or 453
\(^12\)EDSEC 424 and READ 498 must be taken concurrently during fall semester of senior year.
\(^13\)ED F 425, EDSEC 444, and 454 must be taken concurrently during spring semester of senior year.

## Sophomore Year

**First Semester**
- ED F 301 Principles of American Education
- Arts and Humanities Requirement
- Science and Tech. in Society Requirement
- Social Science Requirement
- Teaching Major

**Second Semester**
- ED F 302 Educational Psychology
- ED F (CTE) 315 Technology Skills for Learning
- ENGL 314 Technical Writing or
- ENGL 316 Writing and International Trade
- Social Science Requirement
- Teaching Major

## Junior Year

**First Semester**
- COMM 150 Intro. to Human Comm. or
- COMM 250 Public Speaking
- ED F 334 Child Growth and Development
- ED F 335 Adolescent Growth and Development
- Teaching Major

**Second Semester**
- Advanced Social Science Requirement
- Arts and Humanities Requirement
- Non-Western History Requirement
- Teaching Major

## Senior Year

**First Semester**
- ED F 425 Instructional Technology Strategies
- ED F 302 Educational Psychology
- EDSEC 425 Teaching Sec. Modern Languages
- READ 498 Secondary Content Area Reading
- Teaching Major
- Elective

**Second Semester**
- EDSEC 412 Directed Student Teaching in Secondary School Subjects

### 12 Total Semester Hours

1. Twelve credit hours of Arts and Humanities are required. At least three credit hours must be from 200-level ENGL literature courses, and at least three hours must be from Humanities (Non-Literature) courses. See General Education Requirements.
2. Two semesters (through 200) in the major foreign language are required.
3. See General Education Requirements.
4. Electives required of French majors only.
5. Select from General Education Arts and Humanities courses other than foreign language.
6. See General Education Requirements. Select from courses in anthropology, economics (including AP EC), geography, political science, psychology, sociology.
7. The teaching major requires 24 credits in French or 30 credits in Spanish as listed.

### French
- FR 409 and 21 credits arranged as follows:
  - Group I—FR 300, 305, 307, 309
  - Group II—Nine credits at the 400-level, including at least one 400-level literature course
  - Spanish—30 credits arranged as follows:
    - Group I—SPAN 303, 311

### Group II—Six credits from SPAN 307, 308, 435

### Group III—SPAN 309, 314

### Group IV—SPAN 409, 411, or six credits of equivalent courses abroad.

### Group V—Six credits from SPAN 398, 401, 403, 406, 407, 422, 498

Select from 300- or 400-level courses in anthropology, economics, history, political science, psychology, or sociology.

ED F 425, EDSEC 425, and READ 498 must be taken concurrently the semester prior to Directed Teaching.

### TEACHING AREA: POLITICAL SCIENCE

#### Bachelor of Science

**SPECIAL EDUCATION**

**Bachelor of Arts**

The Bachelor of Arts degree in Special Education prepares students to teach individuals with mild disabilities in grades K–12. The curriculum is designed to meet the competencies outlined by the Council for Exceptional Children for beginning special education teachers. Students completing the program receive instruction and practical experiences that lead to Multi-Categorical Special Education Certification in South Carolina.

**Freshman Year**

First Semester
- ED 105 Orientation to Education
- ED F (CTE) 315 Technology Skills for Learning
- ENGL 101 Advanced Composition
- GEOG 101 Introduction to Geography
- HIST 122 History, Technology, and Society
- PSYCH 201 Introduction to Psychology
- SOC 201 Introduction to Sociology
- ENGL 103 Accelerated Composition

Second Semester
- ED F (CTE) 315 Technology Skills for Learning
- ENGL 214 American Literature
- GEOG 103 World Regional Geography
- HIST 122 History, Technology, and Society
- PSYCH 201 Introduction to Psychology

See General Education Requirements.

HEALTH SCIENCE
Bachelor of Science

The Department of Public Health Sciences prepares students for careers in the health field, one of the largest industries in the United States. It includes hospitals and other medical service providers, public health organizations, health insurance companies, health/medical related sales, health fitness organizations, and community and nonprofit health agencies.

Plans of study can be arranged in health promotion and education, health services administration, and preprofessional health studies. Students in the Health Promotion and Education Concentration have the skills to assess, plan, communicate, implement, manage, and evaluate public health promotion programs. Students in the Preprofessional Health Studies Concentration obtain the
coursework and experience necessary for acceptance into various graduate programs in clinical health professions. The Health Services Administration Concentration allows students to develop skills and competencies in health administration/management for entry-level careers or graduate study in this area. A minor in Business Administration is integral to the concentration. The department, in cooperation with the College of Architecture, Arts, and Humanities, also offers a joint Bachelor of Science degree in Language and International Health (see page 61).

Students with less than 50 credit hours earned may change majors into Health Science with a minimum cumulative grade-point ratio of 2.25. Students with 50 or more credit hours may apply for a change-of-major into Health Science when space is available based on the following restrictions:

- completion of the Health Science Mathematics and Statistics Requirements and the General Education Natural Science Requirement
- minimum cumulative grade-point ratio of 2.5
- submission of a 1–3-page document detailing why the applicant desires to major in Health Science and how this major would support his/her career goals

Additional information is available at www.chehd.clemson.edu/PublicHealth/WebSite/Home/Main.htm.

120–121 Total Semester Hours

\(^1\) See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and Science and Technology in Society Requirements.

\(^2\) See advisor. Courses in Spanish are strongly recommended.

\(^3\) Select from any courses in health.

\(^4\) Internship must be completed in one or two semesters. Internship may be done fall, spring, or summer after completing HLTH 419. Prior approval is required for summer internships. A grade-point ratio of 2.0 is required for registration.

\(^5\) Physician’s Assistant, predentistry, and premedicine students may also need BIOCH 301 and eight credit hours of organic chemistry. Some programs also require a course in microbiology.

\(^6\) Note: A minimum grade-point ratio of 2.0 is required for registration in each HLTH course.

**LANGUAGE AND INTERNATIONAL HEALTH**

**Bachelor of Science**

The Language and International Health program is administered by the College of Architecture, Arts, and Humanities and the College of Health, Education, and Human Development. See page 61 for the curriculum.

**NURSING**

**Bachelor of Science**

The Bachelor of Science degree program in Nursing prepares students for professional nursing practice in a variety of settings, such as hospitals, industry, clinics, and public health agencies. During the first two years, emphasis is on liberal arts and basic science courses arranged to provide a foundation for the nursing major. Junior and senior courses emphasize the study of nursing. Clinical nursing experiences, guided by the Nursing faculty, involve acute and community-based settings. Students are responsible for their own transportation to clinical laboratory experiences, which may extend throughout the Upstate.

Nursing majors are required to carry, throughout the clinical laboratory period, current and valid student nurses’ professional liability insurance with minimum limits of liability of $1,200,000 per occurrence and $6,000,000 in aggregate. Documentation of such coverage must be provided to the Director of the School of Nursing. No student may participate in clinical learning activities without this insurance coverage.

To comply with clinical agency contract requirements and South Carolina law, students enrolled in nursing courses with a clinical laboratory must meet specific requirements listed in the School of Nursing Student Handbook which can be found at www.hehd.clemson.edu/nursing.

The School of Nursing programs are accredited by the CCNE (Commission on Collegiate Nursing Education), One Dupont Circle NW, Suite 530, Washington, DC 20036-1120.

**Entrance Requirements**

To facilitate admission of students who can achieve at an appropriate level in the program, admission is selective. Consideration is given to performance in secondary school and on the College Board Examination (SAT). Those seeking admission are advised to apply to the University early in the fall of the senior year in high school.

Transfer admission is competitive and students are encouraged to apply early to the Office of Admissions. The University admits ten new transfer students to the Nursing major during the fall semester only. Potential students should have a minimum grade point ratio of 3.0 and completion of 30 semester hours of transferable courses. Placement in the nursing curriculum will be determined after credit evaluation is completed.

Students may change majors into Nursing based on approval of a committee of faculty from the School of Nursing. Applications are accepted each year during January with a deadline of January 31. Decisions are made by February 28. The School of Nursing accepts 48 changes of major per year with a start date of the following January into upper division (junior-level) nursing courses. Applicants should meet the following requirements prior to the semester of application: a minimum cumulative grade-point ratio of 2.75, completion of a minimum of two required sciences in the Nursing curriculum
with a C or better. Selection priority is based on grade point ratio and number of completed nursing prerequisites. Students are allowed to apply only twice. Detailed information is available from the Academic Advising Center in 309 Edwards Hall or at www.nurs.clemson.edu.

**Freshman Year**

**First Semester**
1. BIOL 103 General Biology I
2. BIOL 105 General Biology Lab. I
4. NURS 140 Computer Appl. in Health Care
5. SOC 201 Introduction to Sociology
6. Elective

**Second Semester**
1. BIOL 106 General Biology II
2. BIOL 201 General Biology Lab. II
3. MTHSC 102 Essential Math. for Informed Soc.
4. NURS 201 Introduction to Psychology
5. Arts and Humanities (Non-Lit.) Requirement
6. Elective

**Sophomore Year**

**First Semester**
1. BIOSC 222 Human Anatomy and Phys. I
2. MICRO 205 Introductory Microbiology
3. Arts and Humanities (Literature) Requirement
4. Cross-Cultural Awareness Requirement
5. Elective

**Second Semester**
1. BIOSC 223 Human Anatomy and Phys. II
2. COMM 150 Intro. to Human Comm. or COMM 250 Public Speaking
3. NURS 320 Professionalism in Nursing
4. Nutrition Requirement
5. Science and Tech. in Society Requirement

**Junior Year**

**First Semester**
1. ENGL 304 Business Writing or ENGL 314 Technical Writing
2. NURS 304 Pathophysiology for Health Care Professionals
3. NURS 310 Health Assessment
4. NURS 312 Therapeutic Nursing Interventions
5. NURS 340 Pharmacotherapeutic Nursing Interventions

**Second Semester**
1. NURS 303 Nursing of Adults
2. NURS 305 Psychosocial Nursing
3. NURS 311 Intro. to Community Nursing
4. NURS 323 Gerontology Nursing
5. NURS 330 Research in Nursing

**Senior Year**

**First Semester**
1. NURS 401 Mental Health Nursing
2. NURS 411 Nursing Care of Children
3. NURS 412 Nursing Care of Women and Their Families
4. Elective

**Second Semester**
1. NURS 403 Complex Nursing of Adults
2. NURS 405 Leadership and Mgt. in Nursing
3. NURS 408 Senior Nursing Practicum
4. NURS 415 Community Health Nursing

**Sophomore Year**

**First Semester**
1. BIOSC 222 Human Anatomy and Phys. I
2. MICRO 205 Introductory Microbiology
3. Arts and Humanities (Literature) Requirement
4. Elective

**Second Semester**
1. BIOSC 223 Human Anatomy and Phys. II
2. Departmental Requirement
3. Nutrition Requirement
4. Oral Communication Requirement
5. Elective

**Junior Year**

**First Semester**
1. NURS 304 Pathophysiology for Health Care Professionals
2. NURS 312 Therapeutic Nursing Interventions
3. NURS 330 Research in Nursing
4. NURS 411 Nursing Care of Children

**Second Semester**
1. NURS 303 Nursing of Adults
2. NURS 307 Family Nursing in the Community
3. NURS 313 Health Assess. Through Lifespan

**Senior Year**

**First Semester**
1. NURS 333 Health Care Genetics
2. NURS 406 Issues in Professionalism
3. NURS 412 Nursing Care of Women and Families
4. NURS 425 Community Nursing

**Second Semester**
1. ENGL 314 Technical Writing
2. NURS 401 Mental Health Nursing
3. NURS 403 Complex Nursing of Adults
4. NURS 405 Leadership and Mgt. in Nursing

124 Total Semester Hours

See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
PARKS, RECREATION, AND TOURISM MANAGEMENT

Bachelor of Science

The Department of Parks, Recreation, and Tourism Management prepares students for a variety of careers in public and private leisure services. The curriculum provides a broad exposure to the management of leisure service programs and resources, such as those for municipalities, institutions, voluntary and youth-serving agencies, and management positions within the travel and tourism industry and as resource managers of local, state, and federal parks and related lands and waters.

The flexible curriculum allows students to select from five concentrations. This latitude permits accommodation of each student’s career objectives in positions in community recreation, sport management, recreation programming, cultural arts management, commercial recreation, wilderness management, nature interpretation, park management, historic site management, rehabilitation services, leisure counseling, camp administration, recreation therapy, programs for people with disabilities or senior citizens, travel industry, resort management, convention and visitor bureaus, theme parks, community tourism, and special event/festival planning, to name a few.

The Parks, Recreation, and Tourism Management program is accredited by the National Council on Accreditation (National Recreation and Park Association/Council on Postsecondary Accreditation). Graduates are immediately eligible to apply to become “Certified Park and Recreation Professionals,” a valuable credential for professional advancement.

When space is available, a student may change majors to one of the degree concentrations in the Department of Parks, Recreation, and Tourism Management with a 2.0 cumulative grade-point ratio, at least 30 credit hours earned, and approval of the department chair or his/her designee.

Graduate degrees offered are Master of Parks, Recreation, and Tourism Management; Master of Science; and Doctor of Philosophy.

Note: Students may complete only two 300–400-level PRTM courses before the end of their fourth semester. To enroll in any additional 300–400-level PRTM courses, students must first complete ENGL 103 and all General Education Mathematical, Scientific, and Technological Literacy and Social Science Requirements.

COMMUNITY RECREATION, SPORT, AND CAMP MANAGEMENT CONCENTRATION

The Community Recreation, Sport, and Camp Management (CRSCM) Concentration prepares students for careers in community recreation, amateur athletics, and camp management by developing theoretical, conceptual, and applied knowledge bases necessary for success in its diverse field. The focus of this program is on community, family, and individual development. Career opportunities include, but are not limited to, community recreation programming, community athletic programming, camp administration, facility operation and management, special events, campus recreation, and fitness and wellness programming.

Freshman Year

First Semester
1 - BIOL 120 Biological Inquiry Lab. and
2 - C U 101 University Success Skills
3 - PRTM 101 Concepts of Leisure
3 - Elective
15

Second Semester
1 - ENGL 103 Accelerated Composition
2 - PRTM 210 Serving Diverse Populations in Recreation, Sport, and Camp Management
3 - PRTM 205 Program and Event Planning
3 - Elective
15

Sophomore Year

First Semester
1 - ACCT 201 Financial Accounting Concepts
2 - PRTM 241 Introduction to Community Recreation, Sport, and Camp Management
3 - PRTM 308 Leadership and Group Processes in Recreation
3 - Elective

Summer
6 - PRTM 405 Field Training II

PARKS AND PROTECTED AREA MANAGEMENT CONCENTRATION

Students in Park and Protected Area Management (PPAM) prepare for work as park rangers, planners, educators, law enforcement officers, and administrators of our nation’s federal, state, and county public lands that hold unique natural, cultural, and historic resources. PPAM focuses on helping visitors enjoy and appreciate parklands while protecting those resources for future generations. Besides taking coursework in PRTM, students typically complete a minor field of study in forest resource management, wildlife and fisheries biology, history, or anthropology.

Freshman Year

First Semester
1 - ANTH 201 Introduction to Anthropology or
2 - GEOG 101 Introduction to Geography
3 - BIOL 103 General Biology I
3 - BIOL 104 General Biology II

THERAPEUTIC RECREATION CONCENTRATION
The Therapeutic Recreation (TR) Concentration prepares students for exciting careers working with people with disabilities in a variety of settings, including community-based recreation agencies, camps, children’s hospitals, psychiatric and physical rehabilitation hospitals, and assisted-living facilities, to name a few. Therapeutic Recreation consists of the delivery of recreation services designed to enhance participants leisure experiences, quality of life, and functional capabilities. Students who complete these requirements will be eligible to sit for an examination to become a Certified Therapeutic Recreation Specialist (CTRS).

TRAVEL AND TOURISM CONCENTRATION
The Travel and Tourism (T&T) Concentration
prepares students for interesting and challenging careers working in one of the world's most diverse and
dynamic industries. Students in this concentration are introduced to issues pertaining to the manage-
ment, planning, and promotion of places and events, such as tourist attractions. The program is designed to provide an understanding of the linkages that exist between local communities, their populations, and various public, private, and special interest groups. Students in Travel and Tourism can pursue careers in private sector enterprises, government agencies, convention and visitor bureaus, as well as other travel-related organizations.

Writing

See pages 35–38 for details.
Courses of Instruction

This list includes for each course the catalog number, title, credit hours, class and laboratory hours per week, description, and prerequisites. Courses numbered 600 and above are graduate courses.

Cross-Listed Courses

A cross-listed course is one that can be taken for credit under different departmental titles. For example, students can take SOC (R S) 471 Demography as either R S 471 or SOC 471. The student should select the desired departmental title in conference with an advisor. The departmental title may be changed only during the period allowed by the University calendar for adding a course.

Accounting

ACCT 201, H201 Financial Accounting Concepts 3(3,0) Introduction to accounting principles with emphasis on the use of financial data and analysis of financial statements.

ACCT 202, H202 Managerial Accounting Concepts 3(3,0) Introduction to managerial accounting with emphasis on using accounting information to make decisions.

ACCT 204 Accounting Procedures 1(1,2) Lectures, demonstrations, and hands-on experience with accounting systems and analysis required to complete the accounting cycle and prepare financial statements. Intended for students who plan to enroll in ACCT 303 or 311.

ACCT 303, H303 Cost Accounting 3(3,0) Application of cost analysis to manufacturing and distributing problems; analysis of behavior characteristics of business costs and a study of principles involved in standard cost systems; lectures and problems. Preq: ACCT 201 and 204 with a C or better.

ACCT 307 Managerial Accounting 3(3,0) Emphasizes internal use of accounting data by the manager in establishing plans and objectives, controlling operations, and making decisions involved with management of an enterprise. May not be taken for credit by Accounting majors. Preq: ACCT 202.
ACCT 311, H311 Intermediate Financial Accounting I 3(3,0) In-depth treatment of traditional financial accounting topics of standards setting, financial statement form and content, and accounting and reporting of current assets. Emphasizes basic theory, valuation, and measurement, as well as presentation and analysis of accounting information. Prereq: ACCT 201 and 204 with a C or better.

ACCT 312, H312 Intermediate Financial Accounting II 3(3,0) Continuation of ACCT 311. In-depth treatment of accounting and reporting for noncurrent assets, current and noncurrent liabilities, and equity. Emphasizes basic theory, valuation, and measurement issues, as well as presentation and analysis of accounting information. Prereq: ACCT 311 with a C or better.

ACCT 313, H313 Intermediate Financial Accounting III 3(3,0) Continuation of ACCT 312. In-depth treatment of selected accounting topics, such as investments, cash flows, tax allocation, post-retirement benefits, leases, and error corrections. Emphasizes basic theory, valuation, and measurement as well as presentation and analysis of accounting information. Prereq: ACCT 312 with a C or better.

ACCT 322 Accounting Information Systems 3(3,0) Study of computer-based accounting systems with attention to systems design, application, internal control, auditing the system, and system security. Prereq: CP SC 220.

ACCT 340 Internal Auditing Theory 3(3,0) Introduces students to internal auditing and covers internal auditing standards, ethics, concepts, audit techniques, and reporting practices. Enrollment priority will be given to students who have completed 60, but not more than 100, credits. Prereq: ACCT 311 with a C or better.

ACCT 391 Public Accounting Certificate Program I 0(0,0) Professional interaction in public accounting. Tracks interaction requirements of the Public Accounting Certificate Program. To be taken Pass/Fail only. Prereq: Junior standing.

ACCT 393 Managerial Accounting Certificate Program I 0(0,0) Professional interaction in managerial accounting. Tracks interaction requirements for the Managerial Accounting Certificate Program. To be taken Pass/Fail only. Prereq: Junior Standing.

ACCT 395 Internal Auditing Certificate Program I 0(0,0) Professional interaction in internal auditing. Tracks interaction requirements of the Internal Auditing Certificate Program. To be taken Pass/Fail only.

ACCT 399 Internship in Accounting 1-3(1-3,0) Faculty-supervised accounting internship designed to give students learning opportunities that support their classroom experiences. Requires a minimum of six full-time weeks. Course enrollment and internship must occur in the same semester. Simultaneous credit cannot be received for another internship offering. May be repeated for a maximum of three credits. To be taken Pass/Fail only. Prereq: Junior standing and consent of instructor.

ACCT 404, H404, 604 Individual Taxation 3(3,0) Interpretation of Federal income tax laws, regulations, and court decisions with practice in application of these laws to the returns of individuals, partnerships, and corporations. Prereq: ACCT 311 with a C or better.

ACCT 406 Business Taxation 3(3,0) Provides an introduction to the importance of taxation in business decision making; emphasizes the interrelationship of taxes, the choice of business form, and various business transactions; exposes students to the breadth of business decisions which are affected by the Federal Income Tax. Prereq: ACCT 311 with a C or better.

ACCT 408 Retirement and Estate Planning 3(3,0) Provides students with an understanding of the tax consequences of personal financial, retirement, and estate planning. Subjects covered include the basic concepts of retirement, gift, income shifting, and estate planning. Prereq: ACCT 404 with a C or better.

ACCT 410 Budgeting and Executive Control 3(3,0) Study and application of selected techniques used in the planning and control functions of business organizations. Prereq: ACCT 403 with a C or better.

ACCT 415 Auditing 3(3,0) Professional and practical auditing theory. Review of internal control, audit procedures, and development of audit programs for various types of businesses; consideration of auditors' professional and ethical standards. Prereq: ACCT 311 and 322 with a C or better.

ACCT 445 Internal Auditing Practice 3(3,0) Expands students' knowledge of internal auditing practice including operation audits, organization audits, quality control audits, and organization theory. Prereq: ACCT 415 with a C or better.

ACCT 491 Public Accounting Certificate Program II 0(0,0) Public accounting service. Tracks service requirement of the Public Accounting Certificate Program. To be taken Pass/Fail only. Prereq: Senior standing.

ACCT 493 Managerial Accounting Certificate Program II 0(0,0) Managerial accounting service. Tracks service requirement of the Managerial Accounting Certificate Program. To be taken Pass/Fail only. Prereq: Senior standing.

ACCT 495 Internal Auditing Certificate Program II 0(0,0) Internal auditing service. Tracks service requirement of the Internal Auditing Certificate Program. To be taken Pass/Fail only.

A S 109 Air Force Today I 2(1,2) Deals with Air Force in the contemporary world through a study of the total force structure: strategic offensive and defensive, general purpose, and aerospace support. Leadership laboratory activities include drill fundamentals, customs, and courtesies of the service.

A S 110 Air Force Today II 2(1,2) Continuation of A S 109. Leadership laboratory includes drill, ceremonies, and an introduction to Air Force career opportunities.

A S 209 Development of Air Power I 2(1,2) Study of the development of air power from balloons and dirigibles through the peaceful employment of U.S. air power in relief missions and civic action programs in the late 1960s and also the air war in Southeast Asia. Leadership laboratory provides experience in guiding, directing, and controlling an Air Force unit.

A S 210 Development of Air Power II 2(1,2) Continuation of A S 209.

A S 308 Air Force Leadership and Management 3(3,0) Motivational and behavioral processes, leadership, communication, and group dynamics are covered to provide a foundation for development of the leader's professional skills using Air Force examples and methods.

A S 309 Air Force Leadership and Management I 4(3,2) Emphasizes the individual as a manager. Individual motivational and behavioral processes, leadership, communication, and group dynamics are covered to provide a foundation for the development of the Air Force officer's professional skills. Students prepare individual and group presentations, write reports, participate in group discussions, seminars, and conferences.

A S 410 Air Force Leadership and Management II 4(3,2) Continuation of A S 309. Uses the basic managerial processes involving decision making, utilization of analytical aids in planning, organizing, and controlling environment. Actual case studies are used to enhance learning and communication processes.

A S 409 National Security Policy I 4(3,2) Analysis of the role and function of the military officer in a democratic society and the relationships involved in civil-military interactions. Students prepare individual and group presentations, write reports, and participate in group discussions.

A S 410 National Security Policy II 4(3,2) Continuation of A S 409. Examines the environmental context in which U.S. defense policy is formulated and implemented. Emphasizes initial commissioned service and military justice. Students prepare individual and group presentations for the class, write reports, and participate in group discussions, seminars, and conferences.

AGRICULTURAL AND APPLIED ECONOMICS

AP EC 102 South Carolina and the Global Economy 3(3,0) Explores important aspects of globalization. Includes the role of market-based systems, trade, financial flows, and immigration. Emphasizes the world-wide economic integration of the United States, generally, and South Carolina in particular.
AP EC 202 Agricultural Economics 3(3,0)
Analytical survey of the various subdivisions of agricultural economics, including farm organization, enterprise, land economics, marketing, farm prices, governmental farm policies, and the relation of agriculture to the national and international economy.

AP EC 205 Agriculture and Society 3(3,0)
Introduction to the development of world society focusing on food production, from early hunting and gathering to modern biotechnology. Covers factors driving societal growth with a global perspective. Explores systematic impacts of growth in technical capacity to produce agricultural products on farm and community organization, industrialization, and the global economy.

AP EC 257 Natural Resources, Environment, and Economics 3(3,0)
Economic principles applied to resource allocation problems related to environmental and natural resource issues.

AP EC 302 Economics of Farm Management 3(3,0)
Economics principles underlying the organization and operation of agricultural firms and related business enterprises. Particular emphasis is directed to management aspects of the farm as a production unit. Preq: AP EC 202 or ECON 211.

AP EC 308 Quantitative Applied Economics 3(3,0)
Basic quantitative relationships in applied economics are examined and interpreted. Emphasizes the mathematical aspects of applied economics. Microcomputer software is utilized for problem solving.

AP EC 309, H309 Economics of Agricultural Marketing 3(3,0)
General course in marketing agricultural commodities with particular emphasis upon food products. Analyzes efficiency criteria, consumer behavior, marketing organizations and institutions, and marketing functions. Preq: AP EC 202.

AP EC 313 Principles of Real Estate Appraisal 3(3,0)
Introduction to basic principles and procedures of real estate appraisal. Topics include the real estate market, principles of valuation, legal concepts, and the application of the comparable sales, cost, and income approaches to real estate valuation. Preq: FIN 307 or consent of instructor.

AP EC 319 Agribusiness Management 3(3,0)
Study of the principles used in making management decisions and the application of these principles in agribusiness. Emphasizes the application of economics to the solution of problems facing managers of agricultural supply and marketing firms. Preq: AP EC 302 or 309.

AP EC 351 Principles of Advertising 3(3,0)
Introduction to the various functions of advertising: research and audience analysis; various media formats; planning, research, and production necessary to create an advertising campaign; social effects, economic effects, and ethical considerations of advertising.

AP EC 352 Public Finance 3(3,0)
Principles of financing government, sources of public revenue, objects of public expenditures, problems of fiscal administration, and the application of fiscal policies in stabilizing the national economy. Preq: Junior standing.

AP EC (C R D, HLTH) 361 Introduction to Health Care Economics 3(3,0) See C R D 361.

AP EC 402, 602 Production Economics 3(3,0)
Economic analysis of agricultural production involving the concept of the firm as a firm; principles for decision making; the quantitative nature and use of production and cost functions and the interrelations and applications of these principles to resource allocation in farms and among areas. Preq: AP EC 308, ECON 314.

AP EC 403, 603 Land Economics 3(3,0)
Study of the characteristics of land and of the physical, legal, social, and economic principles and problems relating to the control and use of land resources. Preq: AP EC 202 or ECON 200.

AP EC 409, 609 Commodity Futures Markets 3(3,0)
Introduction to the economic theory, organization, and operating principles of agricultural commodity futures markets in the United States. Emphasizes speculating, hedging, and investing in agricultural commodity futures contracts from the standpoint of the agribusiness entrepreneur. Preq: AP EC 202 or ECON 211.

AP EC (C R D) 411, 611 Regional Impact Analysis 3(3,0) See C R D 411.

AP EC (C R D) 412, 612 Regional Economic Development Theory and Policy 3(3,0) See C R D 412.

AP EC 413, 613 Advanced Real Estate Appraisal 3(3,0) Topics include higher-level best use analysis, data collection, and analysis. Stresses advanced appraisal procedures for income, cost, and comparable sales approach to real estate valuation. Covers eminent domain, the appraisal of property in transition, and specialized property. Preq: AP EC 313, FIN 307, or consent of instructor.

AP EC 421, 621 Globalization 3(3,0) Utilizes basic principles of international economics (comparative advantage, free trade versus protectionism, exchange rate determination, etc.) to analyze the contemporary problems and issues of the world economy. Emphasizes application of economic principles to current globalization trends. Preq: ECON 310 or 412 or 413 or consent of instructor.

AP EC (CSENV) 426, 626 Cropping Systems Analysis 3(2,2) See CSENV 426.

AP EC 433, 633 Agricultural Law and Related Environmental Issues 3(3,0) Introduction to agricultural and agriculture-related environmental legal issues. Topics include a review of laws, agencies, programs, court structure, torts, taxation, biotechnology, land and water use, regulated industry, and environmental liabilities as they relate to agriculture and natural resources. Preq: LAW 322 or consent of instructor.

AP EC 452, H452, 652 Agricultural Policy 3(3,0) Review of public agricultural policy programs in the United States and a critical examination of current and proposed government policies and programs affecting the agricultural sector of the economy. Includes economic considerations as related to past and current farm price and income problems. Preq: AP EC 302, 309.

AP EC 456, H456, 656 Prices 3(3,0)
Review of the basic theory of price under competitive conditions and various modifications; nature, measurement, and causes of daily, seasonal, and cyclical price fluctuations; geographical price relationships; nature, function, and behavior of futures markets; government price programs. Preq: AP EC 308, ECON 314, EX ST 462.

AP EC 457, 657 Natural Resource Economic Theory and Policy 3(3,0) Focuses on analysis of actual, efficient, and sustainable use of natural resources. Topics may vary but include land-use change and regulation, water use and marketing, harvesting trees or fish on farms, harvesting and developing property rights to open-access resources, renewable versus nonrenewable energy use, and sustainable development. Preq: MTHSC 102; C R D 357 or ECON 314.

AP EC 458, 658 Economics of Risk Management 3(3,0) Focuses on cost-benefit analysis of risks, incorporation of economic considerations into risk assessments, and microeconomic analysis of activities, insurance, and policies that reduce, mitigate, or increase these risks. Possible topics include climate change, wildland fire, erosion, pest and invasive species, pestilence, food contamination, and hurricanes. Preq: MTHSC 102 and C R D 357 or ECON 314.

AP EC 460, 660 Agricultural Finance 3(3,0) Study of the principles and technique of financing in the agricultural sector. Topics include the capital situation in agriculture, concepts of farm financial management, use of credit, capital markets, lending agencies, and estate planning. Preq: ACCT 201, AP EC 202.

AP EC 475, 675 Economics of Wildlife Management and Policy 3(3,0) Integrated approach to the study of the economics of wildlife. Topics include determination of market and nonmarket value, single and multiple species management, enterprise cost and returns, marketing wildlife, leasing methods, complementarity and competitiveness with agricultural and forestry enterprises, and timber and crop damage cost estimates and control. Preq: AP EC 202, ECON 200, FOR 304, W F B 306, or consent of instructor.

AP EC 490 Selected Topics 1-15(0,2-30) Study of topics in applied economics. Topics may include classroom and/or field experience not normally covered in other classes. May be repeated for credit, but only if different topics are covered. Preq: Junior standing or consent of instructor.

AP EC (C R D) 491 Internship, Agribusiness, and Community and Rural Development 1-6(0,2-12) See C R D 491.

AGRICULTURAL EDUCATION

Associate Professors: T. R. Dobbins, P. M. Favel, D. R. King, C. D. White, Sr.

AG ED 100 Orientation and Field Experience 1(0,2) Supervised observations and explanations of vocational agriculture teaching while serving as teacher aides. One full week of field experience in representative high schools is required.
AG ED 102 Agricultural Education Freshman Seminar 1(2,0) Introduces students to the South Carolina agriculture education structure and provides opportunities to prepare oral presentations on selected agricultural education organizations. Assists students in understanding the value of professional organizations to agriculture education in the state and nation. Prq: Agricultural Education major.

AG ED 103 Multiculturalism in Agricultural Education 3(3,0) Studies the influence of various groups and their contributions to agriculture. Includes the roles of women, African-, Hispanic-, Asian-, Native, and European-Americans.

AG ED 200 Agricultural Applications of Educational Technology 3(2,2) Overview of microcomputer hardware and software encompassing word processing, spreadsheet, utility, Web development, and graphic communications in an agricultural context.

AG ED 201 Introduction to Agricultural Education 3(2,3) Principles of education, development of agricultural education, and an introduction to the formulation of instructional programs for the teaching of agricultural courses.

AG ED 202 Agricultural Education Sophomore Seminar 1(2,0) Instruction on how to establish a comprehensive student record-keeping system. Includes integration of that data into the FFA Awards program. Allows students hands-on experience with the total FFA Awards program on the state and national level. Prq: AG ED 102.

AG ED 203 Teaching Agriscience 3(2,3) Integrates biological and technological concepts appropriate for teaching introductory middle or secondary school level courses in agricultural science. Topics emphasize disciplines, theories, and applications in modern agricultural production. Experiences include teaching techniques, materials, resources, and the design and implementation of new activities to facilitate teaching agriscience. Prq: BIOL 104/106.

AG ED 204 Applied Agriculture Calculations 3(3,0) Demonstrates basic mathematical applications in crop and livestock production and agribusiness and financial management. These applications aid students in understanding the mathematical applications needed in the agriculture field.

AG ED 302 Agricultural Education Junior Seminar 1(2,0) Allows students the opportunity to prepare and deliver information on Career Development Events (CDE) and to understand fully the CDE concepts. Students receive much needed hands-on experience at the state and national levels. Prq: AG ED 202.

AG ED 303 Mechanical Technology for Agriculture Education 3(2,3) Study of technical content and new technology utilized in agriculture mechanics. Integrates agriculture mechanics topics such as electrical wiring and controls, green industry maintenance, irrigation systems, and agriculture construction. Offers a delivery of mechanics instruction in the classroom and laboratory setting.

AG ED 355 Team and Organizational Leadership in the Food and Fiber System 3(3,0) Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. Focuses on helping students better understand themselves and others; improving group communications; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies.

AG ED 400 Supervised Field Experience I 1(0,3) Special emphasis is placed on enhancing existing knowledge and experiences of the students. Primary focus is on becoming acquainted with the student teaching center well in advance of the customary twelve-week directed teaching experience.

AG ED 401, 601 Instructional Methods in Agricultural Education 3(2,3) Appropriate methods of teaching vocational agriculture in high schools. Includes procedures for organizing, teaching programs, teaching high school students, and directing FFA activities.

AG ED 402 Agricultural Education Senior Seminar 1(2,0) Provides an opportunity to prepare and deliver information on continuing adult education. Assists students in fully understanding the adult education component of the total Secondary Agriculture Education Program. Prq: AG ED 302.

AG ED 403, 603 Principles of Adult/Extension Education 3(3,0) Overview of adult/extension education and adult learning. Selection of adult education programs is reviewed with emphasis on extension. Prq: Junior standing or consent of instructor.

AG ED 404 Biotechnology in Agricultural Education 3(2,3) Multidisciplinary introduction to theories and applications of biotechnology in agriculture and high school agricultural education. Topics include common techniques used in modern biotechnology, examples of their applications, and social considerations that impact the use of biotechnology in agricultural research and development. Laboratories illustrate principles covered in lecture. Prq: BIOL 104/106.

AG ED 406 Directed Teaching 12(0,36) Guided participation in the professional responsibilities of a teacher of vocational agriculture including intensive study of the problems encountered and competencies developed. Twelve weeks of directed teaching in selected schools are required. Prq: AG ED 400, 401.

AG ED 407 Internship in Extension and Leadership Education 6-12(0,18-36) Internship placements may include county extension offices and other appropriate extension units. Six weeks of supervised experience must be completed for six hours of credit. Twelve weeks of supervised experience must be completed for 12 hours of credit. May be repeated for a maximum of 12 credits. Prq: AG ED 400, 401, Senior standing, and consent of instructor.

AG ED 409, 609 Agriscience Institute: Applications of Agriscience to the Secondary Curriculum 3(2,2) Designed for pre-service and in-service agricultural educators or secondary-level counselors. Surveys current developments in agriscience with an emphasis on modern practices, current job opportunities, and meeting state and national science and math education standards through agricultural instruction. Students construct lesson plans and career planning modules for high school. Prq: AG ED 102.

AG ED 412 Senior Agriculture Leadership Seminar 1(1,0) Emphasizes leadership techniques and policies that affect agriculture. Students conduct research and make presentations on issues which influence agriculture policy. Prq: AP EC 202, 302.

AG ED 415, 615 Leadership of Volunteers 3(3,0) Provides an overview of volunteer management. Examines the knowledge, skills, and abilities required of professional managers to involve volunteers effectively in the work of organizations.

AG ED 416, 616 Ethics and Issues in Agriculture and the Food and Fiber System 3(3,0) Explores ethical theories, concepts of critical thinking, and major ethical issues in American agriculture. The major social, political, economic, and ethical issues that arise in connection to the “food and fiber system” are examined and potential solutions considered.

AG ED 423, 623 Curriculum 2(2,0) Curriculum goals and related planning for career and continuing education programs.

AG ED 425, 625 Teaching Agricultural Mechanics 2(1,3) Instruction in organizing course content, conducting and managing an agricultural mechanics laboratory, shop safety, microteaching demonstrations of psychomotor skills, and methods of teaching manipulative abilities.

AG ED 428, 628 Special Studies in Agricultural Education 1-3(1-3,0) Students study, individually or collectively, selected topics and/or problems in agricultural education to meet the particular needs of the clientele enrolled. May be repeated for a maximum of six credits.

AG ED 440, 640 Program Development in Adult/Extension Education 3(3,0) Principles, theory, and practice in planning and conducting educational programs in adult/extension settings. Prq: Junior standing or consent of instructor.

AG ED 450 Modern Topics and Issues 3(3,0) Students select a major area of concern to teachers of agriculture and county agents for intensive study at least one semester prior to offering the course. Team teaching with faculty from other departments in the College of Agriculture, Forestry, and Life Sciences is utilized when feasible. Prq: Senior standing or relevant experience.

AG ED (ED F, CTE) 480, 680 Educational Applications of Microcomputers 3(2,2) See ED F 480.

AG ED (ED F, CTE) 482, 682 Advanced Educational Applications of Microcomputers 3(2,2) See ED F 482.
AGRICULTURAL MECHANIZATION

Professors: W. H. Allen, Chair; D. E. Brune, R. B. Dodds, Y. J. Han; Assistant Professor: T. O. Owino; Lecturers: K. R. Kirk, P. M. Patel

AG M 101 Introduction to Agricultural Mechanization and Business 1(0,3) Introduces the Agricultural Mechanization and Business program. Gives an overview of the curriculum and explains the opportunities for extracurricular activities. Covers long-term interaction between the department and alumni.

AG M 205 Principles of Fabrication 3(2,3) Principles, techniques, and methods in the selection, proper use, and maintenance of hand and power tools. Principal topics include welding, tool fitting, metalworking, woodworking, finishing and preserving, and heat treatment.

AG M 206 Machinery Management 3(2,3) Teaches agriculture students to apply physical principles and sound reasoning to the mechanization of modern agricultural production and processing enterprises. Stresses planning efficient operational systems and wise selection of equipment, based on function and economic suitability. Prereg: MTHSC 105, PHYS 207 or consent of instructor.

AG M 221 Surveying: Earthwork and Area Measurements 2(1,3) Fundamentals of surveying relative to earthwork and land area measurements including linear measurements, leveling, angular measurements, and computations. Levels and total stations are used with an introduction to GPS. Prereg: MTHSC 102 or 106 or consent of instructor.

AG M 301 Soil and Water Conservation 2(2,0) Water management in agriculture is studied by applying principles of mathematics, fluid flow, hydrology, and soils as related to soil-water-vegetation complexes in erosion control, water conservation, drainage, and irrigation.

AG M 303 Calculations for Mechanized Agriculture 3(2,3) Enhances students' ability to analyze and solve a wide range of problems requiring engineering technology. Laboratory periods introduce students to microcomputer hardware. Basic programming and typical applications to agricultural mechanization problems are included. Prereg: PHYS 200, 207, or consent of instructor.

AG M 371 Agricultural Mechanization Practicum 1-3 Preplanned internship with an approved employer involved in agricultural technical or business endeavors. A minimum 130 hours of supervised responsibility are required per credit hour. A work journal, written/oral reports, company consent and evaluation must be on file. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Prereg: Sophomore standing and consent of department.

AG M 402, 602 Drainage, Irrigation, and Waste Management 3(2,3) Uses basic soil-water-plant relationships to determine the need for and methods of irrigation, drainage, and waste management. Topics include irrigation methods, drainage needs, drainage methods, and waste treatment methods.

AG M 405, 605 Agricultural Structures and Environmental Control 3(2,3) Technical considerations of buildings used for agriculture emphasizing structural materials, structural adequacy, environmental control, and indoor air quality. Prereg: AG M 221, 303, PHYS 200.

AG M 406, 606 Mechanical and Hydraulic Systems 3(2,3) Study of power transmission systems for agricultural production emphasizing mobile equipment. Characteristics, requirements, and design of both V-belt drive and roller-chain drives are presented. Emphasizes hydraulic power transmission systems, including pumps, actuators, control devices, and hydraulic circuitry. Prereg: AG M 206, PHYS 200 or 207, or consent of instructor.

AG M 410, 610 Precision Agriculture Technology 3(2,3) Includes principles and hands-on application of technologies supporting precision agriculture. Topics include global positioning system (GPS), geographic information system software, variable rate technologies, collection of spatial data, automated guidance of equipment, spatial data mapping and analysis, remote sensing, and economic considerations. Prereg: Junior standing.

AG M 452, 652 Mobile Power 3(2,3) Study of tractors emphasizing internal combustion engines and support systems necessary for their proper functioning. Also considers application of power, maintenance, adjustment, and general repair. Prereg: PHYS 200, 207 or consent of instructor.

AG M 460, 660 Electrical Systems 3(2,3) Students in agriculture and related curricula study electric and other utilities on the farm and in the home. Emphasizes selection, installation, and maintenance of wiring systems, lighting systems, motors, controls, water systems, and waste disposal systems. Prereg: Junior standing.

AG M 472 Capstone 3(2,3) Covers professional conduct, ethics, oral and written communication, and financial matters. Each student completes a comprehensive project on a technical subject. The results are given in a written report and oral presentation. Students use digital portfolio technology to assess their education.

AG M 473 Special Topics in Agricultural Mechanization 1-3(1-3,0) Comprehensive study and application of new technologies and methods not covered in existing courses. Emphasizes independent study using innovative approaches to problem solving. May be repeated for a maximum of six credits. Prereg: Consent of instructor.

AGRICULTURE

Professors: L. L. Bauer, D. E. Linvill, V. L. Quisenberry, P. A. Skewes; Associate Professor: W. C. Stringer

AGRIC 104, H104 Introduction to Plant Sciences 3(3,0) Fundamental course in plant sciences, including agronomic and horticultural crops of the major agricultural areas of the world and emphasizing the crops of South Carolina.

AGRIC (EN SP) 315, H315 Environment and Agriculture 3(3,0) Survey of the interrelationships of the environment and current agriculture and agricultural practices to include both the environmental impacts of agriculture and the role of agriculture in conservation and improving the environment. Prereg: Sophomore standing and two semesters of biology or chemistry.

AGRIC 355 Team and Organizational Leadership in Food and Fiber System 3(3,0) Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. Focuses on helping students better understand themselves and others, improving group communications; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies.

AGRIC 412 Senior Agriculture Leadership Seminar 1(1,0) Emphasizes leadership techniques and policies that affect agriculture. Students conduct research and make presentations on issues which influence agricultural policy. Prereg: AP EC 202, 302.

AGRIC 416 Ethics and Issues in Agriculture and the Food and Fiber System 3(3,0) Explores ethical theories, concepts of critical thinking, and major ethical issues in American agriculture. Examines the major social, political, economic, and ethical issues that arise in connection to the “food and fiber system” and considers potential solutions.

AGRIC 440, 640 Microclimatology 3(3,0) Study of energy balance in earth’s atmosphere and soil: solar and thermal radiation, air and soil temperature, humidity, evaporation and the hydrologic cycle, wind fields. Examines weather variables to describe microclimates and the energy balance of plants, animals, and insects; modification of microclimates; and rural and urban climates. Prereg: PHYS 240 or equivalent or consent of instructor; second semester Junior standing.

AGRIC H491 Senior Honors Research 3(1,6) Senior division honors research in an agricultural sciences curriculum. In consultation with and under the direction of a professor, students select a research topic, conduct experiments, record data, and make oral presentations of results to the College Honors Program Committee. Open to approved Honors Program students only.

AGRIC H492 Senior Honors Research 3(1,6) Continuation of AGRIC H491. Senior division honors research in an agricultural sciences curriculum. Upon termination of the research project, students submit formal written reports and make final oral presentations of results to the College Honors Program Committee. Professor-student discussions of additional topics are arranged.
A S L 201 American Sign Language II 3(3,0) Continuation of A S L 201. Focuses on American Sign Language fluency, vocabulary development, grammatical structures of American Sign Language, use of classifiers, conversational skills, translating written texts into American Sign Language, and vice versa. Emphasis is on making formal presentations in American Sign Language. Preq: A S L 201 or consent of instructor.

A S L 302 Advanced American Sign Language II 3(3,0) Continuation of A S L 301. Focuses on American Sign Language fluency, vocabulary development, grammatical structures of American Sign Language, use of classifiers, conversational skills, translating written texts into American Sign Language, and vice versa. Emphasis is on making formal presentations in American Sign Language. Preq: A S L 301 or consent of instructor.

A S L 305 Deaf Studies in the United States 3(3,0) In-depth look into language, culture, and daily lives of approximately one million people who use American Sign Language as their primary language. Traces the roots of American Sign Language from pre-revolutionary times to current science and knowledge and how it applies to professional fields. Taught in American Sign Language. Preq: A S L 202 or consent of instructor.

A S L 397 Creative Inquiry—American Sign Language 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic. Preq: A S L 202 or consent of instructor.

A S L 401 Discourse in American Sign Language I 3(3,0) Designed for advanced-level students in American Sign Language. Primary goal is to further develop students’ understanding and knowledge of American Sign Language by incorporating in-depth analysis of American Sign Language’s historical development, linguistic structures, syntax, grammar, and pragmatics. Preq: A S L 202 or consent of instructor.

A S L 402 Discourse in American Sign Language II 3(3,0) Continuation of American Sign Language 401. Primary goal is to further develop students’ understanding and knowledge of American Sign Language by incorporating in-depth analysis of American Sign Language’s historical development, linguistic structures, syntax, grammar, and pragmatics. Preq: A S L 202 or consent of instructor.

A S L 460 Deaf Literature and Folklore 3(3,0) Designed for advanced-level students in American Sign Language. Primary goal is to further develop students’ understanding and knowledge of Deaf literature, folklore, and the community at large. Includes introductions to deaf authors, literary works, plays, poetry, painting, and sculpture. Preq: A S L 302 or consent of instructor.

A S L 497 Creative Inquiry—American Sign Language 1-4(1-4,0) Continuation of research initiated in A S L 397. Students complete their projects and disseminate their research results. Preq: A S L 397 or consent of instructor.
AVS 206 Swine Techniques 2(1,2) Examines the basic principles in the techniques and management associated with production of swine. Students may take only one techniques course per semester. Preq: AVS 150, 151.

AVS 207 Horsemanship II 2(0,4) Designed for intermediate to advanced riders to enhance basic horsemanship and develop specific skills for advanced maneuvers in both western and English disciplines. Students concentrate on individual work and establish finesse and subtlety of aids. Training and artificial aids are discussed and/or implemented in riding sessions. Preq: AVS 205 and consent of instructor.

AVS 208 Techniques of Teaching Horsemanship 3(2,2) Discusses teaching techniques and theory and handling of large mounted groups. Trains beginner through advanced levels. Preq: AVS 205.

AVS 260 Sophomore Internship 1-12(0,3-36) Off-campus, preplanned, supervised educational experience in a work environment related to animal/veterinary studies. Students submit periodic written reports and a final written report. To be taken Pass/Fail only. Preq: Sophomore standing in Animal and Veterinary Sciences and consent of instructor.

AVS 301 Anatomy and Physiology of Domestic Animals 4(3,3) Study of physiology and associated anatomy of the body systems, including nervous, skeletal, muscular, respiratory, digestive, circulatory, urinary, reproductive, and endocrine systems. Designed primarily for students in Animal and Veterinary Sciences. Preq: BIOL 104/106 or 111.

AVS 302 Livestock Selection and Evaluation I 2(1,2) Selection and evaluation of the meat species of livestock with application of theory applied in multiple field exercises.

AVS 303 Livestock Selection and Evaluation II 2(1,2) Selection and evaluation of the meat species of livestock with application of theory and principles of animal research, and other current topics. Preq: AVS 301.

AVS 310 Animal Health 3(3,0) Examines the basic principles in the techniques and management associated with production of swine. Students may take only one techniques course per semester. Preq: AVS 150, 151.

AVS 311 Dairy Cattle Selection 2(1,2) Dairy selection and evaluation methods are studied including evaluation according to the Purebred Dairy Cattle Association scorecard, linear evaluation, pedigrees, and Dairy Herd Improvement Association records. Emphasizes presentation of oral reasons.

AVS 312 Forages and Grazing Systems 3(2,2) Familiarizes students with the interaction of forage plants and grazing animals. Includes practical application of theory to management issues as it relates to the relationship between plants and animals. Preq: AVS 150, BIOL 103/105 or 111.

AVS 315 Animal Welfare 3(3,0) Discussion of past, present, and future human/animal interaction. Topics include wild animals, domestication, animal welfare organizations, animal rights organizations, welfare assessment, animal agriculture, animal research, and other current topics. Preq: Junior standing.

AVS 323 Poultry and Poultry Products Evaluation 2(0,4) Selection of layers, broilers, and turkeys. Grading of poultry products according to USDA grade standards is also studied. Students are eligible to compete in intercollegiate poultry judging contests. May be repeated for a maximum of four credits.

AVS 330 Animal Pathology 3(3,0) Examines animal pathology including cell injury, inflammation, neoplasia, immunologic disease, and pathology of various organ systems. Preq: AVS 301.

AVS 360 Advanced Internship 1-12(0,3-36) Off-campus, preplanned, reviewed, approved, and supervised educational experience in an area related to animal and veterinary sciences. Based on a multifaceted work experience at a highly structured professional environment. Students submit periodic written reports and a final written and oral report. To be taken Pass/Fail only. Preq: Junior standing in Animal and Veterinary Sciences and consent of instructor.

AVS 370, H370 Principles of Animal Nutrition 3(3,0) Familiarizes students with nutrients and feedstuffs used in livestock and specialty animal production. Methods of evaluating common feed-stuffs are covered along with a survey of the functioning of the various digestive systems. Practical aspect to feeding each species is covered. Preq: AVS 150, CH 102.

AVS 375, H375 Applied Animal Nutrition 3(2,2) Students learn procedures for formulating diets that meet nutrient requirements of livestock and poultry, utilizing traditional mathematical approaches and computerized formulation. Computerized least-cost formulation of diets is covered along with familiarization with feeding systems and approaches. Preq: AVS 370.

AVS 385 Equine Behavior and Training 2(0,4) Introduces students to the initial processes in gentling and riding young horses. Students work with two- and three-year-old horses to desensitize them to stimuli in preparation for riding. Students do groundwork and put the initial rides on the horses. Preq: AVS 205 or 207.

AVS 386 Advanced Equine Behavior and Training 2(0,4) Students train young horses advanced skills in western or English disciplines. Students actively prepare horses for show or sale and participate in a show or marketing/sale of their assigned horse. Develops students’ negotiation and communication skills, industry insight, and industry-specific jargon. Preq: AVS 385.

AVS 390 Practicum 1-30(3-9) On-campus, preplanned, supervised learning experience in an area related to animal and veterinary sciences. Gives experience not covered in other classwork. May be repeated for a maximum of four credits. To be taken Pass/Fail only. Preq: Consent of instructor supervising practicum.

AVS 401, H401, 601 Beef Production 4(3,2) Discusses breeding, feeding, reproduction, and management of beef cattle. Emphasizes production systems integrating disciplines of animal agriculture into management plans and alternatives. Practical applications of beef production and management practices are also presented. Preq: AVS 202, 370.

AVS 405 Advanced Selection and Evaluation 2(0,4) Special and advanced training in selection and evaluation of breeding, performance, and market animals or their products. Species used are beef and dairy cattle, sheep, swine, and horses. Preq: AVS 302 or 303 or 305 or FD SC 304; 309 or 311 and consent of instructor.

AVS 406 Seminars and Related Topics 2(3,0) Students conduct in-depth library research on current topics related to animal science and give formal presentations using multimedia technology. Students also prepare scientific posters, learn interviewing skills, prepare résumés, and observe professional speakers. Preq: Senior standing.

AVS 409 Selected Topics 1-3(1-3,0) Topics of interest to students at the undergraduate, graduate, and professional levels. Provides experience with problems not covered in other courses or on thesis research. May be repeated for a maximum of six credits, but only if different topics are covered.

AVS 410, 610 Domestic Animal Behavior 3(3,0) Examines animal behavior related to perception, learning, sociality, reproduction, feeding, and health for application in production, training, and design of environments for optimum health and welfare of domestic animals. Preq: AVS 150, 151.

AVS 411, 611 Animal Growth and Development 3(3,0) Integration of the nutritional, physiological, and genetic basis for animal growth and development with application to livestock and poultry production. Includes the cellular and molecular mechanisms controlling these processes and emphasizes the genes that regulate animal products (meat, eggs, wool, and milk). Preq: AVS 301.

AVS 412, H412, 612 Advanced Equine Management 4(3,2) Further discussion of special considerations of the equine regarding housing, manure management, nutrition, reproduction, transportation, and behavior. Students gain insight into how horses differ from other livestock species and their unique requirements for the above systems. Preq: AVS 370.

AVS 413 Animal Products 3(2,3) Introduction to the safe and humane production of red meat, poultry, and dairy products. Includes HACCP principles and production of value-added animal products.

AVS (BIOSC, MICRO) 414, H414, 614 Basic Immunology 4(3,3) See MICRO 414.
AVS 415, 615 Contemporary Issues in Animal Science 3(3,0) Provides knowledge, understanding, and critical analytical skills on current issues in animal agriculture in diverse regional, national, and global social-cultural and political environments as they impact animals and man. Preq: Junior standing in Animal and Veterinary Sciences.

AVS 416 Equine Exercise Physiology 4(3,2) Integration of muscle, bone, cartilage, cardiovascular, and respiratory systems as related to the equine athlete. Encompasses biomechanics, kinetics, and kinesiology related concepts specific to the horse. Further discussion of diseases related to specific systems is covered. Preq: AVS 301.

AVS 417 Animal Agribusiness Development 4(3,2) Team-based development of a business relating to the animal industries. Students develop the business from the initial idea through operations. Focuses on the development of the business plan including financials, personnel management, and resources needed. Preq: ACCT 201 and AP EC 202 or consent of instructor.

AVS 420, 620 Poultry Science On-line 3(3,0) On-line course covering the physiology, nutrition, health, reproduction, genetics, breeding, housing, and management of commercial poultry species including the processing of meat and egg products.

AVS 422 Special Problems 1-3(0,3-9) Laboratory, library, or field study of problems related to animal and veterinary sciences, emphasizing development and testing of hypothesis and reporting of results. May be repeated for a maximum of four credits. Preq: Junior standing and consent of instructor supervising study.

AVS 441 Animal and Veterinary Sciences Teaching Experience 1-3(1-3,0) Formal teaching experience related to animal and veterinary sciences supervised by a faculty member. May involve classroom instruction, educational material development, and/or student evaluation and assessment. Students submit periodic written reports and a final written and oral report. May be repeated for a maximum of four credits. To be taken Pass/Fail only. Preq: Consent of instructor.

AVS 442 Animal and Veterinary Sciences Extension Experience 1-3(1-3,0) Formal experience in extension education. Students are involved in development, implementation, or assessment of adult or youth educational programs related to animal and veterinary sciences, under supervision of extension professional. Students submit periodic written reports and a final written and oral report. May be repeated for a maximum of four credits. To be taken Pass/Fail only. Preq: Consent of instructor.

AVS 443 AVS International Experience 1-3(1-3,0) Preplanned and approved international education/cultural experience supervised by an Animal and Veterinary Sciences faculty member. Periodic reports or record keeping are required. Final report and oral presentation are required at the end of the experience. May be repeated for a maximum of four credits. To be taken Pass/Fail only. Preq: Consent of instructor.

AVS 444 AVS Animal Agribusiness Travel Experience 2(1,2) Classroom and travel course to expose students to animal production operations, agribusiness, and industry leaders across various geographical areas. Travel is conducted during spring break and includes visits to farms, universities, and agribusinesses. Additional fee is required. To be taken Pass/Fail only. Preq: Junior standing in Animal and Veterinary Sciences, consent of instructor.

AVS 453, H453, 653 Animal Reproduction 3(2,2) Reproductive physiology and endocrinology of mammals with emphasis on farm animals and frequent reference to reproduction in laboratory animals and humans. Preq: AVS 415, 615.

AVS 455, 655 Animal Reproductive Management 1(0,3) Physiology, endocrinology, and contraception of pregnant and nonpregnant cows are discussed. Emphasizes methods of artificial insemination, pregnancy detection, and computer record keeping to achieve a high level of reproductive efficiency in cattle. Preq: AVS 150, 301. AVS 453 (or concurrent enrollment).

AVS 460 Animal Physiology I 3(3,0) Advanced study of the physiological systems of domestic animals as these systems relate to the integrated functions of the body. Exposes students to advanced physiological concepts and current literature perspectives on a variety of body systems and processes. Preq: Introductory physiology and biochemistry.

AVS 470, H470, 670 Animal Genetics 3(3,0) Fundamental principles relating to the breeding and improvement of livestock including variation, heredity, selection, linebreeding, inbreeding, crossbreeding, and other related subjects. Preq: AVS 150.

AVS (BIOSC) 480, 680 Vertebrate Endocrinology 3(3,0) See BIOSC 480.

AVS 491 Animal and Veterinary Sciences Undergraduate Research Experience 1-3(1-3,0) Formal laboratory, library, or field study of problems related to animal and veterinary sciences, emphasizing hypothesis development, testing, and reporting results. Projects are preplanned, reviewed, and approved. Students submit periodic written reports and final written and oral reports. May be repeated for a maximum of four credits. Preq: Consent of instructor.

ANTHROPOLOGY

Professor: J. M. Coggeshall; Associate Professors: E. L. Williams, Y. Zhang; Assistant Professor: M. A. Vogel

ANTH 201 Introduction to Anthropology 3(3,0) Cross-cultural examinations of contemporary human society; physical evolution of humans; development of societies in the archaeological record; environmental impact of human societies today.

ANTH 301 Cultural Anthropology 3(3,0) Explores human cultural diversity and current global issues. Examines food production and economic distribution, political organization, marriage, and religious systems in contemporary cultures. Preq: ANTH 201 or consent of instructor.

ANTH 320 North American Indian Cultures 3(3,0) Discusses the prehistory of Native peoples, their cultural diversity at European contact, and the history and impact of that contact. Also examines contemporary issues facing Native Americans. Preq: ANTH 201 or consent of instructor.

ANTH 331 Introduction to Archaeology 3(3,0) Introduction to archaeology offering insights into the past by recovering and interpreting material remains. Methods and theories of anthropological archaeology are examined, particularly cultural history and ways in which human societies have evolved and become more complex over time.

ANTH 351 Physical Anthropology 3(3,0) Study of humans as biological organisms. Examines human evolution, primate social behavior, human physiological variations and disease resistance, and human skeletal anatomy and forensics.

ANTH 403, 603 Qualitative Methods 3(3,0) Methods and techniques of qualitative field research, including participant observation, ethnographic interviewing, data analysis, and report writing. Preq: ANTH 201 or consent of instructor.

ANTH (JAPN) 417 Japanese Culture and Society 3(3,0) See JAPN 417.

ANTH (CHIN) 418 Chinese Culture and Society 3(3,0) See CHIN 418.

ANTH 495 Field Studies 1-6(1-2,2-12) Group field project in settings selected by the instructor to provide students with a variety of exposures to various cultural contexts. Archaeological digs are included. Project progress and student interpretations of findings are monitored by periodic group meetings and shared experiences. May be repeated for a maximum of six credits. Preq: ANTH 301 or equivalent and consent of instructor.

ANTH 496 Creative Inquiry—Cultural Anthropology 1-3(1-3,0) Investigates topics in cultural anthropology selected by faculty and students. Goals, research, and outcomes vary from semester to semester and project to project. May be repeated for a maximum of 12 credits. Preq: ANTH 201.

ANTH 498 Independent Study 1-6(1,0) Individual readings or projects in anthropological areas not covered in other courses. Preq: ANTH 201.
ARABIC
ARAB 101 Elementary Arabic I 4(3,1) Introductory course for beginners emphasizing acquisition of the Arabic alphabet and writing, basic grammar, vocabulary, speaking and listening skills, and developing strategies for the successful long-term acquisition of Arabic.

ARAB 102 Elementary Arabic II 4(3,1) Continuation of ARAB 101 consisting of three hours a week of classroom instruction and one hour a week in the language laboratory. Prq: ARAB 101.

ARCHITECTURE

ARCH 101 Introduction to Architecture 3(3,0) Introduction to the discipline and profession of architecture. Lectures and discussion cover a broad range of architectural issues throughout history. Emphasizes the relationship between architecture and other disciplines as well as across cultures. Includes the development of individual digital portfolio.

ARCH 151 Architecture Communication 4(2,4) Introduction to principles and elementary vocabulary of architectural design. Collaborative studio which offers instruction in the specific skills of formal design composition, visual communication, oral presentation, and computer literacy. Prq: ARCH 101.

ARCH 152 Collaborative Studio II 3(1,6) Continuation of ARCH 151. Introduction to an elemental vocabulary of architecture within basic spatial design problems, emphasizing visual communications skills, oral presentations of work, and analysis and discussion of design issues through critical readings of canonical texts and buildings. Prq: ARCH 151.

ARCH 201 Introduction to Architecture 3(3,0) Examines basic concepts of architectural design using historic and contemporary examples. Principles of design, programmatic concerns, design documents, and construction are discussed in the context of the practice of architecture.

ARCH 251 Architecture Foundations I 6(3,6) Architectural analysis and design problems with a focus on understanding the context of architecture. Specific investigation of buildings as part of the cityscape and the landscape. Instruction on visual communications skills, computer modeling, and oral presentation techniques support the design discussions. Prq: ARCH 151.

ARCH 252 Architecture Foundations II 6(3,6) Continuation of ARCH 251. Architectural design problems with a focus on structural and construction principles and their relationship to contextual situations. Instruction in oral communication skills and computer graphics support the design discussions. Prq: ARCH 251.

ARCH 351 Studio Clemson 6(1,11) Addresses architectural problems with varied scales, programs, and locations. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 18 credits. Prq: ARCH 252.

ARCH 352 Studio Charleston 6(1,11) Addresses architectural problems with varied scales and programs in the context of Charleston, South Carolina. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 12 credits. Prq: ARCH 252.

ARCH 353 Studio Genoa 6(1,11) Addresses architectural problems with varied scales and programs in the context of Genoa, Italy, and historic Europe. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. May be repeated for a maximum of 12 credits. Prq: ARCH 352.

ARCH 354 Studio Barcelona 6(1,11) Addresses architectural problems with varied scales and programs in the context of Barcelona, Spain. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 12 credits. Prq: ARCH 252.

ARCH 355 Studio South 5(1,11) Addresses architectural problems with varied scales and programs in the context of the South. Emphasizes the relationship between architecture, community, and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 12 credits. Prq: ARCH 252.

ARCH 401 Architectural Portfolio II 1(1,0) Continues portfolio development for the architecture student including professional portfolio, academic portfolio, and digital portfolio. Prq: ARCH 101. Coreq: ARCH 452, 453; Graduating Senior standing.

ARCH 403 The Modern Architectural Movement 3(3,0) Seminar in the analysis and criticism of architectural and town building works. Course sequence includes historic and contemporary examples, literary searches, field trips, essays, and oral reports. Prq: Senior standing or consent of instructor.

ARCH 404 Current Directions in Architecture 3(3,0) Critical analysis of the development and current directions of modern movements in architecture. Prq: Senior standing or consent of instructor.

ARCH 405, 605 American Architectural Styles 1650–1950 3(3,0) Survey of American architectural styles and of the architects responsible for them, from the Colonial period to our recent past. Considerable emphasis is placed on identifying those architectural elements which serve as clues in determining a building's architectural style.

ARCH 412, 612 Architectural History Research 3(3,0) Directed investigations related to the art and architectural history of Europe. May be repeated for a maximum of six credits. Prq: Junior standing or consent of instructor.

ARCH 414, 614 Design Seminar 3(3,0) Exploration of topical issues in architecture, art, construction, and planning. May be repeated for a maximum of six credits. Prq: Junior standing or consent of instructor.

ARCH 416, 616 Field Studies in Architecture and Related Arts 3(0,9) Documentation and analysis of architectural structures observed during European travels in graphic and written form. May be repeated for a maximum of six credits. Prq: Junior standing or consent of instructor.

ARCH 421 Architectural Seminar 3(3,0) Lectures and seminars dealing with pertinent topics related to environmental and technological considerations in architecture and the building industry. Prq: Senior standing or consent of instructor.

ARCH 422 New Directions Seminar 3(3,0) Exploration into careers which relate directly (i.e., construction law) or indirectly (i.e., public relations) to the making of our built environment.

ARCH 424, 624 Product Design 3(0,9) Furniture and product system design with emphasis on ergonomics and the relationship of form and materials. Prq: Senior standing and consent of instructor.

ARCH 425, 625 Energy in Architecture 3(3,0) Climate design methodology and its influence on building energy patterns and architectural form. Prq: Senior standing and consent of instructor.

ARCH 426, 626 Architectural Color Graphics 3(3,0) Architectural color graphics by computer. Theories of color classification and interaction; application of color theories to art and architecture. Prq: Consent of instructor.

ARCH 427, 627 Advanced Color Graphics 3(3,0) Theories of color classification and interaction; three-dimensional color modeling by computer; advanced application of color theories to art and architecture. Prq: ARCH 426 or consent of instructor.
ARCH 428, 628 Computer-Aided Design 3(2,3)  
Introduction to the concepts, skills, and applications of computer-aided design as they relate to the practice of architecture. Preq: Senior standing or consent of instructor.

ARCH 429, 629 Architectural Graphics 3(3,0)  
Provides students with an understanding of the concepts, skills, techniques, and strategies of visual presentation/photos as they relate to the design professions—architects/landscape architects. Preq: Junior standing or consent of instructor.

ARCH 430, 630 Theories and Philosophies of Technology and Architecture 3(3,0) Theoretical and practical examination of technology and architecture from pre-modern and modern viewpoints to study its nonneutral role in shaping and reflecting knowledge, beliefs, and actions within a cultural context.

ARCH 431, 631 Virtual Reality in Architecture 3(3,0) Introduction and exploration of the theories and concepts of virtual reality and their use in modeling three dimensional spaces. Instruction in computer modeling, lighting, and texture mapping is offered. Projects focus on the creation and presentation of a virtual environment. Preq: Junior standing or consent of instructor.

ARCH 440, 640 New York Field Study 3(3,0)  
Study of architecture, art, planning, and urban design of New York. Two weeks of residence are required with scheduled field trips to relevant sites in all five boroughs, with counseling to determine research interests. Guidance is provided to resources in the city. A final report is required. Offered Maymester only.

ARCH 451 Architecture Studio III 6(1,11)  

ARCH 452 Synthesis Studio 5(1,11)  
Integrates acquired skills, abilities, and interests from previous architecture studios. Projects emphasize the accumulation of architectural experiences and knowledge. Coreq: ARCH 401, 453; Graduating Senior status.

ARCH 453 Writing Architecture 3(3,0)  

ARCH 485, 685 History and Theory of Architecture + Health 3(3,0)  
Introduces relationships between health and architectural settings for health. Examines connections between cultural context, medical thought, health-care delivery, and health facility design within different time periods. Introduces contemporary theories on the relationships between human beings, their health and well-being, and the design of the physical environment. Preq: Consent of instructor.

ART 205 Beginning Drawing 3(0,6)  
Study of drawing based on the premise that drawing is a foundation discipline in the visual arts. Basic materials and approaches associated with drawing are studied and applied through studio practice, augmented by critiques, demonstrations, and lectures. Preq: ART 103 (non-Art majors); ARCH 152 (Architecture majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.

ART 207 Beginning Painting 3(0,6)  
Introduction to basic materials, methods, and techniques of painting. Primary medium used is acrylic, and other painting media may also be introduced. Emphasizes basic skills in painting plus individual creative development. Preq: ART 151, 153, 205 (Visual Arts majors); ART 103 (non-Art Majors); ARCH 152 (Architecture majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.

ARCH 488, 688 Architectural Programming and Predesign 3(3,0)  
Introduces the theory, mechanics, and practice of architectural programming and post-occupancy evaluation. Presents programming as a means to create architectural settings sensitive to the needs of their inhabitants. Emphasizes collaborative methodologies that involve identifying relevant goals, facts, issues, needs, and concepts. Students develop an architectural program. Preq: Consent of instructor.

ARCH 490, H490 Directed Studies 1-5  
Comprehensive studies and research of special topics not covered in other courses. Emphasis is on field studies, research activities, and current developments in architecture. May be repeated for a maximum of ten credits. Preq: Consent of department chair.

ARCH 499, H499 Selected Topics in Architecture 1-3(1-3,0)  
Study of selected topics in architecture. May be repeated for a maximum of nine credits, but only if different topics are covered. Preq: Junior standing or consent of instructor.

ARCH 557 Architecture Studio 6(0,18) City  
Planning design and the development of complex building solutions.

ART 202 Foundations in 2-D Art 3(0,6)  
Introduces the exploration of basic drawing technique and Toning skills. Emphasizes the development of control of line and wash. Preq: ART 151, 205 (Visual Arts majors); ART 103 (non-Art majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.

ART 211 Beginning Printmaking 3(0,6)  
Studio course introducing basic techniques of relief printing, intaglio, lithography, silkscreen, and papermaking. Each semester concentrates on two or three of these techniques. Coursework integrates print-making processes and creativity. Preq: ART 151, 152, 153, 154, 205 (Visual Arts majors); ART 103 (non-Art majors); ARCH 152 (Architecture majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.

ART 213 Beginning Photography 3(0,6)  
Introduction to the use of photography as an art medium. Lectures and studio work cover the utilization of the camera, processing, and printing in black and white, with emphasis on perception and creative expression. Preq: ART 151, 152, 153, 154, 205 (Visual Arts majors); ART 103 (non-Art majors); ARCH 152 (Architecture majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.

ART 215 Beginning Graphic Design 3(0,6)  
Introduction to fundamental techniques, concepts, and principles of visual communication. Through a series of projects and studio work, students explore techniques of communication through the use of type design, typography, photography, illustration, symbolism, and product design. Individual creative development is stressed. Preq: ART 151, 152, 153, 154, 205 (Visual Arts majors); ART 103 (non-Art majors); ARCH 152 (Architecture majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.
ART 217 Beginning Ceramics 3(0,6) Basic studio course introducing ceramic arts through its various processes and techniques. Hand building methods as well as throwing on the potter's wheel are developed. Weekly projects emphasize imagination, self-expression, and skill development. Ceramic history is introduced through slide lectures. Preq: ART 151, 152, 153, 154, 205 (Visual Arts majors); ART 103 (non-Art majors); ARCH 152 (Architecture majors); LARCH 152 (Landscape Architecture majors); or consent of instructor.

ART 219 Beginning Printmaking 3(0,6) Introduces printmaking techniques emphasizing personal expression in and of itself. Preq: ART 211 or consent of instructor.

ART 309 Sculpture 1 1-3(0,6) Continuation of ART 309. Technical and conceptual research in sculpture to further develop self-expression. Special projects are developed in consultation with instructor. May be repeated for a maximum of five credits. Preq: ART 309 or consent of instructor.

ART 310 Sculpture Research 1 1-3(0,2-6) Continuation of ART 309. Technical and conceptual research in sculpture to further develop self-expression. Special projects are developed in consultation with instructor. May be repeated for a maximum of five credits. Preq: ART 309 or consent of instructor.

ART 311 Printmaking 3(0,6) Continuation of processes in beginning printmaking emphasizing expanding the range and depth of technique. The relationship of technique and process to creative idea development is emphasized. Preq: ART 211 or consent of instructor.

ART 312 Printmaking Research 1 1-3(0,2-6) Continuation of ART 311. Technical and conceptual research in printmaking to develop self-expression. Special projects are constructed in consultation with instructor. May be repeated for a maximum of five credits. Preq: ART 311 or consent of instructor.

ART 313 Photography 3(0,6) Continuation of ART 213. Advanced techniques and more diverse types of film and paper are used in making images of personal and expressive nature. The design and construction of a view camera, printing in color, and multiple imagery may also be included. Preq: ART 213 or consent of instructor.

ART 321 Art with the Computer 3(0,6) Continued emphasis on computer applications to art. Further exposure to computer graphic and art technology is presented. Preq: ART 213 or consent of instructor.

ART 405, 605 Advanced Drawing 3(0,6) Advanced level studies of drawing which explore the synthesis of refined drawing skills and philosophies of art. Students' understanding of drawing as a form of art is developed through studio practice augmented by critiques, demonstrations, lectures, field trips, and independent research. Preq: ART 305 or consent of instructor.

ART 407, 607 Advanced Painting 3(0,6) Advanced studio course in painting. Students select painting media and develop a strong direction based on prior painting experience. Includes study of contemporary painters and directions. Preq: ART 307 or consent of instructor.

ART 409, 609 Advanced Sculpture 3(0,6) Intensive independent studio concentration to further develop personal direction and content. Emphasizes continued investigation of sculptural context, materials and processes, and relative historical research. Preq: ART 309 or consent of instructor.

ART 411, 611 Advanced Printmaking 3(0,6) Development of process, techniques, and individual development. Students are expected to have mastered process and technique for the benefit of the image produced. Creativity and self-expression are highly emphasized as students select a process for concentrated study. Preq: ART 311 or consent of instructor.

ART 413, 613 Advanced Photography 3(0,6) Continuation of ART 313. Advanced problems in photography. Preq: ART 313 or consent of instructor.

ART 415 Advanced Graphic Design 3(0,6) Continuation of ART 315. Personal expression through communication techniques is further explored. Individual projects are emphasized. Preq: ART 315 or consent of instructor.

ART 417, 617 Advanced Ceramic Arts 3(0,6) Students are directed toward further development of ideas and skills. Glaze calculation and firing processes are incorporated to allow for a dynamic integration of form and ideas. Preq: ART 317 or consent of instructor.

ART 418 Ceramics Research II 1-3(0,2-6) Continuation of ART 417. Technical and conceptual research in ceramics for the purpose of self-expression. Projects are chosen in consultation with instructor. May be repeated for a maximum of five credits. Preq: ART 417 or consent of instructor.

ART 420, 620 Selected Topics in Art 1-3(0,6-9) Intense course in studio art. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Senior standing or consent of instructor.

ART 471 Bachelor of Fine Arts Senior Studio I 3(0,6) Individual studio project directed by an instructor and determined by the student in consultation with the instructor. Focuses on a particular studio area, concept, or theme. May be repeated for a maximum of six credits. Preq: Senior standing and completion of 300/400 sequence in the chosen studio area, minimum grade-point ratio of 3.0 in focus studio area, participation in senior studio interview. Coreq: ART 473.
### Courses of Instruction

**ART 472 Bachelor of Fine Arts Senior Studio II** 5(0,15) Individual studio project directed by an instructor and determined by the student in consultation with the instructor. Usually focuses upon a particular studio area, concept, or theme. *Preq: ART 471 with a B or better.*

**ART 473 Senior Seminar in Professional Career Preparation** 2(2,0) Seminar and practical guide to prepare students for entry into the professional art world. Focuses on issues concerning visual artists in the early years of their professional activities. Presents career options and practical information for the graduating senior, including portfolio development. *Coreq: ART 471.*

**ART 490, H490, 690 Directed Studies 1-5(0,2-10)** Study of areas in the visual arts not included in other courses or additional advanced work. Must be arranged with a specific instructor prior to registration. May be repeated for a maximum of 18 credits. *Preq: Consent of instructor.*

### ART AND ARCHITECTURAL HISTORY

**Professor:** W. W. Lew; **Associate Professors:** A. V. Feeser, J. B. LeBlanc; **Assistant Professor:** K. Kourelis

**A A H 101, H101 Survey of Art and Architectural History I** 3(3,0) Comprehensive survey of art and architectural history of Western heritage as well as significant coverage of Asian, African, Native American, and South American art. The arts are studied within the contexts of history, geography, politics, religion, and culture. Survey includes Ancient through Gothic.

**A A H 204, H204 History and Theory of Architecture II** 3(3,0) Second in a two-semester sequence on special topics and issues in the history of architecture. Emphasizes stylistic developments and specific art movements. Analyzes art within the larger context of social, political, and religious history. Examines art techniques and theory as they have developed. *Preq: A A H 102.*

**A A H 205, H205 History and Theory of Art I** 3(3,0) First of a two-semester sequence on special topics and issues in the history of art. Emphasizes stylistic developments and specific art movements. Analyzes art within the larger context of social, political, and religious history. Examines art techniques and theory as they have developed. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 206, H206 History and Theory of Art II** 3(3,0) Second of a two-semester sequence on special topics and issues in the history of art. Emphasizes stylistic developments and art movements, with specific attention directed toward post-Renaissance art. Analyzes the influence of past history on modern. *Preq: A A H 205.*

**A A H 210, H210 Introduction to Art and Architecture** 3(3,0) One-semester lecture survey that introduces the nonmajor to an overview of art and architecture from different time periods and cultures. Students are encouraged to appreciate the contribution to art made by the great masters and to discern different styles, art techniques, and creative traditions.

**A A H 305 Contemporary Art History 3(3,0)** Study of contemporary art from World War II to the present, exploring forces that have shaped various movements and directions. *Preq: A A H 206.*

**A A H 330 Honors Colloquium 3 Undergraduate honors colloquium emphasizing interdisciplinary interpretations. Focuses on an integration of art, architecture, landscape, and city planning. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 391 Italian Studies Abroad I** 3(3,0) On-site exposure of specific works of art and architectural monuments in Italy, coupled with lectures and study problems. May be taught alternately as a compact short course during the academic year with a short stay in Italy or during the summer with an extended foreign experience. May not be taken Pass/Fail. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 392 British Studies Abroad I** 3(3,0) On-site exposure to specific works of art and architectural monuments in Great Britain, coupled with lectures and study problems. May be taught alternately as a compact short course during the academic year with a short stay in Britain or during the summer with an extended foreign experience. May not be taken Pass/Fail. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 393 French Visual Studies Abroad I** 3(3,0) On-site exposure to specific works of art and architectural monuments in France, coupled with lectures and study problems. May be taught alternately as a compact short course during the academic year with a short stay in France or during the summer with an extended foreign experience. May not be taken Pass/Fail. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 394 Northern European Visual Studies Abroad I** 3(3,0) On-site exposure to art and architecture in Northern European countries such as Belgium, Germany, and Holland coupled with lectures and study problems. May be taught alternately as a compact course during the academic year with short stay in Northern Europe or during summer with extended foreign experience. May not be taken Pass/Fail. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 395 Special Topics in Visual American Studies I** 3(3,0) On-site exposure to specific works of art and architectural monuments throughout the U.S., coupled with lectures and study problems. May be taught alternately as a compact short course during the academic year with a short trip to areas of interest or during the summer with extended travel. May not be taken Pass/Fail. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 396 Special Topics in Visual American Studies II** 3(3,0) On-site exposure to specific works of art and architectural monuments throughout the U.S., coupled with lectures and study problems. May be taught alternately as a compact short course during the academic year with a short trip to areas of interest or during the summer with extended travel. May not be taken Pass/Fail. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 411, 611 Directed Research in Art History II** 3(3,0) Comprehensive studies and research of special topics not covered in other courses. Emphasis is on field studies, research activities, and current developments in art history. *Preq: A A H 411.*

**A A H 423, 623 Studies in the Art and Architecture of the Renaissance I** 3(3,0) Consideration of the visual arts and architectural monuments of the Renaissance (Western Europe from the 15th–18th centuries), with a study in depth of selected examples from the period. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 424, 624 Studies in the Art and Architecture of the Renaissance II** 3(3,0) Consideration of the visual arts and architectural monuments of the Renaissance (Western Europe from the 15th–18th centuries), with a study in depth of selected examples from the period. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 428, 628 Nineteenth Century Visual Arts** 3(3,0) Consideration of the visual arts of the 19th century: painting, sculpture, printmaking, ceramics, and so forth, in relation to the factors that have influenced the artist and the consequence on society. *Preq: A A H 427.*

**A A H 429 Studies in the Art and Architecture of India and the Far East** 3(3,0) Consideration of the visual arts and architectural monuments of India and the Far East, with a study in depth of selected examples from the period. *Preq: A A H 204 or 206 or consent of instructor.*

**A A H 430, 630 Twentieth Century Art I** 3(3,0) Acquaints students with the major artists’ monuments and issues of the Modern period in art. Through lecture/discussions and the reading of primary sources, course places the major modern movements in the context of the period (1860–1945). *Preq: Consent of instructor.*

**A A H 432, 632 Twentieth Century Art II** 3(3,0) Overview of trends in art and architecture since World War II. Specific artists, artworks, and movements are presented in a socio/historic context with specific emphasis on the transition from a late-modernist to a post-modern perspective. *Preq: Consent of instructor.*

**A A H (PHIL) 433, 633 Issues in Contemporary Art and Philosophy** 3(3,0) See PHIL 433.
A A H 435, 635 Studies in Precolombian Art and Architecture 3(3,0) Familiarizes students with the art and architecture of the Western Hemisphere’s Precolombian culture in Mexico, Central, and South America. Preq: A A H 102 or 210 or consent of instructor.

ASTRONOMY
Professors: D. D. Clayton, M. D. Leising, B. S. Meyer; Associate Professors: P. J. Flower, D. H. Hartmann, J. C. King

ASTR 101 Solar System Astronomy 3(3,0) Descriptive survey of the universe, with emphasis on basic physical concepts and the objects in our solar system. Related topics of current interest are included. For nonscience majors. May not be taken by students who have completed ASTR 301.

ASTR 102 Stellar Astronomy 3(3,0) Descriptive survey of the universe, with emphasis on basic physical concepts and galactic and extragalactic objects. Related topics of current interest are included. For nonscience majors. May not be taken by students who have completed ASTR 302.

ASTR 103 Solar System Astronomy Laboratory 1(0,2) Optional laboratory to accompany ASTR 101. Demonstrations, laboratory exercises, and planetarium visits supplement the lecture course. Coreq: ASTR 101.

ASTR 104 Stellar Astronomy Laboratory 1(0,2) Optional laboratory to accompany ASTR 102. Demonstrations, laboratory exercises, and planetarium visits supplement the lecture course. Coreq: ASTR 102.

ASTR 105 Physics of the Universe 3(3,0) Basic physics principles of Newtonian mechanics, special and general relativity, quantum mechanics, atomic structure, thermal physics, optics, and radiation physics are qualitatively and quantitatively presented. These principles are then applied to demonstrate their usefulness in understanding fundamental astrophysical objects and processes in the cosmos. Preq: MTSC 105 or equivalent.

ASTR (GEOL) 220 Planetary Science 3(3,0) See GEOL 220.

ASTR 302 Stellar Astrophysics 3(3,0) Study of the basic physical concepts necessary for understanding the sun, other stars, and their evolution. Topics include star formation, stellar structure and evolution, binary stars, and observational techniques. Preq: PHYS 221 or consent of instructor.

ASTR 303 Galactic Astrophysics 3(3,0) Study of basic physical concepts necessary for understanding the structure of the galaxy, the motions of the stars within it, the nature of the interstellar matter, other galaxies, the large-scale structure of the universe, and the origin of the solar system. Preq: PHYS 221 or consent of instructor.

ASTR 475 Selected Topics in Astrophysics 1-3(0-3,0-9) Comprehensive study of an area of astrophysics. Topics may include nucleosynthesis and stellar evolution, extragalactic distance scale, structure and evolution of galaxies, and large-scale structure of the universe. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: ASTR 302 or consent of instructor.

ATHLETIC LEADERSHIP
Assistant Professor: D. B. Fleming; Lecturer: D. J. Cadorette

A L 349 Principles of Coaching 3(3,0) Investigates into the scientific basis of the coaching profession, middle and high school levels. Topics include developing a coaching philosophy, sport psychology, sport pedagogy, sport physiology, athletic administration, and risk management. Current issues regarding sportsmanship, gender equity compliance, and cultural diversity are researched and synthesized. Preq: Athletic Leadership minor or consent of Athletic Leadership coordinator.

A L 350 Scientific Basis of Coaching I: Exercise Physiology 3(3,0) Increases understanding of basic scientific information concerning athletic performance by using the conceptual approach. Focuses primarily on an in-depth investigation into the physiological principles that can enhance athletic performance. Includes phases of physical training as well as comprehensive evaluative techniques. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 352 Scientific Basis of Coaching II: Kinesiology 3(3,0) Increases understanding of basic scientific information concerning athletic movement by utilizing the conceptual approach. Deals with the basic laws of human motion necessary in evaluation of athletic movement, utilizing body structure and anatomical landmarks as a basis for motion. Preq: A L 349.

A L 353 Theory of Prevention and Treatment of Athletic Injuries 3(2,3) Increases understanding of principles involved in the prevention and treatment of athletic injuries. Deals with basic anatomy, first aid, and diagnostic techniques necessary for the understanding of basic athletic training procedures. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 361 Administration and Organization of Athletic Programs 3(3,0) Study of modern techniques and practices used in administering athletic programs. Emphasizes areas such as practice and game organization, purchase and care of equipment, budget and finances, public relations, and legal liability in athletic programs. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 362 Psychology of Coaching 3(3,0) Study of psychological techniques utilized to promote maximum athletic performance. Emphasizes motivation, coaching philosophy, athletic personality, mental preparation, and goal-oriented behavior. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 371 Coaching Baseball 1(0,3) Increases understanding of basic technical and practical information concerning the coaching of baseball by utilizing the conceptual approach. Students study basic principles of coaching, competitive organization, and proper technical skills needed to improve athletic performances. Also covers total program development as it pertains to specific levels of competition. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 373 Coaching Cross Country 1(0,3) Increases understanding of technical and practical information concerning the coaching of cross country by utilizing the conceptual approach. Students study basic principles of coaching, competitive organization, and proper technical skills needed to improve athletic performances. Also covers total program development as it pertains to specific levels of competition. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 374 Coaching Football 1(0,3) Increases understanding of basic technical and practical information concerning the coaching of football by utilizing the conceptual approach. Students study basic principles of coaching, competitive organization, and proper technical skills needed to improve athletic performances. Also covers total program development as it pertains to specific levels of competition. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 375 Coaching Soccer 1(0,3) Increases understanding of basic technical and practical information concerning the coaching of soccer by utilizing the conceptual approach. Students study basic principles of coaching, competitive organization, and proper technical skills needed to improve athletic performances. Also covers total program development as it pertains to specific levels of competition. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 376 Coaching Strength and Conditioning 1(0,3) Increases understanding of basic technical and practical information concerning the coaching of strength and conditioning by utilizing the conceptual approach. Students study basic principles of coaching, training programs, and equipment appraisal as a means to improve athletic performance. Also covers total program development as it pertains to specific levels of competition. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 377 Coaching Track and Field 1(0,3) Increases understanding of basic technical and practical information concerning the coaching of track and field by utilizing the conceptual approach. Students study basic principles of coaching, competitive organization, and proper technical skills needed to improve athletic performances. Also covers total program development as it pertains to specific levels of competition. Preq: A L 349 or consent of Athletic Leadership coordinator.

A L 400 Athletic Leadership Internship 0 Athletic coaching and administration internship for a minimum of 60 hours. To be taken concurrently with any other Clemson University course. To be taken Pass/Fail only. Preq: Current CPR certification and consent of Athletic Leadership coordinator.
Courses of Instruction

A L 453, 653 Athletic Injuries: Prevention, Assessment and Rehabilitation 3(3,0) Gives students an understanding of prevention, treatment, and rehabilitation procedures of injured athletes. Preq: A L 349.

BIOCHEMISTRY

BIOCH 103 Careers in Biochemistry and Genetics 1(1,0) Introduces students to biochemistry and genetics career paths, professional organizations, ethical issues, and requirements for advanced study. Also gives students training in design of a professional portfolio. A student may not receive credit for both BIOCH 103 and GEN 103. Preq: Freshman or sophomore standing in Biochemistry or Genetics or consent of instructor.

BIOCH 301, H301 Molecular Biochemistry 3(3,0) Introduces the nature, production, and replication of biological structure at the molecular level and its relation to function. Preq: CH 223.

BIOCH 302 Molecular Biochemistry Laboratory 1(0,3) Laboratory to accompany BIOCH 301. Introduction to fundamental laboratory techniques in biochemistry and molecular biology and a demonstration of some of the fundamental principles of molecular biology discussed in BIOCH 301. Preq: CH 223. Coreq: BIOCH 301.

BIOCH 305 Essential Elements of Biochemistry 3(3,0) Introduction to structure, synthesis, metabolism, and function of biomolecules in living organisms. Preq: CH 201 or equivalent.

BIOCH 306 Essential Elements of Biochemistry Laboratory 1(0,3) Introduces students to fundamental techniques associated with tissue extraction, analysis of biomolecules, and students learn both principles and practical applications. Preq or Coreq: BIOCH 305.

BIOCH 406, 606 Physiological Chemistry 3(3,0) Studies chemical basis of the mammalian physiological processes of muscle contraction, nerve function, respiration, kidney function, and blood homeostasis. Discusses composition of specialized tissue such as muscle, nerve, blood, and bone and regulation of water, electrolytes, and acid-base balance. Preq: BIOCH 305 or organic chemistry.

BIOCH 423, 623 Principles of Biochemistry 3(3,0) Study of the chemistry of amino acids, monosaccharides, fatty acids, purines, pyrimidines, and associated compounds leads to an understanding of their properties and the relationship between structure and function that makes them important in biological processes. The use of modern techniques is stressed. Preq: CH 224 or equivalent.

BIOCH 431, H431, 631 Physical Approach to Biochemistry 3(3,0) Study of chemical and physical properties of amino acids, lipids, nucleic acids, sugars, and their biopolymers. Physical and mathematical analyses are correlated with biological structure and function. Preq: BIOCH 301 with a C or better or consent of instructor. Coreq: Physical chemistry.

BIOCH 432, H432, 632 Biochemistry of Metabolism 3(3,0) Study of the central pathway of carbohydrate, lipid, and nucleotide metabolism. Emphasizes bioenergetics, limiting reactions, and the regulation and integration of the metabolic pathways. Preq: BIOCH 423 or 431 or consent of instructor.

BIOCH 433, 633 General Biochemistry Laboratory I 2(0,4) Experiments to illustrate current methods used in biochemical research. Preq: Concurrent enrollment in BIOCH 423 or 431.

BIOCH 434, 634 General Biochemistry Laboratory II 2(0,4) Continuation of BIOCH 433. Preq: Concurrent enrollment in BIOCH 432.

BIOCH 436, H436, 636 Nucleic Acid and Protein Biosynthesis 3(3,0) Examines how nucleic acids and proteins are synthesized in prokaryotic and eukaryotic cells. Designed for students interested in biochemistry, cell biology, molecular biology, and cell physiology. Preq: BIOCH 423, 431, or 432; or consent of instructor.

BIOCH 443, 643 Biochemical Basis of Disease 3(3,0) Topics in intractable human metabolic disorders including clinical features and newborn screening, genetic testing, the biochemical basis, and treatment. Preq: BIOCH 301, GEN 302, or consent of instructor.

BIOCH 490 Selected Topics in Biochemistry 1-4(0-4,0-9) Comprehensive study of selected topics not covered in other courses. May be repeated a maximum of eight credits, but only if different topics are covered. Preq: Junior standing and consent of instructor.

BIOCH 491 Special Problems in Biochemistry 1-8(0,3-24) Orientation in biochemical research (i.e., experimental planning, execution, and reporting). May be repeated for a maximum of eight credits.

BIOCH 493, H493 Senior Seminar 2(2,0) Analysis and discussion of papers from the primary literature in the life sciences particularly in biochemistry. Students find pertinent articles in the primary literature and present and analyze the selected reading.

BIOENGINEERING

BIO E 201 Introduction to Biomedical Engineering 3(3,0) Provides engineering, biological, and physical science students with an overview of the replacement of human body parts and the problems related to artificial devices. Offered fall semester only. Preq: CH 102, ENGR 130, or consent of instructor.

BIO E 302 Biomaterials 3(3,0) Study of metallic, ceramic, and polymer materials used for surgical and dental implants; materials selection, implant design, physical and mechanical testing; corrosion and wear in the body. In addition, physical and mechanical properties of tissue as related to microstructure are studied. Offered spring semester only. Preq: C M E 210, CH 201, or consent of instructor.

BIO E 320 Biomechanics 3(3,0) Study of relation between biological and mechanical functions of musculoskeletal tissues such as bone, ligaments, muscles, cartilage, etc.; mechanics of human joints; analysis of implants and implant failure. Preq: C E 208 or E M 201 or M E 201.

BIO E 370 Bioinstrumentation and Bioimaging 3(2,3) Introduction of fundamental topics in bioinstrumentation and bioimaging focused on the acquisition and monitoring of vital signals. Basic principles for the selection and appropriate use of instruments for solving bioengineering and medical problems such as microscopy, magnetic resonance imaging, and ultrasounds, among others are addressed. Preq: E E 320, MTHSC 208, PHYS 221, or consent of instructor.

BIO E 400 Senior Seminar 1(1,0) Addresses problems to be encountered by bioengineering graduates in professional practice. Invited lecturers and faculty provide lectures and demonstrations. Pertinent information on job interview skills, career placement and guidance, professional registration, professional ethics in bioengineering, entrepreneurship and patents, and business management are provided. To be taken pass/fail only. Preq: Senior standing in Bioengineering.

BIO E 401 Biomedical Design 3(1,6) Covers basic steps in designing medical devices intended for short- or long-term implantation. Materials selection, fabrication processes, performance standards, cost analysis, and design optimization are covered. Design project is required. For engineering majors only. Preq: BIO E 302 or consent of instructor.

BIO E 402 Biocompatibility 3(2,3) Determining compatibility of biomaterials with the physiological environment using optical microscopy, microradiography, and ultraviolet fluorescence. Histological evaluation of implant-tissue interface and basic pathological reactions and tissue reactions to materials combined with the design of histotechnological processing for new biomaterials. Preq: BIO E 302, C M E 210, or consent of instructor.

BIO E 420 Sports Engineering 3(3,0) Study of engineering principles involved in sports: body systems in human motion, analysis of gait, basic performance patterns in athletic movements, performance improvements, design of sports equipment. Preq: BIO E 302 and 320 or consent of instructor.

BIO E 440, 640 Biotechnology for Bioengineers 3(3,0) Explores the principles necessary to use microorganisms, tissue culture, and enzymes in bioengineering applications, including molecular techniques, fermentation, process scale-up, purification processes, and FDA regulations. Emphasizes production of biopharmaceuticals derived from recombinant systems, including uses in medical systems. Preq: BIOCH 305 or consent of instructor.
BIO E 448 Tissue Engineering 3(2,3) Explores the application of engineering principles toward the development of biologically based substitutes that restore, maintain, or improve tissue function. Topics include biodegradable scaffolds, wound healing and tissue repair, cell-matrix interactions, immunology and biocompatibility, stem cells. Preq: BIO E 302.

BIO E 450, H540 Special Topics in Bioengineering 1-4(1-4,0) Comprehensive study of a topic of current interest in the field of biomedical engineering under the direct supervision and guidance of a faculty member. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

BIO E 451 Creative Inquiry—Bioengineering 3(3,0) Disciplinary and multidisciplinary team research projects with the goal of developing the students' skills in literature research, engineering design, and data analysis. May be repeated for a maximum of six credits. Preq: Consent of instructor.

BIO E 476 Biosurface Engineering 3(2,3) Study of how surface design influences the interactions of biomolecules with biomaterials, and how this in turn influences implant biocompatibility. Laboratory addresses both the theory and application of various analytical instruments commonly used in bioengineering to characterize biomaterials surfaces and investigate biomolecule-surface interactions. Preq: Junior standing in Bioengineering.

BIO E (C M E) 480, 680 Research Principles and Concepts 1(1,0) Introduces seniors and graduate students to principles and practices of scientific research. Topics include developing scientific concepts, developing projects, pursuing research, collaborating in multidisciplinary teams, patenting and publishing technical and scientific information, and reviewing professional and ethical standards of performance. To be taken Pass/Fail only.

BIO E 490 Internship 10(0,3) Observation and assignment in a medical school, dental school, hospital, regulatory agency, or industrial department. May be repeated for a maximum of two credits. Preq: Senior standing in Bioengineering, consent of department chair.

BIOL SCIENCE

BIOSC 101 Frontiers in Biology I 1(1,0) Introduces Biological Sciences majors to University career and library services, evaluation of computer program proficiency, Web page development, Biological Sciences emphasis areas, and Biological Sciences faculty. Students initiate their own Web-based student portfolios, which showcase their skills and experiences (e.g., résumés, accomplishments, and work samples) during their undergraduate programs. Coreq: BIOL 103/105 or 110 or consent of course coordinator.

BIOSC 102 Frontiers in Biology II 1(1,0) Introduces Biological Sciences majors to recent advances in organismal and evolutionary biology. Topics include ecology, evolution, behavior, and organismal biology. Preq: BIOL 103/105 or 110 or consent of course coordinator.

