**GENERAL EDUCATION**

An undergraduate student whose enrollment in a curriculum occurs after May 15, 2005, must fulfill the general education requirements in effect at that time. If a student withdraws from the University and subsequently returns or does not remain continuously enrolled (summers excluded), the requirements in effect at the time of return will normally prevail. Any variation in curricular or general education requirements shall be considered under the curriculum year change or the substitution procedure.

**MISSION STATEMENT**

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the intellectual and ethical development of students, and the general well-being of society. Undergraduate students must be broadly educated and technically skilled to be informed and productive citizens. As citizens, they need to be able to think critically about significant issues. Students also need to be prepared to complete undergraduate work and a major course of study. The mission requires a high level of knowledge about and competence in the following areas: communication, computer use, mathematics, problem solving, natural sciences, social sciences, humanities, and arts. Thus the mission of general education is to provide Clemson undergraduate students with a structured base through which these needs can be met.

**REQUIREMENTS**

General education requirements in some curricula are more restrictive than those shown below.

Science and Technology in Society and Cross-Cultural Awareness Requirements may be satisfied by other General Education courses, as indicated in the footnotes below.

Note: AP EC and ECON are considered the same field.

**VII. Cross-Cultural Awareness**

A A H 210, A S L 305, ANTH 201, AP EC 205, C H S H193, H209, GEOG 103, HIST 173, 193, HUM 309, I S 101, 210, MUSIC 210, 314, P A S 301, PO SC 102, 104, PSYCH 250, REL 101, 102, W S 103, or through a University-approved cross-cultural experience

**VIII. Science and Technology in Society**

**IX. Distributed Competencies**

Each degree program will integrate into the program of study competencies in the following areas and provide an integration plan which addresses competencies and implementation: Ethical Judgment; Information Technology; Reasoning, Critical Thinking, and Problem Solving.

**GENERAL EDUCATION COMPETENCIES**

Through the General Education experience at Clemson University, undergraduate students will accomplish the following:

**Written and Oral Communication Skills**

1. Demonstrate effective communication skills appropriate for topic, audience, and occasion

2. Compose coherent, well-supported, and carefully edited speeches, essays, or reports suitable for a range of different audiences and purposes

3. Employ the full range of the composition process, from rough draft to edited product

4. Incorporate both print and electronic resources into speeches, presentations, and written documents

**Mathematical, Scientific, and Technological Literacy**

1. Demonstrate mathematical literacy through solving problems, communicating concepts, reasoning mathematically, and applying mathematical or statistical methods using multiple representations

2. Develop an understanding of the principles and theories of a natural science and its applications

3. Explain and apply the methods of a natural science in laboratory or experimental settings

4. Apply information technologies to intellectual and professional development

5. Understand the role of science and technology in society
Arts and Humanities
1. Develop an understanding of the history and cultural contexts of the arts and humanities.
2. Examine the arts and humanities as expressions of the human experience
3. Experience and evaluate productions of the performing and visual arts

Social and Cross-Cultural Awareness
1. Develop an understanding of social science methodologies
2. Explore the causes and consequences of human actions
3. Develop an understanding of world cultures in historical and contemporary perspectives
4. Recognize the importance of language in cultural contexts

Reasoning, Critical Thinking, and Problem Solving
1. Summarize, analyze, and evaluate fictional and non-fictional texts
2. Differentiate deductive and inductive reasoning processes
3. Acquire and analyze information to determine its quality and utility
4. Recognize parallels between and among disciplines and apply knowledge, skills, or abilities learned in one discipline to another

Ethical Judgment
1. Demonstrate knowledge of what ethics is and is not, its relation to academic integrity, and its importance as a field of study
2. Demonstrate understanding of common ethical issues and construct a personal framework in which ethical decisions can be made in a systematic, reflective, and responsible way

The General Education competencies may be met in a variety of ways. In some areas, specific courses will be selected from a list of approved courses. In other areas, more flexibility is afforded to each degree program. In all cases, the Undergraduate Curriculum Committee will be the faculty body to define approval criteria, to approve courses as meeting these criteria, and to approve curricula as meeting these general education requirements.
