Searching for Course in the iROAR Course Catalog

In your web browser, type https://iroar.clemson.edu and press enter.

You will see the LOG IN screen:

Click “Current students, faculty and staff.”

On the page that appears, click “Registration” in the top bar...

...then under “Current and Future Terms,” click the iROAR button.

Click the “Faculty Services” Button.
Click the “Course Catalog” Button.

Select a term. While you do have to select a term, you will be viewing ALL active courses, not just those with sections scheduled for that term. It is best to select the current or most immediate future term to ensure the course list will be the most up-to-date. Once a term has been selected, press “Continue.”

You can now browse courses.

If you wish to see ALL active courses for the term you selected, enter no search criteria and simply click “Search.” This will return all active courses in alphabetical order:
If you wish to see all courses in a specific subject, enter the subject code or click in the “Subject” box and a drop-down subject menu will appear. Then click “Search” to return a listing of all courses with that particular subject code.

Note that you can search for multiple course subjects at a time by clicking multiple times in the Subject box:

If you wish to see a specific course, enter the subject and the Course Number and click “Search.” Only information for that specific course will be returned.

Once your search results have been returned, click on any course link for additional information about a specific course. A box will appear with Course Details for that course. Various links on the left can be clicked for information: Course description; Syllabus, Attributes (such as General Education, Honors, Variable Title, etc.); Restrictions (such as Field of Study or Program restrictions); Corequisites, Prerequisites, and Fees.