BIOSC 200 Biology in the News 3(3,0) For non-science majors. Students examine current topics of biology appearing in newspapers and other current media. Uses a problem-based learning approach, with students working as teams and individually on areas of interest identified by the class. Preq: ENGL 103, General Education Natural Science Requirement.

BIOSC 205 Plant Form and Function 3(3,0) Introductory course for students majoring in plant sciences. Integrates lecture and laboratory and emphasizes fundamental structures and functions of higher plants. Preq: BIOL 103/105 or consent of instructor.

BIOSC 206 Plant Form and Function Laboratory 1(0,3) Laboratory for BIOSC 205. Preq or Coreq: BIOSC 205 or consent of instructor.

BIOSC 210 Introduction to Toxicology 3(3,0) Acquaints students with the field of toxicology, integrates the sciences of toxicology with regulatory policies, and demonstrates its impact on our daily lives. Preq or Coreq: BIOL 103/105, 110, or consent of instructor.

BIOSC 222 Human Anatomy and Physiology I 4(3,2) Basic introductory course in integrated human anatomy and physiology covering cells and tissues; integumentary, skeletal, muscular, and nervous systems; sensory organs. Physiology is stressed. Structured primarily for Nursing and other health-related curricula. Preq: BIOL 103/105 or 110; CH 101 and 102, or 105 and 106.

BIOSC 223 Human Anatomy and Physiology II 4(3,2) Continuation of BIOSC 222 covering endocrine, reproductive, cardiovascular, lymphatic, respiratory, urinary, and digestive systems; fluid and electrolyte balance. Physiology is stressed. Preq: BIOSC 222 or consent of instructor.

BIOSC (ENT) 301 Insect Biology and Diversity 3(4,3) See ENT 301.

BIOSC 302, H302 Invertebrate Biology 3(3,0) In-depth survey and comparison of free-living invertebrate animals emphasizing functional anatomy, development, and evolutionary relationships. Preq: Introductory two-semester biology sequence with laboratory. Coreq: BIOSC 306.

BIOSC 303, H303 Vertebrate Biology 3(3,0) Comprehensive survey of vertebrate animals including their taxonomy, morphology, evolution, and selected aspects of the natural history and behavior. Preq: Introductory two-semester biology sequence with laboratory.

BIOSC 304, H304 Biology of Plants 3(3,0) Survey of the major groups of plants, their biology, diversity, and evolution. Preq: BIOL 104/106 or 111 or BIOSC 205. Coreq: BIOSC 308.

BIOSC 305, H305 Biology of Algae and Fungi 3(3,0) Introduction to the biology of the major groups of algae and fungi. Emphasizes how select representatives of the algae and fungi are adapted to their environment through structural, physiological, and life-cycle modifications. Preq: BIOL 104/106 or 111 or BIOSC 205.

BIOSC 306 Invertebrate Biology Laboratory 1(0,3) Survey and comparison of the biology of living invertebrates, examples of which are drawn primarily from the southeastern coast of the United States. Preq: Introductory two-semester biology sequence with laboratory. Coreq: BIOSC 302.

BIOSC 307 Vertebrate Biology Laboratory 1(0,3) Comparative and phylogenetic study of the gross morphology of vertebrates. Preq or Coreq: BIOSC 303.

BIOSC 308 Biology of Plants Practicum 1(0,3) Laboratory exercises that explore the major groups of plants, their biology, diversity, and evolution. Preq or Coreq: BIOSC 304.

BIOSC 309 Algae/Fungi Practicum 1(0,3) Practice in the manipulation and examination of selected algae and fungi, with emphasis on culture techniques and examination of the structure and adaptations of the algae and fungi to different environments. Preq or Coreq: BIOSC 305.

BIOSC (W FB) 313 Conservation Biology 3(3,0) See W FB 313.

BIOSC 315 Functional Human Anatomy 4(3,3) Introduction to the anatomical structures associated with all organ systems found in the human body at both the gross and microscopic level. Basic physiology is integrated into the course to assist with understanding the function of the anatomical systems. Preq: BIOL 103/105 or 110 or consent of instructor.

BIOSC 320 Field Botany 4(2,4) Introductory study of the taxonomy, ecology, and evolution of plants in their natural environment with an emphasis on identification and characteristics of representative species and plant communities in the Carolinas. Includes one or two required Saturday field trips. Preq: BIOL 104/106, 111, or BIOSC 205, or consent of instructor.

BIOSC 335 Evolutionary Biology 3(3,0) Introduction to basic concepts and underlying principles of modern evolutionary biology. Topics include a historical overview of evolutionary theories, elementary population genetics, principles of adaptation, speciation, systematics and phylogenetic inference, fossil record, biogeography, molecular evolution, and human evolution. Preq: GEN 302 or equivalent.

BIOSC (PL PH) 340 Plant Medicine and Magic 3(3,0) See PL PH 340.
Courses of Instruction

BIOSC (MICRO) 394 Selected Topics in Creative Inquiry I 2-3(1,3-6) Disciplinary and multidisciplinary group research projects with the goal of developing the students’ ability to discover, analyze, and evaluate data. Students are required to document their research activities in their portfolios. May be repeated for a maximum of six credits. Preq: Consent of instructor.

BIOSC 400, H400, 600 Insect Morphology 4(3,3) See ENT 400.

BIOSC 401, H401, 601 Plant Physiology 3(3,0) Relations and processes pertaining to maintenance, growth, and reproduction of plants, including absorption of matter and energy, water relations of the plant, utilization of reserve products and liberation of energy. Preq: BIOL 104/106 or 111 or BIOSC 205 and CH 102. Coreq: BIOSC 402.

BIOSC 402, 602 Plant Physiology Laboratory 1(0,3) Laboratory exercises and experiments designed to indicate the relations and processes which pertain to maintenance, growth, and reproduction of plants, including absorption of matter and energy, water relations of the plant, utilization of reserve products, and liberation of energy. Coreq: BIOSC 401.

BIOSC (GEN) 405, H405, 605 Molecular Genetics of Eukaryotes 3(3,0) See GEN 405.

BIOSC 406, H406, 606 Introductory Plant Taxonomy 3(3,0) Introduction to the basic principles and concepts of plant systematics with emphasis on the plants of South Carolina. Preq: BIOL 104/106 or 111 or BIOSC 205. Coreq: BIOSC 407.

BIOSC 407, 607 Plant Taxonomy Laboratory 1(0,3) Introduction to basic techniques of plant taxonomy with laboratory and field emphasis on the flora of South Carolina. Coreq: BIOSC 406.

BIOSC 408, H408, 608 Comparative Vertebrate Morphology 3(3,0) Phylogeny and diversity of vertebrates and study of their comparative morphology, leading to an understanding of their relationships and functioning of living organisms. Preq: BIOL 104/106 or 111. Coreq: BIOSC 409.

BIOSC 409, H409, 609 Comparative Vertebrate Morphology Laboratory 2(0,5) Comparative anatomy of representative vertebrates; methods used in preparing specimens for study and display. Coreq: BIOSC 408.

BIOSC 410, 610 Limnology 3(3,0) Detailed introduction to the physical, chemical, and biological interrelationships that characterize inland water environments. A fundamental approach to the interactions of components of the environment is developed at a theoretical level. Preq: Junior standing in a life science or consent of instructor.

BIOSC 411, H411, 611 Limnological Analyses 2(1,2) Examines a broad range of topics covered with both standing and running fresh waters. About one-third of the laboratory exercises address the major physical components of lakes and streams. The remainder provides rationale and methods for quantitative analyses of biota, as well as some integrated analyses of whole ecosystems. Preq or Coreq: BIOSC 410 or 443.

BIOSC (E N R) 413, 613 Restoration Ecology 3(3,0) See E N R 413.

BIOSC (AVS, MICRO) 414, H414, 614 Basic Immunology 4(3,3) See MICRO 414.

BIOSC (ENT) 415, 615 Insect Taxonomy 3(1,6) See ENT 415.

BIOSC (GEN) 416, 616 Recombinant DNA 3(3,0) See GEN 416.

BIOSC 417, 617 Marine Biology 3(3,0) Survey of the organisms that live in the sea and their adaptations to the marine environment. Emphasizes characteristics of marine habitats, organisms, and the ecosystems. Preq: BIOL 104/106, 111, or consent of instructor.

BIOSC (GEN, MICRO) 418, 618 Biotechnology I: Nucleic Acids Techniques 4(2,4) See GEN 418.

BIOSC 420, H420, 620 Neurobiology 3(3,0) Broad background in neurobiology. Topics include neuroanatomical structure-function; conduction in the neuron; neurite growth and development; neuromuscular junction; chemistry, physiology, and pharmacology of specific neurotransmitters and receptors; visual process; axoplasmic transport; hypothalamic-pituitary regulatory theories of behavior; theories of learning and memory. Coreq: BIOSC 301 or 305 or consent of instructor.

BIOSC 425, 625 Introductory Mycology 3(0) Introduction to the biology of all the fungi and some related organisms, with considerations of the taxonomy, morphology, development, physiology, and ecology of representative forms. Preq: BIOL 104/106 or 111 or BIOSC 205.

BIOSC 426, 626 Mycology Practicum 2(1,2) Application of the principles of mycological techniques, including isolation, culture, identification, and microscopic study of fungi. Examples from all major groups of fungi are included. Preq or Coreq: BIOSC 425.

BIOSC 432, H432, 632 Animal Histology 3(0) Structural and functional study of the basic tissues of animals and tissue makeup of organs. Emphasizes light microscopy level with selected tissue studied at the electron microscope level. Preq: BIOSC 303 or consent of instructor. Coreq: BIOSC 433.

BIOSC 433, H433, 633 Animal Histology Laboratory 2(1,2) Microscopic examination of basic animal tissue types and the tissue makeup of organisms which comprise systems. Coreq: BIOSC 432.

BIOSC (ENT) 436, 636 Insect Behavior 3(2,3) See ENT 436.

BIOSC 440, H440, 640 Developmental Animal Biology 3(3,0) Events and mechanisms responsible for the development of multicellular animals. Gametogenesis, fertilization, embryonic development, cellular differentiation, morphogenesis, larval forms and metamorphosis, sexual reproduction, regeneration, malignancy, and aging are analyzed in terms of fundamental concepts and control processes. Preq: BIOCCH 301 or 305 or consent of instructor. Coreq: BIOSC 450.

BIOSC 441, H441, 641 Ecology 3(3,0) Study of basic ecological principles underlying the relationships between organisms and their biotic and abiotic environments. Includes physiological, population, and community ecology, with applications of each to human ecological concerns. Preq: BIOL 104/106, 111, BIOSC 205, or consent of instructor.

BIOSC 442, H442, 642 Biogeography 3(3,0) Study of patterns of distribution of plants and animals in space and time. Preq: BIOSC 302 or 303 and 304 or 305 or consent of instructor.

BIOSC 443, 643 Freshwater Ecology 3(3,0) Study of basic ecological principles and concepts as they apply to freshwater environments: rivers and streams, wetlands, lakes and ponds, and reservoirs. Preq: Junior standing in a life science or consent of instructor.

BIOSC 444, 644 Freshwater Ecology Laboratory 2(1,2) Laboratory-based course providing a synthesis of major components of freshwater ecosystems. Activities are hypothesis-driven and relate to each other to form an overall synthesis of the field. Hands-on experience allows engagement in creative inquiry. Preq or Coreq: BIOSC 443 or equivalent or consent of instructor.

BIOSC 445, H445, 645 Ecology Laboratory 2(1,2) Modern and classical approaches to the study of ecological problems discussed in BIOSC 441. Students are introduced to field, laboratory, and computer-based analyses of plant and animal populations and communities. Preq or Coreq: BIOSC 441.

BIOSC 446, H446, 646 Plant Ecology 3(3,0) Ecology of plants in relation to their biotic and abiotic environments. Individual organisms, populations, and communities are considered with an emphasis on seed plants in terrestrial environments. Preq: BIOL 104/106, 111, BIOSC 205, or consent of instructor.

BIOSC 447, H447, 647 Plant Ecology Laboratory 2(1,2) Experimental and observational approach to addressing principles discussed in BIOSC 446. Students are introduced to field and laboratory methods involving individual organisms, populations, and communities. Preq or Coreq: BIOSC 446 or consent of instructor.

BIOSC 450, H450, 650 Developmental Biology Laboratory 2(1,2) Examines a broad range of topics concerned with the development of multicellular animals such as gametogenesis, fertilization, embryonic development, cell differentiation, morphogenesis, larval metamorphosis, and regeneration. Laboratory exercises provide the rationale and methods for the descriptive and experimental analysis of development in representative invertebrates and vertebrates. Preq or Coreq: BIOSC 440 or equivalent.

BIOSC 452, 652 Plant Anatomy and Morphology 3(3,0) Study of the anatomy, reproduction, and phylogenetic relationships of vascular plants. Preq: BIOL 104/106, 111, BIOSC 205, or consent of instructor.

BIOSC 453, 653 Plant Anatomy and Morphology Laboratory 2(1,2) Laboratory focusing on the anatomy, reproduction, and phylogenetic relationships of vascular plants. Coreq: BIOSC 452.
B IOSC 454, 654 Plant Virology 4(3,3) Study of plant viruses: their morphology, biochemistry, purification, and transmission; symptoms resulting from virus infection; virus vector relationships. Serological and nucleic acid hybridization procedures. Diagnosis of viral diseases and the identification of causal agents. Replication of plant viruses, the interaction between viral hosts and plant genome. Control of plant viral diseases. Preq: BIOSC 301, MICRO 305, or consent of instructor.

B IOSC (ENT) 455, H455, 655 Medical and Veterinary Entomology 3(2,3) See ENT 455.

B IOSC 456, H456, 656 Medical and Veterinary Parasitology 3(3,3) Introduction to parasitism in the animal kingdom. Emphasizes basic and applied principles related to economically and medically important diseases. Classical and experimental approaches to the study of parasitism are examined in reference to protozoa, helminths, and arthropods. Preq: BIOL 104/106 or 111. Coreq: BIOSC 457.

B IOSC 457, H457, 657 Medical and Veterinary Parasitology Laboratory 2(1,2) Laboratory to reinforce material presented in BIOSC 456. Introduces students to both live and preserved human/animal parasites. Also introduces techniques used in collection, preservation, and examination of animal parasites. Coreq: BIOSC 456.

B IOSC 458, H458, 658 Cell Physiology 3(3,3) Study of the chemical and physical principles of cell function emphasizing bioenergetics and membrane phenomena. Preq: BIOSC 301 or 305 or consent of instructor.

B IOSC 459, H459, 659 Systems Physiology 3(3,0) Physiological systems of vertebrates and their homeostatic controls. Describes the function of the major physiological systems in terms of anatomical structure and chemical and physical principles. Preq: One year each of biology, chemistry, and physics or consent of instructor.

B IOSC 460, 660 Systems Physiology Laboratory 2(1,2) Modern and classical experimental methods are used to demonstrate fundamental physiological principles discussed in BIOSC 459. Students are introduced to computer-aided data acquisition and computer simulations of physiological function. Preq or Coreq: BIOSC 459.

B IOSC 461, H461, 661 Cell Biology 3(3,0) In-depth analysis of how and where intracellular and extracellular molecules control general and specific cellular functions such as gene expression, secretion, motility, signaling, cell-cycle control and differentiation. Taught and graded at a level where students are expected to infer from and integrate cellular events. Preq: BIOSC 301 or consent of instructor.

B IOSC 462, 662 Cell Biology Laboratory 2(1,2) Laboratory to accompany BIOSC 461. Focuses on molecular and microscopic analysis of eukaryotic cells. Coreq: BIOSC 461.

B IOSC 464, 664 Mammalogy 4(3,3) Origin, evolution, distribution, structure, and function of mammals, with laboratory emphasis on the mammals of the Southeast. Field trips and live trapping of mammals are required. Preq: BIOSC 303 or consent of instructor.

B IOSC (GEN, HORT) 465, 665 Plant Molecular Biology 3(3,0) See HORT 465.

B IOSC 466, 668 Herpetology 3(2,3) Systematics, life history, distribution, ecology, and current literature of amphibians and reptiles. Laboratory study of morphology and identification of world families and U.S. genera, as well as all southeastern species. Field trips are required. Preq: BIOSC 303 or consent of instructor.

B IOSC (ENT, W F B) 469, H469, 669 Aquatic Insects 3(1,6) See ENT 469.

B IOSC 470, H470, 670 Behavioral Ecology 3(3,0) Historical and modern developments in animal behavior emphasizing the evolutionary and ecological determinants of behavior. A synthesis of ethology and comparative psychology. Preq: BIOSC 302 or 303 or consent of instructor.

B IOSC 471, 671 Behavioral Ecology Laboratory 2(1,2) Laboratory exercises that explore the behavior of animals. Emphasizes behavioral observation and analysis and presentation of findings in a report format. Includes a semester-long independent research project. Preq or Coreq: BIOSC 470 or consent of instructor.

B IOSC 472, 672 Ornithology 4(3,3) Biology of birds: their origin and diversification, adaptations, phylogeny, classification, structure and function, behavior, ecology, and biogeography. Field identification is emphasized and field trips are required. Preq: BIOSC 303 or consent of instructor.

B IOSC 473, 673 History of Modern Biology 3(3,0) Examines the intellectual and social factors defining the study of life from the scientific revolution of the 1600s to the modern biological sciences. Investigates the historical origins of biological disciplines and explores the differing cultural methodologies and philosophical commitments of these communities. Preq: Introduction to biology or consent of instructor.

B IOSC 475, H475, 675 Comparative Physiology 3(3,0) Physiological systems of invertebrates and vertebrates emphasizing environmental adaptations. Physiological principles as they relate to metabolism, thermoregulation, osmoregulation, respiration and neural and integrative physiology. Preq: One year each of biology, chemistry, and physics or consent of instructor.

B IOSC 476, H476, 676 Comparative Physiological Laboratory 2(1,2) Modern classical experimental methods are used to demonstrate fundamental physiological principles discussed in BIOSC 475. Students are introduced to computer-aided data acquisition and manipulation as well as computer simulations of physiological function. Preq or Coreq: BIOSC 475.

B IOSC 477, H477, 677 Ichthyology 3(2,3) Systematics, life history, distribution, ecology, and current literature of fish. Laboratory study of morphology and identification of U.S. genera, as well as all southeastern species. Field trips are required. Preq: BIOSC 303 or consent of instructor.

B IOSC (AVS) 480, 680 Vertebrate Endocrinology 3(3,0) Introduction to the basic principles of neuro-endocrine integration and homeostatic maintenance in vertebrates. Comparative morphology and physiology of various endocrine tissues and hormone chemistry and modes of action are considered. Preq: BIOSC 303, organic chemistry, or consent of instructor.

B IOSC 481, 681 Web Design for the Life Sciences and Agriculture 3(2,2) Addresses basic principles and theories of Web design and site construction, including usability and accessibility considerations. Web and graphics design software are used to develop sites suitable for life science and agricultural organizations. Service-learning is used with student projects. Preq: AG ED 200, CP SC 120, or consent of instructor.

B IOSC 486 Natural History 3(3,0) Interdisciplinary examination, through readings and critical discussion, of concepts of nature and biodiversity in relation to human endeavors. Course seeks to achieve a balanced perspective from which to seek compromises between conflicting views of nature. Preq: BIOSC 441, 443, or 446, or equivalent, or consent of instructor.

B IOSC 490 Selected Topics in Biological Sciences 1-4(1,0-0,9) Comprehensive study of selected topics not covered in other courses. May be repeated for a maximum of eight credits, but only if different topics are covered. Preq: Junior standing or consent of instructor.

B IOSC 491, H491 Undergraduate Research in Biological Sciences 1-4(0-3,1-2) Mentored research problems introduce undergraduate students to the planning and execution of research and the presentation of research findings. May be repeated for a maximum of eight credits. Honors students must take at least six hours under a single research advisor over two semesters and must write an honors thesis. Preq: Consent of instructor.

B IOSC (MICRO) 492 Internship for Biological Sciences 1-4(0-3,1-2) Preplanned internship at an advisor-approved facility to give students learning opportunities beyond their classroom experiences. Students submit a Student Internship Contract and a two-page study plan before the internship and a comprehensive report within one week of the end of the internship. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Preq: Consent of advisor.

B IOSC (MICRO) 493 Senior Seminar 2(2,0) Capstone course engaging students in analysis and discussion of publications from the technical and non-technical literature in biological sciences and from current topics of biology appearing in other media. Students complete their undergraduate on-line digital portfolios. Emphasis is placed on ethical issues that arise as a result of biological research. Preq: Senior standing; COMM 150 or ENGL 314; or consent of instructor.

B IOSC (MICRO) 494 Selected Topics in Creative Inquiry II 2-3(1,3-6) Disciplinary and multidisciplinary group research projects with the goal of developing the students’ ability to discover, analyze, and evaluate data. Students are required to document their research activities in their portfolios. May be repeated for a maximum of six credits. Preq: Consent of instructor.

B IOSC (MICRO) 495 Service Learning in Biology 2-4(1,2,3-9) Combines service and academic learning while helping pre-college or college students learn about the fundamental aspects of science. Provides lecture and laboratory experiences as students learn to prepare and participate in supervised laboratory teaching for pre-college or college students. May be repeated for a maximum of six credits. Preq: Consent of instructor.
BIOL 103, H103 General Biology I 3(3,0) First in a two-semester sequence. Includes an evolutionary approach to cells, cellular activities, genetics, and animal diversity emphasizing the processes of science. Credit toward a degree will be given for BIOL 103 or 110 only.

BIOL 104, H104 General Biology II 3(3,0) Continuation of BIOL 103. Includes an evolutionary approach to human anatomy and physiology, plant diversity, morphology, and physiology and principles of ecology. Credit toward a degree will be given for BIOL 104 or 111 only.

BIOL 105 General Biology Laboratory I 1(0,3) Laboratory to accompany BIOL 103. Emphasizes developing laboratory techniques, becoming familiar with biological instrumentation, and performing investigations and interpreting results in the areas of biochemistry, cell biology, and molecular biology. Coreq: BIOL 103.

BIOL 106 General Biology Laboratory II 1(0,3) Laboratory to accompany BIOL 104. Emphasizes developing laboratory techniques, becoming familiar with biological instrumentation, and performing investigations and interpreting results in the areas of organismal structure, physiology, and ecology. Coreq: BIOL 104.

BIOL 109 Introduction to Life Science 4(3,3) Survey of topics in botany, zoology, microbiology, and ecology emphasizing comprehension and practical application of life-science concepts to experiments and activities for the elementary school classroom. Enrollment priority will be given to Early Childhood and Elementary Education majors.

BIOL 110, H110 Principles of Biology I 5(4,3) Introductory course designed for students majoring in biological disciplines. Integrates lecture and laboratory and emphasizes a modern, quantitative and experimental approach to explanations of structure, composition, dynamics, interactions, and evolution of cells and organisms. High school chemistry is recommended. Credit toward a degree will be given for BIOL 110 or 103 only. Coreq: CH 101.

BIOL 111, H111 Principles of Biology II 5(4,3) Continuation of BIOL 110, emphasizing the study of plants and animals as functional organisms and the principles of ecology. Credit toward a degree will be given for BIOL 111 or 104 only. Preq: BIOL 110.

BIOL 120 Biological Inquiry Laboratory 1(0,3) Required laboratory experience to accompany BIOL 121, 122, 123, or 124. Focuses on the process and outcomes of scientific inquiry. Students employ scientific methodology in a laboratory environment as well as critical analysis of biological problems in a small group context. Coreq: BIOL 121, 122, 123, or 124.

BIOL 121 Keys to Human Identity 3(3,0) Introduction to scientific inquiry that emphasizes the biological aspects of human identity, including genetics, development, and the brain. Applications in biotechnology and ethical issues associated with these topics are discussed. Credit toward a degree will be given for only one of BIOL 121, 122, 123, or 124.

BIOL 122 Keys to Biodiversity 3(3,0) Introduction to scientific inquiry through analysis of biodiversity. Biological foundations for life are studied, including evolution, ecology, genetics, cells, and molecules. Also includes discussion of ethical issues related to biodiversity. Credit toward a degree will be given for only one of BIOL 121, 122, 123, or 124.

BIOL 123 Keys to Human Biology 3(3,0) Introduction to scientific inquiry through human biology. Considers biological processes occurring within humans and human impact on global biological processes. Interrelationships ultimately affecting evolution and diversity are explored. Credit toward a degree will be given for only one of BIOL 121, 122, 123, or 124.

BIOL 124 Keys to Reproduction: Cells, Organisms, Populations, Ecosystems 3(3,0) Introduction to scientific inquiry through analysis of the process of reproduction. The ethics of human reproduction and the evolution and ecological impact of population growth and extinction are emphasized. Credit toward a degree will be given for only one of BIOL 121, 122, 123, or 124.

BIOL 201 Biotechnology and Society 3(3,0) Introduction to the theoretical, fields, and applications of biotechnology including the structure and function of genes and their manipulation to improve plant and animal productivity and human health. Individual case studies are examined including social and ethical issues surrounding biotechnology-based research and development. Not open to Genetics majors. Preq: BIOL 120 and 122, 123, or 124; or equivalent; or consent of instructor.

BIOL 203 Human Disease and Society 3(3,0) Focuses on the basic biology underlying human disease, how disease is understood, and current methods of prevention and treatment of disease. The economics as well as the social and ethical issues surrounding human disease are a common thread throughout the course. Preq: BIOL 104/106; 111; 121, 122, 123, or 124; or consent of instructor.

BIOL 210 Evolution and Creationism 3(3,0) Critical review of the scientific and technological basis for evolutionary theory compared to creationist explanations for the origin and diversity of life. Includes a historical survey of the impact that the evolution/creation debate has had on law, politics, education, and other important aspects of society. Preq: BIOL 104/106; 111; 121, 122, 123, or 124; or consent of instructor.

BIOL 220 Biology: Concepts, Issues, and Values 3(3,0) Develops a thorough knowledge of basic biological concepts and issues and explores how these can be incorporated into a system of human values affecting technology, society, and life.

BIOMOLECULAR ENGINEERING

BMOL 423, 623 Bioseparations 3(3,0) Study of principal methods of separation and purification of bioproducts, such as proteins, amino acids, and pharmaceuticals. Topics include analytical bioseparations, membrane separations, sedimentation, cell disruption, extraction, adsorption, chromatography, precipitation, crystallization, and drying. Preq: BIOCH 301, CH E 330, or consent of instructor.

BMOL 425, 625 Molecular Engineering 3(3,0) Introduction to basic principles of molecular engineering: the purposeful manipulation of biological molecules and processes applied to problems and issues in the life sciences, biotechnology, and medicine. Topics include carbohydrates, proteins, nucleic acids, and lipids with emphasis on their structure-property-function relationships; molecular recognition; biochemical pathway engineering; and cell growth. Preq: CH E 230 and 319 or consent of instructor.
B E H 301 Biosystems Engineering Honors Thesis
Research 3(0,6) Honors thesis project proposal, initial research, report, and presentation of biosystems engineering project for completion of junior requirements of the Biosystems Engineering Honors program. Preq: B E H 300

B E 312 Biological Kinetics and Reactor Modeling 3(2,3) Fundamentals of microbial and biochemical kinetics used in analysis and design of biological systems. Topics include mathematical and computer modeling of biological kinetics and systems, estimating model coefficients, and development of microbial kinetic models as basis for batch and continuous reactor design. Preq: B E 212, MTHSC 208.

B E 314 Biosystems Engineering Mechanical Design 3(3,0) Study of basic mechanical design of biosystems. Includes an introduction to biomechanics and biomaterial properties. Studies applications of machine components and their selection related to specific types of biosystems. Team design project is required. Preq: C E 206 or M E 302.

B E 322 Small Watershed Hydrology and Sedimentology 3(3,0) Fundamental relationships governing rainfall disposition are used as bases for defining the hydrology of watersheds. Emphasizes application of modeling techniques appropriate for runoff and sediment control. Preq: PHYS 122. Coreq: C E 321 or CSENV 202.

B E 370 Practicum 1-3 Preplanned internship with an approved employer involved with biosystems engineering endeavors. A minimum of 130 hours of supervised responsibility is required per credit hour. Evaluation is based on activity journal, written/oral report, and an evaluation from the supervisor. May be repeated for a maximum of three credits. To be taken Pass/Fail only. Preq: Junior standing and departmental consent.

B E H 400 Biosystems Engineering Honors Thesis 3(0,6) Individual research projects are conducted under the supervision and guidance of a faculty member. Senior honors thesis is required. Preq: B E H 300, H301.

B E (CSENV) 408, 608 Land Treatment of Wastewater and Sludges 3(3,0) See CSENV 408.

B E 414, 614 Biosystems Engineering Unit Operations 3(2,3) Applies the basic principles of statics, dynamics, and thermodynamics to design of mechanical and electrical systems supporting biological operations and processes. Preq: B E 314, M E 310.

B E 415, H415, 615 Instrumentation and Control for Biosystems Engineers 4(3,3) Overview of modern instrumentation techniques and digital electronic components and subsystems to integrate them into digital data acquisition and control systems for biosystems. Laboratory use of equipment is emphasized. Topics include characteristics of instruments, signal conditioning, transducer theory and applications, programmable logic controllers, and digital data acquisition and control. Preq: E E C 307.

B E 417, 617 Applied Instrumentation and Control for Biosystems 2(1,3) Hardware and software implementation of digital data acquisition and control systems for application to agriculture, aquaculture, biotechnology, and other biosystems. Topics include digital electronic circuits and components, microcomputer architecture, interfacing, and programming. Preq: B E 415 or consent of instructor.

B E 422, 622 Hydrologic Modeling of Small Watersheds 3(3,0) Design of structures and development of best management practices for nonoff and sediment control from rural and urban areas, including natural and disturbed watersheds. Topics include modeling of prismatic and non-prismatic channels, ponds and detention/retention ponds. Preq: B E 322 or consent of instructor.

B E (CH E) 428, 628 Biochemical Engineering 3(3,0) Use of microorganisms and enzymes for the production of chemical feedstocks, single-cell processing, and other fermentation products. Topics include genetics and energetic of microbial metabolism, design and analysis of reactors for microbial growth and enzyme-catalyzed reactions, and considerations of scale-up, mass transfer, and sterilization during reactor design. Preq: B E 312, MICRO 305. Coreq: for Biosystems Engineering majors BIOCH 301 or 305; for Chemical Engineering majors CH E 330, 450.

B E 431 Structural Design for Biosystems 2(2,0) Analysis and design of structures and statically determinant components with emphasis on wood. Preq: C E 206 or M E 302.

B E 435, 635 Applications in Biotechnology Engineering 3(2,3) Bioengineering principles applied to the expanding fields of agricultural biotechnology, ecotechnology, and biomedical technology. Specific applications include waste treatment and ecological engineering, bioreactor propagation of plant and animal cells and tissues, applied genomics and synthetic seed production, biosensors and biomonitoring, biological implants and materials biocompatibility. Preq: B E (CH E) 428.

B E 438, 638 Bioprocess Engineering Design 3(2,2) Design and analysis of systems for processing biological materials. Topics include biotechnology, thermodynamics, transport processes, and biological properties related to bioprocess design and computational simulation. Unit operations include basic bioreactor operation, bioseparations, and preservation techniques. Preq: B E (CH E) 428.

B E 440, 640 Renewable Energy Resource Engineering 3(2,2) Investigation into merging renewable energy resources, including detailed study of solar, wind, and bioenergy alternatives. Also includes principles, technologies, and performance evaluation of components for these technologies and an introduction to tidal, hydro, geothermal, and other energy; energy conservation; cogeneration; financial, economic, and other issues related to alternative energy sources. Preq: Science or engineering major, consent of instructor.

B E 442, 642 Properties and Processing of Biological Products 2(1,3) Study of engineering properties of biological materials and their uniqueness as design constraints on systems for handling, processing, and preserving biological products. Preq: B E 333, C E 341, M E 302, 310.

B E (EE&S, FOR) 451, H451, 651 Newman Seminar and Lecture Series in Natural Resources Engineering 1(0,2) Topics dealing with development and protection of land, air, water, and related resources are covered by seminar with instructor and invited lecturers. Current environmental and resource conservation issues are addressed. Preq: Senior standing, consent of instructor.

B E 464, 664 Non-Point Source Management in Engineered Ecosystems 3(2,3) Fundamentals of non-point source pollution including quantification of environmental impact and ecosystem management related to contaminants and nutrients and to planning and design of ecological systems. Preq: MICRO 305, Senior standing in engineering, or consent of instructor.

B E 473 Special Topics in Biosystems Engineering 1-3(1-3,0) Comprehensive study of special topics not covered in other courses. Emphasizes independent pursuit of detailed investigations. Senior standing and consent of department.

B E 474 Biosystems Engineering Design/Project Management 2(1,3) Study of biological systems design using hydrowlogy principles, fluid mechanics, bioprocessing, heat/mass transfer, instrumentation, mechanical unit operations, and structural principles for project design, scheduling, and cost estimation. Topics also include engineering ethics, professional development, written and oral communication, and job skills. Senior portfolios are also developed. Preq: B E 314, 412, 415; 428 (Applied Biotechnology Concentration) or 322 (Natural Resources and Environment Concentration).

B E 475 Biosystems Engineering Capstone Design 2(0,4) Applications of hydrology, fluid mechanics, bioprocessing, heat/mass transfer, instrumentation, mechanical unit operations, and structural principles in design; project scheduling; cost estimation; ethics; environmental and social impacts; design drawings; and report documentation. Preq: B E 474; C E 431 or CH E 230.

B E (EE&S) 484, 684 Municipal Solid Waste Management 3(3,0) See EE&S 484.
BUSINESS

BUS 101 Business Foundations 1(1,0) Overview of the business environment. Topics include the economic and legal foundations of business and an introduction to the human resources, marketing, operations, and financial functions of global businesses.

BUS H291 Honors Seminar in International Business 1(1,0) Introduction to the International Business Honors Program presented through a discussion of thesis expectations, study abroad experiences, and seminars given by returning senior International Business Honors students. To be taken Pass/Fail only. Preq: Membership in Calhoun Honors College.

BUS H391 International Business Honors Thesis Research 1(1,0) Students work with a Clemson advisor and an international advisor to develop a research topic for the senior thesis. Students work and conduct research while participating in an approved study abroad. To be taken Pass/Fail only. Preq: BUS H291.

BUS H392 International Business Honors Thesis Proposal 1(1,0) Students work with a Clemson advisor and an international advisor to complete a proposal for the senior thesis. Students work and conduct research while participating in an approved study abroad. To be taken Pass/Fail only. Preq: BUS H391.

BUS H491 International Business Honors Thesis I 3(3,0) Students work with an advisor to conduct literature review and research on a senior thesis topic and prepare presentations and thesis drafts based on this work. Preq: BUS H392.

BUS H492 International Business Honors Thesis II 3(3,0) Students work with an advisor to complete a senior thesis. They prepare and present a seminar on the topic for presentation to faculty and other International Business Honors students. Preq: BUS H491.

CALHOUN HONORS SEMINAR

C H S H199 Calhoun Scholars Colloquium 3(3,0) Intellectually intensive seminar that engages freshmen honors students in dialogue about the idea of the University. Welcomes students to a community of scholars by providing perspectives and scholarly materials related to a three-credit Calhoun Honors Seminar. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

C H S H204 Honors Study/Travel 1(0,3) Study/travel experience related to a three-credit Calhoun Honors Seminar. May be repeated for a maximum of three credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

C H S H205 Methods of Interpretation 1(1,0) Seminar to teach students how to interpret documents, works of art, structures, and scholarly materials related to a three-credit Calhoun Honors Seminar. May be repeated for a maximum of three credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

C H S H206 Controversies in Science and Technology 3(3,0) Interdisciplinary honors seminar that examines social issues related to science and technology, using perspectives from science, the social sciences, and humanities. May be repeated for a maximum of three credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

C H S H209 Border Crossings: Experiences in World Cultures 1-3(1-3,0) Readings and studies that heighten understanding of world cultures and societies. Taken in conjunction with international educational experiences approved by Calhoun Honors College. May be repeated for a maximum of six credits, with a maximum of three credit hours per study abroad experience. Preq: Membership in Calhoun Honors College.

C H S H210 Exploring the Arts 3(2,3) Interdisciplinary exploration of the arts through seminar discussions and attendance at performing and visual arts events on campus. Exploration of arts and aesthetics leading to performance previews, reviews, and experiences of Brooks Center and Lee Gallery events. May be repeated for a maximum of nine credits. Preq: Membership in Calhoun Honors College.

C H S H400 Honors Contract 0(0,0) Advanced study and research taken in conjunction with any 300–400-level course. Contract requires prior approval by instructor and Honors Director. To be taken Pass/Fail only. May be repeated once, but only if in conjunction with different course. Preq: Membership in Calhoun Honors College.

CAREER AND TECHNOLOGY EDUCATION

Professors: W. L. Havice, W. D. Paige; Associate Professor: C. E. Poston; Lecturer: H. L. Harrison

CTE 110 Introduction to Career and Technology Education 3(2,3) Examines the principles of technology education in the public school system and the philosophy and organization of training and development. Students are given an orientation to the major in Technology and Human Resource Development and an overview of the principles of technology.

CTE 115 Contemporary Technological Problems 3(3,0) Provides students with an understanding of the problems and contributions of technology. Examples are taken from historical accounts and from analyses of contemporary technological intervention both in industrialized and nonindustrialized countries.

CTE 160 Training Programs in Industry 3(3,0) Introduction and first-hand experience in industrial training programs. Emphasis is on observing and participating in actual training situations as well as communications and media usage in industry. Preq: CTE 110.

CTE 180 Introduction to Technical Drawing and Computer-Aided Drafting 3(1,6) Introductory drafting course utilizing traditional drafting techniques and computer software to explore technical drawing and orthographic projection through construction of multiview and isometric projections, sectional and auxiliary views, dimensioned working drawings, developments, and intersections. Freehand sketching is a means of problem solving and analysis.

CTE 181 Technical Design 3(1,6) Provides students with the basic procedures involved in the design of a new technology product, including needs identification; functional analysis; functional allocation; resource identification; optimization; and schedule, cost, and performance management. Preq: CTE 110, 180 or equivalent; or consent of instructor.

CTE 220 Manufacturing Technology I: Systems 3(2,3) Introduction to management, personnel, and production systems studies through the creation of a corporation. Includes product identification, product research and design, selection of processes, plant design, production systems, and system enhancement. Preq: CTE 110 and 180 or consent of instructor.

CTE 221 Exploring Technology 3(3,0) Covers a wide range of technological concepts along with familiar examples of how technology impacts our lives as individuals, a society, and a global community.

CTE 230 Construction Technology I: Materials 3(2,3) Introduction to the commonly used building materials and methods of combining them in present day construction. Preq: CTE 110 or consent of instructor.

CTE 240 Power Technology I: Production 3(2,3) Study of power in terms of energy sources and the generation of power. Emphasizes the development of insights and understandings of the scientific and operational principles involved in the production and utilization of power. Preq: CTE 110 or consent of instructor.

CTE 250 Electricity 3(2,3) Theory and application of DC and AC fundamentals, including instrumentation, power sources, circuit analysis, motors, construction wiring, and electronic principles and components.

CTE 280 Communications Technology I: Processes and Materials 3(2,3) Topics include graphic communications, photography, computer application and use as a visual communication medium, and audio/video production and application.
CTE 310 Designing Creative Instruction 3(2,2)
Provides preservice teachers with opportunities to develop skills in technological literacy, design, inquiry-based instruction, and problem solving using a variety of media, with emphasis on their applications in the elementary curriculum. Preq: Junior standing in Early Childhood or Elementary Education or consent of instructor.

CTE (ED F) 315 Technology Skills for Learning 1(0,2) See ED F 315.

CTE 360 Safety 3(3,0)
Study of the relationship of training and safety personnel to the kinds of tasks they are asked to perform. Emphasizes safety knowledge development and techniques which may be used in safety training.

CTE 370 Motivation and Discipline in Career and Technology Education 3(3,0)
Provides classroom teachers and prospective teachers with knowledge and skills in techniques of student discipline and motivation with application to the technology education settings.

CTE 371 Management of Career and Technology Education Laboratories 3(2,2)
Management and operation of unit and multiple-activity laboratories, including laboratory design, selection and procurement of tools and equipment, budgeting, management, and coordination of activities in laboratory courses.

CTE 390 Cooperative Experience I 6(0,18)
Full-time work experience in industry. Students are required to register with the instructor one semester prior to the summer in which they plan to enroll. Offered summer session only.

CTE 410, 610 Selected Topics 1-3(1-3,0)
Subject areas organized according to program needs. Content is planned cooperatively by the University and the school system or agency requesting the course. May be repeated for a maximum of 18 credits, but only if different topics are covered. Preq: Consent of instructor.

CTE 415, 615 History and Philosophy of Career and Technology Education 3(3,0)
Study of career and technology education programs with the intent of developing a sound individual philosophy. General topics covered are history, local, state, and federal legislation; types of career and technology programs; professional organizations and career guidance.

CTE 420, 620 Manufacturing II: Computer-Integrated Manufacturing 3(2,3)
Study of computer-integrated manufacturing and its related concepts, including robotics, computer numeric control, electronic pneumatic and sensor systems, programmable logic controllers, and ancillary devices. Preq: CTE 220 or consent of instructor.

CTE 430, 630 Construction Technology II: Practices and Systems 3(2,3)
Study of industrial practices and systems affecting man, materials, and equipment associated with construction industries. Activities are directed toward developing a working knowledge of construction technology and a framework for incorporating this instruction into programs in the public and private sectors. Preq: CTE 230.

CTE 440, 640 Power Technology II: Transmission and Control Systems 3(2,3)
Continuation of CTE 240. Instruction in transmitting and controlling power for utilization in such areas as manufacturing, communications, construction, and transportation. Introduces concepts of automation and robotics to enable the classroom teachers and industry personnel to gain necessary insights into this important area of technology. Preq: CTE 240.

CTE 450 Electronics for Educators 3(1,6)
Principles of electronics as applied in communications and automatic controls involving transistors, integrated circuits, and other electronic devices and materials for the preparation of teachers of industrial arts and vocational-technical electricity and electronics. Preq: CTE 250 or equivalent.

CTE 460, 660 Developing Training Programs for Industry 3(3,0) Identification, selection, and organization of subject matter for industrial training programs. Emphasizes analysis techniques, session and demonstration planning, written instructional materials development, trainee evaluation, and planning instructional schedules. Preq: Senior standing in Workforce Training Concentration or consent of instructor.

CTE 461 Workplace Safety 3(3,0)

CTE 465, 665 Conducting and Evaluating Training Programs 3(3,0)
Basic concepts of supervision, administration, and management of training programs. Emphasis is on determining training requirements, planning, directing, and evaluating training programs. Preq: CTE 160, 460 or consent of instructor.

CTE 468, 668 Industrial Relations 3(3,0)
Emphasizes techniques and methods of effective public and industrial relations which contribute to understanding and cooperation of labor, business, professional, educational, and industrial groups.

CTE 470, 670 Course Organization and Evaluation 3(3,0)
Problems, techniques, and procedures in the preparation, selection, and organization of subject matter for instructional purposes. Methods, techniques, and preparation of materials used in the evaluation of student achievement in industrial education subjects.

CTE 471, 671 Teaching Career and Technology Education 3(3,0)
Effective methods for teaching and training in career and technology education. Emphasis is given to class organization, preparation of lesson outlines, and audio-visual aids.

CTE 472 Advanced Instructional Methods 3(3,0)
Familiarizes students with the various equipment, materials, and techniques associated with the delivery of instruction. Students design, produce, and present materials to meet specific educational objectives. Preq: CTE 471 or one year of teaching experience.

CTE 473, 673 Assessment in Career and Technology Education 3(3,0)
Study of competency testing in career and technology education which includes educational objectives and measurement; construction and use of oral, objective, short answer, matching, essay, and performance tests; and treatment of test data for grade assignments and statistical analysis.

CTE 477 Directed Teaching 12(0,36)
Supervised observation and teaching in cooperation with selected public schools in which opportunities are provided for securing experience in teaching industrial subjects. Preq: CTE 371, 471, 2.0 cumulative grade-point ratio.

CTE 478 Internship in Career and Technology Education 16(0,18)
Supervised observation and teaching in cooperation with selected area career centers, high schools, and technical colleges to provide experience in teaching specified subjects. Preq: CTE 371, consent of instructor.

CTE 479 Internship in Career and Technology Education 6(0,18)
Continuation of CTE 478. Preq: CTE 478, consent of instructor.

CTE (AG ED, ED F) 480, 680 Educational Applications of Microprocessors 3(2,2) See ED F 480.

CTE (AG ED, ED F) 482, 682 Advanced Educational Applications of Microprocessors 3(2,2) See ED F 482.

CTE 483, 683 Architectural Drafting for Career and Technology Education 3(1,6)
Study of the major aspects of architectural drawing, such as plot, floor, and foundation plans; wall sections; and elevations. Preq: CTE 180.

CTE 484, 684 Communications Technology II: Systems 3(2,2)
Continuation of CTE 280. Includes theory and operation of communications systems: telegraph, telephone, radio, television, satellites, sound/video recorders, lasers, and computers. Instruction on strategies for interpreting this area of technology to trainees and students is emphasized. Preq: CTE 280.

CTE 486, 686 Instructional Media Development 3(1,4)
Basic instructional media development techniques are presented. Students develop material using authoring software such as HyperCard, transparencies using Persuasion and/or PowerPoint, and fully storyboarded, scripted, and edited digital as well as analog video.

CTE 490 Cooperative Experience II 6(0,18)
Continuation of CTE 390.

CTE 491 Special Projects 3(3,0)
Students are assigned projects in accordance with their needs and capabilities. Projects are either experimental, theoretical, or developmental and cover subjects not thoroughly covered in other courses. Written project approval is required before registering. Preq: Consent of instructor.

CTE 492, 692 Advanced Projects 1-6 Students gain depth in content by completing projects under the supervision of an instructor in career and technology education. Written approval is required before registering. May be repeated twice for a maximum of six credits. Preq: Consent of instructor.
CERAMIC AND MATERIALS ENGINEERING

C M E 241 Metrics Laboratory 1(0,3)

Introduces students to the relation between the electrical, mechanical, and thermal properties of products and the structure and composition of these products. All levels of structure are considered from gross structures easily visible to the eye through electronic structure of atoms. Coreq: C M E 210.

C M E 242 Structure/Property Laboratory 2(0,6)

Provides a basic understanding of how microstructure interrelationships and processes affect the physical properties of materials and how environmental effects modify structure and mechanical behavior of materials. Coreq: C M E 241.

C M E 319 Materials Processing I 3(3,0)

C M E 320 Thermodynamics of Materials 3(3,0)

Introduction to physical laws that govern the equilibrium products of chemical and thermal reactions. Covers the laws of thermodynamics, phase equilibria, energy requirements for reactions, material corrosion, and environmental stability. Coreq: C M E 210, CH 101, MTHSC 108, PHYS 221.

C M E 327 Transport Phenomena 3(3,0)

Kinetic aspects of mass, heat, and fluid transport as they relate to the processing and performance of materials. Coreq: C M E 326, MTHSC 208.

C M E 328 Phase Diagrams for Materials Processing and Applications 3(3,0)

Teaches students to use single component, binary, and ternary phase diagrams to analyze material processing routes and utilization. Considers reaction pathways by which material microstructure evolves and the relationship of reaction pathway to equilibrium phase diagrams. Also considers material interactions/degradation during use. Coreq: C M E 326.

C M E 342 Manufacturing Processes and Systems 3(3,0)

Plant layout and design for manufacturing of ceramic products. Emphasizes process control and verification of processing results. Includes adaption of computers in process simulation/robotics and the use of programmable logic controllers and robotics in processing. Coreq: C M E 326.

C M E 343 Combustion Systems and Environmental Emissions 3(3,0)

Study of the application of burners, burner controls, firing atmospheres, hydrocarbon fuels, and other energy resources to industrial kilns, furnaces, and firing operations. Topics include energy resources, fuel chemistry, combustion analysis, ratio control systems, flow and pressure measurement and control, kiln atmosphere controls, industrial burners, and flames. Coreq: C M E 326.

C M E 411 Manufacturing Laboratory 1(0,3)

Provides students with the understanding of process optimization. Emphasizes the use of complex experimental design schemes to elucidate the interrelationships between processing, structural development, and resulting properties. Coreq: C M E 417.

C M E 445 Practice of Materials Engineering 1(1,0)

Students working in groups present and discuss practical, ethical, safety, business, and selected technical topics. Invited speakers discuss various aspects of the engineering world. To be taken Pass/Fail only. Coreq: C M E 432.

CHEMICAL ENGINEERING

Professors: D. A. Bruce, P. C. H. Gooding, J. G. Goodwin, Jr., Chair; A. Goupee-Elie, R. L. Melsheimer, A. A. Ogle, M. C. Thiess; Associate Professors: D. A. Bruce, G. H. Hilt, S. M. Husson, S. M. Kelby; R. W. Rice; Assistant Professors: C. L. Kitchens, A. T. Metters

C H E 103 Chemical Engineering Tools 3(2,2)

Tools and methods for analyzing engineering problems with applications in chemical and biochemical processes, including development of process flow diagrams, numerical methods, graphing, and applied statistics. Problem-solving and computer skills are developed in the lecture and laboratory activities. Coreq: C M E 326, MTHSC 108, PHYS 122.

C H E 109 Creative Inquiry—Chemical and Biochemical Engineering 1-4(1-4,0)

In consultation with the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

C H E 211 Introduction to Chemical Engineering 4(3,2)

Introduction to fundamental concepts of chemical engineering, including mass and energy balances, PVT relationships for gases and vapors, and elementary phase equilibria; problem-solving and computer skills are developed in lab. Coreq: C M E 326, MTHSC 108, PHYS 122; and C H E 313 or ENGR 130.
CH E 220 Chemical Engineering Thermodynamics I 3(3,0) Topics include first and second laws of thermodynamics, ideal gases, PVT properties of real fluids, energy balances with chemical reactions, and thermodynamic properties of real fluids. 
Preq: CH E 211, MTHSC 206.

CH E 230 Fluids/Heat Transfer 4(3,2) General principles of chemical engineering and study of fluid flow, fluid transportation, and heat transmission. Special emphasis is placed on theory and its practical application to design. 

CH E 299 Creative Inquiry—Chemical and Biomolecular Engineering I 4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

CH E H300 Honors Seminar 1(1,0) Acquaints students enrolled in the Departmental Honors Program with current research issues in the profession. This assists the student in preparing a research proposal for the Senior Thesis. To be taken Pass/Fail only. 
Preq: Admission to departmental honors program, Junior standing.

CH E 307 Unit Operations Laboratory I 3(2,3) Laboratory work in the unit operations of fluid flow, heat transfer, and evaporation. Stress is on the relation between theory and experimental results and the statistical interpretation of those results and on report preparation and presentation. 
Preq: CH E 220; 230 or 311; E G 209. Coreq: EX ST 411 or MTHSC 302.

CH E 311 Fluid Flow 3(3,0) Fundamentals of fluid flow and the application of theory to chemical engineering unit operations, such as pumps, compressors, and fluidization. 
Preq: CH E 211, MTHSC 206.

CH E 312 Heat and Mass Transfer 3(3,0) Study of the basics of heat transmission and mass transport. Special emphasis is placed on theory and its application to design. 
Preq: CH E 220, 311.

CH E 319 Engineering Materials 3(3,0) Introduction to the fundamental properties and behavior of engineering materials emphasizing polymers, metals, ceramics, and composite materials. 
Preq: CH E 211. Coreq: CH 223, CH E 220.

CH E 321 Chemical Engineering Thermodynamics II 3(3,0) Continuation of CH E 220. Topics include thermodynamics of power cycles and refrigeration/liquefaction, thermodynamic properties of homogeneous mixtures, phase equilibria, and chemical reaction equilibria. 
Preq: CH E 220, MTHSC 208.

CH E 330 Mass Transfer and Separation Processes 4(3,2) Study of mass transport fundamentals and application of these fundamentals to separation technologies, with emphasis on gas absorption, stripping, distillation, and liquid-liquid extraction. 

CH E 344 Chemical Engineering Junior Seminar 1(1,0) Preparation of junior chemical engineering students for entry into the profession. Timely information on job interviewing skills, career placement and guidance, professional registration, professional behavior and ethics, graduate school, and management of personal finances. Outside speakers are used frequently. To be taken Pass/Fail only. 
Preq: CH E 312, Junior standing in Chemical Engineering.

CH E 353 Process Dynamics and Control 3(3,0) Mathematical analysis of the dynamic response of process systems. Basic automatic control theory and design of control systems for process applications. 
Preq: MTHSC 208, CH E 311 or 230. Coreq: CH E 330 or 413.

CH E H395 Honors Research I 3(0,9) Individual research under the direction of a Chemical Engineering faculty member. 
Preq: CH E H300 or consent of department honors coordinator.

CH E 399 Creative Inquiry—Chemical and Biomolecular Engineering I 4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

CH E 401, 601 Transport Phenomena 3(3,0) Mathematical analysis of single and multidimensional steady-state and transient problems in momentum, energy, and mass transfer. Both the similarities and differences in these mechanisms are studied. 
Preq: CH E 330 or MTHSC 208.

CH E 407 Unit Operations Laboratory II 3(1,6) Continuation of CH E 307 with experiments primarily on the diffusional operations. Additional lecture material and report writing and general techniques for experimental measurements and analysis of data, including statistical design of experiments. 

CH E 412, 612 Polymer Engineering 3(3,0) Design-oriented course in synthetic polymers. Topics include reactor design used in polymer production, effect of step versus addition kinetics on reactor design, epoxy curing reactions, polymer solubility, influence of polymerization and processing conditions on polymer crystallinity. 
Preq: CH 224 and 332 or consent of instructor.

CH E 413 Separation Processes 3(3,0) Study of gas-liquid and liquid-liquid separation techniques emphasizing gas absorption, distillation, and liquid-liquid extraction. 
Preq: CH E 332, CH E 312, 321.

CH E (B E) 428, 628 Biochemical Engineering 3(3,0) See B E 428.

CH E 431 Chemical Process Design I 3(3,0) Steps in creating a chemical process design from original concept to successful completion and operation. Topics include process layout, equipment selection and sizing, safety and environmental evaluation, engineering economics, simulation, evaluation of alternatives, and optimization. 

CH E 432 Process Development, Design, and Optimization of Chemical Engineering Systems II 5(1,12) Continuation of CH E 431. Principles of process development, design, and optimization are applied in a comprehensive problem carried from a general statement of the problem to detailed design and economic evaluations. 
Preq: CH E 321, 353, 407, 413, and 450 or consent of department chair.

CH E 433 Process Design II 3(1,6) Continuation of CH E 431. Principles of process development, design, and optimization are applied in a comprehensive problem carried from a general statement of the problem to detailed design and economic evaluations. 

CH E 443 Chemical Engineering Senior Seminar I 1(1,0) Preparation of senior chemical engineering students for entry into the profession. Timely information on job interviewing skills, career placement and guidance, professional registration, professional behavior and ethics, and management of personal finances. Outside speakers are used frequently. To be taken Pass/Fail only. 

CH E 444 Chemical Engineering Senior Seminar II 1(1,0) Working in groups, students present and discuss topics related to professional practice, ethics, business, industrial safety, the environment, and selected technical subjects of interest to society. To be taken Pass/Fail only. 
Preq: CH E 344 or 443. Coreq: CH E 432.

CH E 445 Selected Topics in Chemical Engineering 3(3,0) Topics not covered in other courses, emphasizing current literature, research, and practice of chemical engineering. Topics vary from year to year. May be repeated, but only if different topics are covered. 
Preq: Consent of instructor.

CH E 450, 650 Chemical Reaction Engineering 3(3,0) Review of kinetics of chemical reactions and an introduction to the analysis and design of chemical reactors. Topics include homogeneous and heterogeneous reactions, batch and continuous flow reaction systems, catalysis, and design of industrial reactors. 
Preq: CH E 330, 321, CH E 332.

CH E 491, H491 Special Projects in Chemical Engineering 1-3(1-3,0) Topics requested by students or offered by faculty as the need arises. Topics may include review of current research in an area, technological advances, and national engineering goals. May be repeated for a maximum of six credits, but only if different topics are covered.

CH E H495 Honors Research II 3(0,9) Individual research under the direction of a chemical engineering faculty member. 
Preq: CH E H395.

CH E H497 Honors Thesis 1(1,0) Preparation of honors thesis based on research conducted in CH E H395 and H495. 
Preq: CH E H495.

CH E 499 Creative Inquiry—Chemical and Biomolecular Engineering I 4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.
CHEMISTRY

CH 101, H101 General Chemistry 4(3,3) Introduction to the elementary concepts of chemistry through classroom and laboratory experience. Emphasizes chemical reactions and the use of symbolic representation, the mole concept and its applications and molecular structure. Credit toward a degree will be given for only one of CH 101 and 105. Preq or Coreq: CMPT score of 3 or higher; or MTHSC 101, 102, 103, or 105.

CH 102, H102 General Chemistry II 4(3,3) Continuation of CH 101, treating solutions, rates of reactions, chemical equilibrium, electrochemistry, chemistry of selected elements, and an introduction to organic chemistry. Credit toward a degree will be given for only one of CH 102 or 106. Preq: CH 101 with a C or better.

CH 105 Chemistry in Context I 4(3,3) The chemistry of societal issues including air quality, global warming, acid rain, and alternative energy sources is discussed in the context of their impact on society. May not be taken as a prerequisite for organic chemistry. Credit toward a degree will be given for only one of CH 101 or 105.

CH 106 Chemistry in Context II 4(3,3) Continuation of CH 105. Topics include the chemistry of nuclear energy, new energy sources, nutrition, medicines, new materials, and genetic engineering. May not be taken as a prerequisite for organic chemistry. Credit toward a degree will be given for only one of CH 102 or 106. Preq: CH 101 or 105.

CH 141 Chemistry Orientation 1(1,0) Lectures, discussions, and demonstrations devoted to health and safety in chemistry laboratories; use of the chemical literature; and career planning. Preq: Concurrent enrollment in CH 101.

CH 152 Chemistry Communication I 2(2,0) Methods for scientific communication including oral, written, and electronic formats. Service-learning projects engage participants with community needs pertaining to chemistry issues.

CH 199 Creative Inquiry—Chemistry I 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

CH 201 Survey of Organic Chemistry 4(3,3) Introduction to organic chemistry emphasizing nomenclature, classes of organic compounds, and chemistry of functional groups. For students needing a one-semester course in organic chemistry. Credit toward a degree will be given for only one of CH 201 or 223. Preq: CH 102 or consent of instructor.

CH 205 Introduction to Inorganic Chemistry 3(3,0) One-semester treatment which emphasizes the properties and reactions of the more common chemical elements. Preq: CH 102.

CH 206 Inorganic Chemistry Laboratory 1(0,3) Introduction to laboratory synthesis and characterization of inorganic compounds. Laboratory sessions consist of a set of six landmark inorganic experiments for which the original authors have been awarded Nobel prizes. Coreq: CH 102, 205.

CH 223 Organic Chemistry 3(3,0) Introductory course in the principles of organic chemistry and the derivation of these principles from a study of the properties, preparations, and interrelationships of the important classes of organic compounds. Credit toward a degree will be given for only one of CH 201 or 223. Preq: CH 102 or consent of instructor.

CH 224 Organic Chemistry 3(3,0) Continuation of CH 223. Preq: CH 223.

CH 227 Organic Chemistry Laboratory 1(0,3) Synthesis and properties of typical examples of the classes of organic compounds. Credit toward a degree will be given for only one of CH 227 or 229. Preq: CH 223 or concurrent enrollment.

CH 228 Organic Chemistry Laboratory 1(0,3) Continuation of CH 227. Preq: CH 224 (or concurrent enrollment) and 227.

CH 229 Organic Chemistry Laboratory 1(0,3) One-semester laboratory for Chemical Engineering students. Credit toward a degree will be given for only one of CH 227 or 229. Preq: CH 223.

CH 299 Creative Inquiry—Chemistry II 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

CH 313 Quantitative Analysis 3(3,0) Fundamental principles of volumetric, gravimetric, and certain elementary instrumental chemical analyses. Preq: Concurrent enrollment for credit in CH 315 or 317.

CH 315 Quantitative Analysis Laboratory 2(0,6) Laboratory techniques of volumetric, gravimetric, and elementary instrumental chemical analyses. Credit toward a degree will be given for only one of CH 315 or 317. Coreq: Concurrent enrollment for credit in CH 313.

CH 317 Quantitative Analysis Laboratory 1(0,3) Standard techniques of analytical chemistry—gravimetric, volumetric, and instrumental. Credit toward a degree will be given for only one of CH 315 or 317. Coreq: Concurrent enrollment for credit in CH 313.

CH 330 Introduction to Physical Chemistry 3(3,0) One-semester treatment of physical chemistry emphasizing topics that are especially useful in the life sciences, agriculture, and medicine: chemical thermodynamics, equilibrium, solutions, kinetics, electrochemistry, macromolecules, and surface phenomena. Credit toward a degree will be given for only one of CH 330 or 331. Preq: MTHSC 106.

CH 331 Physical Chemistry 3(3,0) Includes the gaseous state, thermodynamics, chemical equilibrium, and atomic and molecular structure, from both experimental and theoretical points of view. Credit toward a degree will be given for only one of CH 330 or 331. Preq: MTHSC 206, PHYS 221.

CH 332, H332 Physical Chemistry 3(3,0) Continuation of CH 331, including chemical kinetics, liquid and solid state, phase equilibria, solutions, electrochemistry and surfaces. Preq: CH 331 or consent of instructor.

CH 339 Physical Chemistry Laboratory 1(0,3) Experiments are selected to be of maximum value to Chemistry and Chemical Engineering majors. Coreq: CH 331 or CH E 220.

CH 340 Physical Chemistry Laboratory 1(0,3) Continuation of CH 339. Preq: Concurrent enrollment in CH 332.

CH 399 Creative Inquiry—Chemistry III 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

CH 400 Selected Topics in Chemistry 1-3(1-3,0) Comprehensive study of topics of current interest in chemistry. May be repeated for a maximum of twelve credits, but only if different topics are covered.

CH 402, H402, 602 Inorganic Chemistry 3(3,0) Basic principles of inorganic chemistry are discussed with special emphasis on atomic structure, chemical bonding, solid state, coordination chemistry, organometallic chemistry, and acid-base theories. The chemistry of certain selected elements is treated. Preq: CH 331, 332.

CH 403 Advanced Synthetic Techniques 2(0,6) Introduction to advanced laboratory techniques in synthesis and characterization of inorganic and organic compounds. Laboratory sessions consist of a set of eight experiments in modern fields of chemistry, including superconductivity, buckminsterfullerene, bioinorganic chemistry, medicinal chemistry, asymmetric synthesis, and polymer chemistry. Preq: CH 227, 228, 402, or consent of instructor.

CH 404, H404, 604 Bioinorganic Chemistry 3(3,0) Covers fundamentals of bioinorganic chemistry with review of necessary inorganic and biochemical concepts. Topics include metal uptake, transport, and storage in biological systems; functions of metals in proteins; metal ion interactions with nucleic acids; physical methods used in bioinorganic chemistry; heavy element toxicity, radiopharmaceuticals and other metallodrugs. Preq: BIOCH 301 or CH 205.
CH 411, 611 Instrumental Analysis 3(3,0)
Principles of operation and application of modern chemical instrumentation in the field of analytical chemistry. Topics include basic electronics, statistics, optical, mass, magnetic resonance, electron and x-ray spectroscopies, radiochemistry, and separation science. Preq: CH 331, 332.

CH 412 Instrumental Analysis Laboratory 2(0,5)
Reinforces principles of chemical instrumentation described in CH 411 by practical, hands-on experience. Aspects of sample preparation, standardization, data acquisition and interpretation, and report formulation procedures common in chemical analyses are considered for a range of modern instrumental methods. Coreq: CH 411.

CH 413, H413 Chemistry of Aqueous Systems 3(3,0)
Study of chemical equilibria in aqueous systems, especially natural waters; acids and bases, dissolved CO₂, precipitation and dissolution, oxidation-reduction, adsorption, etc. Preq: CH 102 or 106.

CH 414, 614 Bioanalytical Chemistry 3(3,0)
Survey of selected areas of importance in bioanalytical chemistry. Fundamental principles, advanced topics, and applications of analytical measurements of biomolecules, bioassays, immunoassays, separations, mass spectrometry, method validation, macromolecular crystallography, microscopy, and imaging. Preq: CH 313, 411, or consent of instructor.

CH 421, H421, 621 Advanced Organic Chemistry 3(3,0)
Survey of modern organic chemistry emphasizing synthesis and mechanisms. Preq: CH 224, 332, or equivalent.

CH 425, 625 Medicinal Chemistry 3(3,0)
Survey of the pharmaceutical drug discovery process. Covers discovery of candidate compounds, bioassay methods, and associated regulatory and commercial issues. Course studies are selected from the current literature. Preq: CH 224 or equivalent or consent of instructor.

CH 427, H427, 627 Organic Spectroscopy 3(2,3)
Survey of modern spectroscopic techniques used in the determination of molecular structure. Emphasizes the interpretation of spectra: nuclear magnetic resonance, ultraviolet, infrared, mass spectroscopy, optical rotatory dispersion, and circular dichroism. Preq: One year each of organic chemistry and physical chemistry.

CH 435, H435, 635 Atomic and Molecular Structure 3(3,0)
Introduction to quantum theory and its application to atomic and molecular systems. Topics include harmonic oscillator, hydrogen atom, atomic and molecular orbital methods, vector model of the atom, atomic spectroscopy, and molecular spectroscopy. Preq: CH 332 or consent of instructor.

CH 443, H443 Research Problems 1-6(0,3-18)
Original investigation of an assigned problem in a fundamental branch of chemistry. Work must be carried out under the supervision of a member of the staff. May be repeated for a maximum of six credits. Preq: Senior standing in chemistry or consent of instructor.

CH 444, H444 Research Problems 1-6(0,3-18)
Continuation of CH 443. Original investigation of an assigned problem in a fundamental branch of chemistry. Work must be carried out under the supervision of a member of the staff. May be repeated for a maximum of six credits. Preq: Senior standing in chemistry or consent of instructor.

CH 450 Chemistry Capstone 3(1,6)
Students undertake capstone projects in a team format. Projects necessitate the use of electronic and print resources, demonstrate expertise with a specific instrument or experimental technique, require strong collaboration within a team setting, and produce a peer-reviewed oral and written report. Preq: Senior standing or consent of instructor.

CH 451, 651 Frontiers in Polymer Chemistry 3(3,0)
Survey of selected areas of current research in polymer science with particular emphasis on polymer synthesis. Although a text is required for review and reference, course is primarily literature based and focused on areas of high impact to multidisciplinary technique. Preq: CH 223, 224, PFC 415 or consent of instructor.

CH 452 Chemistry Communication II 1(0,0)
Methods for scientific communication including oral, written, and electronic formats. Student presentations focus on current chemical literature topics pertinent to their CH 443/444 undergraduate research or results of that work are appropriate. Preq: CH 152.

CH 471, 671 Teaching Chemistry 3(3,0)
Study of topics in chemistry addressed in the context of constructivist methodologies. Also considers laboratory work and management, laboratory safety, and the use of technology in the chemistry classroom. Preq: CH 203 level chemistry course or high school teaching experience or consent of instructor.

CH 499 Creative Inquiry—Chemistry IV 1-4(1-4,0)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

CH 505 Chinese Conversation and Composition I 3(3,0)
Practice in the spoken language emphasizing vocabulary, word-combinations, pronunciation, and comprehension. Learning practical language skills and intercultural communication by studying various topics. Preq: CHIN 202, 204, or consent of department chair.

CH 506 Chinese Conversation and Composition II 3(3,0)
Continuation of CH 505. More practice in the spoken language emphasizing vocabulary, word combinations, pronunciation, and comprehension. Learning practical language skills and intercultural communication by studying various topics. Preq: CHIN 305 or consent of department chair.

CHIN (PHIL) 312 Philosophy in Ancient China 3(3,0)
See PHIL 312.

CHIN (PHIL) 313 Philosophy in Modern China 3(3,0)
See PHIL 313.

CHIN 316 Chinese for International Trade I 3(3,0)
Study of spoken and written Chinese common to the Chinese-speaking business communities emphasizing business practices and writing/translation of business letters and professional documents. Cross-cultural references are provided for comparative analyses of American and Chinese business behavior. Classes are conducted in Chinese. Preq: CHIN 202, 305 (or concurrent enrollment) or consent of department chair.

CHIN 397 Creative Inquiry—Chinese 1-4(1-4,0)
Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

CHIN 398 Directed Reading 3(3,0)
CITY AND REGIONAL PLANNING

Professors: J. B. London, M. Lauria, D. J. Nadeniekek, Chair; B. C. Nocks; Associate Professors: M. G. Cunningham, J. T. Farris, S. L. Sperry; Visiting Assistant Professor: C. A. Schively; Lecturer: R. W. Bainbridge; Adjunct Professor: G. A. Vander Mey

C R P 401, 601 Introduction to City and Regional Planning 3(3,0) Introduces students from other disciplines to city and regional planning. Spatial and nonspatial areas of the discipline are explored through a wide ranging lecture/seminar program. Prq: Consent of instructor.

C R P 402, 602 Human Settlement 3(3,0) Overview of forces and trends affecting community growth and change—historical, ecological, economic, demographic, design, and development—pertaining to human settlement patterns and their interrelationship in the urbanization process, especially at the national, regional, town, and neighborhood scale. Team-taught from various perspectives. Intended as a foundation core course for Master's in Real Estate Development, City and Regional Planning, and Landscape Architecture. Prq: Consent of instructor.

C R P 403, 603 Seminar on Planning Communication 3(3,0) In-depth analysis of methods to communicate planning and policy decisions effectively. Familiarizes students with the various communication skills needed by planners, policy makers, and other professionals to become successful practitioners. Prq: Consent of instructor.

C R P (C E) 412, 612 Urban Transportation Planning 3(3,0) See C E 412.

C R P 434, 634 Geographic Information Systems for Landscape Planning 3(1,6) Develops competence in geographic information systems technology and its application to various spatial analysis problems in landscape planning. Introduces basic principles of GIS and their use in spatial analysis and information management. Topics include database development and management, spatial analysis techniques, cartography, critical review of GIS applications, and hands-on projects.

CIVIL ENGINEERING

C E 204 Civil Engineering and Society 3(2,2) Study of the history and societal impact of major civil engineering projects such as bridges, buildings, dams, tunnels, water supply systems, and transportation systems. Projects are examined in the light of modern concerns for safety, ethics, and their economic and environmental impacts. Prq: Sophomore standing or consent of instructor.

C E 206 Structural Mechanics 4(3,3) Builds on statics to develop relationships between external loads on structural elements of civil engineering interest and the resulting internal loads and deformations. Students are exposed to the development of stress and deformation formulas and the identification and use of significant mechanical properties of civil engineering materials. Prq: CE 208 or EM 201. Coreq: C E 253 or ENGR 130.

C E 208 Civil Engineering Dynamics 2(2,0) Study of kinetics and kinematics of particles and rigid bodies, work and energy, impact and momentum. Prq: C E 203 or EM 201 and PHYS 122. Coreq: MT HSC 206.

C E 251 Analysis Techniques in Civil Engineering 3(2,3) Solution to civil engineering problems using the techniques of dimensional analysis, data analysis, and numerical analyses. The latter includes introduction to FORTRAN programming, simulation analysis, and the numerical solution of systems of linear algebraic equations. Prq: ENGR 120. Coreq: MT HSC 206.

C E 253 Civil Engineering Measurements 2(3,0) Principles and methods for measurement of loads, load effects, environmental variables, and performance of civil engineering systems. Classes integrate lectures and hands-on applications. Exercises provide students an introduction to sensors, basic electrical circuits, data acquisition systems, and data analysis methods used in civil engineering.

C E 255 Geomatics 3(2,3) Spatial data collection methods including surveying, digital photogrammetry and remote sensing, and global positioning systems. Methods and technologies used to manage, manipulate, and analyze spatial and associated attribute data including geographic information systems. Coreq: E G 209.

C E 301 Structural Analysis 3(3,0) Calculation of design loads for buildings and other structures. Use of classical analysis techniques to determine support reactions, internal member forces, and structural displacements of statically determinate and indeterminate structural systems. Prq: C E 226 or consent of instructor.

C E 311 Transportation Engineering Planning and Design 3(3,0) Covers planning, design, and operation of transportation facilities including highways and airports. Includes economic, safety, and environmental considerations. Public transit systems are covered. Prq: C E 255, EX ST 301.

C E 321 Geotechnical Engineering 4(3,3) Mechanical and physical properties of soils and their relation to soil action in problems of engineering, such as classification, permeability, shearing strength, and consolidation: design of embankments and retaining walls with geotextiles. Prq: C E 206; C E 253 or ENGR 130.

C E 331 Construction Engineering and Management 3(3,0) Considers construction contracts, technical specifications, cost estimating, project scheduling, cost control, materials management, quality control, and quality assurance. Prq: Junior standing.
C E 341 Introduction to Fluid Mechanics 4(3,3)
Introduction to fluid mechanics, including hydrostatics and fluid flow. Includes principles of mass, momentum, and energy conservation. Other topics include conduit flow, pump systems, and open channel flow. Laboratory experiments familiarize students with laboratory techniques and instrumentation. The Effective Technical Communications Laboratory is used to prepare a presentation for a lab assignment. Coreq: C E 208 or E M 202.

C E 342 Applied Hydraulics and Hydrology 3(3,0)
Study of hydrologic cycle, including precipitation, evapotranspiration, infiltration, and runoff. Includes hydrograph analysis, gradually varied flow in open channel flow, design of stable channels, flood routing, groundwater hydraulics, flood frequency analysis, and hydrologic design. Prep: C E 208 or E M 202; C E 341.

C E 343 Civil Engineering Materials 4(3,3) Introduces students to material science and basic properties of construction materials such as aggregate, Portland cement, asphalt cement, concrete, steel, ceramics, wood, and fibers. Experiments in lab and field trips to nearby plants are required. Oral and written communication skills are an integral part of this course. Prep: C E 253 or ENGR 130; Coreq: EX ST 301 or MT HISC 302.

C E 352 Economic Evaluation of Projects 2(2,0) Comparison of design alternatives based on engineering economic analysis. Introduction of present worth, annual cost, rate of return, and benefit-cost ratio methods. Use of depreciation and taxation in project analysis.

C E 353 Professional Seminar 1(1,0) Discusses various professional topics related to skills and techniques for evaluating career opportunities, seeking and obtaining civil engineering employment, career development, professional registration, professional ethics, and other factors necessary for achieving success in a professional career. Enables students to make better decisions that will help them succeed in their careers. Prep: Junior standing.

C E H387 Junior Honors Project 1-3 Studies or laboratory investigations on special topics in the civil engineering field which are of interest to individual students and faculty members. Arranged on a project basis for a maximum of individual student effort under faculty guidance. May be repeated for a maximum of three credits. Prep: Junior standing in Civil Engineering Senior Departmental Honors Program.

C E H388 Honors Research Topics 1(0,2) Survey of ongoing research in the Civil Engineering Department to identify potential research topics for further individual study. Prep: Junior standing in Civil Engineering Senior Departmental Honors Program.

C E H389 Honors Research Skills 1(1,0) Research problem selection, research tools, research reports organization. Prep: H C E H388.

C E 401, 601 Indeterminate and Matrix Structural Analysis 3(3,0) Analysis of indeterminate structures using moment distribution, energy methods such as virtual work and Castigliano's Theorem and the matrix formulation of the direct stiffness method. Prep: C E 301 or consent of instructor.

C E 402 Reinforced Concrete Design 3(3,0) Design of reinforced concrete beams, slabs, columns, and footings using ultimate strength design. Includes an introduction to working stress design methods. Prep: C E 301 or consent of instructor.

C E 404, 604 Masonry Structural Design 3(3,0) Introduction to design of structural elements for masonry buildings, including lintels, walls, shear walls, columns, pilasters, and retaining walls. Reinforced and unreinforced elements of concrete or clay masonry are designed by allowable stress and strength design methods. Includes an introduction to construction techniques, materials, and terminology used in masonry. Prep: C E 402 or consent of instructor.

C E 406 Structural Steel Design 3(3,0) Introduction to the design of structural elements found in steel buildings, in particular the design of steel tension members, beams, columns, beam-columns, and connections. Additional topics include composite members and plate-girders. Emphasizes the AISC-LRFD Specifications for steel design, though reference is made to the ASD Specifications with comparisons made where appropriate. Prep: C E 301 or consent of instructor.

C E 407, 607 Wood Design 3(3,0) Introduction to wood design and engineering; properties of wood and wood-based materials, design of beams, columns, walls, roofs, panel systems, and connections. Prep: C E 402 or 406 or consent of instructor.

C E 408, 608 Structural Loads and Systems 3(3,0) In-depth discussion of minimum design loads and load combinations. Includes overview of various steel and concrete systems. Discusses practical selection and design issues and design of proprietary building materials and components such as steel joists, diaphragms, engineered wood products, etc. Prep: C E 206, 301.

C E 410, 610 Traffic Engineering: Operations 3(3,0) Basic characteristics of motor-vehicle traffic, highway capacity, applications of traffic control devices, traffic design of parking facilities, engineering studies, traffic safety, traffic laws and ordinances, and public relations. Prep: C E 311 or consent of instructor.

C E 411, 611 Roadway Geometric Design 3(2,3) Geometric design of roadways, at-grade intersections, and interchanges in accordance with conditions imposed by driver ability, vehicle performance, safety, and economics. Prep: C E 311 or consent of instructor.

C E (C R P) 412, 612 Urban Transportation Planning 3(3,0) Consideration of urban travel characteristics, characteristics of transportation systems, transportation and land-use studies, trip distribution and trip assignment models, city patterns and subdivision layout. Prep: C E 311 or consent of instructor.

C E 421, 621 Geotechnical Engineering Design 3(3,0) Study of the relationships of local geology to soil formations, groundwater, planning of site investigation, sampling procedures, determination of design parameters, foundation design, and settlement analysis. Prep: C E 321 or consent of instructor.

C E 424, 624 Earth Slopes and Retaining Structures 3(3,0) Considers the principles of geology, groundwater and seepage, soil strength, slope stability, and lateral earth pressure and their application to the design of excavations, earth fills, dams, and earth-retaining structures. Prep: C E 321 or GEOE 320 or consent of instructor.

C E 433, 633 Construction Planning and Scheduling 3(3,0) Study of principles and applications of the Critical Path Method (CPM) and Project Evaluation and Review Techniques (PERT). Includes project breakdown and network graphic identification of the critical path and resulting floats; definition and allocation of materials, equipment, and manpower resources; resource leveling, compression, and other network adjustments; and computer applications using packaged routines. Prep: C E 331 or consent of instructor.

C E 434, 634 Construction Estimating and Project Control 3(3,0) Instruction in specifications, contracts, and bidding strategies; purchasing and subcontracting policies; accounting for materials, supplies, subcontracts, and labor; procedural details for estimating earthwork, reinforced concrete, steel, and masonry. Also considers overhead and profit items. Prep: C E 331 or consent of instructor.

C E 438, 638 Construction Support Operations 3(3,0) Describes activities necessary for the completion of a construction job although not specifically recognized as direct construction activities: general conditions, safety, security, quality assurance, value engineering; organizational support features and typical implementation procedures. Prep: C E 331 and EX ST 301, or consent of instructor.

C E 443, 643 Water Resources Engineering 3(3,0) Extension of the concepts of fluid mechanics to applications in water supply, water resource assessment, water transmission, water distribution networks, pump and pipe selection, pipe networks, and analysis of open channel appurtenances. Prep: C E 341.

C E 446, 646 Flood Hazards and Protective Design 3(3,0) Study of flood hazards and methods of protective design of the built environment; floodplain mapping and delineation; methods for determining base flood elevations. Discusses flood-resistant construction, flood proofing, and governmental regulations. Includes case studies and design projects. Coreq: C E 342 or consent of instructor.

C E 447, 647 Stormwater Management 3(3,0) Evaluation of peak discharges for urban and rural basins, design of highway drainage structures such as inlets and culverts; stormwater and receiving water quality; best management practices, detention and retention ponds, and erosion and sediment control. Prep: C E 342; Coreq: EE S 401 or consent of instructor.

C E 448, 648 Physical Models in Hydraulics 3(2,3) Tools and techniques of physical modeling to aid in design of complex hydraulic systems. Students participate in construction, operation, and testing of physical models to solve hydraulic engineering design problems. Experimental design and operation are covered. Prep: C E 342 or consent of instructor.
Courses of Instruction

C E 449 649 Hydraulic Structures 3(3,0) Design methods and procedures are taught for a variety of hydraulic structures including intake structures, complex open-channel and closed conduit control structures, transitions, spillways, small dams, and pond design. Field trips to actual hydraulic structures may be included. Preq: C E 342 or consent of instructor.

C E 455, 655 Properties of Concrete and Asphalt 3(2,3) Properties of aggregate, concrete, and asphalt are discussed. Concrete and asphalt mix designs are conducted in the laboratory. Preq: C E 351 and EX ST 301, or consent of instructor.

C E 459 Capstone Design Project 3(1,6) Students apply creativity with their engineering knowledge in the solution of open-ended civil engineering problems. Problems are formulated and solutions are evaluated by faculty and practicing engineers. Oral communication skills are developed through presentations, correspondence, and project reports. Preq: All required 300-level C E courses and the Technical Design Requirement.

C E 462, 662 Coastal Engineering I 3(3,0) Introduction to coastal and oceanographic engineering principles, including wave mechanics, wave-structure interaction, coastal water-level fluctuations, coastal-zone processes, and design considerations for coastal structures and beach nourishment projects. Preq: C E 341 or consent of instructor.

C E 482, 682 Groundwater and Contaminant Transport 3(3,0) Basic principles of groundwater hydrology and transport of contaminants in groundwater systems; groundwater system characteristics; steady and transient flow; well hydraulics, design, and testing; contaminant sources, movement and transformations. Preq: C E 341. Coreq: EES S 401.

C E H487 Senior Honors Project 1-3 Studies or laboratory investigations on special topics in civil engineering which are of interest to individual students and faculty members. Arranged on a project basis for a maximum of individual student effort under faculty guidance. May be repeated for a maximum of three credits. Preq: Senior standing in Civil Engineering Senior Departmental Honors Program.

C E H488 Honors Research I 2-3 Individual research under the direction of a Civil Engineering faculty member. Preq: C E H389.

C E H489 Honors Research II 3(3,0) Individual research under the direction of a Civil Engineering faculty member. Preq: C E H488

C E 490 Special Projects 1-3(1-3,0) Studies or laboratory investigations on special topics in civil engineering which are of interest to individual students and staff members. Arranged on a project basis with a maximum of individual student effort and a minimum of staff guidance. May be repeated for a maximum of three credits. Preq: Senior standing.

C E 491, 691 Selected Topics in Civil Engineering 1-6(1-6,0) Structured study of civil engineering topics not found in other courses. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

CLEMSON UNIVERSITY

C U 101 University Success Skills 2(3,0) Introduction to a variety of topics critical to students’ success. Topics include time management, goal setting, test taking, campus resources and policies, critical thinking, and diversity. Students are given opportunities to discover and practice many procedures, techniques, and tips. Limited to freshmen and first semester transfer students.

COLLEGE OF ENGINEERING AND SCIENCE

C E 101 Introduction to Engineering and Science 3(1,4) Introduces engineering and science disciplines to assist students in selecting a major. Students use laptop computers to study spreadsheets, obtain graphical solution of problems, and use electronic sensors for data acquisition. Students complete team-based design projects. Provides a recitation for students who are not calculus-ready at matriculation. Coreq: MTHSC 103 or 105.

C E 102, H102 Engineering Disciplines and Skills 2(1,3) Introduction to engineering and science disciplines to assist students in selection of a major. Students use laptop computers to study spreadsheets, obtain graphical solution of problems, use electronic sensors for data acquisition, and respond to various on-line surveys. Students complete team-based design projects. Coreq: MTHSC 106 or above.

C E 110 Engineering and Science Workshop 1(0,2) Workshop that addresses issues and opportunities for women in science and engineering. Designed to help students succeed in engineering and science by strengthening their problem-solving leadership and teamwork skills and by introducing them to female role models and mentors in engineering and science.

C E 403, 603 Career Success in Research and Development 1(0,1) Assists students in making personal and professional transition into industrial research careers. Introduces and demonstrates practical advice and techniques to help students avoid early career land mines. Preq: Junior standing in engineering or science discipline.

COMMUNICATION STUDIES

COMM 101 Communication Academic and Professional Development 1(1,0) Introduces students to General Education and Communication Studies major requirements, explains connections between general education and major courses, explores careers in communication, and prepares students to develop digital portfolios, résumés, and interview skills specific to communication professions and/or graduate school. To be taken Pass/Fail only.

COMM 107 Media Representations of Science and Technology 3(3,0) Examines mediated representations of science and technology from a communication perspective. Attention is paid to portrayals/coverage of science and technology in popular film, television, Internet, journalism, and other media. Students examine an array of theoretical issues and case studies in this area.

COMM 150 Introduction to Human Communication 3(2,2) Overview of theoretical approaches to the study of communication, including the theory and practice of interpersonal/small group/intercultural/public communication. Students complete a portfolio. Includes a laboratory.

COMM 162 Forensic Laboratory 1(0,3) Research, preparation, and practice leading to participation in on-campus and intercollegiate debate and individual events competition. May be repeated for a maximum of four credits.

COMM 163 Advanced Forensic Laboratory 1(0,3) Advanced research, preparation, and practice leading to continued participation in on-campus and intercollegiate debate and individual events competition. May be repeated for a maximum of four credits. Preq: COMM 162.

COMM 201 Introduction to Communication Studies 4(3,2) Introduces Communication Studies majors to and prepares them for continued study in the discipline by providing them with an overview of important issues, areas of study, and approaches to the field. Includes a writing laboratory experience. Preq: COMM 101.

COMM 250, H250 Public Speaking 3(3,1) Practical instruction in public speaking; practice in the preparation, delivery, and criticism of short speeches. Develops an understanding and knowledge of the process of communication. Students complete a portfolio. Includes a laboratory.

COMM 256 Introduction to Public Relations 3(3,0) Students learn the context and techniques of public relations (PR), a form of corporate communication. Types of PR work, theories of PR, the four-part structure of PR, and the history of the field.

COMM 300 Communication in a World Context 3(3,0) In-depth examination of differences in communication practices and meanings seen through a global perspective. Preq: COMM 201 with a C or better or consent of instructor.

COMM 301 Communication Theory 3(3,0) Students explore the breadth and depth of theories within the major frameworks of the communication studies discipline. Students select the creative inquiry topic on which they will write a review of the literature. Preqs COMM 310, 311, and 495 in the creative inquiry experience. Preq: COMM 201 with a C or better or consent of instructor.

COMM 302 Mass Communication Theory 3(3,0) Survey of the breadth and history of theories of mass communication and mass media from the 19th century to the present. Emphasizes contemporary schools of thought, theoretical debates, and the continuing controversies in the field. Preq: COMM 201 with a C or better or consent of instructor.
COMM 303 Communication Law and Ethics 3(3,0) Major topics in communication law and free expression and in communication ethics. Preq: COMM 201 with a C or better or consent of instructor.

COMM 304 Youth, Media, and Culture 3(3,0) Grounded in the cultural studies paradigm, examines the relationship among youth, mass media, and popular culture. Focuses on issues such as how youth are portrayed in media, how youth navigate the products of mass media/culture, and how youth creates its own media culture. Preq: COMM 201 with a C or better or consent of instructor.

COMM 305 Persuasion 3(3,0) Study of the processes by which communication influences attitudes, beliefs, and behaviors in our personal, social, civic, and professional lives. After discussion of definitional and methodological issues, particular theories of persuasion are examined. Treatment of political, market-driven, and social persuasion concludes the course. Preq: COMM 201 with a C or better or consent of instructor.

COMM 306 Discourse and Society 3(3,0) Examines historical and contemporary theoretical and critical approaches to the description, analysis, interpretation, and evaluation of public discourse. Focuses on the power of public discourse to shape human existence. Preq: COMM 201 with a C or better or consent of instructor.

COMM 307 Public Communication and Science 3(3,0) Examines the role of science and technology in society from a communication perspective. Particular attention is paid to this dynamic in public culture. Students examine an array of theoretical issues and case studies in this area. Preq: COMM 201 with a C or better or consent of instructor.

COMM 308 Public Communication and Popular Culture 3(3,0) Examines artifacts of popular culture, paying particular attention to their relationship to politics and public life. Explores the structures and constraints of the culture industry. Students apply communication principles to various examples. Preq: COMM 201 with a C or better or consent of instructor.

COMM 309 Visual Discourse and the Public 3(3,0) Examines the role of visuality in society and the cultural implications for ways of seeing. Using visual artifacts of various types, students learn the logic of visual representation. Preq: COMM 201 with a C or better or consent of instructor.

COMM 310 Quantitative Research Methods in Communication Studies 3(3,0) Explores methods of quantitative communication inquiry including theory/research relationship, conducting studies, and utilizing SPSS. Methods may include experiments, surveys, and content analysis. Concepts build from the literature review completed in COMM 301 as part of student's creative inquiry experience. May be taken before, concurrently with, or after COMM 311. Preq: COMM 301 with a C or better or consent of instructor.

COMM 311 Qualitative Research Methods in Communication Studies 3(3,0) Explores methods of qualitative communication inquiry including theory/research relationship, and conducting studies. Methods may include interviewing, focus groups, textual analysis, and ethnography. Concepts build from the literature review completed in COMM 301 as part of student's creative inquiry experience. May be taken before, concurrently with, or after COMM 310. Preq: COMM 301 with a C or better or consent of instructor.

COMM 320 Television Journalism 3(2,2) Explores both the philosophy of journalism and the applied skills of the journalist. In addition to classroom activities, students experience television journalism first-hand as participants on a weekly on-campus television news program.

COMM 325 Sports Communication 3(3,0) Covers fundamentals of communicating in a sports environment. Includes the basics of communicating for print and broadcast news, as well as communicating for public relations and sports information. Also covers ethical considerations and the role of sports in American culture. Preq: COMM 201 with a C or better or consent of instructor.

COMM 326 Public Relations in Sports 3(3,0) Focuses on the preparation of professional sports communication materials for both internal and external audiences. Topics include the mechanics of creating press releases and other materials, as well as techniques in managing crises. Preq: COMM 201 with a C or better or consent of instructor.

COMM 327 Sports Media Criticism 3(3,0) Students gain in-depth understanding of sports communication through critically analyzing actual media coverage of sporting events, addressing social issues involved in college and professional sports and developing an understanding of sports promotion and advertising. Preq: COMM 201 with a C or better or consent of instructor.

COMM 330 Nonverbal Communication 3(3,0) Develops knowledge of the functions of nonverbal behaviors in human interaction. This includes the study of gesture and movement, physical appearance, vocal behavior, immediacy, time and space, and intercultural differences. Promotes understanding of nonverbal rules. Preq: COMM 201 with a C or better or consent of instructor.

COMM 334 Interpersonal Communication 3(3,0) Survey of the theories and research in interpersonal communication with emphasis on the application of research findings and developmental strategies for intra- and intercultural relationships. Preq: COMM 201 with a C or better or consent of instructor.

COMM 349 Communication and Aging 3(3,0) Major theories and concepts concerning communication with and between members of aging populations. Focuses on communication factors that affect the elderly and implications for the creation and maintenance of satisfying relationships within and between generations. Preq: COMM 201 with a C or better or consent of instructor.

COMM 350 Small Group and Team Communication 3(3,0) Examines the principles and skills involved in effective small-group communication. Preq: COMM 201 with a C or better or consent of instructor.

COMM 351 Qualitative Research Methods in Communication Studies 3(3,0) Explores methods of qualitative communication inquiry including theory/research relationship, and conducting studies. Methods may include interviewing, focus groups, textual analysis, and ethnography. Concepts build from the literature review completed in COMM 301 as part of student's creative inquiry experience. May be taken before, concurrently with, or after COMM 310. Preq: COMM 301 with a C or better or consent of instructor.

COMM 352 Television Journalism 3(2,2) Explores both the philosophy of journalism and the applied skills of the journalist. In addition to classroom activities, students experience television journalism first-hand as participants on a weekly on-campus television news program.

COMM 353 Sports Communication 3(3,0) Covers fundamentals of communicating in a sports environment. Includes the basics of communicating for print and broadcast news, as well as communicating for public relations and sports information. Also covers ethical considerations and the role of sports in American culture. Preq: COMM 201 with a C or better or consent of instructor.

COMM 354 Public Relations in Sports 3(3,0) Focuses on the preparation of professional sports communication materials for both internal and external audiences. Topics include the mechanics of creating press releases and other materials, as well as techniques in managing crises. Preq: COMM 201 with a C or better or consent of instructor.

COMM 356 Stakeholder Communication 3(3,0) Focuses on external stakeholders such as the media, the community, and the government. Students learn how to manage various stakeholder relationships. Preq: COMM 256 or consent of instructor.

COMM 361 Argumentation and Debate 3(3,0) Basic principles of argumentation with emphasis on developing skills in argumentative speech. The role of the advocate in contemporary society with an emphasis on and an appreciation of formal debate. Preq: COMM 250 or consent of instructor.

COMM 362 Communication and Conflict Management 3(3,0) Introduces the study of communication practices in conflict situations within various personal and professional settings. Emphasis is on the central role of communication in the understanding and management of conflict. Preq: COMM 201 with a C or better or consent of instructor.

COMM 364 Organizational Communication 3(3,0) Examination of the process, theories, and techniques of communications within small groups and other organized bodies. Preq: COMM 201 with a C or better or consent of instructor.

COMM 366 Organizational Communication 3(3,0) Examination of the process, theories, and techniques of communications within small groups and other organized bodies. Preq: COMM 201 with a C or better or consent of instructor.

COMM 367 Social Media 3(3,0) Focuses on the role of social media in society and the cultural implications for ways of communicating. Explores the structures and constraints of the social media industry. Students apply communication principles to various examples. Preq: COMM 201 with a C or better or consent of instructor.

COMM 368 Mass Communication 3(3,0) Focuses on the role of mass media in society and the cultural implications for ways of communicating. Explores the structures and constraints of the mass media industry. Students apply communication principles to various examples. Preq: COMM 201 with a C or better or consent of instructor.

COMM 369 Argументation and Debate 3(3,0) Basic principles of argumentation with emphasis on developing skills in argumentative speech. The role of the advocate in contemporary society with an emphasis on and an appreciation of formal debate. Preq: COMM 250 or consent of instructor.

COMM 370 Communication and Conflict Management 3(3,0) Introduces the study of communication practices in conflict situations within various personal and professional settings. Emphasis is on the central role of communication in the understanding and management of conflict. Preq: COMM 201 with a C or better or consent of instructor.

COMM 371 Public Communication and Popular Culture 3(3,0) Examines the role of science and technology in society from a communication perspective. Particular attention is paid to this dynamic in public culture. Students examine an array of theoretical issues and case studies in this area. Preq: COMM 201 with a C or better or consent of instructor.

COMM 372 Sports Media Criticism 3(3,0) Students gain in-depth understanding of sports communication through critically analyzing actual media coverage of sporting events, addressing social issues involved in college and professional sports and developing an understanding of sports promotion and advertising. Preq: COMM 201 with a C or better or consent of instructor.

COMM 373 Nonverbal Communication 3(3,0) Develops knowledge of the functions of nonverbal behaviors in human interaction. This includes the study of gesture and movement, physical appearance, vocal behavior, immediacy, time and space, and intercultural differences. Promotes understanding of nonverbal rules. Preq: COMM 201 with a C or better or consent of instructor.

COMM 374 Interpersonal Communication 3(3,0) Survey of the theories and research in interpersonal communication with emphasis on the application of research findings and developmental strategies for intra- and intercultural relationships. Preq: COMM 201 with a C or better or consent of instructor.

COMM 375 Communication and Aging 3(3,0) Major theories and concepts concerning communication with and between members of aging populations. Focuses on communication factors that affect the elderly and implications for the creation and maintenance of satisfying relationships within and between generations. Preq: COMM 201 with a C or better or consent of instructor.

COMM 376 Stakeholder Communication 3(3,0) Focuses on external stakeholders such as the media, the community, and the government. Students learn how to manage various stakeholder relationships. Preq: COMM 256 or consent of instructor.

COMM 377 Argumentation and Debate 3(3,0) Basic principles of argumentation with emphasis on developing skills in argumentative speech. The role of the advocate in contemporary society with an emphasis on and an appreciation of formal debate. Preq: COMM 250 or consent of instructor.

COMM 378 Communication and Conflict Management 3(3,0) Introduces the study of communication practices in conflict situations within various personal and professional settings. Emphasis is on the central role of communication in the understanding and management of conflict. Preq: COMM 201 with a C or better or consent of instructor.

COMM 379 Social Media 3(3,0) Focuses on the role of social media in society and the cultural implications for ways of communicating. Explores the structures and constraints of the social media industry. Students apply communication principles to various examples. Preq: COMM 201 with a C or better or consent of instructor.

COMM 380 Mass Communication 3(3,0) Focuses on the role of mass media in society and the cultural implications for ways of communicating. Explores the structures and constraints of the mass media industry. Students apply communication principles to various examples. Preq: COMM 201 with a C or better or consent of instructor.
COMM 425 Advanced Sports Communication 3(3,0) Combination seminar and primary research class that explores contemporary sports communication issues. Students write position papers on seminar topics and conduct primary research on sports communication topics of their choice. Preq: COMM 325 or consent of instructor.

COMM (ENGL) 451, 651 Film Theory and Criticism 3(2,3) See ENGL 451.

COMM 455 Gender Communication 3(3,0) Explores the ways communication behavior and perceptions of communication behavior are affected by gender. The effects of gender on a variety of communication contexts are examined, including interpersonal, small group, organizational, and mass communication. Preq: COMM 201 with a C or better or consent of instructor.

COMM 456, 656 Crisis Communication 3(3,0) In-depth examination of the use of communication in planning, managing, and responding to organizational crisis. Preq: COMM 256 or consent of instructor.

COMM 462 Communication and Negotiation 3(3,0) Building on the concepts and practices of conflict management, students develop knowledge and skills for distributive bargaining and integrative negotiation climates. Focuses on the objectives, goals, positions, interests, tactic, and other elements to successfully negotiate in a variety of situations. Preq: COMM 201 with a C or better or consent of instructor.

COMM 464, 664 Advanced Organizational Communication 3(3,0) Application of speech communication methodology to the analysis of organizational communication processes. Students study methods of organizational communication analysis and intervention. Preq: COMM 364 or consent of instructor.

COMM 470, 670 Communication and Health 3(3,0) Considers institutional and health care communication issues as well as the relationship between social issues, communication, and health. Preq: COMM 201 with a C or better or consent of instructor.

COMM 480 Intercultural Communication 3(3,0) Introduces the process of communication between and among individuals from different cultures or subcultures. Emphasizes the effect of cultural practices within various communication relational contexts such as interpersonal, small group, and organizational communication. Preq: COMM 201 with a C or better or consent of instructor.

COMM (ENGL) 491, 691 Classical Rhetoric 3(3,0) See ENGL 491.

COMM (ENGL) 492, 692 Modern Rhetoric 3(3,0) See ENGL 492.

COMM H493 Honors Prospectus Project 1(1,0) Completion of an honors project proposal and a prospectus meeting with a faculty committee. First in a three-course sequence with H494 and H496. Preq: COMM 301, 310.

COMM H494 Honors Field Research 3(0,9) Honors students in Communication Studies pursue field work with an outside organization related to concentration area in the major, gathering data for use in preparation original research project for COMM H496. Second in a three-course sequence with H493 and H496. Preq: COMM H493.

COMM 495 Creative Inquiry Capstone 3(3,0) Capstone course in the Department’s creative inquiry sequence that builds on students’ prior work in communication theory and research methods. Students apply their theoretical understanding and research skills in completing a significant research project involving their previously selected topic. Project culminates in written, oral, and visual presentations. Preq: COMM 310 and 311 with a C or better, Senior standing in Communication Studies, or consent of instructor.

COMM H496 Honors Senior Communication Seminar 3(3,0) Plans developed in COMM H493 and data gathered from COMM H494 are applied to the production of a written product of conference or publication length and quality. Third in a three-course sequence with H493 and H494. Preq: COMM H493, H494.

COMM 498 Communication Academic and Professional Development II 1(1,0) Students reflect upon curricular experiences among general education, major, and minor courses. They complete and revise digital portfolios for presentation to the major, University, graduate schools, or potential employers. Students participate in resume building, job seeking, and interviewing activities. Preq or Coreq: COMM 495 or H496.

COMM 499 Independent Study 1-3(1-3,0) Tutorial work for students with special interests or projects in speech communication outside the scope of existing courses. Preq: Consent of department chair.

COMMUNITY AND RURAL DEVELOPMENT

See also courses listed under Agricultural and Applied Economics.

Professors: H. L. Barkley, M. Espey, M. S. Henry, J. C. O. Nyankori, Associate Professor: S. R. Templeton; Assistant Professor: K. L. Robinson

C R D (SOC) 235 Introduction to Leadership 3(3,0) See SOC 235.

C R D 335 Leadership in Organizations and Communities 3(3,0) Students present leadership models, principles, skills, negotiation techniques, and exercises to improve effectiveness in organizations and communities; use current theory and research findings to evaluate effective leadership; demonstrate the role of effective leadership in shaping future organizations and social structures in public and private sectors. Preq: Introductory course in a social science (sociology recommended).

C R D 336 Community Development Methods 3(3,0) Research methodology is applied to community, leadership, and economic development. Steps include problem identification, data collection, analysis, and interpretation. Special attention is given to case study approach, applied research design, data collection options, and computer-based analysis of community-based data to generate findings and implications for policy change. Preq: C R D 335, EX ST 301 or equivalent.

C R D 357 Natural Resources Economics 3(3,0) Principles and problems involved in the use of soil, water, forest, and mineral resources, with special emphasis on economic aspects of alternative methods of resource utilization. Preq: AP EC 202, ECON 200 or 211.

C R D (AP EC, HLTH) 361 Introduction to Health Care Economics 3(3,0) Introductory course in which students learn the basic economics of the institutions comprising the health-care industry. Topics include the underlying supply, demand, and institutional factors impacting health-care availability and cost of health care.

C R D (AP EC) 411, 611 Regional Impact Analysis 3(3,0) Techniques for analysis of the growth and decline of regions including economic base theory, shift-share, regional input-output, regional econometric models, and fixed impact models. Preq: AP EC 202 or ECON 211 and 212.

C R D (AP EC) 412, 612 Regional Economic Development Theory and Policy 3(3,0) Development of rural economic activity in the context of historical, theoretical, and policy aspects of friction associated with spatial separation. Considers location factors, transfer costs, location patterns, and regional-growth policy. Preq: AP EC 202 or ECON 211 or equivalent.

C R D (AP EC) 491 Internship, Agribusiness, and Community and Rural Development 1-6(1-12) Internship under faculty supervision in an approved agency or firm. Internships provide students with work experience in agribusiness and community and rural development. Students submit a comprehensive report within one week of the end of the internship. A maximum of six internship credits may be earned. Preq: Junior standing and/or consent of instructor.

C R D 492, 692 Case Study Project 3(3,0) Capstone course engaging students in in-depth case study projects in community and economic development. Designed to enhance professional development, career interests, and practical experience. Students may participate in an internship, field experience, service learning activity, or investigation of a community, leadership, or economic development topic. Preq: C R D 336 and consent of instructor.

COMPUTER SCIENCE

CP SC 101, H101 Computer Science I 4(3,2) Introduction to modern problem solving and programming methods. Special emphasis is placed on algorithm development and software life cycle concepts. Includes use of appropriate tools and discusses ethical issues arising from the impact of computing upon society. Intended for students concentrating in computer science or related fields. Preq: MTHSC 105 or satisfactory score on the Clemson Mathematics Placement Test or consent of instructor.
Courses of Instruction

CP SC 102, H102 Computer Science II 4(3,2) Continuation of CP SC 101. Continued emphasis on problem solving and program development techniques. Examines typical numerical, nonnumerical, and data processing problems. Introduces basic data structures. Credit may not be received for both CP SC 102 and 210. Preq: CP SC 101 with a C or better.

CP SC 104 Introduction to the Concepts and Logic of Computer Programming 2(1,2) Introduction to the concepts and logic of computer programming. Simple models are used to introduce basic techniques for developing a programmed solution to a given problem. Problem solving techniques are considered. Not open to students who have received credit for CP SC 101, 111, 157, or 210.

CP SC 110, H110 Elementary Computer Programming 3(3,0) Introduction to computer programming and its use in solving problems. Intended primarily for technical majors. Basic instruction in programming techniques is combined with tools use and discussions of ethical issues arising from the impact of computing on society.

CP SC 111 Elementary Computer Programming in C/C++ 3(2,2) Introduction to computer programming in C/C++ and its use in solving problems. Intended primarily for technical majors. Basic instruction in programming techniques is combined with tools use and discussions of ethical issues arising from the impact of computing on society.

CP SC 115 Introduction to Computational Science 3(3,0) Introduction to systems thinking. Includes development of dynamical systems models using visual modeling tools and development of dynamical systems using agent based software. Class material investigates elementary science and engineering models.

CP SC 120 Introduction to Information Technology 3(2,2) Investigation of ethical and societal issues based on the expanding integration of computers into our everyday lives. Considers historical background, terminology, new technologies and the projected future of computers. Includes practical experience with common computer software technologies. Will not satisfy Computer Science Requirements in any Computer Science major.

CP SC 157 Introduction to C Programming 2(2,0) Introduction to basic programming techniques using the C programming language.

CP SC 161 Introduction to Visual Basic Programming 3(2,2) Introduction to programming using the Visual Basic language. Topics include simple and complex data types, arithmetic operations, control flow, files, and database programming. Several projects are implemented during the semester.

CP SC 210 Programming Methodology 4(3,2) Introduction to programming techniques and methodology. Topics include structured programming, stepwise refinement, program design and implementation techniques, modularization criteria, program testing and verification, basic data structures, and analysis of algorithms. Credit may not be received for both CP SC 102 and 210. Preq: CP SC 111 or equivalent; satisfactory performance on a pretest.

CP SC 212 Algorithms and Data Structures 4(3,2) Study of data structures and algorithms fundamental to computer science; abstract data type concepts; measures of program running time and time complexity; algorithm analysis and design techniques. Preq: CP SC 102 or 210 with a C or better.

CP SC 215 Tools and Techniques for Software Development 3(2,2) Intensive course on software development using an imperative language. Topics include typical program development tools such as debuggers and "make" files, software development and testing techniques such as separate module development and testing, pointers and explicit heap management, and low-level file I/O. Preq: CP SC 102 or 210 with a C or better.

CP SC 220 Microcomputer Applications 3(3,0) Applications of microcomputers to formulate and solve program problems. Emphasizes applications development in database and spreadsheet environments. Current software products are used. Preq: CP SC 120 or MGT 218 or equivalent.

CP SC 231 Introduction to Computer Organization 4(3,2) Study of the machine architectures on which algorithms are implemented and requirements of architectures that support high-level languages, programming environments, and applications. Preq: CP SC 102 or 210 with a C or better.

CP SC 281 Selected Topics in Computer Science 1-4(0-3,0-6) Areas of computer science in which new trends along innovative approaches to a variety of problems in the use and understanding of basic computing concepts are developed and implemented. May be repeated for a maximum of eight credits, but only if different topics are covered. Preq: Consent of instructor.

CP SC 291 Seminar in Professional Issues I 1(1,0) Consider the impact of computer use on society. Discusses ethical use of software and protection of intellectual property rights. Professor is viewed historically as organizations important to the profession are discussed; the development process for standards is presented; and students are introduced to the professional literature. Preq: CP SC 102 or 210, or consent of instructor.

CP SC 322 Introduction to Operating Systems 3(3,0) Detailed study of management techniques for the control of computer hardware resources. Topics include interrupt systems, primitive level characteristics of hardware and the management of memory, processor, devices, and data. Credit may not be received for both CP SC 322 and 332. Preq: CP SC 215, 231 with a C or better.

CP SC 330 Computer Systems Organization 3(3,0) Introduction to the structure of computer systems. Various hardware/software configurations are explored and presented as integrated systems. Topics include digital logic, basic computer organization, computer arithmetic, memory organization, input/output organizations, interrupt processing, multiprocessors, and cluster computers. Preq: CP SC 212, 215, 231 with a C or better.

CP SC 332 Computer Systems 3(3,0) Introduces design, integration, and use of hardware and software components in standard computer systems. Emphasizes computer organization at the component level, interfacing, basic operating system functions, and system utilities. Credit may not be received for both CP SC 322 and 332. Preq: CP SC 212, 215, 231 with a C or better.

CP SC 350 Foundations of Computer Science 3(3,0) Development of the theoretical fundations of programming; algorithms, languages, automata, computability, complexity, data structures, and operating systems; a broad range of fundamental topics is consolidated and extended in preparation for further study. Preq: CP SC 212 and MTHSC 119 with a C or better.

CP SC 360 Networks and Network Programming 3(3,0) Introduction to basic concepts of computer network technologies and network programming. Topics include network programming, layered protocol architectures, local and wide area networks, internetwork and intranetwork concepts, security, socket level programming is introduced and used throughout the course. Preq: CP SC 212, 215 with a C or better.

CP SC 3601 Data Management Systems Laboratory 1(0,2) Introduction to mainframe environments typical of large-scale data processing applications; programming languages, control languages, and file utilities; use of COBOL language and IBM JCL. Preq: CP SC 102 or 210; or equivalent. Coreq: CP SC 360.

CP SC 362 Distributed and Cluster Computing 3(3,0) Introduction to the basic technology of programming and programming techniques for distributed and cluster computing. Standard techniques for developing parallel solutions to problems are introduced and implemented. Software systems that provide high-level abstractions for data communications are considered. Preq: CP SC 360 with a C or better.

CP SC 371 Systems Analysis 3(3,0) Incorporates a study of the decision-making process at all levels with the logical design of information systems. Extensive study of the system life cycle with emphasis on current as well as classical techniques for describing data flows, data structures, file design, etc. Preq: CP SC 360.

CP SC 372 Introduction to Software Development 3(3,0) Introduces techniques and issues in software design and development; tools, methodologies, and environments for effective design, development, and testing of software; and organizing and managing the development of software projects. Preq: CP SC 212 and 215 with a C or better.

CP SC H395 Honors Seminar 1(1,0) Research topics in various areas of computer science are presented. Methods for identifying and initiating research projects are considered. May be repeated for a maximum of two credits. Preq: Admission to Departmental Honors Program.

CP SC 405, 605 Introduction to Graphical Systems Design 3(3,0) Study of principles, computational techniques, and design concepts needed for designing systems for effective graphical displays. Preq: CP SC 212, 215, MTHSC 108, 311 with a C or better.
CP SC 411, 611 Virtual Reality Systems 3(3,0)
Design and implementation of software systems necessary to create virtual environments. Discusses techniques for achieving real-time, dynamic display of photorealistic, synthetic images. Includes hands-on experience with electromagnetically-tracked, head-mounted displays and requires, as a final project, the design and construction of a virtual environment. Prereg: CP SC 405 with a C or better.

CP SC 412, 612 Eye Tracking Methodology and Applications 3(3,0) Introduction to the human visual system; visual perception; eye movements; eye tracking systems and applications in psychology, industrial engineering, marketing, and computer science; hands-on experience with real time, corneal-reflection eye trackers, experimental issues. Final project requires the execution and analysis of an eye tracking experiment. Prereg: CP SC 360, MKT 431, or PSYCH 310.

CP SC 414, 614 Human and Computer Interaction 3(3,0) Survey of human and computer interaction, its literature, history, and techniques. Covers cognitive and social models and limitations, hardware and software interface components, design methods, support for design, and evaluation methods. Prereg: CP SC 212 and 215 with a C or better, or equivalent.

CP SC 416, 616 2-D Game Engine Construction 3(3,0) Introduction to tools and techniques necessary to build 2-D games. Techniques draw from subject areas such as software engineering, algorithms, and artificial intelligence. Students employ techniques such as sprite animation, parallax scrolling, sound, AI incorporated into game sprites, and the construction of a game shell. Prereg: CP SC 212 and 215 with a C or better.

CP SC 420, 620 Computer Security Principles 3(3,0) Covers principles of information systems security, including security policies, cryptography, authentication, access control mechanisms, system evaluation models, auditing, and intrusion detection. Computer security system case studies are analyzed. Prereg: CP SC 322 and 360 with a C or better.

CP SC 424, 634 System Administration and Security 3(3,0) Covers topics related to the administration and security of computer systems. Primary emphasis is on the administration and security of contemporary operating systems. Prereg: CP SC 360 and 322 or 332 with a C or better.

CP SC 428, 628 Design and Implementation of Programming Languages 3(3,0) Overview of programming language structure and features and their implementation. Control and data structures found in various languages are studied. Also includes runtime organization and environment and implementation models. Prereg: CP SC 231, 350, 360 with a C or better.

CP SC 455, 655 Computational Science 3(3,0) Introduction to the methods and problems of computational science. Uses problems from engineering and science to develop mathematical and computational solutions. Case studies use techniques from Grand Challenge problems. Emphasizes the use of networking, group development, and modern programming environments. Prereg: MTHSC 108, 311, and previous programming experience in a higher level language.

CP SC 462, H462, 662 Database Management Systems 3(3,0) Introduction to database/data communications concepts as related to the design of online information systems. Problems involving structuring, creating, maintaining, and accessing multiple-user databases are presented and solutions developed. Comparison of several commercially available teleprocessing monitor and database management systems is made. Prereg: CP SC 360.

CP SC 463, 663 On-line Systems 3(3,0) In-depth study of the design and implementation of real-time transaction processing systems and an introduction to basic communications concepts. A survey of commercially available software and a project using one of the systems are included. Prereg: CP SC 462.

CP SC 464, 664 Introduction to Computer Architecture 3(3,0) Survey of von Neumann computer architecture at the instruction-set level. Fundamental design issues are emphasized and illustrated using historical and current mainframes, superminis, and microarchitectures. Prereg: CP SC 330 or consent of instructor.

CP SC 472, H472, 672 Software Development Methodologies 3(3,0) Advanced topics in software development methodology. Techniques such as chief information systems, structured design and structured walkthroughs are discussed and used in a major project. Emphasizes the application of these techniques to large-scale software implementation projects. Also includes additional topics such as mathematical foundations of structured programming and verification techniques. Prereg: CP SC 360 and 372.

CP SC 481, H481, 681 Selected Topics 1-3(1-3,0) Areas of computer science in which non-standard problems arise. Innovative approaches to problem solutions which draw from a variety of support courses are developed and implemented. Emphasizes independent study and projects. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: Consent of instructor.

CP SC 491 Seminar in Professional Issues II 1(1,0) Considers the impact of computing system development on society. Discusses ethical issues in the design and development of computer software. Students discuss standards for professional behavior, the professional's responsibility to the profession, and techniques for maintaining currency in a dynamic field. Prereg: Senior standing.

CP SC H495 Senior Thesis Research 1-3(1-3,0) Directed individual research project for honors students supervised by departmental faculty. May be repeated for a maximum of six credits. Prereg: Senior standing.

CONSTRUCTION SCIENCE AND MANAGEMENT
Professors: F. M. Eubanks, R. W. Liska, Chair; Associate Professors: S. N. Clarke, G. R. Corley, C. A. Piper, R. K. Schneider; Assistant Professor: D. C. Baussman

C S M 100 Introduction to Construction Science and Management 3(3,0) Introduction to the construction industry and the Construction Science and Management Department. Prereg: Construction Science and Management major or consent of department chair.

C S M 150 Introduction to Research Methodology 1(0,2) Fundamentals of formal research methodology, critical thinking, and ethics. Prereg: Construction Science and Management major.

C S M 201 Structures I 3(3,0) Study of statically determinate structural components and systems including force equilibrium and distributions in structural elements and the resulting stress-strain patterns in axial, shear, and bearing mechanisms. Prereg: MTHSC 102 or 106, PHYS 207; Construction Science and Management or Architecture major, or consent of department chair.

C S M 202 Structures II 4(3,2) Study of force distribution and behavior in statically determinate structural components and systems; analysis and design of basic reinforced concrete, steel, wood, and formwork components and systems including shear and moment stress, combined loading/stress conditions, and deflections. Prereg: C S M 201, Construction Science and Management or Architecture major, or consent of department chair.

C S M 203 Materials and Methods of Construction I 3(3,0) Descriptive study of the materials and methods of construction, focusing on nomenclature, building materials, and assembly of building systems consisting primarily of wood, masonry, residential interior and exterior finishes, and building foundations. Prereg: Construction Science and Management or Architecture major, or consent of department chair. Prereg or Coreq: A A H 210, C S M 100 (Construction Science and Management majors).

C S M 204 Contract Documents 3(2,3) Introduction to working drawings, specifications, and the various documents required to carry out a typical construction project. Prereg: Construction Science and Management major or consent of department chair. Coreq: C S M 205.

C S M 205 Materials and Methods of Construction II 3(3,0) Descriptive study of materials and methods of construction, focusing on nomenclature, building materials, and assembly of building systems consisting primarily of steel and concrete in addition to roofing assemblies and interior and exterior commercial finishes. Prereg: C S M 203, Construction Science and Management or Architecture major, or consent of department chair.

C S M 250 Construction Problem Solving Through Research 1(0,2) Application of the components of formal research methodology to real-life construction problems and documentation and presentation of process and solution. Prereg: C S M 150 or consent of department chair.
C S M 301 Structures III 3(3,0) Analysis and design of basic determinate and indeterminate masonry and reinforced concrete structural components and systems; introduction to special structural systems and seismic loading. Preq: C S M 202, PHYS 208, Construction Science and Management or Architecture major, or consent of department chair.

C S M 303 Soils and Foundations 3(2,3) Study of various types of soils and foundations, including soil testing, reports, compaction, stability, and function as they relate to the construction process. Preq: C S M 202, Construction Science and Management major, or consent of department chair.

C S M 304 Environmental Systems I 3(3,0) Theory and practice of heating, ventilating, air conditioning, and plumbing systems for buildings. Preq: C S M 205, PHYS 208, Construction Science and Management or Architecture major, or consent of department chair.

C S M 305 Environmental Systems II 3(3,0) Theory and practice of fire protection, specialty piping, lighting, and electrical systems for buildings. Preq: C S M 304, Construction Science and Management or Architecture major, or consent of department chair.

C S M 351 Construction Estimating 3(2,2) Study of basic estimating as applied to construction projects. Includes the take-off of material quantities, assigning labor and equipment production rates, and applying material prices, wage rates, and equipment costs to derive a total job cost. Preq: C S M 204, 205, CP SC 120, all required MTHSC courses, Construction Science and Management major, or consent of department chair. Coreq: C S M 411, 461.

C S M 352 Construction Scheduling 3(2,2) Analysis of construction projects emphasizing estimating, scheduling, and resource leveling. Preq: C S M 304 (or concurrent enrollment), 351, Construction Science and Management major, or consent of department chair. Coreq: C S M 353.

C S M 353 Construction Estimating II 3(2,2) Continuation of basic construction estimating with the additional component of computerized estimating. Includes material, labor and equipment costs, production rates, bid ethics, construct-ability analysis, and understanding of other types of estimating procedures. Preq: C S M 304 (or concurrent enrollment), 351, Construction Science and Management major, or consent of department chair. Coreq: C S M 353.

C S M 400, H400 Directed Studies 1-3(1-3,0) Comprehensive studies and research of special topics not covered in other courses. Emphasizes field studies, research activities, and current developments in construction science. May be repeated for a maximum of six credits. Preq: Consent of instructor.

C S M 498 Current Topics in Construction 1-3(1-3,0) Study of current topics in the construction industry not central to other construction science courses. Specific titles and course descriptions to be announced from semester to semester. May be repeated for a maximum of six credits. Preq: Consent of advisor.

C S M 450 Construction Internship 1(1,0) Documentation of 800 hours of approved experience in the construction industry with evaluation of student portfolio and preparation and sitting for the American Institute of Constructors CPC Level I examination. To be taken Pass/Fail only. Preq: C S M 250 or consent of department chair.

C S M 453 Construction Project Management 3(3,0) Study of construction business organization, methods of project delivery, field organization, policy, ethics, project management, control systems, labor management relations, and productivity. Preq: C S M 352, 353, LAW 322 (or concurrent enrollment), MGT 307 (or concurrent enrollment), Construction Science and Management major, or consent of department chair. Coreq: C S M 411, 461.

C S M 454 Construction Capstone 6(3,12) Students develop a capstone project that entails the knowledge obtained in all previous courses in the Construction Science and Management Program. Students must take the capstone course at Clemson University. Preq: C S M 453, Construction Science and Management major, or consent of department chair.

C S M 455, 655 Reducing Adversarial Relations in Construction 3(0) Focuses on the study of the delivery of projects and how adversarial relations can affect the successful completion of the venture. Topics include management of human resources, understanding the needs and processes of the participants, where problems lie, methods of avoiding and settling disputes. Preq: Construction Science and Management or Architecture major, senior standing, or consent of department chair.

C S M 490, H490 Directed Studies 1-3(1-3,0) Comprehensive studies and research of special topics not covered in other courses. Emphasizes field studies, research activities, and current developments in construction science. May be repeated for a maximum of six credits. Preq: Consent of instructor.

C S M 499 Current Topics in Construction 1-3(1-3,0) Study of current topics in the construction industry not central to other construction science courses. Specific titles and course descriptions to be announced from semester to semester. May be repeated for a maximum of six credits. Preq: Consent of advisor.

CROP AND SOIL ENVIRONMENTAL SCIENCE

CSENV 100 Introduction to Crop and Soil Environmental Science 1(1,0) Introduction to and survey of the agronomic and soil sciences and their application to current societal issues: career guidance, opportunities for professional certification, and discussion of skills used by agronomists and soil scientists. Offered fall semester only.

CSENV 202 Soils 4(3,2) Introduces world land resources, soil formation, classification, and mineralogy. Emphasizes basic chemical and physical properties of soil. Also discusses soil microorganisms, plant nutrients, and fertilization. Soil properties are related to growth. Preq: CH 101, 102, or a geology sequence including GEOE 101; or consent of instructor.

CSENV 350 Practicum 1-6 Prepracticed practical or research experience related to student-selected Soils and Sustainable Crop Systems concentration. Practicum is undertaken with an approved advisor or agency. May be repeated for a maximum of six credits. Preq: Soils and Sustainable Crop Systems major or consent of department chair.

CSENV 403, 603 Soil Genesis and Classification 2(1,3) Study of soil morphology and characterization, pedogenic processes, soil-forming factors, and classification of soils. Offered fall semester only. Preq: CSENV 202 or consent of instructor.

CSENV 404, 604 Soils and Land Use 2(1,3) Soils interpretations for nonagricultural purposes and facilities. Emphasizes use of modern soil surveys and properties and features of soils important in nonfarm land uses. Not open to Crop and Soil Environmental Science majors or to students who have taken CSENV 202. Offered fall semester only.

CSENV 405, 605 Plant Breeding 3(2,2) Application of genetic principles to the development of improved crop plants. Principal topics include the genetic and cytogenetic basis of plant breeding, mode of reproduction, techniques in selfing and crossing, methods of breeding, inheritance in the major crops, and biometrical methods. Offered spring semester only. Preq: GEN 302 or equivalent.

CSENV 406 Special Problems 1-3(0,3-9) Acquaints students with the scientific method. Literature investigation, planning, and execution of an experiment are integral parts of the course. Not open to AGRIC H491 and H492 students. May be repeated for a maximum of six credits. Preq: Senior standing, minor in Crop and Soil Environmental Science, and consent of department chair.

CSENV 407, H407, 607 Introductory Weed Science 3(2,2) Weed management in crops and pastures of the Southeast. Topics include weed identification, herbicide families and modes of action, herbicide formulations, herbicide diagnosis on crops and weeds, sprayer calibration and spray application, and nonchemical weed control strategies. Preq: AGRIC 104 or consent of instructor.
CSENV 446, 646 Soil Management 3(3,0) Basic soil properties are related to compaction, water and solute movement, and root growth. Consider practical management problems and develop solutions based on basic soil characteristics. Problems include erosion, no-tillage, compaction, irrigation, leaching, water application, golf green management, and orchard establishment. Preq: CSENV 202.

CSENV 452, 652 Soil Fertility and Management 3(3,0) Study of soil properties, climatic factors, and management systems in relation to soil fertility maintenance for crop production. Considers plant nutrition and growth in relation to crop fertilization and management. Preq: CSENV 202 or consent of instructor.

CSENV 453, H453, 653 Soil Fertility Laboratory 1(0,3) Evaluation and interpretation of soil fertility production. Preq: CSENV 202 or consent of instructor.

CSENV 455 Seminar 1(1,0) Students present current agronomic topics of special interest in crop production appearing in recent scientific journals and other publications.

CSENV 490, 690 Beneficial Soil Organisms in Plant Growth 3(3,0) Aspects of biological nitrogen fixation, mycorrhizal fungi, microbial-pesticide interactions, bioremediation, nutrient cycles, and biological pest control related to plant growth and environmental quality; and sustainable agriculture are covered. Students who desire laboratory training in these topics may register for CSENV 490 after consultation with instructor. Preq: CSENV 202, MICRO 305, PL PA 310, or consent of instructor.

DANCE 130 Tap Dance I 1(0,3) Introduces fundamentals and vocabulary of tap dancing with opportunities to develop rhythmic patterns of various origins. May be repeated for a maximum of eight credits, with a maximum of 16 credits of dance applied toward a degree. Applied dance fee will be assessed.

DANCE 140 Jazz Dance I 1(0,3) Introduces basic principles and fundamentals of jazz technique, as well as exploration of flexibility and strength-building exercises. May be repeated for a maximum of eight credits, with a maximum of 16 credits of dance applied toward a degree. Applied dance fee will be assessed.

DANCE 150 Modern Dance I 1(0,3) Introduces basic principles of dance movement and vocabulary, as well as actively exploring and applying different methods of body alignment and theory. May be repeated for a maximum of eight credits, with a maximum of 16 credits of dance applied toward a degree. Applied dance fee will be assessed.

DANCE 160 Ballet Dance I 1(0,3) Introduces basic principles and fundamentals of classical ballet, with emphasis on good technique, center work, and across the floor work. May be repeated for a maximum of eight credits, with a maximum of 16 credits of dance applied toward a degree. Applied dance fee will be assessed.

DANCE 330 University Dance Company I 1(0,3) Performance ensemble for advanced dance students. Provides opportunities to learn and develop choreographic skills as well as to improve personal dance techniques. Company is selected by audition. May include public recital(s). May be repeated for a maximum of eight credits. Applied dance fee is assessed. Preq: Consent of instructor.

DESIGN STUDIES

DSIGN 321 Wood Shop Practices, Materials, Tools, and Equipment 3(1,6) Instruction in the use of a full range of shop machinery, tools, equipment, and craftsmanship as well as an orientation to a wide variety of materials, techniques, and procedures. The paramount importance of safety is continually emphasized. Preq: Consent of instructor.

EARLY CHILDHOOD EDUCATION

Professors: V. I. Correa, D. A. Stegelin; Assistant Professor: A. L. Eckhoff; Lecturers: T. Flowers, R. S. N. Wilson

ED EC 220 Family, School, and Community Relationships 3(3,0) Historical trends, theoretical models, and strategies of effective family/school/community relationships are examined. Special emphasis is placed on multicultural issues and on programs that support collaborative interaction with families that benefit children. Preq: Sophomore standing.

ED EC 300 Foundations of Early Childhood Education 3(3,0) Philosophical and historical foundations of early childhood education, societal changes and influences, needs of young children and families, program differentiation, and future trends are examined through coursework and experiential activities. Preq: General Education requirements; ED EC 220, ED F 334, or consent of instructor.
ED EC 336, H336 Social Development of Infants and Young Children 3(3,0) Study of the behavior of the preschool child from infancy through age five. Theoretical concepts and observation of children’s behavior are integrated, analyzed, and evaluated to discover implications for teaching and guiding preschool children. Includes a minimum of 10 one-hour observation-participation visits in public kindergarten. Prereq: ED F 334, minimum grade-point ratio of 2.0 or consent of instructor.

ED EC 400 Observation and Assessment in Clinical Settings 3(3,0) Clinical experiences in early childhood settings prior to student teaching provide opportunities for observing, guiding, and assessing young children, birth to age eight, in a variety of high quality preschool and primary settings. Practicum spans the entire semester. To be taken Pass/Fail only. Prereq: ED EC 336; concurrent enrollment in ED EC 420, 430, 440, 450, and READ 459.

ED EC 420 Early Childhood Science 3(3,0) Students develop knowledge, skills, and attitudes needed to foster science education among young children. Emphasizes teaching strategies and techniques appropriate for young children (birth to age eight), understanding the unique learning needs of special populations, and integrating science across the curriculum. Prereq: General Education requirements. Coreq: ED EC 400, 430, 450, READ 459.

ED EC 430 Early Childhood Mathematics 3(3,0) Examination of theories and methods of teaching mathematics in terms of how young children develop mathematical thinking. Topics include problem solving, current issues, diversity, current technologies, reflective teaching, and applications of math in everyday life. Prereq: General Education mathematics requirement; admission to the professional level. Coreq: ED EC 400, 420, READ 459.

ED EC 440 Integrated Language Arts and Social Studies in Primary Schools 3(3,0) Integrates social studies and language arts in a course that reflects recommended teaching practices for young children (birth to age eight). Uses language arts as an approach for teaching social studies content, techniques, and methods in primary schools. Prereq: Admission to the professional level. Coreq: ED EC 400, 420, 430, READ 459.

ED EC 450 Early Childhood Curriculum 3(3,0) Constructivist approach is used to explore children’s thinking as it influences curriculum design in early childhood. Analyzes the educational needs of the young child in the cognitive realm and examines the implementation of activities, experiences, and play-based program models. Prereq: Admission to the professional level. Coreq: ED EC 400, 420, READ 459.

ED EC 484 Directed Teaching in Early Childhood Education 12(1,33) Supervised observation and teaching experiences in cooperation with nursery schools, kindergartens, and elementary schools. Restricted to seniors or graduates who have completed prerequisite courses and have the cumulative grade-point ratio for graduation. Prereq: ED EC 400, 450, ED EL 321, 488, READ 459; admission to the professional level; consent of area committee chair.

EAST ASIAN STUDIES
E A 5123 Introduction to China 3(3,0) Introduction to various aspects of Chinese civilization, including geography, ethnic groups, language, history, philosophy, religion, literature, arts, architecture, and social customs. All readings and discussions are in English.

ECONOMICS

ECON 200 Economic Concepts 3(3,0) One-semester survey of basic economic concepts that offers an overview of both microeconomics and macroeconomics. Not intended for business majors or other students seeking a comprehensive introduction to economic analysis and its applications. Credit will not be given to students who have received credit for ECON 211 or 212.

ECON 211, H211 Principles of Microeconomics 3(3,0) Introduction to economic reasoning and its application to the study of the behaviors of consumers and businesses. Particular topics include competition, monopoly, international trade, and the impact of selected public policies. Intended as the first of a two-semester sequence in the foundations of economics.

ECON 212, H212 Principles of Macroeconomics 3(3,0) Continuation of ECON 211 in which fundamental economic principles are applied to the study of aggregate economic performance. Topics include the forces determining the rates of inflation, unemployment, and economic growth, with particular emphasis on the influence of fiscal and monetary policies through financial markets. Prereq: ECON 211 or consent of instructor.

ECON 301 Economics of Labor 3(3,0) Introduces students to the economics of the labor market and labor relations. Considers the theories of wages and employment, determination, unemployment, investment in human capital, discrimination, and public policy toward the labor market. Also considers the role of labor unions. May not be used to satisfy requirements for a degree in Economics. Prereq: ECON 211 or consent of instructor.

ECON 302 Money and Banking 3(3,0) Considers the function of money and banking in both the product and financial markets. Special emphasis is placed on monetary theory and current problems of monetary policy. May not be used to satisfy requirements for a degree in Economics. Prereq: ECON 212 or consent of instructor.

ECON 306, H306 Managerial Economics 3(3,0) Uses tools of economic analysis in classifying problems in organizing and evaluating information, and in comparing alternative courses of action. Bridges the gap between economic theory and managerial practices. May not be used to satisfy requirements for a degree in Economics. Prereq: ECON 211 or consent of instructor.

ECON 307 Arbitration 3(3,0) Analyzes dispute settlement procedures emphasizing mediation, fact-finding, and arbitration as they are used to resolve labor-management disputes in the public and private sectors. Prereq: Consent of instructor.

ECON 309 Government and Business 3(3,0) Relationships between government and business, including, among other topics, government efforts to enforce competition; to regulate public utilities; and to protect the special interest of laborers, farmers, and consumers. May not be used to satisfy requirements for a degree in Economics. Prereq: ECON 211 or consent of instructor.

ECON 310 International Economy 3(3,0) Studies of the process of international commerce. Covers basic theory of trade and exchange rates, institutional and legal environment, current policy issues. Not open to students who have taken ECON 412. May not be used to satisfy requirements for a degree in Economics. Prereq: ECON 211 and 212 or consent of instructor.

ECON 314, H314 Intermediate Microeconomics 3(3,0) Analytical study of basic concepts of value and distribution under alternative market conditions. Prereq: ECON 211 or consent of instructor.

ECON 315, H315 Intermediate Macroeconomics 3(3,0) Macroeconomic problems of inflation and unemployment are focal points. Includes statistics (measures of real output and the price level) and theory (covering the sources of short-run fluctuations and long-run growth). Analyzes appropriate public policies addressing these issues. Prereq: ECON 212 or consent of instructor.

ECON 319 Environmental Economics 3(3,0) Study of the application of economic logic to issues surrounding environmental management and policy. Examines individual, firm, and collective decision making as well as the evolution of regulatory approaches for controlling environmental use. Prereq: ECON 314.

ECON (E L E) 321 Economics of Innovation 3(3,0) Examines the nature of entrepreneurship and the contribution of innovation to economic growth. Investigates the organizational and institutional sources of innovation in different firms and different countries as well as the work of economic theorists concerning the role entrepreneurs play in bringing new products to market. Prereq: ECON 306 or 314.

ECON 324 Economics and Sports 3(3,0) Economic analysis of sports teams, leagues, and institutions. Analyzes basic economic issues using sports data. May not be used to satisfy requirements for a degree in Economics. Credit will not be given to students who have completed ECON 426. Prereq: Sophomore standing, ECON 211.

ECON 325 Personnel Economics 3(3,0) Study of various compensation and personnel practices firms employ. Explains when each of these practices should be followed to elicit the desired employee effort and labor force quality. Topics include piece-rate and time-rate systems, seniority-based incentive schemes, promotion contests, evaluation systems, mandatory retirement, and up-or-out rules. Prereq: ECON 211 or consent of instructor.
### Courses of Instruction

**ECON 340 Behavioral Economics 3(3,0)** Introduction into the economic, sociological, and psychological aspects of decision making under uncertainty. Presents the psychology of prediction, intuitive prediction: biases and corrective procedures. Topics also include framing, choice with costly information, and social influences on individual behavior. Prereg: ECON 211 or consent of instructor.

**ECON 350, H350 Moral and Ethical Aspects of a Market Economy 3(3,0)** Can a market system produce results that are fundamentally just? Is justice possible without voluntary exchange? Applies both economic and philosophical analyses to these questions. Emphasizes the causes, consequences, and morality of the distribution of wealth and income in a free-market system. Prereg: ECON 314 or consent of instructor.

**ECON 360 Public Choice 3(3,0)** Covers the economic approach to political activities and institutions. Topics include voting, voting rules, constitutions, political competition, political business cycles, vote trading, interest groups, bureaucracy, committees, legislators, executives, and judges. Designed for Economics and non-Economics majors and requires only basic skills in microeconomics. Prereg: ECON 211 or consent of instructor.

**ECON H390 Junior Honors Research 1(1,0)** Readings and research in conjunction with an approved economics course at the 300 or 400 level. Honors status required. May be repeated for a maximum of three credits.

**ECON 397 Creative Inquiry—Economics I 1-4(1-4,0)** In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits.

**ECON 401 Labor Market Analysis 3(3,0)** Develops the methods of economic analysis of labor markets. Requires students to apply these methods to problems of the labor market. Topics include labor demand and supply, human capital, occupational choice, compensating wage differentials, organizational wage structures and incentive systems, unemployment, and discrimination. Prereg: ECON 314.

**ECON 402 Law and Economics 3(3,0)** Application of economics to the law of property, torts, and contracts; regulation of markets, business organizations, and financial transactions; distribution of income and wealth; and criminal law. Prereg: ECON 211 or consent of instructor.

**ECON 404 Comparative Economic Systems 3(3,0)** Comparative analytical and historical study of the principal economic systems which have been important in the modern world including, among others, capitalism and socialism. Prereg: ECON 314 or consent of instructor.

**ECON 405, 605 Introduction to Econometrics 4(3,3)** Introduction to methods of quantitative analysis of economic data. Reviews basic statistical methods and probability distribution. Topics include data management using professional statistical software applications; multiple regression analysis; hypothesis testing under conditions of multicollinearity, heteroscedasticity, and serial correlation. Prereg: ECON 211 and 212; MTHSC 108 or 207; EX ST 301 or MTHSC 301 or 309.

**ECON 406, 606 Advanced Econometrics 3(3,0)** Reviews statistical inference using multiple regression (OLS) analysis and model specification. Topics include multicollinearity, heteroscedasticity, and serial correlation; two-staged least squares and instrumental variables models; simultaneous equations models; limited dependent variable models using maximum likelihood estimation and time-series analysis; and presentation of results in technical writing. Prereg: ECON 405 or consent of instructor.

**ECON 410, 610 Economic Development 3(3,0)** Consideration and analysis of economic and related problems of underdeveloped countries. Attention is given to national and international programs designed to accelerate solution of these problems. Prereg: ECON 314 or consent of instructor.

**ECON 411, 611 Economics of Education 3(3,0)** Analysis of economic issues related to education. The decision to invest in education, elementary and secondary schools, markets and reform, the market for college education, teacher labor markets, and education's effects on economic growth and income distribution. Prereg: ECON 314 or consent of instructor.

**ECON 412 International Microeconomics 3(3,0)** Analysis of the essential aspects of international economic linkages. Discusses gains and redistributive effects of trade and the barriers to trade within the context of a variety of economic models. Also discusses the history of trade policy and the political economy of its determination. Prereg: ECON 314 or consent of instructor.

**ECON 413 International Macroeconomics 3(3,0)** Examination of macroeconomic linkages between an individual country and the rest of the world and how these linkages are affected by the choice of exchange rate regimes. Topics include the relation between domestic and foreign interest rates and exchange rates and the ability to pursue independent monetary policies. Prereg: ECON 315.

**ECON 419 Economics of Defense 3(3,0)** Examines the American defense establishment in terms of resources utilized, alternative uses, and the contribution to the national economy and scientific progress generated by resources in a defense use. Discusses economic problems inherent in shifting resources between defense and nondefense uses and among alternative defense uses. Prereg: ECON 314.

**ECON 420 Public Sector Economics 3(3,0)** Study of the role of government and its proper functions and limitations in a market. Provision of goods and services by all levels of government and instruments of taxation are evaluated according to efficiency and equity criteria. Contemporary public sector issues are emphasized throughout. Prereg: ECON 314 or consent of instructor.

**ECON 421 Economic Analysis of Law 3(3,0)** Reviews legal and economic aspects of legal statutes, court cases, and judicial decisions. Topics include the role of economic analysis in the legal process, economic models of legal decision making, and the economic analysis of legal doctrines. Prereg: ECON 314 or consent of instructor.

**ECON 422 Monetary Economics 3(3,0)** Intensive study of the role of monetary factors in economic change. Modern monetary theories and their empirical relevance for policy are developed against a background of monetary history and institutions. Prereg: ECON 314 and 315 or consent of instructor.

**ECON 423 Economics of Health 3(3,0)** Applies microeconomic theory to examine the demand for health services and medical care, the market for medical insurance, the behavior of physicians and hospitals, and the role of government in health-care provision and regulation. Prereg: ECON 314.

**ECON 424 Organization of Industries 3(3,0)** Empirical, historical, and theoretical analyses of market structure and concentration in American industry: the effects of oligopoly, monopoly, and cartelization upon price, output, and other policies of the firm; antitrust and other public policies and problems are studied. Prereg: ECON 314 or consent of instructor.

**ECON 425, 625 Antitrust Economics 3(3,0)** Analysis of the economic and legal issues created by the exercise of market power, The motivation and execution of government policy towards mergers, predatory conduct, and various restraints of trade are intensively examined. Prereg: ECON 309 or 314 or consent of instructor.

**ECON 426, H426, 626 Seminar in Sports Economics 3(3,0)** Economic analysis of sports teams, leagues, and institutions. Topics include antitrust issues, public funding of sports venues, labor relations, wagering markets, athlete compensation, and application of economic principles to sports settings. Empirical research project is cornerstone of course. Prereg: ECON 410, 415; or consent of instructor.

**ECON 430 Topics in Mathematical Economics 3(3,0)** Skills acquired in freshman mathematics are applied to selected topics in economic theory. Course is a good complement to ECON 314 and provides excellent preparation for 400-level courses in economics, especially ECON 405. May be taken concurrently with ECON 314. Prereg: ECON 314, and MTHSC 108 or 207.

**ECON 435 Family Economics 3(3,0)** Analysis of economic aspects of the family. Economics of marriage, divorce, fertility, public policies affecting the family, women's labor force participation, and the gender gap are studied using main economic theories and empirical studies. Prereg: ECON 314 or consent of instructor.

**ECON 440, 640 Game Theory 3(3,0)** Introduction to the formal analysis of strategic interaction among rational, self-interested rivals. Basic theoretical aspects of games are discussed and applied to such topics as bargaining, voting, auctions, and oligopoly. Prereg: ECON 314 and MTHSC 106, or ECON 430, or consent of instructor.

**ECON H491 Senior Honors Thesis Research 3(3,0)** Reading and research for the Senior Honors Thesis. Prereg: ECON 314, 315, senior honors standing.

**ECON H492 Senior Honors Thesis Writing 3(3,0)** Writing and oral presentation of the Senior Honors Thesis. Prereg: ECON H491.
EDC 496 Independent Study 1-3(1-3,0) Research and writing on a selected economics topic chosen by the student. A written proposal must be approved by the instructor prior to the start of the semester. May be repeated for a maximum of six credits. Preq: ECON 314.

EDC 497 Creative Inquiry—Economics II 1-3(1-3,0) Engages students in research projects selected by the Economics Department faculty. Research projects vary depending on faculty and student interest. May be repeated for a maximum of six credits. Preq: ECON 314 or consent of instructor.

EDC 498, H498 Selected Topics in Economics 3(3,0) In-depth treatment of topics not covered fully in regular courses. Topics vary from year to year. May be repeated for a maximum of nine credits, but only if different topics are covered. Preq: ECON 314 and 315 or consent of instructor.

EDC 499 Senior Seminar in Economics 1-3(1-3,0) Discussion of topics of current interest in economics. Students conduct directed research on a particular topic. Preq: Consent of instructor.

EDUCATION

Professor: W. R. Fisk, Chair; Lecturer: H. W. Millar

ED 105 Orientation to Education 1(1,0) Lectures and discussions on teaching. For a minimum of ten weeks, students spend one hour per week in school, assisting teachers, observing, and tutoring individuals. Required of all students in approved teacher certification programs. To be taken Pass/Fail only.

ED 110 Introduction to Tutoring 1(1,0) Students develop and reinforce skills in tutoring and communication through use of techniques based in educational research. To be taken Pass/Fail only.

ED 111 Introduction to Supplemental Instruction 1(1,0) Students develop and reinforce interpersonal relationship skills in listening, decision making, communicating, group dynamics, leadership, assertiveness, time management, problem solving, and conflict resolution. To be taken Pass/Fail only.

ED 197 Creative Inquiry—Education 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

ED 199 Creative Inquiry—Counselor Education 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

ED 397 Creative Inquiry—Education 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

ED 405 Multiculturalism 3(3,0) Introduces prospective teachers to the influence of culture on learning from an anthropological and historical perspective. Preq: HIST 172, 173, or consent of instructor.

ED 438 Selected Topics in Education 1-3(1-3,0) Specific education topics not found in other courses are selected for in-depth study. May be repeated for a maximum of six credits, but only if different topics are covered.

ED 439 Independent Study in Education 1-3(1-3,0) Study of selected topics in education under the direction of a faculty member chosen by the student. Student and faculty member develop a course of study different from any existing courses and designed for the individual student. May be repeated for a maximum of six credits, but only if different topics are covered.

ED 441, 641 Middle School Curriculum 3(3,0) Concepts and methods for teaching middle school students. Discusses nature of middle school students, teacher characteristics, curricular and co-curricular programs, orientation and teaching.

ED 497 Creative Inquiry—Education 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

EDH 499 Creative Inquiry—Education Honors 3(1,4) Students seeking departmental honors complete research under faculty mentors. Seminar meetings occur across the semester and include the sharing and discussion of research results and experiences by students and faculty. Preq: ED F H301, H302, departmental honors course specified by major area.

EDUCATIONAL FOUNDATIONS

ED F 301, H301 Principles of American Education 3(3,0) Study of the legal basis, historical development, characteristics, and functions of educational institutions in the United States. Preq: ED F 105 (or concurrent enrollment), 2.0 minimum grade-point ratio, or consent of instructor.

ED F 302, H302 Educational Psychology 3(3,0) Introduction to classroom use of objectives, motivation theories, learning theories, tests and measurements, classroom management, and knowledge of exceptional learners. Preq: ED F 105 (or concurrent enrollment), 2.0 minimum grade-point ratio, or consent of instructor.

ED F 308 Classroom Assessment 3(3,0) Introduction to classroom assessment and standardized testing. Preq: ED F 302.

EDF (CTE) 315 Technology Skills for Learning 1(0,2) Students develop technology skills, such as creating Web pages and multimedia presentations in the context of general education class requirements. Products developed are linked within the School of Education e-portfolio. Preq: Admission to Teacher Education program.
ED F 334, H334 Child Growth and Development 3(3,0) Introduction to lifespan development. Heavy emphasis is placed on the physical, social, emotional, and cognitive characteristics. Includes a minimum of five one-hour observation-participation visits to an elementary school. Preq: ED F 105 (or concurrent enrollment), 2.0 minimum grade-point ratio, or consent of instructor.

ED F 335, H335 Adolescent Growth and Development 3(3,0) Introduction to lifespan development. Emphasizes the physical, social, emotional, and cognitive characteristics of the 10- to 18-year old and the educational implications of those developmental characteristics. Preq: ED F 105 (or concurrent enrollment), 2.0 minimum grade-point ratio, or consent of instructor.

ED F 406 Philosophy, Schooling, and Educational Policy 3(3,0) Analysis of the development of contemporary educational theory and its impact on current schooling practices and educational policy development.

ED F 425 Instructional Technology Strategies 110,2 Helps future teachers learn to use technology effectively in support of content area instruction. To be taken concurrently with either methods classes or during student teaching as directed by major. Preq: ED F (CTE) 315.

ED F (AG ED, CTE) 480, 680 Educational Applications of Microcomputers 3(2,2) Fundamentals of computer applications for teachers. Develops competencies in general computer applications such as word processing and database management and addresses educational uses of the Internet and computer-assisted instruction, with emphasis on legal and ethical issues and the impact of computer technology upon society. Preq: Admission to a Teacher Education Program.

ED F (AG ED, CTE) 482, 682 Advanced Educational Applications of Microcomputers 3(2,2) Provides students with the knowledge and skills needed to apply microcomputer technology to the utilization and generation of educational software in accordance with sound educational principles. Preq: ED F (AG ED, CTE) 480.

ED F 490, 690 Student Management and Discipline 3(3,0) Aids pre-service and in-service teacher development and refines knowledge, skills, and values important for managing students in school settings. Emphasizes practical application of theory and research and legal and ethical considerations. Preq: ED F 302 or PSYCH 201; ED F 334, 335, or suitable alternative; 2.0 minimum grade-point ratio.

ED F 497 Instructional Media in the Classroom 3(3,0) Integrated approach to the use of audiovisual media stressing systematic planning, selection, utilization, and evaluation as well as production of materials and equipment operation. Preq: 2.0 minimum grade-point ratio.

E C E 320 Electronics I 3(3,0) Introduction to electronic materials and devices; principles of design; design of DC and AC circuits using diodes, bipolar junction transistors, field-effect transistors and use of transistors in digital circuits. Prereq: E C E 262, MTHSC 208, PHYS 221. Coreq: E C E 311.

E C E 321 Electronics II 3(3,0) Analysis and design of discrete amplifier circuits at low and high frequencies; operational amplifiers, distortion in amplifiers, oscillator design, and circuit analysis of active digital devices. Prereq: E C E 262, E C E 320. Coreq: E C E 312.

E C E 327 Digital Computer Design 3(3,0) Design of high-speed ALUs, control and timing circuitry, memory systems and I/O circuitry; microprogrammed computer design using bit-slice microprocessors; current hardware topics related to computer design; hands-on design experience; and use of logic analyzer for system debugging. Prereq: E C E 311. Coreq: E C E 320.

E C E 329 Computer Systems Structures 3(3,0) Fundamental structures and issues that arise in the analysis and implementation of computer systems. Topics include operating systems structures and data structures and their relationship to computer organization. Engineering science background for computer systems design. Prereq: CP SC 102 or 210, CP SC 340 or 401, E C E 272.

E C E 352 Programming Systems 3(3,0) Second course in programming languages and systems. Topics include assemblers, compilers, and syntactical methods; string manipulation and list processing; concepts of executive programs and operating systems; introduction to time-sharing systems. Prereq: CP SC 340 or 401, and MTHSC 419.

E C E 360 Electric Power Engineering 3(3,0) Presents the basic principles of electromagnetic induction and electromagnetic forces developed. Topics include synchronous machines, power transformers, electric power transmission, and distribution systems, DC motors, and induction motors. Prereq: E C E 262, PHYS 221.

E C E 371 Microcomputer Interfacing 4(1-3,1-3) Interfacing of microcomputers to peripherals or other computers for purposes of data acquisition, device monitoring and control, and other communications. The interfacing problem is considered at all levels including computer architecture, logic, timing, loading, protocols, and software laboratory for building and simulating designs. Prereq: E C E 262, 272. Coreq: E C E 320.

E C E 380 Electromagnetics 3(3,0) Introduction to electric fields and potentials, dielectrics, capacitance, resistances, magnetic field, forces, work and energy, inductance, time-varying fields, and Maxwell's equations. Prereq: E C E 262, MTHSC 206, PHYS 221. Coreq: E C E 311.

E C E 381 Fields, Waves, and Circuits 3(3,0) Covers foundation of circuit theory, transmission lines and circuits, plane-wave propagation, fiber optics, radiation and antennas, and coupled circuits. Prereq: E C E 380, MTHSC 208.

E C E 399 Creative Inquiry—Electrical and Computer Engineering I-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

E C E 404, 604 Semiconductor Devices 3(3,0) Consideration of the principles of operation, external characteristics, and applications of some of the more important semiconductor devices presently available. Prereq: E C E 320. Coreq: MTHSC 311 or 434.

E C E 405 Design Projects in Electrical and Computer Engineering I-3(0,2-6) Individually defined projects oriented toward providing experience in establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. Develops student creativity through the solution of open-ended problems. Includes individual instruction in design methodology. May be repeated for a maximum of three credits. Prereq: E C E 320 or 410, consent of project supervisor.

E C E 409 Continuous and Discrete Systems Design 3(3,0) Introduction to classical linear control systems. Topics include continuous and discrete descriptions of systems, time and frequency response, stability, system specification, system design of continuous and discrete systems. Prereq: E C E 330. Coreq: E C E 495.

E C E 410, 610 Modern Control Theory 3(3,0) Introduction to modern control theory. Topics include fundamentals of matrix algebra, state space analysis and design, nonlinear systems and optimal control. Prereq: E C E 409.

E C E 412 Electrical Machines Laboratory 1(0,2) Selected experiments to familiarize students with characteristics of transformers, DC and AC motors and generators. Measurement techniques and component modeling are included. Coreq: MTHSC 434 or consent of instructor. Prereq or Coreq: E C E 360 or 419.

E C E 417, 617 Elements of Software Engineering 3(3,0) Foundations of software design, reasoning about software, the calculus of programs, survey of formal specification techniques and design languages. Prereq: E C E 329, 352, MTHSC 419.

E C E 418, 618 Power System Analysis 3(3,0) Study of power system planning and operational problems. Topics include load flow, economic dispatch, fault studies, transient stability, and control of problems. System modeling and computer solutions are emphasized through class projects. Prereq: E C E 360, 380.

E C E 419, 619 Electric Machines and Drives 3(3,0) Performance, characteristics, and modeling of AC and DC machines during steady-state and transient conditions. Introduction to power electronics devices and their use in adjustable speed motor drives. Prereq: E C E 321, 360, 380. Coreq: MTHSC 434 or consent of instructor.

E C E 422, 622 Electronic System Design I 3(2,2) Emphasizes the application of theory and skills to the design, building, and testing of an electronic system with both analog and digital components. Application varies each semester. Computer software tools are used extensively in the design process. Prereq: E C E 321, 330, 360, 371, 381.

E C E 427 Communications Systems 3(3,0) Study of communication systems design and analysis. Topics include signals and spectra, baseband signaling and detection in noise, digital and analog modulation and demodulation techniques, communications link budget analysis. Prereq: E C E 317, 330.

E C E 429, 629 Organization of Computers 3(3,0) Computer organization and architecture. Topics include a review of logic circuits, bus structures, memory organization, interrupt structures, arithmetic units, input-output structures, state generation, central processor organization, control function implementation, and data communication. Registered Transfer Language (RTL) for description and design of digital systems. Prereq: E C E 272 or consent of instructor.

E C E 430, 630 Digital Communications 3(3,0) Study of digital communication systems. Topics include error-control coding, synchronization, multiple-access techniques, spread spectrum signaling, and fading channels. Prereq: E C E 427.

E C E 431, 631 Digital Electronics 3(2,2) Consider electronic devices and circuits of importance to digital computer operation and to other areas of electrical engineering. Topics include active and passive waveshaping, waveform generation, memory elements, switching, and logic circuits. Experimentation with various types of circuits is provided by laboratory projects. Prereq: E C E 321. Coreq: MTHSC 311 or 434.

E C E 432, 632 Instrumentation 3(3,0) Theory and analysis of transducers and related circuits and instrumentation. Generalized configurations and performance characteristics of instruments are considered. Transducer devices for measuring physical parameters such as motion, force, torque, pressure, flow, and temperature are discussed. Prereq: E C E 321. Coreq: MTHSC 311 or 434.

E C E 436, 636 Microwave Circuits 3(3,0) Analysis of microwave networks comprising transmission lines, waveguides, passive elements, interconnects, and active solid state microwave circuits. Use of modern CAD tools to design RF/Microwave passive/active networks. Fabrication of typical circuits. Prereq: E C E 381 or equivalent. Coreq: MTHSC 311 or 434.
E C E 438, 638 Computer Communications 3(3,0) Digital data transmission techniques, modems and communications channels, communications software and protocols, multiprocessors and distributed processing; concurrency and cooperation of dispersed processors. Preq: Senior standing in Electrical or Computer Engineering or Computer Science or consent of instructor.

E C E 439, 639 Fiber Optics 3(3,0) Covers the underlying principles of design for optical fibers in practical systems. Examines optical fiber as a wave-guide using wave optics and ray optics. Discusses design criteria for using mono- and multimode fibers. Other topics include fabrication, measurement. Preq: E C E 381. Coreq: MTHSC 434 or consent of instructor.

E C E 442, 642 Knowledge Engineering 3(3,0) Introduction to the theoretical and practical aspects of knowledge engineering or applied artificial intelligence. Topics include symbolic representation, structures and manipulation, unification, production systems and structures, rule-based and expert systems, planning and AI system architectures; system design in PROLOG and LISP. Project is required. Preq: E C E 329, 352.

E C E 446, 646 Antennas and Propagation 3(3,0) Study of the theoretical and practical aspects of antenna design and utilization, input impedances, structural considerations, and wave propagation. Preq: E C E 330, 381 or 436, MTHSC 311 or 434.

E C E 449 Computer Network Security 3(1,4) Hands-on practicum in the administration and security of modern network service emphasizing intrusion prevention techniques, detection, and recovery. Preq: Senior standing in Computer Engineering.

E C E 453 Software Practicum 3(1,6) Students design and implement a software system that satisfies both a requirements and specifications document. The resulting system is tested for compliance. Preq: E C E 329, 352.

E C E 455, 655 Robot Manipulators 3(3,0) Analysis of robot manipulator systems with special focus on interaction of these technologies with society. Emphasis is on rigid-link robot manipulator systems. Topics include history of robot technology, kinematics, dynamics, control, and operator interfaces. Case studies reinforce impact of robot technology on society and vice versa. Preq: MTHSC 206, 311, or consent of instructor.

E C E (M E) 456, 656 Fundamentals of Robotics 3(3,0) See M E 456.

E C E 459, 659 Integrated Circuit Design 3(2,2) Design concepts and factors influencing the choice of technology; fundamental MOS device design; silicon foundaries, custom and semicustom integrated circuits; computer-aided design software/hardware trends and future developments; hands-on use of CAD tools to design standard library cells; systems design considerations, testing, and packaging. Preq: E C E 321. Coreq: MTHSC 311 or 434.

E C E 460 Computer-Aided Analysis and Design 3(3,0) Principles and methods suited to the solution of engineering problems on the digital computer. Topics include widely used methods for the solution of the systems of algebraic and/or differential equations which arise in modeling of engineering systems, data approximation and curve fitting, continuous system simulation languages, and design-oriented programming systems. Preq: E C E 262, MTHSC 311, 434, or consent of instructor.

E C E 467, 667 Introduction to Digital Signal Processing 3(3,0) Introduction to characteristics, design, and applications of discrete time systems; design of digital filters; introduction to the Fast Fourier Transform (FFT); LSI hardware for digital processing applications. Preq: E C E 330.

E C E 468, 668 Embedded Computing 3(2,2) Principles of using computing in the larger context of a system. Topics include bus and processor design types (e.g. microprocessor, microcontroller, DSP), codecs, digital circuit power management, real time scheduling, and embedded operating systems. Lab work consists of projects on embedded hardware (e.g. PC-104+). Preq: CP SC 212 and E C E 371 or consent of instructor.

E C E 489/589 Undergraduate Honors Research 1-6 Special research projects conducted under the direct supervision and guidance of a faculty member. May be repeated for a maximum of six credits.

E C E 492, 592 Special Problems 1-3 Special assignment in electrical or computer engineering. Some typical assignments include computer programs, term papers, technical literature searches, hardware projects, and design project leadership. May be taken only once for credit.

E C E 493, 693 Selected Topics 1-3(1-3,0) Classroom study of current and new technical developments in electrical and computer engineering. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

E C E 495 Integrated System Design I 2(1,3) Considers engineering design of systems in a continuous process of project definition, planning, execution, and evaluation. This process includes consideration of both technical and non-technical factors in design. Strong emphasis is placed on the development of effective technical communications skills, particularly oral communications competency. Preq: E C E 321, 330, 360, 371, 381 (three of which must have been completed prior to enrollment, with the remaining taken as corequisite courses). Coreq: E C E 409 (in addition to any deficit courses in the prerequisites).

E C E 496 Integrated System Design II 2(0,6) Project-oriented course which brings together electrical engineering students of dissimilar training into teams or project groups. Group assignments are made which are designed to develop an appreciation for individual and creative thinking as well as team effort. Preq: E C E 321, 330, 360, 371, 381, 609, 495.

E C E 499 Creative Inquiry—Electrical and Computer Engineering 4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

ELEMENTARY EDUCATION

ED EL 304 Instructional Planning, Management, and Communications 3(3,0) Provides students with knowledge and techniques for short- and long-term planning of developmentally appropriate lessons. Students learn how to structure ADEPT lessons and activities to meet the needs of students. Students learn techniques for time and behavior management, organization, and effective communication with school audiences. Preq: ED F 334, admission to the professional level.

ED EL 311 Teaching Diverse Populations 3(3,0) Preservice teachers examine the role of teachers as they relate to culturally appropriate curricula, instruction, and evaluation. Preq: Admission to the professional level.

ED EL 321 Physical Education Methods for Classroom Teachers 3(3,0) Provides education majors with a basic understanding of the methods and techniques utilized in teaching elementary physical education. Emphasizes acquiring a basic understanding of the movement education approach and the ability to teach integrated lessons utilizing this approach. Preq: Junior standing, admission to the professional level.

ED EL 401 Elementary Field Experience 3(0,9) Practical classroom experience prior to the student teaching semester for Elementary Education majors. For a twelve-week period, students spend two hours per week in schools observing, tutoring individuals, conducting small group activities, and teaching the class. To be taken Pass/Fail only. Preq: ED F 334; concurrent enrollment in ED EL 488 and READ 460; admission to the professional level.

ED EL 451 Elementary Methods in Science Teaching 3(2,3) Development of process skills, technical skills, and attitudes needed to foster increased confidence and commitment to the teaching of elementary science, with emphasis on teaching strategies and techniques and their implications for what we know of how children learn science. Preq: Elementary Education science requirements; concurrent enrollment in ED EL 401, 487, 488 and READ 460; admission to the professional level.
ED EL 452 Elementary Methods in Mathematics Teaching 3(2,3) Special emphasis is given the development of understanding, skills, and attitudes in the elementary curriculum with focus on strategies, techniques, and materials for teaching elementary mathematics. Prereq: General Education mathematics requirement; admission to the professional level.

ED EL 458 Health Education Methods for the Classroom Teacher 3(3,0) Study of the content, methodology, and resource materials necessary for teaching comprehensive health education in public schools. Emphasizes the National Health Education Standards and the health behaviors of youth that are allied with the Coordinated School Health Program. Prereq: Minimum grade point ratio of 2.0.

ED EL 481 Directed Teaching in the Elementary School 12(1,33) Supervised observation and teaching experiences in cooperation with selected elementary schools. Restricted to seniors or graduates who have completed prerequisite courses. Prereq: ED EL 321, 401, 451, 452, 487, 488, READ 460; admission to the professional level, consent of area committee chair.

ED EL 487 Elementary Methods in Social Studies Teaching 3(2,3) Introduction to methods, materials, and techniques needed to teach social studies in the elementary schools. Prereq: HIST 101, 102, 172, or 173; GEOG 101 or 103; concurrent enrollment in ED EL 401, 451, 452, 488 (for Elementary majors) and READ 461; admission to the professional level; consent of instructor.

ED EL 488 Elementary Methods in Language Arts Teaching 3(2,3) Introduction for pre-service teachers to the skills of the language arts other than reading and the methods, materials, and techniques needed to teach these skills to students in the elementary school. Prereq: ENGL 385; concurrent enrollment in ED EL 401, 451, 452, 487, READ 461 (for Elementary majors); admission to the professional level or consent of instructor.

ENGINEERING

Professor: B. L. Sill, Director; Associate Professor: W. J. Park; Assistant Professor: L. C. Benson; Lecturer: E. A. Stephan

ENGR 101 Introduction to Engineering 1(0,2) Introduction to the engineering profession and engineering disciplines for the purpose of assisting students in their selection of an engineering major. Professional ethics, technical communications, word processing, and electronic communications are taught. Credit toward a degree will be given for only one of ENGR 101 or CES 101.

ENGR 110 Engineering Problems Workshop 1(0,2) Workshop devoted to the analysis and solution of engineering-oriented problems. Representative problems taken from the different fields of engineering are used to illustrate such analytical and problem-solving techniques as estimation and approximation, numerical aids to computation, and solutions by graphical methods.

ENGR 120, H120 Engineering Problem Solving and Design 3(1,4) Methodology and practice of engineering problem-solving and engineering design. Selected computer tools, teamwork, and communication modes are employed. Ethics, safety, economics, and environmental concerns are considered. Prereq: ENGR 101, MTHSC 106. Coreq: PHYS 122.

ENGR 130 Engineering Fundamentals 2(1,2) Topics include dimensional analysis, basic statistics, advanced spreadsheet applications (conditional statements, functions). Also includes laptop-based instrumentation used in solving problems and graphical representation of various physical phenomena. Sections are flavored to the various disciplines. Coreq: MTHSC 106 or higher.

ENGR 141 Programming and Problem Solving in Mechanical Engineering 3(2,2) Students formulate mechanics-based problems and solve using MATLAB programming; estimate answers for comparison to computed solutions; read, interpret, and write programs; write user instructions; design output, iterate, evaluate conditional statements, and debug; analyze data, collected using laptop-based instrumentation. Coreq: CES 102, MTHSC 106, PHYS 122.

ENGR 150 Introduction to Materials 1(1,0) Introduction to materials used in modern technology. Different materials (metals, ceramics, and polymers) and different forms (bulk, fibers, gels, thin films, etc.) are discussed in the context of their application to consumer products, structural composites, refractories, biomedical implants, and electronic and optical materials. Prereq: Enrollment in General Engineering or consent of instructor.

ENGR 180 Computers in Engineering 3(2,3) Introduction to the use of computers in engineering analysis, design, and communications. A high-level programming language and other software are used on microcomputers. Prereq: Engineering major; knowledge of a computer language. Coreq: MTHSC 106.

ENGR 190 Special Projects in Engineering I 1-3(1-3,0) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. Instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

ENGR 290 Special Projects in Engineering II 1-3(1-3,0) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. Instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Prereq: Sophomore standing and consent of instructor.

ENGR 390 Special Projects in Engineering III 1-3(1-3,0) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. Instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Prereq: Junior standing and consent of instructor.

ENGR 490 Special Projects in Engineering IV 1-3(1-3,0) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. Instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Prereq: Senior standing and consent of instructor.

ENGINEERING GRAPHICS

Lecturers: C. A. Balch, R. A. Emert, N. Yasmin

E G 208 Engineering Graphics with Computer Applications 2(1,3) Introduction of basic concepts in engineering graphics as a means of communication. Areas of study include orthographic projections, descriptive modeling, and computer graphics. Credit toward a degree will be given for only one of E G 208 or 209. Prereq: ENGR 141.

E G 209 Introduction to Engineering/Computer Graphics 2(1,3) Introduction of basic graphical concepts needed for engineering application, including orthographic projections, descriptive modeling, and computer graphics. Credit toward a degree will be given for only one of E G 208 or 209. Prereq: ENGR 120 or consent of instructor.

E G 412, 612 Interactive Computer Graphics 3(3,0) Graphics hardware and display technology; reduction and presentation of engineering data; techniques of geometrical transformations, perspective, and model manipulation; methodology of computer-aided design; application of high-level software to engineering problems. Prereq: E G 208 and MTHSC 208 or consent of instructor.

E G 490, 690 Special Topics in Engineering and Computer Graphics 1-3(1-3,0) Comprehensive study of any computer-aided topic in engineering graphics not covered in other courses. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

ENGINEERING MECHANICS

Professors: S. C. Anand, S. B. Biggers, R. H. Brown, J. M. Kennedy, E. H. Law; Associate Professors: P. F. Joseph, L. L. Thompson; Assistant Professor: J. D. Wood

E M 201, H201 Engineering Mechanics: Statics 3(3,0) Forces and force systems and their external effect on bodies, principally the condition of equilibrium. The techniques of vector mathematics are employed, and the rigor of physical analysis is emphasized. Prereq: PHYS 122, MTHSC 206 (or concurrent enrollment).

E M 202, H202 Engineering Mechanics: Dynamics 3(3,0) Continuation of E M 201. Principal topics are kinematics and kinetics of particles and rigid bodies of finite size. Techniques of vector mathematics are employed. Prereq: E M 201, MTHSC 206.
ENGLISH

ENGL 101, H101 Introduction to Literature I 3(3,0) Training in correct and effective expression in brief expository essays; review of the fundamentals of grammar and punctuation; instruction in common expository methods.

ENGL 102, H102 Composition II 3(3,0) Continued emphasis on correct and effective expression; training in the organization and writing of the research report. Preq: ENGL 101.

ENGL 103, H103 Accelerated Composition I 3(1,1) Training in composing correct and expository expository and argumentative essays, including writing documented essays. Students placed in ENGL 103 receive credit for ENGL 101 after completing ENGL 103 with a C or better. Students who have received credit for ENGL 102 will not be allowed to enroll in or receive credit for ENGL 103. Preq: Satisfactory score on departmental placement exam.

ENGL 111 English as a Second Language 3(3,2) Special course for students learning English as a second language. Intensive study and drill in American English pronunciation and listening comprehension. Required of all foreign students who do not make a satisfactory grade on screening examination in oral English. To be taken Pass/Fail only. Carries no credit for graduation.

ENGL 190 Introduction to the English Major 2(2,0) Orientation to the English major as a discipline and as a preparation for a range of careers. Introduction to the digital portfolio as a place to collect, synthesize, and reflect on learning. Required of English majors, recommended for minors.

ENGL 202, H202 The Major Forms of Literature 3(3,0) Study of the basic structures and elements of fiction, poetry, and drama, including literary and critical theory, with readings in American, British, and world literature. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 203, H203 Survey of English Literature I 3(3,0) Chief British authors and works from Beowulf to the Romantic period. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 204, H204 Survey of English Literature II 3(3,0) Chief British authors and works from the Romantic period to 1945. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 205, H205 Survey of American Literature I 3(3,0) American literature to the Civil War, with emphasis on major writers. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 206, H206 Survey of American Literature II 3(3,0) American literature from the Civil War to 1945, with emphasis on major writers. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 207, H207 Survey of World Literature I 3(3,0) Translations of continental European literature from Homer to the Renaissance (together with some Asian classics), with emphasis on major authors. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 208, H208 Survey of World Literature II 3(3,0) Translations of continental European literature from the 17th century to the present (together with some Asian classics), with emphasis on major writers. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL 209, H209 Contemporary Literature 3(3,0) Study of selected writers since 1945, primarily British and American. Proficiency in composition must be demonstrated. Preq: ENGL 102.

ENGL H210 Introduction to Literary Study 3(0) Literature and composition course for honors students who have exempted ENGL 101 and 102. Readings in American, English, and world literature; advanced training in writing and research. Preq: Exemption from ENGL 101 and 102 or consent of instructor.

ENGL 211 Introduction to the Writing and Publication Studies Major 3(3,0) Introduces the Writing and Publication Studies major and provides an overview of courses, possible writing interests within the major, and career possibilities. Students gain an understanding of the importance of theory, close reading, textual analysis, and research methodologies. Faculty representing various writing specialties present to students. Preq: ENGL 102.

ENGL 212, H212 World Literature 3(3,0) Introduction to selected works in continental European literature in translation from Homer to the modern era, together with some Asian classics, with emphasis on major authors. Preq: ENGL 102 or 103.

ENGL 213, H213 British Literature 3(3,0) Introduction to selected authors and major periods of the British literary tradition, from the Middle Ages to World War II, with attention to poetry, fiction, and drama. Preq: ENGL 102 or 103.

ENGL 214, H214 American Literature 3(3,0) Introduction to selected authors and major periods of the American literary tradition from 1620 to 1945. Preq: ENGL 102 or 103.

ENGL 215, H215 Literature in 20th- and 21st-Century Contexts 3(3,0) Introduction to major contemporary cultural movements via selected authors in 20th- and 21st-century literature, primarily American and British, with attention to poetry, fiction, and drama since World War II. Preq: ENGL 102 or 103.

ENGL 217 Vocabulary Building 3(3,0) Development of a useful discriminating vocabulary for writing, speaking, and reading. Student notebooks and proficiency quizzes. Preq: ENGL 103.

ENGL 231 Introduction to Journalism 3(3,0) Instruction and practice in writing for mass media; editorial responsibilities. Preq: ENGL 103.

ENGL 265 Introduction to Editing 3(3,0) Introduction to the practice of editing texts. Includes instruction in the principles and symbols of copy-editing and proof-reading as well as work with electronic editing tools. Also addresses editor’s role in different types of editing, including copy-editing, comprehensive editing, and developmental editing for paper and electronic publication.

ENGL (G W) 301, H301 Great Books of the Western World 3(3,0) See G W 301.

ENGL 304 Business Writing 3(3,0) Introduction to audience, context, purpose, and writing strategies for texts common in professional business settings: memoranda, letters, reports, and proposals. Includes individual and team projects. Preq: Junior standing.

ENGL 310 Critical Writing About Literature 3(3,0) Terms and techniques for literary analysis, including close reading, vocabulary for analysis, research and writing skills, casebook study of critical approaches. Discussion of poetry and genres preferred. Preq: Sophomore literature (or concurrent enrollment) or consent of instructor.

ENGL 312 Advanced Composition 3(3,0) Workshop in practical writing focusing on principles and style. Preq: Sophomore literature or consent of instructor.

ENGL 314, H314 Technical Writing 3(3,0) Intensive, project-based application of principles of audience, context, purpose, and writing strategies of technical writing: proposals, reports, communication deliverables. Individual and team projects. Preq: Junior standing.

ENGL 316 Writing and International Trade 3(3,0) Students complete projects demanding a variety of communications skills that professionals in international trade need; sensitivity to foreign audiences and cultures in oral and written communication; electronic and graphic communication, collaborative writing and management. Preq: Sophomore literature.

ENGL 332 Visual Communication 3(3,0) Hands-on survey of visual communication theories and practices used by technical communicators in business and industry environments. Class meets regularly in computer classrooms. Preq: Sophomore literature; ENGL 211 or consent of instructor.

ENGL 333 Reporting for the News Media 3(3,0) Practical experience in gathering and writing news and feature copy for the media, concentrating on print journalism; examination of the role of the modern journalist; laws governing the profession; journalistic ethics. Preq: ENGL 231 or consent of instructor.

ENGL 334 Feature Writing 3(3,0) Practical experience in writing feature articles for newspapers, magazines, and free-lance markets. Preq: ENGL 231 or consent of instructor.
ENGL 335 Editing for Newspapers 3(3,0) Examination of the editing process of newspapers and magazines. Practical experience in article selection, copy-editing, headline writing, and page design. Preq: ENGL 231 or consent of instructor.

ENGL 345 The Structure of Fiction 3(3,0) Introduction to the creative writing and critical study of prose fiction. Preq: ENGL 310 or consent of instructor.

ENGL 346 The Structure of Poetry 3(3,0) Introduction to the creative writing and critical study of poetry. Preq: ENGL 310 or consent of instructor.

ENGL (THEA) 347 The Structure of Drama 3(3,0) See THEA 347.

ENGL 348 The Structure of the Screenplay 3(3,0) Introduction to the creative writing and critical study of the screenplay. Screenplays vary from semester to semester. May be repeated once for credit with consent of instructor. Preq: ENGL 310 or consent of instructor.

ENGL 349 Technology and the Popular Imagination 3(3,0) Examination of the relationship between technology and fiction and creative nonfictional texts, including print, film, and electronic media. Preq: Sophomore literature or consent of instructor.

ENGL 350 Mythology 3(3,0) Study of the great myths of the world emphasizing their applications to literature. Preq: Sophomore literature or consent of instructor.

ENGL 353 Ethnic American Literature 3(3,0) Critical examination of essays, poetry, fiction, and drama written by members of a variety of American racial and ethnic groups, such as Native Americans, African Americans, Chicano/Mexican Americans, Asian Americans, Italian Americans, and American Jews. Preq: Sophomore literature or consent of instructor.

ENGL 355 Popular Culture 3(3,0) Examination of the nature, functions, history, and impact upon American society of best sellers, popular magazines, television, movies, and other related phenomena. Preq: Sophomore literature or consent of instructor.

ENGL 356 Science Fiction 3(3,0) Readings in science fiction from the 17th century to the present with special emphasis on writers since Verne and Wells. Preq: Sophomore literature or consent of instructor.

ENGL 357 Film 3(2,3) Examination of the film medium as an art form: its history, how films are made, why certain types of films (western, horror movies, etc.) have become popular, and how critical theories provide standards for judging films. Preq: Sophomore literature or consent of instructor.

ENGL 359 Special Topics in Language, Literature, Rhetoric, or Culture 3(3,0) Studies in varied topics not central to other English courses, such as literature and art/business/sports; language and style; Black literature. Specific titles and course descriptions to be announced from semester to semester. May be repeated for a maximum of six credits with department chair's consent. Preq: Sophomore literature or consent of instructor.

ENGL 367 Special Topics for Honors Students 3(3,0) Varied topics of general interest in literature, language, rhetoric, or culture for all honors students. Specific topics announced each semester. May be repeated for a maximum of nine credits. Preq: Sophomore literature or consent of instructor.

ENGL 380 British and American Women Writers 3(3,0) Poetry, drama, fiction, and prose by established and little-known women writers in Britain and America. Particular attention to works treating themes and issues concerning women's lives. Readings on such topics as women and work, education, religion, creativity. Preq: Sophomore literature or consent of instructor.

ENGL 385 Children's Literature 3(3,0) Reading and analysis in a wide range of authors, illustrators, and genres appropriate for children from preschool through eighth grade, classic as well as modern. Critical approaches include historical, thematic, and social. Preq: Sophomore literature or consent of instructor.

ENGL 386 Adolescent Literature 3(3,0) Reading and analysis of literature written for readers age 12-18. Emphasis is on historical context, chief themes and motifs, and censorship issues, as well as connections with classic literature. Preq: Sophomore literature or consent of instructor.

ENGL 387 Book History 3(3,0) Examines the material and technological constructions of the book. Covers both historical and contemporary dimensions of dissemination, reception, artistry, and influence of books. Preq: ENGL 103.

ENGL 390 Electronic Portfolio Studio I (1,0) Studio course for English majors to complete their portfolio. Preq: ENGL 190, 310 (or concurrent enrollment).

ENGL 396 British Literature Survey I 3(3,0) Examines key texts in British literature to 1789. Preq: Sophomore literature or consent of instructor.

ENGL 397 British Literature Survey II 3(3,0) Examines key texts of British literature from 1789 to the present. Preq: Sophomore literature or consent of instructor.

ENGL 398 American Literature Survey I 3(3,0) Examines key texts of American literature from beginnings of European settlement to the Civil War in historical context. Preq: Sophomore literature or consent of instructor.

ENGL 399 American Literature Survey II 3(3,0) Examines key texts of American literature from the Civil War to the present in historical context. Preq: Sophomore literature or consent of instructor.

ENGL 400, 600 The English Language 3(3,0) Studies in English usage and historical development of the language. Preq: ENGL 310 or consent of instructor.

ENGL 401, 601 Grammar Survey 3(3,0) Survey of modern grammars with a focus on exploring the impact structural grammar has had on traditional grammar. Recommended for English teachers. Preq: ENGL 310 or consent of instructor.

ENGL 403 The Classics in Translation 3(3,0) Examination of Homer's Iliad and Odyssey, Virgil's Aeneid, and Ovid's Metamorphoses. A few shorter works by other Greek and Roman writers may also be read. Preq: ENGL 310 or consent of instructor.

ENGL 407, 607 The Medieval Period 3(3,0) Selected works of Old and Middle English literature, exclusive of Chaucer. Preq: ENGL 310 or consent of instructor.

ENGL 408, 608 Chaucer 3(3,0) Selected readings in Middle English from The Canterbury Tales and other works by Chaucer. Preq: ENGL 310 or consent of instructor.

ENGL 410, 610 Drama of English Renaissance 3(3,0) Selected readings in non-Shakespearean dramatic literature of the 16th and 17th centuries. Preq: ENGL 310 or consent of instructor.

ENGL 411, 611 Shakespeare 3(3,0) Study of selected tragedies, comedies, and history plays of Shakespeare. Required of all English majors. Preq: ENGL 310 or consent of instructor.

ENGL 414, 614 Milton 3(3,0) Development of Milton's art and thought from the minor poems and selected prose through Paradise Lost, Paradise Regained, and Samson Agonistes, set against the background of the late Renaissance. Preq: ENGL 310 or consent of instructor.

ENGL 415, 615 The Restoration and Eighteenth Century 3(3,0) Readings in Dryden, Swift, Pope, and Dr. Johnson. Preq: ENGL 310 or consent of instructor.

ENGL 416, 616 The Romantic Period 3(3,0) Readings from the poetry and critical prose of Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, and other representative figures. Preq: ENGL 310 or consent of instructor.

ENGL 417, 617 The Victorian Period 3(3,0) Reading from the poetry and nonfiction prose of selected Victorian authors, including works of Carlyle, Tennyson, Browning, Arnold, and other representative figures. Preq: ENGL 310 or consent of instructor.

ENGL 418, 618 The English Novel 3(3,0) Study of the English novel from its 18th century beginnings through the Victorian Period. Preq: ENGL 310 or consent of instructor.

ENGL 419, 619 Post-Colonial Studies 3(3,0) Selected readings in post-colonial literature and theory, focusing on issues of nationalism, migration, resistance, race, language, and master narratives. Preq: ENGL 310 or consent of instructor.

ENGL 425, 625 The American Novel 3(3,0) Survey of the most significant forms and themes of the American novel from its beginnings to 1900. Preq: ENGL 310 or consent of instructor.

ENGL 426, 626 Southern Literature 3(3,0) Intellectual and literary achievement of the South from 1607 to the present, with emphasis on the writers of the 19th century. Preq: ENGL 310 or consent of instructor.

ENGL 427, 627 Agrarianism and the Humanistic Tradition 3(3,0) Focuses on the importance of agriculture and rural life to the humanistic tradition of Western Civilization from antiquity through the early years of the American republic. Preq: ENGL 310 or consent of instructor.
ENGL 428, 628 Contemporary Literature 3(3,0)
Focuses on American, British, and other fiction, poetry, and drama from the Post-World War II to the present. Preq: ENGL 310 or consent of instructor.

ENGL 429, 629 Dramatic Literature I 3(3,0) Selected reading in the dramatic literature from the classical era of Greece and Rome to the Renaissance. Preq: ENGL 310 or consent of instructor.

ENGL (THEA) 430, 630 Dramatic Literature II 3(3,0) Principles and progress of drama from the Restoration to the present; analysis of representative plays; critical reports; discussion of trends in dramatic literature. Preq: ENGL 310 or consent of instructor.

ENGL 431, 631 Modern Poetry 3(3,0) The modern tradition in English and American poetry from Yeats to the present; relevant critical essays. Preq: ENGL 310 or consent of instructor.

ENGL 432, 632 Modern Fiction 3(3,0) American and British novels and short stories of the 20th century. Preq: ENGL 310 or consent of instructor.

ENGL 433, 633 The Anglo-Irish Literary Tradition 3(3,0) Exploration of the unique literary heritage and achievement of English-language Irish writers in the 19th and 20th centuries. Major figures of the Irish tradition: W. B. Yeats, James Joyce, Samuel Beckett, and other writers; consideration of the specifically Irish aspects of their works. Preq: ENGL 310 or consent of instructor.

ENGL 434, 634 Environmental Literature 3(3,0) Survey of literature that examines the relationship between human beings and the natural world, including analysis of environmental themes in myths and legends; selected poetry and prose of 19th- and 20th-century England and America. Preq: ENGL 310 or consent of instructor.

ENGL 435, 635 Literary Criticism 3(3,0) Major critical approaches to literature. Preq: ENGL 310 or consent of instructor.

ENGL 436, 636 Feminist Literary Criticism 3(3,0) Introduction to the germinal works of feminist literary theory and criticism. Outlines the development of modern literary criticism by studying feminist versions of the major critical methodologies. Preq: ENGL 310 or consent of instructor.

ENGL 437, 637 Directed Studies 1-3(1-3) Class and tutorial work for students with special interests or projects in American, British, or European literature outside the scope of existing courses. Applications must be approved during the registration period of the semester preceding the one in which directed studies will occur. May be repeated by arrangement with the department. Preq: ENGL 310 or consent of instructor.

ENGL H438 Departmental Honors Research 3(3,0) Research for the preparation of an honors project. Preq: ENGL 310 or consent of instructor.

ENGL H439 Departmental Honors Project 3(3,0) Preparation of an honors project. Preq: ENGL 310 or consent of instructor.

ENGL 440, 640 Literary Theory 3(3,0) Examination of how approaches such as Marxism, Psychoanalysis, Feminism, Deconstruction, New Historicism, Post-Colonialism, Cultural Studies, and Queer Theory answer the question, "What is literature?" Preq: ENGL 310 or consent of instructor.

ENGL 441 Literary Editing 3(3,0) Examination of how the theories and practices of editing construct texts, stressing the problems and objectives of editing and providing practical experience with literary editing. Preq: Sophomore literature.

ENGL 442, 642 Cultural Studies 3(3,0) Investigation of the similarities and connections between a wide variety of cultural products, events, and practices—from fast food through opera to online shopping—using theories ranging from Marxism to hybridity. Preq: ENGL 310 or consent of instructor.

ENGL 444, 644 Renaissance Literature 3(3,0) Selected readings in non-Shakespearean British literature from 1500–1660. Includes drama, poetry, and prose. Preq: ENGL 310 or consent of instructor.

ENGL 445, 645 Fiction Workshop 3(3,0) Workshop in the creative writing of prose fiction. May be repeated once for credit. Preq: ENGL 345 or consent of instructor.

ENGL 446, 646 Poetry Workshop 3(3,0) Workshop in the creative writing of poetry. May be repeated once for credit. Preq: ENGL 346 or consent of instructor.

ENGL (THEA) 447, 647 Playwriting Workshop 3(0,3) See THEA 447.

ENGL 448, 648 Screenwriting Workshop 3(3,0) Workshop in the creative writing of screenplays. May be repeated once for credit. Preq: ENGL 348 or consent of instructor.

ENGL 449, 649 Creative Non-Fiction 3(3,0) Advanced workshop in writing non-fiction prose for magazine and free-lance markets. Preq: ENGL 312 or 334 or consent of instructor.

ENGL 450, 650 Film Genres 3(2,3) Advanced study of films that have similar subjects, themes, and techniques, including such genres as the Western, horror, gangster, science fiction, musical, and/or screwball comedy. Also considers nontraditional genres, screen irony, genre theory, and historical evolution of genres. Topics vary. Preq: ENGL 357 or consent of instructor.

ENGL 451, 651 Film Theory and Criticism 3(2,3) Advanced study into the theory of film/video making emphasizing understanding a variety of critical methods to approach a film. Examines the history of film theory and defines the many schools of film criticism, including realism, formalism, feminism, semiotics, Marxism, and expressionism. Preq: ENGL 357 or consent of instructor.

ENGL 452, 652 Great Directors 3(2,3) Intensive study of one to three film directors emphasizing understanding the entire canon of each director. Students study similarities in techniques, shifts in thematic emphasis, and critical methodologies for approaching the works of each director. Topics vary. Preq: ENGL 357 or consent of instructor.

ENGL 453, 653 Sexuality and the Cinema 3(2,3) Examination of male/female sexual roles and their evolution in American genre films, avant-garde cinema, and international films. Includes the study of movies in relation to cultural values and social stereotypes, introduction to feminist film theory, and consideration of film pornography. Preq: ENGL 357 or consent of instructor.

ENGL (LANG) 454 Selected Topics in International Film 3(2,3) See LANG 454.

ENGL 455, 655 American Humor 3(3,0) Native American humor of the 19th and 20th centuries. Preq: ENGL 310 or consent of instructor.

ENGL (HUM) 456, 656 Literature and Arts of the Holocaust 3(3,0) Addresses the Holocaust through literature, art, architecture, music, and film. Beginning with historical, political, and economic forces that contributed to the Holocaust, course then focuses on highly diverse creative responses to this event—responses that often reflect the difficulties and politics of these commemorative gestures. Preq: ENGL 310 or consent of instructor.

ENGL 459, 659 Advanced Special Topics in Language, Literature, or Culture 3(3,0) Advanced studies in topics not central to other English courses, such as certain authors, works, genres, themes, or areas of knowledge and culture. Specific topics are announced when offered. May be repeated once for credit with department chair’s consent. Preq: ENGL 310 or consent of instructor.

ENGL 460 Issues in Writing Technologies 3(3,0) Examination of writing technologies from different historical periods. Investigates how writing is understood, circulated, legislated, and protected in terms of its production technology. Preq: Sophomore literature; ENGL 211 or consent of instructor.

ENGL 463, 663 Topics in American Literature 3(3,0) Advanced study in American literature with emphasis on specific topics and themes. Specific topics vary and are constructed by individual faculty. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: ENGL 310 or consent of instructor.

ENGL 464, 664 Topics in British Literature I 3(3,0) Selected readings in British literature to the Romantics for focused study of authors, movements, themes, critical approaches, and genres specific to the American experience. Topics vary and are constructed by individual faculty. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: ENGL 310 or consent of instructor.

ENGL 465, 665 Topics in British Literature II 3(3,0) Selected readings in British literature from the Romantics to the present for focused study of authors, movements, themes, critical approaches, and genres specific to the British experience. Topics vary and are constructed by individual faculty. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: ENGL 310 or consent of instructor.
ENGL 475, 675 Writing for Electronic Media 3(3,0) Hands-on workshop in new forms of writing and hypertextual design for interactive electronic media. May be repeated once for credit. Preq: ENGL 310 or consent of instructor.

ENGL 478, 678 Digital Literacy 3(3,0) Examines how electronic texts differ from and resemble print texts. Includes reading, studying, and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Preq: ENGL 310 or consent of instructor.

ENGL 482, 682 African-American Fiction and Nonfiction 3(3,0) Critical examination of the various forms and genres of African-American prose including the novel, short fiction, autobiography, nonfiction, and oratory with some attention to emerging theories about African-American culture and its impact on American cultural life in general. Preq: ENGL 310 or consent of instructor.

ENGL 483, 683 African-American Poetry, Drama, and Film 3(3,0) Studies in the various forms, themes, and genres of African-American poetry, drama, and film with some attention to emerging theories about African-American culture and its impact on American cultural life in general. Preq: ENGL 310 or consent of instructor.

ENGL 485, 685 Composition for Teachers 3(3,0) Practical training in teaching composition: finding workable topics, organizing and developing observations and ideas, evaluating themes, and creative writing. Preq: ENGL 310 or consent of instructor.

ENGL 488, 688 Genre and Activity Theory 3(3,0) Examination of the forms that texts take, of the print and digital media in which they are composed, and of the ways they circulate among experts, in the public, and around the world. Preq: ENGL 310 or consent of instructor.

ENGL (COMM) 491, 691 Classical Rhetoric 3(3,0) Study of the major texts in classical rhetoric. Examines the nature and functions of rhetoric in Greek and Roman societies. Traces the development of rhetoric from Protagoras through Isocrates, Plato, Aristotle, Cicero, and Quintilian and considers questions essential to understanding persuasive theory and practices. Preq: ENGL 310 or consent of instructor.

ENGL (COMM) 492, 692 Modern Rhetoric 3(3,0) Examines the “new rhetorics” of the 20th century, which are grounded in classical rhetoric but which include findings from biology, psychology, linguistics, and anthropology, among other disciplines. Considers the theories and applications of communication. Preq: ENGL 310 or consent of instructor.

ENGL 494, 694 Writing About Science 3(3,0) Advanced work in scientific writing and editing for peer and lay audiences. Preq: ENGL 310 or consent of instructor.

ENGL 495, 695 Technical Editing 3(3,0) Practical experience in editing and preparing technical manuscripts for publication. General introduction to the functions of the technical editor. Preq: ENGL 314 or consent of instructor.

ENGL 496 Senior Seminar 3(3,0) Capstone course requiring participation and a substantial essay. Allows graduating English majors the chance to work closely with faculty and other English majors on a special topic in the advanced study of literature. Fulfills English major distribution requirements. Preq: ENGL 310, Senior standing, or consent of instructor.

ENGL 498, 698 Studio Composition and Communication 3(3,0) Preparation for students to work in the Class of 1941 Studio for Student Communication. Preq: Sophomore standing or consent of instructor.

ENGL 499 Practicum in Writing 3(3,0) Students apply their knowledge of concepts and principles to a substantive project involving their internship experiences and/or writing and publishing interests. These taken Pass/Fail only. Preq: Sophomore literature, Junior standing in English.

ENT 200 Six-Legged Science 3(3,0) Introduction to insects, their various relationships with humans, other animals, and plants. The general nature of this course makes it beneficial to all students regardless of specialty. Not open to students who have received credit for ENT 301 or equivalent.

ENT 201 Selected Topics 1(1,0) Discussion course covering topics dealing with insects and related arthropods. Subjects are chosen to reflect issues of current interest as well as those having significance in human history. May be repeated for a maximum of three credits.

ENT 300 Environmental Entomology 3(3,0) Exploration of diversity and roles of insects in natural and affected environments, impact of insects and pesticides on environmental quality, and discussion of environmental ethics in entomological science. Preq: Any biological or physical science.

ENT (BIOSCI) 301 Insect Biology and Diversity 4(3,3) Introduction to the study of insects, with emphasis on their structure, function, ecology, and behavior. Identification of commonly encountered species is highlighted. Relationships between insect and human populations are discussed. Control technologies are introduced, with emphasis on environmentally responsible tactics. Offered fall semester only.

ENT 308 Apiculture 3(2,3) Detailed study of the honey bee and its economic importance in pollination and honey production. Attention is given to bee behavior, colony management, equipment, honey-plant identification, and honey production and processing. Preq: BIOL 104/106 and consent of instructor.

ENT (BIOSCI) 400, H400, 600 Insect Morphology 4(3,3) Study of insect structure in relation to function and of the variation of form in insects. Preq: ENT 301.

ENT 401, H401, 601 Insect Pests of Ornamental Plants and Shade Trees 3(2,3) Recognition, biology, damage, and control of insect pests of woody and other ornamental plants and shade trees. Preq: ENT 301.

ENT 304, H404, 604 Urban Entomology 3(2,3) Study of pests common to the urban environment with emphasis on biology, damage, control, and identification of household, structural, stored products, and food pests. Students learn both theoretical and practical aspects of urban pest management and the pest-control industry. Preq: ENT 301.

ENT (PL PA) 406, 606 Diseases and Insects of Turfgrasses 2(2,0) See PL PA 406.

ENT 407, 607 Applied Agricultural Entomology 4(3,3) Topics include recognition, biology, damage, and control of economically important insects and mites found on major Southeastern field, fruit, nut, and vegetable crops. Principles and practices of crop protection, including pesticide application, economic basis for decision making, and development of scouting programs are introduced. Preq: ENT 301 or equivalent.

ENT (PL PA) 408 Diseases and Insects of Turfgrasses Laboratory 1(0,3) See PL PA 408.

ENT (BIOSCI) 415, 615 Insect Taxonomy 3(1,6) Identification of the principal families of the major orders of adult insects. Laboratory work consists of intensive practice of such identification. Lecture material deals with theoretical discussion of taxonomic features observed in the laboratory. Preq: ENT (BIOSCI) 400 or consent of instructor.

ENT (ENTOX) 430, 630 Toxicology 3(3,0) See ENTOX 430.

ENT (BIOSCI) 436, 636 Insect Behavior 3(2,3) Fundamentals of insect behavior in an evolutionary and ecological perspective. Laboratory emphasizes generation and testing of hypotheses and observation, description, and quantification of insect behavior. Preq: ENT 301 or consent of instructor.

ENT (BIOSCI) 455, H455, 655 Medical and Veterinary Entomology 3(2,3) Insects and their arthropod relatives which are of economic importance in their effect on man and animals. Preq: ENT 301 or consent of instructor.
Courses of Instruction

ENT 461 Directed Research in Entomology 1-3(0,3-9) Development of a senior thesis based on a research problem in a selected entomological area. Emphasis is on integrating the knowledge gained in the student’s program with the results of the research project. May be repeated for a maximum of three credits. Preq: Senior standing, consent of instructor.

ENT (BIO/SC, W F B) 469, H469, 669 Aquatic Insects 3(1,6) Identification, life history, habitats, and interrelationships of aquatic insects; techniques of qualitative field collecting; important literature and research workers. Preq: ENT 301 or consent of instructor.

ENT 490 Practicum 1-4 Supervised entomological learning opportunity providing highly individualized experiences to complement other programs and courses. Must be prearranged at least two months in advance. Students must file written reports midway during enrollment period and at its conclusion and must appear for oral evaluation at the end of the period. Preq: Junior standing and consent of instructor.

ENT (GEN) 495, 695 Insect Biotechnology 3(3,0) Considers many unique genetic features exhibited by insects and describes the applications of biotechnology to enhance useful products from insects and to affect the control of destructive insects. Preq: ENT 301, GEN 302.

ENVIRONMENTAL AND NATURAL RESOURCES

Professors: J. D. Culin, J. W. Foltz, R. L. Hedden, P. A. Layton, V. B. Shelburne, J. R. Sweeney; Coordinator: G. W. Wood, T. E. Wooten; Associate Professors: M. Espey, J. D. Lanham; Assistant Professor: C. J. Post

E N R 101 Introduction to Environmental and Natural Resources I 1(1,0) Informative overview of environmental and natural resources and their impact on society. Education and career opportunities are emphasized.

E N R 102 Introduction to Environmental and Natural Resources II 1(1,0) Continuation of EN R 101 with continuing emphasis on education and career opportunities. Current issues and basic science related to the natural resources professions are introduced.

E N R 302 Natural Resources Measurements 3(2,3) Introduction to measurements of natural resources including land, vegetation, animal habitat, water quality and quantity, climate, and recreation. Remote sensing techniques are also introduced. May not be taken for credit by Forest Resource Management majors. Coreq: EX ST 301.

E N R (BIOSC) 413, 613 Restoration Ecology 3(3,0) Applies ecological principles to the restoration of disturbed terrestrial, wetland, and aquatic ecosystems. Includes the restoration of soils and waterways, of flora and fauna, and of natural ecological processes such as plant succession and nutrient cycling. Preq: Introductory course in ecology or conservation biology, consent of instructor.

E N R (FOR) 416 Forest Policy and Administration 2(2,0) See FOR 416.

E N R 429 Environmental Law and Policy 3(3,0) Develops an understanding of the three branches of government that affect and dictate use and protection of natural resources. Attention is given to major federal environmental statutes. Includes examination of how policy is developed, implemented, and evaluated in the public and private sectors. Preq: Junior standing or consent of instructor.

E N R (FOR) 434, 634 Geographic Information Systems for Landscape Planning 3(2,3) See FOR 434.

E N R 450, 650 Conservation Issues 3(3,0) Interactive study and discussion of issues related to the conservation of natural resources, emphasizing current issues in the conservation of biodiversity, identification of conflicting issues between consumptive and nonconsumptive resource management, and development of viable solutions for conservation of natural resources. Preq: W F B (BIOSC) 313 or consent of instructor.

ENVIRONMENTAL ENGINEERING AND SCIENCE

EE&S 401, 601 Environmental Engineering 3(3,0) Introduction to the field of environmental engineering. Topics include environmental phenomena, impact of pollutants in the aquatic environment, solid and waste management, air pollution control, radiological health, and simple water and waste water treatment systems. Preq: Junior standing or engineering or consent of instructor. Coreq: GEN 301, CH E 311, M E 308, or consent of instructor.

EE&S 402, 602 Water and Waste Treatment Systems 3(3,0) Study of fundamental principles, technical design considerations, and operational procedures of the unit operations and processes employed in water and waste treatment. Both physiochemical and biological treatment techniques are discussed. Introduces the integration of unit operations and processes into water and waste treatment systems. Preq: EE&S 401; and C E 341, CH E 311, M E 308, or equivalent; or consent of instructor.

EE&S 410, 610 Environmental Radiation Protection I 3(3,0) Fundamental principles of radiological health and radiation safety. Topics include radiation fundamentals, basic concepts of environmental radiation protection, internal and external dosimetry, environmental dose calculations and radiation protection standards. Preq: Consent of instructor.

EE&S 411, 611 Ionizing Radiation Detection and Measurement 3(2,3) Laboratory exercises in ionizing radiation detection and measurements. Topics include nuclear electronics; counting statistics; radiation interactions; basic gas, scintillation, and semiconductor detectors; gamma-ray spectroscopy; health physics survey instrumentation; and thermoluminescent dosimetry. Preq: EE&S 410 or consent of instructor.

EE&S 430, 630 Air Pollution Engineering 3(3,0) Introductory course in air pollution and its control. Topics include air pollutants and effects, sources, dispersion models, engineering controls, and air-quality legislation. Preq: Senior standing in engineering or physical sciences.

EE&S (B E, FOR) 451, H451, 651 Seminar and Lecture Series in Environmental Resources Engineering 1(0,2) See B E 451.

EE&S 480, 680 Environmental Risk Assessment 3(3,0) Quantitative estimation of human health risk posed by the release of a contaminant to the environment. Topics include methods for analyzing emission rate, environmental transport, exposure, and health effects; methods of uncertainty analysis; and the role of risk assessment in environmental regulation and environmental decision making. Preq: EE&S 401 or consent of instructor.

EE&S (B E) 484, 684 Municipal Solid Waste Management 3(3,0) Introduction to the problems, regulations, collection, handling, recycling, and disposal of municipal solid wastes in the urban and rural sectors. Emphasizes an integrated waste-management system with resource recovery, composting, incineration, landfill disposal, and their cost. Preq: Senior standing in engineering or science or consent of instructor.

EE&S 485, 685 Hazardous Waste Management 3(3,0) Introduction to the problems, regulations, treatment, and ultimate disposal of hazardous and toxic materials. Spill cleanup, groundwater transport, land disposal, incineration, and treatment technologies are discussed. Preq: EN SP 200 or EE&S 401 or consent of instructor; two semesters of general chemistry.

EE&S 486, 686 Pollution Prevention and Industrial Ecology 3(3,0) Topics include pollution prevention technology, the role of pollution prevention within a corporation, source reduction and recycling assessments, treatment to reduce disposal, life-cycle assessment, design for environment, and industrial ecology. Emphasizes case studies. Preq: Senior standing in College of Engineering and Science.

EE&S 490, H490, 690 Special Projects 1-3(1-3,0) Studies or laboratory investigations on special topics in the environmental engineering and science field. Arranged on a project basis with a maximum of individual student effort and a minimum of staff guidance. May be repeated for a maximum of three credits. Preq: Consent of instructor.

EE&S 491 Selected Topics in Environmental Engineering 1-3(1-3,0) Study of the dynamic role of environmental engineering in maintaining environmental quality. A comprehensive study of any phase of environmental engineering. May be repeated for credit, but only if different topics are covered. Preq: Consent of department chair.
ENVIRONMENTAL SCIENCE AND POLICY

EN SP 200 Introduction to Environmental Science 3(3,0) Basic principles of environmental science including ecology, energy, resources, waste management; and air, water, and soil pollution. Consideration of issues, specific cases, investigative approaches, and remedial actions. Preq: Sophomore standing and two semesters of freshman chemistry or biology.

EN SP 301, H315 Environment and Agriculture 3(3,0) See AGRIC 315.

EN SP 400 Studies in Environmental Science 3(3,0) Study of historical perspectives, attitudes, and government policy within the framework of environmental change. Students will illustrate the interaction between human and natural factors as they mutually affect the environment and man’s ability to deal with that environment. Preq: EN SP 200 or consent of instructor.

EN SP 472, 672 Environmental Planning and Control 2(2,0) Application of planning and control to effective environmental quality improvement. Considers water supply and treatment, wastewater treatment and disposal, solid waste disposal, air pollution abatement, and land use and zoning from the standpoint of control. Not intended for graduate students in engineering. Preq: Consent of instructor.

ENVIRONMENTAL TOXICOLOGY

ENTOX 400, H400, 600 Wildlife Toxicology 3(3,0) Assessment of impacts of toxic substances on reproduction, health, and well-being of wildlife species; acute and chronic effects of agricultural chemicals, pesticides, hazardous waste, industrial waste, and oil releases are discussed. Preq: BIOCH 305 or organic chemistry, one year of general biology, W FB 350 or consent of instructor.

ENTOX 421, H421, 621 Chemical Sources and Fate in Environmental Systems 3(3,0) Chemical cycles in the environment are discussed on global and microcosm scales. The dependence of fate processes on physical and chemical properties and environmental conditions is examined. Breakdown, movement, and transport of selected toxicants are addressed to illustrate the mechanisms that govern chemical fate. Preq: Organic and analytical chemistry or consent of instructor.

ENTOX (ENT) 430, 630 Toxicology 3(3,0) Basic principles of toxicology including quantitation of toxicity, toxicokinetics, biochemical action of poisons, and environmental toxicology are studied. Acute and chronic effects of various classes of poisons (e.g., pesticides, drugs, metals, and industrial pollutants) are discussed in relation to typical routes of exposure and regulatory testing methods. Preq: Organic Chemistry, one year of general biology, or consent of instructor.

ENTOX 437, 637 Ecotoxicology 3(3,0) Study of the effects of stressors on the ecosystem. Explores the integrative relationships that comprise the field of ecotoxicology in a hierarchical format that focuses on the various levels of ecological organization. Preq: ENTOX 430 or consent of instructor.

ENTOX 446 Soil and Water Quality: Fundamentals 3(3,0) Studies those aspects of water quality that are influenced by soil systems. Many water quality concerns arise from land-applied chemicals, natural or manufactured. Basic soil and water chemistry principles including sorption, solution chemistry, and soil chemical transport are studied. Preq: CSENV 475 and CH 1224, or consent of instructor.

ENTOX 447 Soil and Water Quality: Applications 3(3,0) Potential for water quality concerns arising from land application of natural or manufactured chemicals is studied. Case studies of potential water quality concerns related to fertilizers, pesticides, biomass, and other sources are presented. Practices that can improve water quality are also studied and evaluated. Preq: CH 224 and CSENV 475, or consent of instructor.

EXPERIMENTAL STATISTICS

Professors: W. C. Bridges, Jr., L. W. Grimes, H. S. Hill, Jr., Chair; R. J. Rieck, J. E. Toler; Assistant Professor: J. Luo; Senior Lecturer: R. Martinez-Dawson; Lecturer: R. S. Dubskey

EX ST 222 Statistics in Everyday Life 3(3,0) Focuses on the role of statistics in a variety of areas including politics, medicine, environmental issues, advertising, and sports. Students explore common statistical misconceptions and develop an understanding of how principles of probability and statistics affect many aspects of everyday life. Not open to students who have received credit for EX ST 301, MTCHS 301, 302, or 309. Preq: Satisfactory score on the Clemson Mathematics Placement Test or consent of department.

EX ST 301, H301 Introductory Statistics 3(2,2) Basic concepts and methods of statistical inference; organization and presentation of data, elementary probability, measures of central tendency and variation, tests of significance, sampling, simple linear regression and correlation. Stresses the role of statistics in interpreting research and the general application of the methods. Credit toward a degree will be given for only one of EX ST 301, MTCHS 301, 302, 309.

EX ST 311 Introductory Statistics II 3(2,2) Introduction to simple linear and multiple regression, principles of experimental design, and analysis of data using parametric and nonparametric techniques. Analysis of data is conducted using SAS. Examples come primarily from agriculture, food, life and health sciences, forestry, and natural resources. Credit toward a degree will be given for only one of EX ST 311 or MGT 310. Preq: EX ST 301 or equivalent with a C or better.

EX ST 411, 611 Statistical Methods for Process Development and Control 3(3,0) Experimental design techniques for use in process development, application of screening experiments and response surface experiments, techniques for process control with implications for product quality control. Includes discussions of the use of statistical computer analyses and interpretations including computer-generated graphics. Preq: MTCHS 226 or consent of instructor.

EX ST 462 Statistics Applied to Economics 3(3,0) Continuation of EX ST 301 emphasizing statistical methods used in the collection, analysis, presentation, and interpretation of economic data. Special attention is given to time-series analysis, the construction of index numbers, and the designing of samples for surveys in the social science fields. Preq: EX ST 301.
FINANCE

Professors: J. C. Alexander, Jr., R. B. McElreath, Jr., Chair; M. F. Spivey, N. G. Waller; Associate Professors: J. M. Harris, Jr.; Assistant Professors: D. J. Bradley, A. G. Morgan, J. G. Wolf; Lecturer: K. McMillan

FIN 301 Personal Finance 3(3,0) Analysis of the preparations of personal financial plans. Topics include savings and budgeting, personal taxes, housing and automobile decisions, loans, insurance needs, investments, and retirement needs. May not be counted toward a major or minor in Financial Management.

FIN 304 Risk and Insurance 3(3,0) Studies the nature of risk and the role of insurance in risk management from individual and business viewpoints. Topics include probability, theory of the firm under uncertainty, insurance carriers and contracts, underwriting, and regulation. Preq: FIN 306 or 311 or consent of instructor.

FIN 305 Investment Analysis 3(3,0) Study of techniques useful in analyzing alternative investment opportunities with emphasis on corporate securities. Investment planning and portfolio management are considered. Preq: FIN 306 or 311 with a C or better, or consent of instructor.

FIN 306 Corporation Finance 3(3,0) Introduction to financial management of nonfinancial firms. Includes such topics as analysis of financial statements, financial forecasting, capital budgeting, working capital management, and long-term financing decisions. Credit may not be received for both FIN 306 and 311. Preq: ACCT 201; and MTHSC 203 or 301 or 309 or EX ST 301; or consent of instructor.

FIN 307 Principles of Real Estate 3(3,0) Acquaints students with the theories, practices, and principles which govern real estate markets. Major emphasis is on specifics of real estate brokerage, property rights, and ownership; making real estate investment decisions; and financing real estate investments. Preq: FIN 306 or 311 with a C or better, or consent of instructor.

FIN 308 Financial Institutions and Markets 3(3,0) Study of the various types of financial institutions and of topics critical to the financial institutions practitioners. Topics include financial regulations, financial security types and their yields, interest rate risk management, foreign currency risks management, and stock index futures. Preq: FIN 306 or 311 with a C or better, or consent of instructor.

FIN 311, H311 Financial Management I 3(3,0) First in a two-course sequence to provide in-depth exposure to the theory and practice of corporate financial management and to demonstrate how financial management techniques are applied in decision making. Credit may not be received for both FIN 306 and 311. Preq: C or better in both ACCT 201 and 204; and MTHSC 309 or EX ST 301 or consent of instructor.

FIN 312, H312 Financial Management II 3(3,0) Continuation of the two-course sequence that begins with FIN 311. Preq: FIN 306 or 311 with a C or better or consent of instructor.

FIN 399 Finance Internship 1-3(1-3,0) Pre-planned, preapproved, faculty-supervised internships to give students on-the-job learning in support of classroom education. Internships must be no less than six full-time, consecutive weeks with the same internship provider. Restricted to students with a major or minor in Financial Management. To be taken Pass/Fail only. Preq: Consent of instructor.

FIN 402, H402, 602 Advanced Corporate Finance 3(3,0) Study of the decision process and analytical techniques used in evaluating corporate investment and financing decisions. Topics include capital budgeting, real options, working capital management, mergers and acquisitions, bankruptcy and reorganization, and financial management in not-for-profit businesses. Preq: FIN 312 with a C or better or consent of instructor.

FIN 404, H404 Financial Modeling 3(3,0) Helps students develop the practical skills that combine theory, business planning, and forecasting needed to make financial decisions. Emphasizes the use of spreadsheet software used to set up and solve these models. Topics include financial statement analysis, valuation, and cost of capital. Preq: FIN 312 with a C or better; CP SC 220 or MGT 218; or consent of instructor.

FIN 405 Portfolio Management and Theory 3(3,0) Introduction to portfolio management. Includes the underlying theory, managing the equity and the fixed income portfolios, portfolio evaluation, option pricing, theory of futures markets and instruments. Preq: FIN 305 with a C or better or consent of instructor.

FIN 406, 606 Analysis and Use of Derivatives 3(3,0) Consideration of the option pricing theory and strategy techniques most commonly used in the market for options. Also considers an overview of the futures markets. Special emphasis is given to interest-rate futures, stock-index futures, and foreign-exchange futures. Preq: FIN 305 with a C or better or consent of instructor.

FIN 408 Management of Financial Institutions 3(3,0) Detailed study of the operational, marketing, and regulatory aspects of the management of depository financial institutions. Emphasizes decision making through the extensive use of cases. Preq: FIN 308 with a C or better or consent of instructor.

FIN 409 Professional Financial Planning 3(3,0) Concepts and practical implementation of professional financial planning focusing on essentials of budgeting and saving, risk management, tax planning, investment planning, and retirement and estate planning. Emphasizes integrating these elements into a comprehensive personal financial plan. Preq: ACCT 404, 408, FIN 304, 305.

FIN 410, H410 Research in Finance 1-3 Directed research for students interested in careers in finance. Research topic is selected by student and approved by instructor. A formal research paper is required. Preq: FIN 306 or 312, consent of instructor.

FIN 411 International Financial Management 3(3,0) Extension of the principles of finance to the international context. Focuses on implications of the existence of multiple currencies and the operations across borders of sovereign nation-states for the multinational corporation. Preq: FIN 306 or 312 with a C or better, or consent of instructor.

FIN 415, 615 Real Estate Investment 3(3,0) Focuses on the structure and analysis of real estate investment emphasizing financial theory and analysis technique. Case study and project-oriented homework assignments facilitate the understanding of real estate investments. Preq: FIN 307 with a C or better or consent of instructor.

FIN 416, 616 Real Estate Valuation 3(3,0) Advanced course in commercial real estate valuation. Topics include income capitalization, cash equivalency, highest and best use analysis, the cost approach, the direct sales comparison approach, and DCF analysis. Preq: FIN 307 with a C or better or consent of instructor.

FIN 417, 617 Real Estate Finance 3(3,0) Advanced course applying financial analysis and theory to real estate. Emphasizes mortgage credit analysis and current financing techniques for residential and commercial properties. Topics include financial institutions, syndications, and construction financing. Preq: FIN 307 with a C or better or consent of instructor.

FOOD SCIENCE

FD SC 101 Epochs in Man's Struggle for Food 1(1,0) Study of significant developments in food preservation methods and the impact each has had on man's struggle for food.

FD SC 102 Perspectives in Food and Nutrition Sciences 2(2,0) Discussion course covering topics related to food science and human nutrition. Subjects include topics of current interest and involve familiarization with scientific literature in nutrition and food sciences.

FD SC 201 Man and His Food 2(2,0) Study of food and food products emphasizing nutrients, nutrient needs, and the relationship between nutrient intake and health. Also discusses food additives, nutritional awareness (including nutrition labeling), food protection, and the influence of processing on nutritional quality of food.

FD SC 214 Food Resources and Society 3(3,0) Introduces the basics of food science (food chemistry, food microbiology, and food processing principles) and relates how advances in food science have paralleled societal advances and created social controversy.
FD SC 215 Culinary Fundamentals 1(0,3) Culinary skills development lab course emphasizing safety and sanitation. Practical preparation, evaluation, and presentation of fruits/vegetables, grains, eggs, salads/cold sauces, stocks, sauces, soups, poultry, red meat, seafood, quick breads, yeast breads, bakery desserts, frozen confections, and ice cream. Prereq: Food Science major or consent of instructor.

FD SC 250 Culinary Science Internship 0 Students experience the science and art of food preparation, with the ultimate object of improving the ease of manufacture as well as the overall quality and nutrition of the food produced. Students are able to observe, interact, and practice principles of culinary sciences. To be taken Pass/Fail only. Prereq: FD SC 215.

FD SC 304 Evaluation of Dairy Products 2(1,2) Emphasizes sensory evaluation of dairy products. Discusses basic principles of organoleptic evaluation, fundamental rules for scoring and grading dairy products; evaluation of all classes of dairy products based on established grades and score cards.

FD SC 306 Food Service Operations 3(3,0) Principles of management of resources in food service systems. Emphasizes menu planning, types of delivery systems, principles of quantity food production, techniques for cost control and concepts of food science and food safety. Prereq: FD SC 214 or equivalent or consent of instructor. Coreq: FD SC 404, 407.

FD SC 307 Restaurant Food Service Management 3(3,0) Essentials of successful operation of restaurants including menu design and pricing, marketing, customer satisfaction, purchasing, kitchen operations, and employment relationships.

FD SC 350 Food Science Internship 0 Summer internship offered by Food Science and Human Nutrition Department and the Clemson Micro-Creamery and Food Manufacturing Industries. Students are able to observe, interact, and practice principles of food science within the food industry. To be taken Pass/Fail only. Prereq: FD SC 214 or consent of instructor.

FD SC 401, H401, 601 Food Chemistry I 4(3,3) Basic composition, structure, and properties of food and the chemistry of changes occurring during processing utilization. Prereq: BIOCH 305 or consent of instructor.

FD SC 402, H402, 602 Food Chemistry II 4(3,3) Application of theory and procedures for quantitative and qualitative analysis of food ingredients and food products. Methods for protein, moisture, lipid, carbohydrate, ash, fiber, rancidity, color, and vitamin analyses and tests for functional properties of ingredients are examined. Prereq: BIOCH 305 or consent of instructor.

FD SC 404, 604 Food Preservation and Processing 3(3,0) Principles of food preservation applied to flow processes, ingredient functions, and importance of composition and physical characteristics of foods related to their processing; product recalls and product development concepts. Prereq: Physics and organic chemistry or biochemistry.

FD SC 406, 606 Food Preservation and Processing Laboratory I 1(0,3) Laboratory exercises on preservation methods, equipment utilized, and processes followed in food manufacture. Coreq: FD SC 404.

FD SC 407, 607 Quantity Food Production 2(1,3) Principles of the production of food in quantity for use in food service systems. Emphasizes functions of components of foods and of ingredients in food, on the quality of the final product, on safe production of food, and on proper use of equipment. Coreq: FD SC 306, 404.

FD SC 408, 608 Food Process Engineering 4(3,3) Study of basic engineering principles and their application in food processing operations. Emphasizes the relation between engineering principles and fundamentals of food processing. Prereq: CH 102, FD SC 214, MTHSC 106, PHYS 207 or 208 or 122 or consent of instructor.

FD SC (PKGSC) 409 Total Quality Management for the Food and Packaging Industries 3(3,0) Introduction to the principles of modern quality management emphasizing quality standards and issues and the practices necessary for food processing and packaging companies to survive in a customer-driven marketplace.

FD SC 417 Seminar 1(1,0) Literature research and oral presentation of a current food science topic. Prereq: CH 102, FD SC 214, MTHSC 106, PHYS 207 or 208 or 122 or consent of instructor.

FD SC 418 Seminar 1(1,0) Literature research and oral presentation of a current food science topic. Prereq: CH 102, FD SC 214, MTHSC 106, PHYS 207 or 208 or 122 or consent of instructor.

FD SC 420, H420 Special Topics in Food Science 1-3(1,3,0) Special topics in food science not covered in other courses. May be repeated for a maximum of 12 credits, but only if different topics are covered. Prereq: Consent of instructor.

FD SC 421, H421 Special Problems in Food Science 1-4(0,3-12) Independent research investigation in food science areas not conducted in other courses. May be repeated for a maximum of 12 credits. Prereq: Consent of instructor.

FD SC 491 Practicum 1-4 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 492 Practicum 1-3 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 493 Practicum 1-6 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 494 Practicum 1-12 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 495 Practicum 1-12 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 496 Practicum 1-12 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 497 Practicum 1-12 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 498 Practicum 1-12 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FD SC 499 Practicum 1-12 Supervised experiential opportunities in the food industry. May be repeated for a maximum of 12 credits. Prereq: Junior standing and consent of department chair.

FORESTRY

FOR 101 Introduction to Forestry 1(1,0) Informative sketch of forestry, forests, and forestry tasks of the nation. Includes education and career opportunities for foresters. Offered fall semester only.

FOR 205 Dendrology 2(1,3) Classification, nomenclature, and identification of the principal forest trees of the United States, their geographical distribution, ecological requirements, and economic importance. Includes field identification of native trees and commonly planted exotics of the Southeast. Prereq: BIOL 103/105. Coreq: FOR 221 or consent of instructor.

FOR 206 Forestry Ecology 3(2,3) Study of the nature of forests and forest trees, how they grow, reproduce, and their relationships to the physical and biological environment. Offered spring semester only. Prereq: BIOL 103/105, CSENV 202, FOR 205 or consent of instructor.

FOR 221 Forest Biology 3(3,0) Study of woody plant form and function, wood properties, general physiology and forest biomes of North America. Presented as a companion course to dendrology lab. Prereq: BIOL 103/105. Coreq: FOR 205 or consent of instructor.

FOR 227 Arboricultural Field Techniques 1(0,3) Skills and techniques required to safely climb trees for tree maintenance. Emphasizes safety, proper equipment, and basic tree maintenance treatments. To be taken Pass/Fail only.

FOR 251 Forest Communities 2(0,6) Study of forest plant species and their successful status and habitat requirements with respect to landform, soil type, and other appropriate aspects of site classification. Prereq: FOR 205 or consent of instructor.

FOR 253 Forest Mensuration 4(0,12) Introduction to measurements of land, individual trees, forest stands, forest products, and the application of mensurational techniques to the statistical and physical design of forest sampling methods, including measurement techniques of non-timber components of forest resources. Prereq: FOR 205 or consent of instructor.

FOR 254 Forest Products (Summer Camp) 1(0,3) Tour of the forest products industry of South Carolina emphasizing those products and processes of some distinction or special interest. Prereq: FOR 205 or consent of instructor.

FOR 300 Christmas Tree Production 2(2,0) Theory and practice of establishing, managing, and marketing trees emphasizing Christmas tree production in the South. Prereq: Consent of instructor.

FOR 302 Forest Biometrics 2(1,3) Application of statistical methods to forestry problems including sampling theory and methods, growth measurements and prediction, and application of micro-computing to analysis of forestry data. Prereq: FOR 253. Coreq: EX ST 301 or consent of instructor.
FOR 304 Forest Resource Economics 3(3,0)
Economic problems and principles involved in the utilization of forest resources and distribution of forest products. Includes analysis of integrated forest operations. Preq: ECON 200 or consent of instructor.

FOR 305 Woodland Management 3(2,2)
Compendium of woodland subjects providing a broad view of the forest environment as it relates to ecology, management, and utilization of forests, especially those of South Carolina. Field and laboratory exercises in the fundamentals of forest-land management. Not open to Forest Resource Management majors. Preq: BIOL 103/105 or consent of instructor.

FOR 308 Remote Sensing and GIS in Forestry 2(1,3)
Introduction to remote sensing, aerial photo interpretation, computer mapping, aerial photo timer estimating, and geographical information systems. Preq: Forestry summer camp or consent of instructor.

FOR 314 Harvesting and Forest Products 4(3,3)
Harvesting of forest products, structure and properties of economically important timbers, and production and properties of primary forest products. Preq: Forestry summer camp or consent of instructor.

FOR 315 Woodland Ecology 3(3,0)
Overview of the forest emphasizing the living and nonliving components of the woodland habitat. Understanding man's use of the forest and interpreting the signs of plants, wildlife, and landscapes.

FOR 341 Wood Procurement Practices in the Forest Industry 3(3,0)
Study of wood raw material procurement practices currently employed by the forest products industry, including pulp, paper, and related areas. Preq: Consent of instructor.

FOR 400, 600 Public Relations in Natural Resources 3(3,0)
Identifying relevant policies, their characteristics and acceptance to natural resource management, and techniques of maintaining appropriate public relations. Preq: Senior standing.

FOR 406 Forested Watershed Management 2(1,3)
Lectures and discussions on measurement and processes affecting water quality and quantity within watersheds. Introduction to hydrologic principles, geomorphology, and water quality assessment. Discusses best management practices for silviculture and development of a watershed management plan. Preq: For 315 or consent of instructor.

FOR 413, 613 Integrated Forest Pest Management 4(3,3)
Nature and control of pests of forest trees and products. Focuses on the relation of pests to silviculture, management, and natural forest ecosystems. Preq: Junior standing in Forest Resource Management.

FOR 415, 615 Forest Wildlife Management 3(2,3)
Principles, practices, and problems of wildlife management emphasizing upland forest game species. Habitat manipulation through use of appropriate silvicultural practices in association with other techniques is evaluated. Preq: FOR 460 or consent of instructor.

FOR (E N R) 416, 616 Forest Policy and Administration 2(2,0)
Introduction to the development, principles, and legal provisions of forest policy in the United States and an examination of administrative and executive management in forestry.
FOR 465, 665 Silviculture 4(3,3) Discussion of the theory and practice of manipulating forests to meet the needs and values of landowners and society in accordance with biological, ecological, and economic principles. Prereq: FOR 206 and Forestry Summer Camp or consent of instructor.

FOR 480 Selected Topics in Urban Forestry 1-3(1-3,0) Study of selected and varied topics, problems, and issues in urban forestry and arboriculture through readings, class discussion, and individual and group projects. Prereq: FOR (HORT) 427.

FOR 493 Selected Topics in Forest Resources 1-15(1-15,2-30) Specialized topics not covered in other courses which explore current areas of research and management in forest resources in a format of lecture, lab, or both. May be repeated for a maximum of 15 credits, but only if different topics are covered. Prereq: Junior standing or consent of instructor.

FOR 498 Senior Portfolio 1(1,0) Collection of Web-based materials representing the creative and scientific papers, presentations, and résumés written by students to satisfy curriculum requirements. Students are informed in F N R 102 and regularly thereafter regarding the format and content of their portfolios. Prereq: Senior standing in Forest Resource Management. Coreq: FOR 425.

FORESTRY AND NATURAL RESOURCES

F N R 102 Forestry and Natural Resources Freshman Portfolio 1(1,0) Informative sketch of forestry, wildlife biology, and natural resources; education and career opportunities for natural resource professionals. Students initiate their Web-based student portfolios which showcase their skills and experiences (e.g., résumés, accomplishments, and work samples) during their undergraduate degree. To be taken Pass/Fail only. Restricted to Environmental and Natural Resources, Forest Resource Management, Forestry and Natural Resources—Undeclared, and Wildlife and Fisheries Biology majors only.

F N R 466, 666 Stream Ecology 3(2,3) Covers the ecology of flowing water systems. Topics include geomorphology, physical and chemical factors of streams, biology of stream-dwelling organisms, trophic relationships, competition, colonization, drift, community structure, disturbance, and human impacts. Prereq: Junior standing or consent of department chair.

F N R 470 Creative Inquiry 1-3(1-3,0) Multi-semester commitment to participate in forestry and natural resources research with a group of peers, mentored by a faculty member or advanced graduate student. Students learn to collect, analyze, evaluate, and present information. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

F N R H491 Senior Honors Thesis I 3(3,0) Individual research for students in the Forestry and Natural Resources Honors Program. Focuses on developing a plan of research under the direction of a faculty advisory committee. Prereq: Senior standing, membership in Callhoun Honors College, and approval of Department of Forestry and Natural Resources.

F N R H492 Senior Honors Thesis II 3(3,0) Individual natural resources research for students in the Forestry and Natural Resources Honors Program. Focuses on data collection, analysis, report writing, and oral presentation. Prereq: F N R H491.

F N R 499 Natural Resources Seminar 1(1,0) Exploration of current literature and research in natural resources. Students participate in the analysis of research findings, utilizing skills acquired in their undergraduate programs. May be repeated for maximum of two credits.

FRENCH

FR 101 Elementary French 4(3,1) Multimedia course for beginners that combines video, audio, and print to teach the fundamentals of the French language and culture. Emphasizes communicative proficiency (listening comprehension, speaking, reading, and writing).

FR 102 Elementary French 4(3,1) Continuation of FR 101; three hours a week in the language laboratory.

FR 104 Basic French 4(3,1) Intensive one-semester program combining FR 101 and 102 for students who have previously studied French. Includes fundamentals of grammar and vocabulary as a foundation for building written and oral proficiency.

FR 151 French for Graduate Students 3(3,0) Intensive program only for graduate students preparing for the reading examination in French. A minimum grade of B on a final examination will satisfy graduate school foreign language requirement. May be repeated once for credit. To be taken Pass/Fail only. Prereq: Graduate standing.

FR 297 Creative Inquiry—French 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

FR 299 Foreign Language Drama Laboratory 1(0,3) Participation in foreign drama productions. No formal class meetings, but an average of three hours per week in a foreign language drama workshop for production. May be repeated for a maximum of three credits. Prereq: Consent of instructor directing the play.

FR 300 Survey of French Literature 3(3,0) Study of selected masterpieces of French literature in their artistic, cultural, and historical context. May include theme and genre studies. Prereq: FR 202 or consent of department chair.

FR 304 French Short Story 3(3,0) Introduction to the study of French narrative literature and the elements of critical analysis through the examination of short stories spanning the medieval era to the present from both France and Francophone countries. Prereq: FR 305 or consent of instructor.

FR 305 Intermediate French Conversation and Composition I 3(3,0) Practice in the spoken language stressing vocabulary building, pronunciation, intonation, and comprehension. Requires written work to increase accuracy and assignments in the language laboratory. Prereq: FR 202 or consent of department chair.

FR 307 French Civilization 3(3,0) Study of significant aspects of French culture from its origins to the present. Prereq: FR 305 or consent of instructor.

FR 308 French Linguistics I: Phonetics, Phonology, and Morphology 3(3,0) Study of the fundamental sound patterns, melodic structure, and work-processes of modern standard French. Prereq: FR 304 or 305 or consent of instructor.

FR 309 French Linguistics II: Syntax and Semantics 3(3,0) Study of the fundamental structures of French syntax and semantics. Prereq: FR 304 or 305 or consent of instructor.

FR 310 CLIP Summer Immersion Program 6(6,0) Conducted entirely in French for eight hours daily; this summer immersion program consists of activities that combine interrelating cultural topics with language skill practice. Frequent opportunities to converse with native speakers during meals and on excursions. Students receive six credits, three of which may be taken in lieu of FR 202. Prereq: FR 201.

FR 312 Writing in French I 3(3,0) Study of the vocabulary, syntax, and stylistics in short compositions and creative papers in French, on both fiction and non-fiction topics. Prereq: FR 202 or consent of department chair.

FR 316 French for International Trade I 3(3,0) Spoken and written French common to the French-speaking world of business and industry, emphasizing business practices and writing and translating business letters and professional reports. Cross-cultural references provide opportunity for comparative and contrastive analyses of American and French cultural patterns in a business setting. Prereq: FR 202, 305 (or concurrent enrollment); or consent of department chair.

FR 317 Contemporary French Civilization 3(3,0) Study of significant aspects of France today; the country, its economy, government, and society. Taught in French. Prereq: FR 305 or consent of instructor.
FR 320 Studies in French Theatre 3(3,0) Explores a variety of genres (medieval farce, classical comedy and tragedy, romantic melodrama, and the Nouveau Théâtre) with emphasis on staging. Class materials consist of scripts, videotaped performances, and theoretical readings on issues pertaining to spectacle in social, political, and artistic terms. May be repeated for a maximum of six credits. Preq: FR 202 or consent of department chair.

FR (PO SC) 383 French-Language News 1(1,0) See PO SC 383.

FR H391 Survey of French Literature 1(1,0) One-hour independent study to allow honors students to pursue supervised research on a topic relating to the literary, cultural, and artistic movement in France. Coreq: FR 300, membership in Calhoun Honors College.

FR 397 Creative Inquiry—French 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

FR 398 Directed Reading 1-3(1-3,0) Directed study of selected topics in French literature, language, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

FR 400 Modern French Literature 3(3,0) Study of selected works of 20th-century French literature in their artistic, cultural, and historical context. Preq: FR 202 or consent of department chair.

FR 409 Writing in French II 3(3,0) Intensive study of syntax and stylistics through composition and translation. Preq: Senior standing or consent of department chair.

FR 410 Francophone Literature 3(3,0) Study of selected works of francophone literature emphasizing Africa and the Caribbean in their artistic, cultural, historical, and political contexts. Preq: FR 300 or consent of department chair.

FR 411 Advanced French Conversation and Composition 3(3,0) Continuation of FR 305 emphasizing greater fluency and sophistication in oral and written expression. Preq: FR 305 or consent of instructor.

FR 412 French and Francophone Cinema 3(2,3) Examination of cinematic practice as a discourse and the role it plays in the representation of social relations, particularly race, ethnicity, class, power, sex, and gender in the French-speaking world. May include a study of major directors, genres, and movements. Taught in French. Films with English subtitles. Preq: FR 305 or consent of instructor.

FR 415 Translation Seminar 3(3,0) Methods and theory of translation and a comparison of French and English structures. Practical exercises in translating from French to English and vice versa in a variety of texts. Preq: FR 305 or consent of instructor.

FR 416 French for International Trade II 3(3,0) Study of language and cultural environment of the French-speaking markets of the world, including the linguistic and cultural idioms which support global marketing in general and the international marketing of textiles, agricultural products, and tourism in particular. Preq: FR 316.

FR 420 French Enlightenment, Revolution and Romanticism 3(3,0) Cultural and literary studies of the century and a half (1715–1851) in which France occupied the center stage of world history and its modern institutions came into being. Emphasizes the free intellectual inquiry championed by philosophers and the romantic melancholy in the aftermath of the Revolution. Preq: FR 305 or consent of instructor.

FR H438 French Honors Research 3(3,0) Individual honors research conducted under the direction of Language Department faculty. May not be used to satisfy requirements for the major in Modern Languages–French or Language and International Trade or the minor in Modern Languages. Preq: Junior standing and membership in Calhoun Honors College.

FR H439 French Honors Thesis 3(3,0) Individual honors research conducted and thesis completed under the direction of Language Department faculty member. May not be used to satisfy requirements for the major in Modern Languages–French or Language and International Trade or the minor in Modern Languages. Preq: Junior standing, FR H438, membership in Calhoun Honors College.

FR 475 Advanced French Seminar 3(3,0) Concentrated research and discussion on an advanced topic in French literature, film, drama, music, or philosophy. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: FR 304 or 305, Senior standing; or consent of instructor.

FR 476 Advanced Seminar on French Thought 3(3,0) Research and discussion of an advanced topic, text, or group of texts with a particular focus on French theory and philosophy but including works of French literature. Conducted in English. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Senior standing or consent of instructor.

FR 477 Advanced Seminar on the French and Francophone Novel 3(3,0) Examination of the French novel and/or narrative prose focusing on a theme, genre, or period. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: FR 304 or 305, Senior standing; or consent of instructor.

FR H491 Modern French Literature 1(1,0) Independent study to allow honors students to pursue in depth an author, work, movement, or genre related to contemporary French culture, art, or literature. Coreq: FR 400, membership in Calhoun Honors College.

FR H492 The French Corporation 1(1,0) Directed study of the organization, structure, and functioning of a French business enterprise. Coreq: FR 417, membership in Calhoun Honors College.

FR 497 Creative Inquiry—French 1-4(1-4,0) Continuation of research initiated in FR 397. Students complete their projects and disseminate their research results. Preq: FR 397 or consent of instructor.

FR 498 Independent Study 1-3(1-3,0) Directed study of a selected topic in French literature, language, or culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

FR 499, 699 Selected Topics in French Literature 3(3,0) Selected topics that have characterized French literature, language, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

GENETICS

GEN 103 Careers in Biochemistry and Genetics 1(1,0) Introduction to biochemistry and genetics career paths, professional organizations, ethical issues, and requirements for advanced study. Also gives students training in design of a professional portfolio. Students may not receive credit for both BIOL 103 and GEN 103. Preq: Freshman or sophomore standing in Biochemistry or Genetics or consent of instructor.

GEN 300 Fundamental Genetics 3(3,0) Introductory course covering fundamental principles of genetics in prokaryotes and eukaryotes. Emphasizes Mendelian genetics, physical and chemical basis of heredity, and population genetics. Preq: BIOL 104/106 or consent of instructor.

GEN 301 Fundamental Genetics Laboratory 1(0,3) Experimental and observational approach addressing the concepts presented in GEN 300. Inheritance patterns in a wide variety of eukaryotic and prokaryotic organisms are covered. Preq: GEN 300 (or concurrent enrollment).

GEN 302, H302 Molecular and General Genetics 3(3,0) Rapidly-paced course covering Mendelian and molecular genetics, with introductory coverage of quantitative and population genetics. Emphasizes the molecular basis of heredity and gene expression in prokaryotes and eukaryotes and modern genetic technology. Preq: BIOL 111 or consent of the instructor.

GEN 303 Molecular and General Genetics Laboratory 1(0,3) Laboratory exercises introducing fundamental principles of inheritance in prokaryotes and eukaryotes. Preq: GEN 302 or concurrent enrollment.

GEN (BIOSC) 405, H405, 605 Molecular Genetics of Eukaryotes 3(3,0) Molecular genetic analyses of eukaryotes in relation to mutations and repair, complex phenotypes, biochemical pathways, short- and long-term regulation of gene expression, and evolution. Preq: GEN 302 or equivalent and one semester of biochemistry, or consent of instructor.

GEN 410, H410, 610 Fundamentals of Genetics I 3(3,0) First in a two-semester sequence in genetics covering Mendelian genetics, topics in cytogenetics, extranuclear inheritance, quantitative, evolutionary, conservation, and population genetics. Preq: CPSC 120 (or equivalent), EX ST 301, GEN 302, or consent of instructor.
GEOG 499 Independent Study in Geography
3(3,0) Study of selected topics in geography under the direction of a faculty member chosen by the student. Student and faculty member develop a course of study designed for the individual student and approved by the department chair prior to registration.

GEOLOGY

GEO 100 Current Topics in Geology 1(1,0)
Lectures and demonstrations covering topics of current interest in the different fields of geology. Recent research developments and career opportunities in the geosciences are emphasized.

GEO 101, H101 Physical Geology 3(3,0)
Study of minerals and rocks which compose earth's crust, their origins and transformations. Emphasizes geological processes, both internal and external, by which changes are produced on or in the earth.

GEO 102, H102 Earth History 4(3,3) Survey of the earth's geologic history emphasizing how the continents and ocean basins have evolved through geologic time. Evolution of life from the beginning of the fossil record through the present; identification of fossil plants and animals and interpretation of earth's past through study of geologic maps. Field trips illustrate principles.

GEO 103, H103 Physical Geology Laboratory 1(0,2) Laboratory to accompany GEO 101. Provides instruction in the identification of minerals and rocks in the interpretation of geologic processes through study of topographic maps. Field trips provide direct observation of processes and results. Coreq: GEO 101.

GEO 112 Earth Resources 3(3,0) Survey of earth's mineral, energy, water, and land resources and environmental and societal impacts associated with the use of these resources. Preq: GEO 101.

GEO 114 Earth Resources Laboratory 1(0,2) Laboratory to accompany GEO 112. Provides instruction in the identification of ore and gem minerals and of other earth materials of economic importance. Land and water resources are explored through the use of topographic maps, aerial photographs, remotely sensed images, and field trips. Preq: GEO 103. Coreq: GEO 112.

GEO 206 Mineralogy and Introductory Petrology 4(3,3) Crystal symmetry and introduction to x-ray crystallography, composition and stability of minerals, survey of common rock-forming minerals, petrological classification of rocks and introduction to rock associations. Laboratory focuses on identification of rock-forming minerals and important ore minerals based on their physical properties, and hand specimen petrology. Preq: GEO 101, 103, or consent of instructor.

GEO 210 Geology of the National Parks 3(3,0) Survey of selected national parks and monuments emphasizing the dynamic geologic processes which have shaped the landscapes of these areas. Special attention is focused on parks exhibiting recent geologic activity related to volcanoes, earthquakes, and glaciers. Slides and films are used to highlight specific geologic features.

GEO 211 Geoanalysis I 4(3,3) Students develop a working knowledge of statistical methods used to formulate and solve problems in the earth sciences. Emphasis is on sampling methods and experimental design for geologic settings and on formulating and evaluating hypotheses using statistical inference of data sets. Preq: MTHSC 108.

GEO 212 Geoanalysis II 4(3,3) Students develop a working knowledge of deterministic methods used to formulate and solve problems in the earth sciences. Emphasis is on developing conceptual models from geologic field observations, formulating idealized problems, and analyzing and interpreting solutions. Special focus is on using computer software to support analyses. Preq: GEO 211, MTHSC 108.

GEO (ASTR) 220 Planetary Science 3(3,0) Survey of the formation and evolution of planetary bodies. Emphasizes the origin and planetary material and comparative study of the primary processes operative on planetary surfaces. Describes major features of the planets and moons in our solar system as revealed by recent space missions.

GEO 270 Experiences in Sustainable Development: Water 3(3,0) Integrates cross-disciplinary perspectives on sustainability through active student participation in real-world development projects. Focuses on identifying and overcoming environmental, technical, social/organizational, and economic barriers to the sustainability of water resources. Emphasizes small-scale international water resources development.

GEO 291 Introduction to Research 1(1,0) Required group learning and research experience for Geology majors (open to others with consent of instructor). Introduction to problem solving through case studies and interdisciplinary team approaches. Focus is on, but not limited to, research approaches in geology. Social and ethical contexts, communication skills, and professional development are incorporated. Preq: GEO 291 or consent of instructor.

GEO 300, H300 Environmental Geology 3(3,0) Discussion-oriented introduction to relationships of man to his physical surroundings and problems resulting from upsetting the established equilibria of geologic systems; man's role as a geologic agent, environmental conservation and management. Preq: GEO 101 or consent of instructor.

GEO 302, H302 Structural Geology 4(3,3) Diverse geological structures of the earth, their description, origin, and field recognition. Practical problems in interpreting geologic structures are utilized, in addition to theoretical considerations of the mechanics and causes of tectonism. Preq: GEO 102 or consent of instructor.

GEO 313 Sedimentology and Stratigraphy 4(3,3) Topics include origin, composition, and texture of sediments and sedimentary rocks; sedimentation processes, depositional environments, facies relationships, and diagenesis; introduction to stratigraphic methods and geochronology. Laboratory involves description and classification of hand specimens and thin sections and analytical methods. Preq: GEO 206 or consent of instructor.

GEO 314, H314 Sedimentary Petrology 3(2,3) Origin, composition, and texture of sediments and sedimentary rocks, including both siliciclastic and chemical varieties. Interpretation of tectonic settings, depositional systems, facies relationships, and diagenesis. Laboratory involves description and classification of hand specimens and thin sections and analytical methods. Preq: GEO 206 or consent of instructor.

GEO 316, H316 Igneous and Metamorphic Petrology 3(2,3) Classification, occurrence, and origin of igneous and metamorphic rocks. Discussion of the chemical and physical processes involved in magmatic crystallization and metamorphism. Laboratory study of igneous and metamorphic rocks in hand specimen and thin section. Preq: GEO 206, 216 or consent of instructor.

GEO 318 Introduction to Geochemistry 3(3,0) Introduction to distribution of elements in the core, mantle, and crust of the earth. Control of rock type on trace element content in soils and sediments. Weathering; soil and regolith formation; water-sediment interrelations; solubility, mobility and bioavailability in relation to redox, pH and complexation; biogeochemical cycles of selected elements. Preq: GEO 101 and CH 102 or consent of instructor.

GEO 375, H375 Bahamian Field Study 3(1,4) Relationships among marine sediment types, physical processes, and biological activity are observed. The world's third largest barrier reef is examined. Students stay one week at a field station on Andros Island in the Bahamas and travel by van and boat to various sites. Additional fees are required. Preq: GEO 101 or consent of instructor.

GEO 391 Research Methods I 1(1,0) Required group learning and research experience for Geology majors (open to others with consent of instructor). Introduction to problem solving through case studies and interdisciplinary team approaches. Focus is on, but not limited to, research methods in geology. Social and ethical contexts, communication skills, and professional development are incorporated. Preq: GEO 292 or consent of instructor.
GEOL 392 Research Methods II 1(1,0) Required group learning and research experience for Geology majors (open to others with consent of instructor). Introduction to problem solving through case studies and interdisciplinary team approaches. Focus is on, but not limited to, research methods in geology. Social and ethical contexts, communication skills, and professional development are incorporated. Prereq: GEOL 391 or consent of instructor.

GEOL 403, 603 Invertebrate Paleontology 3(2,3) Study of life of past geologic ages as shown by fossilized remains of ancient animals, with emphasis on the invertebrates. Prereq: GEOL 101 or consent of instructor.

GEOL 405, 605 Surficial Geology 4(3,3) Study of surface features of the earth and the processes that produce them. Analysis of landforms including their form, nature, origin, development, and rates and patterns of change. Laboratory studies emphasize terrain analysis and the mechanics of surficial geological processes. Prereq: GEOL 102, 300, or consent of instructor.

GEOL H408, 608 Geohydrology 3(3,0) Study of the hydrologic cycle, aquifer characteristics, theory of groundwater movement, mechanics of well flow, experimental methods, and subsurface mapping. Prereq: GEOL 101, 102.

GEOL 409 Subsurface Methods 4(3,3) Students develop an understanding of the principles and methods used to acquire, analyze, and interpret subsurface geological data. Emphasizes borehole measurements; seismic gravimetric, magnetic, and electrical methods; and their applications to hydrogeology, remediation, and oil and gas exploration. Prereq: GEOL 313.

GEOL 411, H411 Research Problems 1-3(0,3-9) Field, laboratory, or library study of an approved topic in geology. Topic would be one not normally covered in formal courses, but may be an extension of a course. Taught either semester. May be repeated for a maximum of six credits. Prereq: Senior standing or consent of instructor.

GEOL 413, 613 Stratigraphy 3(2,2) Analysis of stratified rocks as the repository of earth history and the conceptual framework used to synthesize the world geologic record as a coherent whole. Emphasizes not only traditional lithostratigraphy but also modern seismic stratigraphy, biostratigraphy, and related processes. Prereq or Coreq: GEOL 206 or consent of instructor.

GEOL 415 Analysis of Geological Processes 3(3,0) Introduction to methods for analyzing geological processes. Mathematical methods are introduced to solve problems related to stream flow, reaction kinetics, radioactive decay, heat flow, diffusion, fluid flow through geologic media and related processes. Prereq or Coreq: MTHSC 206 or consent of instructor.

GEOL 420, 621 GIS Applications in Geology 3(1,4) Introduction to geographic information systems with applications to current geological and hydrological problems. Topics include the use of global positioning systems, spatial analysis, and image analysis. Hands-on training with geographic information systems software and techniques is covered in lab. Prereq: Senior standing, strong computer skills.

GEOL 451, 651 Selected Topics in Hydrogeology 1-4(1-3,0-3) Selected topics in hydrogeology emphasizing new developments in the field. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: GEOL 300 or 408, or consent of instructor.

GEOL 475 Summer Geology Field Camp 6(4,6) Introduction to field techniques emphasizing methods applied to hydrogeology. Includes description and mapping of hydrogeologic units and structures using outcrop data and lithologic and geophysical well logs. Also covers construction of potentiometric maps from water level data, performance of pumping tests on mapped aquifers, and analysis of data to determine aquifer characteristics. Prereq: GEOL 302 and 226, or consent of instructor.

GEOL 491 Research Synthesis I 4(3,3) Required capstone group learning and research experience for Geology majors (open to others with consent of instructor). Involves synthesis of applied geology and other approaches for problem solving through collaborative teams. Course is the culmination of a sequence of case studies incorporating social and ethical contexts, communication skills, and professional development. Prereq: GEOL 392 or consent of instructor.

GEOL 492 Research Synthesis II 4(3,3) Required capstone group learning and research experience for Geology majors (open to others with consent of instructor). Involves synthesis of applied geology and other approaches for problem solving through collaborative teams. Course is the culmination of a sequence of case studies incorporating social and ethical contexts, communication skills, and professional development. Prereq: GEOL 491 or consent of instructor.

GERMAN

Professor: H. M. Riley; Associate Professors: G. J. Dove, J. Schmidt; Lecturers: L. J. Ferrell, J. T. Little; Adjunct Professor: M. M. Sinka

GER 101 Elementary German 4(3,1) Course for beginners in which, through conversation, composition, and dictation, the fundamentals of the language are taught and a foundation is provided for further study and the eventual ability to read and speak the language. Three hours a week of classroom instruction and one hour a week in the language laboratory.

GER 102 Elementary German 4(3,1) Continuation of GER 101; three hours a week of classroom instruction and one hour a week in the language laboratory.

GER 104 Basic German 4(3,1) Intensive one-semester program combining GER 101 and 102 for students who have previously studied German. Includes fundamentals of grammar and vocabulary as a foundation for written and oral proficiency.

GER 151 German for Graduate Students 3(3,0) Intensive program only for graduate students preparing for the reading examination in German. A minimum grade of B on a final examination will satisfy graduate school foreign language requirement. May be repeated once for credit. To be taken Pass/Fail only. Prereq: Graduate standing.

GER 201, H201 Intermediate German 3(3,1) Brief review of GER 101 and 102, with conversation, composition, and dictation, and the reading of more serious German prose in short stories and plays. Includes literary and cultural perspectives. Prereq: GER 102.

GER 202, H202 Intermediate German 3(3,1) Emphasizes reading nontechnical German prose more rapidly. Writing, speaking, and listening skills continue to be developed. Includes literary and cultural perspectives. Prereq: GER 201 or consent of instructor.

GER 297 Creative Inquiry—German 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

GER 299 Foreign Language Drama Laboratory 1(0,3) Participation in foreign language drama productions. No formal class meetings, but an average of three hours per week in a foreign language drama workshop for production. May be repeated for a maximum of three credits. Prereq: Consent of instructor directing the play.

GER 305 German Conversation and Composition 3(3,0) Training in spoken and written German emphasizing vocabulary acquisition, oral and written communication strategies, appropriate linguistic formulations for specific cultural contexts, and stylistics. Prereq: GER 202 or consent of instructor.

GER 306 The German Short Story 3(3,0) Examines the Austrian, German, and Swiss short story as a distinct literary genre that flourished particularly after 1945. Provides ample conversation and composition practice, as well as an introduction to principles of literary prose analysis. Prereq: GER 202 or consent of instructor.

GER 310 Summer Immersion Program 6(6,6) Conducted entirely in German for eight hours daily. Program consists of activities that combine interrelating cultural topics with language skill practice. Frequent opportunities to converse with native speakers during meals and on excursions. Students receive six credits, three of which may be taken in lieu of GER 202. Prereq: GER 201.

GER 316 German for International Trade 3(3,0) Spoken and written German common to the German-speaking world of business and industry emphasizing business practices and writing and translating business letters and professional reports. Cross-cultural references provide opportunity for comparative and contrastive analysis of American and German cultural patterns in a business setting. Prereq: GER 202 and 305 (or concurrent enrollment); or consent of department chair.

GER 340 German Culture 3(3,0) Examines the cultures of German-speaking nations from their origins to the present. Emphasizes the Federal Republic of Germany both before and after the German unification of 1990. Prereq: GER 202 or consent of instructor.
COURSES OF INSTRUCTION

GER 360 German Literature to 1832 3(3,0)
Examines selected topics in German literature from the Middle Ages to 1832. Readings may include works by Lessing, Goethe, Schiller, and the Romantics. Prereg: GER 305 or 306 (or concurrent enrollment) or consent of instructor.

GER 361 German Literature from 1832 to Modernism 3(3,0)
Examines drama, poetry, and prose from the Biedermeier period through naturalism and realism to the advent of Modernism. Prereg: GER 305 or 306 or consent of instructor.

GER 369 Special Topics in German Literature 3(3,0)
Study of a significant aspect of German literature. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: GER 305 or 306 or consent of instructor.

GER 398 Directed Reading 1-3(1-3,0)
Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

GER 405 Advanced Contemporary German Language 3(3,0)
Advanced study of spoken and written contemporary German based on modern autobiographical texts, eyewitness accounts of recent historical events, and media coverage of current events. Employs Internet, print and audio texts, TV programs, and photo series. Prereg: One 300-level German course or consent of instructor.

GER 416 German for International Trade II 3(3,0)
Study of language and cultural environment of the German-speaking markets of the world, including linguistic and cultural idioms which support global marketing in general and the international marketing of textiles, agricultural products, and tourism in particular. Prereg: GER 316.

GER 417 Topics in German for International Trade 3(3,0)
Examination and analysis of selected topics related to the business culture and economy of Germany, Austria, Switzerland, the European Union, or the European Free Trade Association. Topics may include the reconstruction of eastern Germany's economy, the expansion of the European Union, or current events of economic importance. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: One 300-level German course or consent of department chair.

GER 450 Advanced Studies in German Drama 3(3,0)
Extensive study of a major theme or aspect of German drama. May include recorded live performances, stage design, theatre architecture, and the music and art of the theatre. Prereg: GER 305 or 306 or consent of instructor.

GER 455 German Film 3(2,3)
Overview of German cinema including the expressionist classics of the Weimar Republic, entertainment and documentary movies of the Nazi era, classics of the postwar New German Wave (West Germany), distinctive East German films, and vanguard contemporary films. Prereg: GER 305 or 306 or consent of instructor.

GER 460 Modernism in German Literature 3(3,0)
Study of major works of German literature and culture in the modernist era (1888–1933). May include drama, music, philosophy, and the plastic arts. Prereg: GER 305 or 306 or consent of instructor.

GER 461 German Literature Since 1933 3(3,0)
Study of selected authors, texts, or genres in contemporary German literature. Prereg: GER 305 or 306 or consent of instructor.

GER 475 Advanced German Seminar 3(3,0)
Concentrated research and discussion on advanced topics, works, or texts in German literature, film, art, drama, music, or philosophy. Conducted in German. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: GER 305 or 306 or consent of instructor.

GER 476 Advanced Seminar in German Thought 3(3,0)
Concentrated research and discussion on advanced topics, works, or texts in German literature, film, art, drama, music or philosophy. Conducted in English. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: Senior standing or consent of instructor.

GER 497 Creative Inquiry—German 1-4(1-4,0)
Continuation of research initiated in GER 397. Students complete their project and disseminate their research results. Prereg: GER 397 or consent of instructor.

GER 498, 698 Independent Study 1-3(1-3,0)
Supervised study of selected topics in German literature, language, or culture. May be repeated for a maximum of six credits. Prereg: Consent of department chair.

GRAPHIC COMMUNICATIONS

Professors: S. T. Ingram, Chair; J. M. Leininger; Associate Professors: J. B. Simmons, E. M. Weisenmuller; Assistant Professors: L. H. O’Hara, N. L. Wolfbright; Senior Lecturers: N. W. Leininger, P. G. Rose; Lecturers: K. T. Cox, C. D. Jones, R. N. Marsou, J. K. Sperry, M. H. Wayne; Visiting Professors: J. P. Crouch, F. T. Simon, W. E. West; Adjunct Professors: S. Edleit, L. W. Evans; Visiting Lecturers: S. Edleit, K. K. Osborne; Adjunct Lecturers: C. Porcher, C. Tonkin

G C 101 Orientation to Graphic Communications I 1(1,0)
Introduction to the curriculum and the industry including its processes, products, and careers. Emphasizes the attributes which are most desirable for successful entry and advancement up a variety of career ladders.

G C 103 Graphic Communications I for Packaging Science 4(2,6)
Emphasizes the interrelationships of packaging and graphics arts. Topics include theory and practice in packaging requirements relative to basic graphic arts concepts, principles, and practices; layout, design; electronic copy preparation; the printing processes of offset lithography; screen printing; gravure; and flexography. Includes digital and specialty printing processes, environmental, health, and safety concerns.

G C 104, H104 Graphic Communications I 4(2,6)
Emphasizes basic graphic arts industrial concepts, principles, and practices, with laboratory applications in photography, layout and design, conventional and electronic copy preparation, reproduction photography, offset lithography, screen printing, and finishing operations. Flexography, gravure, letterpress, and specialty printing processes are also covered, along with environmental, health, and safety concerns.

G C 199 Creative Inquiry—Graphic Communications I 1-3(1-3,0)
Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Prereg: Freshman standing.

G C 207, H207 Graphic Communications II 3(1,6)
Continuation of G C 104. Intermediate course for graphic communications and graphic arts specialists which broadens skills and technical knowledge in areas of layout, copy preparation, reproduction photography, film assembly, screen printing, lithographic presswork, and finishing. Prereg: G C 101, 104, typewriter/keyboard skills of 20 net words per minute.

G C 215, H215 Photographic and Digital Imaging Techniques 3(1,6)
Emphasizes application of black and white and color imaging by photographic and digital technologies. Laboratory experiences assure confidence in the use of photographic and digital techniques for creating and enhancing original images for graphic reproduction and distribution.

G C 245 Graphic Communications Mechanical Systems 3(2,3)
Concepts in mechanical systems and their controls as related to equipment and facilities in graphic communications industrial manufacturing. Prereg: G C 207 and CTE 180, or consent of instructor.

G C 299 Creative Inquiry—Graphic Communications II 1-3(1-3,0)
Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Prereg: Sophomore standing.

G C 310, H310 Applied Principles of Electronic Workflow 4(2,6)
Promotes the refining of skills learned in GC 104 and 207, with an in-depth study and application of computerized prepress systems and methodologies. Serves as a transition course to the advanced graphic classes teaching offset lithography, flexography, screen printing, and gravure. Prereg: GC 207, 215, or consent of instructor.

G C 350 Graphic Communications Internship I 10(0,3)
Full-time supervised employment in an industrial in-plant setting for expansion of experience with materials and processes, production people, and organizations. Restricted to Graphic Communications majors. Prereg: GC 104 or equivalent, consent of instructor. Coreq: CO-OP 101.
Courses of Instruction

G C 399 Creative Inquiry—Graphic Communications III 1-3(1-3,0) Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Junior standing.

G C 405, H405, 605 Package and Specialty Printing 2(2,0) Problems and processes for printing and converting in package, label, and specialty printing industries. Flexographic, prepress, printing, die making, diecutting, transfer printing, screen container printing, pad printing, and bar code production are covered. New developments and trends are discussed. Preq: G C 245, 310, 350; concurrent enrollment in G C 406; or consent of instructor.

G C 406, H406, 606 Package and Specialty Printing Laboratory 2(0,6) Laboratory in techniques for printing and converting in package, label, and specialty printing industries. Experiences in flexographic press prepress; printing; die design, die making, and diecutting for label, folding cartons and corrugated; and glass, plastic, and metal container printing. Preq: G C 245, 310, 350; concurrent enrollment in G C 405; or consent of instructor.

G C 407, 607 Advanced Flexographic Methods 4(2,6) In-depth study of the methods used in flexographic printing and converting of porous and nonporous substrates. Theory and laboratory applications include setting standards for process color, preparation of plate systems, ink mixing and color matching, testing of films and foils, analysis of recent developments, and prediction of future markets. Preq: G C 406 or consent of instructor.

G C 440, H440, 640 Commercial Printing 5(2,9) Advances skills learned in previous graphic communications courses and applies the knowledge to large format presses. Students work from the design conception stage through all aspects of preparation, production, and finishing. Emphasizes understanding and incorporating emerging technologies into the production workflow. Preq: G C 310 and 350 or consent of instructor.

G C 444, H444, 644 Current Developments and Trends in Graphic Communications 4(2,6) Advanced course for Graphic Communications majors. Emphasizes the theory and technical developments that affect process and equipment selection. Topics include color theory and application, electronic color scanning, electronic prepress and communications, gravure color quality control and analysis. Preq: G C 405, 406, 440.

G C 445, 645 Advanced Screen Printing Methods 3(2,3) In-depth study of the systems and materials used with the screen printing process. Emphasizes techniques of control and procedures for establishing screen printing methods and standards. Preq: G C 207 or consent of instructor.

G C 446, 646 Ink and Substrates 3(2,3) Covers components, manufacturing, process use as well as end use of ink and substrates used in lithography, flexography, gravure, and screen printing. Examines the interrelationship between inks, substrates, and the printing process. Through controlled testing and examination, optimum conditions for improved printability are determined. Preq: G C 405, 406 or 440; or consent of instructor.

G C 448, H448, 648 Planning and Controlling Printing Functions 3(2,3) Study of systems for setting printing production standards, estimating, scheduling, job planning, and the selection of new hardware and technologies. Preq: G C 350, 405, 406, 440 or consent of instructor.

G C 450 Graphic Communications Internship II 1(0,3) Continuation of G C 350. Preq: G C 350, 405, 406 or 440; consent of instructor. Coreq: CO-OP 102.

G C 451, H451 Special Projects in Graphic Communications 1-6(0,3-18) Advanced projects covering theory and/or practices going beyond the scope of regular coursework. Written project approval is required before registering. May be repeated with advisor's approval. Preq: Junior standing, completion of three graphic communications courses, or consent of instructor.

G C 455 Advanced Graphic Communications Internship 1(0,3) Full-time employment in an industry directly or indirectly related to printing. Work site and job must be approved in advance. Preq: G C 350.

G C 480 Senior Seminar in Graphic Communications 2(2,0) Study of current trends and issues in the graphic communications industry. Class centers around group discussions dealing with relevant topics facing the graphic communications manager today. Students draw upon academic experiences, internship experiences, and library research to facilitate discussion. Must be taken during student's last semester on campus. Preq: G C 450.

G C 490, 690 Graphic Communications Selected Topics 1-3(1-3,0) Subjects not covered in other graphic communications courses; organized according to industry trends and student needs. May be repeated for a maximum of 18 credits, but only 1 different topic are covered. Preq: Consent of instructor.

G C 499 Creative Inquiry—Graphic Communications IV 1-3(1-3,0) Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Senior standing.

G W 403, H403 Special Topics in Continental Literature 3(3,0) Important primary texts written in modern European languages are taught in English. Content varies according to instructor. Preq: Sophomore literature.

G W 405, H405 The Darwinian Revolution 3(3,0) Examination of Charles Darwin's The Origin of Species and its cultural impact from his time to ours. Topics include the controversial reception of Darwin's work, the Scopes Monkey Trial, and more recent controversies over Creationism and Intelligent Design. Preq: Sophomore literature.

HEALTH
Professor: D. B. Jackson; Associate Professors: G. E. Costello, Chair; C. J. Dye, K. A. Kemper, J. K. Kingree, R. M. Mayo, W. W. Sherrill, H. D. Spitler, Research Associate; M. Thompson, Research Associate; Assistant Professors: C. B. Okafor, E. E. Seiber; Lecturers: C. S. Chambers, K. M., Meyer, R. S. Welsh; Adjunct Professor: V. S. Gallicchio; Adjunct Professor: D. Charles.

HLTH 102 Introduction to Public Health 3(3,0) Examination of the forces that have influenced current health delivery systems, health practices, and trends. General systems theory is introduced. Health majors and minors will be given enrollment priority.

HLTH 203 Overview of Health Care Systems 3(3,0) Introduction to the health care delivery system including public health and health care components. Examines and discusses individual health and professional expectations of need and demand for health care and delivery of public health and health care services.

HLTH 240 Determinants of Health Behavior 3(3,0) Analysis of health behaviors based on psychological, social, cultural, and environmental factors. Introduces health behavior theories. Coreq: Health Science major.

HLTH 250 Health and Fitness 3(3,0) Study of interrelationship between health and fitness. Emphasizes the cardiovascular system and benefits of exercise.

HLTH 298 Human Health and Disease 3(3,0) Study of good health practices emphasizing lifestyles and measures of health. Health majors and minors will be given enrollment priority.

HLTH 303 Public Health Communication 3(3,0) Introduction to the use of health and communication theory and social marketing strategies to create effective, evidence-based, culturally appropriate health communication messages and campaigns. Preq: HLTH 240, 298.

HLTH 305 Body Response to Health Behaviors 3(3,0) Positive benefits and the negative impact of certain behaviors at cellular, organ, and body-system levels are examined. The pathways of selected injury and disease are explored. Expected physiological changes are applied in identifying strategies for promoting health in the presence (or absence) of disease. Health majors and minors will be given enrollment priority. Coreq: BIOSC 223 or consent of instructor.

GREAT WORKS

G W (ENGL) 301, H301 Great Books of the Western World 3(3,0) Introduces Great Works minor. Includes readings about the Great Books concept, as well as various great books from the humanities, arts, and natural and social sciences. Preq: Sophomore literature (ENGL 207 or 208 strongly recommended).

G W 402, H402 Great Works of Science 3(3,0) Understanding of science in terms of its history and its approach to problem-solving through study of selected great works. Emphasis is on developing students' abilities to reflect on the problems and methodologies encountered in the scientific method.
Courses of Instruction

HLTH 310 Women’s Health Issues 3(3,0) Exploration of specific health needs of women, with emphasis on understanding and preventing problems of women’s health. Health majors and minors will be given enrollment priority. Preq: Two-semester sequence in science or consent of instructor.

HLTH 315 Social Epidemiology 3(3,0) Exploration of the current problems and issues associated with the health of population groups. The inter-relationships of biological, sociocultural, behavioral, environmental, political, and economic risk factors and the health and illness patterns of those in population groups are examined. Preq: HLTH 298, 380 or consent of instructor.

HLTH 320 Health Maintenance for Men 3(3,0) Exploration of specific health maintenance needs of men, with emphasis on understanding and preventing problems of men’s health. Health majors and minors will be given enrollment priority. Preq: Two-semester sequence in science or consent of instructor.

HLTH 340 Health Promotion Program Planning 3(3,0) Students develop skills to conduct community health needs assessments and to plan and evaluate theoretically grounded health promotion intervention programs for diverse populations. Best practices for specific health behavior change interventions are identified. Preq: HLTH 240, 298.

HLTH 350 Medical Terminology and Communication 3(3,0) Skills in building, analyzing, defining, pronouncing, and spelling medical terms related to the human body are developed and applied through electronic communication. Preq: Junior standing or consent of instructor.

HLTH (AP EC, C R D) 361 Introduction to Health Care Economics 3(3,0) See C R D 361.

HLTH 380 Epidemiology 3(3,0) Introduction to epidemiological principles and methods used in the study of the origin, distribution, and control of disease. Health majors and minors will be given enrollment priority. Coreq: Approved statistical course.

HLTH H395 Honors Research Seminar 3(3,0) Students review basic steps in the development of an honors research proposal and develop a draft of the proposal under the supervision of a faculty mentor. Students are also required to attend research presentations of senior departmental honors students. Preq: HLTH 380, Junior standing, statistics course, or consent of instructor.

HLTH 398 Health Appraisal Skills 1(0,3) Utilizes laboratory experiences to measure health risk, interpret laboratory health data, and design personal health programs. Restricted to Health Science majors. Preq: HLTH 298.

HLTH 400, 600 Selected Topics in Health 1-3(1-3,0) Topics selected to meet special and individualized interest of students in health. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Junior standing, consent of instructor.

HLTH 401, 601 Health Consumerism 3(3,0) Exploration of consumer decisions regarding health products and services emphasizing strategies for decision making. Health majors and minors will be given enrollment priority. Preq: Two-semester sequence in science or consent of instructor.

HLTH 402 Principles of Health Fitness 3(3,0) Students apply current theories concerning physiological effects of exercise to select new populations; understand the relationship between exercise and various chronic diseases; and design, execute, and evaluate exercise programs in terms of safety and effectiveness. Preq: HLTH 398, CPR certification. Coreq: BIOSC 223.

HLTH 410, 610 Maternal and Child Health 3(3,0) Focuses on key issues concerning the health status and needs of mothers and children. Topics include primary health care, measurement and indicators of health status, health of minorities, role of families, and major programmatic interventions towards the health needs of these two groups.

HLTH 411 Health Needs of High Risk Children 3(3,0) Analysis and evaluation of health needs of high-risk families and special needs children from the prenatal period to age six. Emphasizes health maintenance and early intervention strategies. Preq: HLTH 410.

HLTH 415, 615 Public Health Issues in Obesity and Eating Disorders 3(3,0) In-depth review of prevalence, risk factors, consequences, and treatments of obesity and other eating disorders. Focuses on the public health importance of cultural norms, prevention, and early intervention related to obesity and eating disorders. Preq: Junior standing in Health Science or consent of instructor.

HLTH 419 Health Science Internship Preparation Seminar 1(1,0) Preparation for internship experience. Includes topics such as resume development, interviewing skills, internship agency selection, and responsibilities of student, department, and agency. Preq: Junior standing in Health Science.

HLTH 420, 620 Health Science Internship 1-6(0-3-12) Under supervision in an approved agency, students have an opportunity for on-the-job experiences. Students are placed in an agency and develop personal/professional goals and objectives appropriate to the setting, population, and health issues. Students create a comprehensive exit portfolio in a digital format. May be repeated for a maximum of six credits. Preq: HLTH 419, minimum grade-point ratio of 2.0, Junior standing in Health Science, consent of instructor.

HLTH 430, 630 Health Promotion of the Aged 3(3,0) Focuses on analysis and evaluation of health issues and health problems of the aged. Emphasizes concepts of positive health behaviors. Health majors and minors will be given enrollment priority. Preq: Developmental psychology, two-semester sequence in science, or consent of instructor.

HLTH 431 Public and Environmental Health 3(3,0) Principles of environmental health emphasizing understanding various health concerns created by the interactions of people with their environment. Students evaluate the impact of environmental factors on public health policy decisions. Meets specific area of need in environmental health issues.

HLTH 440 Managing Health Service Organizations 3(3,0) Provides the conceptual and theoretical foundation of management and organizational theory of health service organizations. Focuses on the role of health services managers and how they modify and maintain organizations.

HLTH 450, 650 Applied Health Strategies 3(3,0) Students plan, implement, and evaluate strategies to promote health through individual behavior changes. Both healthful and unhealthful behaviors are included. Examples include smoking cessation, weight management, and stress management. Preq: HLTH 480, Health Science major.

HLTH 460 Health Information Systems 3(3,0) Focuses on the application of information systems to patient care and management support systems. Provides a general understanding of how the information needs of health professionals and health service organizations can be met through the proper acquisition, storage, analysis, retrieval, and presentation of data.

HLTH 470 International Health 3(3,0) Deepens students’ knowledge of global health and how public health work is conducted internationally. Introduction to assessment of international health needs and designing, implementing, managing, and evaluating public health programs in international settings. Preq: HLTH 298.

HLTH 475 Principles of Health Care Operations Management and Research 3(3,0) Provides a foundation in concepts, structure, and analysis that enables an understanding of the importance of production/operations management within health care organizations and systems. Includes training in operations research methods and objectives. Preq: HLTH 490.

HLTH 478 Health Policy Ethics and Law 3(3,0) Critical examination of the legal and ethical dimensions of public health policy formation and change and how legal, ethical, and policy considerations influence health services administration and delivery. Health majors and minors will be given enrollment priority. Preq: HLTH 202, 240, 298, 380 or consent of instructor.

HLTH 479 Financial Management and Budgeting for Health Service Organizations 3(3,0) Overview of basic principles of budgeting and financial management and analysis for health services organizations. Techniques for financial management are provided with an emphasis on health services environments. Preq: HLTH 440.

HLTH 480 Community Health Promotion 3(3,0) Focuses on the participatory approach in the planning and implementation of community health programs. Emphasizes professional ethics, needs assessment, coalition building, proposal writing, and implementation of special events in the community. Preq: HLTH 303, 340, 380, Health Science major.

HLTH 490 Research and Evaluation Strategies for Public Health 3(3,0) Discussion of research in health. Focuses on analysis of reported research. Ethical, moral, and legal issues are discussed. Preq: EX ST 301, MTHSC 203, or 301.

HLTH H495 Honors Thesis Seminar 3(3,0) Senior honors thesis seminar in public health sciences. Independent research is conducted under the supervision and guidance of a faculty mentor for students enrolled in departmental honors program in support of an honors thesis/service learning research project. Preq: HLTH H395, Senior standing, or consent of instructor.
Courses of Instruction

HIST 172, H172 Western Civilization 3(3,0) Political, economic, and social movements of Western civilization from ancient times to the 17th century.

HIST 173, H173 Western Civilization 3(3,0) Political, economic, and social movements of Western civilization from the 17th century to the present.

HIST 193 Modern World History 3(3,0) Political, economic, social, and cultural history of the modern world from the 19th century to the present.

HIST 198 Current History 1(1,0) Examination of major events and problem areas in the news emphasizing their historical context and possible long-range significance. May be repeated for a maximum of three credits. Does not count toward the requirements of the major or minor in History.

HIST 200 Fort Hill Internship 1-3 Provides practical experience in public history museum work and/or historical preservation in the setting of Fort Hill. May be repeated for a maximum of three credits. To be taken Pass/Fail only. Preq: Consent of internship committee.

HIST 201 Prelaw Internship 1-3 Faculty-supervised internship in a law firm or other legal setting. Introduces students to the workings of the legal system. To be taken Pass/Fail only. Preq: History major and sophomore standing.

HIST 202 Internship 1-3(3,9) Exposes History majors to hands-on experience in research, analysis, and public presentation of historical scholarship. May include working with faculty on research projects or museums, historical organizations, or sites. May be repeated for a maximum of three credits. To be taken Pass/Fail only. Preq: Sophomore standing.

HIST 289 Creative Inquiry—History 1-4(1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of nine credits.

HIST 299 Seminar: The Historian's Craft 4(3,2) Writing and speaking intensive course to introduce History majors to study of what history is and what a historian does, including historiography, research techniques, ethics of the historical profession, and forms of presentation. Preq: History major.

HIST 300 History of Colonial America 3(3,0) Development of American institutions and customs in the period before 1776. Considerable emphasis is placed on the imperial relations between Great Britain and her colonies and upon the movement towards and the philosophy of the American Revolution.

HIST 301 American Revolution and the New Nation 3(3,0) Study of the various historical explanations leading to an understanding of the American Revolution, the establishment of the Nation under the Constitution, and the first decade of the new nation. Special emphasis is on developing an understanding of individual motivation and ideological development present during the last four decades of the 18th century.

HIST 302 Age of Jefferson, Jackson, and Calhoun 3(3,0) Formation and growing pains of the new nation through the Federal and Middle periods of its history emphasizing economic and political development, the westward movement, and the conflicting forces of nationalism and sectionalism.

HIST 303 Civil War and Reconstruction 3(3,0) Study of the political, military, and social aspects of the sectional conflict and of the era of Reconstruction. Some emphasis is placed on the historical controversies which the period has inspired.

HIST 304 Industrialism and the Progressive Era 3(3,0) Study of American society in the period between the 1880s and 1930s. Emphasizes the effects of industrialization and urbanization on the American people.

HIST 305 The United States in the Jazz Age, Depression, and War: 1918–1945 3(3,0) Starting at Armistice Day, 1918, course analyzes the dawn of the ages of mass consumption and mass communication, the Crash of 1929, Franklin Roosevelt and the New Deal, the gathering war clouds in Europe and Asia, and the Great Crusade of World War II. Preq: Sophomore standing.
HIST 306 The United States in the Postwar Worlds: 1945–1975 3(3,0) Examination of the American experience from the end of World War II through the period of the Korean and Vietnam wars, the Cold War, the Civil Rights movement, the counter-culture of the 1960s, assassinations, and Watergate.

HIST 308 The United States in the Age of Reagan and Clinton: 1975–Present 3(3,0) The United States and the world in the recent era of economic and political upheaval, the end of the Cold War, the rise of the global economy and terrorism, social and cultural change, and deepening political and social divisions. Prq: Sophomore standing.

HIST 311 African Americans to 1877 3(3,0) Study of the African-American experience in the United States from the African past through slavery to 1877.

HIST 312 African American History from 1877 to the Present 3(3,0) Study of African American experience in the United States from 1877 to the present.

HIST 313, H313 History of South Carolina 3(3,0) Political, economic, and social development of South Carolina from 1670 to the present.

HIST 314 History of the South to 1865 3(3,0) Origins and development of political, social, economic, and cultural institutions of the South from the Colonial period to the end of the Civil War and the role of the South in the nation’s development.

HIST 316 American Social History 3(3,0) Study of American society, including the relationship among classes, ethnic groups, regions, and sexes, from the Colonial period to the present.

HIST 318 History of American Women 3(3,0) Survey course of the history of American women emphasizing the changing role of women in American culture and society.

HIST 319 Women and Law in United States History 3(3,0) Survey of the legal status of women throughout United States history. Emphasizes the relationship between legal rules and social conditions and the way in which law defined the status of women over time and helped change their status and rights.

HIST 321 History of Science 3(3,0) Survey of the development of science in the Western world, emphasizing the period from the Renaissance to the present.

HIST 322 History of Technology 3(3,0) History of the major developments in Western technology and their relationships to the societies and cultures in which they flourished.

HIST 323 History of American Technology 3(3,0) History of developments in technology and their role in American life with particular emphasis on the American Industrial Revolution and the 20th century.

HIST 324 History of the South, 1865 to the Present 3(3,0) Development of political, social, and cultural institutions of the South from the end of the Civil War to the present and the South’s relationship to the rest of the nation.

HIST 325 American Economic Development 3(3,0) Economic development of the United States from Colonial to recent times, emphasizing the institutional development of agriculture, banking, business and labor, and government regulations and policy.

HIST 326 History of American Transportation 3(3,0) Examines the principal forms of transportation in the United States from colonial times to the present, including water, road, canal, railroad, internal combustion, and air. Emphasizes technological developments and economic, geographic, and social impact of specific transport forms.

HIST 327 American Business History 3(3,0) Survey of the history of American business using a case-study approach. Focuses on the effects that policies and institutions have on individual businesses.

HIST 328 United States Legal History to 1890 3(3,0) Survey of American legal system in its historical perspective from Colonial times to 1890. Emphasizes the relationship between law and society, the way in which the practice of law changed American society, and the way in which social development affected both the theory and practice of the law.

HIST 329 United States Legal History Since 1890 3(3,0) Examination of the social, cultural, intellectual, economic, and political forces that have helped shape the law in the U.S. since 1890.

HIST 330 History of Modern China 3(3,0) Growth and development of Chinese civilization from ancient times to the present. Emphasis is on 20th century China, particularly since the rise to power of the Communist regime.

HIST 333 History of Modern Japan 3(3,0) Origin and development of Japanese civilization with particular emphasis on modern Japan from mid-19th century to the present.

HIST 334 Premodern East Asia 3(3,0) Introduction to histories of China and Japan, from antiquity to approximately 1850. Political, religious, economic, and social changes are examined and compared in order to gain significant insights regarding the premodern antecedents of these two dynamic and important nations.

HIST 337 History of South Africa 3(3,0) Examines the important trends in the history of South Africa from earliest times to the present. Topics include nature of precolonial society, European immigration, rise of industrial capitalism, advent of Apartheid, and the liberation struggle.

HIST 338 African History to 1875 3(3,0) Study of sub-Saharan Africa from antiquity to European colonial rule, exploring the development of Stone Age cultures; agricultural and pastoral societies; ancient civilizations; political, economic, and social systems; gradual shift of initiative from the interior to the coast; and various slave trades.

HIST 339 Modern Africa, 1875 to the Present 3(3,0) Study of sub-Saharan Africa from 1875 to the present, with the focus placed upon the development and decline of European imperialism, dilemmas of African independence, and ethnic struggles in Southern Africa.

HIST 340 Latin America: From Conquest to Independence 3(3,0) Examination of the encounters, collaborations, and clashes that characterized the conquest period and beyond in Latin America. Readings are assigned regarding the spiritual, biological, social, and political consequences of the meeting of Indians, Africans, and Europeans. Historical sources include images, artwork, letters, and memoirs.

HIST 341 Modern Mexico 3(3,0) Introduction to the geography of the region; origins and progress of the Independence movements; political, economic, and social developments after 1825; and current domestic and international problems.

HIST 342 South America Since 1800 3(3,0) Introduction to the geography of the region; origins and progress of the Independence movements; political, economic, and social developments after 1825; and current domestic and international problems.

HIST 351 Ancient Near East 3(3,0) History of the peoples and civilizations of the Near East from the Sumerians to the establishment of Roman power in this region. Includes geography, mythology, religious, and economic currents as well as the methods and discoveries of archaeology.

HIST 352 Egypt in the Days of the Pharaohs 3(3,0) Egyptian civilization from its beginning until the period of Roman conquest. Includes a survey of political history but also deals with daily life, making much use of archaeological evidence.

HIST 353 Women in Antiquity 3(3,0) Focuses on women in the ancient period in Mesopotamia, Israel, Egypt, Greece, Rome, and in the early Christian Church. Formation of gender roles and issues related to ancient sexuality also receive attention.

HIST 354 The Greek World 3(3,0) Study of Greek civilization from its beginning until the time of the Roman conquest, concentrating on the social institutions of the Greek city-states.

HIST 355 The Roman World 3(3,0) Considers the rise of Rome to world empire and the international civilization it dominated. Concentrates on the nature of the political change from Republic to monarchy with particular emphasis on city life and the causes of its decline.

HIST 361 History of England to 1688 3(3,0) Evolution of English political, social, economic, and cultural institutions to the 17th century. (Study Abroad)

HIST 363 Britain Since 1688 3(3,0) Study of political, cultural, social, economic, and imperial issues in the history of the British Isles from the late 17th century to the present.

HIST 365 British Cultural History 3(3,0) Examination of topics in British cultural history from the 17th century to the present. Emphasizes the 19th and 20th centuries.

HIST 367 Modern Irish History 3(3,0) Examines Irish history over the past four centuries, with particular attention to the 19th and 20th centuries. Irish political, social, economic, and cultural history, Anglo-Irish relations, and the Irish diaspora are considered.
HIST 370 Medieval History 3(3,0) Survey of the period from the eclipse of Rome to the advent of the Renaissance, emphasizing human migrations, feudalism, rise of towns, and cultural life.

HIST 372 The Renaissance 3(3,0) Examination of the transitional period of European civilization (ca. 1300–1500) emphasizing institutional, cultural, and intellectual developments.

HIST 373 Age of the Protestant Reformation 3(3,0) Evolution of Modern Europe (ca. 1500–1660), as affected by the Reformation, wars of religion, and growth of nation-states. Study includes intellectual advances and the beginnings of European expansion overseas.

HIST 374 Europe in the Age of Reason 3(3,0) Study of the quest for order and the consolidation of the European state system between 1660 and 1789 with emphasis on the idea of absolutism, the question of French hegemony, and the synthesis of the 18th-century Enlightenment.

HIST 375 Revolutionary Europe 3(3,0) History of Europe from the outbreak of the French Revolution through the Revolutions of 1848 emphasizing the conflict between the forces of change and those of conservatism, within the states and in Europe in general.

HIST 377 Europe, 1914–1945 3(3,0) Focuses on Europe during two major wars and the peace-time adjustments Europeans made, or failed to make, during the twenty-year interim between those wars.

HIST 378 Europe Since 1945 3(3,0) Focuses on how World War II completed the destruction of European global hegemony, creating a bipolar continent with the west dominated by the United States and the east by Soviet Russia, and how Europe adjusted to this situation.

HIST 380 Imperial Germany 3(3,0) German history from the beginning of the German Empire, 1870–71, through World War I. Emphasizes the influence of militarism, nationalism, anti-Semitism, and xenophobia on the German culture and political process.

HIST 381 Germany Since 1918 3(3,0) German history from the time of Germany’s defeat in World War I, through the Nazi period and World War II. Culminates with the study of a divided Germany.

HIST 384 History of Modern France 3(3,0) French history from mid-19th century to the present with particular emphasis on France since 1900.

HIST 385 History of Imperial Russia 3(3,0) Survey of the formative years of the Russian Empire from the time of accession of Peter the Great to the time of the Russian Revolution. Social, political, diplomatic, and intellectual developments are given equal treatment.

HIST 386 History of the Soviet Union 3(3,0) Soviet history from the revolution to the present. Surveys the creation and subsequent development of the communist political and social system, with attention given to culture and diplomacy.

HIST 387 The Russian Revolution 3(3,0) History of one of the most formative series of events of the 20th century. Follows the crisis of Imperial Russia, its downfall during World War I, and subsequent revolutionary upheaval leading to the formation of the USSR.

HIST 390 Modern Military History 3(3,0) Survey of the development of modern warfare and the influence of technological change on warfare. Particular attention is given to the major conflicts of the 20th century.

HIST 391 Post World War II World 3(3,0) Examines the world in the age of the Cold War; the breakdown of the colonial empires; and racial, religious, ethnic, national, and social tensions. The United States provides the central core to the class.

HIST 392 History of the Environment of the United States 3(3,0) Examination of the historical development of the attitudes, institutions, laws, people, and consequences that have affected the environment of the United States from pre-Columbian days until the present. Emphasizes the interaction of human beings within and with the environment.

HIST 393 Sports in the Modern World 3(3,0) Analysis of the global evolution and diffusion of sports in the industrial age emphasizing the linkage of sports structure and performance to the larger social context.

HIST 394 Non-Western History 3(3,0) Examines the important trends in world history since 1500—including capitalism, industrialization, nationalism, migration, and imperialism—with a focus on non-Western regions. Prq: HIST 173.

HIST 396 History of the Middle East 3(3,0) Examines the historical, cultural, and societies of the Middle East from late antiquity to the present day.

HIST 397 Modern Middle East 3(3,0) Examines the histories, cultures, and societies of the Middle East from the 18th century to the present day with particular emphasis on contemporary issues.

HIST 400, 400 Studies in United States History 3(3,0) Topics and problems in the history of the United States from the Colonial era to the present. May be repeated once for credit with departmental consent.

HIST 409 Kennedy Assassination and Watergate 3(3,0) Journey into the underbelly that examines the diverse elements of national security, divisive politics, the Cold War and Cuba, FBI, CIA, the mob, fanaticism, anomic, and threats to the stability of the republic that seem to have come together in Dallas in 1963 and in Watergate. Prq: Junior standing.

HIST 420, 620 History and Film 3(2,3) Analyzes the role of the cinema in the construction and dissemination of history. May be repeated once for credit with departmental consent.

HIST 424, 624 Topics in History of Medicine and Health 3(3,0) Selected topics in the development of medicine and health care including public attitudes towards health and medicine.

HIST 436, 636 The Vietnam Wars 3(3,0) Wars in Vietnam are seen in two phases. The First Indochina War, 1946–54, is covered briefly. Main body of the course covers the Second Indochina War, which began as a guerrilla conflict in 1959–60 and ended as a mostly conventional war in the Communist victory of 1975.

HIST 438, 638 Problems in African Historiography and Methodology 3(3,0) Concentrates on major issues in the field of African history with an additional focus on methodological concerns. May be repeated once for credit with departmental consent.

HIST 440, 640 Studies in Latin American History 3(3,0) Consideration of selected and varied topics in Latin American history through readings, discussions, and individual or group projects. Special attention is given to the use of an inquiry or problem-solving method of historical analysis and to the cultivation of a comparative perspective. May be repeated once for credit with departmental consent.

HIST 451, 651 Alexander the Great 3(3,0) Focuses on the career of Alexander the Great and deals with the history and archaeology of ancient Macedonia.

HIST 460, 646, 660 Studies in British History 3(3,0) Examination of selected themes, topics, or periods in British history from Anglo-Saxon times to the present. May be repeated once for credit with departmental consent.

HIST 470, 670 Studies in Early European History 3(3,0) Study of selected topics or themes in European history from the fall of the Roman Empire to the age of industrialization. May be repeated once for credit with departmental consent.

HIST 471, 671, 671 Studies in Modern European History 3(3,0) Study of selected topics or problems in European history from the end of the Old Regime to the present. May be repeated once for credit with departmental consent.

HIST 490 Senior Seminar 3(3,0) Seminar in current research themes in history. Students conduct directed research on a particular topic and learn research, writing, and oral presentation techniques. Seminar topics vary from section to section and from semester to semester. Prq: History major, Senior standing, and HIST 299 with a C or better.

HIST 491, 691, 691 Studies in the History of Science and Technology 3(3,0) Selected topics in the development of science and technology emphasizing their social, political, and economic effects. May be repeated once for credit with departmental consent.

HIST 492, 692 Studies in Diplomatic History 3(3,0) Selected topics and problems in international conflict and conflict resolution among nations. Concentration is usually in 20th-century history. May be repeated once for credit with departmental consent.

HIST 493, 693 Studies in Social History 3(3,0) Studies in the ways people have earned their livings and lived their lives, individually and as communities, in the confines of different societies. May be repeated once for credit with departmental consent.

HIST 494, 694 Studies in Comparative History 3(3,0) Selected topics in comparative history, contrasting and comparing similar historic developments in different nations, geographic areas, or civilizations. May be repeated once for credit with departmental consent.
HORT 400 Selected Topics 1-6(1-6,0) Advanced study of any aspect of horticulture and/or turfgrass not addressed in other courses. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Junior standing or consent of instructor.

HORT 406, 606 Nursery Technology 3(2,3) Principles and techniques in handling nursery crops. Preq: HORT 303, 305.

HORT 408 Horticulture Discovery and Inquiry 1-90(3-18) Students learn about horticulture through research, service learning, and/or creative inquiry projects. They explore a topic of interest with faculty, organize a quality proposal, complete the project, and report results to appropriate professional audiences. Preq: Junior standing or consent of instructor.

HORT 409 Seminar 1(1,0) Recent research work on various phases of horticulture, methods of conducting investigations, and preparation of report of investigations.

HORT 412, 612 Advanced Turfgrass Management 3(2,3) Advanced principles and practices associated with turfgrass management for golf courses, sports fields, sod production, and commercial lawn care. Topics include turfgrass physiology, plant growth and development, construction, turfgrass nutrition, irrigation, drainage, pesticide use and fate, and development of effective management systems. Preq: CSENV 202, HORT 212, or consent of instructor.

HORT 420, 620 Applied Turfgrass Physiology 3(3,0) Advanced course in turfgrass science and management. Provides the current status and development of turfgrass stress physiology and research. Main topics include temperature, drought, traffic, edaphic stresses, new developments in the turf industry and environmental stewardship. Preq: HORT 212, 213.

HORT (FOR) 427, 627 Urban Tree Care 3(3,0) See FOR 427.

HORT (CSENV) 433, 633 Landscape and Turf Weed Management 3(2,2) Weed management strategies that include cultural, biological, and chemical methods are studied for landscape and turfgrass areas. Problem-solving skills and herbicide characteristics are emphasized. Preq: HORT 212 or consent of instructor.

HORT 455, 655 Just Fruits 3(3,0) Students explore the origins, biology, culture, and production of major temperate zone fruits—apples, berries, and cherries to pawpaws, peaches, and pomegranates, the familiar to the forbidden. They discover principles, practices, and technologies employed to grow, protect, and harvest the fruits that feed us from commercial orchards, organic farms, and backyards. Preq: HORT 301 or consent of instructor.

HORT 456, 656 Vegetable Crops 3(3,0) Principles and practices employed in commercial growing and marketing of vegetable crops with emphasis on plant characteristics, cultivars, management practices, harvest, quality factors and grading, storage, economic importance, and areas of production.
INDUSTRIAL ENGINEERING

Professors: A. K. Gramopadhye, Chair; W. G. Ferrall, D. L. Kimbler, S. A. Shappell; Associate Professors: R. B. Cho, Jr., J. S. Greenstein, B. J. Melloy; Assistant Professors: M. E. Kurz, M. E. Mayorga, K. M. Taaffe

I E 201 System Design I 4(3,3) Introduction to the design of industrial engineering systems. Design methodologies are introduced in the context of a design process that includes identifying user needs; developing a design specification; generating, evaluating, refining, and selecting design concepts; detail design; constructing, testing, and refining prototypes; and delivering the product to the customer. Preq: CES 102, ENGL 103.

I E 210 Design and Analysis of Work Systems 4(3,3) Workplace design, ergonomics of workplace design, performance measurement, and methods engineering are discussed.

I E 220 Design of Information Systems in Industrial Engineering 3(3,0) Introduction to Visual Basic and object-oriented programming principles, databases, and software applications of human-centered system design.

I E 268 Creative Inquiry Seminar 1(1,0) Students are introduced to creative inquiry methods, resources, and current activities in a seminar format. To be taken Pass/Fail only.

I E 280 Methods of Operational Research I 3(3,0) Introduction to operations research models, including linear programming, integer linear programming, transportation, and assignment problems, and network flows. Preq: MTHSC 106.

I E 300 Junior Honors Seminar 1(1,0) acquaints students interested in the Departmental Honors Program with current research issues in the profession. Taught by students preparing a research proposal for the seminar thesis. Preq: Junior standing, admission to Departmental Honors Program.

I E 360 Industrial Applications of Probability and Statistics 3(3,0) Axioms of probability, discrete and continuous distributions, and sampling distributions applied to industrial engineering applications. Engineering applications of statistical estimation, hypothesis testing, and confidence intervals. Preq: MTHSC 206.

I E 361 Industrial Quality Control 3(3,0) Quality engineering techniques focusing on process control using statistical methods including control charts and acceptance sampling. Preq: I E 360.

I E 368 Professional Practice in Industrial Engineering 1(1,0) Seminar to orient students to issues of professional development and professional practice of industrial engineering.

I E 381 Methods of Operational Research II 3(3,0) Probabilistic modeling of engineering systems. Topics include calculus-based probability, decision analysis, Markov processes, queueing, and reliability. Preq: I E 280, 360.

I E 386 Production Planning and Control 3(3,0) Fundamentals of forecasting demand, scheduling production, and controlling the movement and storage of material associated with production are studied. State-of-the-art manufacturing techniques are discussed. Preq: I E 280; CP SC 161 or I E 220.

I E 400, 600 Honors Thesis 1-6(1-6,0) Individual or joint research project performed with a faculty mentor or committee of faculty. May be repeated for a maximum of nine credits. Preq: I E H350 or consent of mentor.

I E 402 Creative Inquiry Projects 1-3(1-3,0) Project-oriented experience promoting reasoning, critical thinking, ethical judgment, communication skills, and an understanding of the scientific method and engineering design. Typical experiences include design projects, service-learning activities, and applied/basic research, usually undertaken with a team under the mentorship of a faculty member or advanced graduate student. May be repeated for a maximum of nine credits. Preq: I E 268 and consent of mentor.

I E 430, 640 Decision Support Systems in Industrial Engineering 4(3,2) Study of design of decision support systems for production and service systems based on operations research models. Includes use of spreadsheets, databases, and integrated software development environments to implement decision support systems. Preq: I E 280; CP SC 161 or I E 220.

I E (MGT) 444 International Perspectives in Industrial Management 1-6(1-6,0) See MGT 444.

I E 456, 656 Supply Chain Design and Control 3(3,0) Industrial engineering aspects of supply chains including design and control of material and information systems. Preq: I E 386.

I E 457, 657 Transportation and Logistics Engineering 3(3,0) Introduces transportation and logistics systems analysis from both analytical and practical perspectives. Covers methods for identifying level-of-service metrics and measuring system performance. Discusses key aspects of modeling, simulation, and other techniques for economic and quantitative analysis of transportation and logistics planning issues. Preq: Senior standing in engineering, science, or management program.

I E 460, 660 Quality Improvement Methods 3(3,0) Study of modern quality improvement techniques presented in an integrated, comprehensive context. Preq: Junior standing.

I E 461, 661 Quality Engineering 3(3,0) Design aspects of quality and the engineer’s role in problems of quality in production systems. Preq: I E 360.
INTEGRATED PEST MANAGEMENT

Professor: B. G. Bellinger

I P M 401, 601 Principles of Integrated Pest Management 3(3,0) Origins, theory, and practice of integrated pest management. Relationships among crop production and protection practices are explored. Economics of various control strategies are considered. Integrated pest management field projects are studied. Conventional and integrated pest management approaches are compared. Multidisciplinary plant problem analysis is introduced. Preq: CSENV 407, ENT 301, PL PA 310, or consent of instructor.

INTERNATIONAL STUDIES

I 210 Selected Topics in International Studies 3(3,0) Topics in cross-cultural awareness and intercultural communications are studied in situa as part of a study abroad program. Addresses the impact of culture on behavior in intercultural contact in professional and personal contexts. May be repeated for a maximum of six credits, but only if different topics are covered.

ITALIAN

Professor: B. M. Zaccele; Lecturer: L. Barattoni

ITAL 101 Elementary Italian 3(3,0) Introductory course stressing grammar, pronunciation, oral practice, and reading skills. Attention is given to practical everyday living as well as cultural considerations. Preq: Junior standing.

ITAL 201 Intermediate Italian 3(3,1) Continuation of ITAL 101. Preq: ITAL 101 or consent of instructor.

ITAL 202, H201 Intermediate Italian 3(3,1) Intermediate course to build on the foundation of previous language courses, with practice in listening, speaking, reading, and writing. Introduction to cultural perspectives through readings of literary verse selections. Preq: ITAL 102.

ITAL 202, H202 Intermediate Italian 3(3,1) Increasingly difficult readings in Italian literature, supplemented with classroom discussions and compositions. Preq: ITAL 201.

ITAL 297 Creative Inquiry—Italian 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

ITAL 301 Introduction to Italian Literature 3(3,0) Study of selected texts of Italian literature in their artistic, cultural, and social context. May include theme and genre studies. Preq: ITAL 202 or consent of department chair.

ITAL 302 Modern Italian Literature 3(3,0) Study of selected works from major 19th- and 20th-century Italian authors, including Manzoni, Verga, Svevo, Moravia, Ginzburg. Preq: ITAL 202 or consent of department chair.

ITAL 305 Intermediate Italian Conversation and Composition 3(3,0) Practice in the written and spoken language with emphasis on vocabulary, pronunciation, and comprehension. Preq: ITAL 202 or consent of department chair.

ITAL 307 Italian Civilization and Culture 3(3,0) Study of the significant aspects of Italian civilization and culture through analysis of literary texts, paintings, films, and magazine articles. Preq: ITAL 202 or consent of department chair.

ITAL 397 Creative Inquiry—Italian 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

ITAL 398 Directed Reading 1-3(1-3,0) Directed study of selected topics in Italian literature, language, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

ITAL 400 Image of an Italian City 3(3,0) Study of historical, social, and architectural images of Italian cities through analysis of literary texts and films. Preq: ITAL 202 or consent of instructor.

ITAL 497 Creative Inquiry—Italian 1-4(1-4,0) Continuation of research initiated in ITAL 397. Students complete their project and disseminate their research results. Preq: ITAL 397 or consent of instructor.

ITAL 498 Selected Topics 3(3,0) Study of selected topics in Italian literature, language, and culture. Taught in Italian. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of department chair.

JAPANESE

Associate Professors: T. Kishimoto, E. L. Williams; Lecturers: M. Shimura, I. Tokunaga

JAP 101 Elementary Japanese 3(3,1) Course for beginners in which fundamentals are taught and a foundation is provided for further study and the eventual ability to read and speak the language. The Japanese writing system is introduced. Students learn how to recognize and write the two alphabets Hiragana and Katakana. Three hours a week in the language laboratory.

JAP 297 Creative Inquiry—Japanese 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.
Courses of Instruction

JAPN 303 Intensive Conversation and Composition in Japan 3(3,0) Study of Japanese with native instructors at a university in Japan. All coursework conducted in Japanese. May be repeated for a maximum of six credits. Preq: JAPN 202 or consent of instructor.

JAPN 305 Japanese Conversation and Composition 3(3,0) Practice in the spoken language with emphasis on vocabulary, Kanji, pronunciation, and comprehension; learning practical language skills and intercultural communication through various topics. Preq: JAPN 202 or consent of department chair.

JAPN 306 Japanese Conversation and Composition 3(3,0) Continuation of JAPN 305. More practice in the spoken language emphasizing vocabulary, Kanji, pronunciation, and comprehension. Learning practical language skills and intercultural communication through various topics. Preq: JAPN 305 or consent of department chair.

JAPN 307 Japanese Civilization I 3(3,0) Study of the significant aspects of the culture of Japan. Preq: JAPN 202 or consent of department chair.

JAPN 308 Japanese Civilization II 3(3,0) Study of significant aspects of the culture of Japan. Preq: JAPN 202 or consent of department chair.

JAPN 316 Japanese for International Trade I 3(3,0) Spoken and written Japanese common to the Japanese-speaking world of business and industry emphasizing business practices and writing and translating business letters and professional reports. Cross-cultural references provide opportunity for comparative and contrastive analysis of American and Japanese cultural patterns in a business setting. Preq: JAPN 306 or consent of department chair.

JAPN 397 Creative Inquiry—Japanese 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic. Preq: Consent of department chair.

JAPN 398 Directed Reading 1-3(1-3,0) Directed study of selected topics in Japanese literature, language, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

JAPN 401 Japanese Literature in Translation 3(3,0) Introduction to Japanese literature from 712 AD to the present. Cultivates an appreciation for Japanese literature and culture. All readings and discussions are in English. May not be used to satisfy general foreign language requirements.

JAPN 403 Internship in Japan 3(3,0) Minimum of one month of full-time work experience in Japan. All work activities with host companies are conducted in Japanese. May be repeated for a maximum of six credits. Preq: JAPN 202 or consent of instructor.

JAPN 404 Cultural Studies in Japan 3(3,0) Study of Japanese cultural topics on site in Japan through lectures, field trips, small student group reconnaissance excursions, and reporting sessions. All activities are conducted in Japanese. May be repeated for a maximum of six credits. Preq: JAPN 202 or consent of instructor.

JAPN 406 Introduction to Japanese Literature 3(3,0) Students read contemporary Japanese narrative fiction, poetry, and drama in their historical and social context. Preq: 300-level Japanese course or consent of department chair.

JAPN 411 Studies in the Japanese Language I 3(3,0) Advanced training in the spoken and written language with emphasis on formal expressions. Preq: JAPN 306 or consent of department chair.

JAPN 412 Studies in the Japanese Language II 3(3,0) In-depth study of Kanji characters. Preq: JAPN 411 or consent of department chair.

JAPN 416 Japanese for International Trade II 3(3,0) Study of language and cultural environment of the Japanese-speaking market, including the linguistic and cultural idioms which support global marketing in general and the international marketing of textiles, agricultural products, and tourism in particular. Preq: JAPN 316 or consent of department chair.

JAPN (ANTH) 417 Japanese Culture and Society 3(3,0) Focuses on basic themes in Japanese culture found in social interaction and ritual behavior. Japanese social organization, including marriage and family patterns, neighborhood and community organization, and gender roles receive extensive attention. All readings and discussions are in English. May not be used to satisfy general foreign language requirements.

JAPN 490 Classical Japanese 3(3,0) Examination and analysis of premodern Japanese texts. Special emphasis is on the grammar and syntax of the classical language, its divergence from and influence upon the modern idiom. All coursework is conducted in Japanese. Preq: JAPN 306 or consent of instructor.

JAPN 491 Senior Seminar in Japanese Literature 3(3,0) Close readings of various works of premodern and modern Japanese literature. Includes study of important authors and their representative works in prose and poetry. Familiarizes students with the cultural and linguistic nuances of literature in the original language. All readings and activities are in Japanese. Preq: JAPN 306.

JAPN 497 Creative Inquiry—Japanese 1-4(1-4,0) Continuation of research initiated in JAPN 397. Students complete their project and disseminate their research results. Preq: JAPN 397 or consent of instructor.

JAPN 499 Selected Topics in Japanese Culture 3(3,0) Topic-generated examination of fundamental cultural themes in premodern and modern Japan, including, but not limited to, such topics as Japanese drama, poetry, prose, religious traditions, cinema, and folklore/mythology. May be repeated for a maximum of six credits, but only if different topics are covered. Readings and discussions are in English. May not be used to satisfy general foreign language requirements.

LANDSCAPE ARCHITECTURE

Professors: F. E. Chamberlain, D. L. Collins, D. J. Nadenick, Chair; Associate Professor: S. Birmill, U. Yilmaz; Assistant Professor: C. L. Goetheus; Visiting Assistant Professor: R. R. Hewitt; Lecturers: R. W. Bainbridge, C. L. K. Martin

LARCH 103 Landscape Architecture Portfolio I 1(1,0) First of two one-credit portfolio courses. Students learn basics of a digital portfolio as a record of academic achievement and the specific use of a portfolio in landscape architecture. Preq: Landscape Architecture major or consent of instructor.

LARCH 116 History of Landscape Architecture 3(3,0) History of design on the land from prehistoric to the present. Overview of the interface of aesthetics, science, technology, and natural features that influence cultures in shaping places.

LARCH 128 Technical Graphics 3(2,2) Introduction to rendering techniques, plan graphics, 3-D projection drawings, drafting skills, perspective drawing, and overview of computer graphics. Preq: Landscape Architecture major.

LARCH 151 Basic Design I 3(0,6) Studio introduction to design fundamentals through 2-D and 3-D application of basic systems and development of attitudes essential to the creative design process. Preq: Landscape Architecture major. Coreq: LARCH 153.

LARCH 152 Basic Design II 3(0,6) Further investigations into design fundamentals through 2-D and 3-D application of basic systems and development of attitudes essential to the creative design process. Preq: LARCH 151. Coreq: LARCH 154.

LARCH 153 Landscape Architecture Design Theory I 1(1,0) Lecture course on the underlying theories of design and visual perception that constitute the language of design. Topics include conceptual thinking and problem solving, visual communication, and interaction between design elements and principles. Preq: Landscape Architecture major. Coreq: LARCH 151.

LARCH 154 Landscape Architecture Design Theory II 1(1,0) Second in a series of lecture courses on the underlying theories of design and visual perception that constitute the language of design and landscape architecture. Topics include light and value perception, color theories, basic perspective systems. Preq: LARCH 151, 153. Coreq: LARCH 152.

LARCH 199 Creative Inquiry—Landscape Architecture I 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration.

LARCH 251 Landscape Architecture Design Fundamentals 6(1,10) Development of compositional skills introduced in LARCH 151 and 152 applied to design in the landscape. Through design projects, readings, and discussion, students derive and apply design principles to place, study the processes and styles of design, and develop an understanding of design types. Preq: LARCH 152 or consent of instructor.
Courses of Instruction

LARCH 252 Site Design in Landscape Architecture 6(1,10) Students engage in real site design projects. They carry forward lessons from LARCH 251 and consider the material qualities and details of their designs. Also included are participatory and social behavioral aspects of design. Readings and seminar discussions are emphasized. Preq: LARCH 251 or consent of instructor.

LARCH 262 Design Implementation I 4(2,4) Basics of landscape architecture construction, methods, and construction documents including site information gathering and analysis, basic site grading and drainage, cut and fill, and principles of storm water management. Includes explorations in hand and computer graphic techniques used in construction drawings. Preq: Sophomore standing or consent of instructor.

LARCH 293 Field Studies Internship 1-3(0,3-9) Skill-based practical work experience to give beginning students on-the-job learning opportunities. Requires a minimum of five weeks of uninterrupted, supervised, practical experience with a preapproved commercial firm or public agency dealing with landscape architectural site issues. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Preq: Consent of instructor.

LARCH 299 Creative Inquiry—Landscape Architecture II 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. Preq: LARCH 199.

LARCH 351 Regional Design and Ecology 6(1,10) Study and analysis of natural and cultural landscapes at the regional scale. Introduction of landscape ecology as an informant to design. Basic overview of geographic information systems. Regional and ecological issues are applied in a final site design. Also includes relevant readings, discussion, and writing. Preq: LARCH 252 or consent of instructor.

LARCH 352 Urban Design Studio 6(1,10) Landscape architectural design in the urban context. Students study urban issues and offer design solutions for urban areas. Includes a readings and theory component as well as an opportunity to collaborate with architecture students. Preq: LARCH 351 or consent of instructor.

LARCH 362 Design Implementation II 4(2,4) Advanced study in construction documents and methods including road alignment, complex site grading, and storm water management. Exploration of characteristics, strengths, nominal sizes, and uses of materials (brick, concrete, stone, wood). Includes field trips, exercises, and preparation of construction documents. Students gain an understanding of how design ideas are realized in form. Preq: LARCH 262 or consent of instructor.

LARCH 399 Creative Inquiry—Landscape Architecture III 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. Preq: LARCH 299.

LARCH 405, 605 Urban Genesis and Form 3(3,0) Exploration of urban forms and developments within their historical context through off-campus, on-site lectures and exposure to historic cities and sites. Students visit historic and contemporary cities and analyze those places through readings and direct observations. Offered Maymester only. Preq: LARCH 252 or consent of instructor.

LARCH 413 Professional Development 3(2,2) Study of the various employment opportunities in the profession through a series of organized and intensive lab-based workshops with professionals and discussions of business law and operating procedures. In-depth exploration of one realm of practice. Preq: Landscape Architecture major or consent of instructor.

LARCH 418 Off-Campus Study Seminar 1(1,0) Students study various cultural and environmental factors to inform and enhance their off-campus experiences in Istanbul, Barcelona, Genoa, or Charleston. Preq: Landscape Architecture major or consent of instructor.

LARCH 419 Off-Campus Field Study 3(3,0) Intensive study of place in an off-campus setting as context for design. Numerous class trips to significant sites in the area of the off-campus programs. Bus trips to distant sites are also planned. Preq: LARCH 451 or consent of instructor.

LARCH 421 Landscape Architectural Seminar 3(3,0) Lectures and seminars dealing with pertinent topics related to environmental, technological, and theoretical issues in landscape architecture, land planning, and urban design. May be repeated for a maximum of six credits. Preq: Senior standing or consent of instructor.

LARCH 423, 623 Environmental Issues in Landscape Architecture 3(3,0) Overview of environmental, ecological, and social behavioral aspects of design. Readings of their designs. Also included are participatory and social behavioral aspects of design. Readings and seminar discussions are emphasized. Preq: LARCH 251 and consider the material qualities and details of their designs. Also included are participatory and social behavioral aspects of design. Readings and seminar discussions are emphasized. Preq: LARCH 251 or consent of instructor.

LARCH 428 Landscape Architecture Computer-Aided Design 3(2,2) Introduces students to the use of computer technology in the landscape architectural design process. Covers the basics of computer applications used in the industry for conceptualizing, drafting, modeling, and graphic communications. Preq: Landscape Architecture major or consent of instructor.

LARCH 433, 633 Historic Preservation in Landscape Architecture 3(3,0) Study of historic landscape preservation in a number of contexts including gardens, vernacular landscapes, parks, cemeteries, and battlefields. Preq: LARCH 452 or consent of instructor.

LARCH 438 Advanced Computer-Aided Design 3(2,2) Advanced study in computer-aided design for students wishing to develop their skills beyond LARCH 428. Students develop advanced skills in illustrative drawings, construction drawings, desktop publishing, and other computer-based applications. Preq: LARCH 428 or consent of instructor.

LARCH 443, 643 Community Issues in Landscape Architecture 3(3,0) In-depth study of issues relevant to community design. Overview of physical design and related social issues. Preq: LARCH 452 or consent of instructor.

LARCH 451 Community Design Studio 6(1,10) Studio focused on the study and design of communities. Students design a mixed-use parcel on a large tract of land. Includes readings and a theory component. Preq: LARCH 352 or consent of instructor.

LARCH 452 Off-Campus Studio 6(1,10) Off-campus landscape architecture studio in Istanbul, Charleston, Genoa, or Barcelona. Preq: LARCH 451 or consent of instructor.

LARCH 453, 653 Key Issues in Landscape Architecture 3(3,0) Overview of research in landscape architecture and study of relevant research methods. Students write proposals for their own projects positioned within the larger context of research in the profession. Preq: Fifth-year Landscape Architecture student or consent of instructor.

LARCH 462 Landscape Architectural Technology III 3(2,2) Advanced overview of construction materials and methods used in project implementation. Study characteristics, strengths, nominal sizes and uses of materials (asphalt, brick, concrete, stone, wood). Field trips, exercises, and preparation of construction documents develop understanding of how design ideas are realized in built form. Preq: LARCH 362.

LARCH 490 Directed Studies and Projects in Landscape Architecture 1-5(1-5,0) Comprehensive studies and/or research of special topics not covered in other landscape architecture courses. May be repeated for a maximum of ten credits. Preq: Consent of instructor.

LARCH H491 Honors Research Methods for Landscape Architecture 1-3(1-3,0) Students investigate various research methodologies in landscape architectural design or related areas and apply to student generated project(s). Students generate a proposal for Landscape Architecture Honors Research. Preq: Junior standing; membership in Calhoun Honors College, consent of Department Honors Program Advisor.

LARCH H493 Professional Office Internship 1-3(0,3-9) Office experience for advanced students. On-the-job learning requires a minimum of five uninterrupted sequential weeks of employment under the direct supervision of a preapproved registered landscape architect, architect, urban planner, or civil engineer. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Preq: LARCH 352, 362, consent of instructor.

LARCH H494 Landscape Architecture Honors Research 2-3(2-3,0) Independent, student-generated research on a preapproved topic conducted under the supervision and weekly guidance of a faculty member. Second in a sequence of three required courses for students enrolled in Departmental Honors Program. Written interim report and presentation to faculty and honors students are required before the end of the semester. May be repeated for a maximum of six credits. Preq: LARCH H491, membership in Calhoun Honors College.
LANG 297 Creative Inquiry—Language 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

LANG 300 Introduction to Linguistics and Foreign Language Learning 3(3,0) Introduction to the field of linguistics, including the study of phonetics, phonology, morphology, syntax, and semantics. Includes discussion of issues pertaining to foreign language acquisition.

LANG 303 Study Abroad Transfer 3-6(3-6,0) Course for credit transfer of any course taken abroad during a department-approved study. Requires a minimum of two contact hours per week for at least 15 weeks or equivalent. Students may take a course outside their concentration. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Preq: Consent of department chair.

LANG 340 Cosmopolis: The Myth of the City 3(3,0) Cross-cultural inquiry into the idea of the city through literary, political, and philosophical texts as well as film and architecture. Preq: Junior standing or consent of instructor.

LANG 342 Sacred and Profane Bodies 3(3,0) Cross-cultural inquiry into the ambivalence surrounding female sexuality implicit in images of women and, in particular, the division of women into "earthly" and "divine" categories. Preq: Junior standing or consent of instructor.

LANG 346 Walking and the Road 3(3,0) Cross-cultural inquiry into the epistemological, political, and aesthetic questions generated by walkers and the roads they travel in literature, philosophy, and film. Preq: Junior standing or consent of instructor.

LANG 348 The Child and the Adolescent 3(3,0) Cross-cultural inquiry into important theoretical questions of personal and political identity raised by the figure of the child and the adolescent in literature and film. Preq: Junior standing or consent of instructor.

LANG 397 Creative Inquiry—Language 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

LANG 400, 600 Phonetics 3(3,0) Study of basic phonetic concepts used in the study of sounds in language.

LANG 401 China Study Abroad 3(3,0) Six-week intensive summer course on Chinese culture offered in China. Main topics include origin and history of Chinese language, Chinese nationalities, geography, architecture, arts, and social custom. All readings and discussions are in English. May be repeated for a maximum of six credits.

LANG 420, H420 France and the Francophone World 3(3,0) Selected masterpieces of French and Francophone Culture are considered within their historical and cultural context. All readings and instruction are in English. No knowledge of the foreign language is required. May be repeated for a maximum of six credits. Preq: Sophomore standing or consent of department chair.

LANG 450 Risk and Danger 3(3,0) Cross-cultural inquiry into the meanings of risk and danger as they are articulated in various literary and philosophical texts and films about gambling, duels, bullfights, wilderness adventure, and smoking. Preq: Junior standing or consent of instructor.

LANG (ENGL) 454 Selected Topics in International Film 3(2,3) Presents subtitled films of specific world cultures and basic film theory and discourse applicable to the selected areas. Taught in English. May be repeated for a maximum of six credits with consent of department chair. Preq: ENGL 310 or consent of instructor.

LANG 455 Hispanic Film: Documentary and Feature 3(3,0) Overview of theory and discourse on Hispanic film. Through lectures, discussions, and films, students become acquainted with film as a vehicle for understanding the Hispanic World. Taught in English. Films are in Spanish with English subtitles. Preq: Sophomore standing or consent of department chair.

LANG 460 Propaganda and the Totalitarian Recreation of the World 3(3,0) Cross-cultural inquiry into the various languages (philosophical, political, literary, and filmic, among others) that form a crucial weapon in the striving for hegemony over desire that marks the modern totalitarian project. Preq: Junior standing or consent of instructor.

LANG 462 Borders 3(3,0) Cross-cultural inquiry into representations of physical and non-physical borders. Provides a theoretical framework in which various forms of borders, limits, and boundaries can be studied through literature and other artistic media. Preq: Junior standing or consent of instructor.

LANG (PO SC) 485, 685 Global Affairs and Governments 3(3,0) See PO SC 485.

LANG 497 Creative Inquiry—Language 1-4(1-4,0) Continuation of research initiated in LANG 397. Students complete their project and disseminate their research results. Preq: LANG 397 or consent of instructor.
LANGUAGE AND INTERNATIONAL HEALTH

L&IH 297 Creative Inquiry—Language and International Health 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

L&IH 397 Creative Inquiry—Language and International Health 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

L&IH 497 Creative Inquiry—Language and International Health 1-4(1-4,0) Continuation of research initiated in L&IH 397. Students complete their project and disseminate their research results. Preq: L&IH 397 or consent of instructor.

LATIN

LATIN 101 Elementary Latin 4(4,0) Course for beginners designed principally to teach the reading of the language.

LATIN 102 Elementary Latin 4(4,0) Continuation of LATIN 101.

LATIN 201 Intermediate Latin 3(3,0) Review of the fundamental principles of grammar in conjunction with readings from the Classical period. Preq: LATIN 102 or equivalent.

LATIN 202 Intermediate Latin 3(3,0) Continuation of LATIN 201 with the introduction of writings from the late Latin and Medieval periods. Preq: LATIN 201 or equivalent.

LEISURE SKILLS

L S 100 Selected Topics 1(0,3) Presentation of leisure skills not covered in other courses. May be repeated for a maximum of six credits, but only if different topics are covered.

L S 101 Challenge Recreation Activities 1(1,0) Encourages students to broaden their leisure skills and improve self-image through challenge activities. Classroom instruction stresses how to get started safely in flying, scuba, canoeing, skiing, windsurfing, mountain-eering, hang-gliding, ballooning, and other challenge activities.

L S 111 Lapidary Arts 1(0,3) Students learn the techniques used to transform raw materials such as gemstones, minerals, gold, and silver into objects of art—primarily jewelry.

L S 113 Wood Carving 1(0,3) Introduction to the art of wood carving. Students learn about types of wood, tools, carving, and shop safety.

L S 125 Budget Travel 1(0,3) Teaches the necessary skills to travel internationally on a budget. Students learn how to get the best airfares, research destinations, and build an itinerary. Packing, security, local transportation, and culture/reverse-culture shock are also discussed.

L S 141 Top Rope Climbing 1(0,3) Basic rock climbing skills, including philosophy, safety, knots, climbing techniques, site and supplies selection, and nature/conservation issues are covered.

L S 143 Mountain Biking 1(0,3) Introduces the sport of mountain biking and guides students on techniques and procedures to plan and undertake rides. Covers both on-trail and off-trail bike mechanics used to keep bikes in proper working order.

L S 144 Performance Cycling 1(0,3) Provides aspiring cyclists with all the information necessary to be safe and successful cyclists. Students learn how to ride safely on open roadways, group riding skills, bike maintenance, and bike mechanics.
Courses of Instruction

L S 145 Camping and Backpacking 1(0,3) Basic camping and backpacking skills including map and compass reading, outdoor cooking, camping hazards and safety, site selections, and trip planning.

L S 147 Alpine Skiing 1(0,3) Basic downhill snow skiing instruction including equipment selection, safety, and maintenance; parallel turns; edging; carved and linked turns; wedeling; and safety and etiquette. There is an additional fee for this course. Taught during Christmas recess. (Contact the Department of Parks, Recreation, and Tourism Management in October.)

L S 149 Snowboarding 1(0,1) Basic snowboarding instruction including equipment selection; safety; conditioning; and skills such as stopping, techniques for turning, and riding lifts. There is an additional fee for this course. Taught during Christmas recess. (Contact the Department of Parks, Recreation, and Tourism Management in October.) May not be taken concurrently with L S 147 or 347.

L S 156 Riflery 1(0,3) Introduces the basics of rifle shooting and firearm safety. Students progress from beginning rifle shooting to more advanced topics such as reloading, external ballistics, and long-range shooting.

L S 159 Hunting Traditions 1(0,3) Basic, hands-on instruction in the shooting sports (shotgun, rifle, and archery) and the sport of hunting. Designed to introduce students to the safe and responsible use of firearms and archery equipment and safe hunting practices. Students are required to complete the SC Department of Natural Resources Hunter Education certification.

L S 164 Whitewater Kayaking 1(0,3) Flat-water and whitewater skills, techniques, safety, rescue, equipment selection and maintenance, and selection of routes/trips to participate in basic whitewater kayaking. Prereq: Basic swimming skills.

L S 165 Inland Kayak Touring 1(0,3) Introduction to basic skills necessary for safe enjoyment of flatwater (non-tidal waters; lakes, slow-moving rivers) kayak touring. Students learn equipment selection, strokes, safety, and rescue techniques. Prereq: Demonstrated swimming competence.

L S 167 Canoeing 1(0,3) Basic instruction in the nomenclature, strokes, and safety techniques in canoeing. Prereq: Basic swimming skills.

L S 169 Sailing 1(0,1) Basic instruction in the nomenclature, safety and rescue techniques, and skills required to skipper sailing craft. Prereq: Basic swimming skills.

L S 171 Windsurfing 1(0,3) Basic windsurfing instruction including rigging, launching, tacking, jibbing, rig and foot steering, safety, maintenance, equipment selection, rules-of-the-road, and racing techniques are covered. Offered Fall Break and first summer session. There is an extra fee for this course. Prereq: Ability to swim 300 yards and tread water for five minutes.

L S 175 Fly Fishing 1(0,3) Introductory course in the techniques of fly-fishing. Students learn casting, fly-tying, and equipment selection.

L S 176 Beginning Fly Tying 1(0,3) The art of fly tying. Students learn basic fly tying techniques and gain a knowledge of materials and tools used in fly tying.

L S 177 Saltwater Fly Tying 1(0,3) Introduction to tying flies for saltwater applications of fly fishing.

L S 179 Scuba I 1(0,3) Teaches basic open water diving techniques and prepares students to complete requirements for the open water diving certification. Certifications are granted by an internationally recognized and accepted certifying agency. Prereq: Swim test required by certifying agency.

L S 183 Introduction to Rugby 1(0,3) Introduces students to the sport of Rugby. Covers history of the game, rules, and skills such as passing, kicking, and decision making.

L S 185 Bowling 1(0,3) Basic instructional program on techniques of bowling.

L S 187 Frisbee Sports 1(0,3) Focuses on the rules, history, and skills necessary for participating in various frisbee sports. Heavy emphasis is placed on Ultimate Frisbee and Frisbee Golf.

L S 189 Tennis 1(0,3) Fundamental course stressing rules, strokes, and strategy, with ample opportunity for practice.

L S 194 Racquetball 1(0,3) Basic skills, knowledge of rules, strategy, and basic strokes.

L S 196 Introduction to Billiards 1(0,3) Introductory course in the history, rules, and skills necessary to participate in billiards. Students learn different types of games, proper shot techniques, and equipment selection.

L S 198 Golf 1(0,3) Fundamental course stressing rules, strategy, and backstrokes.

L S 200 Traditional Sports 1(0,3) Introductory course in the history, rules, and skills necessary to participate in traditional sports. Students learn about and participate in basketball, volleyball, football, and softball.

L S 204 Soccer 1(0,3) Introduces the history, rules, and fundamental skills of soccer.

L S 210 Learn to Dance 1(0,3) Prerequisite: Introductory course in the history, rules, and skills necessary for participating in various dance forms. Students learn about and participate in basketball, volleyball, and softball.

L S 219 Advanced Swing Dance 1(0,2) Focuses on competition level and style of swing dance. Students learn to break down and teach a routine to beginners. Students also learn the skills necessary to create and choreograph a short routine. Prereq: L S 227 or consent of instructor.

L S 231 Bosu 1(0,3) Introduces the group aerobic style of Bosu, which concentrates on physical stability, core strength, and general fitness.

L S 233 Aerobic Dance 1(0,3) Prerequisite: Introductory course in the development of skills for the safe improvement and maintenance of cardiovascular fitness, flexibility, and muscle tone utilizing dance movements and techniques.

L S 235 Basic Yoga 1(0,3) Develops flexibility, strength, sensitivity, energy, and a sense of relaxation through the study of basic yoga postures, conscious breathing, and meditation techniques.

L S 236 Power/Ashtanga Yoga 1(0,3) Prerequisite: Ashtanga Yoga is a comprehensive workout based on the Eastern philosophy of K. Pattabhi. Students learn the eight limbs of this philosophy and the rigorous series of postures that produce a high power, athletic workout with the purpose of detoxifying impurities in the body.

L S 237 Kripalu Yoga 1(0,3) Great emphasis is placed on learning breath work techniques to combine directly with the various kripalu yoga postures. The goal is to teach individuals the physiological reactions produced by this type of yoga in developing and restoring health.

L S 245 Pilates 1(0,3) Study of the history, philosophy, and fundamental movement concepts of Pilates.

L S 264 Aikido 1(0,3) Introduces the modern Japanese martial art of Aikido.

L S 270 Sports Officiating 1(0,3) Practical study of officiating for various sports. Includes studies and practical application of officiating rules and mechanics. Sports studied include football, basketball, softball, soccer, and introductions to a variety of other team sports.
L S 275 Red Cross First Aid/CPR 1(0,3) Gives students the knowledge and skills necessary to prevent, recognize, and provide basic care for infants, children, and adults with injuries and sudden illness.

L S 347 Advanced Alpine Skiing 1(0,3) Advanced downhill snow skiing instruction in such techniques as mogul skiing, check turns, free-style, and racing. There is an additional fee for course. Taught over Christmas break. Credit is awarded for spring semester. (Contact Department of Parks, Recreation, and Tourism Management in October.) Preq: L S 147 or consent of instructor.

LIBRARY

LIB 199 Creative Inquiry—The Libraries 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

LIB 299 Creative Inquiry—The Libraries 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

LIB 399 Creative Inquiry—The Libraries 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

LIB 499 Creative Inquiry—The Libraries 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

MANAGEMENT

MGT 120 Collaborative Management 3(2,2) Provides a model for successfully working with persons from the marketing, operations, accounting/finance, and engineering functions. Students operate on a cross-functional team and explore concepts and tasks associated with managing effectively for high performance. Preq: Pre-Business major, ECON 211, consent of the instructor.

MGT 201, H201 Principles of Management 3(3,0) Management’s role as a factor of economic production. Functions of management, principles of organization, and behavior in organizations.

MGT 218 Management Personal Computer Applications 3(0,6) Personal computer applications that support managers. Students learn from hands-on work rather than lecture. To be taken Pass/Fail only.

MGT 297, H297 Creative Inquiry—Management 1-3(1-3,0) Students plan, develop, and execute a research project related to the field of management and present their findings. The development of the project includes lectures, self-directed research, conduct, and data analysis. May be repeated for a maximum of six credits.

MGT 305 Economics of Transportation 3(3,0) Topics include history and structure of transportation systems in the United States, the nature of transportation costs and rates, transportation systems as factors in industrial location, transportation policy, and transportation’s role in national security. Preq: Junior standing.

MGT (ECON) 306 Managerial Economics 3(3,0) See ECON 306.

MGT 307, H307 Personnel Management 3(3,0) Principles, concepts, and techniques concerned with effective and efficient utilization of personnel. Emphasizes motivation, leadership, and human behavior related to employer-employee relations. Topics include personnel recruitment, classification, selection, training, development, and performance evaluation. Preq: Junior standing; one of the following: MTHSC 263, 301, 302, EX ST 301.

MGT 310, H310 Intermediate Business Statistics 3(3,0) Quantitative methods of the management scientist with applications to business and industrial problems. Topics include regression analysis, correlation analysis, analysis of variance, sampling, and nonparametric methods. Credit toward a degree will be given for only one of MGT 310 or EX ST 311. Preq: EX ST 301, MTHSC 309, or equivalent.

MGT 312, H312 Decision Models for Management 3(3,0) Exploration of ways in which management science decision models can help in making sound managerial decisions. Problem solving is Excel-based. Topics include linear programming, project scheduling, and simulation. Preq: EX ST 301 or MTHSC 301 or 309.

MGT (E L E) 315 New Venture Creation II 3(3,0) Second of a two-part series examining entrepreneurship. Using opportunity analysis developed in MGT (E L E) 314, course focuses on designing and managing an organization capable of effectively pursuing the opportunity. Topics include organization strategy and design, start-up capital, operations and sourcing issues, leadership, team building, and management of rapid growth. Preq: MGT (E L E) 314.

MGT 317 Logistics Management 3(3,0) Management of physical distribution and supply systems with emphasis on design concepts, cost determinants, and control. Preq: Junior standing.

MGT 318 Management Information Systems 3(3,0) Introduction to information systems concepts and applications in business. Topics include software, hardware, decision support and knowledge based systems, database, information systems design and implementation, and the management of information systems.

MGT 390 Operations Management 3(3,0) Examines the role of operations management in both manufacturing and service organizations. Discusses the concepts, tools, and techniques for managing the operations function. Topics include operations strategy, design, planning, and control. Preq: MTHSC 301 or equivalent.

MGT 398 Internship in Management 1-3 Faculty-supervised management internship to give students learning opportunities that support their classroom experiences. Requires at least 150 hours of internshp work per credit hour received. Course enrollment and internship must occur in the same semester. May be repeated for a maximum of three credits. To be taken Pass/Fail only. Preq: Junior standing, 2.0 cumulative grade-point ratio, consent of instructor.

MGT 400 Management of Organizational Behavior 3(3,0) Provides management students with a framework for understanding how behavior within business organizations is managed. Particular emphasis is on integrating management theory with recent developments in the behavioral sciences with distinct management applications. Theory, research, and business applications are considered. Preq: MGT 201 with a C or better.

MGT 402, H402 Operations Planning and Control 3(3,0) Managing, planning, and controlling production and service operations emphasizing demand forecasting, aggregate planning, production scheduling, and inventory management. Preq: MGT 310, 312, 390.

MGT 403 Special Problems 1-3(1-3,0) Students plan, develop, and execute a research project related to the field of management and defense studies. May be repeated for a maximum of six credits. Preq: Senior standing in Industrial Management or Management, consent of instructor.
MGT 404 Advanced Statistical Quality Control 3(3,0) Statistical quality control techniques as applied to all areas of quality control: process control, process capability, acceptance sampling, and economic aspects of quality decisions. Preq: MGT 310, 390.

MGT 408 Design of Production Systems 3(3,0) Examines the design of systems for production and delivery of goods and services. Emphasizes the impact of alternative designs on the competitive posture of the firm. Discusses the concepts, tools, and techniques for designing facilities and jobs and systems for continuous performance improvement. Preq: MGT 310, 312, 390.

MGT 411 Project Management 3(3,0) Examination and application of the project management body of knowledge. This consists of theory, tools, and techniques to organize, plan, and control individuals, teams, quality, and operations while conducting a project. Preq: EXST 301 or MTHSC 301 or equivalent.

MGT 412 Supply Management 3(3,0) Provides an understanding of the key issues in selecting and developing suppliers. Provides a conceptual framework to understand purchasing’s function within the firm and its role in supply chain management. Preq: MGT 390.

MGT 414 Statistical Analysis 3(3,0) Application of statistics in management decision making. Emphasis is on the proper design, analysis, and interpretation of planned experiments. Topics include single factor through fractional factorial experiments. Preq: MGT 310 or equivalent.

MGT 415, H415 Business Strategy 3(3,0) Capstone course for seniors. Various methods are used in analyzing complex business problems, requiring students to integrate their knowledge of all areas of business. Preq: MGT 307, 400 with a C or better; consent of instructor.

MGT 416 Management of Human Resources 3(3,0) Recent developments in the management of human resources with emphasis on results of research into the motivation, development of potential, and full utilization of the human resources. Preq: MGT 307 and 400 with a C or better; consent of instructor.

MGT 422 Small Business Management 3(3,0) Study of management of the small independently owned and operated business. Emphasizes analyzing new business opportunities, planning and establishing a growing concern, and managing the contemporary small business. Field experience in consulting with small businesses enhances students’ understanding of the unique opportunities and problems of small business organizations. Preq: MKT 301 or consent of instructor.

MGT 423 International Business Management 3(3,0) Survey of theoretical and institutional complexities of international business operations. Topics include exporting, importing, foreign investment, multinational corporations, and international payment system. Preq: Junior standing.

MGT 424 International Transportation and Logistics 3(3,0) Examination and analysis of international transportation systems and their logistics support systems. Topics include ocean shipping, international air transportation, port management, and EEC and Soviet-block transport systems. International transport legislation and policies are also analyzed. Preq: Senior standing or consent of instructor.

MGT 425 Compensation Management 3(3,0) Examination of compensation employees seek in exchange for their efforts and contributions. Topics include government and union influences; job content analysis, description, and evaluation; developing pay structures; measuring and paying for performance; employee benefits; administration of the compensation plan; executive, managerial, professional, and sales. Preq: MGT 307, 400 with a C or better.

MGT 426 Industrial Traffic Management 3(3,0) Surveys the responsibilities and functions of industrial traffic management in manufacturing and distribution. Emphasizes the role of the industrial traffic manager in optimizing the logistics system of the firm (i.e., the materials management of its inbound supplies and the distribution of its finished products). Preq: MGT 363 or 317.

MGT 427 Managing Continuous Improvement 3(3,0) Examination of issues related to continuous improvement, including a systematic approach to selecting improvement areas, determining how to improve, plans and manage the improvement process. Topics include selecting performance measurements, using teams to achieve breakthrough change, identifying root causes of problems, and developing and implementing solutions to problems. Preq: MGT 390 or consent of instructor.

MGT 430 Senior Seminar in Management 3(3,0) In-depth study of current business topics; allows senior management students to relate their academic studies to real-world problems. Senior paper is required. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Senior standing.

MGT 431 Employee Diversity, Rights, and Responsibilities 3(3,0) Focuses on employee and organizational rights and responsibilities. Topics include various types of discrimination (race, sex, religious, national origin, age, and disability status); drug and alcohol testing; AIDS in the workplace; employee discipline and termination issues; privacy and safety concerns; and union organizing campaigns. Preq: MGT 307, 400 with a C or better.

MGT 435 Personnel Interviewing 3(3,0) Helps students understand current interviewing theory, conduct an employment interview, and advise their future employers how to improve interviewing programs. Topics include job analysis, legal issues, types of interviews, and evaluating applicants. Preq: MGT 307 and 400 with a C or better.

MGT 436 White-Collar Crime 3(3,0) White-collar crime and corruption are examined from a managerial perspective. Topics include financial crimes, crimes against consumers, environmental crimes, acts of institutional corruption, the impact of organized crime on legitimate businesses, and computer crime. Preq: Senior standing, FIN 306.

MGT (I E) 444 International Perspectives in Industrial Management 1-6(1-6,0) Provides an international perspective to industrial management via organized plant visits to businesses in a foreign country and lectures by and discussions with senior operations managers. Cultural visits and lectures are also organized to provide a holistic perspective to cover cultural and economic environment of the host country. Students are responsible for travel costs. May be repeated for a maximum of six credits. Preq: Consent of instructor.

MGT 452 Systems Analysis and Design 3(3,0) Follows the traditional systems development life cycle (SDLC), although alternative methodologies are also discussed. Focuses on earlier phases of the SDLC, from IS planning through specification of structured requirements and on the methods, techniques, and tools used to determine information requirements and their unambiguous documentation. Preq: Junior standing.

MGT 454 Systems Implementation 3(3,0) Builds upon skills of programming, database, and systems analysis and design by involving students with the later phases of the systems development life cycle (SDLC). Students design and develop a system using various platforms. Focus is on the logical and physical system design. Preq: CP SC 462 or equivalent, MGT 452.

MGT 455 Emerging Information Technology Trends in Business 3(3,0) In-depth study, through case studies, readings, and hands-on experience of emerging information technologies in and across business organizations. Focuses on understanding, effective deployment, and impact of these technologies on business outcomes. Preq: Junior standing.

MGT 456 Decision Support Systems 3(3,0) In-depth study, through case studies, readings, and hands-on experience, of decision support systems and related knowledge-based technologies. Focus is on organizational decision making and its data, information, and knowledge-based support systems. Preq: Junior standing.

MGT 490 Selected Topics in Industrial Management 3(3,0) In-depth examination of advanced topics in Industrial Management. Topics may vary in keeping with developments in the management profession and interests of faculty. Emphasis is on the application of these topics to the production and operations management environment. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: MGT 402 or 404 or 408.

MGT 497, H497 Creative Inquiry—Management 1-3(1-3,0) Students plan, develop, execute, and direct a research project related to the field of management and present their findings. The project includes lectures about research design, conduct, and data analysis. May be repeated for a maximum of six credits.
MKT 301, H301 Principles of Marketing 3(3,0)
Principles and concepts involved in planning, pricing, promoting, and distributing of goods and services. Prereq: ECON 200 or 211 or 212; 45 credit hours completed.

MKT 302 Consumer Behavior 3(3,0)
Examination of selected individual and group behavioral science concepts and their application to the understanding of consumer decision making. Prereq: MKT 301.

MKT (E L E) 314 New Venture Creation I 3(3,0)
First in a two-part series with MGT (E L E) 315 assessing entrepreneurial opportunities. Focuses on creativity, idea generation, market opportunity analysis, strategy, and methods of entry. Opportunity analysis may be developed into a full new venture plan in MGT (E L E) 315. Prereq: Junior standing.

MKT 321 Sports Marketing 3(3,0)
Exploration of the essentials of effective sports marketing. Topics include application of marketing principles in the sports area, licensing issues, sponsorships and endorsements, stadium and arena marketing, broadcasting and media considerations, public policy and sports, and unique marketing challenges for sport specific products (football, basketball, baseball, motorsports, etc.) Prereq: MKT 301 or consent of instructor.

MKT H390 Junior Honors Research 1(1,0)
Students select and complete a research project approved by a faculty advisor, in consultation with the Marketing faculty member supervising research.

MKT 399 Marketing Internship 3(0,9)
Pre-planned, preapproved, faculty-supervised marketing internships. Credit will only be given for internships of at least ten full-time, consecutive weeks with the same internship provider. Restricted to students with a major or minor in Marketing. To be taken Pass/Fail only. Prereq: MKT 301 and consent of instructor.

MKT 420 Professional Selling 3(3,0)
Current theories about the selling of goods and services to organizational buyers in the context of long-term relationships. Role playing, video-taped presentations, and other techniques are generally employed to enhance interpersonal communication skills. Prereq: Junior standing, MKT 301.

MKT 423, 623 Promotional Strategy 3(3,0)
Emphasizes promotion as the communication function of marketing. Attention is given to communication theory and promotion’s relation to mass and interpersonal communication. Factors affecting promotional decision-making process are explored, and promotion as a competitive tool is examined. Prereq: MKT 301 or consent of instructor.

MKT 424 Sales Management 3(3,0)
Comprehensive examination of the planning, implementation, and control of professional sales organizations. Prereq: MKT 301 or consent of instructor.

MKT 425 Retail Management 3(3,0)
Retailing is studied from a decision-making approach. Topics include target market analysis, location analysis, merchandising, human resources, pricing and promotion. Prereq: MKT 301 or consent of instructor.

MKT 426 Business-to-Business Marketing 3(3,0)
Study and analysis of the unique aspects of marketing goods and services to organizational buyers rather than household consumers. Emphasis is on developing strategic responses to market opportunities given competitive behavior. Prereq: MKT 301 or consent of instructor.

MKT 427, 627 International Marketing 3(3,0)
Study of marketing from the international point of view. Emphasis is on the necessary modification of marketing thinking and practice for foreign markets due to individual environmental differences. Prereq: MKT 301.

MKT 428, 628 Services Marketing 3(3,0)
Exploration and study of the nature of service organizations and the principles which guide the marketing of their products. Emphasis is on a marketing mix that is fundamentally different than that found in traditional goods marketing. Prereq: MKT 301 or consent of instructor.

MKT 429, 629 Public and Nonprofit Marketing 3(3,0)
Examines the role and application of marketing in public and nonprofit settings. Focuses on conceptual understanding of the marketing discipline and marketing processes and shows how basic concepts and principles of marketing are applicable to public and nonprofit organizations. Prereq: MKT 301 or consent of instructor.

MKT 430, 630 Marketing Product Management 3(3,0)
Management of the firm’s product or service offerings. Topics include new product screening, evaluation, and development; product line and mix analysis, abandonment decisions, brand manager’s role, new product development department, and others. Emphasis is on decision making. Prereq: MGT 310, MKT 304; or consent of instructor.

MKT 431, 631 Marketing Research 3(3,0)
Research used in marketing decision making. Emphasizes methods and techniques used in planning, collection, processing, and utilization of information. Topics include research design, sources of information, questionnaire design, sampling, data collection, and data analysis. Prereq: Marketing major; MGT 310, MKT 301, MTHSC 301 or 309.

MKT 433 Sport Marketing Strategy 3(3,0)
Provides students with basic knowledge about brand management as it applies to sport. Addresses basic principles and guiding precepts of how sport-based organizations build strong brands. Prereq: MKT 321 or consent of instructor.

MKT 434 Sport Promotion 3(3,0)
Emphasizes the promotional function of sport. Topics include event sponsorship, developing media relationships, endorsements, promotion objective setting and budgeting, media planning and scheduling, and utilizing the tools of promotion within a sport context. Integrated Marketing Communication provides the theoretical and managerial framework for how these factors are utilized optimally. Prereq: MKT 321, 429.

MKT 445 Macromarketing 3(3,0)
Examines the relationship between marketing and society focusing on the social impact of marketing practices. Topics include technology, ethics, materialism, globalization, environmental sustainability, and the political and economic philosophy underlying marketing. Course is multidisciplinary and uses a variety of readings to cover each of the topic areas. Prereq: MKT 301 and junior standing, or consent of instructor.

MKT 450 Strategic Marketing Management 3(3,0)
Application of marketing constructs in the analysis and solution of marketing problems. Emphasizes information systems, data analysis, and critical-thinking skills in solving marketing problems in a wide range of managerial decision areas including, but not limited to, new product development, pricing, advertising, personal selling, channels, and international marketing. Prereq: Marketing major, MKT 301, six credits of 400-level marketing courses.

MKT H490 Senior Honors Thesis Research 3(3,0)
Students, in consultation with a Marketing faculty member, choose a topic for the honors thesis and produce a research proposal which involves an imaginative approach to the subject, a sufficient literature review, a comprehensive introduction to the research topic, and a detailed research plan. Prereq: MKT H390.

MKT H491 Senior Honors Thesis Writing and Presentation 3(3,0)
Students implement their research plans, write up their reports, and present and defend their Senior Honors Theses to an audience of Marketing faculty, Honors students, and invited others. Prereq: MKT H490.

MKT 495, 695 Selected Topics 3(3,0)
In-depth examination of timely topics in marketing. May be repeated for credit, but only if different topics are covered. Prereq: MKT 301 or consent of instructor.

MKT 499 Independent Study 1-3(1-3,0)
Directed readings or independent research in selected marketing areas. Topics must be selected and proposed by student. Proposals must be approved by instructor. May be repeated for a maximum of three credits. Prereq: MKT 301 and consent of instructor.

MATERIALS SCIENCE AND ENGINEERING

MS&E 101 Materials Technology in Everyday Life 3(3,0)
Introduces principles of materials science benefiting citizens. Students learn how to make intelligent choices about everyday materials and devices and present their informed opinions through class discussion and group projects involving controversial topics such as recycling, green manufacturing, and nanotechnology.
Courses of Instruction

MS&E 251 Materials Science and Engineering Portfolio I 1(1,0) Introduces students to the concept of self-paced, professional development throughout their plans of study. Each student is assigned a faculty member to act as mentor and advisor. Prq: Consent of instructor.

MS&E 450 Materials Science and Engineering Portfolio 2(2,0) Students working in groups present and discuss practical, ethical, safety, and business topics in the polymer and textile industries. Students are required to complete their electronic portfolios. To be taken Pass/Fail only.

MS&E 451 Materials Science and Engineering Portfolio II 1(1,0) Continuation of the student’s self-paced, professional development throughout the rest of his/her plan of study by working with the faculty member who has been assigned to act as mentor and advisor. Prq: MS&E 251 and consent of instructor.

MATHEMATICAL SCIENCES

MTHSC 101 Essential Mathematics for the Informed Society 3(3,0) Topics include logic and methods of proof; sets, functions, and relations; graphs and trees; combinatorial circuits and Boolean Algebra. Prq: Satisfactory score on the Clemson Mathematics Placement Test or consent of department.

MTHSC 102 Introduction to Mathematical Analysis 3(3,0) Intuitive approach to the concepts and applications of calculus. Topics include functions and graphing, differentiation, and integration. Applications from social, biological, and management sciences are presented. Not open to students who have received credit for MTHSC 106. Prq: Satisfactory score on the Clemson Mathematics Placement Test or consent of department.

MTHSC 103 Elementary Functions 3(2,2) Gateway course for MTHSC 106. Comprehensive treatment of functions and analytic geometry with applications including polynomial, rational, algebraic, exponential, logarithmic, and trigonometric functions. Not open to students who have received credit for MTHSC 105. To be taken Pass/Fail only. Prq: MTHSC 104 or satisfactory score on the Clemson Mathematics Placement Test.

MTHSC 104 College Algebra 3(2,2) Basic course to prepare students for subsequent courses in probability, mathematical analysis, elementary statistics, and elementary functions (precalculus). Fundamental concepts of algebra, equations, inequalities, functions, and graphs are studied. Students who have received credit for any other mathematical sciences course will not be allowed to enroll in or receive credit for MTHSC 104. To be taken Pass/Fail only.

MTHSC 105 Precalculus 5(4,2) Extensive treatment of topics chosen to prepare students for the study of calculus. Special emphasis is given to polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs, as well as basic and analytic trigonometry. Students who have received credit for any other mathematical sciences course will not be allowed to enroll in or receive credit for MTHSC 105. To be taken Pass/Fail only.

MTHSC 106, H106 Calculus of One Variable I 4(4,0) Topics include analytic geometry, introduction to derivatives, computation and application of derivatives, integrals, exponential and logarithmic functions, functions, mathematical induction, graphs and tabulation of functions, properties and operations, complex numbers, divisibility, common factors and multiples. Open to Elementary, Early Childhood, and Special Education majors only. Prq: MTHSC 104 or satisfactory score on the Clemson Mathematics Placement Test.

MTHSC 107 Co-Calculus I 1(0,2) Recitation course to accompany MTHSC 106. Reinforces precalculus and calculus topics covered in MTHSC 106 and provides additional instruction and practice for students. Required of students identified by the Clemson Mathematics Placement Test as being conditionally qualified for placement in calculus with supplemental instruction. To be taken Pass/Fail only. Prq: Concurrent enrollment in MTHSC 106.

MTHSC 108, H108 Calculus of One Variable II 4(4,0) Topics include transcendental functions, applications of integration, integration techniques, indeterminate forms, improper integrals, parametric equations, polar coordinates, and infinite series. Prq: MTHSC 106.

MTHSC 109 Co-Calculus II 1(0,2) Recitation style course to accompany MTHSC 108. Reinforces precalculus and calculus topics covered in MTHSC 108 and provides additional instruction and practice. Recommendations are made to students based on their scores on a Calculus Basics Quiz, given at the beginning of each semester. Prq: Concurrent enrollment in MTHSC 108.

MTHSC 110 Calculus of One Variable III 4(4,0) Topics include infinite series, power series, Taylor’s and Maclaurin’s series, parametric equations, polar coordinates, and applications of integration, differential equations, solid analytic geometry, elementary number theory, and numerical methods. Not open to students who have received credit for MTHSC 106. Prq: MTHSC 108.

MTHSC 113 Introduction to Discrete Methods 3(3,0) Topics normally include discrete mathematics, combinatorial mathematics, probability, and computer science. Prq: MTHSC 108 or consent of department.

MTHSC 115 Contemporary Mathematics for Elementary School Teachers I 3(3,0) Cooperative learning groups, manipulatives, and concrete models are used to demonstrate logical reasoning, problem-solving strategies, sets and their operations, numeration systems, properties and operations of whole numbers, number theory, prime and composite numbers, divisibility, common factors and multiples. Open to Elementary, Early Childhood, and Special Education majors only. Prq: MTHSC 104 or satisfactory score on the Clemson Mathematics Placement Test.

MTHSC 116 Contemporary Mathematics for Elementary School Teachers II 3(3,0) Continuation of MTHSC 115. Manipulatives and concrete models are used for properties, operations, and problem solving for integers, elementary fractions, rational numbers, and real numbers. Selected topics in statistics and probability are introduced with a hands-on approach to learning. Restricted to Elementary, Early Childhood, and Special Education majors. Prq: MTHSC 115 or consent of instructor.

MTHSC 117 Mathematics for Elementary School Teachers I 3(2,2) Problem-solving strategies, logic, algebraic thinking, sets, relations, functions, numeration systems, whole numbers, integers, number theory, fractions, decimals, applications of percent, real numbers with their computational algorithms and properties are explored. Content, according to state standards, is taught with appropriate methodology for teaching K–8. Open to Elementary, Early Childhood, and Special Education majors only. Prq: MTHSC 101 or consent of department.

MTHSC 118 Mathematics for Elementary School Teachers II 3(2,2) Simple probability and descriptive statistics are reviewed. Two- and three-dimensional geometry including polygons, polyhedra and their properties; congruence, similarity, and constructions; coordinate system; standard measurement, area, surface area, volume; and motion geometry are explored. Content, according to State standards, is taught with appropriate methodology for teaching K–8. Prq: MTHSC 117 or consent of department.

MTHSC 119 Introduction to Discrete Methods 3(3,0) Topics normally include elementary logic and methods of proof; sets, functions, and relations; graphs and trees; combinatorial circuits and Boolean Algebra. Prq: Satisfactory score on the Clemson Mathematics Placement Test or consent of department.

MTHSC 120 Problem Solving in Discrete Mathematics 3(2,2) Problem-solving approach to learning mathematics is applied to topics in modern discrete mathematics. Typical selection of topics includes logic and proof, sets, relations, functions, mathematical induction, graphs and trees, counting techniques, recurrence equations. For Bachelor of Science and Bachelor of Arts majors in Mathematical Sciences only. Credit may not be received for both MTHSC 119 and 129. Prq: MTHSC 106.
MTHSC 199 Problem Solving in Mathematics 3(2,2) Functions and graphs, mathematical modeling, and applications. Applications from management and life and social sciences are presented. Specific topics include linear, quadratic, polynomial, exponential, and logarithmic functions with emphasis on problem solving. Students who have received credit for any other mathematical sciences course will not be allowed to enroll in or receive credit for MTHSC 199. To be taken Pass/Fail only.

MTHSC 203 Elementary Statistical Inference 3(3,0) Data-based course in statistical methodology: collecting and summarizing data, the normal distribution, one and two sample inference on means and proportions, simple linear regression, analysis of categorical data. May not be taken for credit by students who have passed MTHSC 301, 302, 309, or EX ST 301. Prerequisite: Satisfactory score on the Clemson Mathematics Placement Test or MTHSC 101 or consent of department.

MTHSC 206, H206 Calculus of Several Variables 4(4,0) Topics include real valued functions of several variables, multiple integration, differential calculus of functions of several variables, vector field theory. Prerequisite: MTHSC 108.

MTHSC 207 Multivariable Calculus 3(3,0) Introduction to the calculus of several variables, differential calculus and optimization of several variables, multiple integrals. Topics from the management sciences are used to illustrate the above concepts. May not be taken by students who have passed MTHSC 206. Prerequisite: MTHSC 102, or 106 with consent of instructor.

MTHSC 208, H208 Introduction to Ordinary Differential Equations 4(4,0) Introduction to the study of differential equations and their application to physical problems. Topics include exact, series, and numerical solutions; solutions by means of Laplace transforms; and solutions of systems of differential equations. Prerequisite: MTHSC 206.

MTHSC 210 Applied Matrix Algebra 3(3,0) Introduction to the basic principles of matrix algebra with applications to the behavioral and managerial sciences. Major areas of application include linear programming, directed graphs, and game theory. Prerequisite: MTHSC 101 and 102 or 106.

MTHSC 216 Geometry for Elementary School Teachers 3(3,0) Informal treatment of the basic concepts of geometry. Open to Elementary, Early Childhood, and Special Education majors only. Prerequisite: MTHSC 116 or consent of instructor.

MTHSC 231 Mathematics of Life Insurance 3(3,0) Introduction to basic mathematics of finance and life insurance. Topics include compound interest, annuities certain, mortality tables, life annuities, net premiums, net level reserves, modified reserves, nonforfeiture values, and dividends.

MTHSC 250 Introduction to Mathematical Sciences 1(1,0) Introduction to areas of study, degree options, career choices, and professional development in mathematical sciences. Includes guidelines and requirements for portfolio development and an introduction to ethical issues.

MTHSC 301, H301 Statistical Methods I 3(3,0) Principal topics include collecting and summarizing data, probability distributions, inferences about central values and variation, analysis of categorical data, simple linear regression, basic experimental designs, and the analysis of variance. Credit toward a degree will be given for only one of MTHSC 301, 302, 309, EX ST 301. Prerequisite: MTHSC 106 or 207 or 210.

MTHSC 302 Statistics for Science and Engineering 3(3,0) Methodology for collecting, organizing, and interpreting data. Topics include understanding variability, graphical and numerical summarization of data, introductory probability, normal and related distributions, statistical inference, experimental design, simple linear regression. Statistical microcomputer software is used. Credit toward a degree will be given for only one of EX ST 301, MTHSC 301, 302, 309. Prerequisite: MTHSC 206.

MTHSC 308 College Geometry 3(3,0) Theorems and concepts more advanced than those of high school geometry. Treatment of the various properties of the triangle, including the notable points, lines, and circles associated with it. Prerequisite: MTHSC 106.

MTHSC 309 Introductory Business Statistics 3(3,0) Introductory probability and statistics for business students, particularly those who will take MGT 310. Topics include descriptive statistics probability, expectations, binomial, normal, sampling distributions, one and two sample estimation and testing. Credit toward a degree will be given for only one of EX ST 301, MTHSC 301, 302, 309. Prerequisite: MTHSC 106 or 207 or 210.

MTHSC 311, H311 Linear Algebra 3(3,0) Introduction to the algebra of matrices, vector spaces, polynomials and linear transformations. Prerequisite: MTHSC 108 or consent of instructor.

MTHSC 320 Intermediate Mathematical Computing 3(3,0) Intermediate-level introduction in using computers to solve problems in the mathematical sciences. Fundamental concepts of procedural programming including flow control, modular construction, primitive data structures, recursion, and graphics are applied to problems in applied mathematics, probability, statistics, discrete mathematics, and operations research. Prerequisite: MTHSC 108.

MTHSC 338 Honors Seminar 1(1,0) Weekly seminar to prepare students in Departmental Honors Program for independent senior research. At the end of the second semester, each student must have identified a research topic and a faculty advisor. May be repeated for a maximum of two credits. Prerequisite: Junior standing in departmental honors program.

MTHSC 400, H400, 600 Theory of Probability 3(3,0) Principal topics include combinatorial theory, probability axioms, random variables, expected values; special discrete and continuous distributions, jointly distributed random variables, correlation, conditional expectation, law of large numbers, central limit theorem. Prerequisite: MTHSC 206 or consent of instructor.

MTHSC 403, H403, 603 Introduction to Statistical Theory 3(3,0) Principal topics include sampling distributions, point and interval estimation, maximum likelihood estimators, method of moments, least squares estimators, tests of hypotheses, likelihood ratio methods, regression and correlation analysis, introduction to analysis of variance. Prerequisite: MTHSC 402 or equivalent.

MTHSC 405, 605 Statistical Theory and Methods II 3(3,0) Principal topics include simple linear regression, multiple regression and correlation analysis, one-way analysis of variance, multiple comparison, multivariable analysis of variance, experimental design. Computation and interpretation of results are facilitated through use of statistical software packages. Prerequisite: MTHSC 301.

MTHSC 406, 606 Sampling Theory and Methods 3(3,0) Probability-based treatment of sampling methodology. Theory and application of estimation techniques are treated using simple and stratified random sampling, cluster sampling, and systematic sampling. Prerequisite: MTHSC 302 and 400, or consent of instructor.

MTHSC 407, 607 Regression and Time-Series Analysis 3(3,0) Theory and application of the regression and time series. Approaches to empirical model building and data analysis are treated. Computation and interpretation of results are facilitated through the use of interactive statistical packages. Prerequisite: MTHSC 302, 311, 400, or consent of instructor.

MTHSC 408, 608 Topics in Geometry 3(3,0) Introduction to topics in special geometries which include non-Euclidean space concepts such as projective geometry, finite geometries, and intuitive elementary topology. Brief introduction to vector geometry. Prerequisite: MTHSC 206.

MTHSC 410 Number Theory 3(3,0) Introduction to theory of integers and related number systems. Topics include historical development, principle of mathematical induction, divisibility, primes, congruences, number-theoretic functions, quadratic residues, and diophantine equations. Prerequisite: MTHSC 108 or consent of instructor.

MTHSC 412, H412, 612 Introduction to Modern Algebra 3(3,0) Introduction to the concepts of algebra. Topics include the number system and the elementary theory of groups, rings, and fields. Prerequisite: MTHSC 311.

MTHSC 419, H419, 619 Discrete Mathematical Structures I 3(3,0) Applies theoretical concepts of sets, functions, binary relations, graphs, Boolean algebras, propositional logic, semigroups, groups, homomorphisms and permutation groups to computer characteristics and design, words over a finite alphabet and concatenation, binary group codes, and other communication or computer problems. Prerequisite: MTHSC 311.

MTHSC 430 Actuarial Science Seminar I 1(1,0) Problem-solving seminar to prepare students for the Society of Actuaries’ Exam P or the Casualty Actuarial Society’s Exam 1 (Probability). Prerequisite: MTHSC 400 or consent of instructor.
MTHSC 431 Theory of Interest 3(3,0) Comprehensive treatment of the theory of interest including from a calculus-based continuous viewpoint. Topics include simple and compound interest and discount, nominal and effective rates, force of interest, basic and general annuities, yield rates, amortization and sinking funds, and applications to bonds, mortgages, and other securities. Preq: MTHSC 206.

MTHSC 432 Actuarial Science Seminar II 1(1,0) Problem-solving seminar to prepare students for the examination on the Society of Actuaries and Casualty Actuarial Society’s Course 2 (Interest Theory, Economics and Finance). Preq: ECON 211, 212, FIN 306 or 311, MTHSC 431, or consent of instructor.

MTHSC 434, 634 Advanced Engineering Mathematics 3(3,0) Fourier series, Laplace and Fourier transform, and numerical methods for solving initial value and boundary-value problems in partial differential equations are developed. Applications to diffusion wave and Dirichlet problems are given. Matrix methods and special functions are utilized. Preq: MTHSC 208.

MTHSC 435, H435, 635 Complex Variables 3(3,0) Elementary functions; differentiation and integration of analytic functions; Taylor and Laurent series; contour integration and residue theory; conformal mapping; Schwarz-Christoffel transformation. Preq: MTHSC 206.

MTHSC 440, H440, 640 Linear Programming 3(3,0) Introduction to linear programming covering the simplex algorithm, duality, sensitivity analysis, network models, formulation of models, and the use of simplex codes to solve; interpret, and analyze problems. Preq: MTHSC 206, 311, or consent of instructor.

MTHSC 441, H441, 641 Introduction to Stochastic Models 3(3,0) Introductory treatment of stochastic processes, finite-state Markov chains, queuing, dynamic programming, Markov decision processes, reliability, decision analysis, and simulation. Both theory and applications are stressed. Preq: MTHSC 400.

MTHSC 450 Introduction to Mathematical Models 3(3,0) Includes a study of the modeling process and examples of existing models chosen from physical, biological, social, and management sciences, depending on the instructor. Written and oral report is required for at least one of the models studied. May be repeated for a maximum of six credits. Preq: MTHSC 302, 360, 440, or consent of instructor.

MTHSC 453, H453, 653 Advanced Calculus I 3(3,0) Limits, continuity, and differentiation of functions of one and several variables, the Riemann integral, and vector analysis. Preq: MTHSC 206.

MTHSC 454, H454, 654 Advanced Calculus II 3(3,0) Continuation of MTHSC 453. Transformations, multiple integrals, line and surface integrals, infinite sequences and series, and improper integrals. Preq: MTHSC 453.

MECHANICAL ENGINEERING

MECHANICAL ENGINEERING

MTHSC 460, 660 Introduction to Numerical Analysis I 3(3,0) Introduction to the problems of numerical analysis emphasizing computational procedures and application. Topics include sources of error and conditioning, matrix methods, systems of linear equations, nonlinear equations, interpolation and approximation by splines, polynomials, and trigonometric functions. Preq: MTHSC 206 or 207 and 360 or equivalent.

MTHSC 463, H463, 663 Mathematical Analysis I 3(3,0) Basic properties of the real number system, sequences and limits; continuous functions, uniform continuity and convergence. Integration, differentiation, functions of several real variables, implicit function theory. Preq: MTHSC 206.

MTHSC 481 Seminar in Mathematics 1-3(1-3,0) Attention is focused on mathematical areas in which nonroutine problems can be posed with comparative ease. Emphasis is on independent study and student use of previously acquired mathematical skills. Open to students by invitation only for a maximum of three credits.

MTHSC 482, H482 Undergraduate Research 3(3,0) Independent research conducted under the supervision and guidance of a faculty member. May be repeated for a maximum of six credits.

MTHSC 491 Independent Study 3(3,0) Independent study or internship in mathematical sciences under faculty supervision. A written report and oral poster presentation of the results of the independent study or internship are required. May be repeated for a maximum of six credits. Preq: Mathematical Sciences major.

MTHSC 492 Professional Development I 1(1,0) Issues in professional development in the Mathematical Sciences. Individual portfolios are evaluated and critiqued for continued career use.

MECHANICAL ENGINEERING

MECHANICAL ENGINEERING

M E 203 Foundations of Thermal and Fluid Systems 3(3,0) Introduction to control volumes, conservation laws of mass, momentum, and energy. Concepts of work and heat are introduced, including rate forms. Properties of pure substances. Preq: MTHSC 206, PHYS 221.

M E 205 Computer Analysis in Engineering 2(2,0) Application of undergraduate mathematics and basic engineering principles, emphasizing numerical methods and the use of mathematical software packages in the solution of engineering problems. Problems are drawn from dynamics, vibrations, kinematics, thermodynamics, heat transfer, materials engineering, fluid mechanics, and other engineering fields. Preq: EGR 120, MTHSC 208 (or concurrent enrollment), PHYS 122, Mechanical Engineering major.

M E 222 Mechanical Engineering Laboratory I 2(0,6) Discovery of mechanical engineering principles and phenomena. Introduction to laboratory safety practices, instrumentation, calibration techniques, data analysis, and report writing. Introduction to basic manufacturing processes. Preq: PHYS 122 and 124.

M E H300 Junior Honors Seminar O Acquaints students enrolled in Departmental Honors Program with current research activities in the Department of Mechanical Engineering. Faculty provide seminars in which research interests are summarized. These seminars are planned to prepare students in choosing a research topic for the senior thesis. Preq: Junior standing in departmental honors program.

M E 301 Materials for Mechanical Engineering Applications 3(3,0) Properties and selection of materials of interest to mechanical engineers. Emphasis is on the interrelations between the microstructure, processing, and properties of materials. Preq: CH 102, M E 302 (or concurrent enrollment).

M E 302, H302 Mechanics of Materials 3(3,0) Relationships between external loads on solid bodies or members and the resulting internal effects and dimension changes, including the derivation of rational formulas for stresses and deformations and the identification and use of important mechanical properties of engineering materials. Preq: E M 201, MTHSC 206.

M E 303 Thermodynamics 3(3,0) Study of the second law and entropy; applications to fixed mass systems and control volumes; vapor and gas power cycles; mixtures of gases; vapor psychrometrics; combustion and the third law. Thermochromic equilibrium. Preq: M E 203.

M E 304 Heat Transfer 3(3,0) Steady and transient heat conduction, free and forced convection, radiation, and multi-mode heat transfer. Emphasis is on analytical and numerical solutions to engineering heat transfer problems with a design orientation. Preq: M E 203, 308.

M E 305 Modeling and Analysis of Dynamic Systems 3(3,0) Presents techniques for developing and analyzing physical and mathematical models of mechanical and electromechanical systems. Transient and frequency response are determined using analytical and numerical methods. Basic feedback systems are introduced. Preq: E C E 307, E M 202, M E 202, 205, MTHSC 208.
ME 306 Fundamentals of Machine Design 3(3,0)
Introduction to failure theory, fatigue analysis, and energy methods for deflection analysis. Integration of these topics with selected portions of mechanics of materials and application of them to the design and analysis of machine elements. Prereq: M E 302.

ME 308, H308 Fluid Mechanics 3(3,0)
Behavior of fluids at rest or in motion, including the study of fluid properties. Emphasizes a rational, analytical approach from which are developed basic principles of broad applicability to all fields of engineering. Prereq: E M 202, M E 303 (or concurrent enrollment), MTHSC 208 (or concurrent enrollment).

ME 310 Thermodynamics and Heat Transfer 3(3,0)
Introduction to thermodynamics and heat transfer for nonmajors: properties of liquids and gases, first and second law analysis, introduction to cycles for power and refrigeration, heat flow by conduction and radiation, and convective heat flow and heat exchangers. Prereq: Junior standing in an engineering curriculum.

ME 312 Manufacturing Processes and Their Application 3(3,0)
Fundamental principles associated with production processes and their application to the manufacture of products from metals, polymers, ceramics, and composites. Emphasizes the physical and quantitative aspects of processing, the selection of processes to create products, and the identification processes used to manufacture existing products. Prereq: M E 304 (or concurrent enrollment), 306 (or concurrent enrollment), 333 (or concurrent enrollment).

ME 333 Mechanical Engineering Laboratory II 2(1,3)
Mechanical engineering principles and phenomena are reinforced through student conducted experiments. Presentation of fundamentals of instrumentation, calibration techniques, data analysis, and report writing in the context of laboratory experiments. Prereq: M E 302 (or concurrent enrollment), 303 (or concurrent enrollment), 305 (or concurrent enrollment), MTHSC 208.

ME 400 Senior Seminar 1(1,0)
Seminar addresses the problems encountered by engineering graduates in professional practice. Invited lecturers as well as faculty provide the lectures and demonstrations. Prereq: All required 300-level E CE, E M, and M E courses or consent of instructor.

ME 401 Mechanical Engineering Design 3(3,0)
Project-oriented course in mechanical engineering emphasizing the role of analysis, synthesis, and evaluation in design and on written reporting of design solutions. Influence of economics and optimization, concurrent development, integration of design and manufacturing, and system creation are utilized for engineering design decisions. Prereq: M E 301, 303, 304, 305, 306 (Concurrent enrollment in one of these courses is permitted with departmental approval.)

ME 402 Internship in Engineering Design 3(1,6)
Creative application of general engineering knowledge in solving an open-ended design problem provided by a sponsor typically external to the University. Progress is evaluated by a faculty jury. Students present results to the jury and sponsor through written reports and oral presentations addressing University written/oral competency goals. Prereq: M E 401, 404 (or concurrent enrollment).

ME 403 Control and Integration of Multidomain Dynamic Systems 3(3,0)
Introduction of control theory with sensor, actuator, and dynamic plant integration to develop, model, control, and analyze mathematical models of mechanical, electrical, hydraulic, and pneumatic systems. Transient dynamics are determined using analytical and numerical methods with feedback control systems. Strong emphasis is placed on system design using computer simulation tools. Prereq: M E 305.

ME 404 Manufacturing Processes and Their Application 3(3,0)
Fundamental principles associated with production processes and their application to the manufacture of products from metals, polymers, ceramics, and composites. Emphasizes the physical and quantitative aspects of processing, the selection of processes to create products, and the identification of processes used to manufacture existing products. Prereq: M E 301, 303, 304, 305, 306.

ME 405 Kinematics and Dynamics of Machinery I 3(3,0)
Graphical, analytical, and numerical techniques are used in the dynamic analysis and synthesis of machines. Emphasis is on the application of these analysis techniques to planar linkages. Prereq: E M 202, 364, M E 205.

ME 407, 607 Applied Heat Transfer 3(3,0)
Applications-oriented extension of M E 304, concerning topics in transient conduction, flow of fluids, energy exchange by radiation, and mass transfer. Applications in heat-exchanger design with emphasis on economics and variation of operating conditions from the design point. Prereq: M E 304, consent of instructor.

ME 415, H415 Undergraduate Research 1-3
Individual research projects conducted under the direct supervision and guidance of a faculty member. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

ME 416, 616 Control of Mechanical Systems 3(3,0)
Physical modeling and feedback principles are presented for control of mechanical systems. Transient response, root locus, and frequency response principles are applied to the control of basic mechanical systems such as electric motors, fluid tanks, or thermal processes. PID control laws are emphasized. Prereq: M E 305.

ME 417, 617 Mechatronics System Design 2(3,2)
Mechatronics integrates control, sensors, actuators, and computers to create a variety of electromechanical products. Includes concepts of design, appropriate dynamic system modeling, analysis, sensors, actuating devices, and real time microprocessor interfacing and control. Laboratory experiments, simulation, and design projects are used to exemplify the course concepts. Prereq: M E 305 or consent of instructor.

ME 418 Finite Element Analysis in Mechanical Engineering Design 3(2,3)
Introduction to the finite element method and solid modeling, finite element modeling and analysis using commercial codes; analysis strategies using finite elements; applications to heat transfer, fluid flow, and structures. Prereq: M E 205, 302, 304, 308, or consent of instructor.

ME 420, 620 Energy Sources and Their Utilization 3(3,0)
Covers availability and use of energy sources such as fossil fuels, solar (direct and indirect), and nuclear; addresses energy density and constraints to use (technical and economic) for each source. Prereq: M E 303, 304.

ME 421, 621 Introduction to Compressible Flow 3(3,0)

ME 422, 622 Design of Gas Turbines 3(3,0)
Guiding principles in gas turbine cycles are reviewed. Turbine and compressor design procedures and performance prediction for both axial and radial flow machines are presented. Methods of design of rotary heat-exchangers and retrofitting gas turbine for regenerative operation are presented. Design projects are used to illustrate the procedures. Prereq: M E 308.

ME 423, 623 Introduction to Aerodynamics 3(3,0)
Basic theories of aerodynamics are presented for the purpose of accurately predicting the aerodynamic forces and moments which act on a vehicle in flight. Prereq: M E 308.

ME 424 Mechanical Engineering Laboratory IV 1(0,3)
Continuation of M E 444. Mechanical engineering principles and phenomena are reinforced through open-ended, student designed and conducted experiments. Utilization of mature skills in measurement techniques, data analysis, and report writing. Prereq: M E 301, 303, 304, 305, 306, 404 (or concurrent enrollment), 444.

ME 429, 629 Thermal Environmental Control 3(3,0)
Mechanical vapor compression refrigeration cycles, refrigerants, thermoelectrical cooling systems, cryogenics, thermodynamic properties of air, psychometric charts, heating and cooling coils, solar radiation, heating and cooling loads, insulation systems. Prereq: M E 303, 308.

ME 430, 630 Mechanics of Composite Materials 3(3,0)

ME 431 Applied Fluids Engineering 3(3,0)
Applications-oriented course in industrial fluids engineering, primarily directed toward the analysis and design of piping systems and components for liquid and gas flow. Topics include friction factors, head loss, flow capacities, piping networks, flow measurement, pumps, control valves, and hydraulic and pneumatic components. Prereq: M E 308, 333.
M E 432, 632 Advanced Strength of Materials 3(3,0) Topics in strength of materials not covered in M E 302. Three-dimensional stress and strain transformations, theories of failure, shear center, unsymmetrical bending, curved beams, and energy methods. Other topics such as stress concentrations and fatigue concepts are treated at time permits. Preq: M E 302.

M E 440 Materials for Aggressive Environments 3(3,0) Emphasizes the engineering aspects of selecting materials for applications in aggressive environments. Various types of materials degradation are discussed as are methods for wastage prevention, including especially engineering design and materials selection approaches. Structural metallic alloys are emphasized; however, technically important ceramics and polymers are also discussed. Preq: M E 301, 306.

M E 444 Mechanical Engineering Laboratory III 2(1,3) Continuation of M E 333. Mechanical engineering principles and phenomena are reinforced through student-conducted experiments. Presentation of fundamentals of instrumentation, calibration techniques, data analysis, and report writing in the context of laboratory experiments. Preq: M E 301 (or concurrent enrollment), 304 (or concurrent enrollment), 305 (or concurrent enrollment), 306 (or concurrent enrollment), M E 333, MTHSC 302 or EX ST 411.

M E 450, 650 Mechanical Vibrations 3(3,0) Mathematical analysis of physical problems in the vibration of mechanical systems. Topics include linear-free vibrations, forced vibrations, and damped problem solving for single degree of freedom systems, transient vibrations, critical speeds and whirling of rotating shafts, dynamic balancing, and multi-degree of freedom systems with lumped parameters. Preq: E M 202, M E 302, MTHSC 208.

M E 453, 653 Dynamic Performance of Vehicles 3(3,0) Introduces techniques for analyzing the dynamic behavior of vehicles. Types of vehicles to be considered are chosen from aircraft, surface ships, automobiles and trucks, railway vehicles, and magnetically levitated vehicles. Preq: M E 205, 305, or consent of instructor.

M E 454, 654 Design of Machine Elements 3(3,0) Design of common machine elements including clutches, brakes, bearings, springs, and gears. Optimization techniques and numerical methods are employed as appropriate. Preq: M E 306 or consent of instructor.

M E 455, 655 Design for Computer-Automated Manufacturing 3(3,0) Concepts of product and process design for automated manufacturing are considered. Topics include product design for automated manufacturing, inspection and assembly, using automation, industrial robots, knowledge-based systems and concepts of flexible product manufacture. Preq: M E 301, 306, 404 (or concurrent enrollment), or consent of instructor.

M E (E C E) 456, 656 Fundamentals of Robotics 3(3,0) Introduction to the fundamental mechanics and control of robots, including their application to advanced automation. Topics include robot geometry, kinematics, dynamics, and control. Planar machine structures are emphasized, including methods using computer analysis. Application considerations include the design and operation of robot systems for manufacturing and teleoperation. Preq: M E 305, 416 (or concurrent enrollment), or consent of instructor.

M E 471, 671 Computer-Aided Engineering Analysis and Design 3(2,3) Students are exposed to geometric and solid modeling, finite elements, optimization, and rapid-prototyping. Students design an artifact, represent it on the computer, analyze it using FEA, then optimize before prototyping it. Emphasizes the use of computer-based tools for engineering design. Preq: ENGR 141, M E 202, or consent of instructor.

M E 493, 693 Selected Topics in Mechanical Engineering 1-6(1-6,0) Study of topics not found in other courses. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

MICROBIOLOGY

MICRO 104 Microbes and Human Affairs 1(1,0) Introduction to Microbiology majors to University career and library services, evaluation of computer program proficiency, Web page development, Microbiology emphasis areas, and Microbiology faculty. Students initiate their own Web-based student portfolios, which showcase their skills and experiences (e.g., résumés, accomplishments, and work samples) during their undergraduate program. Coreq: BIOL 103/105 or 110 or consent of course coordinator.

MICRO 205 Introductory Microbiology 4(3,3) Basic concepts of microbiology, introduced through classroom and laboratory experiences. Emphasizes practical applications in various areas of importance to man. Recommended for students not majoring in a biological science. Not open to Microbiology majors. Preq: CH 101, 102, BIOL 103/105.

MICRO (BIOC) 394 Selected Topics in Creative Inquiry I 2-3(1,3-6) See BIOC 394.

MICRO 400, H400, 600 Public Health Microbiology 3(3,0) Epidemiology of transmissible diseases including pathogenic characteristics of the infectious organism, modes of transmission, mechanism of infection, diagnostic aids, effective treatments, immunizing procedures, and methods of preventing infection. Preq: MICRO 305.

MICRO 401, H401, 601 Microbial Diversity and Ecology 4(2,6) In-depth survey of microbial morphology, ecology, and diversity. Study of the interaction and adaptation of microbes in a wide range of environmental conditions, including consideration of their metabolism, nutrition, growth and the use of microbiological assays. Preq: CH 201 or 223, 227, MICRO 305.

MICRO 403, 603 Marine Microbiology 3(2,3) Discussion of the microbes that inhabit the marine environment, their peculiar physiological traits, and contributions to the ecology of oceans. Preq: MICRO 305, organic chemistry.

MICRO 410, H410, 610 Soil Microbiology 3(2,3) Role of microorganisms in the decomposition of organic substances, transformation of nitrogen and mineral substances in the soil; interrelationships between higher plants and microorganisms; importance of microorganisms in soil fertility. Preq: MICRO 305.

MICRO 411, H411, 611 Pathogenic Bacteriology 4(3,3) Study of pathogenic bacteria, their morphology, cultural requirements and classification; diagnostic tests, methods of differentiation, and the diseases caused. Preq: MICRO 305.

MICRO 412, H412, 612 Bacterial Physiology 4(3,3) Consideration of the cytology, physiology, metabolism, and genetics of bacteria. Includes studies of growth and death, reproduction and mutation, nutrition and metabolic pathways, regulatory mechanisms, and effects of environment. Preq: CH 224. MICRO 305, one semester of biochemistry, or consent of instructor.

MICRO 413, H413, 613 Industrial Microbiology 3(2,3) Microbial aspects of large-scale processes for the production of foods, antibiotics, enzymes, fine chemicals, and beverages. Topics include strain selection, culture maintenance, biosynthetic pathways, continuous cultivation and production of single cell protein. Preq: MICRO 305.

MICRO (AVS, BIOSC) 414, H414, 614 Basic Immunology 4(3,3) Consideration of the nature, production, and function of basic immune responses in animals. Procedures and mechanisms of antigen-antibody and other immune reactions. Preq: MICRO 305, organic chemistry.

MICRO 415, H415, 615 Microbial Genetics 4(3,3) Cytological basis of bacterial, fungal, and viral genetics; molecular aspects; mutations; mechanisms of genetic transfers; epimemes and plasmids; and population changes. Preq: BIOCH 301, CH 224, MICRO 305, or consent of instructor.
Courses of Instruction

MICRO 416, H416, 616 Introductory Virology 3(3,0)
Introduction to the field of virology, including animal, bacterial, and plant viruses. Topics include nomenclature and classification, biochemical and biophysical characteristics, mechanisms of replication, chemotherapy, and techniques for isolation, assay, and purification. Prereq: BIOCH 301, MICRO 305, or consent of instructor.

MICRO 417, H417, 617 Molecular Mechanisms of Carcinogenesis and Aging 3(3,0)
Changes which occur at the cellular and subcellular levels during transformation and aging. Accumulated damage and “intrinsich clock” theories of aging; genetic and epigenetic theories of carcinogenesis; epidemiology of cancer; viral, radiation-induced, and chemical carcinogenesis; the immune system and cancer. Prereq: BIOCH 301, MICRO 305, or consent of instructor.

MICRO (BIOSC, GEN) 418, 618 Biotechnology I: Nucleic Acids Techniques 4(2,4)
See GEN 418.

MICRO 419, 619 Selected Topics in Molecular Medicine 3(3,0)
Introduction to various areas of molecular medicine. Examines the latest research and developments in molecular medicine. Designed for students interested in medicine and biomedical research. Graduate students may repeat for a maximum of six credits. Prereq: BIOCH 301, MICRO 305, or consent of instructor.

MICRO (BIOSC) 491 Undergraduate Research in Microbiology 1-4(0,3-12)
Individually mentored research problems in various areas of microbiology that introduce undergraduate students to the planning and execution of research experimentation and the presentation of research findings. May be repeated for a maximum of eight credits with consent of instructor. Honors students must take at least six hours under a single research advisor over two semesters. Honors thesis is required. Prereq: Consent of instructor.

MICRO (BIOSC) 492 Internship for Biological Sciences 1-4(0,3-12) See BIOSC 492.

MICRO (BIOSC) 493 Senior Seminar 2(2,0)
See BIOSC 493.

MICRO (BIOSC) 494 Selected Topics in Creative Inquiry II 2-3(1,3-6) See BIOSC 494.

MICRO (BIOSC) 495 Service Learning in Biology 2-4(1-2,3-9) See BIOSC 495.

MILITARY LEADERSHIP

Professor: F. S. Choi, Chair; Assistant Professors: D. W. Eaton, H. A. Pennington, W. G. Richards, Jr., G. K. Smith, R. J. Webber; Instructors: A. L. Hunter, J. L. McLean

M L 101 Leadership Fundamentals I 2(2,1)
Study of leadership focused at the individual level. Students learn effective communicating skills, ethical decision making, small group management, and mental and physical conditioning. Skills are applied in a variety of challenging training events during laboratory, including rappelling, water survival, land navigation, and team athletics.

M L 102 Leadership Fundamentals II 2(2,1)
Continued study of leadership focused at the individual and team levels. Topics include problem solving, critical thinking, leadership styles, and group cohesion. Leadership laboratory training includes small tactics and weapons firing.

M L 103 Becoming a Leader 3(3,0)
Study of basic leadership, covering leadership theory and skills, organizational systems to support leaders, problem solving, values and ethics, and communication skills. Includes lecture, practical exercises, and guest speakers.

M L 201 Leadership Development I 2(2,1)
Study of leadership focused at the team level. Students develop leadership skills through public speaking, managing small groups, and mentoring first-year students. Skills are applied in a variety of challenging training events during leadership laboratory, including rappelling, water survival, land navigation, and team-building exercises.

M L 202 Leadership Development II 2(2,1)
Continued study of leadership at the team and small group levels. Focuses on moral leadership, officerhood, and the Army as a profession. Leadership laboratory training includes small unit tactics, airmobile operations, and weapons firing. Students lead teams throughout the semester.

M L 210 Leaders’ Training Course 4(2,6)
Five-week leadership camp conducted on an Army post. Students’ pay and expenses are provided by the U.S. Army. Environment is rigorous and includes decision making, small group decision making and conflict management skills, and reinforce physical fitness and lifestyle skills. May be repeated for a maximum of six credits. Prereq: M L 302.

M L 301, M L 302 Advanced Leadership I 3(2,2)
Continuation of M L 210, Cadet Field Leadership Training 1-6. Eight-week program conducted by the U.S. Military Academy to develop leadership skills among junior cadets. Seven weeks of the course are held at West Point with one week at Fort Knox, KY, for Mounted Maneuver Training. To be taken Pass/Fail only. Prereq: M L 202.

M L 301 Advanced Leadership I 3(2,2)
Study of leadership focused on decision making, planning, communicating, and executing. Addresses motivational techniques, the role of a leader, and performance assessment. Provides students with leadership management tools and methodology. Students are responsible for training, developing, and mentoring Basic Course students. Students apply learned techniques in leadership laboratory. Prereq: M L 202 or 210.

M L 302 Advanced Leadership II 3(2,2)
Continuation of leadership study focusing on collective skills training, tactics, and small group instruction. Synthesizes various components of training, leadership, and team-building learned during the Basic Course and M L 301. Final step in students’ progression prior to the Leader’s Development and Assessment Course. Prereq: M L 301.

M L 401 Organizational Leadership I 3(2,2)
Culmination of leadership study in preparation for commissioning as Army officers. Students continue exercising leadership and management skills as senior cadet leaders. Leadership instruction focuses on coordinating activities with staffs, communicating effectively, counseling and mentoring subordinates, training management and ethics. Prereq: M L 302, Leader’s Development and Assessment Course.

M L 402 Organizational Leadership II 3(2,2)
Continuation of M L 401. Focused on the continued study of moral, ethical, and legal issues faced by leaders. Includes instruction in administrative and logistical management. Requires students to apply their knowledge individually and collectively to solve problems and improve the organization. Prereq: M L 401.

M L 451 Organizational Leadership III 3(2,3)
Transitional leadership development and training for completion cadets and others designed to enhance practical experiences in managing organizational training programs, develop leadership skills by serving in cadet staff positions, develop small group decision making and conflict management skills, reinforce physical fitness and lifestyle skills. Required of all students. May be repeated for a maximum of six credits. Prereq: M L 302.

MUSIC

MUSIC 101 Beginning Class Piano I 1(0,2)
Thorough introduction to basic keyboard skills including solo and ensemble repertoire, technique, applied keyboard theory, and performance. Applied music fee is assessed. Prereq: Consent of instructor.

MUSIC 102 Beginning Class Piano II 1(0,2)
Continued work on keyboard skills, applied keyboard theory, solo and ensemble repertoire, and performance. Applied music fee is assessed. Prereq: MUSIC 101 or consent of instructor.

MUSIC 105 Music Fundamentals 3(3,0)
Covers the rudiments of music theory and aural skills. Includes notation, scales, key signatures, intervals, and chord construction, as well as sight singing and ear training.

MUSIC 111 Beginning Class Guitar I 1(0,2)
Introduction to basic guitar skills, including finger-style technique, strumming, and song accompaniment. Students develop skills and appreciation of the discipline through teacher-led drills, ensemble playing, and the exploration of guitar history, style, and the impact of various players and composers on the medium. Applied music fee is assessed. Prereq: Consent of instructor.
MUSIC 112 Beginning Class Guitar II 1(0,2) Continued work on guitar skills, including finger-style, strumming, pick playing, ensemble playing, and soloing. Also includes music theory for guitarists such as keys, scales, and chord building, as well as discussions of the impact of various players and composers on the medium. Applied music fee is assessed. Preq: MUSIC 111 or consent of instructor.

MUSIC 121 Beginning Class Voice 1(0,2) Introduction to basic vocal skills, including breathing, tone production, intonation, and interpretation. Includes solo and ensemble repertoire. In-class group and individual performances are required. Applied music fee is assessed. Preq: Consent of instructor.

MUSIC 131 Beginning Instrumental Class I 1(0,2) Introduction to basic instrumental skills in a class setting, including proper playing position, tone production, intonation, and ensemble playing. Includes brief history and usage of the given instruments. Different instrumental groups are taught as separate course sections. May be repeated for a maximum of six credits, but only on other instruments. Applied music fee is assessed. Preq: Consent of instructor.

MUSIC 151 Applied Music I 1(0,1) Individual study in performance medium (piano, voice, strings, woodwinds, brass, percussion, guitar, organ, or carillon). One 30-minute lesson each week, for which a maximum of four hours practice is required. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Preq: Consent of instructor, based upon a qualifying audition.

MUSIC 152 Applied Music I 1(0,1) Continuation of MUSIC 151. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Preq: MUSIC 151.

MUSIC 153 Applied Music for Majors I 1(0,1) Individual study in vocal or instrumental performance (voice, woodwinds, brass, strings, percussion or keyboards). One 45-minute lesson each week. Jury required. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Preq: Performing Arts major (Music Concentration) and consent of instructor, based upon qualifying audition.

MUSIC 154 Applied Music for Majors I 1(0,1) Continuation of MUSIC 153. Jury and performance on a recital are required. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Preq: MUSIC 153, consent of instructor.

MUSIC 180 Introduction to Music Technology 3(2,3) Introduction to music notation, sequencing, digital audio, sound reinforcement, analog and digital recording, and other current music technologies. Preq: Performing Arts major or consent of instructor.

MUSIC 205 Music Theory I 3(3,0) Beginning analytical techniques in both the classical and popular genres, including aspects of harmony, melody, and rhythm. Preq: MUSIC 105, satisfactory score on departmental placement exam, or consent of instructor. Coreq: MUSIC 207.

MUSIC 206 Music Theory II 3(3,0) Continuation of MUSIC 205, with added emphasis on modulation and formal structures. Preq: MUSIC 205. Coreq: MUSIC 208.

MUSIC 207 Aural Skills I 1(0,2) Beginning studies in sight-singing and dictation (melodic, harmonic, and rhythmic). Coreq: MUSIC 205.

MUSIC 208 Aural Skills II 1(0,2) Continuation of MUSIC 207 with music of greater complexity and the use of C clefs. Coreq: MUSIC 206.

MUSIC 210, H210 Music Appreciation: Music in the Western World 3(3,0) Deepens students’ appreciation of their musical heritage through study of the elements of the musical language and its development in Western culture.

MUSIC 251 Applied Music I 1(0,1) Continuation of MUSIC 152. Applied music fee is assessed. Preq: MUSIC 152, consent of instructor.

MUSIC 252 Applied Music I 1(0,1) Continuation of MUSIC 251. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Preq: MUSIC 251, consent of instructor.

MUSIC 253 Applied Music for Majors I 1(0,1) Continuation of MUSIC 154. May be repeated for credit with departmental approval of differing performance media. Jury required. Applied music fee is assessed. Preq: MUSIC 254, consent of instructor.

MUSIC 254 Applied Music for Majors I 1(0,1) Continuation of MUSIC 253. May be repeated for credit on other performance media with departmental approval. Jury and performance on a recital are required. Applied music fee is assessed. Preq: MUSIC 253, consent of instructor.

MUSIC 279 Music Practicum 1(0,3) Practical work in music on productions designed for public presentation. Emphasizes sound, amplification, and mixing. May be repeated for a maximum of four credits. Preq: Consent of instructor.

MUSIC 280 Sound Reinforcement 3(2,2) Theory and practice of using audio equipment for amplifying sound in venues ranging from conference rooms to concert halls and sports arenas. Preq: Performing Arts major or consent of instructor.

MUSIC 285 Acoustics of Music 3(3,0) Study of the relationship between the laws of physics and the production of music from an audio engineer's perspective. Topics include mechanical and acoustical laws, harmonic analysis, musical scales, sound production in instruments, and the physiology of hearing. Preq: Performing Arts major.

MUSIC 310 Survey of Music History 3(3,0) Comprehensive survey of the Western art music tradition from the Middle Ages to the present. Preq: MUSIC 206, Performing Arts major; or consent of instructor.

MUSIC 311 History of American Music 3(3,0) Music in America from 1620 to the present. Indigenous and borrowed influences are examined.

MUSIC 312 History of Jazz 3(3,0) Comprehensive survey of jazz elements and styles. A historical perspective from Dixieland to bebop to jazz/rock is included.

MUSIC 313 History of Rock and Roll 3(3,0) Comprehensive survey of rock elements, styles, and artists. Emphasizes the evolution of rock and roll including a broad examination of musical influences. Course content examines how rock and roll both reflected and influenced social issues.

MUSIC 314 World Music 3(3,0) Introduction to ethnomusicology and music of the world’s peoples. Emphasis is placed on music through culture.

MUSIC 317 History of Country Music 3(3,0) Chronological study of country music origins, styles, and artists. Emphasizes the evolution of country music from a cultural expression of the South to a commercial art form of worldwide appeal.

MUSIC 321 Principles of Piano Performance I 3(3,0) In-depth study of the principles of piano performance focusing on how to interpret a musical score, develop technical skills and practice techniques, and use the body correctly at the keyboard. Preq: By audition.

MUSIC 323 Piano Accompanying I 1(0,3) Group study in piano accompanying. Focuses on sight-reading and choral, vocal, and instrumental accompanying. Students take group lessons and accompany choral groups and/or applied music students. Preq: Consent of instructor.

MUSIC 325 CU Carillonneurs 1(0,2) Group study in playing the 47-bell University carillon. One two-hour meeting each week for which a minimum of two hours of individual practice is required. Participation in a recital is required. Preq: Musical keyboard experience, consent of instructor.

MUSIC 330 Small Ensemble 1(0,3) Ensembles: devoted to the musical training of instrumental, vocal ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Enrollment in simultaneous sections is allowed. Preq: Consent of director.

MUSIC 331 Pep Band 1(0,3) Ensembles devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given in addition to the minimum rehearsal time. Simultaneous enrollment in multiple sections is allowed. Preq: Consent of director.

MUSIC 332 Woodwind Quintet 1(0,3) Ensembles: advanced study of woodwind chamber music media. One one-hour class meeting each week, for which a minimum of two hours of ensemble practice is required. Preq: By audition only; concurrent enrollment in MUSIC 362.

MUSIC 333 String Quartet 1(0,3) Ensembles: advanced study of string quartet repertoire. Two 90-minute meetings each week for which a minimum of two hours of practice is required. Preq: By audition only. Coreq: MUSIC 369, Applied Music.

MUSIC 334 Flute Choir 1(0,3) Ensembles: study of flute ensemble literature. One 60-minute meeting each week for which a minimum of two hours of practice is required. Preq: By audition only.
MUSIC 336 Percussion Ensemble 1(0,2) Ensembles: study and performance of percussion ensemble literature. One two-hour class meeting each week, for which a minimum of two hours of individual practice is required. Coreq: MUSIC 331, 362, 363, 364, or 369.

MUSIC 337 Steel Drum Band 1(0,2) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given in addition to the minimum rehearsal time. Rehearsals also include discussions of steel band history and performance practice. Prereg: Consent of director.

MUSIC 341 Men's Breakout Ensemble 1(0,2) Small ensembles: study of male a cappella/popular music on an advanced level. Coreq: MUSIC 370 or 372 or consent of instructor.

MUSIC 342 Women's Breakout Ensemble 1(0,2) Small ensembles: study of women's a cappella/popular vocal music on an advanced level. Enrollment is limited with priority given to students who are enrolled in a large choral ensemble. Coreq: MUSIC 370 or 371 or consent of instructor.

MUSIC 343 Men's Small Ensemble 1(0,2) Small ensembles: study of male a cappella/popular, barbershop, and nostalgic music on an advanced level. Coreq: MUSIC 370 or 372 or consent of instructor.

MUSIC 344 Vocal Jazz Ensemble 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Coreq: MUSIC 370, 371, 372 or consent of instructor.

MUSIC 351 Applied Music 1(0,1) Continuation of MUSIC 252. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereg: MUSIC 252, consent of instructor.

MUSIC 352 Applied Music 1(0,1) Continuation of MUSIC 351. Students are required to perform an appropriate solo in a student recital. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereg: MUSIC 351, consent of instructor.

MUSIC 353 Applied Music for Majors 1(0,1) Continuation of MUSIC 254. May be repeated on other performance media with departmental approval. Jury is required. Applied music fee is assessed. Prereg: MUSIC 254, consent of instructor.

MUSIC 361 Marching Band 1(0,3) Ensembles: devoted to musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Offered fall semester only. Prereg: Consent of director.

MUSIC 362 Symphonic Band 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Prereg: Consent of director.

MUSIC 363 Jazz Ensemble 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Prereg: Consent of director.

MUSIC 364 Concert Band 1(0,2) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Prereg: Consent of director.

MUSIC 369 Symphony Orchestra 1(0,3) Mid-sized, college-community orchestra devoted to performing works from standard repertoire. Weekly evening rehearsals with one or more performances per semester. Prereg: Consent of director.

MUSIC 370 Clemson University Singers 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Prereg: Consent of director.

MUSIC 371 Women's Glee 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given in addition to the minimum rehearsal time. Prereg: Consent of director.

MUSIC 372 Men's Glee 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Students are required to perform an appropriate solo in a student recital. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereg: MUSIC 370, 371, 372 or consent of instructor.

MUSIC 373 University Chorus 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Emphasis is placed on applying this knowledge to the creation of instrumental and vocal arrangements. Prereg: MUSIC 180, 205, or consent of instructor.

MUSIC 380 Audio Engineering I 3(2,2) Intermediate-level course in music technology focusing on digital hard-disc recording and acoustical considerations in audio engineering. Prereg: MUSIC 180 or consent of instructor.

MUSIC 398 Special Topics in Music 3(3,0) Consideration of select areas of study in music not addressed by other music courses. May be repeated once for credit. Prereg: Consent of instructor.

MUSIC 400, 600 Music in the Elementary Classroom 3(3,0) Familiarizes teachers in the elementary classroom with traditional, Kodaly, Orff, and Kodzhuk approaches in correlating music with language arts, mathematics, and social studies.

MUSIC 405 Instrumental and Vocal Arranging 3(2,3) Advanced study of the properties of instruments and voices and their combination in various small and large ensembles. Emphasis is placed on applying this knowledge to the creation of instrumental and vocal arrangements. Prereg: MUSIC 180, 205, or consent of instructor.

MUSIC 415 Music History to 1750 3(3,0) Development of Western music from antiquity to 1750, emphasizing representative literature from various styles and periods. Prereg: MUSIC 210, 310, or consent of instructor.

MUSIC 416 Music History Since 1750 3(3,0) Continuation of MUSIC 415. Music from 1750 to the present. Prereg: MUSIC 210, 310, or consent of instructor.

MUSIC 430 Conducting 3(3,0) Study of choral and instrumental conducting. Emphasis is on manual conducting techniques, attitudes, philosophies, and responsibilities necessary for the preparation, planning, and execution of artistic conducting. Prereg: MUSIC 205 or consent of instructor.

MUSIC 431 Conducting 1(0,1) Continuation of MUSIC 352, guiding students in interpretation of advanced solo and ensemble literature. Students are required to perform an appropriate solo in a student recital. Applied music fee is assessed. Prereg: MUSIC 352 and consent of instructor.

MUSIC 432 Applied Music for Majors 1(0,1) Continuation of MUSIC 354. May be repeated on other performance media with departmental approval. Jury is required. Applied music fee is assessed. Prereg: MUSIC 354, consent of instructor.

MUSIC 434 Vocal Jazz Ensemble 1(0,3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Coreq: MUSIC 370, 371, 372 or consent of instructor.

MUSIC 435 Conducting 3(3,0) Consideration of select areas of study in music not addressed by other music courses. May be repeated once for credit. Prereg: Consent of instructor.

MUSIC 436 course may be repeated for credit with a maximum of 16 hours of ensemble credit allowable toward a degree.
NONPROFIT LEADERSHIP

NPL 300 Foundations in Nonprofit Leadership 2(2,0) Students develop an understanding of historical and philosophical aspects of nonprofit organizations, as well as special skills needed to develop boards, recruit volunteers, raise funds, and manage day-to-day operations. Career development opportunities are also explored.

NPL 390 Practicum I 1(0,3) Under agency supervision, students spend 60 hours observing and implementing activities, events, and programs in a nonprofit, faith-based, grassroots, or organization approved by instructor. To be taken Pass/Fail only. Preq: Enrollment in Nonprofit Leadership minor, consent of instructor.

NPL 490 Practicum II 2(0,6) Under agency supervision, students spend 100 hours planning, organizing, and implementing activities, events, and programs in a nonprofit, faith-based, grassroots, or organization approved by instructor. Preq: Enrollment in Nonprofit Leadership minor, consent of instructor.

NURSING

NURS 140 Computer Applications in Health Care 3(3,0) Introduction to the application of computers in the delivery of health care. Covers existing health care applications and forecasts future needs. Multiple computer systems are discussed. Nursing majors will be given enrollment priority.

NURS 300 Seminar in Health Care Topics 1-4(1-4,0-0,9) Individualized in-depth study in a selected health care area; may have a clinical component and/or special projects. Open to non-Nursing majors. May be repeated for a maximum of six credits. Preq: Consent of instructor.

NURS 303 Nursing of Adults 7(3,12) Incorporates theoretical and empirical knowledge from physical and social sciences. Uses critical thinking to provide holistic, safe, individualized nursing care to adults, including health promotion, maintenance, restoration, and health teaching. Preq: NURS 304, 310, 312, 340. Preq or Coreq: NURS 320.

NURS 304 Pathophysiology for Health Care Professionals 3(3,0) Focuses on disease mechanisms and recognition of the manifestations of these mechanisms in body systems. Discussion also includes pharmacologic and mechanical interventions commonly associated with specific disease processes and application to patient-care situations. Preq: BIOSC 223.
NURS 408 Senior Nursing Practicum 3(1,4)
Consider the impact of selected health issues and problems on the practice of nursing. Presents licensure preparation, maintaining currency in the field, and other relevant topics facing the professional nurse. Under preceptor supervision, students observe, organize, and implement entry level nursing practice. To be taken Pass/Fail only. Preq: NURS 401, 411, 412. Coreq: NURS 403, 415.

NURS 411 Nursing Care of Children 5(3,4)
Focuses on child health problems and health maintenance. Emphasizes biological, pathophysiological, psychological, and sociocultural concepts related to nursing care of children with acute, critical, and chronic illnesses. Includes strategies for alleviation of illness, restoration of wellness, promotion and maintenance of health, growth, and development. Preq: All required 300-level Nursing courses.

NURS 412 Nursing Care of Women and Their Families 5(3,4)
Emphasizes biological, psychological, and sociocultural concepts; identification of appropriate nursing strategies to enhance individual capacity to achieve or maintain wellness in the family, home, community, and hospital environment. Preq: All required 300-level Nursing courses.

NURS 415 Community Health Nursing 4(2,4)
Consideration of health promotion activities for family and community groups with emphasis on community assessment, screening, and health teaching/counseling. Practice activities are related to health promotion in population groups and nursing care of homebound clients. Laboratory settings include homes, schools, industries, and other community organizations. Preq: NURS 401, 411, 412, or admission to RN/BS program.

NURS H420 Senior Honors I 2(2,0)
Students develop a proposal for a major thesis, directed study project, or research project under the guidance of a faculty preceptor. Preq: Senior Honors standing, NURS H330.

NURS 425 Community Nursing 4(3,2)
Consideration of health promotion activities for groups within the community with emphasis on community assessment, screening, and health teaching/counseling. Practice activities are related to health promotion in population groups and nursing care of homebound clients. Laboratory settings include homes, schools, industries, public health department, and other community agencies. Preq: Admission to RN/BS program.

NURS H428 Senior Honors II 2(2,0)
Students implement a proposal for a major directed study project or research thesis under the guidance of a faculty preceptor. Preq: Senior Honors standing, NURS H405, H420.

NURS 485 Nurse Extern Practicum 6(0,18)
Practicum consisting of preceptor-supervised and faculty-led nursing clinical experiences in a regional health care facility. Preq: Completion of at least one adult health and one pathophysiology course or consent of instructor.

NURS 499 Independent Study 1-4(1-4,0-9)
In-depth study in an area of special interest in Nursing. Students develop specific objectives with a faculty member with expertise in the area of interest. May be repeated for a maximum of six credits. Preq: Consent of instructor.

**NUTRITION**

See also courses listed under Animal and Veterinary Sciences, Biochemistry, and Food Science.

**Professors:** A. B. Bodine II, K. L. Cason, T. C. Jenkins, M. E. Kunkel, D. V. Maurice; **Associate Professor:** V. J. Haley-Zitlin; **Assistant Professor:** M. D. Condor; **Senior Lecturer:** R. M. Haliema

**NUTR 203 Principles of Human Nutrition 3(3,0)**
Study of nutrient functions and requirements, food choices, dietary adequacy, and role of nutrition in physical fitness. Deals with social and scientific issues; health care policy; evaluation and interpretation of nutrition sources from government, private, academic, and the health care sectors. Credit toward a degree will be given for only one of NUTR 203, 205, 451.

**NUTR 205 Nutrition for Nursing Professionals 3(3,0)**
Investigation of targeted general and clinical nutrition topics, including principles of nutrition, life-cycle nutrition, relationship of diet to health and disease, and the role of nursing professionals and nutrition. Credit toward a degree will be given for only one of NUTR 203, 205, 451. Preq: Nursing major, BIOL 222. Coreq: BIOCS 223.

**NUTR 210 Nutrition and Physical Activity 3(3,0)**
Topics include roles of carbohydrates, fats, and proteins on energy utilization during exercise; altering body composition and improving fitness with diet and physical activity; importance of fluid intake on performance; effectiveness of dietary supplements and ergogenic aids; and choosing a diet appropriate for individual physical activity levels. Preq: BIOL 102 or equivalent.

**NUTR 101, H401, 601 Fundamentals of Nutrition 3(3,0)**
Biochemical and physiological fundamentals of nutrition applicable to man and domestic animals. Considers digestive processes and absorption and metabolism of carbohydrates, lipids, proteins, water, minerals, and vitamins. Discusses energy metabolism and comparative anatomy and physiology of digestive systems. Offered fall semester only. Preq: BIOCH 223, or consent of instructor.

**NUTR 420 Selected Topics in Nutrition 1-3(1-3)**
Comprehensive study of special topics in nutrition not covered in detail or contained in other courses. Current developments in each area are stressed. May be repeated for a maximum of three credits, but only if different topics are covered. Preq: Senior standing or consent of instructor.

**NUTR 421 Special Problems in Nutrition 1-4 (0.5-12)**
Independent research investigation in nutrition. Special emphasis is on developing a research proposal, conducting the research, and reporting the findings. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Senior standing or consent of instructor.

**NUTR 424, 624 Medical Nutrition Therapy I 4(3,3)**
Principles of nutritional assessment, education, and counseling skills; development of medical nutrition therapy for individuals with obesity and eating disorders, gastrointestinal disorders, metabolic and renal disorders. Preq: BIOCS 223, NUTR 451, or consent of instructor.

**NUTR 425, H425, 625 Medical Nutrition Therapy II 4(3,3)**
Development of medical nutrition therapy for individuals with various disease states including cardiovascular, hepatic, musculoskeletal, and neoplastic disorders. Also considers sociocultural and ethnic aspects of food consumption and alternative nutrition therapies. Preq: BIOCS 223, NUTR 424, or consent of instructor.

**NUTR 426, 626 Community Nutrition 3(3,0)**
Study of fundamentals of nutrition care delivery in community programs beginning with assessment and problem identification and continuing through the development, implementation, and evaluation of nutrition intervention programs. Preq: NUTR 451 or equivalent or consent of instructor.

**H451, H451, 651 Human Nutrition 3(3,0)**
Essentials of nutrition and principle nutritional deficiency conditions. Factors affecting adequacy of dietary intake, methods of determining nutritional status, development of nutrition standards, and recent advances in human nutrition. Credit toward a degree will be given for only one of NUTR 203, 205, 451. Preq: BIOCS 305/306 or equivalent or consent of instructor.

**NUTR 455, 655 Nutrition and Metabolism 3(3,0)**
Concepts of metabolism fundamental to understanding normal and therapeutic nutrition are examined. Bioenergetics as well as metabolism of carbohydrates, lipids, amino acids, vitamins, and minerals as they relate to nutrition are discussed. Preq: NUTR 451 and BIOCS 305 or 423 or 426 or consent of instructor.

**PACKAGING SCIENCE**

**Professors:** D. K. Cooksey, R. L. Thomas; **Associate Professors:** D. O. Darby, R. M. Kimmel, Chair; W. S. Whiteside; **Assistant Professor:** H. J. Park; **Lecturers:** G. S. Batt, D. M. Kimmel, R. T. Moore; **Adjunct Professors:** R. C. Cooksey, H. J. Park; **Adjunct Associate Professor:** M. Daum

**PKGSC 101 Packaging Orientation 1(1,0)**
Overview of the various principles and practices in packaging science, historical development, packaging as a career.

**PKGSC 102 Introduction to Packaging Science 2(2,0)**
Considers functions of a package; materials, processes, and technology used in package development; and the relationship of packaging to the corporation, consumer, and society as a whole. Preq: PKGSC 101 or consent of instructor.

**PKGSC 103 Packaging Science E-Portfolio 1(1,0)**
Packaging Science majors initiate professional electronic portfolios that showcase their skills and experiences and lead to career e-portfolios. Students demonstrate proficiency in using important software tools; are introduced to Packaging Science faculty, emphasis areas, and targeted library services; and discuss academic integrity. Preq: PKGSC 101. Coreq: PKGSC 102 or consent of instructor.
Courses of Instruction

PKGSC 201 Packaging Perishable Products 3(3,0)
Covers fundamental characteristics and applications of various materials and systems used to package perishable products such as foods and pharmaceuticals. Discusses packaging issues regarding food, pharmaceutical, and medical packaging. Includes product/package interactions and packaging requirements to address basic theory in food and pharmaceutical protection. Preq: CH 201, PKGSC 202, or consent of instructor.

PKGSC 202 Packaging Materials and Manufacturing 4(3,3)
Detailed study of packaging materials including glass, metal, metal foils and sheets, wood, paper, paperboard, plastics, composites, adhesives, coatings, cushioning media; their functional properties in packaging application; laminating and combining of different packaging materials. Preq: PKGSC 102 or consent of instructor.

PKGSC 204 Container Systems (Rigid and Flexible) 3(3,0)
Examination of all the packages and containers used to develop systems to distribute products. Compatibility of product and package, structural design, costs, and merchandising considerations are stressed. Preq: PKGSC 202, 206 (or concurrent enrollment) or consent of instructor.

PKGSC 206 Container Systems Laboratory 16(0,3) Laboratory practice in sample making, designing and constructing various containers. Preq: PKGSC 204 (or concurrent enrollment).

PKGSC 320 Package Design Fundamentals 3(2,3)
Study of specific package design concepts. Students understand how the design affects manufacturing processes, costs, and protective functions; begin skill development using hand-drawing and model packages; then move to software-based design and real packages. Preq: PKGSC 204, 206; CH 201 or 223; PHYS 207; or consent of instructor.

PKGSC 368, H368 Packaging and Society 3(3,0)
Study of the role of packaging in society as it specifically relates to the responsibilities of the packaging scientist in protecting people and the environment. Includes study of packaging and environmental regulations and guidelines currently in place to achieve these goals. Ability to make informed decisions and ethical judgments is an encompassing goal. Preq: PKGSC 102 or consent of instructor.

PKGSC 401, 601 Packaging Machinery 3(3,0)
Systematic study of types of machinery used to form, fill, seal, and handle various packaging products, and packaging materials. Emphasizes basic mechanical, electrical, pneumatic, and hydraulic components of packaging machinery along with packaging machinery terminology. Discusses methods for machine line optimization and layout. Preq: PKGSC 204, PHYS 207 or consent of instructor.

PKGSC 403 Packaging Career Preparation 1(1,0)
Preparation for a successful career in Packaging Science by completing the professional e-portfolio, and finalizing a résumé and career e-portfolio. Refines career skills through role playing. Topics include presentations, interviewing, effective collaboration and communication, business and foreign travel etiquette. Coreq: PKGSC 420, second semester senior standing or consent of instructor.

PKGSC 404, H404, 604 Mechanical Properties of Packages and Principles of Protective Packaging 3(3,0)
Study of the mechanical properties of products and packages and standard methods of determining these properties. Focuses on the functional properties of packages related to shock and vibration isolation and compression. Preq: PHYS 207, MTHSC 106, PKGSC 204, or consent of instructor.

PKGSC (FD SC) 409 Total Quality Management for the Food and Packaging Industries 3(3,0)
See FD SC 409.

PKGSC 416, 616 Application of Polymers in Packaging 4(3,3)
Detailed study of polymer science and engineering as applied to packaging science. Includes polymer morphology, rheology, physical properties, processing methods, and polymerization. Emphasizes relationships among processing, structure, and properties. Preq: PKGSC 204, 206; CH 201 or 223; PHYS 207; or consent of instructor.

PKGSC 420, 620 Package Design and Development 3(2,3)
Study of the principles and methods practiced in designing and developing packages and packaging systems and of methods used to coordinate and analyze package development activities including interfacing with product development, manufacturing, marketing, purchasing, and accounting. Preq: Second semester senior standing; PKGSC 368, 401, 404, 604, or consent of instructor.

PKGSC 421 Special Problems in Packaging Science 1-4(0,3-12)
Independent research in packaging science related to packaging materials, machinery, design, and applications. Special emphasis placed on organizing a research proposal, conducting research, and reporting results. May be repeated for a maximum of 15 credits. Preq: Consent of instructor.

PKGSC 422 Selected Topics in Packaging Science 1-3(1-3,0)
Comprehensive study of selected topics in packaging science not covered in detail or contained in other courses. Contemporary developments in each area are stressed. May be repeated for a maximum of 15 credits, but only if different topics are covered. Preq: Consent of instructor.

PKGSC 430, 630 Converting for Flexible Packaging 3(1,6)
Study of materials, methods, processes, and equipment used in converting web materials for flexible packaging. Laboratory provides hands-on experience preparing and operating pilot-scale converting equipment. Preq: PKGSC 204, 206; or consent of instructor.

PKGSC 440, 640 Packaging for Distribution 3(3,0)
Packages are exposed to various shipping methods and numerous hazards during distribution. To ensure adequate product protection, packaging professionals need to understand the fundamental principles of distribution packaging design. Topics include ASTM and ISTA packaging test methods, packaging design guidelines for distribution, terminology, transport modes, distribution hazards, and protective packaging materials. Preq: PKGSC 454 or consent of instructor.

PKGSC 454, 654 Product and Package Evaluation Laboratory 1(0,3)
Laboratory experiments to determine properties of packaging materials and to evaluate the response of packages and products to shock, vibration, and compression. Students operate standard testing equipment and become familiar with industry recognized test methods and standards. Preq: PKGSC 404 (or concurrent enrollment).

PKGSC 464, H464, 664 Food and Health Care Packaging Systems 4(3,3)
Characteristics, engineering properties, and applications of various materials and systems used in the packaging of foods, pharmaceuticals, and medical devices. Packaging systems for specific food and medical applications are considered. Laboratory and field exercises on food and medical packaging operations and packaging materials are included. Emphasis is on evaluation methods. Preq: PKGSC 201, 204, 206, or consent of instructor.

PKGSC 471, 671 Wood and Paper Packaging 3(3,0)
In-depth study of use of wood and paper in packaging. Covers characterization of raw materials, basic conversion processes, and the use of converted products in packaging. Emphasizes the relationship between structure, processing, and properties. Preq: PKGSC 102 or consent of instructor.

PAN AFRICAN STUDIES
Associate Professor: A. A. Bartley

P A S 101 Africa and the Atlantic World 3(3,0)
Study of Africa and its impact on the culture and life of peoples in the New World. Traces the impact Africans have had on shaping the music, language, dress, art, religion, and culture of the Western world.

P A S 301 Introduction to Pan African Studies 3(3,0)
Study of African American experience from an Afrocentric perspective from colonial America to the present.

P A S 498, 698 Seminar on Pan African Studies 3(3,0)
Research/writing seminar on the African American experience. Selected topics and themes from 1900 to present. Preq: HIST 311, 312, or 339, P A S 301.
PARKS, RECREATION, AND TOURISM MANAGEMENT

Courses of Instruction

**PRTM 201 Recreation and Society (3.0)**
Introduces students to the leisure patterns and environments of diverse constituents, including economic and racial minorities, women, elderly and physically challenged individuals, in an exploration of leisure needs and opportunities. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 205 PGM Seminar I (1.0)**
Development of a conceptual understanding of the professional golf management industry. Students must be established junior to senior standing. May be repeated for a maximum of eight credits. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 210 Introduction to Golf Management (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 220 Principles of Therapeutic Recreation (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 230 Advanced Methods of Teaching Golf (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 240 Facility Planning and Operations (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 250 PGM Seminar II (1.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 260 Practicum I (1.0)**
Students create and develop programs in a variety of settings, including parks, recreation agencies, schools, and private organizations, with special emphasis on topics covered in the PGM seminars. May be repeated for a maximum of eight credits. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 270 Introduction to Recreation Resources Management (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 280 Practicum II (1.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 290 Practicum III (1.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 300 Practicum IV (1.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 310 Therapeutic Recreation Leadership (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 320 Therapeutic Recreation Management (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 330 Therapeutic Recreation Programming (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 340 Therapeutic Recreation Policy and Planning (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 350 Therapeutic Recreation Evaluation (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 360 Therapeutic Recreation Ethics (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 370 Therapeutic Recreation Finance (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 380 Therapeutic Recreation Law (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 390 Therapeutic Recreation Administration (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 400 Therapeutic Recreation Research (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 410 Therapeutic Recreation Technology (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 420 Therapeutic Recreation Ethics (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 430 Therapeutic Recreation Law (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 440 Therapeutic Recreation Administration (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 450 Therapeutic Recreation Research (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 460 Therapeutic Recreation Technology (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 470 Therapeutic Recreation Ethics (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 480 Therapeutic Recreation Law (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.

**PRTM 490 Therapeutic Recreation Administration (3.0)**
Examination of the profession of therapeutic recreation and leisure services in the context of leadership and decision making, the characteristics of leadership, ethical and legal issues, and the role of the recreation manager. Prerequisite: 2.0 cumulative grade-point ratio. Corequisite: 2.0 cumulative grade-point ratio.
PRTM 320, H320 Recreation Policymaking 3(3,0) Structures and processes for public park and/or recreation policy formation in the United States. Preq: 2.0 cumulative grade-point ratio.

PRTM 321, H321 Recreation Administration 3(3,0) Analysis of the internal organization of a recreation department dealing with finances and accounting, records and reports, publicity and public relations, state and federal legislation, staff organization, coordination of community resources. Preq: PRTM 308, Junior standing, 2.0 cumulative grade-point ratio.

PRTM 330, H330 Visitor Services and Interpretation 3(3,0) Introduces the philosophy and principles of the art of environmental interpretation. Comprehensive survey of interpretive theory as it applies to the recreation and parks practitioner and the varying settings within the profession. Preq: 2.0 cumulative grade-point ratio.

PRTM 342, H342 Introduction to Tourism 3(3,0) Survey of travel and tourism in the United States with focus on terminology, demographics, financial significance, and trends. Preq: 2.0 cumulative grade-point ratio.

PRTM 344 Tourism Markets and Supply 3(3,0) Acquaints students with the principles of matching tourism markets and supply. Students examine the strategies used in developing markets. Preq: 2.0 cumulative grade-point ratio.

PRTM 349 Survey of Tourism Sites 1(0,3) On-site study of various exemplary components of the travel and tourism industry in the Southeast. There are additional costs to students to cover travel. To be taken Pass/Fail only. Preq: PRTM 342, Junior standing in Parks, Recreation, and Tourism Management; 2.0 cumulative grade-point ratio; consent of instructor.

PRTM 352 Camp Organization and Administration 3(2,3) Surveys the development and trends of camping in America. Considers programming for the operations of agency and private camps. Enables students to master the techniques of group living. Laboratory offers practical experience in camp craft including trips and outdoor cooking. Preq: 2.0 cumulative grade-point ratio.

PRTM 380 Community Recreation in South Carolina 3(1,4) Students study indoor and outdoor recreation facilities, governmental jurisdiction, funding, programming, management, and staffing at community recreation agencies throughout South Carolina during a hands-on five-day field trip. Preq: PRTM 101, 2.0 cumulative grade-point ratio, or consent of instructor.

PRTM 383 Golf Shop Operations 3(3,0) Provides students with the knowledge and skills necessary to succeed as managers of golf shops. Particular emphasis is on fundamental business planning, development of policies and procedures, merchandising, inventory control, pricing, and customer service. Preq: PRTM 282, 2.0 cumulative grade-point ratio.

PRTM 390 Independent Study in Parks, Recreation, and Tourism Management 1-3(1-3,0) Comprehensive studies and investigation of special topics not covered in other courses. Emphasizes field studies, community service, and independent readings. May be repeated for a maximum of six credits. Preq: Junior standing, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 391 Selected Topics in Parks, Recreation, and Tourism Management 2-3(2-3,0) In-depth examination of developing trends in parks, recreation, and tourism that warrant timely study. May be repeated twice for a maximum of six credits, but only if different topics are covered. Preq: Junior standing, 2.0 cumulative grade-point ratio.

PRTM 392 Special Event Management 3(3,0) Students acquire an in-depth knowledge about the field of special event management. Planning techniques, strategies, and requirements for planning, implementing, and evaluating community events are included. Emphasizes ordinances, planning, funding, and marketing. Preq: 2.0 cumulative grade-point ratio.

PRTM 395 PGM Seminar III 1(1,0) Covers business planning for golf operations and customer relations emphasizing topics covered in the PGA/PGM Training Program Level II checklist. Preq: PRTM 295, 2.0 cumulative grade-point ratio.

PRTM 398 Creative Inquiry—Parks, Recreation, and Tourism Management III 2-4(3-4,3-12) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

PRTM H399 Introduction to Field Training and Research 1(0,1) For students pursuing departmental honors, provides an initial orientation to the internship and research requirements including identification of a faculty mentor to supervise these activities. Preq: PRTM 207, consent of instructor.

PRTM 403 Elements of Recreation and Park Planning 3(3,0) Basic recreation and park planning principles, processes, and trends in area and facility development combine to form the basis for formulation of a relevant knowledge of planning. Preq: Senior standing, 2.0 cumulative grade-point ratio.

PRTM 404 Field Training I 1(1,0) Preparation for field training experience including topics such as résumé development, interviewing techniques, internship agency selection, and responsibilities of the student, department, and agency. To be taken Pass/Fail only. Preq: PRTM 206, 207 (or concurrent enrollment), 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 405 Field Training II 6(0,18) Minimum ten weeks (400 hours) of uninterrupted, supervised work in a park, recreation, or tourism management agency. Under agency supervision, students observe, organize, and implement activities, events, and programs. To be taken Pass/Fail only. Preq: PRTM 206, 207, 404; Senior standing in Parks, Recreation, and Tourism Management; 2.0 cumulative grade-point ratio; consent of instructor.

PRTM 407 Personnel Administration in Parks, Recreation, and Tourism Management 3(3,0) Study of personnel administration practices in recreation agencies, including employee selection, training, motivation, rewards, evaluation, and legal issues related to personnel and supervision. Preq: PRTM 321, 2.0 cumulative grade-point ratio.

PRTM H408 Honors Internship 6(0,18) Minimum of 400 hours of uninterrupted, supervised work in a park, recreation, or tourism setting. Written report on observations, special project, or research is required in compliance with a contract between student and course instructor. Preq: PRTM H399, consent of instructor.

PRTM 409, H409 Methods of Recreation Research I 3(3,0) Analysis of the principal methods of recreation research, the application of descriptive statistics to recreation research, and the development of a research proposal. Preq: EXST 301; Senior standing in Parks, Recreation, and Tourism Management; 2.0 cumulative grade-point ratio; or consent of instructor.

PRTM 410, H410 Methods of Recreation Research II 3(3,0) Continuation of PRTM 409; includes supervised execution and reporting of results of research proposal developed in PRTM 409 and the application of inferential statistics to research. Preq: PRTM 409, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 412, H412, 612 Therapeutic Recreation and Mental Health 3(3,0) Therapeutic recreation services in mental health clinics, institutions, and outdoor settings. Review of disorders and current models of treatment as they relate to therapeutic recreation. Preq: PRTM 311, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 416 Leisure and Aging 3(3,0) Examines the role of leisure services in later life, the needs of community-based and institutionalized elderly, and the development of service-delivery systems to meet those needs. Preq: 2.0 cumulative grade-point ratio.

PRTM 417 Therapeutic Recreation Processes I 4(3,2) Examination of models, principles, and procedures applicable to comprehensive program planning, specific program plans, individualized care plans, activity analysis, documentation, and evaluation. Preq: PRTM 311 or consent of instructor, three credit hours of human anatomy and physiology, 2.0 cumulative grade-point ratio.

PRTM 418 Therapeutic Recreation Processes II 4(3,2) Examination of theories and concepts that guide therapeutic recreation interventions, including knowledge and use of communication skills, therapeutic relationships, counseling theories, and group processing techniques. Preq: PRTM 311 and 417 or consent of instructor, 2.0 cumulative grade-point ratio.

PRTM 420 Therapeutic Recreation Trends and Issues 3(3,0) Advanced principles and practices of therapeutic recreation, including philosophy, ethics, professional development, standards of practice, certification, recreation inclusion, and marketing services. Preq: PRTM 416, 418 or consent of instructor, 2.0 cumulative grade-point ratio.

PRTM (GEOG) 430, 630 World Geography of Parks and Equivalent Reserves 3(3,0) Major international patterns in the provision and use of urban and rural parks and recreation are examined. Preq: 2.0 cumulative grade-point ratio.

PRTM 431, 631 Methods of Environmental Interpretation 3(2,3) Practice and instruction in the use of equipment and methods available to the interpreter in public contact work. Coaching in presentation and evaluation of live programs and in design, execution, and evaluation of mediat ed programs is the major emphasis. Programs are delivered to public audiences in the Clemson area. Preq: PRTM 330; Senior standing in Parks, Recreation, and Tourism Management; 2.0 cumulative grade-point ratio; consent of instructor.

PRTM 441, 641 Commercial Recreation 3(3,0) Components of offering leisure services and products to the public by individuals, partnerships, and corporations for the purpose of making a profit. Preq: 2.0 cumulative grade-point ratio.

PRTM 443, 643 Resorts in National and International Tourism 3(3,0) A variety of resort types are studied with respect to their development, organization, visitor characteristics, and environmental consequences. A case-study approach is used. Preq: 2.0 cumulative grade-point ratio.

PRTM 444, 644 Tour Planning and Operations 3(3,0) Provides the opportunity to understand the psychology of touring, with emphasis on packaged and group tours and how tours of different types and scale are planned, organized, marketed, and operated. Preq: PRTM 342, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 445, 645 Conference/Convention Planning and Management 3(3,0) Provides the opportunity to understand the problems of and solutions to conference and convention planning and management from both the sponsoring organization’s and facility manager’s perspectives. Preq: 2.0 cumulative grade-point ratio.

PRTM 446, 646 Community Tourism Development 3(3,0) Provides a community-based perspective of organizational, planning, development, and operational needs for a successful tourism economy at the local level. Preq: PRTM 342, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 447, 647 Perspectives on International Travel 3(3,0) Using the United States as a destination, international travel patterns and major attractions are presented. Factors which restrain foreign travel to the United States are analyzed. Preq: 2.0 cumulative grade-point ratio.

PRTM 452, 652 Campus Recreation 3(3,0) Study of the basic components required for administration of successful college union and intramural-recreation sport programs. Preq: 2.0 cumulative grade-point ratio.

PRTM 453 Sports Information and Event Management 3(3,0) Introduction to basic techniques, tools, and procedures associated with sports information and event management activities. Focuses on the application of sports information and event management activities building upon knowledge from personal interviews, selected readings, event management brochures and field experience. Preq: PRTM 254, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 454 Trends in Sport Management 3(3,0) Examination of trends in the sport management area that allows PRTM majors to obtain an updated knowledge base of the field. Students are able to relate their academic studies to the current trends, problems, and management strategies confronting and being used within the sport management industry. Preq: PRTM 254, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 455 Advanced Program Planning 3(3,0) Advanced recreation programming techniques with an emphasis on funding, outcome measurement, customer service, program development, marketing, specialized populations, and current trends and issues impacting the delivery of recreation programs. Preq: PRTM 205, 2.0 cumulative grade-point ratio, or consent of instructor.

PRTM 460 Leisure Across the Lifespan 3(3,0) Introduces students to ways in which leisure affects human development and human development affects leisure behavior. Preq: PRTM 205, 309, 2.0 cumulative grade-point ratio.

PRTM 474, H474 Advanced Recreation Resources Management 3(3,0) Advanced topics in recreation resource management focusing on management strategies and techniques for addressing common resource and social problems in recreation resource management. Case studies and problem analysis are emphasized. Preq: PRTM 270, Senior standing, 2.0 cumulative grade-point ratio.

PRTM 483 Golf Club Management and Operations 3(0,9) Focuses on activities related to merchandising, purchasing and selling, inventory management, vendor selection, pricing strategies, strategies for monitoring sales and inventory related to financial control and customer service. Students are exposed to the responsibilities of a golf professional at a full-service golf club facility. Preq: 2.0 cumulative grade-point ratio. Coreq: CO-OP 104 and 105.

PRTM 490 Senior Independent Study 1-3(1-3,0) In cooperation with and under supervision of a faculty member, students develop and execute a field study or community project. May be repeated for a maximum of six credits. Preq: Senior standing, 2.0 cumulative grade-point ratio, consent of instructor.

PRTM 495 PGM Seminar IV 1(1,0) Covers golf shop merchandising and inventory management and supervising and delegating, emphasizing topics covered in the PGA/PGM Training Program Level III checkpoint. Preq: PRTM 395, 2.0 cumulative grade-point ratio.

PRTM 498 Creative Inquiry—Parks, Recreation, and Tourism Management IV 2-4(1-3,3-12) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

PRTM H499 Presentation of Honors Projects 1(1,0) Under direction of a faculty supervisor, students prepare and deliver oral presentations on projects that were carried out in PRTM H407 or H410. Preq: PRTM H407 or H410, consent of instructor.

PERFORMING ARTS

P A 101 Introduction to Performing Arts 3(3,0) Overview of performing arts including performance, careers, technology, production, management, community outreach, safety, sales, and marketing. Preq: Performing Arts major. Coreq: P A 103.

P A 103 Portfolio I 1(0,3) Develops discipline-specific portfolios that display creative design and contain samples of work that demonstrate integrated learning. To be taken Pass/Fail only. Coreq: P A 101.

P A 201 Performing Arts Seminar I 3(2,3) Study of selected performing arts topics. Includes seminars and masterclasses with faculty and visiting artists and concert and theatre attendance and evaluation. Emphasis is placed on written communication skills. Preq: P A 101, Sophomore standing.

P A 279 Performing Arts Practicum I 1(0,3) Practical work on performing arts presentations including backstage technical work, multimedia support, and arts management. Preq: P A 101.

P A 280 Performing Arts Practicum II 1(0,3) Continuation of practical work on performing arts presentations, with more specialized opportunities for backstage technical work, multimedia support, and arts management training. Preq: P A 279.

P A 301 Performing Arts Seminar II 3(2,3) Continuation of P A 201 with added focus on critical and ethical analysis of performing arts. Emphasis is placed on oral communication skills. Preq: P A 201, Junior standing.

P A 398 Special Topics in Performing Arts 1-3(1-3,0) Select areas of study in performing arts not addressed by other performing arts course offerings. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: P A 101 and consent of instructor.
PHILO 105 Introductory Seminar in the Big Questions 3(3,0) Introductory seminar dealing with a single important philosophical question (“Who are we?” “What is the meaning of life?” “Are we free or determined?” etc.). Course is pursued throughout the semester with active student involvement. Questions may vary from semester to semester.

PHIL 124 Technology and Its Discontents 3(3,0) Introduction to issues arising from the development of technologies, their implementation, and their integration into society. Considers theoretical questions regarding the nature of technology and its evaluation, as well as issues related to specific technologies.

PHIL 201 Responsibilities in Leadership 3(3,0) Exploration of the responsibilities leaders have to those who are being led, to those on whose behalf they are leading, to those affected by leadership decisions and actions. Focuses on the relationship between responsibility and authority and the role of judgment in the exercise of leadership.

PHIL 225 Art and Logic of Scientific Reasoning 3(3,0) Examines applications and misapplications of inductive reasoning and causal inference in scientific explanation and everyday discourse. Topics include correlation and confirmation, natural laws, natural kinds, scientific explanation, causal inference, and experimental methods.

PHIL 303 Philosophy of Religion 3(3,0) Critical consideration of the meaning and justification of religious beliefs. Representative topics are the nature and existence of God, religious knowledge, religious language, the problem of evil.

PHIL 304 Moral Philosophy 3(3,0) Study of moral problems, their causes in conflicts between duty and desire, and alternative solutions proposed by ethical and contemporary writers.

PHILO 101, H101 Introduction to Philosophical Problems 3(3,0) Discussion of representative philosophical questions which arise from human thought and action. Characteristic topics are values, knowledge, human nature, and society.

PHIL 102, H102 Introduction to Logic 3(3,0) Introduction to methods of evaluating arguments. Simple valid argument forms are given which can be joined together to produce the logical form of virtually any argument. Informal fallacies may also be considered.

PHIL 103, H103 Introduction to Ethics 3(3,0) Philosophical consideration of the nature of ethics, basic ethical issues, and problems and modes of ethical reasoning.
PHIL 333 Metaphysics 3(3,0) Examination of issues and problems concerning the ultimate nature of reality. Topics may include the appearance/reality distinction, the nature of existence, freedom and determinism, personal identity, idealism, and realism.

PHIL 343 Philosophy of Law 3(3,0) Explanation of the nature of legal theory and the law through a critical examination of the basic concepts and principles of these fields.

PHIL 344 Business Ethics 3(3,0) Study of ethical issues created by business activities, relating them to fundamental questions of ethics generally. Representative topics may include hiring, firing, promotions, business and minorities, organizational influence in private lives, consumer interests, economic justice, and reindustrialization.

PHIL 345 Environmental Ethics 3(3,0) Study of ethical problems in our dealings with the rest of nature and of how they relate to ethics in general. Representative topics include the basis of ethics, nature and intrinsic value, duties to future generations, economics and the environment, rare species, animal rights, ethics and agriculture, energy doctrine.

PHIL 346 Medical Ethics 3(3,0) Examines ethical dilemmas facing modern medicine. Topics may include controversies surrounding death, reproductive technologies, abortion, allocation of resources, the concept of disease, the doctor-patient relationship, and medical research.

PHIL 347 Ethics in Architecture 3(3,0) Interdisciplinary course focused on the architectural profession and the practices of design, building, and other processes in a social and business context. Consideration is given to both general moral principles and particular case studies.

PHIL 348 Philosophies of Art 3(3,0) Examines some of the predominant attempts to understand art in ancient and modern philosophy and also considers a variety of contemporary views and controversies about the nature, meaning, value, and future of art.

PHIL (NURS) 350 Technology and Philosophy in Nursing 3(3,0) See NURS 350.

PHIL 355 Philosophy of Mind and Cognitive Science 3(3,0) Critical examination of philosophical and scientific theories of mental phenomena and of the relationship between mental and material phenomena. Theories of Mind-Body Dualism, Monism, Functionalism, Eliminative and Reductive Materialism, Connectionism, and the status of folk psychology versus cognitive neuroscience are studied.

PHIL 360 Symbolic Logic 3(3,0) Introduction to the basic concepts of modern symbolic logic, including the symbolization of statements and arguments and the techniques of formal proof.

PHIL 370 Philosophy of War 3(3,0) Examines war from both ethical and strategic perspectives: the nature of a just war, the aims of war, and the kinds of general strategies appropriate for achieving those aims.

PHIL 375 Minds and Machines 3(3,0) Examines controversial questions in artificial intelligence and the Computational Theory of Mind. Topics may include “Can machines think?” “What’s involved in being able to think?” “Can machines reason, understand, be conscious, be self-aware, learn, be creative, have emotions, and use natural language?” Focus is on manmade computers and the mind as computer.

PHIL (REL) 393 Science and Religion 3(3,0) See REL 393.

PHIL 399 Philosophy Portfolio 2(2,0) Creation of a digital portfolio to demonstrate competence in reasoning, critical thinking, and problem solving skills as well as ethical judgment. Course also serves as a resource for academic and professional development. Prq: Junior standing in Philosophy.

PHIL 401, 601 Studies in the History of Philosophy 3(3,0) In-depth study of a selected philosopher, philosophical school, or movement. Topics vary. With departmental consent, may be repeated once for credit. Current topics and course descriptions are available in the department’s course offering brochure. Prq: Consent of instructor.

PHIL 402, 602 Topics in Philosophy 3(3,0) Thorough examination of a particular philosophical topic, issue, or problem. Topics vary. May be repeated once for credit with departmental consent. Current topics and course descriptions are available in the department’s course offering brochure. Prq: Consent of instructor.

PHIL 406, 606 Continental Philosophy for Architects 3(3,0) Examines contemporary Continental philosophy over the course of the 20th century with an eye to offering the proper theoretical background to architecture students who use such theory in their studies and design work.

PHIL 422 Anarchism 3(3,0) Philosophical study of the roots of anarchist thought and its current articulations.

PHIL 425, 625 Philosophy of Psychology 3(3,0) Detailed examination of psychology as an autonomous science. Issues include explanation in psychology and cognitive neuroscience, psychology naturalized as a “special science” comparable to biology and geology, evolutionary psychology, philosophy and psychopathology, and moral issues in psychology. Prq: Nine hours of psychology or consent of instructor.

PHIL (A A H) 433, 633 Issues in Contemporary Art and Philosophy 3(3,0) Examines the interconnections between recent developments in art and those in philosophy and critical theory. Course content varies, for example, Postmodernism in Art and Philosophy, Themes of Resistance in Contemporary Culture.

PHIL 485, 685 Topics in Philosophy of Biology 3(3,0) Detailed analysis of a selected topic in philosophy of biology/theoretical biology. Topics may include the levels of selection debate, sociobiology, genetic explanation and genetic causation, the species question, and the history and sociology of biology. Prq: Eight credit hours of biology or consent of instructor.

PHIL 492 Creative Inquiry—Philosophy 1-4(1-4,0) Small group work on particular issues with emphasis on involving students in research. Content varies. May be repeated for a maximum of nine credits. Prq: Consent of instructor.

PHIL H497 Philosophy Honors Research 3(3,0) Students conduct research, clearly define the topic, and complete an annotated bibliography under the supervision of the thesis advisor. Prq: Consent of department chair and thesis advisor.

PHIL H498 Philosophy Honors Thesis 3(3,0) in consultation with the thesis advisor and committee, students write, revise, defend, and complete the thesis. Prq: PHIL H497 and consent of department chair and thesis advisor.

PHIL 499, 699 Independent Study 1-3(1-3,0) Course of study designed by the student in consultation with a faculty member who agrees to provide guidance, discussion, and evaluation of the project. Student must confer with the faculty member prior to registration. May be repeated for a maximum of six credits. Prq: Consent of instructor.

PHYS 101 Current Topics in Modern Physics 1(0,2) Demonstrations and lectures serving as an introduction to different areas of physics and astronomy are presented by various members of the staff. May include such topics as astrophysics, energy, relativity, and weather, as well as visits to the planetarium.

PHYS 122, H122 Physics with Calculus 1 3(3,0) First of three courses in a calculus-based physics sequence. Topics include vectors, laws of motion, conservation principles, rotational motion, oscillations, and gravitation. Credit for a degree will be given for only one of PHYS 122, 200, or 207. Coreq: MTHSIC 106.
Courses of Instruction

PHYS 124 Physics Laboratory I I (0,3) Introduction to physical experimentation with emphasis on mechanical systems, including oscillatory motion and resonance. Computers are used in the experimental measurements and in the statistical treatment of data. Coreq: PHYS 122.

PHYS 199 Creative Inquiry—Physics and Astronomy 2-4(1-3,3-12) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

PHYS 200 Introductory Physics 4(3,2) Introduction to classical physics. Includes elements of mechanics, heat, electricity, and light. May not be substituted for PHYS 122 but may be substituted for PHYS 207, only with the approval of the Department of Physics and Astronomy. Credit for a degree will be given for only one of PHYS 122, 200, or 207. Coreq: MTHSC 105 or equivalent.

PHYS 207 General Physics I 3(3,0) Introductory course for students who are not majoring in physical science or engineering. Covers such topics as mechanics, waves, fluids, and thermal physics. Credit for a degree will be given for only one of PHYS 122, 200, or 207. Coreq: MTHSC 105 or equivalent.

PHYS 208 General Physics II 3(3,0) Continuation of PHYS 207. Covers such topics as electricity, magnetism, electromagnetic waves, optics, and modern physics. Credit for a degree will be given for only one of PHYS 208 or 221. Coreq: PHYS 207. Coreq: MTHSC 210.

PHYS 209 General Physics I Laboratory 1(0,2) Introductory laboratory course for students who are not majoring in physical science or engineering. Covers such topics as mechanics, waves, fluids, and heat. Coreq: PHYS 207.

PHYS 210 General Physics II Laboratory 1(0,2) Covers such topics as electricity, magnetism, electromagnetic waves, optics, and modern physics. Prep: PHYS 207, 209. Coreq: PHYS 208.

PHYS 221, H221 Physics with Calculus II 3(3,0) Continuation of PHYS 122. Topics include thermodynamics, kinetic theory of gases, electric and magnetic fields, electric currents and circuits, and motions of charged particles in fields. Credit for a degree will be given for only one of PHYS 208 or 221. Prep: PHYS 122.

PHYS 222, H222 Physics with Calculus III 3(3,0) Continuation of PHYS 221. Topics include wave motion, electromagnetic waves, interference and diffraction, relativity, atomic particles, and atomic and nuclear structure. Prep: PHYS 221.

PHYS 223 Physics Laboratory II 1(0,3) Experiments in heat and thermodynamics, electrostatics, circuits, and magnetism. Computers are used in statistical treatment of data. Coreq: PHYS 221.

PHYS 224 Physics Laboratory III 1(0,3) Experiments involve atomic, molecular, and nuclear systems. Wave particle dualism of light and matter is emphasized. Calculators and computers are used in statistical treatment of data. Coreq: PHYS 222.

PHYS 240 Physics of the Weather 3(3,0) Descriptive introduction to meteorology. Includes atmospheric thermodynamics, solar radiation, heat budget, atmospheric circulation, force laws governing air motion, fronts, precipitation, synoptic prediction. Special topics of current interest such as the effect of environmental pollution on weather and the effect of weather on health are included.

PHYS 290 Physics Research 1-3(0,3-9) Individual research project in any area of experimental or theoretical physics or astronomy supervised by a physics or astronomy faculty member. Project need not be original but must add to students' ability to carry out research. May be repeated for a maximum of six credits. Prep: Minimum grade-point ratio of 3.0, consent of instructor.

PHYS 299 Creative Inquiry—Physics and Astronomy 2-4(1-3,3-12) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

PHYS 300, H300 Introduction to Research 1(2,0) Acquaints students with current research in physics. Seminars are provided where research activities in various areas of physics and astronomy are summarized. Provides a basis for students to choose a suitable topic for a senior thesis. Prep: Junior standing in Physics.

PHYS 311 Introduction to the Methods of Theoretical Physics 3(3,0) Survey of methods and techniques of problem-solving in physics. Emphasizes the application of mathematical techniques to the solution of problems in vectors, fields, and waves in mechanics, electromagnetism, and quantum physics. Prep: PHYS 222 or consent of instructor.

PHYS 312 Methods of Theoretical Physics II 3(3,0) Continuation of PHYS 311 focused on introducing various mathematical notions widely used in upper level physics courses, such as differential equations, special functions and complex numbers, and complex functions. Prep: PHYS 311 or consent of instructor.

PHYS 321, H321, 621 Mechanics I 3(3,0) Statics, motions of particles and rigid bodies, vibratory motion, gravitation, properties of matter, flow of fluids. Prep: PHYS 221.

PHYS 322, H322, 622 Mechanics II 3(3,0) Dynamics of particles and rigid bodies, Lagrangian and Hamiltonian formulations, vibrations of strings, wave propagation. Prep: PHYS 321 or consent of instructor.

PHYS 325, H325 Experimental Physics I 1(3,4) Introduction to experimental modern physics, measurement of fundamental constants, repetition of crucial experiments of modern physics (Stern-Gerlach, Zeeman effect, photoelectric effect, etc.). Coreq: PHYS 321 or consent of instructor.

PHYS 326, H326 Experimental Physics II 3(1,4) Continuation of PHYS 325.

PHYS 355, H355 Modern Physics 3(3,0) Study of the topics of modern physics, including relativity, atomic physics, quantum mechanics, condensed-matter physics, nuclear physics, and elementary particles. Prep: PHYS 222, MTHSC 206, or consent of instructor.

PHYS 356 Modern Physics Overview 1(1,0) Overview of topics in modern physics, including a short description of the structure of solids, nuclear physics, and particle physics. Prep: PHYS 222 or consent of instructor.

PHYS 399 Creative Inquiry—Physics and Astronomy 2-4(1-3,3-12) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

PHYS 401, H401 Senior Thesis 1-3 Semi-origi- nal theoretical, experimental, or computational research project performed under the direction of a faculty member. Fields available include astronomy, astrophysics, atmospheric physics, biophysics, high energy physics, relativity, solid state physics, and statistical mechanics. May be repeated for a maximum of six credits. Prep: Nine credits of physics at the 300-400 level.

PHYS 417, H417, 617 Introduction to Biophysics I 3(3,0) Introduction to the application of physics to biological problems. Topics include review of elementary chemical and biological principles, physics of biological molecules, and fundamentals of radiation biophysics. Prep: MTHSC 206, PHYS 221, or consent of instructor.

PHYS 420, 620 Atmospheric Physics 3(3,0) Study of physical processes governing atmospheric phenomena. Topics include thermodynamics of dry and moist air, solar and terrestrial radiative processes, convection and cloud physics, precipitation processes, hydrodynamic equations of motion and large-scale motion of the atmosphere, numerical weather prediction, atmospheric electricity. Prep: MTHSC 108, PHYS 208 or 221.

PHYS 432, H432, 632 Optics 3(3,0) Covers a selection of topics, depending on the interest of the student. Topics may include the formation of images by lenses and mirrors, design of optical instruments, electromagnetic wave propagation, interference, diffraction, optical activity, lasers, and holography. Prep: PHYS 221.

PHYS 441, H441, 641 Electromagnetics I 3(3,0) Study of the foundations of electromagnetic theory. Topics include electric fields, electric potential, dielectrics, electric circuits, solution of electrostatic boundary-value problems, magnetic fields, and magnetostatics. Prep: PHYS 221 and MTHSC 208, or consent of instructor.

PHYS 442, H442, 642 Electromagnetics II 3(3,0) Continuation of PHYS 441. Study of foundations of electromagnetic theory. Topics include magnetic properties of matter, microscopic theory of magnetization, electromagnetic induction, magnetic energy, AC circuits, Maxwell's equations, and propagation of electromagnetic waves. Other topics may include waves in bounded media, antennas, electrodynamics, special theory of relativity, and plasma physics. Prep: PHYS 441 or consent of instructor.
PHYS 445 Solid State Physics I 3(3,0) Topics include an overview of crystal structures, chemical and atomic bonding, and periodicity in relation to solid materials. Covers electronic, thermal, and magnetic properties of materials, electrical conduction in metals and semiconductors. Overview of the role of electrons and phonons and their interactions is presented. Preq: PHYS 455 or consent of instructor.

PHYS 446, H446, 646 Solid State Physics II 3(3,0) Continuation of PHYS 445, including selected topics in solid-state physics such as optical properties, superconductivity, non-crystalline solids, dielectrics, ferroelectrics, and nanomaterials. Plasmons, polarons, and excitons are discussed. Brief introduction into methods of solid-state synthesis and characterization tools is presented. Preq: PHYS 445 or consent of instructor.

PHYS 455, H455, 655 Quantum Physics I 3(3,0) Discussion of solution of the Schrödinger equation for free particles, the hydrogen atom, and the harmonic oscillator. Preq: PHYS 322 and 441, or consent of instructor.

PHYS 456, H456, 656 Quantum Physics II 3(3,0) Continuation of PHYS 455. Application of principles of quantum mechanics as developed in PHYS 455 to atomic, molecular, solid state, and nuclear systems. Preq: PHYS 455.

PHYS 465, H465, 665 Thermodynamics and Statistical Mechanics 3(3,0) Study of temperature development of the laws of thermodynamics and their application to thermodynamic systems. Introduction to low temperature physics is given. Preq: Six hours of physics beyond PHYS 222 or consent of instructor.

PHYS 475 Selected Topics 1-3(0-3,0-9) Comprehensive study of a topic of current interest in the field of physics. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

PHYS 481 Physics of Surfaces 3(3,0) Introduction for advanced undergraduates to the physics and chemical physics of solid surfaces and to the interaction of atoms and molecules with those surfaces. Preq: PHYS 312, 322, 325, 326, 441, or consent of instructor.

PHYS 482 Surface Experiments 3(2,3) Introduction for advanced undergraduates to experimental methods of surface physics. Includes on-hand experience in advanced laboratory. Preq: PHYS 312, 322, 325, 326, 441, or consent of instructor.

PHYS 499 Creative Inquiry—Physics and Astronomy 2-4(1-3,3-12) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

PLANT PATHOLOGY

Professors: N. D. Camper, B. A. Fortnum, A. P. Keinath, S. B. Martin, J. D. Mueller, M. B. Riley, S. W. Scott; Associate Professor: S. N. Jeffers, G. Schenkel; Assistant Professors: P. Agudelo, J. Kerrigan

PL PA 302, H302 Plant Pathology Research 1-3(0,3-9) Research experience in a plant pathology project for undergraduates who understand basic concepts of research. Students develop research objectives, procedures, and collect data. A written report includes interpretation of results. To be taken Pass/Fail only. Preq: Consent of instructor.

PL PA 310 Plant Diseases and People 3(2,3) Introduction to diseases caused by biotic and abiotic agents, symptom development, diagnosis, economics, control, and relationship of plant diseases to human welfare including the uses of genetic engineering to develop disease resistant crops. Preq: BIOL 104/106 or equivalent.

PL PA (ENT) 406, 606 Diseases and Insects of Turfgrasses 2(2,0) Host-parasite relationships, symptomatology, diagnosis, economics, and control of infectious diseases of turfgrasses and life histories, diagnosis, and control of important insect pests of turfgrasses. Preq: ENT 301, PL PA 310, or equivalent; or consent of instructor.

PL PA (ENT) 408, 608 Diseases and Insects of Turfgrasses Laboratory 1(0,3) Laboratory to complement PL PA (ENT) 406. Symptomatology, diagnosis, and control of infectious diseases of turfgrasses and diagnosis of damage caused by important insect pests of turfgrasses. Preq: PL PA (ENT) 406.

PL PA 411, 611 Plant Disease Diagnosis I 2(1,2) Methods and procedures used in the diagnosis of plant diseases, especially late spring and early summer diseases. Basic techniques of pure culture and identification of plant pathogens and Koch's postulates are taught. Diagnosis of a wide variety of diseases of cultivated and wild plants is carried out. Offered summer session only. Preq: PL PA 310 or equivalent.

PL PA 459, 659 Plant Nematology 3(2,3) Introduction to nematodes emphasizing plant parasitic nematodes. Introduces morphology of nematodes as it relates to their taxonomic position and ability to cause diseases. Includes diagnosis and control of nematode diseases, along with use of nematodes in studies of molecular interaction and genetics involvement in developing resistance. Preq: PL PA 310 or consent of instructor.

PL PA 470, 670 Molecular Plant Pathogen Interactions 3(3,0) Study of the interactions of plants and pathogens at the molecular level. Investigates the molecular and genetic components of plant disease and how these can be used for improvement and understanding of how diseases occur and how these can be used for possible disease management. Preq: PL PA 310.

PLANT PHYSIOLOGY

PL PH (BIOSC) 340 Plant Medicine and Magic 3(3,0) Study of use of compounds of plant and fungal origin as poisons, hallucinogens, and pharmaceuticals. Preq: BIOL 104/106, CH 102, or consent of instructor.

POLITICAL SCIENCE

Professors: J. Xu, W. Lasser, M. A. Morris, L. R. Olson, B. W. Ransom, J. E. Stewart, Jr.; Chair; S. H. Wainscott, J. D. Woodard; Associate Professor: R. W. Smith; Assistant Professors: M. D. Croston, J. A. Fine, Z. Taydas, A. L. Warber; Lecturers: J. R. W. Dillard, V. Matic

PO SC 101, H101 American National Government 3(3,0) Introduction to American national government and politics examining topics such as the Constitution, federalism, political institutions, political behavior, and political participation.

PO SC 102, H102 Introduction to International Relations 3(3,0) Overview of both theory and practice in contemporary global politics. Topics include the structure of and primary actors in the international system; reasons conflict occurs; and roles of international institutions, law, and policy.

PO SC 104, H104 Introduction to Comparative Politics 3(3,0) Introduction to the study of comparative politics in the post-Cold War era, with emphasis on theories and applications. Topics include democratic and nondemocratic systems; ideology; political culture; party systems; and legislative, executive, and judicial structures.

PO SC 302 State and Local Government 3(3,0) Introduction to American state and local governments, including examination of nature and scope of non-national governments and their interaction with the U.S. federal system. Emphasis is on structural features, functions, and policies of non-national governments.

PO SC 305 Creativity Inquiry—Political Science 1-3(1-3,0) Engages students in research projects selected by the Political Science Department faculty. Research projects vary depending on faculty and student interest. May be repeated for a maximum of six credits. Political Science majors may apply a maximum of three credits toward degree requirements. Preq: Consent of instructor.

PO SC 310 Political Science Internship 1-3(1-3,0) Off-campus internship for at least one semester or its equivalent. May be repeated for a maximum of three credits. No more than three hours credit from PO SC 310, 311, 312, 409, 410 may be applied toward a Political Science degree; and no more than six hours credit from PO SC 310, 311, 312 may be applied toward any other degree. Preq: PO SC 101 and consent of instructor.

PO SC 311 Model United Nations 1(0,1) Participation in United Nations simulation exercises, in competition with other colleges and universities. May be repeated for a maximum of six credits; however, no more than three hours credit from PO SC 310, 311, 312, 409, 410 may be applied toward a Political Science degree; and no more than six hours credit from PO SC 310, 311, 312 may be applied toward any other degree. Preq: Consent of instructor.
PO SC 312 State Student Legislature 1(0,1) Participation in state student legislature simulation exercises, in competition with other colleges and universities in the State. May be repeated for a maximum of six credits; however, no more than six hours credit from PO SC 310, 311, 312, 409, 410 may be applied toward a Political Science degree; and no more than six hours credit from PO SC 310, 311, 312 may be applied toward any other degree. Preq: Consent of instructor.

PO SC 321 Public Administration 3(3,0) Introduction to public administration including the elements of organization, personnel and financial management, administrative law, and administrative responsibility. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 341 Quantitative Methods in Political Science 3(3,1) Introduction to quantitative research methods in political science. Topics include research design, measurement, data collection, sampling procedures, and applications of statistical techniques to research problems in political science. Also stresses computer use for elementary data analysis.

PO SC 343 The Mass Media in American Politics 3(3,0) Role and impact of the mass media in the American political system, emphasizing the media's role in shaping public opinion and in influencing government and public policy. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC (LANG) 350 Seminar in International News 3(3,0) See LANG 350.

PO SC 351 Classical Political Thought 3(3,0) Political philosophy from the pre-Socratic period to Machiavelli. Preq: PO SC 101, 102, 104, or consent of instructor.

PO SC 352 Modern Political Thought 3(3,0) Study of the early theories of the nation-state in the 16th century and the major political thinkers, problems, and movements through the 20th century. Preq: PO SC 101, 102, 104, or consent of instructor.

PO SC (E L E, PSYCH, SOC) 356 Social Science of Entrepreneurship 3(3,0) See SOC 356.

PO SC 361, H361 International Politics in Crisis 3(3,0) Factors contributing to the prevalence of tension and conflict in the contemporary global arena are identified and analyzed, with particular emphasis on political, economic, and military elements. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 362 International Organizations 3(3,0) Examines normative and institutional foundations of civil society. Explains the formal institutions, decision-making processes, and multilateral capacities of international governmental and nongovernmental organizations. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 363 United States Foreign Policy 3(3,0) American foreign policy in historical perspective, with particular emphasis on decision-making process, contemporary American capabilities and challenges, and analysis of key issues. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 367 Political Risk Assessment 3(3,0) Risks associated with conducting business and other activities in different countries, especially in the frequently unstable setting of the developing world. Major commercial providers of country risk assessment are identified and critiqued. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 371 European Politics 3(3,0) Major emphasis on European governments and issues of importance in the European context. Current methods of comparison are studied and applied to the formal and informal functioning of European governments. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 372 Political Culture of East Asia 3(3,0) Introduction to political culture that commonly characterizes East Asian countries, with emphasis on political subcultures of different nations, and on the analysis of the mutual influence between politics and culture. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 375, H375 European Integration 3(3,0) Survey course analyzing institutional cooperation between European countries with a focus on the European Union. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 381 African American Political Thought 3(3,0) Examination of African American political thought, interests and agenda setting, and dynamics of African American participation in political and governmental decision-making. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC (SPAN) 382 Spanish-Language News 1(1,0) Weekly discussion of Spanish-language news articles in the foreign press with an emphasis on the connections among political, economic, social and cultural trends. Emphasizes Spanish vocabulary as well as cross-cultural contrasts with the United States. May be repeated for a maximum of three credits. Preq: SPAN 202 or equivalent or consent of instructor.

PO SC (FR) 383 French-Language News 1(1,0) Weekly discussions of French-language news articles in the foreign press with an emphasis on the connections among political, economic, social and cultural trends. Emphasizes French vocabulary as well as cross-cultural contrasts with the United States. May be repeated for a maximum of three credits. Preq: FR 202 or equivalent or consent of instructor.

PO SC 389 Selected Topics 1-3(1-3,0) Study of a selected area of political science. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

PO SC H395 Junior Honors Research Seminar 1(1,0) Readings and discussion to prepare for the Junior Research Paper and the Senior Thesis. Preq: Junior standing, membership in Calhoun Honors College, consent of instructor.

PO SC H396 Junior Honors Research 1(1,0) Readings and research in conjunction with an approved political science course at the 300 or 400 level. Preq: Junior standing, membership in Calhoun Honors College, and consent of instructor.

PO SC 403 United States Congress 3(3,0) Examination of the evolution of Congress, congressional elections, the organization of the legislative branch, congressional rules and procedures, decision making, styles of representation, and policymaking. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 405 The American Presidency 3(3,0) Examines the evolution of the presidency, the powers of the chief executive, the public presidency, executive branch organization and staffing, decision making, and political relations with Congress and the federal judiciary. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 407 Religion and American Politics 3(3,0) Examination of the impact of religion on American politics, including an analysis of the role of religion in politics, political behavior of major religious groups, constitutional issues and voting behavior. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 409, 609 Directed Study in American Politics 1-3(1-3,0) Supervised reading and/or research in selected areas of American government. May be repeated for a maximum of six credits; however, no more than three hours credit from PO SC 310, 311, 312, 409, 410 may be applied toward a Political Science degree. Preq: Consent of instructor.

PO SC 410 Directed Study in International Politics 1-3(1-3,0) Supervised readings and/or research in selected areas of international and comparative politics. No more than three hours credit from PO SC 310, 311, 312, 409, 410 may be applied toward a Political Science degree. Preq: Consent of instructor.

PO SC 416, 616 Interest Groups and Social Movements 3(3,0) Empirical and normative examination of the origins, roles, and influence of interest groups and social movements in the United States and of the relationships among interest groups, social movements, and democratic theory. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 421, 621 Public Policy 3(3,0) Introduction to the major approaches to public policy making in American government. Topics include theories and models of policy making, the identification of policy problems, agenda setting, the formulation and adoption of policy, implementation, and program evaluation. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 423, 623 Urban Politics 3(3,0) Examines the nature and scope of politics in urban communities and offers an analysis of urban governance, especially in the interaction of public authority and private institutions in metropolitan areas. Emphasis is on the structure, processes, and problems challenging governments in urban America. Preq: PO SC 101, Junior standing, or consent of instructor.
PO SC 424, 624 Federalism and Intergovernmental Relations 3(3,0) Introduction to the historical, theoretical, legal, and fiscal aspects of constitutionally divided government. Federal, state, and local division of responsibility for public services is emphasized along with the emerging devolution of those responsibilities from the federal government to states and localities. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 427, 627 Public Management 3(3,0) Examination of emerging management problems and issues facing federal, state, and local government and the application of management principles, practices, and techniques of public administration. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 428, 628 National Security Policy 3(3,0) National security threats and policy decision making. Issues covered include weapons of mass destruction, terrorism, organized crime, narcotics, arms control, intelligence, and homeland security. Students deliberate and assess threat priorities and crisis management. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 429, 629 Global Issues 3(3,0) Analysis, assessment, and management of the principal threats facing global security today. Topics include rogue nations, regional superpowers, alliances, organized crime, illegal weapons proliferation, and corruption. Emphasis is on the strategies available to the international community for dealing with these threats. Preq: PO SC 102 or 104; Junior standing, or consent of instructor.

PO SC 430 Public Policy Evaluation 3(3,0) Discussion of the role of policy analysis in government. Applications of analytical and computer tools to substantive policy areas such as transportation, economic/community development, education, poverty, and health. Students focus on assessing a policy from a set of options based on analytic criteria as well as developing policy alternatives. Preq: MTHSC 301 or PO SC 341, or equivalent.

PO SC 432, 632 American Constitutional Law: Structures of Government 3(3,0) Examination and analysis of Supreme Court decisions and other legal materials in the areas of national power, federalism, the separation of powers, and the role of the judiciary. Preq: Junior standing or consent of instructor.

PO SC 433, 633 American Constitutional Law: Rights and Liberties 3(3,0) Examination and analysis of Supreme Court decisions and other legal materials in the areas of civil rights and civil liberties, with an emphasis on freedom of speech, freedom of religion, equal protection of the laws, and privacy rights. Preq: Junior standing or consent of instructor.

PO SC 436 Law, Courts, and Politics 3(3,0) Introduces the principal features of the American legal system. Analyzes how and why legal actors and institutions operate as they do. Explores how the law functions as both a tool and an institution of government, as well as how the court system affects the formation and implementation of public policies. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 442, 642 Political Parties and Elections 3(3,0) Study of the distinctive features of the American two-party system with emphasis on presidential elections. Parties are examined as formal organizations, coalitions of voters and interest groups, coordinators of nomination and election processes, and managers of policy-making institutions. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 449 Political Theory of Capitalism 3(3,0) Examines the ethical foundations of capitalism. Focusses primarily on the major ethical theories that have supported or criticized capitalism throughout history. Topics include justification of private property, role of corporations, the profit motive, and the source of wealth creation. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 450 Political Theory 3(3,0) Moral concepts central to political life, including equality, freedom, community, and individualism. Emphasis is placed on the ideologies that express these concepts, including democracy, liberalism, conservatism, socialism, and Fascism. Philosophers covered range from Plato to Foucault. Preq: PO SC 101 or 102 or 104, Junior standing, or consent of instructor.

PO SC 453 American Political Thought 3(3,0) American political philosophy from the 17th century to the present with emphasis on policy and social developments since the 1770s. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 454, 654 Southern Politics 3(3,0) Examination of the unique political environment of the American South, with emphasis on the events and social forces which have shaped politics in the region since World War II. Course material is approached from a variety of perspectives, including history, literature, social themes, and political culture. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 455 Political Thought of the American Founding 3(3,0) Intensive seminar on the principles and practices of America's founders (e.g., Washington, Adams, Jefferson, Madison, and Hamilton). Examines how American revolutionaries struggled between 1765 and 1788 to develop new ideas about rights, liberty, equality, constituptions, republicanism, separation of powers, representation, federalism, etc. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 456 Diplomacy: The Art of Negotiation 3(3,0) Examines the conduct of foreign policy in the historical and contemporary context. Explores theories and key concepts of international negotiation, offering a comparative look at the behavior and practice of major powers. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 457, 657 Political Terrorism 3(3,0) Examination and analysis of the international phenomenon of terrorism in terms of origins, operations, philosophy, and objectives. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 458, 658 Political Leadership 3(3,0) Comparative examination of political leaders, focusing particularly on types, methods, and consequences of leadership and on the relationship between leaders and followers. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC 459 Ethnic Violence 3(3,0) Examination of both theories and case studies of ethnic violence in today's world, with emphasis on understanding potential strategies of conflict resolution. Preq: PO SC 102 or 104; Junior standing, or consent of instructor.

PO SC 461, 661 American Diplomacy and Politics 3(3,0) Analyzes the process of making and implementing strategies to protect and promote American national interests. Focuses on the role of government agencies and executive-legislative relations, as well as the participation and influence of interest groups and the media. Includes a five-day seminar in Washington, DC. Preq: PO SC 363 or consent of instructor.

PO SC 466 African Politics 3(3,0) Comprehensive survey of major regional blocks as well as analysis of individual states and thematic concepts. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 471 Russian Politics 3(3,0) Comprehensive examination of the Russian Federation since the fall of the Soviet Union. The successes and failures of democratic transition are analyzed, with topics covering political participation, organized crime and corruption, center-periphery conflict, and ethnic-religious unrest. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 472 Japanese Politics 3(3,0) Concepts and operation of contemporary Japan's political system. Emphasis is on institution building and political economy after World War II. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 473 Eurasian Politics 3(3,0) Examination of the areas of the Caucasus and Central Asia, covering themes including democratization, globalization, terrorism, and stability. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 476 Middle East Politics 3(3,0) Comprehensive thematic and empirical analysis of the Middle East region. Issues covered include democratization, political and religious freedom, oil, the role of women, and terrorism. States analyzed include Syria, Jordan, Iran, Iraq, Saudi Arabia, Turkey, and the Gulf States. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 477 Chinese Politics 3(3,0) Concepts and operation of contemporary China's political system; emphasizes institutional innovation and political economy in recent reforms. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.

PO SC 478 Latin American Politics 3(3,0) Survey of prominent trends in Latin American politics, with a focus on major countries in the region and major issues affecting the region. Relations between Latin America and the United States and other prominent countries are also considered. Preq: PO SC 102 or 104, Junior standing, or consent of instructor.
PO SC 480, 680 Gender and Politics 3(3,0) Examination of the role of gender in politics in the United States and in other countries. Particular emphasis on the role of women in electoral politics, issues of gender, women's rights as human rights, and feminist theory. Preq: PO SC 101, 102, or 104, Junior standing, or consent of instructor.

PO SC 482 The Political Novel and Film 3(3,0) Examination of political novels and films. Emphasizes the development of these media as art forms; the relationship between political novels and films and politics at large; and the role of these media in shaping public opinion. Preq: PO SC 101, Junior standing, or consent of instructor.

PO SC (LANG) 485, 685 Global Affairs and Governments 3(3,0) Designed for teachers and education students who wish to learn how to incorporate global affairs more fully into high school curricula. Overview of major topics involving foreign policies and world politics is provided.

PO SC 489, 689 Selected Topics 1-3(1-3,0) Intensive examination of a selected area of political science. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

PO SC H490 Senior Honors Thesis Research 3(3,0) Reading and research related to the senior honors thesis. Preq: Senior standing, membership in Calhoun Honors College, and consent of instructor.

PO SC H491 Senior Honors Thesis 3(3,0) Research and writing of the senior honors thesis. Preq: Senior standing, membership in Calhoun Honors College, and consent of instructor.

POLYMER AND FIBER CHEMISTRY

PFC 303 Textile Chemistry 3(3,0) Study of the properties and reactions of aliphatic and aromatic organic compounds. Emphasizes mechanistic interpretations and the development of synthetic schemes leading to polyfunctional compounds of the types encountered in the textile industry. Preq: CH 102. Coreq: MTHSC 206 or 207.

PFC 304 Textile Chemistry 3(3,0) Fundamental principles of physical chemistry with emphasis on areas frequently encountered in the textile industry including thermodynamics, kinetics, and solution properties. These concepts are applied to the study of organic compounds and organic reaction mechanisms. Preq: PFC 303.

PFC 305 Textile Chemistry Laboratory 1(0,3) Introduction to techniques used in synthesis and characterization of organic compounds. Coreq: PFC 303.

PFC 306 Textile Chemistry Laboratory 1(0,3) Techniques used in the measurement of the physiochemical properties of polymers and textile chemicals. Coreq: PFC 304.

PFC 405 Principles of Textile Printing 3(2,3) Development of modern textile printing systems is studied. Also examines colloidal requirements of colorants, thickener compositions, rheology of printing pastes, and various physical requirements necessary for a successful printing system in a modern plant. Preq: Consent of instructor.

PFC 406 Textile Finishing—Theory and Practice 3(2,3) Study of the application of chemicals to textile substrates and how they affect the substrate's physical and chemical properties. Emphasizes the theories of chemical modification of textiles as well as the technology of finishing.

PFC 415, H415, 615 Introduction to Polymer Science and Engineering 3(3,0) Chemistry of monomers and polymers and the chemical and physical properties of polymers are discussed emphasizing fiber forming, synthetic polymers. Includes molecular characterization, structure, morphology, and mechanical properties as they relate to the design of polymer systems for end uses in textiles, geotextiles, plastics and fiber-reinforced composite materials. Preq: CH 201 and 350 or 224, PFC 304, or consent of instructor.

PFC 416, 616 Chemical Preparation of Textiles 3(2,3) Chemicals used in the preparation of fabric for dyeing and finishing. Oxidizing and reducing agents and their control and effect on various fibers. Colloidal and surface active properties of various compounds and the fundamental factors influencing these properties.

PFC 417 Polymers and Fiber Laboratory 1(0,3) High molecular weight polymers are prepared from monomers; their chemical and physical properties are measured as functions of critical end use parameters using instrumental and physical methods. Coreq: PFC 415.

PFC 457, H457, 657 Dyeing and Finishing I 3(3,0) Understanding of physical, chemical, and mechanical principles behind the application of colors to textiles. Requires an appreciation of fiber chemistry and morphology, dye and finish structures and reactivity and mechanical principles behind equipment used to effect transfer of these chemicals onto the textile substrate.

PFC 458, H458, 658 Dyeing and Finishing II 3(3,0) Kinetics and equilibria of dyeing processes. The use of conductivity, diffusion, and other methods useful for measuring absorption of isotherms and dyeing rates and the general thermodynamic relationships applicable to dyeing operations. Fiber properties such as zeta potential, dye sites, relative amorphous area included are available. PFC 459 Dyeing and Finishing Laboratory I 1(0,3) Introduction to common dyeing and printing methods and to some of the machinery necessary to carry out dyeing operations. Coreq: PFC 457.

PFC 460 Dyeing and Finishing II Laboratory 1(0,3) Covers finishing in addition to dyeing operations and their instrumental control. Coreq: PFC 458.

PFC 461, 661 Surface Phenomena in Fiber Science 3(3,0) Introduction to surface phenomena focusing on fiber science. Fundamentals of interfacial phenomena embrace thermodynamics of surfaces, physics of adhesion, wetting, and finishing emphasizing specific features associated with interactions of liquids and chemicals with fibers and fibrous materials. Preq: Junior standing in engineering or science.

PORTUGUESE

PORT 101 Elementary Portuguese 4(3,1) Introduction to speaking, listening, and writing. Attention is given to the sound system of Portuguese to develop basic communication skills.

PORT 102 Elementary Portuguese 4(3,1) Continuation of PORT 101. Preq: PORT 101 or consent of instructor.

PORT 201 Intermediate Portuguese 3(3,0) Intermediate course with more emphasis on communication skills and structure. Reading and writing practice in and outside the classroom, with special attention to idiomatic usage. Introduction to perspectives through readings and cultural activities. Preq: PORT 102 or consent of instructor.

PORT 202 Intermediate Portuguese 3(3,0) Continuation of PORT 201. Preq: PORT 201 or consent of instructor.

PSYCHOLOGY

PSYCH 201, H201 Introduction to Psychology 3(3,0) Introduction to the study of behavior. Analysis of the biological bases of behavior, learning, thinking, motivation, perception, human development, social behavior, and the application of basic principles to more complex phenomena such as education, personal adjustment, and interpersonal relations.

PSYCH 202 Introductory Psychology Laboratory 1(0,2) Major phenomena and methods of psychology are illustrated and investigated in a series of laboratory modules. Students also explore career and academic development issues.

PSYCH 275 Applied Psychology and Transportation 3(3,0) Introduces psychological principles used to study human behavior (methodological, cognitive, perceptual, etc.). These psychological principles, in addition to ethical, legal, and societal perspectives, are applied to transportation issues.

PSYCH 306 Human Sexual Behavior 3(3,0) The subject of sexual behavior is approached from the psychophysiological, behavioral, and cultural points of view. Evolutionary, historical, and cross-cultural perspectives are considered.
PSYCH 309 Introductory Experimental Psychology 3(3,2) Introduction to the analysis of data from experimental and correlational research in psychology. Emphasizes the applications and logical nature of statistical reasoning. Laboratory periods stress the techniques of data analysis using microcomputers. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 310 Advanced Experimental Psychology 4(3,2) Continuation of PSYCH 309. Focus is on techniques of empirical research (experiments, quasi-experiments, survey research, etc.) that are widely used in psychology. Students design and carry out their own empirical research projects. Extensive practice in the writing of reports is included. Preq: PSYCH 201 with a C or better, PSYCH 309, or consent of instructor.

PSYCH 320 Principles of Behavior 3(3,0) Study of basic learning principles including classical conditioning, operant conditioning, and modeling. Initial emphasis is on animal studies followed by human applications and techniques. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 324 Physiological Psychology 3(3,0) Study of human neuroanatomy with emphasis on the function of the nervous and endocrine systems. Discusses the biological basis of behavior in its normal and abnormal dimensions. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 325 Physiological Psychology Laboratory 1(0,3) Demonstrations and techniques of selected physiological procedures are presented to explain the principles discussed in PSYCH 324. Coreq: PSYCH 324.

PSYCH 330 Motivation 3(3,0) Various aspects of motivation are considered by studying physiological, emotional, and environmental influences on behavior. Orientation is empirical rather than theoretical with emphasis on pertinent research applications, and measurement of motives. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 333 Cognitive Psychology 3(3,0) Study of higher-order mental processing in humans. Topics include memory, learning of concepts, problem solving, and the psychology of language. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 334 Laboratory in Cognitive Psychology 1(0,2) Selected experiments and demonstrations are conducted to reveal phenomena related to human perception, memory, reasoning, problem solving, and high-level mental processes. Preq: PSYCH 201 with a C or better and PSYCH 309, or consent of instructor. Coreq: PSYCH 333.

PSYCH 340, H340 Lifespan Developmental Psychology 3(3,0) Survey of current theory and research concerned with the psychological aspects of human growth and development across the entire lifespan. Major topics include developmental methods, physical maturation, cognition, socialization, personality, psycholinguistics, intelligence, learning, behavior problems, and exceptionalities. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 344 Psychology of Adolescence 3(3,0) Study of the psychosocial processes of adolescence. Major emphasis is on personality development, growth of thinking, social and sexual maturation, and variations in adolescence. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 345 Adulthood and Aging 3(3,0) Special consideration of the major psychological processes of aging as they relate to individual behavior and adaptation. Includes the influences of aging on the body, learning and psychomotor skills, thinking and intelligence, employment and productivity, personality, and psychopathology. Opportunity for contact with institutionalized and noninstitutionalized elderly persons is provided. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 352, H352 Social Psychology 3(3,0) Survey course analyzing human social behavior from the perspective of the individual as a participant in social relationships. Major emphasis is on the study of such contemporary social processes as attitude formation and change, interpersonal relations, conformity, conflict resolution, aggression and violence, social communication, and group phenomena. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 355 Environmental Psychology 3(3,0) Considers the influences of the physical environment on human behavior. Topics include perception of and adaptation to the environment, effects of physical design on behavior, and individual reactions to environmental stress. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH (E.E. POL SC, SOC) 356 Social Science of Entrepreneurship 3(3,0) See SOC 356.

PSYCH 364 Industrial Psychology 3(3,0) Study of the applied aspects of psychology in the area of industrial psychology. The course analyzes human social behavior in the workplace and the impact of psychological principles on work behavior. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH (E.E. POL SC, SOC) 356 Social Science of Entrepreneurship 3(3,0) See SOC 356.

PSYCH 368 Organizational Psychology 3(3,0) Study of individual differences in the work environment. Topics include industrial psychology, social psychology, and organizational behavior. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 369 Leadership in Organizational Settings 3(3,0) Broad survey of theory and research on leadership in formal organizations. A detailed explanation and critical evaluation of major theories (including participative and charismatic leadership) are combined with useful case studies and prescriptions for effective leadership in organizations. Preq: PSYCH 201.

PSYCH 370 Personality 3(3,0) Study of the construct of mental illness. Emphasis is on investigating problems in organizations and interpersonal and intrapersonal stress. Major topics include the study of such contemporary social processes as attitude formation and change, interpersonal relations, conformity, conflict resolution, aggression and violence, social communication, and group phenomena. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 375 Psychology of Substance Abuse 3(3,0) Study of the psychological approaches to treatment of substance abuse. Topics include behavioral, social learning, and family-systems theories as applied to treating substance abuse. Emphasis is on empirical approaches to evaluating methods of treatment and matching clients to treatments. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH H385 The Social Construction of Madness 3(3,0) Study of the construct of mental illness and the variety of ways in which psychosis has been explained, portrayed, and treated over time. Interdisciplinary approach to examining representations of “madness” that shape a culture’s understanding of mental illness and its treatment, including popular culture, art, and literature. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH H390 Honors Seminar in Psychology 3(3,0) Variable topic seminar for Honors students from all majors. Topics are announced prior to registration for each semester. May be repeated once for credit, but only if different topics are covered. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 408 Women and Psychology 3(3,0) Explores the wide variety of psychological issues that concern women. Emphasizes empirical research on topics such as motherhood, sex differentiation, motivation, and psychological disorders. Preq: PSYCH 201 with a C or better or consent of instructor.

PSYCH 415 Systems and Theories of Psychology 3(3,0) Study of the development of psychology particularly during the past 100 years. Emphasis is on giving students a better perspective of present-day psychology. Focus is on the various approaches taken by influential psychologists and the conflicts among these approaches. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH 422, H422 Sensation and Perception 3(3,0) Study of psychophysical techniques of measurement and sensory and perceptual processes related to vision, hearing, and the other senses. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH 423 Sensation and Perception Laboratory 1(0,2) Selected experiments are conducted to demonstrate the phenomena involved in sensation and perception. Preq: PSYCH 309 or consent of instructor.

PSYCH 426, 626 Advanced Physiological Psychology 3(3,0) Advanced studies of the biological basis of behavior with emphasis on functional neuroanatomy and endocrinology. Topics may vary. May not be repeated for credit. Preq: PSYCH 324 or consent of instructor.

PSYCH 435 Human Factors Psychology 3(3,0) Analyses of theoretical issues and research methods related to the interaction between people and machines and human performance. Topics include information processing theory, human control systems and displays, task simulation, perceptual and motor factors limiting human performance. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.
PSYCH 443 Infant and Child Development 3(3,0) Cognitive, emotional, and social development from conception through childhood (up to age 12). Major theories and research findings are covered. Preq: PSYCH 201 with a C or better and PSYCH 340, or consent of instructor.

PSYCH 447 Moral Development 3(3,0) Explores the development of moral reasoning, judgment, and character from a descriptive psychological point of view. Examines the theoretical and empirical work of Jean Piaget, Lawrence Kohlberg, and Elly Turiel as well as prosocial, eudaemonistic, and cross-cultural alternatives to these ideas. Preq: PSYCH 201 with a C or better; PSYCH 340, 344, or 345; or consent of instructor.

PSYCH 454 Psychology of Human Relationships 3(3,0) Research, theory, and their practical applications regarding the development, maintenance, and dissolution of human relationships; understanding successful and unsuccessful relationships. Emphasis is on improving the individual's ability to relate to other persons both interpersonally and professionally. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH 459 Group Dynamics 3(3,0) Review of current theory and research on small-group processes with special emphasis given to group formation and development, group structure, the dynamic forces within a group, leadership, and group problem solving and decision making. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH 462, 662 Psychology and Culture 3(3,0) Seminar examining the cultural context in which psychological theories and research are generated and psychological perspectives on human diversity. Topics include the philosophical positions influencing psychological theory and research; methodological issues in the study of diversity, historical and contemporary perspectives; and cross-cultural psychological research in selected content areas. Preq: PSYCH 310 or consent of instructor.

PSYCH 471 Psychological Testing 3(3,0) Introduction to the theory of psychological testing, emphasizing the principles of measurement and psychometric characteristics of a good psychological test. Issues in test development, administration, and interpretation are reviewed. Educational, industrial, and clinical uses of tests are examined. Preq: PSYCH 201 and 309, or consent of instructor.

PSYCH 480, 680 Health Psychology 3(3,0) Study of the role of health-related behaviors in the prevention, development and/or exacerbation of health problems. Emphasis on the biopsychosocial model and its application in the assessment, treatment, and prevention of health problems. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH 483, H483, 683 Abnormal Psychology 3(3,0) Introduction to the diagnosis and treatment of mental illnesses. Uses current diagnostic standards for mental disorders as a framework for understanding the symptoms, causes, and treatments of the most commonly observed maladaptive behaviors. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH 488 Theories of Psychotherapy 3(3,0) Survey of alternative theories of psychological treatment for behavioral and emotional disorders. Various theoretical assumptions, techniques, and applications of each approach are examined and compared, and case examples are considered. Preq: PSYCH 370 or 483 or consent of instructor.

PSYCH 489, 689 Selected Topics 3(3,0) Seminar in current topics in psychology. Topics change from semester to semester and are announced prior to each semester's registration. May be repeated once for credit, but only if different topics are covered. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

PSYCH H490 Senior Division Honors Research II 2-4(2-4,0) Preparation and defense of a research proposal. Proposed project should be empirical, historical, or theoretical in nature. Preq: Junior standing, consent of department chair.

PSYCH H491 Senior Division Honors Research II 2-4(2-4,0) Completion of the proposed research project resulting in a written thesis. Preq: PSYCH H490.

PSYCH 492 Senior Laboratory in Psychology 1(0,2) Students complete an integrative review of topics in psychology in the context of producing a reflective portfolio. Preq: Senior standing in Psychology.

PSYCH 493 Practicum in Clinical Psychology 3(1,5) Students apply classroom theory in solving individual and community problems through interaction with community agencies and other professional groups in the mental health area. Students have limited but well-controlled contact with actual clinical problems as they occur in the community environment. Preq: PSYCH 483 and consent of instructor.

PSYCH 495 Practicum in Applied Psychology 3(1,5) Students are provided practical experience in the area of applied psychology. Students usually are involved in a project designed to help solve an industrial problem through a direct application of industrial or social psychology. Preq: PSYCH 352 or 364 or 454; consent of instructor.

PSYCH 496 Laboratory in Psychology 1-3(0,2) Laboratory in a variety of topics in psychology such as human factors psychology and psychological testing. May be repeated for a maximum of three credits. Preq: PSYCH 201 with a C or better; PSYCH 309, 310; or consent of instructor.

PSYCH 497, H497 Directed Studies in Psychology 1-4(0,2-8) Study under the direction of a faculty member of a particular topic agreed upon by the student and faculty member. May be repeated for a maximum of 12 credits. Preq: Six credits in psychology, a course in research methods, and consent of the instructor.

PSYCH 498, H498 Team-Based Research 1-4(1-4,0) Students conduct psychological research and learn about phases of the research process with a team of their peers under the direction of a faculty member. The collaborative nature of psychological research is emphasized. May be repeated for a maximum of 18 credits. Preq: Consent of instructor.

PSYCH 499 Seminar 3(3,0) Seminar in current topics in psychology. Topics change from semester to semester and are announced prior to each semester's registration. May be repeated once for credit, but only if different topics are covered. Preq: PSYCH 201 with a C or better and one 300-level psychology course, or consent of instructor.

READ 101 Reading Strategies 2(3,0) Primary focus is on critical reading of textbook materials and persuasive materials. Students learn how to apply and generalize newly acquired strategies to a variety of reading materials.

READ 102 Critical Reading and Thinking 2(3,0) Students learn critical reading skills in interpretation, analysis, inference, oral communication, and debate. Includes characteristics of debate in addition to the steps and sources of research. These skills are applied to important political and social issues of contemporary public concern.

READ 103 Learning Strategies 2(3,0) Students learn strategies of active learning and critical thinking skills which become an integral part of their natural thinking processes. Students learn how to generalize and apply newly acquired strategies in a variety of settings and situations.

READ 458 Early Literacy: From Birth to Kindergarten 3(3,0) Provides early childhood, elementary, and special education majors with knowledge of theory and research-based, developmentally appropriate instructional practices related to children's literacy development within the home and school from birth to kindergarten. Factors related to assessment and communication within and between the family, school, and teacher are addressed. Preq: Admission to the professional level.

READ 459, H459 Teaching Reading in the Early Grades: K–3 (3,0) Provides early childhood and Elementary Education majors an understanding of teaching reading in the elementary school setting in kindergarten through third grade. Students investigate general principles of language and literacy development and learn methods for teaching and assessing children's literacy. Preq: ED EC 336, ED F 301, 302; admission to the professional level. Coreq: ED EC 400 for Early Childhood majors.

READ 460, H460 Teaching Reading in the Elementary Grades: 2–6 (3,3,0) Provides pre-service teachers with an understanding of teaching reading in the elementary setting in grades 2–6. Students investigate general principles of language and literacy development and learn methods for teaching and assessing children's literacy. Preq: ED F 301, 302, 334; admission to the professional level.

READ 461 Content Area Reading: Grades 2–6 3(2,3) Provides preservice teachers with an understanding of teaching content area literacy in grades 2–6. Students learn methods and strategies for teaching children to learn with and make use of expository texts. Comprehension, the role of expository texts, and vocabulary learning in content areas are presented. Preq: READ 460, admission to the professional level. Coreq: ED EL 451, 487, 488 (for Elementary Education majors).
Courses of Instruction

READ 498, H498 Secondary Content Area
Reading 3(2,2) Designed for preservice teachers who are involved with field experiences prior to student teaching full time. Prepares content area teachers to teach the reading skills necessary for effective teaching of content area material. Preq. Admission to professional level.

RELIGION

Professors: S. E. Grosby, N. A. Hardesty; Lecturer: C. Shusko-Robinson

REL 101 Introduction to Religion 3(3,0) Study of the variety of religious experience and expression in human life.

REL 102 World Religions 3(3,0) Survey of major religious traditions of the world.

REL 301 The Old Testament 3(3,0) Survey of the books of the Old Testament with special consideration given to the development of the concepts, institutions, and theology of the ancient Hebrews.

REL 302 Survey of New Testament Literature 3(3,0) Study of the books of the New Testament from the standpoint of their occasion, content, literary form, and basic theology.

REL 306 Judaism 3(3,0) Examines the development of Judaism from Biblical to modern times.

REL 307 The Christian Tradition 3(3,0) Examination of the development of Christianity in Western civilization from the post-New Testament period to the present, stressing institutional growth and changes, theological currents, and interaction of Christianity with culture.

REL 308 Religions of the Ancient World 3(3,0) Selected religious movements in ancient Mesopotamia, Egypt, Canaan, and the Greco-Roman world with emphasis on movements outside the Judeo-Christian tradition.

REL 310 Religion in the United States 3(3,0) Development of religion in the U.S. from the Colonial period to the 20th century. Attention is devoted to analyzing broad currents in religious movements and religious thought which have given shape to the American pluralistic experience.

REL 311 African American Religion 3(3,0) Study of the religious milieu in the U.S. rooted in our African heritage. Background on African tribal religion is included, along with Christian denominations and new religions such as Nation of Islam, Rastafarianism, Voudun, Santeria, and Candomble.

REL 314 Buddhism in China 3(3,0) Study of Buddhism in Chinese history since the second century. Examination of the translation and interpretation of the texts, major Chinese Buddhist schools, monastic life, and the comprehensive influence of Buddhism on Chinese culture and society. All readings and discussions are in English.

REL 330 Contemporary Issues in Religion 3(3,0) Examination of a variety of issues of broad concern to scholars of religion today. Issues may vary. May be repeated for a maximum of six credits with departmental consent.

REL (PHIL) 393 Science and Religion 3(3,0) Exploration and analysis of the conceptual and historical relationship between science and religion. Examination and evaluation of the theoretical claims of science and the metaphysical claims of religion.

REL 401, 601 Studies in Biblical Literature and Religion 3(3,0) Critical examination of a selected topic in biblical studies. Topics vary from year to year. May be repeated once for credit. Preq: Consent of instructor.

REL 402, 602 Studies in Religion 3(3,0) Thorough examination of a selected topic in one or more of the religious traditions of the world or of religious life in a particular region. Topics vary from year to year. May be repeated once for credit. Preq: Consent of instructor.

REL 404, 604 History of Early Christianity 3(3,0) Study of the history, social and doctrinal, of early Christianity up to 600 A.D. Preq: Consent of instructor.

REL 435, 635 Religious Institutions in Community Life 3(3,0) Explores the particular significance of religious organizations as core institutions in American communities and examines their involvement with community political and social structures.

REL H497 Religion Honors Research 3(3,0) Students conduct research, clearly define the topic and complete an annotated bibliography under the supervision of a thesis advisor. Preq: Consent of department chair and thesis advisor.

REL H498 Religion Honors Thesis 3(3,0) In consultation with a thesis advisor and departmental thesis committee, students write, revise, defend, and complete their thesis. Preq: REL H497 and consent of department chair and thesis advisor.

REL 499 Independent Study 1-3(1-3,0) Study of selected problems, issues, or movements in religion under the direction of a faculty member chosen by the student. Student and faculty member develop an individualized course of study approved by the department chair prior to registration. May be repeated for a maximum of six credits. Preq: Consent of instructor.

RURAL SOCIOLOGY

Assistant Professor: K. L. Robinson

R S 301 Rural Sociology 3(3,0) Study of human social relationships as influenced by life in the open country and in small towns and villages including considerations of the rural population, rural social institutions, processes of change in agricultural technology, and community area planning and development. Offered spring semester only.

R S (SOC) 303 Methods of Social Research 1 4(3,3) See SOC 303.

R S (SOC) 371 Population and Society 3(3,0) See SOC 371.

R S (SOC) 401, 601 Human Ecology 3(3,0) Analysis of the interrelationships between the physical world, modifications in natural environments, human settlement patterns, and institutions that both encourage and regulate environmental modification. Emphasizes conditions whereby natural resources become public policy concerns. Offered spring semester only. Preq: Sophomore standing.

R S (SOC) 459, 659 The Community 3(3,0) Close analysis of the development of contemporary communities and their place in society. Continuing effects of industrialization, migration, and technological change on community location and structure are examined. Structural relations of social class, status, and the associations among institutions are explored.

R S (SOC) 471, H471, 671 Demography 3(3,0) See SOC 471.

R S (SOC) 495 Field Experience 3(1,8) See SOC 495.

R S (SOC) 498 Independent Study 3(1,6) See SOC 498.

RUSSIAN

Associate Professor: G. L. Love; Lecturer: J. Bridgwood

RUSS 101 Elementary Russian 4(3,1) Training in pronunciation, grammatical forms, and syntax with a view to giving the student the fundamentals necessary to hold simple conversations and to read simple Russian texts.

RUSS 202, H202 Intermediate Russian 3(3,1) Conversation, composition, and dictation based on readings of more difficult Russian prose than in the earlier courses. Preq: RUSS 201.

RUSS 297 Creative Inquiry—Russian 1-4(1-4,0) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

RUSS 305 Russian Conversation and Composition 3(3,0) Practice in spoken Russian emphasizing vocabulary building, pronunciation, and comprehension. Written exercises promote accuracy. Preq: RUSS 202 or consent of department chair.

RUSS 307 Russian Civilization 3(3,0) Introduction to significant elements of Russian civilization. Emphasis is on social, geographical, political, and artistic aspects of modern Russia. Taught in Russian. Preq: RUSS 202 or consent of department chair.

RUSS 340 Russian Culture of the Nineteenth Century 3(3,0) Study of achievements in art, science, music, and literature in Russia during the 19th century. Taught in English.
RUSS 360 Russian Literature to 1910 3(3,0) Study of key texts in the modern literary tradition in Imperial Russia from Pushkin to Chekhov. Readings and lectures are in English.

RUSS 361 Russian Literature Since 1910 3(3,0) Study of key texts in modern Russian and Soviet literature with particular focus on Russian modernist movements and Socialist Realism. Readings and lectures are in English.

RUSS 397 Creative Inquiry—Russian 1-4(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

RUSS 398 Directed Reading 1-3(1-3,0) Directed study of selected works in Russian. May be repeated for a total of six credits. Prq: RUSS 202 or equivalent and consent of department chair.

RUSS 460 Tolstoy and Dostoevsky 3(3,0) Examines a selection of major works by Leo Tolstoy and Fyodor Dostoevsky with particular focus on their literary, political, and philosophical aspects as well as their importance within the modern European literary tradition. Readings and lectures are in English. Prq: Junior standing or consent of instructor.

RUSS 497 Creative Inquiry—Russian 1-4(1-4,0) Continuation of research initiated in RUSS 397. Students complete their project and disseminate their research results. Prq: RUSS 397 or consent of instructor.

SCIENCE AND TECHNOLOGY IN SOCIETY

S T S 101 Survey of Science and Technology in Society 3(3,0) Surveys historical, philosophical, and social studies of science; introduces the basic requisites for scientific and technological literacy, and considers the problems of responsible participation in a scientifically and technologically advanced society.

S T S 102 Ideas, Machinery, and Society 3(3,0) Interdisciplinary discussion course introducing the fundamental themes of STS: the influence of social groups on the development of science and technology and the effects of science and technology on society.

S T S 171 Scientific Skepticism 3(3,0) Investigation of unusual phenomena using scientific methodology. Explores the interplay of science, pseudoscience, and society through development of critical thinking skills. Discussion-oriented course that focuses on case studies of extraordinary claims.

S T S 216 Critical Analysis of a Current STS Issue 3(3,0) Critical analysis of a current science and technology issue with significant controversial and societal consequences (e.g., global warming, methods of energy production). Students retrieve, analyze, evaluate, present, and discuss relevant information to develop basic competence in science and mathematics and in the evaluation of scientific and technological issues. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: Sophomore standing.

S T S 301 Science in Context 3(3,0) Develops an understanding of the social character of scientific activity. Through the study of current work by leading historians, sociologist, and philosophers of science, students develop a comprehensive grasp of the social foundations of modern scientific inquiry.

S T S 498 H498 Creative Inquiry 1-3(1-3,0) Students conduct research into Science and Technology in Society with a team of their peers under the direction of a faculty member. The collaborative character of research in science and technology in society is emphasized. Prq: May be repeated for a maximum of 12 credits.

S T S 499 Independent Study 3(3,0) Study of selected topics under direction of a faculty member selected by the student. Student and faculty member develop a course of study designed for the individual student and approved by the S T S program coordinator prior to registration. May be repeated for a maximum of six credits. Prq: General Education Science and Technology in Society. Requirement, consent of instructor.

SECONDARY EDUCATION

EDSEC 412 Directed Student Teaching in Secondary School Subjects 1(1,33) Program of supervised observation and teaching in cooperation with selected public schools. Opportunities are provided for prospective teachers to obtain experience in the subject area. Students are sectioned according to teaching fields: English, history, social science, mathematical sciences, modern languages, science. Enrollment is limited.

EDSEC 417 Teaching Internship in the Secondary School 6(1,15) Full-time, supervised teaching internship for one semester in cooperation with a participating South Carolina secondary school. Reserved for students seeking certification in critical-need teaching areas. May be repeated for a maximum of 12 credits. To be taken Pass/Fail only. Prq: ED F 301, 302, 335, READ 498, and one of the following: EDSEC 424, 425, 426, 427. Application approved by the School of Education.

EDSEC 424, H424 Teaching Secondary English 3(2,2) Development of instructional practices and materials appropriate for secondary English; familiarization with curriculum materials; includes field experiences in local schools. Taught fall semester only. Prq: Second semester Junior standing, admission to the professional level, ED 105, ED F 301, 302, 335, at least 18 hours of English coursework, concurrent enrollment in READ 498, minimum grade-point ratio of 2.5.

EDSEC 425 Teaching Secondary Modern Languages 3(2,2) Development of instructional practices and materials appropriate for secondary modern languages; familiarization with curriculum materials; includes field experiences in local schools. Taught fall semester only. Prq: Second semester Junior standing, admission to the professional level, ED 105, ED F 301, 302, 335, 18 hours of modern language coursework, concurrent enrollment in READ 498, minimum grade-point ratio of 2.5.

EDSEC 426, H426 Teaching Secondary Mathematics 3(2,2) Development of instructional practices appropriate for secondary mathematics; familiarization with curriculum materials, planning, and implementation of lessons; includes field experiences in local schools. Taught fall semester only. Prq: Admission to the professional level, ED 105, ED F 301, 302, 335, at least 18 hours of mathematics coursework, concurrent enrollment in READ 498, minimum grade-point ratio of 2.5.

EDSEC 427, H427 Teaching Secondary Science 3(2,2) Development of instructional practices and materials for teaching secondary school science (biological, earth, and physical sciences); familiarization with secondary science curriculum materials; includes field experiences in local schools. Taught fall semester only. Prq: Second semester Junior standing, admission to the professional level, ED 105, ED F 301, 302, 335, at least 18 hours of science coursework, concurrent enrollment in READ 498, minimum grade-point ratio of 2.5.

EDSEC 428, H428 Teaching Secondary Social Studies 3(2,2) Development of instructional practices and materials appropriate for secondary social studies; familiarization with curriculum materials; includes field experiences in local schools in preparation for student teaching. Taught fall semester only. Prq: Second semester Junior standing, admission to the professional level, ED 105, ED F 301, 302, 335, at least 18 credits of social studies coursework, passing score on South Carolina social studies content knowledge exam, concurrent enrollment in READ 498.

EDSEC 437, 637 Technology in Secondary Mathematics 3(3,0) Students learn how to integrate calculators, data collectors, and computers in the secondary mathematics curriculum. They solve problems from middle school, Algebra I, Geometry, and Algebra II courses. Prq: Second semester Junior standing, admission to the professional level.

EDSEC 444 Teaching Internship in Secondary English 9(0,27) Interns design, implement, and critically reflect upon instructional units and teaching practices in supervised secondary English classes. Interns must provide evidence of performance that meets national and state teaching standards for secondary English. Taught spring semester only. Prq: EDSEC 424. Coreq: EDSEC 454.

EDSEC 454 Secondary English Capstone Seminar 3(2,3) Seminar in conjunction with EDSEC 444. Interns reflect upon and solve problems regarding teaching events, share effective teaching practices, and devise ways to document dimensions of effective teaching. Taught spring semester only. Preq: EDSEC 424. Coreq: EDSEC 444.

SOCIOTOLOGY

SOC 201, H201 Introduction to Sociology 3(3,0) Sociological perspective: the study of contemporary groups, organizations, and societies in terms of human social behavior, social change, social structure, and social institutions.

SOC 202 Social Problems 3(3,0) Social problems involving the family, education, health care, political and legal systems, economy, population, environment, community; and special problems associated with age, economics, racial status, and gender inequality.

SOC 203 Technology, Environment, and Society 3(3,0) Considers issues involved in science, technology, and the environment in relation to human behaviors and values with an emphasis on the U.S. and globalized world contexts. Surveys the sociology of environment, science, and technology. Includes selected analysis of related controversies and policy considerations.

SOC (C R D) 235 Introduction to Leadership 3(3,0) Introduction to leadership in various organizational settings from a sociological perspective. Examines the concept of leadership, leadership traits, types of leadership, and the evolution of leadership behaviors in the 19th and 20th centuries.

SOC (R S) 303, H303 Methods of Social Research 1(3,0) Introduction to methods of social research: research design, sampling, measurement, reliability, and validity; the relationship between theory and research. Coordinating laboratory introduces students to computer literacy through research. Required of all Sociology majors. Preq: CP SC 120, MTHSC 203 or 301 or EX ST 301, SOC 201.

SOC 310, H310 Marriage and Intimacy 3(3,0) Examination of mate selection, living together, marital relations, family planning, conflict resolution, divorce and remarriage, later life adjustments, and singlehood as a lifestyle in the United States. Preq: SOC 201 or consent of instructor.

SOC 311 The Family 3(3,0) Introduction to the family as a social institution. Primary focus is on the family in the U.S. with comparisons to other cultures. Topics include the history of the family, trends in family formation and dissolution, division of labor, intergenerational relationships, family violence, and policy. Analyses of race, class, and gender are incorporated. Preq: SOC 201 or consent of instructor.

SOC 330 Work and Careers in Society 3(3,0) Introduces changes in the structure of work from preindustrial to postindustrial periods. Topics include the effects of stratification on career decisions, career paths and implications for life changes, social effects of scientific management of work, unionization, globalization, the rise of multinational corporations, and cross-cultural comparisons of management styles. Preq: SOC 201 or consent of instructor.

SOC 331 Urban Sociology 3(3,0) Urbanization as a social process and related conditions of work, family structure, social mobility, crime, lifestyle, technology, and development of urban areas in the Third World. Preq: SOC 201.

SOC 350 Self and Society 3(3,0) Social psychology from the sociological viewpoint. Examination of the interactional and group influences on such individual conditions as childhood and life-course development, language, emotions, motives, sexuality, deviance, and self-concept. Preq: SOC 201.

SOC 351 Collective Behavior 3(3,0) Spontaneous, transitory, and sporadic group behavior: crowds, panics, riots, fads, and social movements. Preq: SOC 201.

SOC (E LE, PO SC, PSYCH) 356 Social Science of Entrepreneurship 3(3,0) Examines those areas of the social sciences that have direct relevance for entrepreneurs. Topics include processes by which entrepreneurs are shaped by social institutions such as the family and community, public policy, and cultural life. Preq: SOC 201 or (C R D) 235 or PSYCH 201 or PO SC 101 or 102 or 104 or consent of instructor.

SOC (R S) 371 Population and Society 3(3,0) Social, economic, and political consequences of population structure and change, including problems of food and resources, as well as population trends and policies in developing countries and the United States. Preq: SOC 201.

SOC 380 Introduction to Social Services 3(3,0) Fundamentals of casework practice, including philosophy and values, models of group work, and ethics in social services work. Preq: SOC 201.

SOC 390 The Criminal Justice System 3(3,0) Social systems analysis of criminal justice agencies. Primary focus is on law enforcement and corrections and their interagency relationship with courts and prosecution. Preq: SOC 201.

SOC 391 Sociology of Deviance 3(3,0) Study of patterns of deviant behavior: subcultures, careers, and life-styles of deviants; deviance theory and research. Preq: SOC 201.

SOC 392 Juvenile Delinquency 3(3,0) Study of nature, extent, and causes of juvenile delinquency; societal attempts to control delinquent conduct and gang violence; emergence of the juvenile justice system. Preq: SOC 201.

SOC 393 Criminology 3(3,0) Study of nature and causes of criminal behavior; societal attempts to control crime; social responses to crime, criminals, and the criminal justice system. Preq: SOC 201.

SOC 394, H394 Sociology of Mental Illness 3(3,0) Mental illness as a social phenomenon, including cultural and social influence, organizational settings of mental health-care delivery, legal issues, patient-therapist relationships, and mental illness intervention as social control. Preq: SOC 201.

SOC 396 Alcoholism: Social Causes, Consequences and Treatment 3(3,0) Issues involved in alcoholism and alcohol abuse, assessment of sociological and social-psychological theories of alcoholism and prevention; societal problems associated with the misuse of alcohol. Preq: SOC 201 or consent of instructor.

SOC 397 Drug Abuse: Social Causes, Consequences and Treatment 3(3,0) Issues involved in drug abuse other than alcohol; assessment of sociological and social-psychological theories of drug use, abuse, and treatment; societal problems associated with the misuse of drugs other than alcohol. Preq: SOC 201 or consent of instructor.

SOC 398 Computer Crime 3(3,0) Studies the history of technological crime and evaluates forensic practices in light of legislation with an analysis of emerging caselaw. Addresses guidelines for the development of forensic laboratories, the creation of computer crime task forces, search/seizure of electronic equipment, and the evaluation of criminal subcultures.
SOC (R S) 401, 601 Human Ecology 3(3,0) See R S 401.

SOC 404, 604 Sociological Theory 3(3,0) Survey of the development of sociological theory. Required of all Sociology majors. Preq: SOC 201 and Junior standing or consent of instructor.

SOC H408 Honors Thesis Research I 3 Reading and research related to senior honors thesis. Completion of junior honors requirements and approval of department chair and thesis advisor required. Preq: SOC H303, H310, honors status.

SOC H409 Honors Thesis Research II 3 Research and writing related to the senior honors thesis. Preq: SOC H408, honors status.

SOC 414, 614 Policy and Social Change 3(3,0) Uses the sociological perspective to examine policy development, implementation, and evaluation in the public and private sectors. Specifically, focuses on values and ethics and effects of social change efforts on the outcomes of policy formation, social planning, and implementation. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 430 Sociology of Organizations 3(3,0) Analysis of administrative organizations and voluntary associations; applied analysis of their formal and informal group relations, communications, and effectiveness. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 432 Sociology of Religion 3(3,0) Sociological analysis of religious systems and movements and their influence on other social institutions. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 433, 633 Globalization and Social Change 3(3,0) Examination of the social and historical causes of development and underdevelopment. Various sociological theories of development are reviewed. Selected countries are examined in an international context. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 435, 635 Leadership and Team Building 3(2,3) Introduction to the area of leadership and the process of building effective teams. Examines various sociological perspectives on leadership and their role in developing and maintaining various types of groups. Students are actively involved in the educational process through participation in experiential learning opportunities. Preq: SOC 201 and Junior standing or consent of instructor.

SOC (R S) 459, 659 The Community 3(3,0) See R S 459.

SOC 460, 660 Race, Ethnicity, and Class 3(3,0) Investigation of sociological perspectives on race, ethnic relations, and social stratification. Includes analysis of the impact of social class on minority movements. Not open to students who have taken SOC 431. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 461 Sex Roles 3(3,0) Female and male socialization; changes in statuses, roles, inequality, and opportunities in contemporary society, with cross-cultural and social class comparisons. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 462 Men, Masculinity, and Society 3(3,0) Consideration of masculinity and social order: norms, roles, relationships, and activities; identity and socialization: work, family, sexuality, war, sports, including subcultural comparisons. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 463, 663 Sociology of Parenting 3(3,0) Study of sociology of parenting, child rearing, parenting styles and outcomes; social change and parenting; variations by sex, race, and class. Includes cross-cultural comparisons. Course is research-based with an applied orientation. Preq: SOC 201, Junior standing.

SOC 468 Sociology of Criminal Evidence 3(3,0) Introduction to the types of evidence, collection of evidence, chain of custody, and procedures relating to the introduction of evidence into judicial proceedings. Attention is given to Fourth Amendment constitutional issues, the development of law within American boundaries, and the cross-cultural development of law.

SOC (R S) 471, H471, 671 Demography 3(3,0) Study of demographic concepts, theory, and research methods for vital statistics, migration, and population distribution and projections. Considers collection and processing of demographic data and organization of demographic data systems. Offered fall semester only. Preq: ANTH 201 or SOC 201 or R S 301.

SOC 480, 680 Medical Sociology 3(3,0) Study of sociocultural factors in the etiology and treatment of physical illness, medical occupations and professions, and the organization of health care delivery systems. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 481, 681 Aging and Death 3(3,0) Sociological orientation to aging populations focusing on the impact of healthcare, welfare, and retirement systems. Includes dying as a social phenomenon, suicide, euthanasia, and funerals. Preq: SOC 201 and Junior standing or consent of instructor.

SOC 483, 683 Child Abuse and Treatment 3(3,0) Comprehensive examination of child abuse, neglect, and exploitation as major social problems; causes, effects, and prevalence of physical, sexual, and emotional maltreatment; definitional controversies; social policy and legal considerations; therapeutic approaches for children and their caretakers; child maltreatment and the judicial system. Preq: SOC 201 and Senior standing or consent of instructor.

SOC 486 Creative Inquiry—Sociology 1-3(1-3) Investigates topics and engages in action research projects selected by faculty and students. Goals, research, activities, and outcomes vary from semester to semester and project to project. May be repeated for a maximum of 12 credits. Preq: SOC 201.

SOC 491 The Sociology of Policing 3(3,0) Introduction to the major issues of contemporary policing in the U.S. from a sociological perspective. Topics include the changing functions and structure of policing, the police subculture, and the role of the police in a liberal democracy. Preq: SOC 390 or consent of instructor.

SOC 493, 693 Sociology of Corrections 3(3,0) Analysis of correctional alternatives. Topics include sentencing strategies and their impact, prison populations (male, female, and juvenile), inmate social structures, treatment and custody issues, community-based alternatives (probation, parole, electronic monitoring, and work release), and correctional management issues. Preq: SOC 390 or consent of instructor.

SOC 494, 694 Sociology of Organized Crimes 3(3,0) Examines the multifarious aspects of criminal organizations, namely their structure, methods, and networks. Specific topics may include white-collar crime and traditional, nontraditional, and transnational organized crime. Preq: SOC 201 or consent of instructor.

SOC (R S) 495 Field Experience 3(1,8) Students participate in selected field placements under supervision for eight hours weekly and in a one-hour seminar per week. May be repeated once for credit. Preq: SOC 380 or 390 and consent of department chair.

SOC (R S) 498 Independent Study 3(1,6) Individual readings or projects in sociological areas not covered in other courses. A written proposal must be approved by the instructor directing the work and by the department chair prior to registration. May be repeated for a maximum of six credits. Preq: Consent of department chair.

SOC 499 Seminar in Selected Topics in Contemporary Sociology 3(3,0) Sociological areas of current interest are explored. May be repeated by special arrangement for a maximum of six credits. Preq: Consent of department chair.

SOILS AND SUSTAINABLE CROP SYSTEMS

SSCS 101 Survey of Soils and Sustainable Crop Systems 1(1,0) Introduces majors to Soils and Sustainable Crop Systems concentrations, career paths, faculty, and University resources. Preq: Soils and Sustainable Crop Systems major or consent of instructor.

SSCS 102 Academic and Professional Development 1(1,0) Introduces Soils and Sustainable Crop Systems majors to University library services, evaluates computer program proficiency and begins development of portfolio. Web-based portfolio showcases skills and experiences (e.g. résumés, accomplishments, and work samples) during undergraduate program. Time management and ethical decision making are discussed.

SSCS 333 Agricultural Genetics 3(3,0) Broad study of genetics as it applies to agricultural species and interacting organisms: weeds, pests, pathogens, beneficial organisms. Topics include genetic centers of origin, mutations and chromosomes in species domestication, transmission genetics and reproduction, genetics of qualitative and quantitative traits, genetics of development, and stress responses, agricultural omics. Preq: BIOL 104/106, 111, or consent of instructor.
SSCS 335 Agricultural Biotechnology 3(2,2)
Strategies for the best use of biotechnology and genetic resources to alleviate constraints in global hunger, environmental sustainability, and health. Includes genetic enhancement and chromosome engineering of plant, animal, and microbial systems; issues related to commercial implementation; the impact on developing countries, environmental impact, and governmental policies. Preq: GEN 301 or consent of instructor.

SSCS 400 Selected Topics in Creative Inquiry 2-3(1-2, 3-6)
Disciplinary and multidisciplinary research projects with the goal of developing the students’ ability to discover, analyze, evaluate, and present data. Students are required to document their research activities in their e-portfolios. May be repeated for a maximum of six credits. Preq: Consent of instructor.

SSCS 401 Academic and Professional Development II 1(1,0)
Soils and Sustainable Crop Systems majors evaluate, critique, and update portfolios for presentation to future employers. Students work with Career Center and instructor to develop interviewing skills and résumés, access professional goals, and identify skills necessary for reaching goals to be competitive. The importance of ethics in soils and sustainable crop systems careers is discussed.

SSCS 445, 645 Regulatory Issues and Policies 1(1,0)
Introduction to regulations of agricultural practices and implementation of novel technologies and products. Emphasizes patenting biotechnology inventions and ethical issues. Includes survey of state and governmental agencies with responsibilities to avoid risk to humans, non-target organisms, and preservation of food safety, agricultural resources, and natural ecosystems.

SSCS 450, 650 Agricultural Biosystems and Risk Assessment 1(1,0)
In-depth discussion of recent articles on agricultural biotechnology and related issues. Independent and comprehensive literature survey and critical discussions on introduction of modified organisms into biological systems, agricultural adoption, and bio-risk assessment. Discussions relate to scientific discovery, application, and regulatory issues of agricultural biotechnology.

SSCS 451, 651 Agricultural Biotechnology and Global Society 1(1,0)
In-depth discussion of recent articles on agricultural biotechnology and related global issues. Includes independent and comprehensive literature survey and critical discussions on implementation of biotechnology products in the context of world agricultural production systems and economics. Discusses the role of international agencies and social and ethical issues.

SPANISH

SPAN 101 Elementary Spanish 4(3,1)
Course for students with no previous experience in Spanish study. The fundamentals of grammar and vocabulary are taught, and a foundation is provided for building oral and written proficiency. Three hours a week of classroom instruction and one hour a week in the language laboratory. Preq: Consent of instructor.

SPAN 102 Elementary Spanish 4(3,1) Continuation of SPAN 101.

SPAN 104 Basic Spanish 4(3,1) Condensed first-year course for students who have previously studied Spanish. Upon completion, students are prepared to enter Intermediate Spanish.

SPAN 151 Spanish for Graduate Students 3(3,0)
Intensive program only for graduate students preparing for the reading examination in Spanish. A minimum grade of B on a final examination will satisfy graduate school foreign language requirement. May be repeated once. To be taken Pass/Fail only. Preq: Graduate standing.

SPAN 201, H201 Intermediate Spanish 3(1)
Intermediate course to practice listening, speaking, reading, and writing. Grammatical structures and basic vocabulary are reviewed systematically. Includes literary and cultural perspectives. Preq: SPAN 102, 121, or consent of department chair.

SPAN 204 Advanced Spanish II 6(6,0)
Accelerated intermediate course that may be taken in lieu of SPAN 201 and 202. Through conversation, composition, dictation, and intensive grammar review, proficiency is stressed. Includes literary readings and cultural perspectives. May not be taken by students who have completed SPAN 201 or 202. Preq: SPAN 102, 121, or consent of department chair.

SPAN 297 Creative Inquiry—Spanish 1-4(1-4,0)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

SPAN 300 Spanish Composition for Business 3(3,0) Intensive practice of business writing skills through compositions, general review of grammatical structures, and exposure to business vocabulary and concepts. Preq: SPAN 202 or consent of department chair.

SPAN 302 Intermediate Spanish Grammar and Composition 3(3,0) Intensive review of Spanish structure, verbs, idioms, and vocabulary with an introduction to syntax and stylistics through controlled and free composition. Preq: SPAN 202 or consent of department chair.

SPAN 303 Survey of Spanish Literature I 3(3,0) Literary movements, influences, and authors from the beginning to the end of the 17th century; representative works, discussions. Preq: Any 300-level Spanish course.

SPAN 304 Introduction to Hispanic Literary Forms 3(3,0) Introduction to the basic structures and elements of fiction, poetry, drama, and essay, including literary and critical theory, with readings in 19th- and 20th-century Spanish and Spanish-American literature. Preq: SPAN 302 or 305.

SPAN 305 Intermediate Spanish Conversation and Composition I 3(3,0) Practice in spoken Spanish with emphasis on vocabulary, pronunciation, intonation, and comprehension. Includes written work to increase accuracy and assignments in the language laboratory. Preq: SPAN 202 or consent of department chair.

SPAN 307 The Hispanic World: Spain 3(3,0) Introduction to the significant aspects of the culture of Spain from its origins to the present. Emphasizes the artistic, social, historical, political, and contemporary issues of the Iberian Peninsula. Preq: SPAN 202 or consent of department chair.

SPAN 308 The Hispanic World: Latin America 3(3,0) Introduction to the significant aspects of the culture of Spanish-American countries. Emphasis is placed on the development of the political, economical, geographical, social, and artistic aspects of Spanish America from the indigenous period to the present. Preq: SPAN 202 or consent of department chair.

SPAN 309 Introduction to Spanish Phonetics 3(3,0) Study of basic concepts of phonetics and phonology, fundamental principles of Spanish pronunciation and International Phonetic Alphabet. Preq: SPAN 202 or consent of department chair.

SPAN 310 CLIP Summer Immersion Program 6(6,0)
Conducted entirely in Spanish for eight hours daily. Consists of activities that combine interrelating cultural topics with language skill practice. Frequent opportunities to converse with native speakers during meals and on excursions. Students receive six credits, three of which may be taken in lieu of SPAN 202. Preq: SPAN 201.

SPAN 311 Survey of Spanish-American Literature 3(3,0) Literary movements, influences, authors, and works from the Colonial period to the present. Preq: Any 300-level Spanish literature or culture course.

SPAN 314 Hispanic Linguistics 3(3,0) Familiarizes students with the theory and practice of linguistics applied to Spanish, in order to deepen their knowledge of phonetics, morphology, syntax, semantics and linguistic change. Preq: SPAN 302 or consent of department chair.
SPAN 316 Spanish for International Trade I (3,0) Introduction to commercial Spanish; study of the spoken and written language, protocol, and cultural environment of the Spanish-speaking business world. Business vocabulary, basic business and cultural concepts, and situational practice. Grammatical review through business letters, professional documents and commercial reports. Reading and analysis of commercial texts. Preq: Any 300-level Spanish language or literature class.

SPAN 318 Spanish Through Culture 3(3,0) Topic-generated conversation course in Spanish through a broad array of artistic manifestations in the Hispanic World emphasizing conversation and short written exercises. Focuses on one Hispanic culture topic which provides a basis for class discussion and short written compositions in Spanish. Preq: SPAN 202 or consent of department chair.

SPAN (PO SC) 382 Spanish-Language News 1(1,0) See PO SC 382.

SPAN H391 Honors Introduction to Hispanic Literary Forms 1(1,0) One-hour independent study to allow honors students to pursue supervised research on some aspect of Hispanic literature. Coreq: SPAN 301, membership in Calhoun Honors College.

SPAN H392 Survey of Spanish Literature 1(1,0) Independent study allowing honors students to pursue supervised research on witchcraft in 15th- and 16th-century Spain. Coreq: SPAN 303, membership in Calhoun Honors College.

SPAN H393 The Hispanic World: Latin America 1(1,0) One-hour independent study to allow honors students to pursue supervised research on a topic related to Hispanic American history, politics, geography, economics, social institutions, or artistic movements. Coreq: SPAN 308, membership in Calhoun Honors College.

SPAN 397 Creative Inquiry—Spanish 3(1-4,0) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite knowledge, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

SPAN 398 Directed Reading 1-3(1-3,0) Directed study of selected topics in Spanish literature, language, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

SPAN 401 New Spanish Fiction 3(3,0) Study of selected readings by popular emerging and established authors of Spanish, with emphasis on current cultural trends. Readings include, but are not limited to, detective novels, regional fiction, and fiction from marginalized groups in Spain. Preq: SPAN 300-level literature course or consent of department chair.

SPAN 403 Spanish American Women Writers 3(3,0) In-depth study of selected literary works by Spanish American women. Representative authors are studied within their philosophical and sociopolitical contexts. Preq: Spanish 300-level literature course or consent of department chair.

SPAN 404 Nineteenth and Twentieth Century Spanish Literature 3(3,0) Selected readings from major authors in Spain. Emphasis is on readings in poetry, theatre, short story, and novels from the 19th to the early 20th century. Preq: Spanish 300-level literature course or consent of department chair.

SPAN 405 International Trade and Literature 3(3,0) Readings in the social, economic, and political changes of the Hispanic world in fiction and nonfiction. Study of the importance of social changes that have shaped the economies of Hispanic countries. Preq: Spanish 300-level literature course or culture course or consent of department chair.

SPAN 406 Hispanic Narrative Fiction 3(3,0) Topic-generated readings from Spanish America and/or Spain. Readings consider gender issues, the family, ethnicity, religion, politics, history, or socioeconomic issues in the Hispanic world. Preq: Spanish 300-level literature or culture course or consent of department chair.

SPAN 407 Spanish Film 3(3,0) Films are “read” as texts that mirror Hispanic society. Besides learning about cinematographic techniques in Spanish, topics include comparative analysis of film and literature, film as propaganda, film as “blockbuster,” and the cinematic depiction of social, cultural, and historical realities of Hispanic nations. Preq: Spanish 300-level language, literature, or culture course or consent of department chair.

SPAN 409 Comprehensive Writing in Spanish 3(3,0) Study of statistics in addition to grammar review; writing paragraphs, short compositions, and creative papers in Spanish on both fiction and non-fiction topics. Preq: Any 300-level Spanish course or consent of department chair.

SPAN 411 Advanced Spanish Conversation and Composition 3(3,0) Continuation of SPAN 305 with emphasis on greater fluency and sophistication in oral and written expression. Preq: SPAN 305 or consent of department chair.

SPAN 415 Spanish for Health Professionals 3(3,0) Medical concepts and terminology in Spanish; designed for students who plan to work in professions related to public health care. Preq: Six credits in Spanish at the 300–400 level.

SPAN 416 Spanish for International Trade II 3(3,0) Study of more complex business vocabulary, cultural concepts, and environment of Hispanic markets. Social, political, and economic issues related to Spanish-speaking countries and their current economies in global marketing. Economic geography of Hispanic countries, company organization, management, banking, investment, goods and services, and marketing. Preq: SPAN 316.

SPAN 417 Professional Communication 3(3,0) Skill-oriented course, taught in a seminar format. Students learn established “protocol” for addressing various Spanish-speaking audiences and learn to give professional presentations in Spanish. Preq: Spanish 300-level course or consent of department chair.

SPAN 418 Technical Spanish for Health Management Professionals 3(3,0) Technical health communication course in Spanish with emphasis on managerial and business aspects of the international health industry. Preq: SPAN 415 and six additional credits in Spanish at the 300–400 level.

SPAN 419 Health and the Hispanic Community 3(3,0) Study of cultural aspects of health and health services in Hispanic populations. Taught in Spanish. Preq: SPAN 415 and six additional credits in Spanish at the 300–400 level.

SPAN 420 Hispanic Drama 3(3,0) Exploration of contemporary Hispanic theatre. The production and reception of the plays are analyzed paying particular attention to notions of dramatic genre. Focuses on the change and continuity of the plays as well as their historical, cultural, and ideological backgrounds. Preq: Two 300-level Spanish literature or culture classes.

SPAN 421 Spanish-American Modernism and Postmodernism 3(3,0) In-depth study of Spanish-American modernism and postmodernism with focus on narrative and poetry. Preq: Any 300-level Spanish literature course or consent of department chair.

SPAN 422 The Contemporary Spanish-American Novel 3(3,0) New trends in the development of the Spanish-American novel from the 1940s to the present. Preq: Spanish 300-level literature course or consent of department chair.

SPAN 435 Contemporary Hispanic Culture 3(3,0) Study of social, political, economic, and artistic manifestations of contemporary Hispanic culture. Preq: Spanish 300-level civilization or culture course or consent of department chair.

SPAN H438 Spanish Honors Research 3(3,0) Individual honors research conducted under the direction of Language Department faculty. May not be used to satisfy requirements for the major in Modern Languages—Spanish or Language and International Trade or the minor in Modern Languages. Preq: Junior standing, SPAN H438, membership in Calhoun Honors College.

SPAN H439 Spanish Honors Thesis 3(3,0) Individual honors research conducted and theses completed under the direction of Language Department faculty. May not be used to satisfy requirements for the major in Modern Languages—Spanish or Language and International Trade or the minor in Modern Languages. Preq: Junior standing, SPAN H438, membership in Calhoun Honors College.

SPAN H491 Hispanic Narrative Fiction 1(1,0) One-hour independent study to allow honors students to pursue supervised research on the socio-political climate under Franco’s dictatorship, with emphasis on contemporary literary theory. Coreq: SPAN 406, membership in Calhoun Honors College.

SPAN H492 Contemporary Latin American Novel 1(1,0) One-hour independent study to allow honors students to pursue supervised research in the literary and cinematographic images of magic realism. Coreq: SPAN 422, membership in Calhoun Honors College.
Courses of Instruction

SPAN 497 Creative Inquiry—Spanish 1-4(1-4,0)
Continuation of research initiated in SPAN 397. Students complete their project and disseminate their research results. Preq: SPAN 397 or consent of instructor.

SPAN 498 Independent Study 1-3(1-3,0-3)
Directed study of selected topics in Spanish language, literature, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

SPAN 499, 699 Special Topics 3(3,0) Study of timely or special topics in Spanish. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of department chair.

SPECIAL EDUCATION

Professors: V. I. Correa, A. Katsiyannis, P. M. Stecker; Associate Professor: M. J. Hodge; Assistant Professors: K. A. McDuffie, P. J. Riccomini, J. B. Ryan; Lecturer: R. E. Fish

ED SP 370, H370 Introduction to Special Education 3(3,0) Survey of students with disabilities and with gifts/talents. Individuals with Disabilities Education Act is emphasized, including general educator's role in serving students with special needs. Characteristics, assessment, and effective instructional procedures for students of varying exceptionalities are addressed. Preq: Minimum grade-point ratio of 2.0.

ED SP 371 Characteristics of the Mildly Handicapped 3(3,0) Surveys the characteristics which distinguish the mildly/moderately handicapped from the more severely handicapped. Preq: Minimum 2.0 grade-point ratio.

ED SP 372 Characteristics and Instruction of Individuals with Learning Disabilities 3(3,0) In-depth coverage of characteristics and identification procedures for individuals with learning disabilities. Effective instructional strategies are addressed. Students participate in field experiences throughout the semester. Offered fall semester only. Preq: ED SP 370; admission to professional level.

ED SP 373 Characteristics and Instruction of Individuals with Mental Retardation 3(3,0) In-depth coverage of characteristics and identification procedures for individuals with mental retardation. Effective instructional strategies are addressed. Students participate in field experiences throughout the semester. Preq: ED SP 370; admission to professional level.

ED SP 374 Characteristics and Strategies for Individuals with Emotional/Behavioral Disorders 3(3,0) In-depth coverage of characteristics and identification procedures for individuals with emotional or behavioral disorders. Effective instructional strategies and behavior management are addressed. Students participate in field experiences throughout the semester. Preq: ED SP 370; admission to professional level.

ED SP 468 Early Intervention for Infants and Children with Special Needs 3(3,0) Provides students with a working knowledge of the history of early intervention, legal precedence for providing early intervention services, and effective instructional techniques for working with infants and young children with disabilities and their families. Preq: ED SP 370.

ED SP 469, 669 Characteristics of Individuals with Emotional and Behavioral Disorders 3(3,0) Addresses the characteristics of individuals with emotional and behavioral disorders. Consideration is given to historical and legal aspects, definitions, comprehensive assessment, and the impact of school, home, culture, and society on individuals with behavior disorders. Research findings in the field of behavior disorders are emphasized. Preq: ED SP 370.

ED SP 470, 670 Characteristics of Individuals with Learning Disabilities 3(3,0) Provides specific knowledge of definitions, evaluation procedures, cognitive, social, academic, and functional skills of individuals with learning disabilities across the lifespan. Preq: ED SP 370.

ED SP 472, 672 Characteristics of Individuals with Mental Retardation 3(3,0) Characteristics of mental retardation across the lifespan: learning, behavioral, and developmental aspects are examined. Preq: ED SP 370.

ED SP 473, 673 Educational Procedures for Individuals with Mental Retardation 3(3,0) Identification, selection, and preparation of functional curriculum materials and pedagogy for teaching students with mental retardation. A multidisciplinary, student-centered approach to program planning provides the framework. Preq: ED SP 472.

ED SP 474, 674 Procedures for Individuals with Emotional and Behavioral Disorders 3(3,0) Assists students in developing specific strategies for teaching individuals with emotional and behavioral disorders, utilizing preventive measures, expanding skills in behavior analysis, and implementing the least restrictive intervention warranted. Includes programmatic considerations, social skill instruction, curriculum selection, IEP development, and effective transition. Preq: ED SP 469.

ED SP 475, 675 Educational Procedures for Individuals with Learning Disabilities 3(3,0) Provides knowledge of educational evaluation and instructional procedures to improve outcomes for individuals with learning disabilities. Preq: ED F 302, ED SP 370, PSYCH 201; or consent of instructor.

ED SP 476, 676 Practicum in Learning Disabilities 3(2,3) Addresses content knowledge, skills, and professional values for successful teaching of students with learning disabilities. Focuses on teacher-directed instruction and the use of critical instructional factors, the use of recommended practice for students with disabilities, and the measurement and analysis of student performance data. Preq: ED SP 470, 475; completion of student teaching.

ED SP 478, 678 Practicum in Emotional and Behavioral Disorders 3(2,3) Addresses content knowledge, performance skills, and professional values for successful teaching of students with emotional and behavioral disorders. Focuses on teacher-directed instruction and the use of critical instructional factors, the use of recommended practice for students with disabilities, and the measurement and analysis of student performance data. Preq: ED SP 474; completion of student teaching.

ED SP 479, 679 Practicum in Mental Retardation 3(2,3) Addresses content knowledge, performance skills, and professional values for successful teaching of students with mental retardation. Focuses on teacher-directed instruction and the use of critical instructional factors, the use of recommended practice for students with disabilities, and the measurement and analysis of student performance data. Preq: ED SP 473; completion of student teaching.

ED SP 491 Educational Assessment of Individuals with Disabilities 3(2,2) Introduction to assessment process (verification) in special education. Includes procedural safeguards; data collections via informal and standardized procedures; issues in assessment; psychometric properties of standardized tests; and administration, scoring, and interpretation of selected instruments. Offered spring semester only. Preq: ED SP 372, 373.

ED SP 492 Mathematics Instruction for Individuals with Mild Disabilities 3(3,0) Prepares students to provide explicit instruction in mathematics for individuals with mild disabilities. Students learn to assess, analyze, and teach math skills systematically. Offered fall semester only. Preq: ED SP 374, 491; concurrent enrollment in ED SP 493, 494, 496, 497.

ED SP 493 Classroom and Behavior Management for Special Educators 3(3,0) Students describe various intervention strategies for increasing and maintaining appropriate behaviors and for decreasing or eliminating inappropriate behaviors. Students accurately recognize, record, and chart inappropriate behaviors; employ the least restrictive intervention; foster self-management skills; and develop preventive strategies and class-wide systems for managing academic and social behavior. Offered fall semester only. Preq: ED SP 374, 491; concurrent enrollment in ED SP 492, 494, 496, 497.

ED SP 494 Teaching Reading to Students with Mild Disabilities 3(3,0) Emphasizes the knowledge and skills necessary for teaching reading to students with mild disabilities. Offered fall semester only. Preq: ED SP 374, 491; concurrent enrollment in ED SP 492, 493, 496, 497.

ED SP 495 Written Communication and Collaboration for the Resource Teacher 3(3,0) Focuses on the development of written communication skills to enhance special education teachers' collaboration with parents, regular educators, public and private agencies. Offered spring semester only. Preq: ED SP 492, 493, 494, 496; concurrent enrollment in ED SP 416 or 498.
ED SP 496 Special Education Field Experience 3(0,9) Supervised practical experience prior to Directed Teaching for preservice special education teachers preparing to teach individuals with mild/moderate disabilities. Offered fall semester only. Preq: ED SP 374, 491; concurrent enrollment in ED SP 492, 493, 494, 497.

ED SP 497 Secondary Methods for Individuals with Disabilities 3(3,0) Preparation for working with students with mild/moderate disabilities in secondary schools. Focus is on literature, methods, and materials for providing instruction in transition, self-determination, knowledge within content areas, functional skills, and integration into the community. Offered fall semester only. Preq: ED SP 374, 491; concurrent enrollment in ED SP 492, 493, 494, 496.

ED SP 498 Directed Teaching in Special Education 12(1,33) Comprehensive course providing a full-time, semester-long experience for preservice special education teachers who plan to teach individuals with mild/moderate disabilities. Generally the last course in the program; provides teaching experience under the supervision of University and school personnel. Offered spring semester only. Preq: ED SP 492, 493, 494, 496, 497; concurrent enrollment in ED SP 495.

TEXTILES

TEXT 175 Introduction to Textile Manufacturing 3(3,0) Introduction to the broad fields of textile, fiber, and polymer science and engineering with emphasis on the scientific, technological, and business principles utilized in producing fibers, yarns, and fabrics; enhancing fabric functionality by dyeing, finishing, and printing; and establishing end-use products.

TEXT 176 Natural and Man-Made Fibers 4(3,3) Introduces the concept of natural and synthetic polymers as the raw materials of the textile industry. Survey of the origin, characteristics, and processing properties of various natural fibers and fiber-forming synthetic polymers. Formation of textile fibers from polymeric materials is presented with specific emphasis on the polymer science and engineering principles.

TEXT 201 Yarn Structures and Formation 4(3,3) Study of fiber processing systems required to transform various fibrous materials into yarn. Involves the machine principles and theories, relationship of the fibers to the process and the resultant yarn structures, and subsequent analysis of the yarn structure to define quality and to determine suitable manufacturing practices. Preq: TEXT 175 and 176 or consent of instructor.

TEXT 202 Fabric Structures, Design, and Analysis 4(3,3) Study of fabric formation techniques designed to explore the principles and theories of modern technology. Evaluation and analysis of weaving, knitting, and nonwoven fabrication of textile structures. Preq: TEXT 201 or consent of instructor.

TEXT 308 Apparel 4(3,3) Introduction to apparel construction techniques and analysis of problems commonly encountered in the apparel industry. Evaluation of fabric design and properties. Preq: TEXT 202 or consent of instructor.

TEXT 314 Chemical Processing of Textiles 4(3,2) Concepts of current procedures in the chemical, mechanical, and physical preparation and in bleaching, dyeing, printing, and finishing of fabrics are presented; colorimetric and spectrophotometric methods of color control and test methods for the evaluation of the effectiveness of the treatments are emphasized. Not open to Polymer and Fiber Chemistry or Textile Management (Chemical) majors.

TEXT 324 Textile Statistics 3(3,0) Introduction to statistics with particular application to the textile industry. Measures of central value and variation, probability, the normal curve, tests of hypotheses, elementary correlation, and regression. Preq: Sophomore standing or consent of instructor.

TEXT 333 The Textile Arts 3(2,3) Surveys development of the hand loom from prehistoric times to the present. Studio work in the elements of hand-woven fabrics, their design, analysis, and production of four-harness counterbalance and jack looms. Preq: Junior standing or consent of instructor.

TEXT 403 Fiber Processing III 3(2,2) Concepts of current fiber processing machines, techniques, practices, and their validity are investigated. Problems are assigned that require use of acquired knowledge, textile testing equipment, and processing machines. The relation of fibrous material properties and processing dynamics to the fiber assemblies produced is studied. Preq: TEXT 201.

TEXT 411 Fabric Development III 3(2,2) Study of specifications and loom details for the production of fabrics woven to the customer's order, including multicolor layouts. Warp and filling preparation are covered as well as size formulations and their methods of application. Warping and dressing plans are developed for the warper and the slasher. Preq: TEXT 202.

TEXT 416 Nonwoven Structures 3(2,2) Nonwoven fabric structures, their manufacture, properties, and applications. Methods of nonwoven fabric formation, resultant material characteristics and end-use applications are examined. Preq: TEXT 201.

TEXT 421, H421 Fiber Science 3(2,2) Familiarizes students with the physical properties of textile and high performance fibers and how these properties influence process and end-use performance; method of measuring those properties; and how those properties are related to structural features of the fiber.

TEXT 422, 622 Properties of Textile Structures 3(2,2) Yarn and fabric properties, their scientific significance and analysis. Dimensional, structural, and mechanical interrelationships are established and evaluated.

TEXT 426, 626 Instrumentation 3(0) Principles of industrial and process instrumentation and control as applied in the textile industry; static and dynamic characteristics of measurement devices; transducer principles and techniques of their application for measurement of physical properties such as pressure, temperature, flow, weight, etc.; principles of process controllers; applications of computers in textile process control.

TEXT 428 Textile Research 1-3 Investigation of a problem in textile, fiber, or polymer science under the direct supervision of a faculty member. After completing the research, student prepares a formal written report which is presented orally. Preq: Senior standing or consent of instructor.

TEXT 429 Textile Research 1-3 Continuation of TEXT 428.

TEXT 445, 645 Special Topics in Textile, Fiber, and Polymer Science 1-3(1-3,0) Special topics in textile, fiber, and polymer sciences. A co-enrollment course for similar courses in other departments such as for those students involved in CAEFF projects and CH E 445. May be different sections in a term to cover different topics. May be repeated for a maximum of nine credits, but only if different topics are covered. Preq: Consent of instructor.

TEXT 460, 660 Textile Processes 3(3,0) Survey of machinery and processes of textile manufacturing from fiber formation through fabric finishing. For students with a nontextile background.

TEXT 470 Textile Costing and Inventory Control 3(3,0) Study of the principles of costing as they specifically apply to the manufacture of textiles. Allocation of cost of material, labor, and overhead; determining the unit cost of yarns, fabrics, and finishes. Inventory systems, storage, materials handling, and profits. Preq: TEXT 202 or consent of instructor.

TEXT 472, 672 Textile International Trade 3(3,0) Analyzes the current structure of the international textile trade including imports, exports, tariffs, and trade requirements. Field experience with local firms is used to enhance students' understanding. Preq: Senior standing or consent of instructor.

TEXT 475, 675 Textile Marketing 3(3,0) Examination of the activities involved in the distribution of textile products in today's market. Emphasis is placed on the role of consumer research and the analysis of fashion in the design and promotion of textile products.

THEATRE

THEA 210, H210 Theatre Appreciation 3(3,0) Examination of the theatre event approached through historical context, play reading, analysis of production practices, and field trips to live dramatic performances.
THEA 267 Stage Makeup Techniques 3(2,1)
Practical study of basic stage makeup techniques for the acting student including corrective makeup, modeling with paint, three-dimensional makeup, prosthesis with latex, and makeup for other media.

THEA 277 Production Studies in Theatre 3(3,0)
Study of technical production and design including scenery, costume, and lighting through the examination of plays in production.

THEA 278 Acting I 3(2,3)
Fundamentals of acting: basic stage techniques; exercises in interpretation, improvisation, characterization; experience in supervised scene study.

THEA 279 Theatre Practicum 1(0,3)
Practical work in theatre on a production designed for public presentation. May be repeated for a maximum of four credits.

THEA 288 Introduction to Computer-Aided Drafting 3(2,3)
Introduction to the basics of computer-aided drafting. Software applications include AutoCAD, Vectorworks, and WYSIWYG.

THEA 315 Theatre History I 3(3,0)
Historical survey of Western theatre. Emphasis is placed on the changing roles of the playwright, director, actor, technician, and spectator from antiquity to the Renaissance. Preq: Sophomore standing.

THEA 316 Theatre History II 3(3,0)
Historical survey of Western theatre. Emphasis is placed on the changing roles of the playwright, director, actor, technician, and spectator from the Renaissance to the present. Preq: Sophomore standing.

THEA 317 African-American Theatre I 3(3,0)
Acquaints students with the origin and development of African-American playwrights, plays, players, and their contributions to the American theatre from the 19th century to the Civil Rights Movement.

THEA 318 African-American Theatre II 3(3,0)
Acquaints students with the development of African-American playwrights, plays, players, and their contributions to the American theatre from the Black Arts Movement to the present.

THEA (ENGL) 347 The Structure of Drama 3(3,0)
Introduction to the creative writing and critical study of drama. Preq: ENGL 310 or consent of instructor.

THEA 367 Costume Technology 3(2,3)
Theory and practice of costume technology including equipment, patterning, fabric identification, cutting, construction, and fitting.

THEA 368 Voice for the Stage 3(2,3)
Study of the principles of vocal production and standard American speech for the stage; exercises in breath support and projection, improving tonal quality, and elimination of regional dialects through the study of the International Phonetic Alphabet. Preq: Sophomore standing.

THEA 372 Creative Drama 3(3,0)
Practical applications using creative drama as a learning tool to strengthen curriculum goals and heighten student participation in the classroom. Students develop classroom teaching strategies based on drama education. Appropriate for elementary and secondary teachers, artists, and workshop leaders.

THEA 374 Stage Movement for Actors 3(1,2)
Study of the psychological and physical sources of movement in the human body, with emphasis on the attainment of intellectual and physical control and the application of the skills to the development of a role.

THEA 376 Stage Directing I 3(2,3)
Directing and staging techniques for the proscenium stage; exercises in composition, movement, picturization; experience in direction of scenes. Preq: Sophomore standing.

THEA 377 Stagecraft 3(2,3)
Theory and practice of stage design and technology. Preq: Sophomore standing.

THEA 379 Acting Ensemble 1(0,3)
Performance opportunities in the area of theatre for young audiences. Students are members of a theatrical touring troupe and perform in a variety of spaces and locations. May be repeated for a maximum of four credits. By auditions only.

THEA 388 Stage Management 3(3,0)
Examines the vital part stage managers play in every theatrical production including organizing rehearsals, facilitating communication between director and designers, and calling cues during performances. Introduces the art and craft of stage management by incorporating Performing Arts Department and Brooks Center productions.

THEA 398 Special Topics in Theatre 3(3,0)
Select areas of study in theatre not addressed by other theatre course offerings. May be repeated once. Preq: Consent of instructor.

THEA (ENGL) 430, 630 Dramatic Literature II 3(3,0) See ENGL 430.
THEA (ENGL) 447, 647 Playwriting Workshop 3(0,3) Workshop in the creative writing of plays. May be repeated once. Preq: THEA (ENGL) 347 or consent of instructor.

THEA 467 Costume Design 3(3,0)
Theory and practice of costume design for the theatre including the study of production concept and styles, sketching, and rendering. Preq: THEA 367 or consent of instructor.

THEA 472, 672 Improvisation: Interpreting and Developing Texts 3(3,0)
Practical applications using drama as a learning tool to strengthen writing skills, motivate collaboration, heighten analytical skills. Students use improvisation to analyze texts and to revise original work, consider theory and research of contemporary scholars, and develop approaches to literature and composition based on readings and drama experiences. Preq: Senior standing or consent of instructor.

THEA 476 Stage Directing II 3(2,3)
Continued study in the art of stage directing emphasizing leading contemporary theory and methodology. Culminates in the production of a one-act play for public presentation. Preq: THEA 376 or consent of instructor.

THEA 477 Stage Design 3(2,3)
Study and practice in stage design, including drafting, graphics, drawing, rendering, scene painting, and light plotting. Preq: THEA 377 or consent of instructor.

THEA 479 Acting II 3(2,3)
Continued study in the craft of acting for contemporary Western theatre. Students focus on monologue and scene study in a variety of performance settings. Preq: THEA 375 and consent of instructor.

THEA 480 Advanced Scene Study for Actors 3(2,3)
Students interpret and perform characters in complex plays written in heightened styles and integrating period movement into the various genres and styles of plays throughout major periods of theatre history. Styles include Elizabethan, Comedy of Manners, Farce, Chekhov Realism, Absurdism, Mannerism, and various contemporary approaches. Preq: THEA 479 or consent of instructor.

THEA 487, 687 Stage Lighting I 3(2,1)
Theory and practice of stage lighting through an understanding of various lighting instruments, light control systems, and execution of lighting designs.

THEA 488 Stage Lighting II 3(2,3)
Study of advanced stage lighting theories and practices including script analysis, technology, software and execution of lighting designs. Other topics include unions and contracts, shop orders, and assisting the lighting designer. Preq: THEA 487 or consent of instructor.

THEA 497, 697 Scene Painting 3(2,1)
Practical study of basic painting techniques for the theatre including layout, proper use of materials, painting styles, and texturing techniques.

THEA 499, 699 Independent Studies 1-3(1-3,0)
Tutorial work for students with special interests outside the scope of existing courses. May be repeated for a maximum of six credits. Preq: Consent of department chair.

WILDLIFE AND FISHERIES BIOLOGY

W F B 101 Introduction to Wildlife and Fisheries Biology 1(1,0)
Informative sketch of aquaculture, fisheries science, and wildlife management. Introduces principles, resources, professional organizations, and careers in these fields. Offered fall semester only. Preq: Wildlife and Fisheries Biology major or consent of instructor.

W F B 102 Methods of Wildlife and Fisheries Biology 1(0,2)
Introduction to methodology used in aquaculture, fisheries science, and wildlife management. Students are introduced to terminology, techniques, laws, and legislations. Skills with dimensions, units, computations, and technical communications as applied to aquaculture, fisheries, and wildlife. Preq: Wildlife and Fisheries Biology major. Coreq: W F B 101.

W F B 300 Wildlife Biology 3(3,0)
Natural history, biology, and conservation of wildlife managed by natural resource agencies. Attention is given to those factors important in the management and conservation including species distribution and abundance, habitat requirements, and life-history characteristics. Principles and problems associated with conservation of selected wildlife species are covered. Preq: Two semesters of introductory biology.
W F B 301 Wildlife Biology Laboratory 1(0,3) Identification of wildlife species with emphasis on game and non-game wildlife species managed or protected by state and federal agencies. One or more required weekend field trips will be scheduled. Prereq: Wildlife and Fisheries Biology major. Coreq: W F B 300.

W F B 306 Introduction to Wildlife Conservation 2(2,0) Examines the fundamental thinking upon which modern conservation programs have been built.

W F B 307 Hunting and Wildlife Management 1(1,0) Hunting techniques used to harvest renewable wildlife resources are examined with respect to their roles in sound management practices. The effects of selected hunting regulations on wildlife populations, safety, and ethics are discussed. Prereq: Junior standing or consent of instructor.

W F B (BIOSEC) 313 Conservation Biology 3(3,0) Study of the biological bases for the conservation of flora, fauna, and habitats. Biological factors that influence the decision-making process are also addressed. Prereq: One year of general biology or consent of instructor.

W F B 350 Principles of Fish and Wildlife Biology 3(3,0) Introduction to principles of fisheries and wildlife biology on which sound management practices are based. Interrelationships of vertebrate and invertebrate habitat, distribution, and population dynamics are covered. Prereq: One year of general biology.

W F B 410, 610 Wildlife Management Techniques 3(1,6) Covers field and laboratory methods commonly used in wildlife management and research. Students will interact with wildlife professionals. Topics include research methodology, estimating wildlife population characteristics, condition measures, and food habits; species determination, sex, and age; capture; population monitoring methods; GIS and mapping techniques, habitat evaluation, and improvement. Prereq: Junior standing, one year of general biology.

W F B 412, H412, 612 Wildlife Management 3(2,3) Basic principles and general practices of wildlife management and conservation are covered. Major problems concerning the management of wildlife resources, with emphasis on upland game species. Laboratory work includes practical work on the Clemson University woodlands and field trips to several areas where wildlife management is being practiced.

W F B 414, 614 Wildlife Nutritional Ecology 3(3,0) Concepts of how terrestrial wildlife obtains and utilizes energy and nutrients in wild ecosystems are taught. Energy and nutrient availability are discussed in the ecological context of distribution, flow, and cycling in natural and modified foraging areas. Physiology of digestion is discussed for major homeotherms. Prereq: FOR 415 or W F B 412.

W F B 416, 616 Fishery Biology 3(2,3) Principles underlining freshwater fish production. Introduction to major groups of freshwater fishes and their habitats. Topics include identification, age and growth, fecundity, food habits, populations, estimation, environmental evaluation, management practices, and fish culture. Prereq: One year of introductory biology, Junior standing.

W F B 418 Fishery Conservation 3(3,0) Survey of conservation efforts directed toward freshwater and marine fisheries resources. Topics include threatened, endangered, and over-exploited species and introductions of exotic species. Prereq: Two semesters of introductory biology.

W F B 430, 630 Wildlife Conservation Policy 3(3,0) Deals with the ecological rationale and management implications of public policy designed for the conservation of American wildlife resources. Emphasis is on managed-land issues. Prereq: W F B 330 or consent of the instructor.

W F B 440 Non-Game Wildlife Management 3(3,0) Basic principles and general practices of non-game wildlife management are covered. Emphasis is placed on those principles and practices most appropriately used by state agencies in their management programs for non-game species, along with real-world problems associated with implementation of such programs. Prereq: Two semesters of introductory biology.

W F B 444, 644 Wildlife Damage Management 3(2,3) Covers the philosophical, sociological, ecological, and economical basis for controlling damage caused by animals. Problem populations are examined, and emphasis is placed on fundamentals of prevention and control of damage caused by vertebrate species, especially mammals and birds. Includes interaction with federal, state agencies, and private consultants. Prereq: One year of introductory biology.

W F B 445 Urban Wildlife Management 3(3,0) Focuses primarily on social, scientific, and ecological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as well as urban planning for wildlife are covered. Prereq: One year of general biology or consent of instructor.

W F B 450, 650 Aquaculture 3(3,0) Basic aquacultural techniques applied to freshwater and marine organisms; past and present culture of finfishes and shellfishes around the world; principles underlying fish production; water quality, feeding, and nutrition as they influence production of cultured aquatic organisms. Prereq: One year of general biology, Junior standing.

W F B 460, 660 Warmwater Fish Diseases 2(2,0) Study of diseases in warmwater fish including infectious and noninfectious processes. Prereq: One year of general biology, Junior standing, consent of instructor.

W F B 462, H462, 662 Wetland Wildlife Biology 3(3,0) Study of wetland wildlife habitats, emphasizing classification by physical, chemical, and biological characteristics; importance of wetland habitat for management and production of wetland wildlife species. Offered fall semester only. Prereq: BIOL 103/105 and 104/106, or 110/111.

W F B 463 Directed Research in Aquaculture, Fisheries, and Wildlife Biology 1(0,3) Research problems in selected areas of aquacultural, fisheries, or wildlife science to introduce students to experimental design, research techniques, and presentation of research results. May be repeated for a maximum of three credits. Prereq: Junior standing, consent of instructor.

W F B (BIOSEC, ENT) 469, H469, 669 Aquatic Insects 3(1,6) See ENT 469.

W F B 490 Field Training in Aquaculture, Fisheries, and Wildlife 3(0,9) Four-to-five-week program in which students observe aquaculture, fisheries, or wildlife management. Students have supervised management responsibility. Total of 135 hours required. Must be taken at least two months in advance. To be taken Pass/Fail only. Prereq: Senior standing in Wildlife and Fisheries Biology or consent of instructor.

W F B 493 Selected Topics 1-4(0-4,0-12) Specialized topics which explore current areas of research and management in aquaculture, fisheries, or wildlife management. Examination and analysis of selected topics related to major groups of freshwater fishes and shellfishes, and wildlife conservation. May be repeated for a maximum of ten credits, but only if different topics are covered. Prereq: Junior standing, consent of instructor.

W F B 498 Senior Portfolio 1(1,0) Collection of Web-based materials representing the creative and scientific papers, presentations, and résumés written by students to satisfy curriculum requirements. Students are regularly informed regarding the format and content of their portfolios. Prereq: Senior standing in Wildlife and Fisheries Biology. Coreq: F N R 499.

WOMEN’S STUDIES

Professor: J. M. Melton; Associate Professor: E. K. Sparks; Assistant Professor: M. Shockley; Lecturer: S. Watts

W S 301 Introduction to Women’s Studies: Women’s Lives 3(3,0) Interdisciplinary course exploring the unique features of women’s lives from childhood to old age. Content is based on new research in many disciplines, including psychology, sociology, history, literature, and the arts. Prereq: Sophomore standing.

W S 459, 659 Selected Topics in Women’s Studies 1-3(1-3,0) Topics change from semester to semester and are announced prior to registration. May be repeated for a maximum of six credits, but only if different topics are covered.

W S 498 Advanced Studies in Women’s Studies 3(3,0) Focuses on the theoretical foundations for women’s studies, with particular emphasis on how women’s studies research and theory influence institutions and governmental policies. Readings include essays on such central women’s studies issues as work, family, children, health care, legislation, and government policies. Prereq: W S 301 or consent of instructor.
FACULTY

Abbott, Albert G., Coker Chair and Professor, Genetics and Biochemistry. BS, University of Connecticut, 1976; PhD, Brown University, 1980

Abbott, Sherrie Wilder, Lecturer, School of Nursing. BSN, Emory University, 1974; MSN, Medical College of Georgia, 1979

Abecrombie, John G., Lecturer, Biological Sciences. BS, Furman University, 1995; MS, Clemson University, 2001

Abernathy, Larry W., Visiting Assistant Professor, Leadership, Technology and Counselor Education. BA, 1969, MA, 1973, Clemson University

Accock, Basil, Adjunct Professor, Horticulture. BSc, Reading University (England), 1962; MS, Clemson University, 1963; PhD, Nottingham Trent University (England), 1967

Adams, Clementina R., Professor, Languages. BA, Atlantic University (Colombia), 1969, MS, 1974, PhD, 1984, Florida State University

Adams, Paul E., Lecturer, Computer Center. BA, 1975, MA, 1977, MS, 1977, PhD, 1993, Florida State University

Adams, Tim O., Adjunct Assistant Professor, Forestry and Natural Resources. BS, 1977, MS, 1979, North Carolina State University; PhD, Clemson University, 1992

Adams, Warren P., Professor, Mathematical Sciences. BS, Lewis University, 1979; MS, 1981, PhD, 1984, Virginia Polytechnic Institute and State University

Adelberg, Jeffrey W., Associate Professor, Horticulture. BS, 1982, MS, 1987, Rutgers University; PhD, Clemson University, 1993

Adler, Peter H., Professor, Entomology, Soils, and Plant Sciences. BS, Washington and Lee University, 1976; MS, 1979, PhD, 1983, Pennsylvania State University

Agudelo, Paula, Assistant Professor, Entomology, Soils, and Plant Sciences. BS, Universidad Nacional de Colombia (Colombia), 1996; MSc, Universidad de Caldas (Colombia), 2000; PhD, University of Arkansas, 2004

Alexander, John C., Jr., Breazeale Professor of Financial Planning, Finance. BBA, 1984, MBA, 1985, Stetson University; PhD, Florida State University, 1991

Alexander, Kim E., Director, Center for Safety Research and Education. MS, 1988, MED, 1992, Clemson University

Alexov, Emil Georgiev, Associate Professor, Physics and Astronomy. MS, 1984, PhD, 1990, University of Sofia (Bulgaria)

Allen, Benjamin L., Jr., Adjunct Professor, Bioengineering; Chief of Staff, Greenville Unit, Greenville Hospital System. BS, Wofford College, 1960; MD, Duke University, 1964

Allen, Dennis M., Adjunct Professor, Forestry and Natural Resources. BS, Hobart College, 1972; MS, 1974, PhD, 1978, Lehigh University

Allen, Jeffery S., Adjunct Assistant Professor, Forestry and Natural Resources. BS, Michigan State University, 1983; MS, University of South Carolina, 1986

Allen, Lawrence R., Dean, College of Health, Education, and Human Development; Professor, Parks, Recreation, and Tourism Management. BS, West Chester State University, 1970; MS, 1974, PhD, 1979, University of Maryland

Allen, William H., Department Chair and Professor, Agricultural and Biological Engineering. BS, 1966, MS, 1969, Clemson University; PhD, University of Tennessee, 1972

Alley, Pamela R., Senior Lecturer, Psychology. BA, 1975, MA, 1978, PhD, 1983, University of Connecticut

Alley, Thomas R., Professor, Psychology. BA, 1975, BS, 1975, Pennsylvania State University; MA, 1979, PhD, 1981, University of Connecticut

Allison, David J., Professor, School of Architecture. BS, 1978, MArch, 1982, Clemson University

Alsop, Ardyce E., Lecturer, English. BA, Winthrop University, 2003; MA, Clemson University, 2006

Amerson, Roxanne, Lecturer, School of Nursing. BS, Regents College, 1995; MSN, Clarkson College, 1999

Amirkhani, Sajid N., Mary Professor of Transportation, Civil Engineering. BS, 1979, MS, 1981, Tennessee Technological University; PhD, Clemson University, 1987

An, Yannning, Associate Professor, Languages. BA, 1982, MA, 1985, Fudan University of Shanghai (China); PhD, University of Michigan, 1997

An, Yuehwei, Adjunct Associate Professor, Bioengineering. MD, Harbin Medical University (China), 1983; MM, Beijing Medical University (China), 1986

Andersen, Charles B., Adjunct Associate Professor, School of the Environment. BS, Texas A&M University, 1984; MS, Miami University, 1988; PhD, Syracuse University, 1994

Andersen, Daniel Morgan, Lecturer, Parks, Recreation, and Tourism Management. BS, Western Illinois University, 1997

Anderson, David P., Adjunct Professor, Chemical and Bio molecular Engineering. BA, Clemson University, 1973; MS, 1977, PhD, 1981, University of Massachusetts

Anderson, Denise Marie, Assistant Professor, Recreation, Tourism, and Management. BA, Illinois Wesleyan University, 1992; MS, Eastern Illinois University, 1993; PhD, University of Illinois-Urbana-Champaign, 2000

Anderson, Paul Christopher, Associate Professor, History. BA, University of North Carolina, 1994, MA, 1994, PhD, 1998, University of Mississippi

Andrade, John G., Assistant Professor, Entomology, Soils, and Plant Sciences. BS, Texas A&M University, 1993; MS, Oklahoma State University; 1995; PhD, University of Idaho

Andrew, John R., Jr., Associate Professor, History. BA, University of North Carolina, 1987; MA, Clemson University, 1993; PhD, University of Georgia, 1997

Andrus, Ronald D., Adjunct Associate Professor, Civil Engineering. BS, 1984, MS, 1986, Brigham Young University; PhD, University of Texas, 1994

Angstadt, David C., Assistant Professor, Mechanical Engineering. BS, 1987, MS, 2001, PhD, 2004, Lehigh University

Appleby, Jeffrey R., Associate Dean of Undergraduate Studies; Associate Professor, Chemistry. BS, 1980, PhD, 1985, Georgia Institute of Technology

Arai, Yuji, Assistant Professor, Entomology, Soils, and Plant Sciences. BS, University of California-Davis, 1996; PhD, University of Delaware, 2002

Armstead-Flowers, Tiffany Jenine, Lecturer, Teacher Education. BS, 1999, MT, 1999, Virginia Commonwealth University; MA, University of Virginia, 2000

Arthur-Banning, Skye Gerald, Assistant Professor, Parks, Recreation, and Tourism Management. BS, Brock University (Canada), 1997; MS, Oregon State University, 1999; PhD, University of Utah, 2005

Arya, Dev Priya, Associate Professor, Chemistry. BS, University of Delhi (India), 1996; PhD, Northeastern University, 1996

Ashton, Susanna M., Associate Professor, English. BA, Vassar College, 1989; MA, 1993, PhD, 1998, University of Iowa

Atkinson, George, Jr., Visiting Associate Professor, Parks, Recreation, and Tourism Management; Counselor, Counseling Center. BA, Rhodes College, 1982; MS, 1984, PhD, 1988, University of Memphis

Ayalew, Beshahwired, Assistant Professor, Mechanical Engineering. BS, Addis Ababa University, 1997; MS, 2000, PhD, 2005, Pennsylvania State University

Aycock, Shelby Alan, Lecturer, Planning and Landscape Architecture. BBA, 1973, MS, 1997, PhD, 1999, Georgia State University

Aziz, Nadim M., Department Chair and Professor, Civil Engineering. BSCE, 1978, MS, 1980, PhD, 1984, University of Mississippi

Back, W. Edward, Associate Professor, Civil Engineering. BS, 1978, MS, 1986, University of Illinois; PhD, Clemson University, 1994

Bacon, Kenneth F., Associate Professor, Parks, Recreation, and Tourism Management. BS, Acadia University (Canada), 1980; MUP, 1985, PhD, 1989, Texas A&M University

Bacic, Catalin F., Adjunct Assistant Professor, Bioengineering, MS, Politehnica University of Bucharest (Romania), 1987; PhD, Clemson University, 1996

Baier, Scott L., Associate Professor, Economics. BS, 1988, MA, 1991, Bowling Green State University; PhD, Michigan State University, 1996

Bailey, Beatrice Naff, Professor, Education. BA, Longwood College, 1978; MA, Bethany Theological Seminary, 1981; EdD, Virginia Polytechnic Institute and State University, 1987

Bainbridge, Robert W., Director, South Carolina Design Arts Partnership; Lecturer, Planning and Landscape Architecture. Arch, University of California-Berkeley, 1970; MArch, Rice University, 1978

Baird, William V., Alumni Distinguished Professor, Horticulture. BS, Oregon State University, 1976; MA, Miami University, 1979; PhD, University of Virginia, 1983

Baker, Thomas L., Associate Professor, Marketing. BBA, 1984, MPA, 1986, University of Kentucky; PhD, Florida State University, 1990

Balakrishnan, Nagraj, Department Chair and Professor, Management. BE, University of Madras (India), 1981; MS, University of Kentucky, 1983; PhD, Purdue University, 1987

Baldwin, Anna Oakley, Lecturer, Teacher Education. BA, Winthrop University, 1987; MED, Clemson University, 1989

Baldwin, Elizabeth Dennis, Assistant Professor, Parks, Recreation, and Tourism Management. BS, Hollins College, 1989; MEd, Miami University, 1992; PhD, University of Maine, 2006

Baldwin, Kara M., Lecturer, English. BA, University of North Carolina, 1999; MA, Clemson University, 2005

Ballard, Robert E., Professor, Biological Sciences. BS, 1966, MA, 1968, Miami University; PhD, University of Iowa, 1975

Ballato, John M., Associate Professor, Materials Science and Engineering. BS, 1993, MS, 1995, PhD, 1997, Rutgers University

Banks, Scott A., Adjunct Assistant Professor, Bioengineering. BS, 1985, MS, 1988, Case Western Reserve University; PhD, Massachusetts Institute of Technology, 1992
Bowers, Peggy J., Assistant Professor, Communication Studies. BS, 1984, MA, 1989, Wichita State University; PhD, Stanford University, 1998

Bower, James M., Adjunct Professor, Forestry and Natural Resources. BA, Bates College, 1976; PhD, Texas A&M University, 1987

Bowman, Larry S., Adjunct Professor, Bioengineering. BS, West Virginia University, 1969; MS, Clemson University, 1971; MD, Medical University of South Carolina, 1974

Bradley, Daniel J., Assistant Professor, Finance. BA, 1996, MBA, 1997, University of Central Florida; PhD, University of Kentucky; 2021

Bradshaw, Amy D., Adjunct Professor, Bioengineering. BA, University of California-San Diego, 1986; PhD, University of California-Santa Barbara, 1995

Bradshaw, David W., Professor, Horticulture. BS, 1968, MS, 1973, North Carolina State University; PhD, Virginia Polytechnic Institute and State University, 1977

Brainerd, Edwin G., Jr., Associate Professor, Psychology. BA, Washington College, 1968; MA, 1971, PhD, 1974, West Virginia University

Brame, Scott E., Research Assistant Professor, School of the Environment. BS, New Mexico Institute of Mining and Technology, 1983; MS, Clemson University, 1993

Brannan, James R., Professor, Mathematical Sciences. BS, 1973, MS, 1976, Utah State University; PhD, Pennsylvania State University, 1983

Brant, William A., Associate Professor, Languages. BA, Columbia International University, 1976; ME, 1978, EID, 1986, University of South Carolina

Breeden, James, Adjunct Professor, College of Architecture, Arts, and Humanities. PhD, Tulane University, 1967

Bregger, Louis D., Adjunct Instructor, Biological Sciences. MA, University of Wisconsin-Madison, 1970

Bridges, William C., Jr., Professor, Applied Economics and Statistics. BS, University of North Carolina, 1980; MS, 1982, PhD, 1984, University of Nebraska

Bridgewood, Joan, Lecturer, Languages. BA, University of Leeds (England), 1967; MA, 1989, DML, 2002, Middlebury College

Bridgewood, Michael A., Associate Professor, Electrical and Computer Engineering. BSc, University of Leeds (England), 1968; MSC, 1975, PhD, 1979, Electro-mechanical Engineering, Tel Aviv University (Israel), 1989

Brigman, Robin L, Adjunct Assistant Professor, School of the Environment. BS, 1979, MS, 1987, PhD, 1992, University of Florida

Britt, Thomas W., Jr., Associate Professor, Psychology. BA, College of William and Mary, 1988; MA, Wake Forest University, 1990; PhD, University of Florida, 1994

Brittain, Sean D., Assistant Professor, Physics and Astronomy. BS, Le Tourneau University, 1997; MS, 2002, PhD, 2004, University of Notre Dame

Britz, Margaret T., Associate Professor, Sociology. BS, Jacksonville State University, 1989; MS, 1992, PhD, 1994, Michigan State University

Britzke, Eric Robert, Adjunct Assistant Professor, Forestry and Natural Resources. BS, 1994, MS, 1998, Southwest Missouri State University; PhD, Tennessee Technological University, 2003

Bronikowski, Michael G., Adjunct Assistant Professor, School of the Environment. BS, Marquette University, 1988; MSc, Purdue University, 1994

Brooks, James R., Adjunct Instructor, School of the Environment. BS, 1972, ME, 1974, Clemson University

Brooks, James Reed, Adjunct Professor, Animal and Veterinary Sciences. BS, Ohio State University, 1977; MS, 1981, PhD, 1984, Clemson University

Brooks, Johnell O., Assistant Professor, Psychology. BA, 1998, MS, 2002, PhD, 2005, Clemson University

Brooks, Richard R., Associate Professor, Electrical and Computer Engineering. BA, Johns Hopkins University, 1979; PhD, Boston University and Agricultural and Mechanical College, 1996

Brosnan, Denis A., Director, Ceramic Center; Professor, Materials Science and Engineering. BS, 1967, MS, 1968, Clemson University; PhD, Iowa State University, 1972; PE

Brothers, Thomas E., Adjunct Professor, Bioengineering. AB, Kalamazoo College, 1979; MD, University of Michigan, 1983

Browdy, Craig L., Adjunct Professor, Biological Sciences. BS, 1980, BSc, 1981, University of Maryland; PhD, Tel Aviv University (Israel), 1989

Brown, Bryan Lyle, Assistant Professor, Forestry and Natural Resources. BS, University of North Carolina, 1995; MS, Appalachian State University, 1999; PhD, Dartmouth College, 2004

Brown, Jason Stratford, Visiting Lecturer, Physics and Astronomy. BS, University of Illinois-Urbana-Champaign, 1993; MS, 1996, PhD, 1999, Clemson University

Brown, Philip J., Assistant Professor, Materials Science and Engineering. BS, 1987, PhD, 1991, University of Leeds (England)

Brown-Faust, James E., Associate Professor, Agriculture. BS, Murray State College, 1986; MS, 1992, PhD, 1994, Michigan State University

Bruce, David A., Associate Professor, Chemical and Biochemical Engineering. BS, 1991, MS, 1992, PhD, 1994, Georgia Institute of Technology

Bruhns, Robert A., Lecturer, School of Architecture. BS, Clemson University; MArch, Georgia Institute of Technology, 1999

Brumagim, Julian, Assistant Professor, Chemistry, AB, Harvard University, 1994; PhD, University of Illinois-Urbana-Champaign, 1999

Brune, David E., Ching C., Newman Eared Chair of Natural Resources; Professor, Agricultural and Biological Engineering. BS, 1974, MS, 1975, PhD, 1978, University of Missouri

Bruner, Richard H., Associate Professor, Animal and Veterinary Sciences. BS, Clemson University, 1974; DVM, Mississippi State University, 1975; MSIM, University of Georgia, 1977

Bryant, Anthony Paul, Assistant Professor, Aerospace Studies. Captain U.S. Air Force. BS, University of Maryland, 2003; MS, Troy State University, 2005

Bundrick, Alfred E., Adjunct Associate Professor, Applied Economics and Statistics. BS, 1985, MS, 1988, Clemson University

Burati, James L., Jr., Professor, Civil Engineering. BS, Virginia Polytechnic Institute and State University, 1974, MS, 1975, PhD, 1978, University of Missouri

Burns, James M., Associate Professor, History, BA, University of California-Los Angeles, 1985; Graduate Diploma, University of Cambridge (England), 1986; MA, 1993, PhD, 1998, University of California-Santa Barbara

Burns, James W., Adjunct Assistant Professor, Bioengineering. BS, Purdue University, 1977; MS, 1981, PhD, 1984, University of Illinois

Burroughs, Jill K., Director, Small Business Development Center; Lecturer, Economics. BS/BA, Winthrop University, 1981; MSIM, Clemson University, 1991

Burton, O’Neil B., III, Associate Director, Cooperative Education Program; Lecturer, Teacher Education. BA, University of South Carolina, 1989; MA, 1991, PhD, 2000, Clemson University

Busscher, Warren J., Adjunct Professor, Entomology, Soils, and Plant Sciences. BS, Loyola University, 1967; MS, 1970, PhD, 1976, Pennsylvania State University

Butler, Cheryl M., Alumnus Distinguished Professor, Electrical and Computer Engineering. BS, 1957, MS, 1959, Clemson University; PhD, University of Wisconsin, 1962

Buyer, Paul L., Associate Professor, Performing Arts: Director of Percussion. BS, Ball State University, 1992; MM, 1994, DMA, 1999, University of Arizona

Cahill, Leonard R., Adjunct Lecturer, Packaging Science. BS, Providence College, 1966; MBA, Saint John’s University, 1969

Cali, Jose V., Professor, School of Architecture; Professor, Planning and Landscape Architecture. BArch, Clemson University, 1967; MCD, University of Liverpool (England), 1971; AIA, APA

Cadorette, Deborah Jo, Lecturer, Teacher Education. BS, Towson University, 1973; MED, University of Miami, 1989; EdS, Nova Southeastern University, 2003

Caldwell, Judith D., Associate Professor, Horticulture; Adjunct Associate Professor, Forestry and Natural Resources. BS, 1975, MS, 1977, Virginia Polytechnic Institute and State University; PhD, University of Arkansas, 1981

Caldwell, Rebecca A., Adjunct Assistant Professor, Bioengineering. BS, 1998, MS, 1999, PhD, 2002, Clemson University

Calkin, Jeff, Associate Professor, Mathematics. BA, 1984, MA, 1986, University of Cambridge (England); PhD, University of Waterloo (Canada), 1988

Calvert, Wanda L., Lecturer, Teacher Education. BS, Charleston Southern University, 1989; MED, The Citadel, 1995; PhD, University of South Carolina, 2004

Camperato, James J., Associate Professor, Entomology, Soils, and Plant Sciences. BS, University of Massachusetts, 1980; MS, 1982, PhD, 1987, North Carolina State University

Cameron, Albert Neill, Jr., Vice President for Advancement; Adjunct Professor, Marketing. BS, Georgia State University, 1972; MBA, Emory University, 1982

Campbell, Carl Michael, Lecturer, Leadership, Technology, and Counselor Education. BS, University of South Carolina, 1972; MED, 1981, EdS, 1989, PhD, 2000, Clemson University

Campbell, Robert L., Professor, Psychology. BA, Harvard University, 1974; PhD, University of Texas, 1986

Cantalupo, Claudio, Assistant Professor, Psychology. BS, University of Padua (Italy), 1994; MS, 1998, PhD, 2000, University of Memphis

Cantrell, R. Stephen, Professor. Management. BS, University of Alabama, 1972; MS, University of Kentucky, 1974; PhD, North Carolina State University, 1982

Cao, Min, Assistant Professor, Biological Sciences. BS, East China University of Science and Technology (China), 1994; PhD, Cornell University, 2002

Cao, Weiguo, Associate Professor, Genetics and Biochemistry. BS, Wuhan University (China), 1983; PhD, University of Idaho, 1992
Cardona, Claudia M., Visiting Assistant Professor, Chemistry. PhD, University of Miami, 1999
Carlson, Leslie C., Professor, Marketing. BA, Millard Lutcher College, 1973; MA, 1980, PhD, 1985, University of Nebraska.

Carpio, Carlos Enrique, Assistant Professor, Applied Economics and Statistics. BS, Escuela Agricola Panamericana (Honduras), 1999; MSc, Texas Tech University, 2002; PhD, North Carolina State University, 2006.

Carraway, Elizabeth R., Associate Professor, School of the Environment. BS, 1981, PhD, 1989, University of Virginia.

Cash, L. Stephen, Professor, School of Accountancy and Legal Studies. BS, 1963, JD, 1968, University of Tennessee; LLM, Washington University, 1972; CPA.

Cason, Katherine L., Assistant Professor, Food Science and Human Nutrition. BS, Pennsylvania State University, 1982; MS, Texas Woman's University, 1985; PhD, Virginia Polytechnic Institute and State University, 1988.

Castle, James W., Associate Professor, School of the Environment. BS, Allegheny College, 1972; MS, University of Wisconsin, 1974; PhD, University of Illinois, 1978.

Cavanagh, Edwin Harold, Director and Professor, School of Architecture. BS, 1971, BArch, 1974, McGill University (Canada); PhD, Lehigh University, 2002.

Cawood, Mark E., Senior Lecturer, Mathematical Sciences. BS, Manchester College, 1987; MS, 1990, PhD, 1994, Clemson University.

Cawthon, Tony W., Professor, Leadership, Technology, and Counselor Education. BA, 1981, MA, 1983, University of Tennessee; PhD, Mississippi State University, 1995.

Chamberlain, Frances F., Professor, Planning and Landscape Architecture. BA, University of Texas-Austin, 1970; MLA, University of Virginia, 1980.

Chapin, Jay W., Professor, Entomology, Soils, and Plant Sciences. Edito Research and Education Center. BS, Dickinson College, 1970; MA, East Carolina University, 1975; PhD, Clemson University, 1978.

Charney, Mark J., Professor, Performing Arts; Director of Theatre. BA, Clemson University, 1978; MA, University of New Orleans, 1982; PhD, Tulane University, 1985.

Chastain, John P., Associate Professor, Agricultural and Biological Engineering, BS, University of Georgia, 1982; MS, 1987, PhD, 1991, University of Kentucky; EIT.

Che, Stacy Megan, Assistant Professor, Teacher Education. BS, University of Oklahoma-Norman, 1995, MS, Colorado State University, 1997, PhD, University of Oklahoma-Norman, 2005.

Chen, Chin-Fu, Assistant Professor, Genetics and Biochemistry. BS, 1981, MS, 1983, National Taiwan University (Taiwan); MA, 1991, PhD, 1997, State University of New York-Stony Brook.

Chen, Feng, Assistant Professor, Food Science and Human Nutrition. BS, Shanghai Fisheries University (China), 1990; MS, WuXi Institute of Light Industry (China), 1992; PhD, Louisiana State University, 1997.

Chen, Wen Y., Professor, Biological Sciences. DDS, Shang-hai Second Medical College (China), 1982; MS, 1987, PhD, 1991, Oklahoma Research University.

Cheng, Shu-Hua, Assistant Professor, Genetics and Biochemistry. BA, 1981, MS, 1983, National Taiwan University (Taiwan); PhD, Washington State University, 1988.

Chico, Rachel A., Assistant Professor, History. BA, Princeton University, 1998; MA, 2000, PhD, 2006, University of California-Berkeley.

Childress, Michael J., Assistant Professor, Biological Sciences. BS, University of Tampa, 1987; MA, University of California-Berkeley, 1990; PhD, Florida State University, 1995.

Childress, Robert Thomas, Assistant Professor, Aerospace Studies; Major, U.S. Air Force. BA, University of Alabama, 1988; MA, Air University, 2001.

Cho, Byung Rae, Associate Professor, Industrial Engineering. BS, Kyung Hee University (Korea), 1982; MS, Ohio State University, 1985; PhD, University of Oklahoma, 1994.

Choi, Fredrick Seok, Professor, Military Science; Lieutenant Colonel, U.S. Army. BS, United States Military Academy, 1986; MBA, Baker University, 2000.

Chowdhury, Masur M., Assistant Professor, Civil Engineering. BS, Bangladesh Institute of Technology, 1988; MS, Morgan State University, 1991; PhD, University of Virginia, 1995.

Christensen, Kenneth A., Assistant Professor, Chemistry. Adjunct Assistant Professor, Genetics and Biochemistry. BS, Brigham Young University, 1992; PhD, University of Michigan-Ann Arbor, 1997.

Christensen, Robert W., Adjunct Professor, Engineering. DDS, New York University, 1948.

Christoforou, Christos S., Adjunct Assistant Professor, School of the Environment. BS, Rice University, 1988; MS, 1995, California Institute of Technology.

Chumanov, George, Associate Professor, Chemistry. BS, Moscow Engineering-Physical Institute (Russia), 1982; PhD, Moscow State University (Russia), 1988.

Ciucurici, Christian Maloney, Adjunct Lecturer, School of the Environment. BA, Rutgers University, 1993; MS, South Dakota State University, 1999.

Ciucan, Eugenia, Lecturer, Physics and Astronomy. BS, A. I. Cuza University (Romania), 1985; MS, Bucharest University (Romania), 1987; MS, Case Western Reserve University, 2001, PhD, A. I. Cuza University (Romania), 1995; PE.

Clark, Lawrence S., Associate Professor, School of Economics and Legal Studies. BBA, Augusta College, 1968; MASA, University of Georgia, 1970; CPA, CMA.

Clarke, Shinam A., Associate Professor, Construction Science and Management. BSCE, 1980, MS, 1985, PhD, 1997, University of Tennessee.

Clendenin, Charles W., Jr., Adjunct Assistant Professor, School of the Environment. BS, Southeast Missouri State University; PhD, University of South Dakota.

Clinton, Barton D., Adjunct Assistant Professor, Forestry and Natural Resources. BS, 1979, MS, 1989, University of Georgia.

Cole, Christine W., J. E. Sirmine Professor, Textiles. BS, University of North Carolina, 1971; PhD, Massachusetts Institute of Technology, 1975.

Coleman, Katherine Y., Adjunct Assistant Professor, Applied Economics and Statistics. BS, 1981, MS, 1983, Clemson University; PhD, Texas A&M University, 1989.

Collins, Carrie Ann Laura, Assistant Professor, Performing Arts. BA, New York University, 1994; MFA, Boston University, 2004.

Collins, Edward B., Jr., Associate Professor, Electrical and Computer Engineering. BS, North Carolina State University, 1984; PhD, Georgia Institute of Technology, 1989.

Collins, Jennifer Lauren, Lecturer, English. BA, Shenandoah University, 2003; MA, Clemson University, 2006.

Collins, Julianne S., Adjunct Assistant Professor, Genetics and Biochemistry. BS, California State Polytechnic University-Pomona, 1992; MS, Texas A&M University, 1994; PhD, University of Alabama-Birmingham, 2000.

Collinge, Christopher A., Associate Librarian, Cooper Library. MA, 1973, MA, 1974, York University (Canada); MA, Western Carolina University, 1976; MLIS, University of South Carolina, 1999.

Comfort, Janice G., Librarian, Cooper Library. BS, West Virginia University, 1981; MLS, University of Pittsburgh, 1991.

Condasky, Margaret D., Assistant Professor, Food Science and Human Nutrition. BS, Pennsylvania State University, 1977; MS, Indiana University of Pennsylvania, 1983; EID, Clemson University, 1993.

Connell, John W., Adjunct Assistant Professor, Chemistry. BS, 1982, PhD, 1986, Virginia Commonwealth University.

Conner, William H., Professor, Forestry and Natural Resources. BSc, University of British Columbia. Associate Professor, School of the Environment. BS, Middle Tennessee State University, 1972; MS, Oregon State University, 1972; PhD, University of South Carolina, 1983.

Cook, Michelle Patrick, Assistant Professor, Teacher Education. BS, 1997, MAT, 1998, University of North Carolina; PhD, North Carolina State University, 2006.

Cooksey, Kay D., Professor and Cryovac Chair, Packaging Science. BS, Purdue University, 1984; MS, Indiana State University, 1985; PhD, University of Illinois, 1992.

Cooksey, Robert C., Adjunct Professor, Packaging Science. BS, 1957, MA, 1962, Ball State University; EID, University of Maryland, 1973.

Cooper, C. Camille, Associate Librarian, Cooper Library. BA, Davidson College, 1989; MA, University of Georgia, 1992; MLIS, University of Texas-Austin, 1997.

Cooper, George IV, Adjunct Professor, Bioengineering. BA, Williams College, 1964; MD, Cornell University Medical College, 1968.

Cooper, Melanie M., Alumni Distinguished Professor of Chemistry Education. Chemistry. BS, 1975, MS, 1976, PhD, 1978, Manchester University (England).

Conley, Greg R., Associate Professor, Construction Science and Management. BS, 1983, MS, 1985, Clemson University.
Cunningham, Miller G., Associate Professor, Planning and Landscape Architecture. BA, Duke University, 1979; MA, University of South Carolina, 1985; PhD, Clemson University, 1992.

Currie, Charles E., Jr., Professor, Applied Economics and Statistics. BS, 1977, MS, 1979, University of Georgia; PhD, University of Nebraska, 1985.

Darnstoff, David, Adjunct Assistant Professor, Genetics and Biochemistry. BA, Central College, 1958; PhD, Washington State University, 1962.

Daqaq, Mohammed Farid, Assistant Professor, Mechanical Engineering. BS, Jordan University of Science and Technology, 2001; MS, 2003; PhD, 2006, Virginia Polytechnic Institute and State University.

Darby, Duncan O., Associate Professor, Packaging Science. BS, 1981, MEng, 1982, PhD, 2003, University of Louisville.

Darroudi, Taghi, Research Assistant Professor, National Brick Research Center. BS, Texas Western University, 1965; BS, 1967, MS, 1968, University of Texas-El Paso; MS, University of California-Berkeley, 1980; PhD, Pennsylvania State University, 1985.

Davidson, Randy E., Lecturer, Mathematical Sciences. BS, Tulane University, 1976; MS, Lehigh University, 1978.

Davis, Betsy K., Associate Adjunct Professor, Bioengineering. BS, Wofford College, 1983; DMD, Medical University of South Carolina, 1987; MS, University of Iowa, 1989.

Davis, Cynthia Anne, Lecturer, Mathematical Sciences. BS, University of South Carolina, 1992; MS, Clemson University, 1976.

Davis, Jeanine M., Adjunct Associate Professor, Horticulture. BS, Delaware Valley College, 1980; MS, Washington State University, 1986; PhD, North Carolina State University, 1990.

Davis, John S., Professor, Management. BS, United States Military Academy, 1965; MS, University of Southern California, 1968 (US); BS, Boston University, 1979; PhD, Georgia Institute of Technology, 1984.

Davis, Rian B., Adjunct Professor, Bioengineering. BS, 1977, MS, 1979; PhD, 1983, Virginia Polytechnic Institute and State University.

Davies, Timothy A., Adjunct Associate Professor, Computer Science. BS, College of William and Mary, 1987; MSc, University of Virginia, 1989; PhD, North Carolina State University, 1998.

Davis, Todd D., Assistant Professor, Applied Economics and Statistics. BS, Iowa State University, 1994; MS, 1997; PhD, 2001, Purdue University.

Davis, W. Jeffrey, Adjunct Associate Professor, Civil Engineering. BS, University of Alabama, 1981; MS, Auburn University, 1987; PhD, Georgia Institute of Technology, 1997.

Daw, Murray S., R. A. Bowen Professor of Physics, Physics and Astronomy. BS, University of Florida, 1976; PhD, California Institute of Technology, 1981.

Dawson, Darren M., McQueen Quattlebaum Professor, Electrical and Computer Engineering. BSEE, 1984, PhD, 1990, Georgia Institute of Technology.

Dawson, Paul L., Professor, Food Science and Human Nutrition. BS, Salisbury State University, 1979; MS, University of Florida, 1986; PhD, North Carolina State University, 1989.

De Corvin, Natalie, Lecturer, Languages. BA, University of North Alabama, 1988; MA, 1993; MED, 1996; EdSp, 1997, University of Alabama.

Dean, Brian Christopher, Assistant Professor, Computer Science. BS, 1999, MEng, 1999, PhD, 2004, Massachusetts Institute of Technology.

Dean, Chrystal Ollis, Assistant Professor, Teacher Education. BS, 1993, MS, 1996, Appalachian State University; PhD, Vanderbilt University, 2003.

Dean, Ralph A., Adjunct Associate Professor, Entomology, Soils, and Plant Sciences. BS, University of London (England), 1980; PhD, University of Kentucky, 1986.

Dean, William Gray, Lecturer, School of the Environment. BS, 1987; BS, 1994, Georgia Southern University; MS, 1997, PhD, 2003, University of Tennessee.

Del Real, Patricio, Adjunct Professor, School of Architecture. BA, Washington University, 1988; MArch, Harvard University, 1992.

Delicco, Gail C., Associate Professor, Teacher Education. BA, 1972, BS, 1973, Southern Illinois University; MEd, Stetson University, 1983; PhD, Florida State University, 1989.

Denham, Bryan E., Charlie Campbell Associate Professor, Communication Studies. BA, Indiana University, 1989; MA, California State University; 1993; PhD, University of Tennessee, 1996.

Denton, Melinda Lundquist, Assistant Professor, Sociology. BA, Seattle Pacific University; MA, 1999, PhD, 2006, University of North Carolina.

DeSimone, Darryl D., Tobey-Beaudrot Professor, Chemistry. BS, Washington State University, 1963; PhD, Washington University, 1966.

Detrich, David M., Professor, Art, BFA, Kansas City Art Institute, 1980; MFA, Alfred University, 1982.

DeVita, David J., Lecturer, Construction Science and Management. BS, Clemson University, 1990.

Devol, Timothy A., Associate Professor, School of the Environment. BS, Ohio State University, 1987; MS, 1988, PhD, 1993, University of Michigan.

DeWalt, Saara J., Assistant Professor, Biological Sciences. AB, Brown University, 1994; PhD, Louisiana State University and Agricultural and Mechanical College, 2003.

Dewberry, Raymond A., Adjunct Professor, School of the Environment. BS, Virginia Polytechnic Institute and State University, 1974; PhD, Florida State University, 1980.

Diamond, Jerome Mark, Adjunct Associate Professor, Biological Sciences. BA, Case Western Reserve University, 1973; MS, Oregon State University, 1976; PhD, University of North Carolina, 1984.

Diaz, Donna P., Research Assistant Professor, Mathematical Sciences. BS, Mississippi College, 1980; MS, University of Southern Mississippi, 1982; PhD, Clemson University, 2004.

Dickens, Thomas L., Alumnus Distinguished Professor, School of Accountancy and Legal Studies. BA, University of Richmond, 1968; MBA, Virginia Commonwealth University, 1972; PhD, Texas A&M University, 1983; CPA.

Dickey, Jean L., Professor, Biological Sciences. BS, Kent State University, 1972; PhD, Purdue University, 1982.

Diem, Keith George, Professor, Parks, Recreation, and Tourism Management. BS, 1981, MS, 1981, Purdue University; PhD, Ohio State University, 1987.

Dieter, R. Karl, Professor, Chemistry. BS, Lehigh University, 1973; PhD, University of Pennsylvania, 1981.

Dillard, Jennifer Roseanne Willand, Lecturer, Political Science. BA, University of Connecticut, 1992; MPA, University of Montana, 1994; MA, 1997, PhD, 2004, University of South Carolina.

Dills, Angela K., Assistant Professor, Economics. BA, University of Virginia, 1996; MA, 2000, PhD, 2002, Boston University.

Dimaggio, Jeffrey R., Research Associate Professor, Materials Science and Engineering. BS, Clemson University, 2001; MS, North Carolina State University, 2002; PhD, Clemson University, 2004.
Harmon, Corinne Crockett, Assistant Professor, School of Nursing, BS, Virginia Commonwealth University, 1969; MS, Clemson University, 1979; EdD, University of Georgia, 1992.

Harp, Kimberly Ka., Lecturer, Communication Studies, BS, Southwest Missouri State University, 1997; MA, University of Arkansas, 2003.

Harrell, William R., Associate Professor, Electrical and Computer Engineering, BS, 1981, MS, 1983, University of Kentucky; PhD, University of Maryland, 1994.

Harrington, Alexander Gervis, Assistant Professor, Performing Arts, BA, Columbia University-New York City, 1991; MFA, Louisiana State University and Agricultural and Mechanical College, 1993.

Harris, John M., Jr., Associate Professor, Finance, BS, 1973, MBA, 1975, PhD, 1980, University of South Carolina.

Harris, John M., Assistant Professor, Industrial Engineering, BA, Gustavus Adolphus College, 1992; MS, University of Oxford (England), 1996; PhD, Clemson University, 1999.

Harris, Robert A., Research Associate Professor, Strom Thurmond Institute, BS, 1971, MS, 1973, Clemson University; PhD, Virginia Polytechnic Institute and State University, 1977.

Harris, Scott Ka., Lecturer, Languages, BA, 1982, MAT, 1985, University of South Carolina.

Harrison, Graham M., Associate Professor, Chemical and Biomolecular Engineering, BS, Stanford University, 1997; PhD, University of California-Santa Barbara, 1997.

Harrison, Henry L. III, Associate Professor, Industrial Engineering, MS, 1989, PhD, 1998, University of Alabama; MS, Auburn University, 1993; PhD, Mississippi State University, 1997.

Harrison, John M., Adjunct Professor, Horticulture, MS, 1983; MA, 1987, PhD, 1993, University of Arizona.

Hartmann, David J., Professor, Performing Arts, BFA, University of Wisconsin-Whitewater, 1982; MFA, University of Minnesota-Twin Cities, 1986.

Hartmann, Dieter H., Professor, Physics and Astronomy, BS, 1982, PhD, 1985, University of Göttingen (Germany), 1993.

Hatch, Thomas W., Associate Professor, Electrical Engineering, BS, 1982, PhD, 1988, University of Florida; MS, North Carolina State University, 1990.

Havice, Pamela A., Associate Professor, Leadership, Technology, and Counseling Education, BS, 1980, MS, 1984, Fort Hays State University; PhD, University of Kansas, 1999.

Hayes, Cynthia Ann, Associate Professor, English, BA, 1974, MA, 1990, PhD, 1994, University of Texas-Arlington.

Hayes, Teresa W., Adjunct Assistant Professor, Computer Science, BS, 1975, MA, 1978, MS, 1984, Eastern Kentucky University; PhD, University of Central Florida, 1986.

Headley, Robyn Neal, Professor, Teacher Education, BSEd, 1974, MEd, 1976, University of Georgia; EdD, Auburn University, 1987.

Heckel, David G., Adjunct Professor, Biological Sciences, BA, University of Rochester, 1975; PhD, Stanford University, 1980.

Hendrick, Roy L., Professor, Forestry and Natural Resources, BS, 1974, MEd, 1976, University of Washington.

Hedetniemi, Sandra M., Professor, Computer Science, BA, Centre College, 1971; MS, 1973, PhD, 1977, University of Virginia.

Hedetniemi, Stephen T., Professor, Computer Science, BS, 1960, MS, 1962, PhD, 1966, University of Michigan.

Hegel, Eileen Elizabeth, Lecturer, Communication Studies, BA, San Diego State University, 1983; MA, Regent University, 1993.

Heimke, Gunther Fa, Adjunct Professor, Bioengineering, BS, 1951, MS, 1953, PhD, 1959, University of Halle (Germany).

Helms, Doris R., Provost and Vice President for Academic Affairs; Professor, Biology, BA, Bucknell University, 1967; PhD, University of Georgia, 1973.

Helsel, Beth A. W., Librarian, Cooper Library; Head of Library Systems, BA, University of Oklahoma-New York, 1965; MLS, University of California-Berkeley, 1971.

Heniford, B. Todd, Adjunct Assistant Professor, Bioengineering, BS, Clemson University, 1985; MD, Medical University of South Carolina, 1989.

Henry, Raymond M., Assistant Professor, Management, BA, University of Virginia, 1994; MS, 1998, PhD, 2004, University of Pittsburgh.

Hensman, Carl Edwin, Adjunct Assistant Professor, Forestry and Natural Resources, BSc, University of Strathclyde (England), 1990; MS, 1998, PhD, 1998, New Mexico State University.

Henson, John Michael, Lecturer, Biological Sciences, BS, University of South Carolina, 1975; MS, Clemson University, 1978; PhD, University of Florida, 1983.

Hernandez, Liliana Maria, Lecturer, Languages, MFA, University of Antioquia (Colombia), 1997.

Herren, Maya Helz, Lecturer, Sociology, BA, Furman University, 1996; MS, Clemson University, 1998.

Hersh, Brad Michael, Assistant Professor, Biological Sciences, BA, Kennesaw College, 1994; PhD, Massachusetts Institute of Technology, 2002.

Hester, Jerry D., Lecturer, Physics and Astronomy, BS, 1990, MS, 1992, Kansas State University.
Faculty
Kegley, Kathleen A., Lecturer, Management. BS, 1982,
MS, 1984, University of Alabama-Birmingham; PhD,
Clemson University, 1991
Keinath, Anthony P., Professor, Entomology, Soils, and
Plant Sciences, Coastal Research and Education Center.
BS, Michigan State University, 1982; MS, 1985, PhD,
1988, Cornell University
Kellam, James Franklin, Adjunct Professor, Bioengineering.
BS, 1968, MD, 1973, University of Toronto (Canada)
Kelly, John W., Vice President, Public Service and Agriculture; Professor, Horticulture. BS, Clemson University,
1977; MS, 1979, PhD, 1982, Ohio State University
Kemper, Karen A., Associate Professor, Public Health Sciences. BS, 1983, MS, 1986, PhD, 1992, University of
South Carolina
Kendall, Todd David, Assistant Professor, Economics. BS,
1998, MA, 2000, PhD, 2003, University of Chicago
Kendall, Treavor A., Assistant Professor, School of the
Environment. BS, University of Texas-Austin, 1995; MS,
University of Montana, 1999; PhD, Virginia Polytechnic Institute and State University, 2003
Kennedy, Frances A., Assistant Professor, School of Accountancy and Legal Studies. BA, University of Saint
Thomas, 1975; MBA, Ashland University, 1996; PhD,
University of North Texas, 2001; CPA
Kennedy, John M., Professor, Mechanical Engineering. BS,
1975, MS, 1977, Virginia Polytechnic Institute and
State University; PhD, Clemson University, 1984
Kerrigan, Julie L., Assistant Professor, Entomology, Soils,
and Plant Sciences. BS, University of Michigan-Ann
Arbor, 1990; MS, University of Georgia, 1993; PhD,
Washington State University, 2001
Key, Jennifer D., Professor, Mathematical Sciences. BSc, University of Witwatersrand (South Africa), 1963; MPhil,
1967, PhD, 1969, University of London (England)
Khalilian, Ahmad, Professor, Agricultural and Biological Engineering, Edisto Research and Education Center. BS, University of Tehran (Iran), 1971; MS, University of California,
1977; PhD, Oklahoma State University, 1980
Khan, Abdul A., Assistant Professor, Civil Engineering.
BSc, 1986, MSc, 1989, PhD, 1995, University of
Alberta (Canada)
Khan, Tauﬁquar Rahman, Associate Professor, Mathematical Sciences. AB, Occidental College, 1994; MS, 1999,
PhD, 2000, University of Southern California
Kholodenko, Arkady L., Professor, Chemistry. MS, Kiev
State University (Ukraine), 1976; PhD, University of
Chicago, 1982
Khor, Eng Hui, Adjunct Assistant Professor, Civil Engineering. BS, 1991, MS, 1993, National Chung-Hsing
University (Taiwan); PhD, Clemson University, 1999
Kiessler, Peter C., Associate Professor, Mathematical
Sciences. BS, 1977, MS, 1980, PhD, 1983, Virginia
Polytechnic Institute and State University
Kilbey, S. Michael II, Associate Professor, Chemical and
Biomolecular Engineering. BS, 1990, PhD, 1996, University of Minnesota
Kilbourne, William Edward, Professor, Marketing. BBA,
1967, MBA, 1968, PhD, 1973, University of Houston
Kimbler, Delbert L., Jr., Professor, Industrial Engineering.
BSE, University of South Florida, 1976; MS, 1978,
PhD, 1980, Virginia Polytechnic Institute and State
University; PE
Kimbrough-Melton, Robin J., Research Professor, Institute
on Family and Neighborhood Life. BS, Southern Methodist University, 1977; JD, University of NebraskaLincoln, 1983
Kimmel, DeeAnne Moore, Lecturer, Packaging Science.
BA, University of North Carolina-Greensboro, 1964;
MS, Simmons College, 1968; MA, Middlebury College, 2005

Jones, Karyn O., Assistant Professor, Communication Studies. BS, Georgia Southern University, 1992; MA, 1994,
PhD, 2003, University of Georgia
Jones, Michael A., Associate Professor, Entomology, Soils,
and Plant Sciences, Pee Dee Research and Education Center. BS, 1989, MS, 1991, PhD, 1994, North Carolina
State University
Jones, Roy I., Lecturer, Teacher Education. BA, University
of Massachusetts-Amherst, 1972; MA, Atlanta University, 1977; EdD, University of Georgia, 1981
Jones, Scott A., Assistant Professor, Marketing. BS, 1993,
BS, 1993, Florida State University; MBA, University of
Tampa, 1999; PhD, University of Oregon, 2004
Jones, Walker A., Adjunct Professor, Entomology, Soils,
and Plant Sciences. BA, University of Mississippi, 1973;
MS, 1976, PhD, 1979, Clemson University
Jordan, Billie D., Lecturer, Languages. BA, Gallaudet
University, 1975
Joseph, Paul F., Associate Professor, Mechanical Engineering.
BA, Franklin and Marshall College, 1979; MS, 1982,
PhD, 1987, Lehigh University
Juang, Charng-hsein, Professor, Civil Engineering. BS,
1974, MS, 1976, National Cheng Kung University
(Taiwan); PhD, Purdue University, 1981; PE
Julian, Dinah Gail, Associate Librarian, Cooper Library.
BS, Tennessee Technological University, 1979; MBA,
Middle Tennessee State University, 1980; MS, University of Tennessee, 1989
Kaisa, Tafadzwa R., Lecturer, Biological Sciences. BS, Syracuse University, 1986; MS, Frostburg State University,
1989; PhD, State University of New York, 1993
Kalbaugh, Corey A., Adjunct Instructor, Biological Sciences.
BS, 2000, MS, 2003, Clemson University
Kaminski, Rebecca A., Lecturer, Teacher Education. BS,
West Virginia University, 1971; MEd, 1974, EdD, 1994,
University of Pittsburgh
Kaplan, Daniel I., Adjunct Associate Professor, School of the
Environment. BS, 1977, MS, 1983, University of New
Hampshire; PhD, University of Georgia, 1993
Karakostas, Tasos, Adjunct Assistant Professor, Bioengineering. BEd, Strathclyde University (England), 1989;
MS, Michigan State University, 1992; PhD, Ohio State
University, 2001; MPT, Texas Tech University, 2003
Karanﬁl, Tanju, Professor, School of the Environment. BS,
Istanbul Technical University (Turkey), 1988; MS,
1991, PhD, 1995, University of Michigan
Karlen, Douglas L., Adjunct Associate Professor, Entomology, Soils, and Plant Sciences. BS, University of Wisconsin, 1973; MS, Michigan State University, 1975; PhD,
Kansas State University, 1978
Katsiyannis, Antonis, Professor, Teacher Education. BA,
Hellenic College-Holy Cross Greek Orthodox, 1983;
MEd, Virginia Commonwealth University, 1986; EdD,
College of William and Mary, 1989
Katz, Alison B., Lecturer, English. MAT, Rhode Island
College, 1975
Katz, Steven B., Roy Pearce Professor of Professional Communication, Communication Studies. BA, Michigan State
University, 1977; MA, University of Rhode Island,
1980; PhD, Rensselaer Polytechnic Institute, 1988
Kaup, John G., Lecturer, Chemistry. BS, Xavier University,
1990; PhD, University of Utah, 1997
Kaye, Nigel Gregory, Lecturer, Civil Engineering. BEng,
University of New South Wales (Australia), 1993; PhD,
Cambridge University (England), 1998
Ke, Pu-Chun, Assistant Professor, Physics and Astronomy.
BE, Huazhong University of Science and Technology
(China), 1989; MS, 1996, PhD, 2000, Victoria University (Australia)
Keeley, Ernest R., Adjunct Assistant Professor, Biological
Sciences. BSc, 1990, MSc, 1993, Concordia University (Canada); PhD, University of British Columbia
(Canada), 1998

James, Kevin L., Associate Professor, Mathematical Sciences.
BS, 1991, PhD, 1997, University of Georgia
Jamison, Robert E., Professor, Mathematical Sciences.
BS, Clemson University, 1970; MS, 1973, PhD, 1974,
University of Washington
Jarvis, James P., Professor, Mathematical Sciences. BS,
University of North Carolina, 1971; MS, 1973, PhD,
1975, Massachusetts Institute of Technology
Jeffers, Steven Nye, Associate Professor, Entomology, Soils,
and Plant Sciences. BS, University of California-Davis,
1976; MS, 1980, PhD, 1985, Cornell University
Jeffries, James Bradford, Visiting Assistant Professor,
History. BA, 1989, MA, 1994, University of Colorado-Boulder; CPhil, University of California-Santa
Barbara, 1998
Jenkins, Eleanor W., Assistant Professor, Mathematical
Sciences. BS, Wofford College, 1988; MS, Clemson
University, 1990; PhD, North Carolina State University, 2000
Jenkins, Michael Andrew, Adjunct Assistant Professor,
Forestry and Natural Resources. BS, Eastern Illinois
University, 1989; MS, University of Missouri-Columbia,
1992; PhD, Purdue University, 1998
Jenkins, Thomas C., Professor, Animal and Veterinary
Sciences. BS, 1973, MS, 1975, Pennsylvania State
University; PhD, Cornell University, 1979
Jennings, Gregory Donald, Adjunct Professor, Forestry and
Natural Resources. BS, 1984, MS, 1986, Pennsylvania
State University; PhD, University of Nebraska, 1990
Jensen, Heidi J., Assistant Professor, Art. BFA, University
of Minnesota-Duluth, 1997; MFA, University of North
Carolina, 1999
Jerzmanowski, Michal Maria, Assistant Professor, Economics. MA, Warsaw University (Poland), 1998; MA, 2000,
PhD, 2003, Brown University
Jiang, Xiuping, Assistant Professor, Food Science and Human
Nutrition. BS, 1984, MS, 1987, Ocean University of
Qingdao (China); PhD, University of Maryland, 1996
Jodice, Patrick G., Acting Unit Leader, USGS South Carolina Cooperative Fish and Wildlife Research Unit; Assistant
Professor, Forestry and Natural Resources. BS, University
of Maine, 1983; MS, University of Florida, 1990; PhD,
Oregon State University, 1999
Johnson, Alan R., Associate Professor, Forestry and Natural
Resources. BS, Colorado State University, 1980; PhD,
University of Tennessee, 1988
Johnson, Arlene E., Assistant Professor, School of Nursing.
BA, College of Saint Scholastica, 1983; MA, College
of Saint Catherine, 1996
Johnson, Kendra Lynette, Assistant Professor, Performing Arts. BA, James Madison University, 1987; MFA,
University of Tennessee, 1994
Johnson, Pitsa R., Lecturer, School of Accountancy and
Legal Studies. BA, Furman University, 1967; MTX,
Georgia State University, 1984
Johnson, Steven D., Associate Librarian, Cooper Library.
BSFS, Georgetown University, 1968; MLS, Rutgers
University, 1973
Johnson, Terri A., Senior Lecturer, Mathematical Sciences.
BS, Ball State University, 1974; MS, University of South
Carolina, 1982; PhD, Clemson University, 1992
Jolley, Louwanda W., Adjunct Assistant Professor, Forestry
and Natural Resources. BS, University of South Carolina,
1992; MS, 2001, PhD, 2005, Clemson University
Jones, Carol D., Lecturer, Graphic Communications. BS,
1988, MS, 1996, Clemson University
Jones, George L., Visiting Assistant Professor, Leadership,
Technology, and Counselor Education; Counselor, Counseling Center. PhD, Florida Institute of Technology, 1986
Jones, James H., Lecturer, Computer Science. BS, Clemson
University, 1957

Lee, Connie Wonsik, Associate Professor, School of Nursing, BSN, Ewha Women’s University (Korea), 1978; MSN, University of Florida, 1986; EdD, University of Virginia, 1997
Lee, Evelyn J., Professor, School of Nursing, BS, Berea College, 1968; MN, University of California, 1974; EdD, University of Southern California, 1984
Lee, Hyesuk K., Associate Professor, Mathematical Sciences, BS, Yonsei University (Korea), 1986; MS, 1995, PhD, 1997, Virginia Polytechnic Institute and State University
Lee, JoongSoo, Research Assistant Professor, Bioengineering, BS, 1986, MS, 1994, PhD, 1999, Pusan National University (Korea)
Lee, Ji Hoon, Research Assistant Professor, Biological Sciences, BA, Chungnam National University (Korea), 1989; MS, Korea University (Korea), 1992; PhD, Texas A&M University, 2000
Lehmacher, Gerald A., Assistant Professor, Physics and Astronomy, MS, 1988, PhD, 1993, Bonn University (Germany)
Leininger, Nancy W., Senior Lecturer, Graphic Communications, BS, State University of New York, 1977; MMed, Clemson University, 1981
Leisinger, Jane C., Assisstant Professor, Mechanical Engineering, BS, 1979, PhD, 1986, Technical University of Aachen (Germany)
Leverenz, Jonathon T., Lecturer, Mathematical Sciences, BA, Georgetown College, 2002; MS, Clemson University, 2005
Levin, Andrew R., Associate Professor, Performing Arts, Director, Orchestral Activities, BA, California Institute of the Arts, 1980; MM, Rice University, 1987; PhD, University of Michigan, 1993
Lew, William W., Professor, Art, BA, Central Washington University, 1964; MFA, University of Oregon, 1966; PhD, Ohio University, 1976
Lewis, Barbara S., Visiting Instructor, Chemistry, BS, Radford University, 1973
Leylek, James H., Professor, Mechanical Engineering, BS, 1976, MS, 1979, PhD, 1984, University of Illinois
Li, Gang, Assistant Professor, Mechanical Engineering, BS, 1993, MEng, 1996, Tongji University (China); MAsc, Dalhousie University (Canada), 1999; PhD, University of Illinois-Urbana-Champaign, 2003
Liang, Haiying, Assistant Professor, Genetics and Biochemistry, BS, 1990, MS, 1993, Cell Biology, PhD, 1998, University of Virginia
Li-Bleue, Linda L., Associate Professor, Performing Arts, BM, University of Illinois-Urbana-Champaign, 1985; MM, 1987, DMA, 1998, University of Georgia
Lickfield, Gary C., Professor, Materials Science and Engineering, BS, Ursinus College, 1978; PhD, Clemson University, 1983
Lieberman, Donald H., Adjunct Professor, Physics and Astronomy, BS, 1954, MS, 1956, PhD, 1971, University of Wisconsin
Ligon, Walter B., Associate Professor, Electrical and Computer Engineering, BS, 1987, MS, 1988, PhD, 1992, Georgia Institute of Technology
Linder, Daniel C., Professor, Leadership, Technology, and Counseling Education, BA, University of North Carolina, 1976; MS, 1982, PhD, 1983, University of Wisconsin-Madison
Lindsey, Cottom M., J. Wilson Newman Professor, Economics, BBA, University of Georgia, 1962; PhD, University of Virginia, 1976
Lippert, Robert M., Associate Professor, Entomology, Soils, and Plant Sciences, BS, Don Bosco College, 1976; BS, California State Polytechnic University-Fontana, 1980; PhD, University of California, 1984
Liska, Roger W., Professor, Construction Science and Management, PhD, Michigan Technological University, 1965; MSCE, Wayne State University, 1967; BS, University of Georgia, 1968
Littleson, Charles C., Associate Professor, Teacher Education, BS, 1976, MA, 1983, Appalachian State University; EdD, North Carolina State University, 1991
Llassen, Roger A., Professor, Molecular Virology and Immunology, BM, Ohio University, 1976; PhD, University of Michigan, 1980
Liu, Haibo, Associate Professor, Horticulture, BS, Beijing Forestry University, 1982; MS, University of Illinois-Urbana-Champaign, 1988; PhD, University of Rhode Island, 1992
Lore, Bruno, Associate Professor, Adjunct Forestry and Natural Resources, BS, 1975, MS, 1977, Clemson University; PhD, Mississippi State University, 1981
Loeb, Susan L., Associate Professor, Forestry and Natural Resources, BS, 1983, MS, 1987, PhD, 1993, Michigan State University
London, James B., Professor, Planning and Landscape Architecture, BS, 1971, MA, 1974, University of South Carolina; PhD, Clemson University, 1979
Long, Marc, Adjunct Professor, Bioengineering, BS, École Nationale Supérieure D’Arts et Métier (France), 1989; MS, 1992, PhD, 1999, Clemson University
Long, Terry L., Adjunct Professor, Finance, BA, Clemson University, 1970
Looney, Brian B., Adjunct Professor, School of the Environment, BS, Texas Christian University, 1978; PhD, University of Minnesota, 1983
Lopes-Virella, Maria E., Adjunct Professor, Bioengineering, MD, 1967, PhD, 1990, University of Lisbon (Portugal)
Lopez-Gutierrez, Edgar Rolando, Adjunct Assistant Professor, Entomology, Soils, and Plant Sciences, BS, Universidad del Valle de Guatemala, 1980; MSc, 1988, PhD, 1995, University of Massachusetts
Loscke, Cheryl A., Lecturer, Communication Studies, BA, Mercyhurst College, 1975; MA, Edinboro University of Pennsylvania, 1992; PhD, Union Institute and University, 2000
Loterio-Alegria, Edgar, Research Assistant Professor, Chemical and Biomolecular Engineering, BS, Universidad del Valle (Columbia), 1993; PhD, University of Nebraska-Lincoln, 2001
Loughry, Misty L., Assistant Professor, Management, BA, Towson State University, 1986; MBA, Loyola College-Maryland, 1991; PhD, University of Florida, 2001
Love, Gordon J., Associate Professor, Languages, BA, University of Toronto (Canada), 1984; LLB, Queen’s University-Kingston (Canada), 1987; MA, 1994, PhD, 2000, Yale University
Lowe, Rose M., Lecturer, Computer Science, BS, Jackson State University, 1971; MA, University of Michigan, 1974; MS, Georgia Institute of Technology, 1983
Lowe, Terry C., Adjunct Professor, Materials Science and Engineering, BS, University of California-Davis, 1978; MS, 1979, PhD, 1983, Stanford University
Lucas, Richard A., Lecturer, Parks, Recreation, and Tourism Management, BS, Old Dominion University, 1982; MBA, Virginia Commonwealth University, 1993
Luephem, John K., Associate Professor, Teacher Education, BA, Valparaiso University, 1963; MA, Southern Illinois University, 1965; PhD, State University of New York, Buffalo, 1969
Lund, Robert B., Professor, Mathematical Sciences, BS, 1968, MS, 1988, Auburn University; PhD, University of North Carolina, 1993
Luo, Feng, Assistant Professor, Computer Science; Adjunct Assistant Professor, Genetics and Biochemistry, BS, Chengdu University of Science and Technology (China), 1992; MS, East China University of Science and Technology (China), 1997; MS, 2001, PhD, 2004, University of Texas-Dallas
Luo, Hong, Assistant Professor, Genetics and Biochemistry, BS, 1983, MS, 1986, Sichuan Agricultural University (China); MS, 1990, PhD, 1995, Catholic University of Louvain (Belgium)
Luo, Jian, Assistant Professor, Materials Science and Engineering, BEng, Tsinghua University (China), 1994; MS, 1999, PhD, 2001, Massachusetts Institute of Technology
Luo, Jun, Assistant Professor, Applied Economics and Statistics, BS, University of Science and Technology (China), 2002; MS, 2004, PhD, 2006, Michigan State University
Lucinov, Igor A., Associate Professor, Materials Science and Engineering, MS, 1985, PhD, 1990, Lviv Polytechnical Institute (Ukraine)
Lynn, Louis B., Adjunct Professor, Horticulture, BS, 1970, MS, 1972, Clemson University; PhD, University of Maryland, 1975
Ma, Lin, Assistant Professor, Mechanical Engineering, BEng, Tsinghua University (China), 2000; MS, 2001, MS, 2002, PhD, 2006, Stanford University
Mack, Pamela E., Associate Professor, History, AB, Harvard University, 1977; PhD, University of Pennsylvania, 1983
MacMillan, Hugh Robert, Assistant Professor, Mathematical Sciences, AB, Princeton University, 1994; PhD, University of Colorado-Boulder, 2001
Madhavan, Krishna P. Charavarthi, Assistant Professor, General Engineering, PhD, Purdue University, 2003
Madison, Alan W., Associate Professor, Computer Science, BS, College of William and Mary, 1969; PhD, University of Virginia, 1977
Madras, J. Russell, Senior Lecturer, School of Accountancy and Legal Studies, BS, 1986, MPAcc, 1988, Clemson University; CPA, CIA, CMA
Maehr, David S., Adjunct Assistant Professor, Forestry and Natural Resources, BS, Ohio State University, 1977; MS, 1980, PhD, 1996, University of Florida
Majhary, Hiren, Assistant Professor, Mathematical Sciences, BSc, 1991, BSc, 1992, BSc, 1993, PhD, 1996, University of Natal (South Africa); PhD, Pennsylvania State University, 2000
Maher, Michael T., Adjunct Professor, School of Architecture, BS, University of Wisconsin-Milwaukee, 1985; MArch, Rice University, 1989

Mai, Joseph H., Assistant Professor, Languages. BA, Northern Illinois University, 1992; MA, University of Illinois-Urbana-Champaign, 1996; MPhil, 1999, PhD, 2004, Yale University

Maker, William A., Department Chair and Professor, Philosophy and Religion, BA, University of Massachusetts, 1971; MA, 1975, PhD, 1978, New School For Social Research

Makram, Elham B., SCEFG Distinguished Professor, Electrical and Computer Engineering, BS, Assistant University (Egypt), 1969; MS, 1978, PhD, 1981, Iowa State University

Mallow, Brian A., Associate Professor, Computer Science. BA, La Salle University, 1968; MED, 1975, MS, 1983, PhD, 1990, University of Pittsburgh

Maloney, Michael T., Professor, Economics. BA, Lewis College, 1970; MA, Western Illinois University, 1971; PhD, Louisiana State University, 1978

Manganelli, Kimberly Snyder, Assistant Professor, English. BA, 1998; MAM, 2002, Auburn University; MA, 2003, PhD, 2006, Cornell University

Manizade, Agida, Assistant Professor, Teacher Education. BS, 1997, MS, 1997, Baku State University (Azerbaijan); MED, College of William and Mary, 2000, PhD, University of Virginia, 2006

Manley, Donald G., Professor, Entomology, Soils, and Plant Sciences. BS, 1984, MS, 1987, MStat, 1990, North Carolina State University

Martin, J., Professor, Entomology, Soils, and Plant Sciences. MS, 1978, Arizona State University, 1989

Martin, Jason K., Lecturer, Mathematical Sciences. BS, Francis Marion University, 1995; MS, Clemson University, 1999

Martin, Michelle H., Associate Professor, English. BA, College of William and Mary, 1988; MS, Northern Illinois University, 1991; PhD, Illinois State University, 1997

Martin, Samuel B., Jr., Professor, Entomology, Soils, and Plant Sciences. BS, 1976, MS, 1984, University of Arkansas, 1978; PhD, North Carolina State University, 1982

Marsan, Steven L., Adjunct Professor, Bioengineering. BS, Randolph-Macon College, 1980; MD, Medical College of Virginia, 1984

Mason, Gordon, Adjunct Associate Professor, Applied Economics and Statistics. BA, University of Denver, 1973

Mathews, Christopher W., Assistant Professor, Performing Arts. BM, Union University, 1995; MA, Southwest Missouri State University; PhD, University of Kentucky, 2004

Matic, Vladimir, Lecturer, Political Science. BS, 1962, JID, 1964, University of Belgrade (Yugoslavia)

Matthews, Benjamin, Adjunct Professor, Entomology, Soils, and Plant Sciences. BS, 1984, MS, 1987, MStat, 1990, North Carolina State University

Matthews, Gretchen L., Assistant Professor, Mathematical Sciences. BS, 1995, MS, 1997, PhD, 1999, Louisiana State University

Mauldin, James R., Assistant Professor, Teacher Education. BS, 1975, MA, 1978, Vanderbilt University, 1995

May, Terry G., Professor, Philosophy and Religion. BA, Brown University, 1978; MA, Duquesne University, 1982; PhD, Pennsylvania State University, 1989

Mayo, Wilson, Jr., Associate Professor, Public Health Sciences. BS, 1971, MA, 1973, Vanderbilt University

Mayo, Rachel M., Professor, History. BA, North Carolina State University, 1973; MEd, University of Kentucky, 1975, PhD, University of Illinois, 1979

McCarty, Lambert B., Professor, Horticulture. BS, Clemson University, 1981; MS, North Carolina State University, 1983; PhD, Clemson University, 1986

McCormick, Robert E., Professor, Economics and BB&T Scholar. BA, 1972, MA, 1974, Clemson University, PhD, Texas A&M University, 1978

McCreight, John W., Adjunct Assistant Professor, Entomology, Soils, and Plant Sciences. BS, University of Guelph (Canada), 1980; MS, 1984, PhD, 1991, Memorial University of Newfoundland (Canada)

McCubbin, James A., Associate Dean, College of Business and Behavioral Science; Professor, Psychology. BA, University of North Carolina, 1974; MA, Wake Forest University, 1976; PhD, University of North Carolina, 1983

McCubbin, Marion Elizabeth, Visiting Assistant Professor, Planning and Landscape Architecture. BFA, 1983, BA, 2002, MA, 2006, Pennsylvania State University

McDonald, Todd A., Assistant Professor, Art, MA, Arizona State University, 2001

McDonell, James R., Associate Professor, Institute on Family and Neighborhood Life. BA, Methodist College, 1971; MSW, University of North Carolina, 1978; DSW, Columbia University, 1987

McDuffie, Kimberly A., Assistant Professor, Teacher Education. BA, Western Kentucky University, 1996; MES, 2003, PhD, 2006, George Mason University

McElreath, Robert B., Jr., Department Chair and Professor, Colorado State University, 1971; PhD, 1976, Georgia State University

McFarland, Lynn A., Adjunct Professor, Psychology. BA, Manhattan College, 1995; MA, 1998, PhD, 2000, Michigan State University

McGaha, Julie Marie, Lecturer, Teacher Education. BA, Clemson University, 1996; MA, Eastern Kentucky University, 1997

McGee, Norman A., Jr., Lecturer, Parks, Recreation, and Tourism Management. BS, Western Michigan University, 1977; JD, University of Georgia, 1981

McGee, Philip H., Assistant Professor, Leadership, Technology, and Counselor Education. BA, Wofford College, 1971; MED, University of Miami, 1973; MS, 1979, EdD, 1978, Indiana University

 McGregor, John D., Associate Professor, Computer Science. BS, 1970, MA, 1971, PhD, 1976, Vanderbilt University

 McGregor, John U., Department Chair and Professor, Food Science and Human Nutrition. BS, Clemson University, 1982; MS, Louisiana State University, 1984; PhD, Mississippi State University, 1988

McGuire, Francis A., Alumni Distinguished Professor, Parks, Recreation, and Tourism Management. BA, Cornell University, 1973; MS, Pennsylvania State University, 1975; PhD, University of Illinois, 1979

McKale, Donald M., Class of 1941 Memorial Professor of History. BS, Iowa State University, 1966; MA, University of Missouri, 1967; PhD, Kent State University, 1970

McKnew, Judith Irene, Lecturer, Mathematical Sciences. BS, 1981, MS, 1986, PhD, 1994, Clemson University

McKnew, Mark A., Professor, Management. BS, 1971, MA, 1973, University of California; PhD, Massachusetts Institute of Technology, 1978

McLeod, Michael F., Lecturer, Academic Support Center. BS, 1974, MA, 1994, Clemson University

McManus, Gary L., Adjunct Associate Professor, Applied Economics and Statistics. BA, Wofford College, 1968; MPA, University of South Carolina, 1981

McMillan, Jeffrey L., Professor, School of Accountancy and Legal Studies. BS, 1983, MBA, 1984, Louisiana State University; PhD, University of South Carolina, 1990

McMillan, Kerri D., Senior Lecturer, Finance. BS, Southeastern Louisiana University, 1981; MBA, University of South Carolina, 1988
Tollison, Robert Dewitt, Professor, Economics. BA, Wofford College, 1964; MA, University of Alabama, 1965; PhD, University of Virginia, 1969

Tomkins, Jeffrey P., Assistant Professor, CU Genomics Institute. BS, Washington State University, 1985; MS, University of Idaho, 1990; PhD, Clemson University, 1996

Tong, Chennng, Associate Professor, Mechanical Engineering. BS, 1983, ME, 1985, Beijing Institute of Aeronautics and Astronautics (China); PhD, Cornell University, 1995

Tonkin, Charles E. III, Adjunct Lecturer, Graphic Communications. BS, 1992, MinEd, 1994, Clemson University

Tonkyn, David W., Associate Professor, Biological Sciences. BA, 1976, MA, 1978, PhD, 1985, Princeton University

Toole, Bryan P., Adjunct Professor, Bioengineering. BSc, University of Melbourne (Australia), 1962; MSc, 1965; PhD, 1968, Monash University (Australia)

Topping, Chris M., Research Assistant Professor, Chemistry. PhD, Hull University (England), 1998

Torres Hernandez, Walter, Research Professor, Chemical and Biomolecular Engineering. BS, 1983, MS, 1986, Universidad del Valle (Columbia); MA, 1989; PhD, 1991, University of Texas-Austin

Tritt, Terry M., Professor, Physics and Astronomy. BA, 1980; PhD, 1985, Clemson University

Tsai, Kevin Ka Kin, Assistant Professor. Economics. BS, 1995, MPhil, 1997, Hong Kong University (China); PhD, University of Chicago, 2006

Turnbull, Matthew W., Assistant Professor, Entomology, Soil, and Plant Sciences. BS, 1994, MA, 1999, College of William and Mary; PhD, University of Kentucky, 2002

Tyler, Peggy J., Librarian, Coop Library. BS, Johnson State College, 1983; MLS, State University of New York-Albany, 1988

Tyrell, Richard A., Professor, Psychology. BA, 1995; PhD, 2002, University of Tennessee

Urozsky, Robert L., Assistant Professor, Leadership, Technology, and Counselor Education. BA, Hampden-Sydney College, 1990; MEd, Virginia Commonwealth University, 1992; PhD, University of Virginia, 2000

Ullah, S., Adjunct Associate Professor, Genetics and Biochemistry. BS, College of Agriculture, Hermosillo Escobar (Mexico), 1984; MS, 1990, PhD, 1993, New Mexico State University

Unda, Ricardo Gabriel, Lecturer, Languages. BS, Stonehill College, 1985; ME, 1971, PhD, 1974, University of Geneva (Switzerland)

Vander Mey, Brenda J., Professor, Sociology. BA, Trinity Christian College, 1978; MA, 1981, PhD, 1984, Mississippi State University

Wagner, Earl H., Adjunct Assistant Professor, Chemistry. BS, 1962, PhD, 1967, Clemson University

Wagner, John R., Associate Professor, Mechanical Engineering. BS, 1983, MS, 1985, PhD, 1990, University of North Dakota

Wagner, Thomas E., Professor, Biological Sciences; Adjunct Professor, Chemistry. BA, Princeton University, 1964; PhD, Northwestern University, 1966

Wainscott, Stephen H., Assistant Dean, Calhoun Honors College; Professor, Political Science. BA, Saint Andrews Presbyterian College, 1967; MA, 1972, PhD, 1976, Miami University

Walder, Thomas A., Adjunct Professor, Forestry and Natural Resources. BS, 1978, MS, 1980, Clemson University; PhD, University of Tennessee, 1983

Waldvogel, Jerry A., Associate Professor, Biological Sciences. BS, Stanford University, 1976; PhD, Cornell University, 1981

Walker, Ian D., Professor, Electrical and Computer Engineering. BS, University of Hull (England), 1983; MS, 1985, PhD, 1991, University of Texas-Austin

Walker, Joan L., Adjunct Professor, Forestry and Natural Resources. BS, Lebanon Valley College, 1975; MS, 1980, PhD, 1985, University of North Carolina

Walker, Meredith L., Lecturer, English. BA, University of South Carolina, 1984; MAEd, Western Carolina University, 1987

Walker, Miranda Letitia, Lecturer, School of Accountancy and Legal Studies. BS, 1990, MPAcc, 1993, Clemson University; CPA

Walks, S. Erwin, Lecturer, Mathematics. BA, University of North Carolina, 1996; MS, Clemson University, 1999

Walks, Terry H., Professor, Agricultural and Biological Engineering. BS, 1989, MS, 1992, PhD, 1997, University of Tennessee

Wall, Kay L., Dean, Cooper Library; Librarian. BA, University of Mississippi, 1978; MLS, Louisiana State University, 1981

Waller, Neil G., Professor, Finance. BS, 1975, MA, 1978, University of Florida; PhD, University of Texas, 1986; MA

Waller, Jason Allen, Lecturer, English. BA, 2004, MA, 2006, Clemson University

Wang, Gaofeng G., Associate Professor, Forestry and Natural Resources. BSc, 1983, MSc, 1986, Nanjing Forestry University (China); PhD, University of British Columbia (Canada), 1993

Wang, Kwang-Ching, Assistant Professor, Electrical and Computer Engineering. BS, 1997, MS, 1999, National Taiwan University (Taiwan); MS, 2001, PhD, 2003, University of Wisconsin-Madison

Wang, Pingzhang, Assistant Professor, Electrical and Computer Engineering. BS, University of Electronics Science and Technology of China (China), 1985; PhD, Tsinghua University (China), 2000; PhD, Cornell University, 2004

Wang, Xi, Adjunct Assistant Professor, Genetics and Biochemistry. BS, 1991, MS, 1994, Wuxi Institute of Light Industry (China); PhD, Louisiana State University and Agricultural and Mechanical College, 1999

Wang, Zijun, Assistant Professor, Computer Science. BS, 1990, MS, 1993, University of Science and Technology (China); PhD, University of Central Florida, 2001

Warber, Adam L., Assistant Professor, Political Science. BA, Hope College, 1993; MA, Western Michigan University, 1996; PhD, Texas A&M University, 2002

Ward-VAughn, Virginia L. S., Lecturer, School of Accountancy and Legal Studies. BA, University of Hawaii (Hawaii), 1982; JD, George Washington University, 1987; MPAcc, Clemson University, 1995

Warner, Cheryl Burnett, Assistant Professor, Leadership, Technology, and Counselor Education. BS, De Paul University, 1982; MED, 1995, PhD, 2000, University of Georgia

Warner, Daniel D., Professor, Mathematical Sciences. BS, 1965, MA, 1966, Arizona State University; PhD, University of California-San Diego, 1974
Warner, John D., Lecturer, English. BA, University of Illinois-Urbana-Champaign, 1992; MA, 1997, MFA, 1997, McNeese State University

Warner, John T., Professor, Economics. BA, Wake Forest University, 1969; ME, 1972, PhD, 1976, North Carolina State University

Warner, Richard D., Professor, School of the Environment. BS, Massachusetts Institute of Technology, 1966; PhD, Stanford University, 1971

Washington, Rachelle D., Assistant Professor, Teacher Education. BA, Clark College, 1981; MA, Clark Atlanta University, 1994; PhD, University of Georgia, 2006

Watson, Rhett Tyler, Lecturer, Chemistry. BS, 1997, MS, 1998, Furman University; PhD, Clemson University, 2004

Watt, Catherine E., Lecturer, Sworn Tharmol Institute. BA, 1989, MA, 1992, University of South Carolina

Watt, Charles K., Professor, Materials Science and Engineering. BS, Clemson University, 1959; MBA, Industrial College of the Armed Forces, 1972; MS, 1973, PhD, 1986, George Washington University

Wayne, Millicent H., Lecturer, Graphic Communications. BS, 2000, MA, 2001, Appalachian State University

Weatherford, Carol G., Associate Professor, Teacher Education. BS, 1972, MS, 1973, EDS, 1975, University of Georgia; EdD, North Carolina State University, 1984

Weatherford, David E., Jr., Professor, Family and Community Studies. BS, 1972, MEI, 1978, University of Georgia; EdD, North Carolina State University, 1981

Weaver, Kenneth Allen, Lecturer, Computer Science. BS, 1966, MA, 1976, Florida State University; PhD, Clemson University, 2004

Weber, Charles K., Assistant Professor, Bioengineering. BS, Clemson University, 1992; PhD, University of Utah, 1999

Wei, Yanzhang, Associate Professor, Biological Sciences. BS, Shenyang Normal College (China), 1982; MS, Institute of Hydrobiology of the Chinese Academy of Sciences (China), 1985; PhD, Ohio University, 1996

Weinbrenner, Donna Ruth, Lecturer, Biological Sciences. BS, 1994, MS, 1998, PhD, 2003, Clemson University

Weisenmiller, Eric M., Associate Professor, Graphic Communications. BA, 1993, MT, 1995, Georgia Southern University; PhD, Virginia Polytechnic Institute and State University, 1999

Welch, David O., Adjunct Professor, Physics and Astronomy. BS, University of Tennessee, 1960; SM, Massachusetts Institute of Technology, 1962; PhD, University of Pennsylvania, 1964

Wells, Christina E., Assistant Professor, Horticulture. BS, Temple University, 1994; PhD, Pennsylvania State University, 1999

Wells, Mary S., Assistant Professor, Parks, Recreation, and Tourism Management. BA, University of Notre Dame, 1996; MS, Brigham Young University, 2001; PhD, University of Utah, 2005

Welsh, Ralph Stewart, Lecturer, Public Health Sciences. BS, University of Wisconsin, 1991; MS, University of South Carolina, 1998

Welton, Ralph E., Jr., Director and Professor, School of Accountancy and Legal Studies. BA, Anderson University, 1976; MS, 1978, PhD, 1982, Louisiana State University

Wen, Xuejun, Assistant Professor, Bioengineering. MD, Henan Medical University (China), 1994; MS, Zhejiang University (China), 1997; MS, University of Cincinnati, 1999; PhD, University of Utah, 2003

Wentworth, William M., Professor, Sociology. BA, Indiana University, 1972; MA, University of Maryland, 1974; PhD, University of Virginia, 1978

Wesley, Kathryn M., Associate Librarian, Cooperator Library. BA, Northeast Louisiana University, 1977; MLIS, University of Southern Mississippi, 1997

Westall, James M., Jr., Professor, Computer Science. BS, Davidson College, 1968; PhD, 1973, MS, 1978, University of North Carolina

Wetzel, Margaret A., Associate Professor, School of Nursing. BSN, Indiana University, 1978; MS, Ohio State University, 1979; PhD, University of Texas-Austin, 1988

Wheeler, Alfred G., Jr., Adjunct Professor, Entomology, Soils, and Plant Sciences. BA, Grinnell College, 1966; PhD, Cornell University, 1971

Wheeler, Alfred P., Department Chair and Professor, Biological Sciences. BS, Butler University, 1969; PhD, Duke University, 1975

Whetstone, Jack M., Associate Professor, Forestry and Natural Resources. Belle W. Baruch Institute of Coastal Ecology and Forest Science, BS, 1969, MS, 1971, PhD, 1976, University of Minnesota

Willoughby, Deborah F., Associate Professor, School of Nursing. BS, 1976, MS, 1986, Clemson University; PhD, Georgia State University, 1995

Wills, William, Adjunct Assistant Professor, Entomology, Soils, and Plant Sciences. BS, Fresno State College-Bakersfield Center, 1959; MS, Pennsylvania State University, 1965

Wilmott, Robert D., Assistant Librarian, Cooperator Library. BCJ, 1992, BA, 1992, New Mexico State University; MS, University of South Carolina, 2002

Wilson, Paul Wayne, Professor, Economics. BA, Rice University, 1980; AM, 1982, PhD, 1986, Brown University

Wilson, Rebecca Seals Nisbet, Lecturer, Teacher Education. BS, Winthrop University, 1988; MA, Furman University, 1991; PhD, University of Southern Mississippi, 1994

Winchell, Donna H., Professor, English. BA, 1974, MA, 1976, Florida State University; PhD, Texas Christian University, 1981

Winchell, Mark R., Professor, English. BA, 1971, MA, 1973, West Virginia University; PhD, Vanderbilt University, 1978

Winslow-Bowe, Sarah Evelyn, Assistant Professor, Sociology. BA, 2000, BA, 2000, Skidmore College; MA, 2002, PhD, 2006, University of Pennsylvania

Winters, Alan J., Professor, School of Accountancy and Legal Studies. BS, 1966, MBA, 1970, Northeast Louisiana University; PhD, Texas Tech University, 1974; CPA

Wintz, Joseph A., Associate Professor, Construction Science and Management. BS, University of Virginia, 1970; MS, George Washington University, 1974; JD, George Mason University, 1998

Witte, James C., Professor, Sociology. BA, Beloit College, 1979; MPA, University of Wisconsin, 1981; MA, 1984, PhD, 1991, Harvard University

Wolak, Francis J., Chief Operating Officer, Field Operations; Professor, Agricultural and Biological Engineering. BS, 1976, PhD, 1981, Michigan State University

Wolf, Jack G., Assistant Professor, Finance. BA, University of Virginia, 1991; MBA, Wake Forest University, 1993; PhD, University of Utah, 2000

Wolfe, Dylan Patrick, Assistant Professor, Communication Studies. MS, State University of New York, 2003

Wood, Gene W., Professor, Forestry and Natural Resources. BS, Virginia Polytechnic Institute and State University, 1963; MS, 1966, PhD, 1971, Pennsylvania State University

Woodard, Damon L., Assistant Professor, Computer Science. BS, Tulane University, 1997; ME, Pennsylvania State University, 1999; PhD, University of Notre Dame, 2004

Woodard, James D., Named Professor, Political Science. BS, Ashland Christian University, 1970; MA, American University, 1973; PhD, Vanderbilt University, 1978

Woodward-Driehut, Denise C., Director, Rudolph E. Lee Gallery; Lecturer, Art. BFA, Wichita State University, 1992; MFA, Alfred University, 1992

Woosbright, Duane N., Lecturer, Graphic Communications. BS, California State University-Chico, 1983
Bauer, Larry L., PhD, Professor Emeritus of Applied Economics
Bauld, Nelson Robert, Jr., PhD, Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Baumgardner, Reginald Andrew, PhD, Professor Emeritus of Horticulture
Baxa, Ernest Granville, Jr., PhD, Professor Emeritus of Electrical and Computer Engineering
Beard, John Nelson, Jr., PhD, Professor Emeritus of Chemical Engineering
Beckwith, William Frederick, PhD, Professor Emeritus of Chemical Engineering
Bednar, John C., PhD, Professor Emeritus of Languages
Behery, Hassan Mohamed, PhD, Professor Emeritus of Textiles
Belcher, Cynthia A., MSN, Assistant Professor Emerita of Nursing
Bennett, Archie Wayne, PhD, Senior Vice Provost and Dean Emeritus of Graduate School; Professor Emeritus of Electrical and Computer Engineering
Bennett, John Everett, PhD, Professor Emeritus of Electrical and Computer Engineering
Berger, Leonard, PhD, Professor Emeritus of Psychology
Beyerlein, Adolph Louis, PhD, Chair and Professor Emeritus of Chemistry
Biga, Thomas Michael, MS, County Extension Agent Emeritus
Bishop, Carl Barnes, PhD, Professor Emeritus of Chemistry
Bishop, Eugene Harlan, PhD, Alumni Professor Emeritus of Mechanical Engineering
Bishop, Muriel Boyd, PhD, Professor Emerita of Chemistry
Black, John Olar, MS, Professor Emeritus of Agronomy and Soils
Black, Jonathan, PhD, Professor Emeritus of Bioengineering
Blackston, William Edward, BS, County Extension Agent Emeritus
Blair, Dudley W., PhD, Director of MBA Program and Professor Emeritus of Economics
Blanton, Lloyd Houston, PhD, Acting Head and Professor Emeritus of Agricultural Education
Bleser, Carol, PhD, Calhoun Lemon Professor Emerita of Zoology
Bedine, Ashby B. II, PhD, Professor Emeritus of Animal and Veterinary Sciences
Book, Norman Lloyd, PhD, Professor Emeritus of Construction Science and Management
Bookmyer, Beverly Brandon, PhD, Professor Emerita of Physics and Astronomy
Boone, James Edward, BS, County Extension Agent Emeritus
Borgman, Robert Frederic, PhD, Professor Emeritus of Food Science
Bosdell, Francis Alvin, MMinEd, Professor Emeritus of Industrial Education
Bose, Anil Kumar, PhD, Professor Emeritus of Mathematical Sciences
Boswell, John Smith, Jr., County Extension Agent Emeritus
Box, Benton Holcombe, DF, Dean Emeritus, College of Forest and Recreation Resources; Professor Emeritus of Forest Resources
Boykin, Joseph F., Jr, MS, Dean of Libraries and Librarian Emeritus
Bradbury, Douglas Wilson, MSE, Alumni Professor Emeritus of Mechanical Engineering
Bradford, Garnett Lowell, PhD, Professor Emeritus of Agricultural and Applied Economics
Brantley, Herbert, PhD, Head and Professor Emeritus of Parks, Recreation, and Tourism Management
Brawley, Joel V., Jr., PhD, Alumni Distinguished Professor Emeritus of Mathematical Sciences
Briscoe, Ida Carolyn, EdD, Professor Emerita of Curriculum and Instruction
Brittain, Jere Alonzo, PhD, Professor Emeritus of Horticulture and Integrated Pest Management
Brook, Julia Ashley, County Extension Director Emerita
Brooks, Alston Dewanye, EdD, Professor Emeritus of Curriculum and Instruction
Brown, Bennie Mae Porter, MEd, County Extension Agent Emerita
Brown, Carolyn Scurry, PhD, Professor Emerita of Biochemistry
Brown, Farrell Blenn, PhD, Interim Dean Emeritus of Graduate School; Professor Emeritus of Chemistry
Brown, Russell H., PhD, Professor Emeritus of Civil Engineering
Brown, Thomas M., PhD, Professor Emeritus of Entomology
Brown, William Glynn, Jr., PhD, Professor Emeritus of Animal, Dairy, and Veterinary Sciences
Bryan, Edward Louis, DBA, Professor Emeritus of Accounting
Bryan, Jones Woodrow, DVM, Director of Livestock Poultry Health Emeritus
Bryant, Hallman Bell, PhD, Professor Emeritus of English
Buckner, Sam Levi, EdD, Professor Emeritus of Curriculum and Instruction
Buist, Elizabeth Rhodes, BS, Extension Associate Emerita
Bunn, Joe Millard, PhD, Chair and Professor Emeritus of Agricultural and Biological Engineering
Burch, Elmer Earl, Jr., PhD, Professor Emeritus of Business Administration and Mathematical Sciences
Burkert, Byron Verner, Jr., PhD, Professor Emeritus of Technology and Human Resource Development
Burnett, C. Wesley, PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
Bussey, Maria Martin, County Extension Agent Emerita
Butler, John Harrison, PhD, Head and Professor Emeritus of Music
Butler, John Kenrick, Jr., DBA, Professor Emeritus of Management and Astronomy
Byrne, Edward Ford, PhD, Executive Assistant Emeritus to the President; Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Calley, Paul Cochran, PhD, Professor Emeritus of Industrial Education
Calvez, Daniel J., PhD, Professor Emeritus of Languages
Campbell, Alice Young, MS, County Extension Agent Emerita
Camper, N. Dwight, PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Card, Edith Bryson, PhD, Professor Emerita of Music
Carner, Gerald R., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Carpenter, Earl Thomas, EdD, Head and Professor Emeritus of Agricultural Education
Carroll, June Langley, BS, District Extension Director Emerita
Carter, George E., Jr., PhD, Associate Dean of Undergraduate Academic Services and Professor Emeritus of Plant Pathology and Physiology
Caskey, Claire Omar, MA, Professor Emeritus of English
Castro, Walter Ernest, PhD, Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Celly, Joseph Eugene, MS, County Extension Agent Emeritus
Chapman, Stephen R., PhD, Professor Emeritus of Agronomy and Soils
Cheatham, Samuel Augustus, MAg, County Extension Agent Emeritus
Chisman, James Allen, PhD, Professor Emeritus of Industrial Engineering
Cholewinski, Frank Michael, PhD, Professor Emeritus of Mathematical Sciences
Christenbury, Gerald Davis, PhD, Professor Emeritus of Agricultural and Biological Engineering
Christenbury, Joyce Hvron, MEd, Professor Emerita of Family and Youth Development
Christoph, Laverne McKay, MA, Professor Emeritus of English
Clair, Alison L., PhD, Professor Emerita of Accounting
Clark, James Edwin, PhD, Professor Emeritus of Civil Engineering
Clarke, Richard L., PhD, Professor Emeritus of Management
Clements, Stanley Gordon, Jr., Distinguished Area County Agent Emeritus
Clinkscale, William Cherry, EdD, Assistant Director of Extension Emeritus
Colburn, Frances Louise, MLS, Head and Librarian Emeritus, Circulation Unit
Conspurgeon Northen, PhD, Professor Emeritus of Psychology
Collier, John A., PhD, Professor Emeritus of Agricultural and Biological Engineering
Collins, Donald Lynn, MS, Professor Emeritus of Planning and Landscape Architecture
Collins, Joyce Smith, County Extension Agent Emerita
Collins, Thomas Frank, MS, Professor Emeritus of Physics and Astronomy
Conover, Richard Allan, Jr., PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
Cook, Bruce Farrell, PhD, Director Emeritus, Brooks Center; Professor Emeritus of Music
Cook, Wilton Pierce, PhD, Professor Emeritus of Horticulture
Coolaige, Harold Norman, Jr., PhD, Professor Emeritus of Architectural History
Cover, Peggy H., MS, Librarian Emerita
Cox, Headley Morris, PhD, Dean Emeritus, College of Liberal Arts; Professor Emeritus of English
Craddock, Garnet Roy, PhD, Professor Emeritus of Agronomy and Soils
Crader, Kelly Wayne, PhD, Professor Emeritus of Sociology
Cranston, Mechtild, PhD, Professor Emerita of French
Crina, Michael D., PhD, Alumni Distinguished Professor Emeritus of Management
Crosby, Birdie Raymond, Jr., MPA, County Extension Agent Emeritus
Crosby, Margaree Seawright, EdD, Professor Emerita of Curriculum and Instruction
Cross, Dee Lewis, PhD, Professor Emeritus of Animal and Veterinary Sciences
Crouch, James Page, EdD, Alumni Distinguished Professor Emeritus of Graphic Communications
Culbertson, Carroll Preston, BS, Extension Regional Director Emeritus
Culler-Hair, Margaret Ann, MS, County Extension Agent Emerita
Cunningham, Bennie Lee, MS, Professor Emeritus of Agricultural Education
Dalla Mura, Richard Anthony, BS, County Extension Agent Emeritus
Davenport, John Douglas, PhD, Professor Emeritus of Psychology
Davis, James Richard, PhD, Professor Emeritus of Accounting
Faculty

Davis, Rose Jones, EdD, Professor Emerita of Family and Youth Development
Davis, Ruby Sellers, MA, Professor Emerita of History
Day, Frank Louis, MA, Professor Emeritus of English
Day, Mary Sue, BS, County Extension Agent Emerita
Deal, Elwyn Ernest, PhD, Assistant Director Emeritus for Extension and Research
Dean, Jordan Arthur, MA, Professor Emeritus of Modern Languages
Dickerson, Ottie Joseph, PhD, Head and Professor Emeritus of Plant Pathology and Physiology; State Plant Pathologist
Dickey, Joseph Freeman, PhD, Alumni Professor Emeritus of Animal, Dairy, and Veterinary Sciences
Diefendorf, Russell Judd, PhD, McAlister Professor Emeritus of Ceramic Engineering
Diehl, John R., PhD, Professor Emeritus of Animal and Veterinary Sciences
Dillman, Buddy Leroy, PhD, Professor Emeritus of Agricultural and Applied Economics
Dillon, Charles Ronald, PhD, Professor Emeritus of Botany
Dillon, Howard, Jr., BS, County Extension Agent Emeritus
Dimond, Thomas W., MFA, Professor Emeritus of Art
Dinger, Dennis Russell, PhD, Professor Emeritus of Ceramic and Materials Engineering
Dixon, Marvin Warren, PhD, Alumni Distinguished Professor Emeritus of Mechanical Engineering
Doodt, Roger K., PhD, Professor Emeritus of Accountancy
Doruk, Teoman Kaya, DEng, Professor Emeritus of Architecture
Drake, Thomas L., PhD, Professor Emeritus of Electrical and Computer Engineering
Drew, Leland Overby, PhD, Professor Emeritus of Engineering Technology
Drews, Michael J., PhD, Professor Emeritus of Materials Science and Engineering
Duke, Albert Link, PhD, Professor Emeritus of Electrical and Computer Engineering
Dukes, Geraldine Dormam, MEd, Extension Regional Director Emeritus
Dunn, B. Allen, PhD, Director of Environmental Toxicology and Professor Emeritus of Forestry and Natural Resources
Dunn, Charles Wythe, PhD, Professor Emeritus of Political Science
DuRant, John Alexander III, PhD, Professor Emeritus of Entomology
Durham, Bill Gravely, MEd, Professor Emeritus of Spanish
Dyck, Lawrence A., PhD, Professor Emeritus of Biological Sciences
Eaddy, Elvis Eskew, County Extension Agent Emeritus
Eaddy, Susan Tomlinson, BS, Distinguished County Agent Emerita
Eargle, Jesse Claude, MS, Extension Regional Director Emeritus
Edie, Danny D., PhD, Professor Emeritus of Chemical Engineering
Edwards, James Leon, MS, Assistant Dean Emeritus, College of Engineering; Professor Emeritus of Mechanical Engineering
Edwards, Jane Snipes, County Extension Agent Emerita
Edwards, Robert Lee, PhD, Professor Emeritus of Animal Science
Efland, Thomas Daniel, MS, Associate Dean and Director Emeritus of Research, College of Commerce and Industry; Professor Emeritus of Textiles
Eflin, Robert Dean, MArch, Professor Emeritus of Architecture
Egan, Clifton Scott Miller, MFA, Alumni Distinguished Professor Emeritus of Theatre
Egan, Martin David, MS, Professor Emeritus of Construction Science and Management
Elliot, Ralph D., PhD, Vice Provost for Off-Campus Distance and Continuing Education and Professor Emeritus of Economics
Elrod, Alvon Creighton, PhD, Professor Emeritus of Mechanical Engineering
Ensor, Janet Elizabeth, BS, County Extension Agent Emerita
Epps, Philip Olin, Area County Extension Agent Emeritus
Eskew, Elias Benton, MS, Professor Emeritus of Agronomy and Soils
Eubanks, Isaac Dwaine, PhD, Professor Emeritus of Chemistry
Eversole, Arnold George, PhD, Professor Emeritus of Forestry and Natural Resources
Exell, Dan Odell, PhD, Associate Director of Extension Emeritus
Fain, Charles Clifford, PhD, Professor Emeritus of Ceramic Engineering
Fairly, John Edward III, PhD, Professor Emeritus of Biological Sciences
Falls, Edward Lockwood, DPA, Professor Emeritus of Planning Studies
Fallow, Jerayln Kirkley, County Extension Agent Emeritus
Fanning, James Collier, PhD, Professor Emeritus of Chemistry
Faris, Jesse Edwin, PhD, Director Emeritus, International Programs of Agricultural and Natural Resources; Head and Professor Emeritus of Agricultural Economics and Rural Sociology
Fendley, Timothy Thomas, PhD, Professor Emeritus of Aquaculture, Fisheries, and Wildlife
Fennell, Robert E., PhD, Professor Emeritus of Mathematical Sciences
Fernandez, Elena Gonzales, MA, Professor Emerita of Spanish
Fernandez, Gaston Juan, PhD, Professor Emeritus of Spanish
Fitch, Lewis Thomas, PhD, Alumni Professor Emeritus of Electrical and Computer Engineering
Fitzsimons, Frank Lockwood III, MS, County Extension Agent Emeritus
Foley, Charles William, PhD, Professor Emeritus of Animal and Veterinary Sciences
Foster, Shelley White, PhD, Professor Emerita of Elementary and Early Childhood Education
Foster, Carolyn Exell, MA, Professor Emerita of English
Foster, Ida Marie Sloan, MLS, Librarian Emerita
Fox, Richard Charles, PhD, Professor Emeritus of Entomology
Franklin, Joyce Byrd, MS, County Extension Agent Emerita
Franklin, Ralph E., PhD, Professor Emeritus of Crop and Soil Environmental Science
Frederick, John Arthur, MS, County Extension Agent Emeritus
Freeman, Edwin Armistead, PhD, Professor Emeritus of Music
Friedlob, George Thomas, PhD, Professor Emeritus of Accountancy
Fuhr, Donald Lee, EdD, Professor Emeritus of Counseling and Educational Leadership
Fulmer, John Patrick, MS, Professor Emeritus of Horticulture
Gable, Paul Kistler, Jr., BA, Assistant Director of Extension Emeritus
Gaddis, Joseph Leo, PhD, Professor Emeritus of Mechanical Engineering
Gadson, Tyron, BS, County Extension Agent Emeritus
Gahan, Lawrence Willard, PhD, Alumni Distinguished Professor of Parks, Recreation, and Tourism Management
Galluscio, Eugene Hugo, PhD, Professor Emeritus of Psychology
Ganter, Peggy, PhD, Professor Emerita of Mathematical Sciences
Garrones, Thomas Harold, PhD, Professor Emeritus of Agricultural and Biological Engineering
Garrett, Thomas R., ME, Instructor Emeritus of Agricultural and Biological Engineering
Garrison, Olen Branford, PhD, Director Emeritus of Agricultural Experiment Station and Research in Agriculture; Professor Emeritus of Horticulture
Gaskins, Judith Collins, MS, County Extension Agent Emerita
Gauthreaux, Sidney A., PhD, Professor Emeritus of Biological Sciences
Geldard, John Francis, PhD, Professor Emeritus of Chemistry
Gettys, William Edward, PhD, Professor Emeritus of Physics
Gilchrist, Ralph Wayne, PhD, Professor Emeritus of Electrical and Computer Engineering
Gilillard, Bobby Eugene, PhD, Special Assistant Emeritus to the President; Professor Emeritus of Electrical and Computer Engineering
Gillreath, John Atkins, MS, Professor Emeritus of Physics
Glick, Bruce, PhD, Head and Professor Emeritus of Poultry Science
Glover, Judith Lyles, BA, County Extension Agent Emerita
Godley, Willie Cecil, PhD, Associate Dean Emeritus, College of Agricultural Sciences; Director Emeritus, Agricultural Experiment Station; Professor Emeritus of Animal Science
Goree, James Gleason, PhD, Centennial Professor Emeritus; Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Gorsuch, Clyde S., PhD, Professor Emeritus of Entomology
Gossett, Billy Joe, PhD, Professor Emeritus of Crop and Soil Environmental Science
Goswami, Bhuvanesh C., PhD, Professor Emeritus of Materials Science and Engineering
Goswami, Dixie Gooch, MA, Professor Emerita of English
Graben, Henry Willingham, PhD, Professor Emeritus of Physics
Grady, C. P. Leslie, Jr., PhD, R. A. Bowen Professor Emeritus of Environmental Engineering and Science
Graham, W. Doyle, Jr., PhD, Professor Emeritus of Crop and Soil Environmental Science
Gray, Charles Harmon, BA, County Extension Agent Emeritus
Gray, Furman Ray, MS, Associate Professor Emeritus of Accounting
Gray, Gordon Walter, EdD, Dean Emeritus, College of Education
Gray, Hugh Brunson, BS, County Extension Agent Emeritus
Gregory, Kay Rish, County Extension Agent Emerita
Griffin, Barbara, PhD, Professor Emerita of Leadership, Technology, and Counselor Education
Griffin, Barbara Jean, MA, Professor Emerita of Agricultural and Biological Engineering
Griffin, Deuel Norton, MAT, Professor Emeritus of English
Griffin, Randall Parrish, MS, Professor Emeritus of Entomology
Griffin, Villard Stuart, Jr., PhD, Professor Emeritus of Geology
Grimes, Lawrence W., PhD, Professor Emeritus of Applied Economics and Statistics
Grove, Harold Jesse, MS, Associate Professor Emeritus of Parks, Recreation, and Tourism Management
Haertling, Gene Henry, PhD, Bishop Distinguished Professor Emeritus of Ceramic Engineering
Hall, Basil Edwin, MinEd, Professor Emeritus of Art
Ham, Donald Lu., PhD, Professor Emeritus of Forest and Natural Resources
Hamby, John Vernon, PhD, Professor Emeritus of Education
Hamilton, Max Greene, PhD, Professor Emeritus of Horticulture, Edisto Research and Education Center
Hammond, Alexander Francis, MS, Professor Emeritus of Engineering Technology
Hammond, Joseph Langhorne, PhD, Professor Emeritus of Electrical and Computer Engineering
Handlin, Dale Lee, MS, Professor Emeritus of Animal Science
Harder, Lillian U., MM, Director of The Brooks Center for Performing Arts and Professor Emeritus of Music
Hare, Eleanor O., PhD, Associate Professor Emerita of Computer Science
Hare, William R., Jr., PhD, Professor Emeritus of Mathematical Sciences
Harris, Carolyn Martin, MS, County Extension Agent Emerita
Harris, Harold M., Jr., PhD, Professor Emeritus of Applied Economics and Statistics
Harris, Maureen, MLS, Professor Emerita of Libraries
Harrison, James William, Jr., PhD, Professor Emeritus of Electrical and Computer Engineering
Hart, Lillian Blake, PhD, Professor Emerita of Curriculum and Instruction
Harvey, Lawrence Harmon, PhD, Professor Emeritus of Agronomy and Soils
Harwell, Richard Lynn, PhD, Professor Emeritus of Agricultural and Applied Economics
Haselton, George Montgomery, PhD, Professor Emeritus of Geology
Hash, John Alex, EdD, Professor Emeritus of Agricultural Education
Haun, Joseph Rhodes, PhD, Professor Emeritus of Horticulture
Haymon, Jacqueline Landis, PhD, Professor Emeritus of Forest Resources
Haymon, Robert Edward, PhD, Professor Emeritus of Mathematical Sciences
Hays, Ruth Lanier, PhD, Professor Emerita of Biological Sciences
Hays, Sidney Brooks, PhD, Head and Professor Emeritus of Entomology
Hegg, Richard Olaf, PhD, Professor Emeritus of Agricultural and Biological Engineering
Helms, Carl Wilbert, PhD, Professor Emeritus of Zoology
Hendrix, William Herlie, PhD, Head and Professor Emeritus of Management
Henricks, Donald Maurice, PhD, Chair and Professor Emeritus of Animal and Veterinary Sciences
Henry, Louis Lee, PhD, Professor Emeritus of English
Hill, James Riley, Jr., PhD, Professor Emeritus of Animal, Dairy, and Veterinary Sciences
Hiller, Howard Hugh, MS, County Extension Agent Emeritus
Hillian, Dannella Valentine, County Extension Agent Emerita
Hiot, Floyd Berry, Jr., BS, County Extension Agent Emeritus
Hipp, Opal Shepard, EdD, Professor Emerita, School of Nursing
Hite, James Cleveland, PhD, Alumni Professor Emeritus of Agricultural and Applied Economics
Hobson, James Harvey, PhD, Alumni Professor Emeritus of Chemistry
Hochheimer, Laura, PhD, Professor Emeritus of Music
Hodges, Barbara Latimer, MED, County Extension Agent Emerita
Hoflan, Ursula Ann, MS, Professor Emerita of Home Economics
Holder, Barbara Jr., PhD, Professor Emeritus of Nursing
Holmes, Paul Thayer, PhD, Professor Emeritus of Mathematical Sciences
Holt, Albert Hamilton, PhD, Professor Emeritus of English
Hon, David N.-S., PhD, Professor Emeritus of Forest Resources
Hood, Clarence Elam, Jr., PhD, Professor Emeritus of Agricultural and Biological Engineering
Hop, Donal Delose, PhD, Professor Emeritus of Forestry
Horton, Paul Mackey, PhD, Professor and Assistant Director of Extension Emeritus
House, Verne Wadson, PhD, Professor Emeritus of Agricultural and Applied Economics
Howard, Gordon Edward, PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
Howell, Nelda Kay, MED, Professor Emeritus of Home Economics
Hubbard, John William, PhD, Professor Emeritus of Agricultural Economics and Rural Sociology
Hubbard, Julius Clifford, Jr., MS, Alumni Professor Emeritus of Textiles
Hudson, Larry Wilson, PhD, Professor Emeritus of Animal and Veterinary Sciences
Hudson, Mark Richards, MFA, Professor Emeritus of Art
Hudson, William Garreau, MS, Professor Emeritus of Mechanical Engineering
Huys, Cecil O., Jr., PhD, Professor Emeritus of Mechanical Engineering
Huffman, John W., PhD, Professor Emeritus of Chemistry
Hughes, Buddy Lee, PhD, Professor Emeritus of Animal and Veterinary Sciences
Hughes, Robbie Blankenship, EdD, Professor Emerita, School of Nursing
Hunter, James Gerrard, Distinguished County Agent Emeritus
Hunter, Orren Franklin, Sr., MS, Professor Emeritus of Fibers, Fiber, and Polymer Science
Hunter, Robert Howard, MFA, Professor Emeritus of Visual Arts
Hurst, Victor, PhD, Vice President Emeritus of Academic Affairs and Dean of the University; Dean Emeritus of the Graduate School; Alumni Professor Emeritus of Dairy Science
Hutton, Dale Jovan, MArch, Professor Emeritus of Architecture
Idol, John Lane, Jr., PhD, Alumni Professor Emeritus of English
Irwin, John Waltrip, MAEd, Extension Animal Scientist Emeritus
Isbell, Clinton H., EdD, Professor Emeritus of Leadership, Technology, and Counselor Education
Jackson, Herman Brown, Jr., PhD, Department Chair and Head of Plant Industry Emeritus
Jacques, John David, MPH, Professor Emeritus of Architecture
James, Ann E., PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
James, Willie Romando, PhD, Professor Emeritus of Family and Youth Development
James, Zoe Seabrook, MAEd, Distinguished County Extension Agent Emerita
Janzen, Jacob John, PhD, Professor Emeritus of Dairy Science
Jenkins, Gloria, MS, County Extension Agent Emerita
Jensen, Arthur Kenneth, PhD, Professor Emeritus of Vocational-Technical Education
Johnson, Albert W., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Johnson, Ruby Carolyn, MS, County Extension Agent Emerita
Jones, Champ McMillian, PhD, Professor Emeritus of Agronomy and Soils
Jones, Emory Valentine, MS, County Extension Director Emeritus
Jones, Jack Edenfield, PhD, Professor Emeritus of Poultry Science
Jones, Joe Kenneth, BS, State Leader Emeritus of 4-H and Youth Development Programs; Professor Emeritus of Animal Science
Jones, W. A., Jr., MA, County Extension Director Emeritus
Jordan, Johnny Wayne, PhD, Professor Emeritus of Agricultural and Applied Economics
Jossey, James Larry, PhD, Professor Emeritus of Civil Engineering
Kahl, Kandice H., PhD, Professor Emerita of Agricultural and Applied Economics
Kanet, John Joseph, PhD, Professor Emeritus of Management
Kanter, John Leroy, Jr., County Extension Agent Emeritus
Keese, Lee Shirley, BS, County Extension Agent Emeritus
Keinath, Thomas M., PhD, Dean, College of Engineering and Science and Professor Emeritus of Environmental Engineering
Keller, Deloris Olivia, Distinguished County Agent Emerita
Keller, Don F., PhD, Professor Emeritus of Leadership, Technology, and Counselor Education
Kelly, Mary Ann, EdD, Professor Emerita of Nursing Science
Kennelly, John Willis, PhD, Alumni Professor Emeritus of Mathematical Sciences
Kennedy, William Joseph, PhD, Professor Emeritus of Industrial Engineering
Kesseler, George D., PhD, Professor Emeritus of Forest and Natural Resources
Kinder, Andrew Jackson, BA, County Extension Agent Emeritus
King, Grady Ansel, Jr., PhD, Professor Emeritus of Horticulture
King, Samuel C., PhD, Professor Emeritus of Languages
Kingman, Alta Randall, PhD, Professor Emeritus of Horticulture
Kingsland, Graydon Chapman, Sr., PhD, Professor Emeritus of Plant Pathology and Physiology
Kirkwood, Charles Edward, Jr., MS, Professor Emeritus of Mathematical Sciences
Kissam, John Benjamin, PhD, Professor Emeritus of Entomology
Klein, Richard Harold, PhD, Professor Emeritus of Finance
Kline, Ellis Lee, PhD, Professor Emeritus of Microbiology and Molecular Medicine
Kline, Judith Spiers, MS, Professor Emerita of Family and Youth Development
Kline, Priscilla Mackenzie, EdD, Professor Emerita of Nursing Science
Knapp, Ronald James, PhD, Alumni Professor Emeritus of Sociology
Knox, Sarah Stewart, BS, Associate District Extension Leader Emerita; Professor Emerita of Home Economics
Komo, John, PhD, Professor Emeritus of Electrical and Computer Engineering
Kopczyn, Ronald James, MSEE, Professor Emeritus of Engineering
Kozma, Ernest Joseph, EdD, Professor Emeritus of Education
Labecki, Geraldine, EdD, Dean Emeritus, College of Nursing; Professor Emeritus of Nursing
LaFleur, Kermit, PhD, Professor Emeritus of Agronomy and Soils
Lambert, Barbara Sherrill, BS, County Extension Agent Emeritus
Lambert, Jerry Roy, PhD, Professor Emeritus of Agricultural and Biological Engineering
Lambert, Robert Stansbury, PhD, Professor Emeritus of History
Lander, Ernest McPherson, Jr., PhD, Alumni Professor Emeritus of History
Lane, Carl Leaton, PhD, Professor Emeritus of Forestry
Lane, Samuel, County Extension Agent Emeritus
Laskar, Renu C., PhD, Professor Emerita of Mathematical Sciences
Lathrop, Jay Wallace, PhD, Professor Emeritus of Computer Engineering
LaTorre, Donald Rutledge, PhD, Professor Emeritus of Mathematical Sciences
LaTorre, Jeuel Gilliam, MA, Professor Emeritus of Mathematical Sciences
Law, E. Harry, PhD, Professor Emeritus of Mechanical Engineering
Lawson, John W., PhD, Professor Emeritus of Biological Sciences
Leathrum, James Frederick, PhD, Professor Emeritus of Electrical and Computer Engineering
Lee, Daniel Dixon, Jr., PhD, Professor Emeritus of Animal and Veterinary Sciences
Lee, Peter Roald, MArch, Alumni Distinguished Professor Emeritus of Architecture
Leembuis, Roger Phillip, PhD, Professor Emeritus of History
LeFort, Henry Gerard, PhD, Professor Emeritus of Ceramic Engineering
Leigh, Herbert D. III, PhD, Professor Emeritus of Materials Science and Engineering
Leonard, Michael S., PhD, Professor Emeritus of Industrial Engineering
Leonard, William H., PhD, Professor Emeritus of Teacher Education
Lester, Clarence Martin, BS, County Extension Agent Emeritus
Leuschner, William Albert, PhD, Professor Emeritus of Forest Resources
Lewis, Gordon, PhD, Professor Emeritus of Ceramic and Materials Engineering
Lewis, Stephen A., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Ligon, James Teddie, PhD, Professor Emeritus of Agricultural and Biological Engineering
Ling, Robert Francis, PhD, Professor Emeritus of Mathematical Sciences
Linville, Dale Edward, PhD, Professor Emeritus of Agriculture and Bioengineering
Locke, Ernest Lyle, County Extension Agent Emeritus
Loebenback, Joseph Girard, PhD, Professor Emeritus of Accounting
Lovedahl, Gerald Grey, PhD, Professor Emeritus of Technology and Human Resource Development
Loyd, Max Ira, PhD, Professor Emeritus of Agricultural and Applied Economics
Lukawekci, Stanley Michael, PhD, Professor Emeritus of Mathematical Sciences
Lumpkin, Oliver Reese, PhD, Professor Emeritus of Education
Macy, Jacques Berr, MAT, Professor Emeritus of French
Marbut, Samuel Alexander, BS, Professor Emeritus of Forestry
Martin, John Campbell, PhD, Professor Emeritus of Electrical and Computer Engineering
Martin, Mary Virginia, MA, Extension Associate Emeritus
Martini, Joseph Albert, PhD, Professor Emeritus of Agronomy and Soils
Marullo, Nicasio Philip, PhD, Professor Emeritus of Chemistry
Marvin, John Henry, Jr., MS, Professor Emeritus of Textiles
Mathews, Andrew Clark, PhD, Professor Emeritus of Botany
Mathis, Lee Terrell, Jr., Distinguished County Agent Emeritus
Matthews, James Edward, EdD, Dean Emeritus, College of Education; Professor Emeritus of Education
Matthewson, Charles, PhD, Chair and Professor Emeritus of Construction Science and Management
Maurer, Donald Edwin, EdD, Professor Emeritus of Industrial Education
Mazur, Anthony Robert, PhD, Professor Emeritus of Crop and Soil Environmental Sciences
McClain, Eugene Frederick, PhD, Professor Emeritus of Agronomy and Soils
McCollough, Joe Lawrence, PhD, Professor Emeritus of Philosophy
McConnell, James Calvin, Jr., PhD, Professor Emeritus of Animal and Veterinary Sciences
McCorcle, Linda Harris, BS, County Extension Agent Emerita
McCormac, Jack Clarke, LL.D, Alumni Professor Emeritus of Civil Engineering
McCUTCHEON, Gloria S., PhD, Professor Emerita of Entomology, Soils, and Plant Sciences
McDaniel, Martha Huggins, Andy County Extension Agent Emerita
McDowell, Helen Camp, JBA, County Extension Agent Emeritus
McGee, Charles McKinny, Jr., MA, Professor Emeritus of English
McGregor, Bob Roy, Jr., PhD, Professor Emeritus of English and Literature
McGregor, William Henry Davis, PhD, Dean Emeritus, College of Forest and Recreation Resources; Professor Emeritus of Forestry
McInnis, Thomas McLeod, Jr., PhD, Professor Emeritus of Biological Sciences
McLaughlin, John Joseph, PhD, Professor Emeritus of English
McLean, Edward Lee, PhD, Professor Emeritus of Agricultural and Applied Economics
McLellan, Margaret K., PhD, Associate Professor Emerita of Parks, Recreation, and Tourism Management
McLellan, Robert Wesley, PhD, Chair and Professor Emeritus of Parks, Recreation, and Tourism Management
McNatt, Jo Ann, PhD, Professor Emerita of French
Melsheimer, Stephen S., PhD, Professor Emeritus of Chemical Engineering
Melton, Judith M., PhD, Associate Dean and Professor Emerita of Languages
Menke, Warren Wells, PhD, Professor Emeritus of Management
Mercer, Robert Jack, EdD, Professor Emeritus of Agricultural Education
Miller, Ansel Eldon, PhD, Professor Emeritus of Forest Resources
Miller, Donald Piguet, PhD, Professor Emeritus of Physics
Miller, James Cleo, Jr., PhD, State Extension Leader Emeritus
Miller, Landon Carl, PhD, Professor Emeritus of Horticulture
Miller, Robert Walker, Jr., PhD, Professor Emeritus of Plant Pathology and Physiology
Miller, Yvonne Holliday, MS, Staff Development Specialist Emeritus
Mixon, Robert Floyd, MA, Professor Emeritus of Spanish
Montanucci, Richard R., PhD, Associate Professor Emeritus of Biological Sciences
Moran, Ronald Wesson, PhD, Associate Dean Emeritus, College of Architecture, Arts, and Humanities; Professor Emeritus of English
Morr, Charles Vernon, PhD, Sterling Professor Emeritus of Food Science
Moyle, David D., PhD, Associate Professor Emeritus of Bioengineering and Physics
Mullins, Joseph Chester, PhD, Professor Emeritus of Chemical Engineering
Murrow, Elizabeth Jean, PhD, Professor Emerita of Nursing
Nance, John William, BAg, County Extension Agent Emeritus
Newman, Alfred Franklin, EdD, Head and Professor Emeritus of Industrial Education
Nicholas, David M., Jr., PhD, Kathryn and Calhoun Lemon Professor Emeritus of History
Nicholson, James Harvey, MA, Professor Emeritus of Mathematical Sciences
Noblet, Gaye P., PhD, Professor Emeritus of Biological Sciences
Nolan, Clifford Newell, PhD, Professor Emeritus of Agronomy and Soils
Nunnery, Henry Grady III, MAg, County Extension Agent Emeritus
Odom, Stephen, Jr., MS, County Extension Director Emeritus
Ogle, Wayne Leroy, PhD, Professor Emeritus of Horticulture
Oglesby, Frances Madelynn, PhD, Professor Emerita of Nursing
Olive, Edward Fleming, EdD, Professor Emeritus of Education
Owens, Emma M., PhD, Professor Emeritus of Curriculum and Instruction
Owens, Rameth Richard, PhD, Professor Emerita of History
Owens, Walton Harrison, Jr., PhD, Professor Emeritus of Political Science
Owings, Marvin Alpheus, PhD, Head and Professor Emeritus of English
Oxendine, Laval, MS, County Extension Agent Emeritus
Padgett, Adrian Lewis, MS, Professor Emeritus of Agricultural Economics and Rural Sociology; Pee Dee Research and Education Center
Page, Edward W. III, PhD, Professor Emeritus of Computer Science
Page, Norwood Rufus, PhD, Head Emeritus of Agricultural Chemical Services Department; Professor Emeritus of Agronomy and Soils
Palmer, James Howell, PhD, Professor Emeritus of Agronomy and Soils
Pardue, Fred Eugene, PhD, Professor Emeritus of Animal, Dairy, and Veterinary Sciences
Pardue, John Cecil, Jr., BS, Area County Extension Agent Emeritus
Park, Lauretta Irene, PhD, Professor Emerita of Psychology
Parker, David Andrew, MS, County Extension Agent Emeritus
Parks, Clyde Leonard, PhD, Professor Emeritus of Agronomy and Soils

Parks, Thomas Ilon, PhD, Professor Emeritus of Educational Leadership

Pate, Dove Henry, Jr., EdD, Professor Emeritus of Technology and Human Resource Development

Patterson, Gordon W., MS, Professor Emeritus of Architecture

Paul, Frank Waters, PhD, McQueen, Quattab, Professor Emeritus of Mechanical Engineering

Paynter, Malcolm J., B., PhD, Professor Emeritus of Biological Sciences

Peck, John Charles, PhD, Professor Emeritus of Computer Science

Pennscoott, William Walter, EdD, Professor Emeritus of Education

Peppers, Larry G., PhD, Professor Emeritus of Sociology

Perry, Philip Rodney, MAgr, County Extension Agent Emeritus

Perry, Robert Lindsay, MME, Professor Emeritus of Engineering Technology

Pertuit, Alphon Joseph, Jr., PhD, Professor Emeritus of Horticulture

Pippins, Toni Scott, BS, Extension Associate Emerita

Pitner, John Bruce, PhD, Resident Director Emeritus, Pee Dee Research and Education Center; Professor Emeritus of Agronomy and Soils

Pivovar, Edward B., PhD, Professor Emeritus of Biological Sciences

Platts, Rebecca Gaines, BA, County Extension Director Emerita

Polk, George Merritt, Jr., MArch, Professor Emeritus of Architecture

Porter, John Jefferson, PhD, Professor Emeritus of Textiles, Fiber, and Polymer Science

Potts, Thomas D., PhD, Professor Emeritus of Parks, Recreation, and Tourism Management

Powell, Gary L., PhD, Professor Emeritus of Genetics and Biochemistry

Price, Dawn Louisa, BS, County Extension Agent Emerita

Privette, Charles Victor, Jr., MS, Professor Emeritus of Agricultural and Biological Engineering

Proctor, Thomas Gilmer, PhD, Professor Emeritus of Mathematical Sciences

Ransom, Rosa Mitchell, MS, County Extension Agent Emerita

Rathwell, P. James, PhD, Professor Emeritus of Applied Economics and Statistics

Ray, John Robert, PhD, Professor Emeritus of Physics and Astronomy

Reamer, Larry Donald, MS, Professor Emeritus of Forestry

Redman, Linda Louise, PhD, Professor Emeritus of Family and Youth Development

Reel, Jerome V., Jr., PhD, Senior Vice Provost, University Historian, and Professor Emeritus of History

Reese, Richard M., PhD, Professor Emeritus of Marketing

Reeves, Calvin Bright, MS, Professor Emeritus of Dairy Science

Regnier, Ireland Goldsmith, MFA, Professor Emeritus of Visual Arts

Reneker, James A., PhD, Professor Emeritus of Mathematical Sciences

Rhodes, Billy Beryl, PhD, Professor Emeritus of Horticulture

Rhodes, William Hancel, BS, Superintendent Emeritus, Sandhill Experiment Station; Professor Emeritus of Horticulture

Rich, Linvil Gene, PhD, Professor Emeritus of Environmental Systems Engineering

Richardson, Eleanor Joyce, MS, Professor Emeritus of Family and Youth Development

Richardson, Joel Landrum, MS, Professor Emeritus of Industrial Management

Richardson, John Coakley, EdD, Professor Emeritus of Special Education

Riley, John Davis, MS, Professor Emeritus of Horticulture

Rife, Lawrence Albert, MA, Professor Emeritus of Mathematical Sciences

Riley, Barbara Brunson, County Extension Agent Emerita

Ripley, Douglas V., PhD, Professor Emeritus of Materials Science and Engineering

Risher, Charles Franklin, BS, Professor Emeritus of Poultry Science

Roberson, Georgia Taylor, MED, State 4-H and Youth Development Coordinator Emerita; Professor Emeritus of Home Economics

Roberts, William Russell, MS, Professor Emeritus of 4-H and Youth Development

Robinette, David Lamar, PhD, Professor Emeritus of Forest Resources

Robinson, Lou Johnson, BA, County Extension Agent Emeritus

Robinson, Vernon Lee, PhD, Professor Emeritus of Forest Resources

Rogers, Clarence D., PhD, Swethaug Professor Emeritus of School of Materials Science and Engineering

Rogers, Ernest Brasington, Jr., MS, Professor Emeritus of Agricultural Education

Rogers, Hilton Vernard, MS, Head Emeritus, Fertilizer Inspection Department; Professor Emeritus of Agronomy and Soils

Rollin, Lucy Wadey, PhD, Professor Emeritus of English

Rollin, Roger Best, PhD, Lecturer Professor Emeritus of Literature

Rostron, Joseph Preph, MCE, Professor Emeritus of Civil Engineering

Rowal, Leon, MS, Director and Professor Emeritus of Soils

Ruckle, William Henry, PhD, Professor Emeritus of Mathematical Sciences

Rudisill, Carl Sidney, PhD, Professor Emeritus of Mechanical Engineering

Rudowski, Victor Anthony, PhD, Professor Emeritus of English

Ruf, William James, BS, County Extension Agent Emeritus

Ruggles, Janice Camlin, County Extension Agent Emerita

Ruppert, Edward Ernst, PhD, Professor Emeritus of Biological Sciences

Russell, C. Bradley, PhD, Professor Emeritus of Mathematical Sciences

Russell, Linda Latimer, MEd, Extension Regional Director Emerita

Russo, Kenneth John, MA, Professor Emeritus of Architecture

Ryan, Daniel Leo, PhD, Professor Emeritus of Engineering Graphics

Sabin, Guy Edward, MF, Professor Emeritus of Forest Resources

Savitsky, George Boris, PhD, Professor Emeritus of Chemistry

Sawyer, Corinne Holt, PhD, Professor Emerita of English

Sawyer, Raymond C., PhD, Professor Emeritus of Theatre

Schindler, James E., PhD, Professor Emeritus of Biological Sciences

Schmitt, Charles Daniel, EdS, Professor Emeritus of Technology and Human Resource Development

Schwartz, Arnold Edward, PhD, Dean Emeritus of Graduate School; Professor Emeritus of Civil Engineering

Scott, John Marshall, County Extension Agent Emeritus

Screen, Arnold, BS, County Extension Agent Emeritus

Sellers, Harold Calvin, BSIE, Professor Emeritus of Computer Science

Senn, David James, PhD, Professor Emeritus of Psychology

Senn, Louie Hampton, Jr., PhD, Director Emeritus of Regulatory and Public Service Programs

Sene, Taze Leonard, PhD, Head and Professor Emeritus of Horticulture

Seo, Kenzo, PhD, Professor Emeritus of Mathematical Sciences

Shelton, Carole Anne, MS, County Extension Agent Emerita

Sheriff, Jimmy Don, PhD, Senior Associate Dean and Professor Emeritus of Accounting

Sherrill, Max Douglas, PhD, Professor Emeritus of Physics

Shimel, William Alexander, PhD, State Extension Leader Emeritus

Shively, Jessup MacLean, PhD, Professor Emeritus of Biochemistry

Sias, Frederick Ralph, Jr., PhD, Professor Emeritus of Electrical and Computer Engineering

Simms, John Barber, MA, Professor Emeritus of English

Simon, Frederick Tyler, MS, Professor Emeritus of Textile Sciences

Skardel, Beverly Morton, NA, Professor Emeritus of English

Skelley, George Calvin, Jr., PhD, Professor Emeritus of Animal Science

Skelton, Billy Ray, PhD, Professor Emeritus of Economics

Skelton, Bobby Joe, PhD, Vice Provost and Dean Emeritus of Admissions and Registration; Professor Emeritus of Horticulture

Skelton, Thomas Eugene, PhD, Head and Professor Emeritus of Entomology

Skipper, Horace D., PhD, Professor Emeritus of Crop and Soil Environmental Science

Skeve, Malcolm John, PhD, Alumni Professor Emeritus of Physics

Slann, Martin Wayne, PhD, Chair and Professor Emeritus of Political Science

Sliog, Chevis Raymond, MS, County Extension Agent Emeritus

Smith, Bill Ross, PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences

Smith, Chester Roland, PhD, Professor Emeritus of Industrial Management

Smith, Claude, Jr., BS, County Extension Agent Emeritus

Smith, Daniel Bruce, PhD, Professor and Director of Extension Emeritus

Snell, Absalom West, PhD, Associate Director Emeritus, Agricultural Experiment Station; Professor Emeritus of Agricultural Engineering

Sneisire, Robert William, PhD, Professor Emeritus of Electrical and Computer Engineering

Sowell, Talley West, MS, County Extension Agent Emeritus

Spadoni, Rosemary Ann, MSN, Professor Emerita of Nursing

Spadling, Robert Emmet, Jr., MS, Extension Associate Emeritus

Spitzer, John C., PhD, Professor Emeritus of Animal and Veterinary Sciences

Spivey, Leslee David, BS, Distinguished County Extension Agent Emeritus

Spragins, John Diggs, PhD, Professor Emeritus of Electrical and Computer Engineering

Stafford, Georgeanne Hatch, County Extension Agent Emerita
Stanton, Lynn Arthur, PhD, Professor Emeritus of Agri-cultural and Applied Economics
Steadman, Mark Sidney, Jr., PhD, Alumni Distinguished Professor Emeritus of English and Writer in Residence

Young, Joseph Laurie, MArch, Professor Emeritus of Architecture

Zahner, Robert, PhD, Professor Emeritus of Forestry

Zehr, Eldon Irvin, PAD, Professor Emeritus of Plant Pathology and Physiology

Zielinski, Paul Bernard, PhD, Director Emeritus, Water Resource Research Institute; Professor Emeritus of Civil Engineering

Zimmerman, James Kenneth, PhD, Professor Emeritus of Biochemistry
APPENDIX

ENGLISH FLUENCY
Clemson University has established a policy to ensure that all instructional activities are conducted by individuals possessing appropriate proficiency in written and oral use of the English language. Instructional activities include lectures, recitation or discussion sessions, and laboratories. The individuals to be certified include full-time and part-time faculty, graduate teachers of record, graduate teaching assistants, and graduate laboratory assistants for whom English is not the first language.

A student who experiences difficulty with an instructor’s written or oral English and who wishes to seek relief must do so prior to the seventh meeting of a 50-minute class and prior to the fifth meeting of a 90-minute class in regular semesters. In the five-week summer sessions, relief must be sought prior to the third class meeting.

The procedure is summarized as follows:

a. The student must quickly bring the problem to the attention of the instructor’s department chair either directly or through a faculty member such as the student’s advisor. That department chair will assess the complaint and, if deemed valid, offer an appropriate remedy within two days.

b. A student who is not satisfied with the department chair’s decision or the relief suggested, may appeal within two days to a five-member hearing panel comprised of three faculty members and two students appointed by the Senior Vice Provost and Dean of Undergraduate Studies.

Students with questions should contact the Associate Dean of Undergraduate Studies, E-103 Martin Hall.

EQUAL OPPORTUNITY AFFIRMATIVE ACTION
Clemson University, in compliance with Titles VI and VII of the Civil Rights Act of 1964, as amended, Title IX of the Education Amendments of 1972, and Sections 503 and 504 of the Rehabilitation Act of 1973, does not discriminate on the basis of race, color, national origin, religion, sex, or disability in any of its policies, procedures, or practices; nor does the University, in compliance with the Age Discrimination in Employment Act of 1967, as amended, and Section 402 of the Vietnam Era Veterans Readjustment Act of 1974, discriminate against any employees or applicants for employment on the basis of their age or because they are disabled veterans or veterans of the Vietnam era. Clemson University conducts its programs and activities involving admission, access, treatment, employment, teaching, research, and public service in a nondiscriminatory manner as prescribed by Federal laws and regulations. In conformance with University policy and pursuant to Executive Order 11246, as amended, Section 503 of the Rehabilitation Act of 1973, and Section 402 of the Vietnam Era Veterans Readjustment Act of 1974, Clemson University is an Affirmative Action/Equal Opportunity Employer.

Inquiries concerning the above may be addressed to the following:

Director, Office for Civil Rights
Department of Education
Washington, DC 20020

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT
The Family Educational Rights and Privacy Act of 1974 (FERPA) affords eligible students certain rights with respect to their education records. They are as follows:

1. The right to inspect and review the student’s education records (provided the student has not waived this right) within 45 days of the day the University receives a request for access.

Students should submit the request to the registrar, dean, head of the academic department, or other appropriate official, a written request identifying the record(s) they wish to inspect.

The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request is submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading. Students may ask the University to amend a record that they believe is inaccurate or misleading. To challenge the accuracy of an education record, the student should write to the registrar or other University official responsible for the record and identify the part of the record he/she wants changed and specify why it is inaccurate or misleading. If the University official decides not to amend the record as requested by the student, the University official will notify his/her vice president. The vice president will then notify the student of his/her right to a hearing regarding the request for an amendment. Additional information regarding the hearing procedures will be provided to the student when notified of his/her right to a hearing.

Note: The challenge of a student under this paragraph is limited to information which relates directly to the student and which the student asserts is inaccurate or misleading. With regard to a student’s grade, this right does not permit the student to contest a grade on the grounds that a higher grade is deserved, but only to show that the grade has been inaccurately recorded.

3. The right to consent to the disclosure of personally-identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interest. A school official is a person employed by the University; a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another University official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibilities.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The right to consent to the disclosure of any category of information contained in the student’s education records that is not included in the directory is limited to students who were 13 years of age or older at the time of the disclosure.

The right to consent to the disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interest. A school official is a person employed by the University; a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another University official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibilities.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

The right to consent to the disclosure of any category of information contained in the student’s education records that is not included in the directory is limited to students who were 13 years of age or older at the time of the disclosure.

The right to consent to the disclosure of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibilities.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll.
FAMILY PERSONAL PRIVACY ACT

The South Carolina Family Personal Privacy Act (SC Code 30-2-10 et. seq.) defines personal information as “...information that identifies or describes an individual including, but not limited to, an individual’s photograph or digitized image, social security number, date of birth, driver’s identification number, name, home address, home telephone number, medical or disability information, education level, financial status, bank account(s) number(s), account or identification number issued by and/or used by any federal or state governmental agency or private financial institution, employment history, height, weight, race, other physical details, signature, biometric identifiers, and any credit records or reports.”

Some of the information in documents which students provide to Clemson University may be personal information as defined above. Pursuant to Section 30-2-40 B, students are advised that this information may be subject to public scrutiny or release. They are also advised that personally-identifiable information contained in these educational records falls under the federal Family Educational Rights and Privacy Act of 1974, as amended (FERPA). If students elect to opt out of the release of directory information under FERPA, the University will not release any personal information except as otherwise required or authorized by law.

PATENTS AND COPYRIGHTS

All students enrolling in Clemson University do so with full understanding that

1. The University has full ownership rights in any inventions, discoveries, developments and/or improvements, whether or not patentable (inventions), which are conceived, developed, or reduced to practice or caused to be conceived, developed, or reduced to practice by undergraduate students during the course of their academic activities conducted as part of any undergraduate curriculum. Any such invention will be handled by the University in the same manner as set forth in the Faculty Manual of Clemson University, the pertinent provision for which appears as Part IXB entitled “Patent Policy.”

2. Copyright ownership of any research work will be determined by University policy and by policies of organizations responsible for publishing or distributing copyrighted material.

Copies of the policies on patents and copyrights are available in the individual departments and colleges and in the Special Projects Office.

INFORMATION RESOURCES FOR STUDENTS

Clemson University computing resources are the property of Clemson University, to be used for University-related business. Students have no expectation of privacy when utilizing University computing resources, even if the use is for personal purposes. The University reserves the right to inspect, without notice, the contents of computer files, regardless of medium, the contents of electronic mailboxes, and computer conferencing systems, systems output, such as printouts, and to monitor network communication when

1. it is considered reasonably necessary to maintain or protect the integrity, security, or functionality of University or other computer resources or to protect the University from liability;
2. there is reasonable cause to believe that the users have violated this policy or otherwise misused computing resources;
3. an account appears to be engaged in unusual or unusually excessive activity;
4. it is otherwise required or permitted by law.

Use of University computing resources, including network facilities, account numbers, data storage media, printers, plotters, microcomputer systems, and software for computing activities other than those authorized by the University is strictly prohibited. Unauthorized use of such resources is regarded as a criminal act in the nature of theft, and violators are subject to suspension, expulsion, and civil and criminal prosecution.

The following are examples of misuse of computing resources:

1. Unauthorized duplication, distribution, or alteration of any licensed software. This includes software licensed by the University and licensed software accessed using the computing networks.
2. Attempting to gain unauthorized access to any computing resource or data, at Clemson or anywhere on the Internet, or attempting to disrupt the normal operation of any computing resource or network.
3. Attempting to use another student’s or employee’s computer account or data, without their permission.
4. Using the University electronic mail system to attack other computer systems, falsify the identity of the source of electronic mail messages; sending harassing, obscene, or other threatening electronic mail; attempting to read, delete, copy, or modify the electronic mail of others without their authorization; sending, without official University authorization, “for-profit” messages, chain letters, or other unsolicited “junk” mail.
5. Knowingly infecting any computing resource with a software virus.

6. Tampering with the University computer network or building wiring or installing any type of electronic equipment or software that could be used to capture or change information intended for someone else.
7. Participating in a “denial of service” attack on any other computer, whether on or off campus.
8. Using University computing or network resources for personal gain or illegal activities such as theft, fraud, copyright infringement, sound or video recording piracy, or distribution of child pornography or obscenities.

Any suspected violations of this policy or any other misuse of computer resources by students should be referred to the Office of Student Judicial Services. That office will investigate the allegations and take appropriate disciplinary action. Violations of law related to misuse of computing resources may be referred to the appropriate law enforcement agency.

Notwithstanding the above, the Division of Computing and Information Technology may temporarily suspend, block, or restrict access to an account, independent of University disciplinary procedures, when it appears reasonably necessary to do so in order to protect the integrity, security, or functionality of University or other computer resources, to protect the University from liability, or where the emotional or physical well-being of any person is immediately threatened. When DCIT unilaterally takes such action, it will immediately notify the account holder of its actions and the reason therefore in writing. The account holder may appeal the action taken by DCIT in writing to the vice provost of the Division of Computing and Information Technology.

Access will be restored to the account holder whenever the appropriate investigatory unit of the University determines that the protection of the integrity, security, or functionality of University or other computing resources has been restored and the safety and well being of all individuals can reasonably be assured, unless access is to remain suspended as a result of formal disciplinary action imposed through the Office of Student Judicial Services.
